§ 723.416 *Determination of 1953 base acreages and 1953 preliminary acreage allotments for old farms.* (a) The base acreage for an old farm shall be the average of the 1952 farm acreage allotment determined pursuant to §§ 723.316 to 723.328, inclusive, given a weight of four, and the acreage harvested on the farm in 1952, given a weight of one. The base acreage for an old farm may be increased or decreased if the community and county committees find that such increase or decrease is necessary to establish a base acreage for such farm which is fair and equitable in relation to the base acreages for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the total of the base acreages, as increased or decreased, for all old tobacco farms in the county shall not exceed one hundred and two percent (102%) of the total of the base acreages for all old tobacco farms in the county prior to the making of any such increase or decrease: *And provided further*, That no base acreage shall be (1) increased above the acreage capacity of shed space which is in usable condition and available for curing tobacco produced on the farm; (2) decreased below the smaller of the average acreage of tobacco harvested on the farm during the years 1951 and 1952 or the acreage capacity of shed space which is in usable condition and available for curing tobacco produced on the farm; or (3) less than 0.1 acre.

(b) The preliminary acreage allotment for any old farm shall be the base acreage for the farm, as increased or decreased under paragraph (a) of this section.

§ 723.417 *1953 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 723.416 shall be adjusted uniformly so that the total of such allotments plus the acreage available for adjusting acreage allotments for old farms pursuant to § 723.418 shall not exceed the State acreage allotment.

§ 723.418 *Adjustment of acreage allotments for old farms.* Notwithstanding the limitations contained in § 723.416, the farm acreage allotment for an old farm may be increased if the community and county committees find that such increase is necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available for increasing allotments under this section shall not exceed one percent of the total acreage allotted to all tobacco farms in the State for the 1952–53 marketing year.

§ 723.419 *Reduction of acreage allotment for violation of the marketing quota regulations for a prior marketing year.* (a) If tobacco was marketed or was permitted to be marketed in the 1951–52 marketing year as having been produced on the acreage allotment for any farm in fact was produced on a different farm, the acreage allotments established for both such farms for 1953 shall be reduced, as hereinafter provided, except that such reduction for any such farm shall not be made if the county committee determines that no person connected with such farm caused, aided, or acquiesced in such marketing.

(b) The operator of the farm shall furnish complete and accurate proof of the disposition of all tobacco produced on the farm at such time and in such manner as will insure payment of the penalty due at the time the tobacco is marketed and in the event of failure for any reason to furnish such proof, the acreage allotment for the farm shall be reduced, except that if the farm operator establishes to the satisfaction of the county and State committees that failure to furnish such proof of disposition was unintentional on his part and that he could not reasonably have been expected to furnish accurate proof of disposition, reduction of the allotment will not be required if the failure to furnish proof of disposition is corrected and payment of all additional penalty is made.

(c) Any such reduction shall be made with respect to the 1953 farm acreage allotment, provided it can be made at least 30 days prior to the beginning of the normal planting season for the county in which the farm is located as determined by the State committee. If the reduction cannot be so made effective with respect to the 1953 allotment, such reduction shall be made with respect to the farm acreage allotment next established for the farm where the reduction can be made within the time specified above.

(d) The amount of reduction in the 1953 allotment shall be that percentage which the amount of tobacco involved in the violation is of the respective farm marketing quota for the farm for the year in which the violation occurred. Where the amount of such tobacco involved in the violation equals or exceeds the amount of the farm marketing quota the amount of reduction shall be 100 percent. The amount of tobacco determined by the county committee to have been falsely identified or for which satisfactory proof of disposition has not been furnished shall be considered the amount of tobacco involved in the violation. If the actual production of tobacco on the farm is not known, the county committee shall estimate such actual production, taking into consideration the condition of the tobacco crop during production, if known, and the actual yield per acre of tobacco on other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar: *Provided*, That the estimate of such actual production of tobacco on the farm shall not exceed the harvested acreage of tobacco on the farm multiplied by the average actual yield on farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar. The actual yield of tobacco on the farm as so estimated by the county committee multiplied by the farm acreage allotment shall be considered the farm marketing quota for the purposes of this section. In determining the amount of tobacco for which satisfactory proof of disposition has not been shown in case the actual production of tobacco on the farm is not known, the amount of tobacco involved in the violation shall be deemed to be the actual production of tobacco on the farm, estimated as above, less the amount of tobacco for which satisfactory proof of disposition has been shown.

(e) If the farm involved in the violation is combined with another farm prior to the reduction, the reduction shall be applied to that portion of the allotment for which a reduction is required under paragraph (a) or (b) of this section.

(f) If the farm involved in the violation has been divided prior to the reduction, the reduction shall be applied to the allotments for the divided farms as required under paragraphs (a) and (b) of this section.

§ 723.420 *Reallocation of allotments released from farms (a) removed from agricultural production or (b) shifted from production of cigar-filler and binder (types 42–55) tobacco to production of shade-grown cigar-leaf (type 61) wrapper tobacco.* (a) The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain shall be placed in a State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland on the farm. The provisions of this paragraph shall not be applicable if (1) there is any marketing quota penalty due with respect to the marketing of tobacco from the farm or by the owner of the farm at the time of its acquisition by the Federal, State, or other agency; (2) any tobacco produced on such farm has not been accounted for as required by the Secretary; or (3) the allotment next to be established for the farm acquired by the Federal, State, or other agency would have been reduced because of false or improper identification of tobacco produced on or marketed from such farm.

(b) The allotment determined or which would have been determined for any land which has been used for the production of cigar-filler and binder (types 42–44, 51–55) tobacco but which will be used in 1953 for the production of cigar wrapper (type 61) tobacco shall be placed in a State pool and shall be available to the State committee to establish allotments pursuant to § 723.426.

§ 723.421 *Farms divided or combined.* (a) If land operated as a single farm in 1952 will be operated in 1953 as two or more farms, the 1953 tobacco acreage allotment determined or which otherwise would have been determined for the entire farm shall be apportioned among the tracts in the same proportion as the acreage of cropland available for the production of tobacco in each such tract in such year bore to the total number of acres of cropland available for the production of tobacco on the entire farm in such year, except that, upon recommendation of the county committee and with State committee approval and agreement of the interested parties in writing, the tobacco acreage allotment determined or which otherwise would have been determined for the entire farm may be apportioned among the tracts (1) in the same proportion as the five-year average acreage of tobacco harvested on each such tract during the years 1948-52 bore to the five-year average acreage of tobacco harvested on the entire farm during 1948-52 or (2), if the farm to be divided in 1953 consists of two or more tracts which were separate and distinct farms, or distinct portions of such farms, before being combined for 1952, in the same proportion that each contributed to the farm acreage allotment: *Provided*, That with the recommendation of the county committee and approval of the State committee and with the written agreement of all interested persons, the tobacco acreage allotment determined for a tract under the provisions of this paragraph may be increased or decreased by not more than the larger of one-tenth acre or 10 percent of the 1953 acreage allotment determined for the entire farm with corresponding increases or decreases made in the acreage allotment apportioned to the other tract or tracts.

(b) If two or more farms operated separately in 1952 are combined and operated in 1953 as a single farm, the 1953 allotment shall be the sum of the 1953 allotments determined for each of the farms comprising the combination.

(c) If a farm is to be divided in 1953 in settling an estate the allotment may be divided among the various tracts in accordance with paragraph (a) of this section, or on such other basis as the State committee determines will result in equitable farm allotments.

§ 723.422 *Determination of normal yields.* The normal yield for any old farm shall be that yield which the county committee determines is normal for the farm taking into consideration (a) the yields obtained on the farm during the five years 1946–51 for which data are available, (b) the soil and other physical factors affecting the production of tobacco on the farm, and (c) the yields obtained on other farms in the locality which are similar with respect to such factors.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 723.423 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 723.420, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 75 percent of the allotments for old farms which are similar with respect to land, labor, and equipment available for the production of tobacco, crop rotation practices, and the soil and other physical factors affecting the production of tobacco.

(b) Notwithstanding any other provisions of this section, a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) The farm operator shall have had experience during two of the past five years in the kind of tobacco for which an allotment is requested and such experience shall have been for the entire crop year beginning with the preparation of the plant bed and extending through preparation of the tobacco for market: *Provided*, That a farm operator who was in the armed services after September 16, 1940, shall be deemed to have met the requirements hereof if he has had such experience during one year either within the five years immediately prior to his entry into the armed services or within the five years immediately following his discharge from the armed services and if he files an application for an allotment within five crop years from date of discharge.

(2) The farm operator shall be largely dependent for his livelihood on the farm covered by the application.

(3) The farm covered by the application shall be the only farm owned or operated by the owner or farm operator for which a cigar-filler and binder (types 42–44 and 51–55) tobacco allotment is established for the 1953–54 marketing year.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One percent of the 1953 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quota into State acreage allotments.

§ 723.424 *Time for filing application.* An application for a new farm allotment shall be filed with the county committee prior to February 1, 1953, unless the farm operator was discharged from the armed services subsequent to December 31, 1952, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 723.425 *Determination of normal yields.* The normal yield for a new farm shall be that yield per acre which the county committee determines is nor-

mal for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

MISCELLANEOUS

§ 723.426 *Determination of acreage allotments and normal yields for farms (a) returned to agricultural production or (b) shifted from production of shade-grown cigar leaf (type 61) wrapper tobacco to production of cigar-filler and binder (types 42–44, 51–55) tobacco.* (a) Notwithstanding the foregoing provisions of §§ 723.411 to 723.425, the acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned to agricultural production in 1953 or which was returned to agricultural production in 1952 too late for the 1952 allotment to be established, shall be determined by one of the following methods:

(1) If the land is acquired by the original owner, any part of the acreage allotment which was or could have been established for such farm prior to its retirement from agricultural production which remains in the State pool (adjusted to reflect the uniform increases and decreases in comparable old farm allotments since the farm was acquired) may be established as the 1953 allotment for such farm by transfer from the pool, and if any part of the allotment for such land was transferred by the original owner through the State pool to another farm now owned by him, such owner may elect to transfer all or any part of such allotment (as adjusted) to the farm which is returned to agricultural production.

(2) If the land is acquired by a person other than the original owner, or if all of the allotment was transferred through the State pools to another farm and the original owner does not now own the farm to which the allotment was transferred, the farm returned to agricultural production shall be regarded as a new farm.

(b) Nothwithstanding the foregoing provisions of §§ 723.411 to 723.425, an allotment may be established by the county and State committees for a farm which in 1952 was producing shade-grown cigar-leaf (type 61) wrapper tobacco but on which cigar-filler and binder (types 42–44, 51–55) tobacco will be produced in 1953. The acreage used for such purpose will be limited to that placed in the State pool pursuant to § 723.420 (b). Any allotment established pursuant to this paragraph shall, to the extent of available acreage in such pool, be determined by the county and State committees so as to be fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. Allotments established pursuant to this paragraph are eligible for consideration for adjustments under § 723.418.

(c) The normal yield for any such farm, under paragraph (a) or (b) of this section, shall be that yield per acre which the county committee determines is reasonable for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

§723.427 *Approval of determinations made §§ 723.411 to 723.426.* The State committee will review all allotments and yields and may correct or require correction of any determinations made under §§ 723.411 to 723.426. All acreage allotments and yields shall be approved by the State committee and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by the State committee.

§ 723.428 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm may, within fifteen days after mailing of the official notice of the farm acreage allotment and marketing quota, file application with the county committee to have such allotment reviewed by a review committee. The procedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (Part 711 of this chapter) which are available at the office of the county committee.

Done at Washington, D. C., this 17th day of July 1952. Witness my hand and seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-7965; Filed, July 18, 1952; 8:52 a. m.]

[1023 (Maryland-53)-3]

PART 727—MARYLAND TOBACCO

MARYLAND TOBACCO MARKETING QUOTA REGULATIONS, 1953–54 MARKETING YEAR

GENERAL

Sec.
727.411 Basis and purpose.
727.412 Definitions.
727.413 Extent of calculations and rule of fractions.
727.414 Instructions and forms.
727.415 Applicability of §§ 727.411 to 727.429.

HARVESTED ACREAGE, ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

727.416 Determination of harvested acreage for old farms.
727.417 Determination of 1953 base acreages and 1953 preliminary acreage allotments for old farms.
727.418 1953 old farm tobacco acreage allotment.
727.419 Adjustment of acreage allotments for old farms.
727.420 Determination of harvested acreage for divided or combined farms.
727.421 Reallocation of allotments released from farms removed from agricultural production.
727.422 Farms divided or combined.
727.423 Determination of normal yields.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

727.424 Determination of acreage allotments for new farms.
727.425 Time for filing application.
727.426 Determination of normal yields.

MISCELLANEOUS

727.427 Determination of acreage allotments and normal yields for farms returned to agricultural production.
727.428 Approval of determinations made under §§ 727.411 to 727.427.
727.429 Application for review.

AUTHORITY: §§ 727.411 to 727.429 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 363, 52 Stat. 38, as amended, 47, as amended, 63; 7 U. S. C. 1301, 1313, 1363.

GENERAL

§ 727.411 *Basis and purpose.* The regulations contained in §§ 727.411 to 727.429 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of 1953 farm acreage allotments and normal yields for Maryland tobacco. The purpose of the regulations in §§ 727.411 to 727.429 is to provide the procedure for allocating on an acreage basis, the State marketing quota for Maryland tobacco for the 1953–54 marketing year among farms and for determining normal yields. Prior to preparing the regulations in §§ 727.411 to 727.429, public notice (17 F. R. 4896) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 727.411 to 727.429, which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 727.412 *Definitions.* As used in §§ 727.411 to 727.429, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *Committees.* (1) "Community committee" means the group of persons elected within a community as the community committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the community.

(2) "County committee" means the group of persons elected within a county as the county committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the county.

(3) "State committee" means the group of persons designated as the State committee of the Production and Marketing Administration, charged with the responsibility of administering Production and Marketing Administration programs within the State.

(b) *Farm.* "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee, in accordance with instructions issued by the Assistant Administrator for Production, Production and Marketing Administration, determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

(c) *New farm.* "New farm" means a farm on which tobacco will be produced in 1953 for the first time since 1947.

(d) *Old farm.* "Old farm" means a farm on which tobacco was produced in one or more of the five years 1948 through 1952.

(e) *Cropland.* "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes or will constitute, if tillage is continued, a wind erosion hazard to the community.

(f) *Operator.* "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(g) *Person.* "Person" means an individual, partnership, association, corporation, estate or trust or other business enterprise or other legal entity, and whenever applicable, a State, a political subdivision of a State, or any agency thereof.

(h) *Tobacco.* "Tobacco" means Maryland tobacco, type 32, as classified in Service and Regulatory Announcement No. 118 (Part 30 of this title) of the Bureau of Agricultural Economics of the United States Department of Agriculture. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths, shall be treated as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco.

§ 727.413 *Extent of calculations and rule of fractions.* All acreage allotments shall be rounded to the nearest one-tenth acre. Fractions of fifty-one thousandths of an acre or more shall be rounded upward, and fractions of five-hundredths of an acre or less shall be dropped. For example, 1.051 would be 1.1 and 1.050 would be 1.0.

§ 727.414 *Instructions and forms.* The Director, Tobacco Branch, Production and Marketing Administration, shall cause to be prepared and issued such forms as are necessary, and shall cause to be prepared such instructions as are necessary, for carrying out the regulations in this part. The forms and instructions shall be approved by, and the instructions shall be issued by, the Assistant Administrator for Production, Production and Marketing Administration.

§ 727.415 *Applicability of §§ 727.411 to 727.429.* Sections 727.411 to 727.429 shall govern the establishment of farm acreage allotments and normal yields for tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1953. The applicability of §§ 727.411 to 727.429 is contingent upon the proclamation of a national marketing quota for Maryland tobacco by the Secretary, and the approval thereof by growers voting in a referendum pursuant to section 312 of the Agricultural Adjustment Act of 1938, as amended.

HARVESTED ACREAGE, ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 727.416 *Determination of harvested tobacco acreage for old farms.* The county committee shall determine from the best available data the acreage of tobacco harvested on each old tobacco farm for each of the years 1948–52. Data for making such determinations shall be taken from county office records, producers' sales records, producers' reports, and estimates of other persons having knowledge of tobacco produced on the farm. In determining the harvested acreage for any year, due allowance shall be made for drought, flood, hail, other abnormal weather conditions, and plant bed and other diseases.

§ 727.417 *Determination of 1953 base acreages and 1953 preliminary acreage allotments for old farms.* (a) The base acreage for an old farm shall be the largest of the following:

(1) The average acreage of tobacco harvested on the farm in the five years 1948–52, except that if the five-year average is in excess of the three year, 1950–52, average, it shall be reduced to the larger of such three-year average or 50 percent of the five-year average;

(2) 90 percent of the average acreage of tobacco harvested on the farm in the past three years 1950–52; or

(3) 50 percent of the acreage of tobacco harvested on the farm in 1952.

The base acreage for an old farm may be increased or decreased if the community and county committees find that such increase or decrease is necessary to establish a base acreage for such farm which is fair and equitable in relation to the base acreages for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, or other diseases; land, labor, and equipment available for the production of tobacco: crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the total of the base acreages, as increased or decreased, for all old tobacco farms in the county shall not exceed one hundred and two percent (102%) of the total of the base acreages for all old tobacco farms in the county prior to the making of any such increase or decrease: *And provided further*, That no base acreage shall be (i) increased above the smaller of the average acreage of tobacco produced on the farm during the three highest of the years 1948–52, inclusive, or the acreage capacity of shed space which is in usable condition and available for curing tobacco produced on the farm; (ii) decreased below the smaller of the average acreage of tobacco harvested on the farm during the years 1951 and 1952 or the acreage capacity of shed space which is in usable condition and available for curing tobacco produced on the farm without the written permission of the farm operator; or (iii) less than 0.1 acre.

(b) The preliminary acreage allotment for any old farm shall be the base acreage for the farm, as increased or decreased under paragraph (a) of this section.

§ 727.418 *1953 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 727.417 shall be adjusted uniformly so that the total of such allotments plus the acreage available for adjusting acreage allotments for old farms pursuant to § 727.419 shall not exceed the State acreage allotment: *Provided*, That if the acreage allotment so determined for any farm (except farms operated, controlled, or directed by a person who also operates, controls, or directs another farm on which tobacco is produced) is less than that acreage which, with the normal yield for the farm, would produce 2,400 pounds of tobacco, then such acreage allotment shall be increased to the smaller of (a) 120 percent thereof, or (b) the acreage which, with the normal yield for the farm, would produce 2,400 pounds of tobacco.

§ 727.419 *Adjustment of acreage allotments for old farms.* Notwithstanding the limitations contained in § 727.418, the farm acreage allotment for an old farm may be increased if the community and county committees find that such increase is necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available for increasing allotments under this section shall not exceed 2 percent of the 1953 State acreage allotment.

§ 727.420 *Determination of harvested acreage for divided or combined farms.* (a) If land operated as a single farm in any of the five years 1948–52 has since been divided into two or more tracts, the harvested acreage of tobacco for the farm for the respective years in which the land was operated as a single farm shall be apportioned among the tracts in the same proportion as the acreage of cropland suitable for the production of tobacco in each tract in such year bore to the total number of acres of cropland suitable for the production of tobacco on the entire farm in such year, except

that, upon recommendation of the county committee, and with State committee approval and agreement of the interested parties in writing, the harvested acreage of tobacco for the farm for the respective years in which the land was operated as a single farm may be apportioned among the tracts in the same proportion as the average acreage of tobacco harvested on each such tract bore to the average of the acreage of tobacco harvested on the entire farm in such years.

(b) If land operated as two or more farms in any of the five years 1948–52 has since been combined into one farm, the harvested acreage of tobacco for the farm shall be the sum of the harvested acreage on the separate tracts.

§ 727.421 *Reallocation of allotments released from farms removed from agricultural production.* The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain shall be placed in a State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland on the farm.

§ 727.422 *Farms divided or combined.* (a) If land operated as a single farm in 1952 will be operated in 1953 as two or more farms, the 1953 preliminary tobacco acreage allotment determined or which otherwise would have been determined for the entire farm shall be apportioned among the tracts in the same proportion as the acreage of cropland available for the production of tobacco in each such tract in such year bore to the total number of acres of cropland available for the production of tobacco on the entire farm in such year, except that, upon recommendation of the county committee, and with State committee approval and agreement of the interested parties in writing, the preliminary tobacco acreage allotment determined or which otherwise would have been determined for the entire farm may be apportioned among the tracts in the same proportion as the 1948–52 five-year average acreage of tobacco harvested on each such tract bore to the 1948–52 five year average acreage of tobacco harvested on the entire farm: *Provided*, That with the recommendation of the county committee and approval of the State committee and with the written agreement of all interested persons, the preliminary tobacco acreage allotment determined for a tract under the provisions of this paragraph may be increased or decreased by not more than the larger of one-tenth acre or 10 percent of the 1953 preliminary acreage allotment determined for the entire farm with corresponding increases or decreases made in the preliminary acreage allotment apportioned to the other tract or tracts.

(b) If two or more farms operated separately in 1952 are combined and operated in 1953 as a single farm, the 1953 preliminary allotment shall be the sum of the 1953 preliminary allotments determined for each of the farms comprising the combination.

(c) If a farm is to be divided in 1953 in settling an estate, the preliminary allotment may be divided among the various tracts in accordance with paragraph (a) of this section, or on such other basis as the State committee determines will result in equitable farm allotments.

§ 727.423 *Determination of normal yields.* The normal yield for any old farm shall be that yield which the county committee determines is normal for the farm taking into consideration (a) the yields obtained on the farm during the years 1946–51 for which data are available, (b) the soil and other physical factors affecting the production of tobacco on the farm; and (c) the yields obtained on other farms in the locality which are similar with respect to such factors.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 727.424 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 727.421, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop-rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 75 percent of the allotments for old tobacco farms which are similar with respect to land, labor, and equipment available for the production of tobacco, crop-rotation practices, and the soil and other physical factors affecting the production of tobacco.

(b) Notwithstanding any other provisions of this section a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) The farm operator shall have had experience during two of the past five years in the kind of tobacco for which an allotment is requested and such experience shall have been for the entire crop year beginning with the preparation of the plant bed and extending through preparation of the tobacco for market: *Provided*, That a farm operator who was in the armed services after September 16, 1940, shall be deemed to have met the requirements hereof if he has had such experience during one year either within the five years immediately prior to his entry into the armed services or within the five years immediately following his discharge from the armed services and if he files an application for an allotment within five crop years from date of discharge.

(2) The farm operator shall be largely dependent for his livelihood on the farm covered by the application.

(3) The farm covered by the application shall be the only farm owned or operated by the owner or farm operator for which a Maryland tobacco allotment is established for the 1953–54 marketing year; and

(4) The farm will not have a 1953 allotment for any kind of tobacco other than that for which application is made under this part.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One percent of the 1953 national marketing quota shall, when converted to an acreage allotment by the use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quota into State acreage allotments.

§ 727.425 *Time for filing application.* An application for a new farm allotment shall be filed with the county committee prior to February 1, 1953, unless the farm operator was discharged from the armed services subsequent to December 31, 1952, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 727.426 *Determination of normal yields.* The normal yield per acre for a new farm shall be that which the county committee determines is normal for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

MISCELLANEOUS

§ 727.427 *Determination of acreage allotments and normal yields for farms returned to agricultural production.* (a) Notwithstanding the foregoing provisions of §§ 727.411 to 727.426, the preliminary acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned to agricultural production shall be the sum of the acreages of tobacco harvested on the farm during the five years 1948–52 divided by the number of years for which tobacco was harvested on the farm during such five-year period. If no tobacco was harvested on the farm during the five years 1948–52, the farm returned to agricultural production shall be regarded as a new farm.

(b) The normal yield for any such farm shall be that yield per acre which the county committee determines is reasonable for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

§ 727.428 *Approval of determinations made under §§ 727.411 to 727.427.* The State committee will review all allotments and yields and may correct or require correction of any determinations made under §§ 727.411 to 727.427. All acreage allotments and yields shall be approved by the State committee, and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by the State committee.

§ 727.429 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm, may, with fifteen days after mailing of the official notice of farm acreage allotment and marketing quota, file application with the county committee to have such allotment reviewed by a review committee. The procedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (Part 711 of this chapter) which are available at the office of the county committee.

Done at Washington, D. C., this 17th day of July 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Cauliflower Order 1-1952]

PART 910—FRESH PEAS AND CAULIFLOWER GROWN IN ALAMOSA, RIO GRANDE, CONEJOS, COSTILLA, AND SAGUACHE COUNTIES IN COLORADO

REGULATION BY GRADES AND SIZES

§ 910.317 *Cauliflower Order 1-1952*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 67 and Order No. 10, as amended (7 CFR Part 910), regulating the handling of fresh peas and cauliflower grown in Alamosa, Rio Grande, Conejos, Costilla, and Saguache Counties in Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Administrative Committee, established pursuant to said marketing agreement and amended order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of cauliflower, in the manner set forth in this section, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted, under the circumstances, for such preparation, and (v) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period July 10, 1952 to October 15, 1952, both dates inclusive, no handler shall handle cauliflower grown in Alamosa, Rio Grande, Conejos, Costilla, and Saguache Counties in the State of Colorado that does not meet the requirements of the U. S. No. 1, or better grade, 4 inches, or larger diameter.

(2) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 67 and Order No. 10, as amended (7 CFR Part 910) or the U. S. Standards for Cauliflower (7 CFR 51.171), including the tolerances set forth therein.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 16th day of July 1952, to be effective July 20, 1952.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Branch.

[F. R. Doc. 52-7954; Filed, July 18, 1952; 8:52 a. m.]

[Lemon Reg. 444]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.551 *Lemon Regulation 444*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on July 16, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 20, 1952 and ending at 12:01 a. m., P. s. t., July 27, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 600 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 443 (17 F. R. 6243) and made a part of this section by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 17th day of July 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

AUTHORITY: §§ 986.1 to 986.113, issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

§ 986.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* (1) The findings hereinafter set forth are supplementary, and in addition, to the findings and determinations which were previously made in connection with the original issuance of the marketing agreement and order (14 F. R. 3660); and said previous findings and determinations are hereby ratified and confirmed except the finding with respect to the base period for the parity determination, and except insofar as such findings and determinations may be in conflict with the findings set forth herein.

(2) The order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(3) The order, as hereby amended, will be applicable only to persons in the respective classes of industrial and commercial activities specified, or necessarily included, in the proposals upon which the amendment hearing was held; and

(4) There are no differences in the production and marketing of hops in the production area covered by this order, as herein amended, which make necessary different terms applicable to different parts of such area.

(b) *Additional findings.* It is hereby further found that it is impracticable and contrary to the public interest to postpone the effective date of this amended order until 30 days after its publication in the FEDERAL REGISTER (see 5 U. S. C. 1001 et seq.). The amended order makes substantial changes in the existing regulation. Important actions of the Control Board are required to be taken thereunder not later than August 1. Harvesting of hops usually begins during the first half of August. As much time as is practicable before August 1 will be needed by the Control Board for it to prepare for the submission of appropriate recommendations and the taking of other necessary actions for the regulation of hops and hop products during the coming marketing season. In these circumstances, it is necessary that the amended order be made effective on the date of its publication in the FEDERAL REGISTER. The provisions of the amended order are well known to the growers and handlers of hops, since the public hearing on the amendments was held in March 1952, and the Recommended Decision and the Decision were published in the FEDERAL REGISTER on June 6, 1952 (17 F. R. 5163) and July 2, 1952 (17 F. R. 5955), respectively; and all known interested parties have been furnished copies of this amended regulation. Therefore compliance with the provisions of the amended order will not require any advance preparation by any interested persons, since they have already had ample opportunity to make such preparations.

(c) *Determinations.* It is hereby determined that:

(1) The marketing agreement, as amended, regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States, which included the amendments upon which the aforesaid public hearing also was held, has been executed by handlers (excluding cooperative associations of producers which are not engaged in processing, distributing, or shipping hops or hop products covered by this amended order) who handled not less than 50 percent of the volume of such hops and hop products covered by this amended order;

(2) The issuance of this amended order is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (August 1, 1951, through June 30, 1952), were engaged, within the States of Oregon, California, Washington, and Idaho, in the production for market of hops; and

(3) The issuance of this amended order is favored or approved by producers who participated in a referendum on the question of its approval and who, during the aforesaid representative period, produced for market at least two-thirds of the volume of hops represented in such referendum and produced within the States of Oregon, California, Washington, and Idaho.

Order relative to handling. It is, therefore, ordered, that the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States shall, from the effective time of this amended order, be in conformity to, and in compliance with, the terms and conditions of this amended order:

DEFINITIONS

§ 986.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be, authorized to perform the duties of the Secretary under the act.

§ 986.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 61 Stat. 208, 707).

§ 986.3 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 986.4 *Hops.* "Hops" means, except as otherwise specifically indicated in this subpart, the pistillate cones, either in the green or the dried state, of the vine Humulus lupulus or Humulus americanus grown in the States of Oregon, California, Washington, or Idaho.

§ 986.5 *Hop product.* "Hop product" means any substance which is (a) derived, either in whole or in part, from hops, including, but not limited to, any form of lupulin, lupulin sweepings, hop oil, or hop extracts or concentrates, and (b) capable of being used for a purpose for which hops are used.

§ 986.6 *Grower.* "Grower" is synonymous with "producer," and means any person who or which is engaged in a proprietary capacity in the commercial production of hops, and who or which is an individual, partnership, corporation, association, or any other business unit who or which: (a) Owns and farms land, resulting in his or its ownership of the hops produced thereon; (b) rents and farms land, resulting in his or its ownership of all or a portion of the hops produced thereon; or (c) owns land which he or it does not farm and, as rental for such land, obtains the ownership of a portion of the hops produced thereon. Ownership of, or leasehold interest in land, and the acquisition, in any manner other than as set forth in this section, of legal title to hops grown thereon shall not be deemed to result in such owners or lessees becoming producers. For the purpose of this definition, the term "partnership" shall be deemed to include a husband and wife, and any others, with respect to land the title to which, or the leasehold interest in which, is vested in them as tenants in common, joint tenants, tenants by the entirety, or, under community property laws, as community property.

§ 986.7 *Dealer.* "Dealer" means any person, other than a grower or brewer, who is a handler of hops or hop products for his or its own account.

§ 986.8 *Grower-dealer.* "Grower-dealer" means any grower, other than a brewer, who is a handler for his or its own account of any hops or hop products other than those of his or its own production: *Provided*, That handling transactions pursuant to § 986.81 shall not be within this definition.

§ 986.9 *Brewer.* "Brewer" means any person who uses hops or any hop product in manufacturing any malt beverage for commercial purposes.

§ 986.10 *Handler.* "Handler" means any person who, either personally or through another person, handles hops or any hop product: *Provided*, That a person who handles hops which have been previously certificated and handled by another person shall not thereby be deemed to be a handler with respect to such hops.

§ 986.11 *Handle.* "Handle" means, except as provided in § 986.81, (a) to market, ship, or transport (except as a common or contract carrier for others) to or for market, or to use, any hops or hop product, or (b) to purchase, take consignment of, accept delivery of (except as a common or contract carrier) in connection with a purchase or sale or otherwise acquire, within the States of Oregon, California, Washington, or Idaho, hops or any hop product from a grower or any other person.

§ 986.12 *Consumptive demand.* "Consumptive demand" means that quantity of hops and hop products (expressed in terms of dried hops) which it is anticipated will be required in all trade outlets, both domestic and foreign, during the period September 1 of the respective year through the following August 31.

§ 986.13 *Marketing season.* "Marketing season" means the 12 months from August 1 to the following July 31, both dates inclusive.

§ 986.14 *Federal-State inspection service.* "Federal-State inspection service" means that inspection service on hops or hop products which is performed within the States of Oregon, California, Washington, or Idaho by the United States Department of Agriculture or by said Department under a cooperative arrangement with any of such States pursuant to authority contained in any act of Congress.

§ 986.15 *Part and subpart.* "Part" means the order regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States, and all rules, regulations, and supplementary orders issued thereunder. This order regulating the handling of hops grown in Oregon, California, Washington, and Idaho, and of hop products produced therefrom in these States shall be a "subpart" of such part.

HOP CONTROL BOARD

§ 986.20 *Establishment.* A Control Board consisting of eighteen members, with an alternate member for each such member, is hereby established to administer the terms and provisions of this subpart, of whom, with their respective alternates, nine shall represent growers of hops, two shall represent grower-dealers, three shall represent dealers, and four shall represent brewers. The grower members of the Control Board shall be growers of hops who are not grower-dealers, of whom three shall be growers of hops in and residents of the States of Oregon or Idaho, three shall be growers of hops in and residents of the State of California, and three shall be growers of hops in and residents of the State of Washington. One of the grower-dealer members of the Control Board shall be a grower-dealer having his or its principal office in that regard in the States of Oregon, California, Washington, or Idaho, and the other grower-dealer member shall be a grower-dealer having his or its principal office in that regard outside of such States. Each of the four brewer members of the Control Board shall be a brewer. Each of the three dealer members of the Control Board shall be a dealer in hops. An officer, agent, or employee of a business unit other than an individual person shall be eligible for membership or alternate membership on the Control Board in the category in which such business unit belongs pursuant to the provisions of this section. No person shall be selected as a member or alternate member of the Control Board who is not actively engaged, as his principal business occupation, in the business of the group which he represents, and may be an officer, agent, or employee of a business unit engaged in such business.

§ 986.21 *Designation of original members and alternates.* The original members of the Control Board, and their respective alternates, shall be selected by the Secretary, subject to the requirements as to district representation, occupation, and residence which are set forth in § 986.20, and shall serve for a term ending on March 31, 1950, except that, if the respective successor to such original member or alternate member has not been selected and qualified by March 31, 1950, such original member or alternate member shall serve until his respective successor has been selected and has qualified. For the consideration of the Secretary in making such selection, nominations for original members and alternate members of the Control Board may be submitted to him not later than the date on which this subpart is issued by the Secretary, but may be submitted prior thereto. Nominations for the original nine grower members and their alternates may be made by any grower, or by any association or other group of growers. Nominations for the original two grower-dealer members and their alternates may be made by any grower-dealer, or by any group of grower-dealers. Nominations for the original four brewer members and their alternates may be made by any brewer, or by any organization of brewers. Nominations for the original three dealer members and their alternates may be made by any dealer, or by any group of dealers. However, the Secretary, in making his selection of the original members and their alternates shall not be bound to make such selections from nominations thus received, but he shall make such selections in his discretion.

§ 986.22 *Nomination and selection of successor members and alternates*—(a) *General.* Members and alternates of the Control Board selected for terms commencing April 1, 1950, and thereafter, shall serve for terms of two years ending March 31 or until such time thereafter as their successors have been selected and have qualified. Selection of successor members of the Control Board and their alternates shall be made by the Secretary for each of the aforementioned groups from the nominations submitted for that purpose by the respective groups and or from among other qualified persons. Such nominations for each respective group shall be made to the Secretary on or before March 1 of each election year in the manner described in this section.

(b) *Grower members.* Each of the growers Advisory Committees, established pursuant to § 986.40, shall nominate to the Secretary the names of three qualified persons as grower members, and three qualified persons as their alternates, from the State or States represented by the respective committee. The persons receiving in consecutive order the highest number of votes for members

shall be the nominees for members of the respective committees, and a corresponding provision shall apply to nominees for alternate members.

(c) *Grower-dealer member, Western.* The grower-dealers whose principal offices are within the States of Oregon, California, Washington, or Idaho, shall nominate to the Secretary, by means of an election in which all (and only) such grower-dealers shall be entitled to participate on the basis of one vote for each full bale of hops (including hop products expressed in terms of dried hops) handled by the particular grower-dealer during the next preceding marketing season, one qualified person as the grower-dealer member, and one qualified person as his alternate.

(d) *Grower-dealer member, Eastern.* The grower-dealers whose principal offices are outside the States of Oregon, California, Washington, or Idaho, shall nominate to the Secretary, by means of an election in which all (and only) such grower-dealers shall be entitled to participate on the basis of one vote for each full bale of hops (including hop products expressed in terms of dried hops) handled by the particular grower-dealer during the next preceding marketing season, one qualified person as grower-dealer member, and one qualified person as his alternate.

(e) *Dealer members.* The dealers shall nominate to the Secretary by means of elections in which all (and only) dealers shall be entitled to participate on the basis of one vote for each full bale of hops (including hop products expressed in terms of dried hops) handled by the particular dealer, as the first handler thereof, other than a grower, and for that dealer's own account, during the next preceding marketing season, three qualified persons as dealer members and three qualified persons as their alternates. Nominations for one of such members and his alternate shall be made by each of the following categories of dealers: (1) Those handling less than 10,000 bales of hops (including hop products expressed in terms of dried hops) during the next preceding marketing season; (2) those handling between 10,000 and 25,000 bales of hops (including hop products expressed in terms of dried hops) during the next preceding marketing season; and (3) those handling over 25,000 bales of hops (including hop products expressed in terms of dried hops) during the next preceding marketing season.

(f) *Brewer members.* Of the four qualified persons to be nominated by the brewers for selection as brewer members of the Control Board, and their respective alternates, two of such nominations for members and their respective alternates may be made to the Secretary by the United States Brewers Foundation, Inc., whose present office address is 21 East Fortieth Street, New York, N. Y., and two such nominations for members, and their respective alternates, may be made by the Small Brewers' Association, whose present office address is 188 West Randolph Street, Chicago, Ill. However, nominations may also be made by any individual brewer or by any other associations or groups of brewers.

(g) *Elections of nominees for membership.* Each election for the purpose of nominating grower, grower-dealer and dealer members or alternates of the Control Board to succeed those whose terms of office expire on March 31 of any year, shall be held on or before the preceding March 1, and shall be conducted and supervised by the Control Board. Regulations prescribing the method or methods for, and the rules governing the election of nominees as provided for in this section, and which shall assure to all persons eligible to take part in such elections reasonable opportunity to select candidates and to vote for nominees, shall be adopted by the Control Board and submitted to the Secretary on or before November 1, 1949; and such regulations as shall be approved by the Secretary shall govern each such election. Reports of the results of elections of nominees shall be submitted to the Secretary by the Control Board.

(h) *Time limitation on nominations.* In the event any of the group nominations are not submitted to the Secretary within twenty days after the time specified in paragraph (a) of this section, the Secretary may select each such member or alternate without waiting for the nomination or nominations to be made. If no qualified person is available from any category in any such group, the Secretary may appoint such member or alternate from another category within such group.

(i) *Qualification of members and alternates.* Each person selected as a member or alternate of the Control Board, including original members and alternates, shall promptly qualify by filing with the Secretary a written acceptance of the appointment. The failure of an appointee to qualify within twenty days after the appointment of such person shall be cause for the Secretary to appoint another person in his stead.

(j) *Qualifications requirements for alternates.* Each alternate shall meet the same qualifications, be nominated and selected in the same manner, and hold office for the same term, as the member for whom he is an alternate. An alternate for a member of the Control Board shall, in the event of that member's absence, act in the place and stead of that member; and in the event of such member's removal, resignation, disqualification, or death, the alternate for such member shall act in the place and stead of said member until a successor for the unexpired term of said member has been selected.

(k) *Substitutes for members or alternates.* In the event any member of the Control Board and his alternate are both unable or fail to attend a meeting of the Control Board, any alternate for any other member of the same group as that represented by the absent member may be designated by the absent member to serve in the stead of the absent member, or pending such designation the Secretary may designate such temporary substitute.

§ 986.23 *Vacancies.* To fill any vacancy which occurs by reason of the failure of any person, selected as a member of the Control Board or as an alternate member thereof, to qualify, or the death, removal, resignation, or disqualification of any qualified member or alternate member of the Control Board, a successor for his unexpired term of office shall be nominated and selected (insofar as is appropriate) in the manner specified in this subpart, for the nomination and selection of successors to the initial members and alternate members of the Control Board representing the same industry group as was represented by the respective member or alternate member thus to be succeeded. In the event such nomination for vacancy is not made within thirty days after the beginning of the vacancy, the Secretary may select a person to fill such vacancy without waiting for the nomination to be made.

§ 986.24 *Compensation.* The members of the Control Board, and their respective alternates, shall serve without compensation, but shall be reimbursed for expenses necessarily incurred in the performance of their duties under this part.

§ 986.25 *Powers.* The Control Board shall have the following powers:

(a) To administer the provisions of this subpart in accordance with their terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart; and

(d) To recommend to the Secretary amendments of this subpart.

§ 986.26 *Duties.* The duties of the Control Board shall be, among others, as follows:

(a) *Intermediary.* To act as intermediary between the Secretary and any grower, handler, dealer, grower-dealer, or brewer;

(b) *Minutes, books and records.* To keep minutes, books, and other records which will clearly reflect all of its acts and transactions, and which shall be subject at any time to examination by the Secretary or his designated representative;

(c) *Scientific studies and research.* To provide, subject to prior approval by the Secretary, for the making of scientific and other studies and for the conducting of research appropriate in connection with the performance of its official duties;

(d) *Assembling data.* To gather and assemble data on the growing, handling, shipping and marketing conditions relative to hops and hop products, appropriate or desirable in connection with the performance of its official duties;

(e) *Information.* To furnish to the Secretary such available information with respect to hops as the Board may deem appropriate or as the Secretary may request;

(f) *Audit.* To cause the books and other records of the Control Board to be audited by one or more competent accountants at least once each marketing season and at such other times as the Control Board may deem necessary, or as the Secretary may request, and to file with the Secretary a copy of each audit report made;

(g) *Managing agent.* To employ a managing agent who, during his employment as such, shall not be a grower, dealer, grower-dealer, or brewer, nor in the employment thereof or financially interested in the production of, dealing in, or use of hops and hop products, and who shall serve as the Secretary of the Control Board and the secretary of the Growers Allocation Committee and shall have such other duties as are specified for him herein or by the Control Board; and to employ or retain such other employees, agents, and representatives as the Control Board may deem necessary; and to determine the salaries and define the duties of such managing agent, employees, agents and representatives;

(h) *Notice to Secretary of meetings.* To give to the Secretary the same notice of meetings of the Control Board as is given to the members of the Control Board; and

(i) *Issuance of necessary regulations.* To issue, with the approval of the Secretary, any regulations which are necessary and appropriate for the carrying out of the provisions of this subpart in accordance with their terms.

§ 986.27 *Procedure—*(a) *Rules and officers.* The Control Board shall adopt rules governing the performance of its powers and duties under this part, and shall select a chairman and such other officers as it may deem advisable.

(b) *Quorum.* A quorum shall consist of twelve members, or alternate members or substitutes then serving in the place and stead of any members, in attendance at the meeting, and all decisions of the Control Board shall be made by not less than ten affirmative votes.

(c) *Permissive methods of voting.* The Control Board may vote by mail or telegraph upon due notice to all members and when any proposition is submitted for polling by such method, one dissenting vote shall prevent its adoption until submitted to a meeting of the Control Board.

§ 986.28 *Funds and other property—*(a) *Uses.* All funds received by the Control Board pursuant to this subpart shall be used solely for the purposes specified in this subpart; and the Secretary may require the Control Board and its members to account for all receipts and disbursements.

(b) *Accountability of members.* Whenever any person ceases to be a member or alternate member of the Control Board, such person shall account for all receipts and disbursements under this subpart and deliver all property, funds, books, and other records (in his possession or control) of the Control Board, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or in such designated person the right to all of the property, funds or claims vested in such manner.

(c) *Legal action for collection of assessments.* The Control Board, with the approval of the Secretary, may maintain in its own name, or in the names of its members, a suit against any handler subject to the provisions of this subpart for the collection of such handler's pro rata share of expenses.

GROWERS ALLOCATION COMMITTEE

§ 986.35 *Members.* The grower members and the grower-dealer members of the Control Board shall constitute the Growers Allocation Committee. Said committee shall have such duties and powers as are expressly specified in this subpart for that committee and such other duties and powers as may be incident thereto. The Growers Allocation Committee may incur only such expenses as from time to time are authorized by the Control Board.

§ 986.36 *Procedure.* The Growers Allocation Committee shall select one of its members as its chairman and such other officers as it may deem advisable. It shall keep proper records of all its proceedings, and shall adopt regulations governing its procedure. It may provide for voting by mail or telegraph upon due notice to all members and when any such proposition is submitted for polling by such method, one dissenting vote shall prevent its adoption until submitted to a meeting of the Growers Allocation Committee.

§ 986.37 *Alternates.* The alternate of each grower member or grower-dealer member of the Control Board shall have the same right to serve in lieu of a member of the Growers Allocation Committee as such alternate has to serve in lieu of a member of the Control Board.

GROWERS ADVISORY COMMITTEE

§ 986.40 *Establishment and membership.* A Growers Advisory Committee of 12 members is hereby established for each of the States of Washington and California, and of 13 members for the combined States of Oregon and Idaho. Each of the said committees shall consist of members who shall be growers or grower-dealers, or officers or employees of growers or grower-dealers, engaged in growing hops in and shall be residents of the State or States for which the respective committee is established; one of the members of the Advisory Committee for the States of Oregon and Idaho shall be a grower or an officer or employee thereof, engaged in growing hops in and a resident of the State of Idaho.

§ 986.41 *Original members.* The original members of the Growers Advisory Committees shall be the members of the existing advisory committees organized by the United States Hop Growers Association, an association of hop growers whose present address is Mills Building, San Francisco, California. Each of the original members shall serve for a term ending on January 31, 1950, and in the event that the respective person's successor has not been selected by February 1, 1950, such person shall serve until his successor has been selected.

§ 986.42 *Election of successor members.* Successor members of Growers Advisory Committees, beginning with those elected for terms beginning on and after February 1, 1950, shall serve a two year term ending January 31. Election shall be at meetings held under the supervision of the Managing Agent or his designated representative by the growers and grower-dealers in each of the designated districts in this subpart. In such election each grower and each grower-dealer residing or producing hops in the district shall have an opportunity to participate, and at such election shall, on behalf of himself, his agents, partners, affiliates, subsidiaries, and representatives, cast only one vote to fill the vacancy or vacancies occurring in his district. No grower or grower-dealer shall vote in more than one district in any one State. Voting shall be by ballot; there shall be no voting by proxy. The nominee having the highest number of votes shall be the member for the district or, in the districts electing more than one member, the nominees receiving in consecutive order the highest number of votes shall be the members for that district. In the case of a tie vote, where vacancies are insufficient to give membership to each, a runoff election shall be held on the vacancy in question.

§ 986.43 *Washington Advisory Committee.* The State of Washington is hereby delimited into four election districts, as follows:

District No. 1. That portion of Yakima County lying east of the Yakima River and north of Parker Ridge, and all counties of the State of Washington not delineated in other districts.

District No. 2. Benton County, Klickitat County, and that portion of Yakima County lying south of Parker and Ahtanum Ridges.

District No. 3. That portion of Yakima County lying north of Ahtanum Ridge and west of the Yakima River.

District No. 4. All counties of the State of Washington lying west of Districts 2 and 3, or lying west of the Cascade Mountains.

Growers and grower-dealers who reside or produce hops in any such district shall be entitled to vote for and select for that district three members of the Advisory Committee.

§ 986.44 *California Advisory Committee.* The State of California is hereby delimited into three election districts, as follows:

District No. 1. Sacramento County and all other counties of the State of California not delineated in other districts.

District No. 2. Sonoma, Napa and Marin Counties.

District No. 3. Mendocino and Lake Counties.

Growers and grower-dealers who reside or produce hops in any such district shall be entitled to vote for and select for that district four members of the Advisory Committee.

§ 986.45 *Oregon-Idaho Advisory Committee.* The States of Oregon and Idaho are hereby delimited into twelve election districts, as follows:

District No. 1 (Grants Pass). Douglas, Jackson, Josephine, Coos, and Currie Counties.

District No. 2 (Eugene, etc.). Lane County and that portion of Linn County not delineated in District 3.

District No. 3 (Albany, Corvallis, etc.). Benton County and those areas of Marion and Linn Counties described as follows: Beginning at Jefferson, Oregon, thence north along U. S. Highway 99 East to a point east of Tice Island in the Willamette River,

thence due west along a straight line to Tice Island, thence south along the meanderings of the Willamette River to the confluence of the Luckiamute and Willamette Rivers, thence due southwest to the northeast corner of Benton County, thence south along the boundary of Benton and Linn Counties to a point due west of Brownsville, Oregon, thence in an easterly direction to Brownsville to include all growers operating hop yards in the Brownsville area, thence continuing to the eastern boundary of Linn County to include all growers operating yards in Linn County north of the line as described.

District No. 4 (Independence, Dallas, etc.). All of Polk County not delineated in District 6, all of that portion of Marion County adjacent to Independence and not delineated in Districts 3, 5 and 6, and that portion of Yamhill County not delineated in Districts 10 and 11.

District No. 5 (Silverton, etc.). Beginning at the North Howell Grange building in Marion County, Oregon, thence due south along a straight line to Stayton, Oregon, thence due east along a straight line to the headwaters of the Abiqua River, thence following the meanderings of the Abiqua River in a northwesterly direction to a point due east of the North Howell Grange, thence due west along an imaginary line to point of beginning.

District No. 6 (Salem, etc.). Beginning at Rickreall, Oregon, thence north along west side of U. S. Highway 99W, to a point due west of Wheatland, thence due east along a straight line to Wheatland to include all growers in the area in the vicinity of Wheatland, Oregon, thence northeast along a straight line to Fairfield, thence east following the Fairfield road to Aral Corners, thence due north from Aral Corners to the St. Louis Road to the corner of the "Old Miller Place," thence east to the Southern Pacific Railway and continuing east to U. S. Highway 99 East, thence south following U. S. Highway 99 East, to the intersection of U. S. Highway 99 East and the Parkersville Road, known as the "Manning Corner," thence east to Parkersville, thence south to the Central Howell School, thence due south following a straight line to the Santiam River, thence north and west following the meanderings of the Santiam River to Jefferson, thence due north following U. S. Highway 99 to Sunnyside, thence due west following a straight line to the Willamette River to a point south of Roberts' Station, thence north following the meanderings of the Willamette River to Salem, thence west following the Dallas-Salem Highway to Rickreall, point of beginning.

District No. 7 (Wilder, Ontario, etc.) The State of Idaho and Malheur County in the State of Oregon.

District No. 8 (Mount Angel, etc.). Beginning at the North Howell Grange, thence south and east following the meanderings of the Abiqua River to the foothills of the Cascade Mountains to a point due south of Molalla, thence due north following a straight line to Molalla, thence west following the Woodburn-Molalla highway to its intersection with U. S. Highway 99 East, thence south following U. S. Highway 99 East to Gervais, thence south from Gervais to the Manning Corner, thence east to Parkersville, thence south to the North Howell Grange, the place of beginning.

District No. 9 (Donald, Woodburn, Aurora, etc.). Beginning at Oregon City, thence south along the Oregon City-Molalla highway to Molalla to include all growers operating hop yards within a one-mile radius of Mulino, thence west following the Woodburn-Molalla Highway to its intersection with U. S. Highway 99 East, thence south following U. S. Highway 99 East to Gervais, thence west following the direct highway to St. Louis, thence north following the meanderings of Champoeg Creek to its confluence with the Willamette River, thence in a northerly direction following the meanderings of the Willamette River to Wilsonville, thence continuing in a north and easterly direction along the meanderings of the Willamette River to the place of beginning.

District No. 10 (St. Paul, etc.). Beginning at Wilsonville, thence north following U. S. Highway 99 West to Jurgens Park on the Tualatin River, thence northwesterly following a straight line to the southwest corner of Multnomah County, thence southwesterly following a straight line to Laurel, thence southwest following a straight line to McMinnville, thence south following the west side of U. S. Highway 99 West to a point due west of Wheatland, thence due east following a straight line to Wheatland, thence northeast to Fairfield, thence continuing east to Aral Corners, thence north to Champoeg Creek, thence continuing in a northerly direction and following the meanderings of Champoeg Creek to the Willamette River, thence continuing in a northeasterly direction following the meanderings of the Willamette River to Wilsonville, the point of beginning.

District No. 11 (Millsboro, Forest Grove, etc.). Beginning at the southwest corner of Multnomah County, thence in a southwesterly direction following a straight line to Laurel, thence southwesterly following a straight line to McMinnville, thence west following a straight line to the western boundary of Yamhill County. Close any short gap by a straight line and follow County line to the point of beginning.

District No. 12 (Portland, Hermiston, etc.), Umatilla, Morrow, Gilliam, Sherman, Wasco, Hood River and Multnomah Counties, and that portion of Clackamas County described as follows: Beginning at Sellwood, Oregon, thence south following the meanderings of the Willamette River to Oregon City, thence south following the Oregon City-Molalla Highway to Lewis Station due east of Canby thence due east along a straight line to the Cascade Mountains, thence north along the eastern boundary of Clackamas County to the northern boundary of Clackamas County, thence due west to place of beginning and all other Counties or portion of Counties of Oregon not delineated in other districts.

Growers and grower-dealers who reside or produce hops in the district which includes the State of Idaho shall be entitled to vote for and select for that district two members of the Advisory Committee, one of whom shall be a grower of hops in the State of Idaho; and growers and grower-dealers who reside or produce hops in any of the other districts shall be entitled to vote for and select for that district one member of the Advisory Committee.

§ 986.46 *Changes in districts.* The number of districts or the area covered by each in any State or States may be changed by the Secretary in an equitable manner giving consideration to quantity of hops produced, number of growers, geographical characteristics or other factors and upon recommendation of the Control Board or of the Advisory Committee for such State or States.

§ 986.47 *Alternates.* Each member of an Advisory Committee may designate, in writing, addressed to the managing agent, an alternate having the same membership qualifications as are applicable to the member. Such alternate may act at any meeting of the Advisory Committee at which the member is not present.

§ 986.48 *Vacancies.* A vacancy in the membership of an Advisory Committee shall be filled, for the balance of the term of the member whose place is vacant, by a person of the membership qualifications of the former member, selected by majority vote of the remaining members of that committee.

§ 986.49 *Expenses.* The members of each Advisory Committee may be reimbursed by the Control Board for all travel and other expenses necessarily incurred in the performance of their duties.

§ 986.50 *Functions*—(a) *Nomination of successor Control Board members.* Each Advisory Committee shall promptly nominate to the Secretary a successor to any grower from that State whose term on the Control Board as a member or alternate shall expire or whose place on the Control Board for any reason may become vacant. Grower members of an Advisory Committee, as well as other growers, shall be eligible for nomination by that Advisory Committee to serve on the Control Board.

(b) *Officers and other functions.* Each Advisory Committee shall select from its membership a chairman and such other officers as the respective committee may deem advisable, and shall keep proper records of all of its proceedings. It shall hold meetings after notice to its members, upon the call of four members, or upon the call of its chairman, or the Control Board, or the Managing Agent. Each Advisory Committee shall serve the Control Board in an advisory capacity concerning the administration hereof in the State or States for which such committee is established, and in general shall perform such ministerial functions as the Control Board may, from time to time, specify. Each Advisory Committee may incur only such expenses as are authorized by the Control Board.

CONTROL OF QUALITY

§ 986.60 *Minimum standards of quality and grading and inspection requirements*—(a) *Establishment.* In order to effectuate the declared policy of the act, the Secretary shall, after consideration of the Control Board's recommendations, prescribe minimum standards of quality for hops with respect to their leaf and stem content or other factors of quality and maturity for which grading and inspection procedure has been developed by the Grain Branch, Production and Marketing Administration, United States Department of Agriculture, and is in general use; and shall prescribe grading and inspection requirements therefor. The term "leaves and stems," as used in this subpart, shall include all leaves and stems of the hop plant, except the stems (petioles) which bear the individual cones, and all extraneous matter. Hop seeds which are naturally within the hops under inspection shall not be considered as extraneous matter. To aid the Secretary in prescribing minimum standards and requirements, the Control Board shall furnish to the Secretary the information upon which it acted in recommending such standards and requirements, and shall furnish such other available data pertaining thereto as the Secretary shall request.

(b) *Initial standards and requirements.* Until such time as other standards and requirements for leaf and stem content are prescribed under this section, no hops shall be deemed merchantable or entitled to certification which contain over fifteen percent, by weight, of leaves and stems as defined in this section and as determined by the Federal-State inspection service.[1]

(c) *Operation irrespective of price.* The provisions of this section relating to minimum standards of quality and maturity, and to grading and inspection requirements, within the meaning of section 2 (3) of the act, and any other provisions pertaining to the administration and enforcement thereof, shall continue in effect irrespective of whether the season average price for hops is in excess of the parity level specified in section 2 (1) of the act.

§ 986.61 *Inspection and certification.* Each grower shall be entitled, upon application to the Control Board or its representative, and subject to the meeting by him of any applicable provisions of § 986.60 and §§ 986.70 through 986.81, to the certification of hops harvested after the effective date of this subpart: *Provided*, That such hops have been inspected by the Federal-State Inspection Service within the States of Oregon, California, Washington, or Idaho, and their official certificate presented by such grower showing such hops to meet said standards and requirements. No person shall handle any hops harvested after the effective date of this subpart unless such hops have been so certificated by the Control Board.

§ 986.62 *Regulations.* Such certification as to minimum quality shall be based on information on a Federal-State Inspection Certificate and shall include substantially the following wording: "Hops covered by this certificate are of the ---------- crop and are covered (year) by Federal-State Inspection Certificate No. -------- as meeting minimum standards of quality prescribed pursuant to applicable Federal-Marketing Agreement and Order." Such certification shall be executed by authorized representatives of the Control Board, the grower and the handler. The bale or other container shall also be marked or tagged to furnish proper identification as to producer and lot. Such marking or tagging shall comply with the requirements for marking included in § 986.79. This method of marking may be changed by the Control Board, subject to the approval of the Secretary.

CONTROL OF SURPLUS

§ 986.70 *Application.* The provisions of §§ 986.70 through 986.81 shall apply only during marketing seasons in which the estimated season average price of hops to growers is at or below the parity level specified in section 2 (1) of the act.

§ 986.71 *Determination of salable quantity*—(a) *Total carryover.* As early in the respective year as it shall find it to be feasible, but not later than August 1, the Control Board shall ascertain or estimate the total carryover, within the United States, of hops and hop products, expressed in terms of dry hops, produced in or outside the area covered hereby prior to that year and which, if produced within such area, are eligible for handling pursuant to the terms of this section.

(b) *Consumptive demand.* At the same time, the Control Board shall estimate the total consumptive demand for hops produced during the respective year. In estimating such consumptive demand, there shall be included the quantity of such hops estimated to be used as hops and the quantity estimated to be used in the form of hop products.

(c) *Recommendation by Control Board.* Immediately thereafter, and based upon its aforesaid estimates and findings, the Control Board shall make and transmit to the Secretary its recommendation of the maximum quantity of hops (net dry weight), produced during that respective year which should, in order to effectuate the declared policy of the act, be handled in the form of hops or in the form of any hop product, and, with such recommendation, shall transmit to the Secretary its estimates and findings on which its recommendation is based.

(d) *Determination by Secretary of salable quantity.* On the basis of the aforesaid estimates, data, and recommendations of the Control Board submitted pursuant to this section, and such other pertinent information as the Secretary may have, the Secretary shall determine, fix, and announce such maximum quantity of hops produced during that respective year which may be handled in the form of hops and in the form of any hop product. Such maximum quantity of hops which shall be fixed by the Secretary as aforesaid shall be known, and is referred to hereinafter, as the salable quantity of that respective year's crop of hops.

§ 986.72 *Increase of salable quantity.* The Secretary may at any time increase the salable quantity for the crop of any year in which the continued withholding of surplus would result in a season average price to growers in excess of the parity level specified in section 2 (1) of the act, or upon due consideration of either the needs of brewers or a recommendation of the Control Board that the salable quantity be increased. The Secretary may not decrease said salable quantity.

§ 986.73 *Conversion ratios.* In computing the hops equivalent of hop products, and unless changed as provided in this section, one pound of lupulin shall be considered equivalent to 20 pounds of dry hops and one pound of hop oil to 400 pounds of dry hops. In the case of hop extracts or concentrates for which conversion ratios are not established in this section, the Control Board, or its authorized representative may temporarily establish such conversion ratios for a period not exceeding 90 days. Conversion factors referred to in this section may be changed by regulation of the Control Board, subject to approval of the Secretary.

§ 986.74 *Determination of total production*—(a) *Determination by Growers Allocation Committee.* As the basis for apportioning equitably among growers the salable quantity of each year's crop, the Growers Allocation Committee each year as early as practicable during or after harvest, shall determine, or cause to be determined under its supervision, the total quantity of hops (net dry weight) produced by growers during that year which meet the requirements of § 986.60. Such determination shall include, for each grower, his harvested, unharvested, and total production. Such determination shall also include the quantity, if any, of such hops found to have been converted into hop products, except that lupulin sweepings shall be included in the computation only to the extent of the pounds of lupulin found to be in such quantity of lupulin sweepings. Unharvested hops shall be included only if grown to maturity and remaining unharvested on living vines which remain strung or trained, and from which hops have not been picked, and which have not been removed from the wires or poles. Such unharvested hops shall be determined by the Growers Allocation Committee on the basis of the amount of hops (net dry weight) which would have been yielded if such unharvested hops had been picked, dried, and baled or otherwise processed and packaged for market. In the event any grower does not permit the Growers Allocation Committee, or its representatives, access to any hops grown by that grower, or to any product thereof, or shall fail or refuse to make available to said committee, or its representatives, information relative to such hops or hop products which the Growers Allocation Committee finds to be desirable in order properly to make such determination in accordance with the provisions of this section, the Growers Allocation Committee shall determine, or cause to be determined, on the basis of an estimate of the grower's acreage, the average crop conditions in the area, the probable yield per acre on the grower's acreage, and from such other information as is available to it, the respective grower's production as aforesaid. After completing its determination of production by each individual grower, as aforesaid, the Growers Allocation Committee shall, by means of addition, compute the harvested, unharvested, and total production by all growers.

(b) *Preliminary estimates.* The Growers Allocation Committee each year, prior to the start of harvest, or as soon thereafter as practicable, shall determine, or cause to be determined under its supervision, a preliminary estimate of said total quantity of hops which will be produced by all growers from that year's crop. Said preliminary estimate shall be based upon the then current Federal or Federal-State crop estimates, as the case may be, and upon such other relevant data as are available.

(c) *Determinations for and protests by members of committee.* The determinations pursuant to paragraph (a) of this section for each member or alter-

[1] In a supplemental order (16 F. R. 6715) issued by the Secretary of Agriculture on July 6, 1951, and made effective August 1, 1951, such maximum leaf and stem content was fixed at 10 percent.

nate member of the Growers Allocation Committee shall not be made by any member or alternate member of such committee, but shall be made, and reported in writing to the Secretary and to the Growers Allocation Committee, by such other qualified person or persons as the Control Board or its authorized representatives shall designate for that purpose. Any protest by a member or alternate member of the Growers Allocation Committee concerning such determination shall be made directly to, and be determined by, the Secretary.

(d) *Notice to growers.* The Growers Allocation Committee shall cause to be mailed to each grower notice of the determination pursuant to paragraph (a) of this section of the respective grower's production for the respective year, and also, the computation of the total quantity determined, pursuant to paragraphs (a) and (b) of this section, respectively, produced by all growers during that year. The committee shall also publicly announce said computations of said total quantity, both estimated and final.

(e) *Protests by growers.* Any grower who may be dissatisfied with the determinations pursuant to § 986.74 (a) or § 986.75, may protest in writing to the Growers Allocation Committee within 10 days of the date of mailing of the notice and if dissatisfied with the decision in regard to such protest may appeal in writing to the Secretary.

(f) *Determination by Secretary.* Upon expiration of the time for protest specified in paragraph (e) of this section, and after completion of action by that committee upon all protests, the Growers Allocation Committee shall report to the Secretary all findings, determinations, and computations made by or for it pursuant to paragraph (a) of this section, together with the data on which the same were based. On the basis of such findings, determinations, computations, data and other pertinent information which the Secretary may have, the Secretary shall determine and notify the Growers Allocation Committee of the harvested, unharvested, and total quantity of hops (net dry weight) meeting the requirements of § 986.60 which were produced by each grower during that year: *Provided*, That such determinations shall include the quantity, if any, of such hops converted into hop products except that insofar as lupulin sweepings are concerned there shall be included, in the computation, only the pounds of lupulin in such quantity of lupulin sweepings, and insofar as unharvested hops are concerned, shall include (net dry weight) only hops of that respective year's crop grown to maurity and remaining unharvested on the living vines. The Secretary, after having determined each grower's production, as aforesaid, shall, by means of addition, determine the production by all growers; the total production by all growers is referred to in this subpart as the "aggregate production" for that respective year. Immediately upon receipt of notice thereof from the Secretary, the Growers Allocation Committee shall publicly announce the aforesaid determination by the Secretary.

§ 986.75 *Computation of growers' allotments*—(a) *Salable percentage.* (1) The "salable percentage" of the aggregate production, determined pursuant to § 986.74, shall be computed by dividing the salable quantity of that year's crop, determined pursuant to § 986.71, by the aforesaid aggregate production, and multiplying the quotient by 100. After computing such salable percentage on this basis, it shall be adjusted to the nearest tenth of a percent. Each grower's maximum allotment of the salable quantity of that year's crop shall be that same salable percentage applied to his production as determined pursuant to § 986.74, except that if any such grower fails to harvest a quantity from that crop equal to such maximum salable allotment so computed for him, his salable allotment shall be the quantity which he actually harvested: *Provided*, That, if prior to the determination by the Secretary of the aggregate production of hops by all growers in any year, the Growers Allocation Committee finds that the harvested quantity exceeds the salable quantity, but, nevertheless, the aforementioned salable percentage will not result in the availability in marketing channels of the salable quantity of hops fixed for that year's crop, such percentage may be established by the Secretary at an amount necessary to result in the availability in marketing channels of the salable quantity of hops fixed for that year's crop: *And provided also*, That, if, prior to the determination by the Secretary of the aggregate production of hops by all growers in any year, the Growers Allocation Committee finds that the aggregate quantity of hops harvested from that year's crop, and meeting the minimum standards of quality prescribed in this subpart, will be less than the salable quantity fixed for such year's crop, such salable percentage shall, with the approval of the Secretary, be increased to 100 for that year's crop: *And provided further*, That, in lieu of the aforementioned method of computing growers' maximum allotments, the Secretary may make effective, at the beginning of any marketing season, the following procedure pursuant to a recommendation of the Control Board to that effect (such recommendation of the Board to be pursuant to and in accordance with a prior recommendation to it by the Growers Allocation Committee): Each grower's allotment of the maximum salable quantity of that year's crop shall be computed by first subtracting from said grower's poundage of credited production, the leaf and stem content thereof and applying the salable percentage to the remainder, then dividing the resulting quantity by the average percentage of clean hops (hops exclusive of leaf and stem content) in the aggregate production of hops for the preceding marketing season. The quotient will be the grower's maximum allotment of the salable quantity, in pounds of hops as prepared for market by him. The Board shall include in any recommendation pursuant to this proviso full information and data on which such recommendation is based. Said recommendation shall specify in regard to the "percentage of clean hops" to be used in the computation, whether such percentage shall be computed and applied for the production area as a whole or separately by States, and the Secretary if he approves the Board's recommendation shall state in his approval which procedure in regard thereto, shall be followed: *And provided further*, That, if this substitute method of computing growers maximum allotments is made effective, the Board may recommend (following a recommendation to it by the Growers Allocation Committee) to the Secretary the readoption of the original method at the beginning of any subsequent marketing season, supplying full information and data upon which such recommendation is based, and the Secretary may make such original method again effective.

(2) In any year in which the salable percentage, determined pursuant to this section, exceeds 98 percent, each grower's allotment shall be the total quantity harvested by such grower, determined pursuant to § 986.74. Each allotment determined under this subpart shall be expressed in pounds, net dry weight of hops, and shall be known as the respective grower's "maximum salable allotment" of that respective year's crop.

§ 986.76 *Preliminary and supplementary allotments*—(a) *Preliminary.* In order to assist growers to avoid delays in their individual harvesting and marketing, the Control Board, or its authorized representative, each year shall compute an "estimated salable percentage" of estimated aggregate production and shall compute and issue, or cause to be computed and issued, prior to the issuance of final allotments applicable to that year's crop, to any grower who applies therefor to the Growers Allocation Committee, a preliminary allotment representing such proportion of that grower's total production of hops during that year as the Growers Allocation Committee, or its authorized representatives, shall determine will not be in excess of 50 percent of that grower's estimated salable allotment for that year's crop. Said estimate shall be based upon physical examination of the hop yard, or yards, upon the historical production thereof, upon official crop estimates, and upon such other relevant data as are available.

(b) *Supplementary, 80 percent basis.* The Control Board, or its authorized representative, shall each year issue, prior to the issuance of final allotments applicable to that year's crop, to any grower who applies therefor to the Growers Allocation Committee, a supplementary allotment representing such proportions of that grower's total production of hops during that year as the Growers Allocation Committee, or its authorized representatives, shall determine will not be in excess of 80 percent of that grower's probable salable allotment for that year's crop: *Provided*, That any such supplementary allotment shall be based upon adequate, but not complete, crop production information available to the Growers Allocation Committee, or its authorized representatives, including, but not limited to bale count data or other reasonably accurate information as to such grower's hop production for that year.

(c) *Supplementary, 90 percent basis.* The Control Board, or its authorized representative, shall issue, prior to the issuance of final allotments applicable to that year's crop, to any grower who applies therefor to the Growers Allocation Committee, a supplementary allotment representing such proportion of that grower's total production of hops during that year as the Growers Allocation Committee, or its authorized representatives, shall determine will not be in excess of 90 percent of that grower's probable salable allotment for that year's crop: *Provided*, That any such supplementary allotment shall be based upon complete crop production information available to the Growers Allocation Committee, or its authorized representatives, including, but not limited to complete weight data on such grower's harvested hop production and the recommended determination by the Growers Allocation Committee, or its authorized representatives, as to any unharvested hop production for that year, and Federal-State Inspection Service evidence of the meeting of all minimum standard requirements for quality provided for in § 986.60 by all harvested hops of such grower for that year.

(d) *Eligibility for certification.* After issuance to a grower of such preliminary or supplemental allotment, the hops covered thereby, and any hop product derived from such hops, shall be eligible for certification, marking, and handling as though the final allotment had been issued, and subject to the same terms, conditions, and regulations as are applicable to such certification, marking, and handling of hops and hop products under a final salable allotment.

(e) *Notice to growers.* The Growers Allocation Committee shall mail to each grower who has requested a preliminary or supplementary allotment (either or both) notice thereof, and to each grower notice of his final salable allotment computed by that Committee as provided in this subpart. A list of the salable allotments of all growers for each year's crop shall be compiled and maintained by the Growers Allocation Committee at each of its offices, where the same shall be available during all reasonable hours for inspection by any interested person.

§ 986.77 *Joint allotment*—(a) *Joint ownership.* In the event that more than one grower shall participate jointly in the production of hops, whether as landlord and tenant, as partners, or otherwise, and said growers report that fact to the Growers Allocation Committee, then a single salable allotment shall cover such joint production. In the event that thereafter the interests of those growers in the crop produced or being produced are segregated, the Growers Allocation Committee, or its authorized representative, upon written application signed by all of said interested growers shall segregate and distribute said salable allotment among said growers in accordance with their respective segregated interests in the crop.

(b) *Associations.* Upon application of any bona fide incorporated cooperative association of growers which is authorized to market hops or hop products included within the salable allotments of those of its members who have authorized the association to sell and pool their hops for them, the individual salable allotments of such members shall be pooled and hops produced by those members during that season, and hop products derived from such hops, may be certificated and handled by that association without regard to the limits of the individual allotments of the members: *Provided*, That, (1) any such application is made in writing by the association to the Growers Allocation Committee prior to determination of the salable allotments to which it is to apply, (2) such application is signed by the duly authorized officers of the association, (3) such application is accompanied by satisfactory evidence that the submission of it has been approved by the membership of the association, by official action at a meeting or otherwise during the particular calendar year, and (4) such application is also accompanied by satisfactory evidence that each of the individual members who will be affected by the pooling arrangement has authorized the association to handle his hops under such a pooling arrangement.

§ 986.78 *Revision of allotments*—(a) *Revisions and new allotments.* In the event that at the normal time, no determination, pursuant to § 986.74, has been made as to a particular grower entitled thereto pursuant to the provisions of this subpart, or a previous determination as to a particular grower is substantially in error, the Growers Allocation Committee shall make the determination or correct the erroneous determination, or shall cause such determination or correction to be made. The same requirements of determination and approval by the Secretary, notice to the grower and rights of protest and appeal, shall be effective with respect to such determination, as in the case of a timely or original determination.

(b) *Correction of clerical errors.* In the event that the Growers Allocation Committee or the Managing Agent shall find, at any time, that the salable allotment previously issued to a grower was incorrectly computed or is erroneous by reason of mathematical or clerical error, the Growers Allocation Committee or the Managing Agent shall correct and revise said allotment to the extent found to be proper, and shall notify the respective grower and the Secretary of such correction.

§ 986.79 *Certification*—(a) *Hops harvested during effective period of order.* Each grower for whom a salable quantity is determined may, upon application to the Control Board or its representative and subject to the limitations of §§ 986.60 through 986.62, have the eligible quantity of hops or hop products certificated for handling. Such certification shall consist of the indelible marking of each bale or other container of such hops or hop products by an authorized representative of the Control Board and the issuance and delivery of a "handling certificate." Such marking shall be placed on the bale cover or other container or on a tag securely attached to such other container, and shall show the year of production, the handling certificate number, and the words "Certificated, Hop Control Board." This method of marking may be changed by the Control Board, subject to the approval of the Secretary. Such handling certificate shall certify that pursuant to the provisions of this section a specified quantity of hops or hop products has been duly certificated, for the grower and handler named in said certificate, as being eligible for handling pursuant to the terms of this subpart, and shall be executed by authorized representatives of the Control Board, the grower, and the handler. Such certification may exceed any grower's salable quantity by not over 100 pounds, provided such excess quantity is included entirely within the weight of the last bale or container certificated for said quantity.

(b) *Hops harvested prior to effective date of this subpart.* Any person who owns or is in the possession of hops harvested or hop products from hops harvested prior to 12:01 a. m., P. s. t., July 2, 1949, is entitled upon application, within 30 days after such date, to the Control Board or its representatives, to have such hops or hop products certificated free of charge without regard to any salable quantity, or minimum standard of quality. The Control Board may extend such time for good cause.

§ 986.80 *Limitation of handling to certificated hops or hop products.* No person, as principal, agent, broker, legal representative, or otherwise, shall handle any hops harvested or hop products from hops harvested subsequent to 12:01 a. m., P. s. t., July 2, 1949, unless: (a) Prior to such handling, the Control Board shall have issued a "handling certificate" pursuant to § 986.79 applicable to such hops or hop products; and (b) each bale or other container of said hops or hop products shall have been duly marked or tagged as prescribed in this subpart, for the purpose of identifying such hops or hop products as being covered by a duly issued salable allotment or as being properly certificated. However, hops harvested prior to 12:01 a. m., P. s. t., July 2, 1949, and hop products produced from such hops may be certificated for handling without regard to the salable allotment or the quality restriction

§ 986.81 *Diversion privilege.* In the event harvested hops in the control of the respective grower thereof, are destroyed or are so damaged or so deteriorated as, in the judgment of the grower to be unmarketable, or, if, because of quality or type, such hops are unsatisfactory to the grower, such grower may replace such hops (if the lupulin has not been removed therefrom) within the limits of his salable allotment for that year's crop, by acquiring uncertificated harvested hops of that year's crop from the growers thereof: *Provided*, That such purchasing grower shall first submit a written statement to the Growers Allocation Committee, setting forth the year of production, the location, and the quantity of hops he desires so to replace, (and, if the hops to be replaced have been destroyed, the time, place, and

cause of such destruction, together with proof of such destruction satisfactory to the Growers Allocation Committee, or its authorized representatives), and the name and address of each grower from whom he proposes to acquire uncertificated hops for that purpose, and makes arrangements with the Growers Allocation Committee, or its authorized representatives, whereby the unmarketable, or unsatisfactory hops which are thus to be replaced will be effectively diverted from or disposed of out of the normal channels of trade, and such disposal or diversion shall be in such manner as may be prescribed by the Control Board: *And provided further*, That, any hops so diverted shall not be diverted or disposed of as hop products as defined in § 986.5. The selling grower shall not be regarded as handling such hops within the meaning of this subpart, nor shall the hops sold be considered a part of such selling grower's salable allotment. The Growers Allocation Committee shall prepare, and from time to time shall revise, a list of the names and addresses of growers who report to the Growers Allocation Committee that they have uncertificated hops for sale pursuant to this section; and a list of the names and addresses of growers who report to the Growers Allocation Committee that they desire to purchase or acquire uncertificated hops pursuant to this section. The Growers Allocation Committee shall make such lists available to any grower or handler of hops at each office of the Control Board.

§ 986.82 *Supervision of disposition of uncertificated hops.* Any grower who desires to dispose of any uncertificated hops or hop products in his possession or control shall first arrange with the Growers Allocation Committee, or its authorized representatives, for supervision of such disposition. The Growers Allocation Committee, or its authorized representatives, shall thereupon provide such supervision at the mutual convenience of such grower and of the Committee, or its authorized representatives. The requirements set forth in this section shall apply to all such dispositions of uncertificated hops and hop products except (a) cases where such dispositions are accidental or are due to causes beyond the control of the particular growers, or (b) cases where such dispositions are made pursuant to the provisions of § 986.81.

EXPENSES AND ASSESSMENTS

§ 986.90 *Expenses.* The Control Board (including, but not limited to, the Growers Allocation Committee and the several Growers Advisory Committees) is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each marketing season for the maintenance and functioning by it and for such purposes as the Secretary may, pursuant to the provisions of this subpart determine to be appropriate. Such expenses shall be paid from the funds acquired pursuant to § 986.91. The recommendation of the Control Board as to its expenses for each such marketing season, or a portion thereof, together with all data supporting such recommendation, shall be submitted to the Secretary on or before September 15 of the marketing season for which such recommendation is made. The funds to cover such expenses shall be acquired by levying assessments as provided in § 986.91.

§ 986.91 *Assessments*—(a) *Requirement for payment.* Each handler shall pay to the Control Board the assessment provided in paragraph (b) of this section with respect to all hops and hop products which are handled or to be handled by that handler as the first handler thereof, except (1) such hops or hop products as are duly certificated pursuant to § 986.79 and (2) such hop products as have been derived from duly certificated hops with respect to which such assessment previously had been paid: *Provided, however*, That any grower who markets or transports to market within the State of production hops produced by that grower, or any hop product produced by that grower from hops produced by that grower, or hops acquired pursuant to § 986.81 or hop products produced from such hops, shall not be deemed to be the first handler thereof insofar only as payment of assessments pursuant to the provisions of this paragraph may be concerned. The person who handles such hops or hop products next following such handling by said grower shall be considered the first handler thereof within the provisions of this section. Said assessment shall be paid to the Control Board prior to or at the time of such handling, or at such subsequent time as the Control Board may specify.

(b) *Rate of assessment.* The aforesaid assessment shall be at the rate of one-fourth of one cent per pound, net dry weight, of hops handled, and said rate shall continue in effect until changed by the Control Board with the approval of the Secretary; and the assessment rate of any hop product shall be based upon the assessment rate for hops, and shall be computed at such conversion ratio or ratios between hops and the respective hop product as determined pursuant to § 986.73.

§ 986.92 *Refunds.* Any money collected as assessments during any marketing season and not expended in connection with that season's operations, may be used by the Control Board during a period of five months subsequent to such marketing season in paying the expenses of the Control Board incurred in connection with the new marketing season. The Control Board shall, however, from funds on hand, including assessments collected during the new marketing season, credit or upon request make available, within six months after the beginning of the new marketing season, the aforesaid excess carried into the new season, to each handler from whom an assessment was collected in the preceding marketing season, in the proportion that the amount of the assessment paid by the respective handler bears to the total amount of the assessments paid by all handlers during said preceding marketing season.

COMPLIANCE WITH PROVISIONS

§ 986.95 *Compliance.* Each handler shall comply strictly with all provisions of this subpart and all regulations duly effective under this subpart. No handler shall handle any hops or any hop product in violation of any of the provisions of this subpart or in violation of any regulation effective pursuant to this subpart.

REPORTS, BOOKS, AND RECORDS

§ 986.101 *Books and records.* Each handler and each subsidiary or affiliate thereof shall keep books and other records which will clearly show the details of its handling of hops and hop products.

§ 986.102 *Reports by handlers.* To enable the Control Board, the Growers Allocation Committee, and each Advisory Committee to perform its functions under this subpart, each handler shall furnish to the Managing Agent, (a) on June 1, or as of that date and within 15 days thereafter or on any other date or dates which the Control Board may specify, complete information as requested by the Control Board relating to the total quantity of hops and hop products owned by the respective handler; and (b) on or before December 1, or on any other date or dates which the Control Board may specify, complete information relating to (1) the volume of hops and hop products handled during the next preceding marketing season; (2) the names and addresses of the growers and other persons from whom such hops or hop products were acquired; and (3) the quantity of hops grown by that handler during such period. Such information furnished to the Managing Agent shall be confidential and shall not be disclosed to any person (including members of the Control Board as well as other persons) except to the Secretary at his request, or to such person as the Secretary may specify: *Provided*, That the Managing Agent may compile such information in such form as will not reveal the identity of individual informants and may make such compilations available to the Control Board, Growers Allocation Committee, any Advisory Committee, or to the public. The Managing Agent shall not disclose any information acquired under this section, except as expressly authorized in this section.

§ 986.103 *Reports by growers.* Each grower shall report to the Growers Allocation Committee, prior to June 15 of each marketing season, the quantities (by years of production stated separately) and locations of all uncertificated hops and hop products owned or controlled by him as of the preceding June 1, and each grower shall also furnish to the Growers Allocation Committee reports containing such information as of such other date or dates as the Growers Allocation Committee may specify.

MISCELLANEOUS PROVISIONS

§ 986.105 *Amendments.* Amendment of this subpart may from time to time be proposed by the Control Board or by the Secretary.

§ 986.106 *Agents.* The Secretary may, by a designation in writing, name any person, including but not being limited to, any officer or employee of the United States Department of Agriculture, or any Division thereof, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 986.107 *Effective time, suspension, and termination*—(a) *Effective time.* The provisions of this subpart, or of any amendment to this subpart, shall become effective at such time as the Secretary may declare, and shall continue in force unless terminated or suspended in one of the ways specified in this section, so long as the provisions of the act authorizing the same are in effect.

(b) *Termination or suspension.* (1) The Secretary may, at any time, terminate or suspend the provisions of this subpart whenever he finds that the provisions hereof obstruct or do not tend to effectuate the declared policy of the act; and such notice of the termination or suspension shall be given as the Secretary deems proper.

(2) The Secretary shall terminate the provisions of this subpart whenever he finds that such termination is favored by the majority of the growers of hops who, during such representative period as may be determined by the Secretary, have been engaged in the production of hops within said States for market: *Provided*, That such majority have, during such period, produced for market more than 50 percent of the total volume of hops produced for market in said area during such period. Such termination shall become and be effective on and after the first day of July subsequent to the announcement thereof by the Secretary.

(3) The provisions of this subpart shall terminate in any event whenever the provisions of the act authorizing them cease to be in effect.

(c) *Proceedings after termination.* Upon the termination of the provisions of this subpart the members of the Control Board then functioning shall continue as trustees (for the purpose of liquidating the affairs of said Control Board) of all funds and property then in the possession or under the control of the Control Board, including but not being limited to claims for any funds unpaid or property not delivered at the time of such termination: But the procedural rules governing the activities of said trustees; including, but not limited to, the determination as to whether action may be taken by only a majority vote of the trustees, shall be prescribed by the Secretary. Said trustees shall continue in such capacity until discharged by the Secretary, and from time to time shall account for all receipts and disbursements, and deliver all funds and property on hand, together with all books and records of the Control Board and the trustees, to such person as the Secretary may direct, and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person the right to all of the funds or claims vested in the Control Board or the trustees pursuant to this section. Any funds collected for expenses pursuant to §§ 986.90 through 986.92 and held by such trustees or such person over and above amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the trustees or such other person, in the performance of their duties under this subpart, shall, as soon as practicable after the termination of the provisions of this subpart, be disbursed among the handlers pro rata in proportion to their contributions pursuant to this section. Any person to whom funds, property, or claims have been delivered by the Control Board or its members, upon direction of the Secretary as provided in this section shall be subject to the same obligations and duties with respect to said funds, property, or claims as are hereinabove imposed upon the members of said Board or upon said trustees.

§ 986.108 *Duration of immunities.* The benefits, privileges, and immunities conferred by virtue of this subpart shall cease upon termination of this subpart, except with respect to acts done under and during the existence of this subpart; and the benefits, privileges, and immunities conferred hereby upon any party signatory hereto shall cease upon the termination of this subpart as to such party except with respect to acts done under and during the existence of this subpart.

§ 986.109 *Separability.* If any provision of this subpart is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 986.110 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 986.111 *Right of the Secretary.* Each member of the Control Board, Growers Allocation Committee, and Growers Advisory Committee, including successors and alternates, and any agent, representative or employee appointed or employed by the Control Board, shall be subject to removal or suspension by the Secretary at any time. Each regulation, decision, determination, or other act of the Control Board, Growers Allocation Committee, or any Growers Advisory Committee, shall be subject to the continuing right of the Secretary to disapprove of the same at any time and, upon such disapproval, shall be deemed null and void except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 986.112 *Liability of Control Board members.* No member of the Control Board, Growers Allocation Committee, or any Advisory Committee, nor any agent, representative, or employee, shall be held liable individually in any way whatsoever to any other person for errors in judgment, mistakes, or other acts either of commission or omission as such member, employee, representative, except for acts of dishonesty. The liability of the parties hereunder is several and not joint, and no party shall be liable for the default of any other party.

§ 986.113 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen prior thereto, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart or (c) affect or impair any right or remedy of the United States, or of the Secretary, or of any other person with respect to any such violation.

Issued at Washington, D. C., this 16th day of July 1952 to be, and become, effective on the date of the publication hereof in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 52-7953; Filed, July 18, 1952; 8:51 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th Gen. Rev. of Export Regs., Amdt. 3[1]]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 380—AMENDMENTS, EXTENSIONS, TRANSFERS

PART 398—PRIORITY RATINGS AND SUPPLY ASSISTANCE ASSIGNED BY OIT

MISCELLANEOUS AMENDMENTS

1. Section 373.9 *Special provisions for diamonds* is amended in the following particulars:

a. Paragraph (a) *Definitions*, subparagraph (1) *Loose diamonds* is amended to read as follows:

(1) *Loose diamonds.* "Loose diamonds (except cut gem diamonds)" are any diamonds not set in any other material.

(i) "Industrial diamonds" (Schedule B Nos. 599005 and 540910), are unmounted industrial-purpose diamonds in any form, including ballas, carbonados, crushing bort, and diamond fragments, as well as diamond powder, dust and compounds.

(ii) "Cuttable diamonds" (Schedule B No. 599010) are diamonds suitable for cutting into gems and not reserved for industrial use.

b. Paragraph (d) *Export clearance of loose diamonds*, subparagraph (1) is amended to read as follows:

(1) Every shipment of loose industrial diamonds in any form must be inspected by the U. S. Appraiser of Merchandise at New York, regardless of the means of exportation or the port of exit.

[1] This amendment was published in Current Export Bulletin No. 672, dated July 3, 1952.

(iii) The validity period of licenses

2. Section 373.24 *Statement of past participation in exports for certain commodities*, paragraph (b) *Commodities requiring statement of past participation* is amended in the following particulars:

a. Subparagraph (1) is amended to read as follows:

(1) *Truck and bus casings, off-the-road casings, farm tractor and implement casings, and industrial casings, Schedule B Nos. 206000, 206430, 206440, 206460, and 206490.* Separate reports on Form IT–821 shall be submitted reflecting the quantity, in number of units of exports from the United States, made during each of the calendar years 1948, 1949, and 1950 to the following countries. This report shall be submitted only where the total of all such exports to all of these countries was $10,000 or more during any one year for casings classified under Schedule B Nos. 206000, 206430, 206440, 206460, and 206490.

Belgian Congo.	Lebanon.
Belgium.	Malaya.
Finland.	Philippine Islands.
France.	Singapore.
French Morocco.	Sweden.
Indonesia.	Switzerland.
Iran.	Syria.
Iraq.	Thailand.
Israel.	

b. Subparagraph (3) *All controlled materials and certain additional commodities with processing code NONF* is amended by deleting therefrom the following commodities:

Lead pigs, bars, and anodes (include blocks and ingots), Schedule B No. 650750.

Zinc slab, Schedule B Nos. 657101, 657103, 657125, 657198.

3. Section 373.29 *Special provisions for certain totally allocated commodities* is amended in the following particulars:

Paragraph (a) *Commodities included* is amended by deleting therefrom the following entries:

Commodity	Relevant NPA Order	Required NPAF Form
Slab zinc	M–9	110
Soft pig lead	M–76	115

4. Section 373.51 *Supplement 1: Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended in the following particulars:

a. The following entries and related submission dates for the Fourth Quarter 1952 are added thereto:

Dept. of Commerce Schedule B No.	Commodity	Submission dates fourth Quarter 1952
	METALS AND MANUFACTURES[1]	
	Commodities Other Than Controlled Materials:	
	Copper and manufactures:	
618957	Copper-base alloy pipe fittings (including brass and bronze)	
618959	Copper pipe fittings	
619034	Brass and bronze welding electrodes and welding rods (including phosphor bronze)	
619034	Phosphor copper brazing rods and wire	
619039	Copper welding rods and wires	
	Aluminum and manufactures:	
618959	Aluminum pipe fittings	
618964	Aluminum sash, sections, and frames, door and window	
618967	Aluminum construction materials, n. e. c.	
618992	Aluminum venetian blinds (including slats and strip) and specially fabricated parts, n. e. c.	
619022	Unfilled shipping containers, aluminum	
619039	Aluminum welding rods and wires	
619052	Aluminum insect screen cloth	
619059	Aluminum and aluminum-base alloy manufactures	Sept. 1–Sept. 15, 1952.
630010	Aluminum ores and concentrates	
630050	Aluminum scrap (new and old)	
630301	Aluminum sheets, corrugated	
	Nickel and manufactures:	
619039	Nickel welding rods and wires	
619159	Nickel-chrome-boron powder	
619959	Nickel manufactures	
654501 through 654509	Nickel ores, concentrates, scrap, and primary forms	
	Tin and manufactures:	
619039	Tin welding rods and wires (including solder)	
619159	Tin metal powders	
619959	Tin collapsible tubes and tin manufactures, n. e. c.	
656501 through 656519	Tin ores, concentrates, scrap, crude and primary forms	
681817	Babbitt metal (except scrap and dross)	

[1] The submission dates for these commodities are also applicable to project license applications (see §§ 374.2 (f) and 374.3 (d) of this subchapter), and to petroleum project licenses, as provided in § 388.5 (c) of this subchapter.

b. The following submission dates for the First Quarter 1953 are added thereto:

Dept. of Commerce Schedule B No.	Commodity	Submission dates first quarter 1953
.....	Controlled materials: Commodities with processing code NONF	Aug. 15–Aug. 30, 1952.

5. Section 380.2 *Amendments or alterations of licenses* is amended in the following particulars:

a. Paragraph (b) *Where to file*, subparagraph (1) *General* is amended to read as follows:

(1) *General.* All requests for amendments to licenses may be filed with the Office of International Trade, Department of Commerce, Washington 25, D. C. However, certain types of amendments described in subparagraph (2) of this paragraph may be requested from those field offices of the Department of Commerce listed below:

(i) *Delegation of authority.* Authority to amend export licenses (Form IT–628), subject to the limitations set forth in subparagraph (2) of this paragraph, is delegated to the following field offices of the Department of Commerce:

Baltimore.	Miami.
Boston.	Mobile.
Chicago.	New Orleans.
Cleveland.	New York.
Detroit.	Philadelphia.
El Paso.	Portland, Oreg.
Houston.	San Francisco.
Jacksonville.	Savannah.
Los Angeles.	Seattle.

(ii) *Shipments which are to clear through customs.* Within the limits of the authority delegated, the above designated field offices may approve amendments to licenses for shipments which are to be cleared through collectors of customs at ports located in the same customs district as the field office. Additional authority is delegated to the Houston field office to approve amendments to licenses for shipments which are to be cleared through collectors of customs at the ports of Laredo, Brownsville, and Eagle Pass, and to the Los Angeles field office for shipments through Tecate, Calexico, and San Ysidro.

(iii) *Shipments which are to clear through United States mail.* Within the limits of the authority delegated, the above designated field offices may approve amendments to licenses for shipments by mail which are to be cleared through a post office located in the same customs district as the field office. In these cases, the license must be submitted to the field office with the amendment request and may not be deposited with the postmaster pending action on the amendment request.

b. Paragraph (b) *Where to file*, subparagraph (2) *Amendment requests on which field offices may take action*, subdivision (ii) is amended to read as follows:

(ii) Correction of certain types of obvious errors due to mistakes in typing licenses, such as misspelled words, errors in price extension or computation, and errors in unit of quantity (provided the correction does not change the total quantity).

c. Paragraph (b) *Where to file*, subparagraph (3) *Amendment requests on which field offices may not take action* is amended by adding thereto the following subdivisions:

(iii) The validity period of licensees for totally allocated commodities (as defined in the Note to § 373.29 (a) of this subchapter), and CMP items (identified on the Positive List by the letter "C" in the column headed "Commodity Lists") may not be extended unless the licensee submits evidence showing that the commodities are in his possession and a certification that the material was purchased in accordance with the provisions of the applicable NPA regulations.

(iv) Requests for conversion of CMP allotment or priority rating symbols from one quarter to another. (See § 398.5 (b) (4) and (d) (5) of this subchapter).

(v) Requests for amendment action on shipments which have already been laden aboard the exporting carrier or exported. (See paragraph (d) (2) of this section.)

d. Paragraph (c) *Procedure for submitting requests for amendments*, subparagraph (2) *Information required*, subdivision (ii) is amended to read as follows:

(ii) *The licensee must not in any case retain the license when submitting a request for amendment.* Where shipments are to be made through customs, the address of the collector of customs with whom the license has been deposited must be entered in item 11 of Form IT–763. If the exporter does not know the intended port of exit, he shall return his license to the Office of International Trade with his request for amendment on Form IT–763; in which case, the applicant shall enter the word "Unknown" in answer to item 11. A postmaster or post office address, from which a shipment will be made by mail, is not an acceptable entry for item 11. Where shipment is to be made by mail, the license must accompany the request for amendment.

e. The Note following paragraph (c) *Procedure for submitting requests for amendments*, subparagraph (4) *Telegraphic requests* is amended in the following particulars: The second unnumbered paragraph of Note 1 *Licenses held by Collectors*, is amended to read as follows:

Amendment action by field offices. Amendments approved by field offices will be validated in a different manner than those approved by the Washington office. In place of the facsimile of the Department of Commerce seal and a five-digit number representing the date of the validation, the name of the field office making the amendment will be inserted in the space marked "Validation". To complete the validation process, the amending officer will insert in the space provided, a serial number preceded by an appropriate abbreviation of the city where the field office is located, sign and date Form IT–763, and check the space indicating approval. The collector's copy of the approved form will be sent to the appropriate collector of customs as the official notice of amendment. A confirmation copy of approval, rejection, or return without action will be sent to the individual named in item 4 of Form IT–763.

When an amendment request involves shipment by mail, the field office shall return to the applicant (a) the validated duplicate (collector's) copy of Form IT–763; (b) the triplicate (applicant's copy); and (c) the export license (Form IT–628). It will be the responsibility of the licensee or his authorized agent to present the license and the validated Form IT–763 to the postmaster at the time of mailing.

6. Section 398.7 *Supply assistance for foreign mining operations: MRO and capital additions* is amended to read as follows:

§ 398.7 *Supply assistance for foreign mining operations; MRO and capital additions*—(a) *Authority.* Pursuant to National Production Authority's Order M–78 (32A CFR Chapter VI), as amended, the Office of International Trade, Department of Commerce, is authorized to assist producers of metals and minerals whose mines (1) have received serial numbers under DMPA Order 7, and (2) are located in a foreign country other than those listed in § 398.1 (c), by securing allotment numbers and priority ratings to permit the procurement of needed materials for MRO purposes and for capital additions.

(b) *Scope.* Supply assistance is available pursuant to this section and as authorized by NPA Order M–78, as amended, to meet the requirements of foreign serialized mines for the following commodities and purposes:

(1) Maintenance, repair and operating supplies, as defined in section 2 (b), (c), and (d) of the Order M–78, as amended;

(2) Minor capital additions not in excess of $5,000, as set out in section (2) (e) of the Order M–78, as amended;

(3) Major capital additions (costing over $5,000) as defined in section 2 (f) and section 15 of NPA Order M–78, as amended, for which application may be made to secure limited supply assistance as set forth in paragraph (f) of this section.

Under the terms of the order, the allotment symbol W–2 may be used to obtain controlled materials, and the rating DO–W–2 for materials other than controlled materials required by foreign serialized mines. However, the allotment symbol and rating may not be applied to obtain any of the materials listed in Schedules I or II of CMP Regulation No. 5 as it may be amended from time to time.

In addition, the allotment symbol and rating may not be applied by a producer to obtain, in any quarter (calendar or fiscal), materials for minor capital additions exceeding, in the aggregate, 20 percent of his quarterly MRO quota, or $5,000, whichever is greater. However, no limit is placed upon a producer's acquisition of additional products or materials, (other than controlled materials) for minor capital additions without the use of an allotment number or rating.

(c) *Who may apply.* A "foreign producer" is defined in NPA Order M–78, as amended, as any person actually engaged, outside the United States, its territories and possessions and Canada, in the activities mentioned in paragraph (i) of Order M–78, as amended, who has been assigned a serial number under the procedure described in § 398.2 and who has a duly authorized agent within the United States, its territories or possessions responsible for the producer's compliance with the provisions of Order M–78, as amended. Foreign producers may file requests for supply assistance as prescribed in this section.

NOTE: Producers whose mines are located in countries for which the Mutual Security Agency is claimant agency shall file requests for supply assistance described in this section with the Mutual Security Agency, Washington, D. C., in accordance with instructions issued by that agency. (For a list of such countries, refer to § 398.1 (c).)

Producers located in Canada should consult with the Canadian Division of the National Production Authority, Department of Commerce, Washington 25, D. C.

(d) *Required application to DMPA for establishment of quarterly quotas to cover MRO and minor capital additions.* (1) In calculating his MRO base, to be reported on Form DMPA–28, a producer shall include all expenditures made by him in the base period for MRO except materials included in List A of NPA Reg. 2. Expenditures for capital additions are not be included. The standard base period is the calendar year 1950, and the standard quota is 30 percent of the producer's quota base. Establishment of alternate fiscal and seasonal quotas is described in (c) and (e) of section 7 of Order M–78, as amended.

(2) Any foreign producer who has received a serial number under DMPA Mineral Order–7 must file with DMPA on Form DMPA–28 (formerly MF–400) an application to establish an MRO quota if he has not already filed for such a quota. Such application must be made within 60 days of the receipt of such serial number.

(3) Section 8 of Order M–78, as amended, explains how charges are made by the producer against his quota.

(e) *Submission of requests for increased quotas to cover MRO supplies and minor capital additions.* (1) In cases where a foreign producer's essential needs for MRO supplies and minor capital additions cannot be met within his established quarterly quota described in paragraph (d) of this section, he may file application in quadruplicate on Form DMPA–28, with DMPA, requesting the necessary increase in his quota.

These requests must be filed prior to the expiration of the quarter for which adjustment is requested, and the established base quota must not be exceeded unless and until the DMPA–28 application is approved.

(2) When a foreign producer's quarterly quota is thus increased, he may continue to operate with the increased quota as his established quota unless the increase is granted on a temporary or seasonal basis or is otherwise restricted by the terms of the authorization. Any increase granted shall not be retroactive.

(3) Also, to the extent increased quotas for MRO and minor capital additions are approved on Form DMPA–28, DMPA will specifically assign to the applicant the right to use the allotment symbol W–2 and the rating DO–W–2 for the quantities approved.

(f) *Requests for supply assistance in obtaining materials for major capital additions or other equipment costing more than $5,000.* Requests of foreign producers for supply assistance in obtaining (1) major capital additions or (2) any other items of machinery or equipment costing more than $5,000

(whether they are for replacement, addition, or improvement) must be filed with the Office of International Trade (except for countries for which the Mutual Security Agency acts as claimant). Such applications are filed with OIT on Form IT–835 in accordance with the procedure specified in § 398.4; except where the applications form part of a large new construction or expansion project, in which case applicants should consult with the nearest field office of the Department of Commerce, or with the Office of International Trade, Washington 25, D. C., to ascertain the proper procedure.

Applications for assistance under this Section which the Office of International Trade feels should be recommended will be referred to the Defense Materials Procurement Agency and/or the National Production Authority for their consideration and action.

(g) *Assignment and use of allotment symbols and DO ratings.* (1) A foreign producer may not use the allotment symbol W–2 to procure controlled materials or the priority rating DO–W–2 to procure other than controlled materials intended for use as MRO or for minor capital additions, under the terms of Order M–78, as amended, until he has received authorization from DMPA on Form DMPA–28.

(2) The limitations on the use of the allotment symbol, and instructions as to the manner in which a producer places his delivery order are contained in sections 4, 5, 6, 10, and 11 of the Order M–78, as amended. The certification required when a producer places a delivery order for controlled materials or a rated order for other products is set forth in section 14.

(h) *Relation to other NPA orders.* Rated orders filled by a manufacturer under this regulation, for MRO supplies as defined in NPA Order M–79, as amended, are chargeable to his quarterly MRO export quota established in Order M–79, as amended, if M–79 applies to him.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

This amendment shall become effective as of July 3, 1952, with the exception of Part 5 which shall become effective as of July 10, 1952.

KARL L. ANDERSON,
Acting Director,
Office of International Trade.

[F. R. Doc. 52–7933; Filed, July 18, 1952; 8:46 a. m.]

[6th Gen. Rev. of Export Regs., Amdt. P. L. 2 [1]]

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

1. Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are deleted from the Positive List:

Dept. of Commerce Schedule B No.	Commodity
201100	Rubber, reclaimed.
201200	Rubber, scrap.
206210	Tires, tire casings and inner tubes (report scrap tires and tire casings with both beads cut through or at least one bead removed from the casings, or the casings made discontinuous by being completely cut through or the carcass broken completely through for a length equal to at least the cross-sectional width, and inner tubes completely lacerated or cut cross-sectionally into two separate pieces, under 201200): Passenger car casing (formerly 206200).
206520	Inner tubes: Passenger car.
206935	Tire sundries and repair material: Camelback.
309005	Carpet wools (report estimated weight of clean content as net quantity).
309045	Other wools (report estimated weight of clean content as net quantity): Finer than 58's (formerly 309005 and 309007).
309908	Not finer than 58's (formerly 309045 and 309047).
362911	Wool-like specialty hair (report estimated weight of clean content as net quantity): Angora goat (mohair) and alpaca.
362920	Wool semimanufactures, wholly or in chief weight wool and/or wool-like specialty hair: Noils, except noils of cashmere goat, camel, and vicuna.
381079	Staple and tow: Nylon (formerly 381005).
381095	Waste and partially manufactured man made (synthetic) fiber, including tops, sliver and roving: Nylon tops, sliver and roving of staple and of waste (formerly 381005).
400200	Rags for paper stock:
775080	New cotton cuttings, valued $150 or over per ton (formerly 600000). Stationary industrial water-treatment equipment for drinking water.[1]

[1] By this amendment the entry presently on the Positive List under Schedule B No. 775080 is revised to read as follows: "Industrial water-treatment equipment, except stationary, for drinking water."

This part of the amendment shall become effective as of July 3, 1952.

2. The following are changed from R to RO commodities:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
617000	Tools (all metals) n. e. c.: Drills and bits, hard-surfaced steel and tungsten-carbide types (formerly 617720, (report types for power-driven tools in 744851)).	.....	CDGS	None	RO
617598	Jacks, hand-operated, and parts, with lifting capacity of 10 tons or more (including hand-operated hydraulic jacks) (report jacks for construction and maintenance in 722045; jacks for garage use in 763185).	.....	CDGS	25	RO
700000	Generators, n. e. c. and parts, n. e. c. (report aircraft, automobile, bus, truck, tractor, and industrial engine generators in 700210–700220, generators for electric propulsion motors in 704350): Direct current generators, n. e. c.[1]	No.	ELTE 1	None	RO
700150	Parts and accessories, n. e. c., specially fabricated for generators (specify by name) (formerly 700000).[1]	.....	ELTE 1	100	RO
722045	Construction and maintenance equipment, n. e. c., and specially fabricated parts, n. e. c. (specify by name): Power jacks, with lifting capacity of 10 tons or more and specially fabricated parts (formerly 723100 and 775085).	.....	CONS	25	RO
763185	Jacks for garage use, with lifting capacity of 10 tons or more; and specially fabricated parts (formerly 763180).	.....	CONS	25	RO

[1] The commodities covered by this Positive List entry require import certificate (see § 373.34).

This part of the amendment shall become effective as of 12:01 a. m., July 10, 1952.

3. The dollar value limit in the column headed "GLV dollar-value limit" set forth opposite the commodities listed below is amended to read as follows:

Dept. of Commerce Schedule B No.	Commodity	GLV dollar value limit
481500	Fine Paper: Capacitor tissue; electrical insulating tissue; coil paper; electrolytic condenser tissue, Kraft: Kraft condenser tissue; other paper for dielectric use, coated or uncoated	[illegible]
482000	Special industrial paper: Cable filling, electrical; cable, paper stock; coil-winding paper, electrical insulating paper, other than fine paper; other paper for dielectric use, coated or uncoated	[illegible]
483000	Battery board; electrical insulation board, except wet-machine (formerly 482000)	[illegible]
481100	Wet machine board, electrical insulation only	[illegible]
486400	Converted paper and board products: Wrapping paper products: Laminated waterproof paper, wire-wrapping only (formerly 486000)	15
489000	Paper, paperboard, and products, n. e. c. (specify by name): Cable paper, electrical paper and cloth, gummed; paper sleeving, treated; rope paper tape, electrical insulating; and paper, paperboard, and tissue for dielectric use, coated or uncoated, n. e. c. (formerly 489300 and 489000)	15

This part of the amendment shall become effective as of 12:01 a. m., July 3, 1952.

4. The following revisions are made in commodity descriptions. These revisions include changes in validated license control.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
540905★	Abrasives: Diamond grinding wheels, sticks, hones, and laps (report loose industrial diamonds in 599005; diamond powder or dust, including compounds, in 599010) (see §§ 373.1, 373.9 of this subchapter).[1]	Lb.	TOOL 1	None	RO
618509	Pipe fittings not specially fabricated for particular machines or equipment (see § 399.2): Aluminum pipe fittings (formerly 620998)[2]	Lb.	NONF	100	RO
618509	Copper pipe fittings (formerly 643988)[2]	Lb.	NONF	100	RO
618509	Lead pipe fittings (formerly 651598)[2]	Lb.	NONF	100	RO
618509	Zinc pipe fittings (formerly 658998)[2]	Lb.	NONF	100	RO
619009	Welding rods and wires: Aluminum and aluminum base alloys (formerly 620200)[3]	Lb.	NONF	100	RO
619009	Lead and lead base (specify by name and metal content) (formerly 651200)[3]	Lb.	NONF	100	RO
619039	Nickel and nickel alloy (specify by name and metal content) (formerly 654988)[3]	Lb.	NONF	100	RO
619039	Zinc (specify by name) (formerly 658998)[3]	Lb.	NONF	100	RO
619062	Wire cloth: Insect screen cloth: Aluminum (formerly 620000)[4]	Sq. ft. and lb.	NONF	25	RO
641000★	Beryllium-copper ingots (formerly 661998)[5]	Lb.	NONF	None	RO
641100	Other copper-base alloy ingots (formerly 641000, 661000, and 661998).[5]	Lb.	NONF	50	RO
706865	Insulated wire and cable: Automotive ignition wire in coils, reels, or spools in lengths of 100 feet or less (formerly 706850).[6]	Lb.	TRAN	100	RO
706865	Other rubber and/or synthetic rubber-insulated wire and cable (except building wire and cable), with plain, braided, leaded, or armored finishes (specify by name) (formerly 706850).[6]	Lb.	NONF	100	RO
809500	Acids and anhydrides: Sulfuric acid, all grades (in addition to the actual weight, specify strength as percentage H_2SO_4).[7]	Lb.	ACID	100	RO

★ The commodities described in this Positive List entry are excepted from the provisions of General In-Transit License GIT. See §371.9 (c) of this subchapter.

[1] The above entry is substituted for the entry presently on the Positive List under Schedule B No. 540905. The effect of this revision is to clarify the description without making a substantive change.

[2] The above four entries are substituted for the first entry presently on the Positive List under Schedule B No. 618509. The effect of this revision is to establish a GLV dollar-value limit of $100 for pipe fittings of each of the metals named, and to delete the "B" (DL Restriction) from lead and zinc pipe fittings.

[3] The above four entries are substituted for the fifth entry presently on the Positive List under Schedule B No. 619009. The effect of this revision is to establish a GLV dollar-value limit of $100 for welding rods and wires of each of the metals named; to show that welding rods and wires of aluminum and nickel, or alloys of either, are subject to a DL restriction by showing "B" in the "Commodity list" column opposite those entries; and to omit the "A" opposite the fourth substituted entry under Schedule B No. 619039, as zinc welding rods and wires are not subject to the IC/DV procedure (see §373.34 of this subchapter).

[4] The above revised entry is substituted for the entry presently on the Positive List under Schedule B No. 619062. The effect of this revision is to require applicants for export licenses to state the quantity of this commodity to be shipped in terms of pounds as well as in square feet.

[5] The above two entries are substituted for the two entries presently included on the Positive List under Schedule B No. 644100. The effect of this revision is to change the GLV dollar-value limit for brass, bronze and nickel-silver, or German silver, ingots from $100 to $50, and beryllium copper ingots from $50 to none.

[6] The above two entries are substituted for the entry presently on the Positive List under Schedule B No. 706865. The effect of this revision is to list separately automotive ignition wire in coils, reels, or spools, in lengths of 100 feet or less and to change the processing code from NONF to TRAN and remove the letters "B" and "C" in the column headed "Commodity Lists" for such wire.

[7] This entry makes no substantive change in validated license control. The effect of the revision is to require that, in addition to the actual weight, the percentage of H_2SO_4 strength be shown on the application.

This part of the amendment shall become effective as of 12:01 a. m., July 10, 1952, except for the revision of the entry under Schedule B No. 540905 (diamond grinding wheels, etc.) which shall become effective as of July 3, 1952.

5. The following commodities are made subject to the IC DV procedure (see § 373.34 of this subchapter). Accordingly, the Positive List is amended by adding opposite the commodity entries listed below the letter "A" in the column headed "Commodity Lists". The commodity descriptions therefor are also amended to read as follows:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar value limits	Validated license required
206270	Tires, tire casings and inner tubes (report scrap tires and tire casings with both beads cut through or at least one bead removed from the casings or the casings made discontinuous by being completely cut through or the carcass broken completely through for a length equal to at least the cross-sectional width, and inner tubes completely lacerated or cut cross-sectionally into two separate pieces, under 201200) (See Special Provisions, §§ 373.24, 373.34 of this subchapter) Inner tubes: Other off-the-road and industrial inner tubes.[1]	No.	RUBR 9	100	R
206270	Farm tractor and farm implement inner tubes.[1]	No.	RUBR 9	100	R
618305	Basic hardware: Bolts, screws, nuts, rivets, and washers, n. e. c., not specially fabricated for particular machines or equipment (specify by name): Aluminum, except wire bolts, wire screws, and wire rivets (formerly 620505).[2]	Lb.	BLDG	100	RO
618305	Aluminum explosive rivets (formerly 630600)[2]	Lb.	BLDG	100	RO

[1] The above two entries are substituted for the second entry presently on the Positive List under Schedule B No. 206270. The effect of this revision is to eliminate a portion of the former listing from the IC/DV procedure (see § 373.34 of this subchapter).

[2] The above two entries are substituted for the first entry presently on the Positive List under Schedule B No. 618305. The effect of this revision is to eliminate a portion of the former listing from the IC/DV procedure (see § 373.34 of this subchapter).

This part of the amendment shall become effective as of July 10, 1952.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations, or whose GLV dollar-value limits were reduced as a result of changes set forth in Parts 2 and 4 (with the exception of the revision of the entry under Schedule B No. 540905) of this amendment, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., July 10, 1952, may be exported under the previous general license provisions up to and including August 2, 1952. Any such shipment, not laden aboard the exporting carrier on or before August 2, 1952, requires a validated license for export.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR 1948 Supp.)

KARL L. ANDERSON,
Acting Director,
Office of International Trade.

[F. R. Doc. 52–7934; Filed, July 18, 1952; 8:46 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[Regs. 3–5, 10, 11, 15, 29; T. D. 5919]

PART 182—INDUSTRIAL ALCOHOL

PART 183—PRODUCTION OF DISTILLED SPIRITS

PART 184—PRODUCTION OF BRANDY

PART 185—WAREHOUSING OF DISTILLED SPIRITS

PART 189—BOTTLING OF TAX-PAID DISTILLED SPIRITS

PART 190—RECTIFICATION OF SPIRITS AND WINES

PART 197—DRAWBACK OF TAX ON DISTILLED SPIRITS USED IN THE MANUFACTURE OF NONBEVERAGE PRODUCTS

EXTENSION OF USE OF DISTILLED SPIRITS EXCISE TAX STAMPS FOR REMOVALS OF DISTILLED SPIRITS AND ALCOHOL

1. In order to facilitate the taxpayment of distilled spirits removed in tank cars and tank trucks from registered distilleries, fruit distilleries and internal revenue bonded warehouses, and of alcohol removed by pipe line and in tank cars and tank trucks from industrial alcohol plants and industrial alcohol bonded warehouses, the regulations are amended to authorize the use of distilled spirits excise tax stamps, in lieu of certificates of taxpayment, Form 1595. The amendments provide that where distilled spirits excise tax stamps are used for the taxpayment of distilled spirits and alcohol removed in tank cars and tank trucks, a wholesale liquor dealer's stamp shall be affixed to the conveyance (in lieu of Form 1595) as evidence of taxpayment. The distilled spirits excise tax stamps can be purchased in advance and wholesale liquor dealer's stamps can be obtained from

the storekeeper-gauger at the plant. Taxpayment can thus be accomplished immediately following the gauging of the distilled spirits or alcohol and the delay incident to obtaining a certificate of taxpayment from the collector after the distilled spirits or alcohol are gauged will be obviated. Distilled spirits excise tax stamps were originally prescribed by Regulations 10 (26 CFR Part 185), effective September 1, 1950, for the taxpayment of distilled spirits bottled in bond. Subsequently, their use was extended by Treasury Decision 5806 (15 F. R. 174), effective September 8, 1950, for the taxpayment of distilled spirits transferred by pipe line from registered and fruit distilleries and internal revenue bonded warehouses to contiguous rectifying plants and taxpaid bottling houses, and for distilled spirits taxpaid in bulk gauging tanks in internal revenue bonded warehouses and drawn into packages to which wholesale liquor dealer's stamps are to be affixed; and by Treasury Decision 5809 (15 F. R. 198), effective October 12, 1950, for the taxpayment of spirits contained in rinsings from packages dumped at rectifying plants and tax-paid bottling houses.

2. Other purposes of the amendments are as follows:

(a) To authorize an optional method, to be followed by the proprietor, of canceling distilled spirits excise tax stamps, and rectified spirits stamps used for the payment of rectification tax on distilled spirits in bottling tanks in a rectifying plant, by perforating, in lieu of stamping, the data required by regulations, and to permit partial advance cancellation of such stamps for identification in the event of subsequent loss, by theft or otherwise;

(b) To provide for the issuance of wholesale liquor dealer's stamps by storekeeper-gaugers, in lieu of collectors of internal revenue, for affixing to tank cars and tank trucks where taxpayment is by use of distilled spirits excise tax stamps, and for affixing to wholesale liquor dealer packages of unrectified spirits filled at rectifying plants (the issuance by storekeeper-gaugers (in lieu of collectors) of wholesale liquor dealer's stamps for affixing to packages filled from bulk gauging tanks in internal revenue bonded warehouses was authorized by Regulations 10 (26 CFR Part 185)); and

(c) To authorize the retention of the registry number when a registered distillery, fruit distillery, internal revenue bonded warehouse, tax-paid bottling house or rectifying plant is moved to another location within the same State or when an industrial alcohol plant, industrial alcohol bonded warehouse or denaturing plant is moved to another location within the United States.

3. Regulations 3 (26 CFR Part 182; 7 F. R. 1858), "Industrial Alcohol," as amended, are amended as follows:

(a) Sections 182.305, 182.569, 182.570, 182.571, 182.572, 182.574, 182.574e, 182.574g and 182.643a are amended; and

(b) Sections 182.566a, 182.568a, 182.574a–1, 182.574d–1, 182.574h, 182.574i, 182.574j, 182.574k, 182.574l, 182.574m, 182.574n, 182.574o, 182.574p, 182.574q, 182.574r, 182.574s, 182.574t and 182.648c are added.

ACTION BY COMMISSIONER

ORIGINAL ESTABLISHMENT

* * * * * * *

§ 182.305 *Registry and permit numbers.* Upon request therefor by district supervisors the Commissioner will assign registry and permit numbers to industrial alcohol plants, bonded warehouses and denaturing plants. Such plants will be numbered serially, irrespective of States or districts. Symbols and numbers for basic permits will be assigned as provided in § 182.291. Registry and permit numbers previously assigned to discontinued alcohol plants, bonded warehouses, and denaturing plants will not be reassigned to other such plants. The same registry number will be continued whenever there is a change of proprietorship. In the case of a change in location of the premises, the same registry number may be retained. A new basic permit number will be assigned when there is a change of proprietorship. The same registry and permit number will be assigned to an industrial alcohol plant, bonded warehouse, and denaturing plant, or any combination of such plants on the same premises.

(53 Stat. 358, 360, 364; 26 U. S. C. 3105 3114, 3124)

OPERATION OF INDUSTRIAL ALCOHOL BONDED WAREHOUSES

* * * * * * *

TAX-PAID WITHDRAWALS IN TANK CARS OR TANK TRUCKS

* * * * * * *

§182.566a *Methods of taxpayment.* The tax on alcohol to be removed in a tank car or tank truck will be paid by the proprietor (a) by use of a certificate of taxpayment, Form 1595, issued pursuant to application on Form 1594, or (b) by use of distilled spirits stamps prescribed by § 182.574h. Where alcohol which is to be removed by tank car or tank truck is taxpaid by use of distilled spirits stamps, a wholesale liquor dealer's stamp will be affixed to the tank car or tank truck. Where taxpayment is by use of a certificate of taxpayment, Form 1595, the certificate will be procured and used in accordance with §§ 182.567, 182.568 and 182.569 to 182.571. Where taxpayment is by use of distilled spirits stamps, such stamps will be procured in accordance with §§ 182.574h to 182.574j and used in accordance with § 182.568a. Where distilled spirits stamps are used for taxpayment of alcohol removed by tank car or tank truck, a wholesale liquor dealer's stamp will be procured in accordance with § 182.574o.

(53 Stat. 298 as amended, 358, 360, 364; 26 U. S. C. 2800, 3105, 3112, 3124, 3172)

§ 182.568a *Use of distilled spirits stamps.* Where alcohol is to be taxpaid by use of distilled spirits stamps, the proprietor, upon receipt of the copies of Form 1440 from the storekeeper-gauger pursuant to § 182.566, will cancel the necessary number of stamps in the exact amount of the tax due by perforation as prescribed herein, or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the warehouse, and the date of Form 1440; for example, "John Doe Industries, Incorporated, Industrial Alcohol Bonded Warehouse No. 63, New Jersey, Form 1440 June 1, 1952." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only. The date of Form 1440 must not be entered on the stamp in advance of actual use in taxpayment. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor, if adequate for identification; for example, "J. D. Ind. Inc. IABW63–NJ–1440–6–1–52." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. If the proprietor's cancellation is made by perforation, each letter and figure of the cancellation must be not less than one-fourth of an inch in height and of proportionate width and suitably spaced for legibility and distinctness, and must be clearly and sharply outlined either (a) by perforation through the substance of the stamp, and not merely puncturing it, each perforation to be not less than one thirty-second of an inch in width or diameter; or (b) by perforations in the form of incisions through the stamp of at least one thirty-second of an inch in width, cutting out the form of the letters and figures from the substance of the stamp, which letters and figures must be of the size, spacing, and distinctness as above specified. The proprietor will then attach the canceled distilled spirits stamps to one copy of Form 1440 and return all copies of that form to the Government officer. The Government officer, after determining that the cancelled stamps are in the proper amount of the tax shown due on the Form 1440, will then further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp and will execute a certificate on all copies of Form 1440 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps in the amount of tax due. The canceled distilled spirits stamps will be securely attached to a copy of Form 1440 by means of a staple, eyelet, or similar device. Such copy of Form 1440 will be attached to the board on the weighing tank and remain thereon until the alcohol covered by such stamps has been removed. A wholesale liquor dealer's stamp for attachment to the conveyance will be procured by the proprietor in accordance with §§ 182.574o and 182.574p. Form 1440 will be disposed of in accordance with § 182.571.

(53 Stat. 298 as amended, 358, 360, 364 368, 26 U. S. C. 2800, 3105, 3112, 3124, 3172, 3175, 3300)

§ 182.569 *Bill of lading.* The proprietor shall incorporate in the bill of lading, if any, a description of Form 1595 as follows:

Form 1595, Serial No. ——, Owner and No. of Car (or truck) ——, Vendor ——, Address ——, Vendee ——, Address ——.

Where a wholesale liquor dealer's stamp is used in lieu of Form 1595, the proprietor shall incorporate in the bill of lading, if any, a description of the stamp showing the kind of stamp and its serial number.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

§ 182.570 *Storekeeper-gauger's verification.* If taxpayment is by means of a certificate of taxpayment (Form 1595), the proprietor shall give the certificate, the bill of lading, if any, and all copies of Form 1440 to the storekeeper-gauger. The storekeeper-gauger will verify the contents of the tank car or tank truck and the description of Form 1595 in the bill of lading, if any, determine the security of the route board, and, if no discrepancies are found, he will note the serial number of the certificate on Form 1440, and date and sign the certificate in the space provided therefor. The proprietor shall then affix the certificate to the route board in the presence of the storekeeper-gauger. The certificate must be securely affixed to the route board with a good adhesive and with a tack in each corner, whereupon it will be cancelled in the same manner as a tax-paid stamp after attachment to a package. The certificate will then be covered with a coating of transparent shellac, lacquer or varnish, to prevent its easy removal or alteration. If taxpayment is by means of distilled spirits stamps and evidenced by a wholesale liquor dealer's stamp, the proprietor shall give the bill of lading, if any, to the storekeeper-gauger who shall verify the contents of the tank car or tank truck, the description of the wholesale liquor dealer's stamp on the bill of lading, if any, and determine the security of the route board. If no discrepancies are found, the proprietor shall affix the wholesale liquor dealer's stamp to the route board in the presence of the storekeeper-gauger. The wholesale liquor dealer's stamp shall be affixed, cancelled and protected in the same manner as a certificate of taxpayment, Form 1595.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

§ 182.571 *Release of tank car or tank truck.* When the certificate of taxpayment (Form 1595), or wholesale liquor dealer's stamp, has been affixed to the route board and cancelled, and the conveyance locked or sealed by the proprietor (who shall furnish the necessary locks or seals), the storekeeper-gauger will return the bill of lading, if any, to the proprietor and release the tank car or tank truck for shipment. The storekeeper-gauger will forward one copy of Form 1440 to the district supervisor and deliver two copies to the proprietor, who will forward one copy to the vendee, and retain the remaining copy as a permanent record in accordance with § 182.643h. Where distilled spirits stamps have been used to taxpay the alcohol, the copy of Form 1440 to which cancelled stamps are attached will be forwarded to the district supervisor.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

§ 182.572 *Procedure when tank car or tank truck is emptied.* When the vendee receives tax-paid alcohol in a tank car or tank truck he shall, at the time the car or truck is emptied, dispose of the certificate of taxpayment, Form 1595, or wholesale liquor dealer's stamp, as the case may be, in accordance with the procedure prescribed by Regulations 11 (Part 189 of this subchapter), Regulations 15 (Part 190 of this subchapter) or Regulations 29 (Part 197 of this subchapter). The district supervisor will investigate any discrepancy which may be found respecting the shipment in accordance with such regulations.

(53 Stat. 358, 360, 364; 26 U. S. C. 3105, 3112, 3124)

§ 182.574 *Comparison of sealed certificate or wholesale liquor dealer's stamp with application.* The district supervisor will compare the cut out portion of the certificate or wholesale liquor dealer's stamp with the copy of the application, Form 1594 or Form 92, as the case may be, and investigate any discrepancy.

(53 Stat. 358, 360, 364; 26 U. S. C. 3105, 3112, 3124)

TAX-PAID WITHDRAWALS BY PIPELINE TO RECTIFYING PLANT OR TAX-PAID BOTTLING HOUSE

* * * * * * *

§ 182.574a–1 *Methods of taxpayment.* The tax on alcohol to be removed by pipeline to a contiguous rectifying plant or tax-paid bottling house will be paid by the proprietor (a) by use of a certificate of taxpayment, Form 1595, issued pursuant to application on Form 1594, or (b) by use of distilled spirits stamps prescribed by § 182.574h. Where taxpayment is by use of a certificate of taxpayment, Form 1595, the certificate will be procured and used in accordance with §§ 182.574b to 182.574d and 182.574e. Where taxpayment is by use of distilled spirits stamps, they will be procured in accordance with §§ 182.574h to 182.574j.

(53 Stat. 298 as amended, 358, 360, 364, 374; 26 U. S. C. 2800, 3105, 3112, 3124, 3172)

§ 182.574d–1 *Use of distilled spirits stamps.* Where taxpayment is to be by use of distilled spirits stamps, the proprietor, upon receipt of the copies of Form 1440 from the storekeeper-gauger pursuant to § 182.574a, will cancel the necessary number of stamps, in the exact amount of the tax due, in the manner prescribed by § 182.568a. The proprietor will attach the canceled distilled spirits stamps to one copy of Form 1440 and return all copies of that form to the Government officer. The Government officer will determine that the canceled stamps are in the full amount of the tax shown due on the Form 1440, and will then further cancel and deface the stamps in the manner prescribed by § 182.568a and will execute a certificate on all copies of Form 1440 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps for the amount of tax due. The canceled distilled spirits stamps will be securely attached to the copy of Form 1440 by means of a staple, eyelet, or similar device, such copy of Form 1440 will be attached to the Board on the weighing tank and remain thereon until the alcohol covered by such stamps has been removed. Form 1440 will be disposed of in accordance with § 182.574e.

(53 Stat. 298 as amended, 358, 360, 364, 375, 398; 26 U. S. C. 2800, 3105, 3112, 3124, 3172, 3175, 3300)

§ 182.574e *Transfer of alcohol.* When a certificate of taxpayment has been affixed to the weighing tank and canceled, or when the Form 1440 to which the canceled distilled spirits stamps are attached has been attached to the weighing tank, the storekeeper-gauger will unlock the outlet valve and permit the proprietor to transfer the alcohol by pipe line to the rectifying plant or tax-paid bottling house. The alcohol shall be transferred only under the immediate supervision of the storekeeper-gauger at the industrial alcohol plant or bonded warehouse and the storekeeper-gauger at the rectifying plant or tax-paid bottling house who shall verify by weight or measure the quantity received. After the alcohol has been transferred, the storekeeper-gauger will forward one copy of Form 1440 with the canceled Form 1595, or the canceled distilled spirits stamps, as the case may be, to the district supervisor and deliver two copies of Form 1440 to the proprietor who will deliver one copy of such form to the rectifier or bottler.

(53 Stat. 357, 358, 360, 364, 374; 26 U. S. C. 3101, 3105, 3112, 3124, 3172)

§ 182.574g *Comparison of canceled certificate with application.* The district supervisor will compare the canceled certificate with the copy of the application, Form 1594, and the report of gauge, Form 1440, as to the number of gallons of alcohol, the amount of tax, etc., and investigate any discrepancy.

(53 Stat. 358, 360, 364; 26 U. S. C. 3105, 3112, 3124)

DISTILLED SPIRITS STAMPS FOR REMOVALS BY PIPE LINES, TANK CARS AND TANK TRUCKS

§ 182.574h *Distilled Spirits Excise Tax stamps.* The tax on alcohol removed in tank cars or tank trucks, or by pipeline, may be paid by Distilled Spirits Excise Tax stamps (Series of 1950). Such stamps may be purchased in various denominations by the proprietor from the collector of internal revenue of the district in which the industrial alcohol plant or industrial alcohol bonded warehouse is located. The stamps may be purchased in advance of actual needs, in order to be readily available when needed. The stamps may not be purchased by one proprietor from another, nor may they, except in cases of emergency, be purchased from collectors of other districts. Proprietors shall not sell or transfer stamps, except that they may (a) transfer such stamps to other premises operated by themselves as provided in § 182.574k pursuant to the prior approval of the district supervisor, or (b)

return such stamps for redemption in accordance with § 182.574l. Distilled spirits stamps for taxpayment of alcohol as authorized by this part, used or unused, may not be purchased, sold, or possessed, except as specifically authorized by this part.

(53 Stat. 298 as amended, 358, 360, 364, 374, 398, 399; 26 U. S. C. 2800, 3105, 3112, 3124, 3172, 3300, 3304)

§ 182.574i *Form 427–D.* With each purchase of stamps the proprietor will submit to the collector Form 427–D, in triplicate, properly filled out. The collector will stamp the date of sale on all copies of Form 427–D, return one copy to the proprietor with the stamps and send one copy to the appropriate district supervisor. The remaining copy of Form 427–D will be filed in the collector's office so that all purchases of stamps may be varified at any time. The collector will refuse to sell stamps when such form is not submitted.

(53 Stat. 298 as amended, 358, 364, 374; 26 U. S. C. 2800, 3105, 3124, 3172)

§ 182.574j *Remittance; delivery.* All orders for stamps must be accompanied by proper remittance in a sum equal to the value of the stamps. Unless the stamps are called for by the proprietor or his agent in person, they will be sent to him by ordinary mail, registered mail, or express, at the expense of the proprietor. When the stamps are not called for in person the proprietor will specify on Form 427–D the means (ordinary mail, registered mail, or express) by which he desires the stamps sent to him. If the stamps are ordered sent by ordinary mail, the proprietor shall enclose with his order sufficient postage stamps, or a separate remittance to cover the postage. If the stamps are ordered sent by registered mail, the proprietor shall include the postage and registry fee and any required registry surcharge, as provided by the postal laws and regulations. If the remittance is other than cash, the sum to cover the postage, registry fee, or surcharge must not be included in the remittance covering the cost of the stamps. The local postmaster should be consulted relative to the amount of the registry fee and surcharge required. Stamps forwarded by express will be sent "collect."

(53 Stat. 298 as amended, 358, 364, 374, 447 as amended; 26 U. S. C. 2800, 3105, 3124, 3172, 8656)

§ 182.574k *Transfer to other premises.* A proprietor operating other plants on the same or contiguous premises may transfer stamps to such plants from time to time pursuant to prior approval of the district supervisor. When the alcohol plant or bonded warehouse is permanently discontinued, or the proprietor has no use for the stamps thereat and the proprietor operates other premises in which the stamps could be used, he may transfer such stamps to such other premises for use thereat pursuant to prior approval of the district supervisor. If the premises to which the stamps are to be transferred is located in another supervisory district, the supervisor granting authority to transfer the stamps will advise the district supervisor of the other district so that he may know that the receiving premises is entitled to receive the stamps. The latter district supervisor will also inform the Government officer assigned to the receiving premises of the authority to receive the stamps. A report of all transfers of stamps must be made on Form 1697, as provided in § 182.648c.

(53 Stat. 298 as amended, 358, 364, 374, 375; 26 U. S. C. 2800, 3105, 3124, 3172, 3175)

§ 182.574l *Redemption of distilled spirits stamps.* Distilled spirits stamps, for taxpayment of alcohol to be removed in a tank car or tank truck or by pipeline, may be redeemed pursuant to section 3304, Internal Revenue Code, which reads as follows:

Redemption of stamps—(a) *Authorization.* The Commissioner, subject to regulations prescribed by the Secretary, may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps, issued under authority of law, to denote the payment of any internal revenue tax, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which through mistake may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner, or until satisfactory proof has been made showing the reason why the same cannot be returned; or, if so required by the said Commissioner, when the person presenting the same cannot satisfactorily trace the history of said stamps from their issuance to the presentation of his claim as aforesaid.

(c) *Time for filing claims.* No claims for the redemption of or allowance for stamps shall be allowed unless presented within four years after the purchase of such stamps from the Government.

(d) *Finality of Commissioner's decision.* The findings of facts in and the decision of the Commissioner upon the merits of any claim presented under or authorized by this section shall, in the absence of fraud or mistake in mathematical calculation, be final and not subject to revision by any accounting officer.

(53 Stat. 358, 364, 399; 26 U. S. C. 3105, 3124, 3304)

§ 182.574m *Claim to collector.* Proprietors desiring to have distilled spirits stamps, described in § 182.574l, redeemed under the provisions of section 3304, I. R. C., must make claim on Form 843 to the collector of internal revenue. The stamps, for which redemption is claimed, must be attached to the claim, and the number and denominations thereof must be listed on the claim or on a sheet of paper attached thereto. Where the stamps have been destroyed, evidence satisfactory to the Commissioner establishing such destruction must accompany the claim.

(53 Stat. 298 as amended, 358, 364, 374, 399; 26 U. S. C. 2800, 3105, 3124, 3172, 3304)

§ 182.574n *Unredeemable stamps.* Distilled spirits stamps may not be redeemed while alcohol on which the stamps can be used in taxpayment, remains on hand and while the alcohol plant or bonded warehouse remains in a qualified status unless it is shown that the manner of taxpaying alcohol thereat is such that the stamps may not be used. When an alcohol plant or bonded warehouse is discontinued and stamps remain on hand, such stamps are not redeemable if the proprietor operates other premises at which the stamps could be used. In such cases the stamps will be transferred to the other premises for use thereat in accordance with § 182.574k. Notation of the transfer must be made on Form 1697 for both premises.

(53 Stat. 298 as amended, 358, 364, 374, 399; 26 U. S. C. 2800, 3105, 3124, 3172, 3304)

WHOLESALE LIQUOR DEALER'S STAMPS FOR TANK CARS AND TANK TRUCKS

§ 182.574o *Application for stamps, Form 92.* Where alcohol, taxpaid by use of distilled spirits stamps authorized by § 182.566a, is to be removed by tank car or tank truck, the proprietor will make application to the storekeeper-gauger on Form 92, properly modified, for a wholesale liquor dealer's stamp to be affixed to such container. Form 92 will be prepared in quadruplicate for intra-district shipments and in quintuplicate for inter-district shipments. All information indicated by the headings of the various columns and lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part, shall be furnished. All copies of the Form 92 will be submitted to the storekeeper-gauger in charge of the premises. If the alcohol is correctly described on Form 92 and has been properly taxpaid, the storekeeper-gauger will sign all copies and return the Form 92 to the proprietor. The proprietor will execute his certificate on Form 92, entering therein, in appropriate columns, the name of the owner of the car or truck and the car or truck number, the net weight, proof, and proof gallons of the alcohol as shown on the Form 1440 covering taxpayment, and the statement "Consigned to:" followed by the name and address of the consignee. When application is being made for a wholesale liquor dealer's stamp for alcohol which will be shipped to a tax-paid bottling house or rectifying plant, there shall also be entered on the Form 92 a notation showing the material from which the alcohol was produced, such as, "Alcohol-grain," "Alcohol-cane," "Alcohol-fruit," "Alcohol-distilled from grain," "Alcohol-distilled from cane," or "Alcohol-distilled from fruit." All copies of Form 92 will be given to the storekeeper-gauger in charge.

(53 Stat. 298 as amended, 357, 358, 360, 364, 374, 375; 26 U. S. C. 2800, 3101, 3105, 3112, 3124, 3172, 3175)

§ 182.574p *Issuance of wholesale liquor dealer's stamps.* Upon receipt of Form 92 with the application for the wholesale liquor dealer's stamps duly executed, the storekeeper-gauger will issue a wholesale liquor dealer's stamp, and enter the serial number thereof on all copies of Form 1440 and in part 4 on all copies of Form 92. When issuing the stamps, the storekeeper-gauger will enter on each all the information called for and sign each stamp in the space provided therefor, using only such ink as will neither fade nor blur.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

§ 182.574q *Disposition of Form 92.* When the wholesale liquor dealer's stamp has been issued and the serial number thereof recorded on Form 92, the storekeeper-gauger shall return two copies of Form 92 to the proprietor with the stamp, forward one copy of the form to the district supervisor and retain one copy. The storekeeper-gauger shall place his retained copy of Form 92 in a permanent file as authority for issuance of the stamp. The proprietor will forward one copy of Form 92 to the vendee. Where the vendee is located in a different supervisory district, the storekeeper-gauger will send the remaining copy of Form 92 to the supervisor of the district in which the vendee is located.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

§ 182.574r *Stamp stub.* The storekeeper-gauger shall enter on the stub connected with each wholesale liquor dealer's stamp data similar to that entered on the stamp, to preserve a perfect record of the detached stamp.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

§ 182.574s *Wholesale liquor dealer's stamp books.* Wholesale liquor dealer's stamps will be furnished by collectors to district supervisors upon request. District supervisors will supply storekeeper-gaugers in charge of industrial alcohol plants or bonded warehouses where such stamps are used with such quantities of stamps as may be required. When all the stamps in a book have been issued the storekeeper-gauger in charge will return the stub book to the district supervisor.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

§ 182.574t *Record and report of wholesale liquor dealer's stamps.* Storekeeper-gaugers having custody of wholesale liquor dealer's stamps at industrial alcohol plants or bonded warehouses will keep a record of such stamps received and used on part 1 of Form 118, properly modified for the purpose, and as required by instructions on the form or as issued in respect thereto. The record will be kept in bound form available for inspection by other Government officers. The storekeeper-gauger will prepare his monthly report on part 2 of Form 118, properly modified and in duplicate, retain one copy and furnish one copy to the district supervisor.

(53 Stat. 357, 358, 360, 364; 26 U. S. C. 3101, 3105, 3112, 3124)

FORM 1440

* * * * * *

§ 182.643a *Application for withdrawal.* When the proprietor desires to withdraw alcohol from the bonded warehouse for any lawful purpose and has complied with all the requirements of the law and the regulations in this part respecting the particular withdrawal, he will make application on the back of each copy of Form 1440, covering the withdrawal, to the storekeeper-gauger in charge for permission to withdraw the alcohol. If withdrawal is to be made upon tax-payment, the proprietor shall present to the storekeeper-gauger the prescribed tax-paid stamps, distilled spirits stamps, or certificate of tax-payment covering the alcohol to be withdrawn. If the alcohol is to be transferred in bond to another bonded warehouse or shipped to a denaturing plant or withdrawn for export or other lawful tax-free purpose, the proprietor will present to the storekeeper-gauger the necessary permit authorizing such withdrawal. The storekeeper-gauger will examine the taxpaid stamps, distilled spirits stamps, certificate of tax-payment, or the permit authorizing transfer in bond or tax-free withdrawal, and if he finds that the tax has been paid or, in the case of transfer in bond or tax-free withdrawal, that proper withdrawal permit is held by the proprietor, the storekeeper-gauger will sign the authorization on Form 1440 for the withdrawal of the alcohol.

(53 Stat. 357, 358, 360, 364, 373, 374; 26 U. S. C. 3101, 3105, 3112, 3124, 3171, 3172)

RECORDS AND REPORTS OF PROPRIETOR

* * * * * *

§ 182.648c *Distilled spirits stamp report, Form 1697.* Every proprietor of an industrial alcohol plant or bonded warehouse who taxpays alcohol by use of distilled spirits stamps shall make a report on Form 1697, properly modified, of all distilled spirits stamps received and used at his alcohol plant or bonded warehouse. Entries will be made thereon and the report submitted in accordance with the headings of the various lines and columns on the form and the instructions printed thereon or issued in respect thereto and as required by this part. When distilled spirits stamps are surrendered for redemption, in accordance with §§ 182.574 and 182.574m, or are transferred to, or received from other premises operated by the proprietor, as authorized by § 182.574k, a report thereof must be made on Form 1697, giving the reason for such surrender, transfer, or receipt, the date thereof, and the denominations of the stamps surrendered, transferred, or received, and, in cases of transfer or receipt, the name, registry number, and location of the premises to which the stamps were transferred or from which they were received.

(53 Stat. 298 as amended, 358, 360, 364, 374; 26 U. S. C. 2800, 3105, 3112, 3124, 3172)

4. Regulations 4 (26 CFR Part 183; 15 F. R. 5334), "Production of Distilled Spirits," as amended, are amended as follows:

(a) Sections 183.301, 183.546, 183.549, 183.550, 183.551, 183.552, 183.553 and 183.554 are amended;

(b) Sections 183.546a, 183.548a, 183.554a, 183.554b, 183.554c, 183.554d, 183.554e, 183.554f, 183.554g, 183.554h, 183.554i, 183.554j, 183.554k, 183.554l, 183.554m and 183.554n are added; and

(c) Section 183.552a is revoked.

SUBPART N—ACTION BY DISTRICT SUPERVISOR

ORIGINAL ESTABLISHMENT

* * * * * *

§ 183.301 *Registry numbers.* Registered distilleries will be numbered serially in the order of their establishment. A separate series will be used for each State. Registry numbers heretofore assigned will be retained, and new distilleries will be assigned numbers in sequence thereto. Registry numbers previously assigned to discontinued distilleries will not be reassigned to other distilleries. In the case of a successor taking over the distillery, the same registry number will be retained. In the case of a change in location of the distillery within the same State, the same register number may be retained.

SUBPART W—TAX-PAYMENT, REMOVAL, AND TRANSFER OF DISTILLED SPIRITS FROM CISTERN ROOM

* * * * * *

TAX-PAYMENT FOR REMOVAL BY PIPE LINE OR IN TANK CARS OR TANK TRUCKS

§ 183.546 *Application, Form 179.* Whenever the distiller desires to tax-pay and remove distilled spirits direct from the cistern room by approved pipe lines to contiguous premises, or in tank cars or tank trucks, he shall execute application therefor on Form 179, in quadruplicate. The distiller shall state, in addition to other applicable data on the form, the approximate quantity to be withdrawn and whether such removal will be by pipe line, or by tank car or tank truck. If the spirits are to be removed in a tank car or tank truck, the number thereof, and the name or symbols of the owner, shall also be stated on the Form 179. All copies of Form 179 shall be delivered to the storekeeper-gauger, whereupon such spirits will be run into a weighing tank and gauged for removal. The storekeeper-gauger shall enter the details of the gauge on Form 1520, in quintuplicate. The proof at which the spirits were distilled, and in the case of tank car or tank truck shipments, the number and name or symbols of the owner of the tank car or tank truck, shall be noted on Form 1520 by the storekeeper-gauger. The storekeeper-gauger will execute his report on each copy of Form 179 and will return all copies thereof, with four copies of Form 1520 attached, to the distiller, who will enter in the space provided therefor on each copy of Form 179, the description of the spirits gauged.

(53 Stat. 298 as amended, 335 as amended, 492; 26 U. S. C. 2800, 2883, 4015)

§ 183.546a *Methods of taxpayment.* The tax on distilled spirits to be removed by pipeline to a contiguous rectifying plant or taxpaid bottling house or to be removed in a tank car or tank truck will be paid by the distiller (a) by use of a certificate of taxpayment, Form 1595, issued pursuant to application on Form 1594, or (b) by use of distilled spirits stamps prescribed by § 183.554a. Where distilled spirits which are to be removed

by tank car or tank truck are taxpaid by use of distilled spirits stamps, a wholesale liquor dealer's stamp will be affixed to the tank car or tank truck. Where taxpayment is by use of a certificate of taxpayment, Form 1595, the certificate will be procured and used in accordance with §§ 183.547 and 183.548 and §§ 183.549 to 183.553. Where taxpayment is by use of distilled spirits stamps, they will be procured in accordance with §§ 183.554a to 183.554c and used in accordance with § 183.548a. Where distilled spirits stamps are used for taxpayment of distilled spirits removed by tank car or tank truck, a wholesale liquor dealer's stamp for affixing thereto will be procured in accordance with §§ 183.554i and 183.554j.

(53 Stat. 298 as amended, 335 as amended, 374; 26 U. S. C. 2800, 2883, 3172)

§ 183.548a *Use of distilled spirits stamps.* Where spirits are to be taxpaid by use of distilled spirits stamps, the distiller, upon receipt of the copies of Forms 179 and 1520 from the storekeeper-gauger pursuant to § 183.546, will cancel the necessary number of stamps in the exact amount of the tax due by perforation, as prescribed herein, or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the distillery, and the serial number of Form 179; for example, "John Doe Distilling Company, Registered Distillery No. 63, New Jersey, Form 179 Serial No. ------." Prior to use in taxpayment, the distiller, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only. The serial number of the Form 179 must not be entered on the stamp in advance of actual use in taxpayment. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the distiller, if adequate for identification; for example, "J. D. Dist. Co. RD 63–NJ–179 S/N ------." The distiller's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. If the distiller's cancellation is made by perforation, each letter and figure of the cancellation must be not less than one-fourth of an inch in height and of proportionate width and suitably spaced for legibility and distinctness, and must be clearly and sharply outlined either (a) by perforation through the substance of the stamp, and not merely puncturing it, each perforation to be not less than one thirty-second of an inch in width or diameter; or (b) by perforations in the form of incisions through the stamp of at least one thirty-second of an inch in width, cutting out the form of the letters and figures from the substance of the stamp, which letters and figures must be of the size, spacing, and distinctness as above specified. The distiller will then attach the canceled distilled spirits stamps to one copy of Form 179 and submit all copies of Forms 179 and 1520 to the Government officer. The Government officer, after determining that the canceled stamps are in the proper amount of the tax shown due on the Form 179, will then further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border of each stamp and will execute a certificate on all copies of Form 179 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps in the amount of tax due. The serial number of the Form 179 will be entered on Form 1520 in the column provided for the kind and serial number of the stamp as an indication that taxpayment was by use of distilled spirits stamps. The canceled distilled spirits stamps will be securely attached to a copy of Form 179 by means of a staple, eyelet, or similar device. Such copy of Form 179, and the accompanying copy of Form 1520, will be attached to the board on the weighing tank and remain thereon until the spirits covered by such stamps have been removed. Where removal is to be by tank car or tank truck, the distiller will procure a wholesale liquor dealer's stamp to be affixed thereto in accordance with §§ 183.554i and 183.554j. Forms 179 and 1520 will be disposed of in accordance with § 183.552 or § 183.553, as the case may be.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2833, 3172, 3175, 3300)

§ 183.549 *Route board.* Tank cars and tank trucks used for the transportation of taxpaid distilled spirits must be equipped with a route board at least 10 by 12 inches in size, to which Form 1595 or a wholesale liquor dealer's stamp can be attached. Such board shall be of substantial material and shall be affixed permanently and securely to the tank car or tank truck by roundheaded or carriage bolts, nutted and riveted, battered or welded.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

§ 183.550 *Bill of lading.* The distiller shall incorporate in the bill of lading, if any, a description of Form 1595, as follows:

Form 1595, Serial No. ------
Owner and No. of Car (or Truck) ------
Vendor ------
Address ------
Vendee ------ Address ------

Where no bill of lading is issued, as in the case of transfer of a tank car between plants by switching arrangements, the distiller shall incorporate in Form 1520 such description of Form 1595. Where a wholesale liquor dealer's stamp is used in lieu of Form 1595, the distiller shall incorporate in the bill of lading, if any, a description of the stamp, showing the kind of stamp and the serial number.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

§ 183.551 *Storekeeper-gauger's verification.* If taxpayment is by means of a certificate of taxpayment (Form 1595), the distiller shall give the certificate, the bill of lading, if any, and all copies of Form 179 and Form 1520 to the storekeeper-gauger. The storekeeper-gauger will transcribe the serial number of the certificate, Form 1595, to his retained copy of Form 1520 and will verify the contents of the weighing tank and the description of Form 1595 in the bill of lading or on Form 1520, as the case may be, and will date and sign the certificate, Form 1595, in the space provided therefor. The certificate must be attached to a board on the weighing tank. If taxpayment is by means of distilled spirits stamps and evidenced by a wholesale liquor dealer's stamp (tank car or tank truck removals only), the distiller shall give the bill of lading, if any, to the storekeeper-gauger at the distillery who will verify the description of the wholesale liquor dealer's stamp on the bill of lading, if any.

(53 Stat. 298 as amended, 335 as amended; 26 U. S. C. 2800, 2883)

RELEASE OF SPIRITS FOR TRANSFER

§ 183.552 *By pipeline to contiguous premises.* When the certificate of taxpayment, Form 1595, has been affixed to the weighing tank, in the case of pipeline transfers to contiguous premises, it will be canceled in the same manner as the taxpaid stamp on a package. If taxpayment has been by means of distilled spirits stamps, in lieu of Form 1595, the copy of Form 179 to which the canceled stamps are attached and the accompanying Form 1520 shall be affixed to the weighing tank. The storekeeper-gauger will unlock the outlet valve and permit the distiller to transfer the spirits by pipeline to the contiguous premises. The spirits shall be transferred only under the immediate supervision of the storekeeper-gauger who, after release of the spirits, will execute his statement of the date of withdrawal on the three copies of Form 179, forwarding one copy each of Form 179 and Form 1520 with the canceled Form 1595, or the canceled distilled spirits stamps, as the case may be, attached thereto, to the district supervisor, retain one copy of Form 179 and Form 1520, and deliver one copy of Form 179 and two copies of Form 1520 to the distiller. The distiller will deliver immediately, one copy of Form 1520 to the proprietor of the contiguous establishment.

(53 Stat. 298 as amended, 335 as amended; 26 U. S. C. 2800, 2883)

§ 183.553 *By tank car or tank truck.* When spirits are to be transferred to a tank car or tank truck for shipment the storekeeper-gauger, after the certificate of taxpayment, or the Form 179 with the distilled spirits stamps attached thereto, has been affixed to the weighing tank, shall unlock the outlet valve and permit the spirits to be transferred to the tank car or tank truck. The spirits shall be transferred only under the immediate supervision of the storekeeper-gauger. If a certificate of taxpayment, Form 1595, is used, the distiller, upon deposit of the spirits in the tank car or tank truck, will remove the certificate from the weighing tank and affix it securely to the route board on the tank car or tank truck, whereupon it will be canceled in the same manner as the tax-paid stamp on a package and then covered with a coating of transparent shellac, lacquer, or varnish. If distilled spirits stamps are used and a wholesale liquor dealer's stamp issued to evidence taxpayment, the wholesale liquor dealer's stamp shall be similarly affixed to the tank car or tank truck, canceled and protected. The storekeeper-gauger will verify the contents of the tank car or tank truck, release same for shipment, execute his statement of the date of withdrawal on the three copies of Form 179, and note on all copies of Form 1520 the date of the release. When the tank car or tank truck is released, the storekeeper-gauger will forward one copy each of Form 179 and Form 1520 to the district supervisor, retain one copy of each form, and deliver one copy of Form 179 and two copies of Form 1520 together with the bill of lading, if any, to the distiller. Where distilled spirits stamps have been used to taxpay the spirits, the copy of Form 179 to which the canceled stamps are attached will be forwarded to the district supervisor. The distiller will forward immediately one copy of Form 1520 to the vendee.

(53 Stat. 298 as amended, 335 as amended; 26 U. S. C. 2800, 2883)

PROCEDURE WHEN TANK CAR OR TANK TRUCK IS EMPTIED

§ 183.554 *Requirements.* When the vendee receives tax-paid distilled spirits in a tank car or tank truck, he shall, at the time the car or truck is emptied, dispose of the certificate of taxpayment, Form 1595, or wholesale liquor dealer's stamp, as the case may be, in accordance with the procedure prescribed by Regulations 11 (Part 189 of this subchapter), Regulations 15 (Part 190 of this subchapter) or Regulations 29 (Part 197 of this subchapter). The district supervisor will investigate any discrepancy which may be found respecting the shipment in accordance with such regulations.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

DISTILLED SPIRITS STAMPS FOR REMOVALS BY PIPE LINES, TANK CARS AND TANK TRUCKS

§ 183.554a *Distilled Spirits Excise Tax stamps.* The tax on distilled spirits removed in tank cars or tank trucks, or by pipe line, may be paid by Distilled Spirits Excise Tax stamps (Series of 1950). Such stamps may be purchased in various denominations by the proprietor from the collector of internal revenue of the district in which the distillery is located. The stamps may be purchased in advance of actual needs, in order to be readily available when needed. The stamps may not be purchased by one proprietor from another, nor may they, except in cases of emergency, be purchased from collectors of other districts. Distillers shall not sell or transfer stamps except that they may (a) transfer such stamps to other premises operated by themselves as provided in § 183.554d pursuant to the prior approval of the district supervisor; or (b) return such stamps for redemption in accordance with § 183.554e. Distilled spirits stamps for taxpayment of distilled spirits as authorized by this part, used or unused may not be purchased, sold, or possessed, except as specifically authorized by this part.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398, 399; 26 U. S. C. 2800, 2883, 3172, 3175, 3300, 3304)

§ 183.554b *Form 427–D.* With each purchase of stamps the distiller will submit to the collector Form 427–D, in triplicate, properly filled out. The collector will stamp the date of sale on all copies of Form 427–D, return one copy to the distiller with the stamps and send one copy to the appropriate district supervisor. The remaining copy of Form 427–D will be filed in the collector's office so that all purchases of stamps may be verified at any time. The collector will refuse to sell stamps when such form is not submitted.

(53 Stat. 298 as amended, 374; 26 U. S. C. 2800, 3172)

§ 183.554c *Remittance; delivery.* All orders for stamps must be accompanied by proper remittance in a sum equal to the value of the stamps. Unless the stamps are called for by the distiller or his agent in person, they will be sent to him by ordinary mail, registered mail, or express, at the expense of the distiller. When the stamps are not called for in person the distiller will specify on Form 427–D the means (ordinary mail, registered mail, or express) by which he desires the stamps sent to him. If the stamps are ordered sent by ordinary mail, the distiller shall enclose with his order sufficient postage stamps, or a separate remittance to cover the postage. If the stamps are ordered sent by registered mail, the distiller shall include the postage and registry fee and any required registry surcharge, as provided by the postal laws and regulations. If the remittance is other than cash the sum to cover the postage, registry fee, or surcharge must not be included in the remittance covering the cost of the stamps. The local postmaster should be consulted relative to the amount of the registry fee and surcharge required. Stamps forwarded by express will be sent "collect."

(53 Stat. 298 as amended, 374, 447 as amended; 26 U. S. C. 2800, 3172, 3656)

§ 183.554d *Transfer to other premises.* A proprietor operating other plants on the same or contiguous premises may transfer stamps to such plants from time to time pursuant to prior approval of the district supervisor. When the distillery is permanently discontinued, or the proprietor has no use for the stamps thereat and the proprietor operates other premises in which the stamps could be used, he may transfer such stamps to such other premises for use thereat pursuant to prior approval of the district supervisor. If the premises to which the stamps are to be transferred is located in another supervisory district, the supervisor granting authority to transfer the stamps will advise the district supervisor of the other district so that he may know that the receiving premises is entitled to receive the stamps. The latter district supervisor will also inform the Government officer assigned to the receiving premises of the authority to receive the stamps. A report of all transfers of stamps must be made on Form 1697, as provided in § 183.554h.

(53 Stat. 298 as amended, 374; 26 U. S. C. 2800, 3172)

§ 183.554e. *Redemption of distilled spirits stamps.* Distilled spirits stamps for taxpayment of distilled spirits to be removed by pipeline or in tank cars or tank trucks may be redeemed pursuant to section 3304, Internal Revenue Code, which reads as follows:

Redemption of stamps—(a) *Authorization.* The Commissioner, subject to regulations prescribed by the Secretary, may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps, issued under authority of law, to denote the payment of any internal revenue tax, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which through mistake may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner, or until satisfactory proof has been made showing the reason why the same cannot be returned; or, if so required by the said Commissioner, when the person presenting the same cannot satisfactorily trace the history of said stamps from their issuance to the presentation of his claim as aforesaid.

(c) *Time for filing claims.* No claims for the redemption of or allowance for stamps shall be allowed unless presented within four years after the purchase of such stamps from the Government.

(d) *Finality of Commissioner's decision.* The findings of facts in and the decision of the Commissioner upon the merits of any claim presented under or authorized by this section shall, in the absence of fraud or mistake in mathematical calculation, be final and not subject to revision by any accounting officer.

(53 Stat. 399; 26 U. S. C. 3304)

§ 183.554f *Claim to collector.* Distillers desiring to have distilled spirits stamps described in § 183.554e redeemed under the provisions of section 3304, I. R. C., must make claim on Form 843 to the collector of internal revenue. The stamps, for which redemption is claimed, must be attached to the claim, and the number and denominations thereof must be listed on the claim or on a sheet of paper attached thereto. Where the stamps have been destroyed, evidence satisfactory to the Commissioner establishing such destruction must accompany the claim.

(53 Stat. 298 as amended, 374, 399; 26 U. S. C. 2800, 3172, 3304)

§ 183.554g *Unredeemable stamps.* Distilled spirits stamps may not be redeemed while distilled spirits on which the stamps can be used in taxpayment, remain on hand and while the distillery remains in a qualified status unless it is shown that the manner of taxpaying spirits thereat is such that the stamps may not be used. When a distillery is discontinued and stamps remain on hand, such stamps are not redeemable if the proprietor operates other premises at which the stamps could be used. In such cases the stamps will be transferred

and name or symbols of the owner of the

to the other premises for use thereat in accordance with § 183.554d. Notation of the transfer must be made on Form 1697 for both premises.

(53 Stat. 298 as amended, 374, 399; 26 U. S. C. 2800, 3172, 3304)

§ 183.554h *Distilled spirits stamp report, Form 1697.* The distiller shall make a report on Form 1697, properly modified, of all distilled spirits stamps received and used at his distillery. Entries will be made thereon and the report submitted in accordance with the headings of the various lines and columns on the form and the instructions printed thereon or issued in respect thereto and as required by this part. When distilled spirits stamps are surrendered for redemption, in accordance with §§ 183.554e and 183.554f, or are transferred to, or received from other premises operated by the distiller, as authorized in § 183.554d, a report thereof must be made on Form 1697, giving the reason for such surrender, transfer, or receipt, the date thereof, and the denominations of the stamps surrendered, transferred, or received, and, in cases of transfer or receipt, the name, registry number, and location of the premises to which the stamps were transferred or from which they were received.

(53 Stat. 298 as amended, 335 as amended, 374; 26 U. S. C. 2800, 2883, 3172)

WHOLESALE LIQUOR DEALER'S STAMPS FOR TANK CARS AND TANK TRUCKS

§ 183.554i *Application for stamps, Form 92.* Where distilled spirits, taxpaid by use of distilled spirits stamps authorized by § 183.546a, are to be removed by tank car or tank truck, the distiller will make application to the storekeeper-gauger on Form 92, properly modified, for a wholesale liquor dealer's stamp to be affixed to such container. Form 92 will be prepared in quadruplicate for intra-district shipments and in quintuplicate for inter-district shipments. All information indicated by the headings of the various columns and lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part, shall be furnished. All copies of the Form 92 will be submitted to the storekeeper-gauger in charge of the distillery. If the spirits are correctly described on Form 92 and have been properly taxpaid, the storekeeper-gauger will sign all copies and return the Form 92 to the distiller. The distiller will execute his certificate on Form 92, entering therein, in appropriate columns, the kind of spirits, the name of the owner of the car or truck and the car or truck number, the net weight, proof, and proof gallons of the spirits as shown on the Form 1520 covering taxpayment, and the statement "Consigned to:" followed by the name and address of the consignee. All copies of Form 92 will be given to the storekeeper-gauger in charge.

(53 Stat. 298 as amended, 301, 335 as amended, 374; 26 U. S. C. 2800, 2802, 2883, 3172)

§ 183.554j *Issuance of stamps.* Upon receipt of Form 92 with the application for the wholesale liquor dealer's stamp duly executed, the storekeeper-gauger in charge will issue a wholesale liquor dealer's stamp for the tank car or tank truck, as the case may be, and enter the serial number thereof on all copies of Form 1520 and in part 4 on all copies of Form 92. When issuing the stamps, the storekeeper-gauger will enter on each all the information called for and sign each stamp in the space provided therefor, using only such ink as will neither fade nor blur.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 183.554k *Disposition of Form 92.* When the wholesale liquor dealer's stamp has been issued and the serial number thereof recorded on Form 92, the storekeeper-gauger shall return two copies of Form 92 to the distiller with the stamp, forward one copy of the form to the district supervisor and retain one copy. The storekeeper-gauger shall place his retained copy in a permanent file as authority for issuance of the stamp. The distiller will forward one copy of Form 92 to the vendee. Where the vendee is located in a different supervisory district, the storekeeper-gauger will send the remaining copy of Form 92 to the supervisor of the district in which the vendee is located.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 183.554l *Stamp stub.* The storekeeper-gauger shall enter on the stub connected with each wholesale liquor dealer's stamp data similar to that entered on the stamp, to preserve a perfect record of the detached stamp.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 183.554m *Wholesale liquor dealer's stamp books.* Wholesale liquor dealer's stamps will be furnished by collectors to district supervisors upon request. District supervisors will supply storekeeper-gaugers in charge of registered distilleries where such stamps are used with such quantities of stamps as may be required. When all the stamps in a book have been issued the storekeeper-gauger in charge will return the stub book to the district supervisor.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 183.554n *Record and report of wholesale liquor dealer's stamps.* Storekeeper-gaugers having custody of wholesale liquor dealer's stamps at registered distilleries will keep a record of such stamps received and used on part 1 of Form 118, properly modified for the purpose, and as required by instructions on the form and as issued in respect thereto. The record will be kept in bound form available for inspection by other Government officers. The storekeeper-gauger will prepare his monthly report on part 2 of Form 118, properly modified and in duplicate, retain one copy and furnish one copy to the district supervisor.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

5. Regulations 5 (26 CFR Part 184; 15 F. R. 5552), "Production of Brandy," as amended, are amended as follows:

(a) Sections 184.51, 184.334, 184.587, 184.590, 184.591, 184.592, 184.593 and 184.594 are amended;

(b) Sections 184.587a, 184.589a, 184.594a, 184.594b, 184.594c, 184.594d, 184.594e, 184.594f, 184.594g, 184.594h, 184.594i, 184.594j, 184.594k, 184.594l, 184.594m and 184.594n, are added; and

(c) Section 184.593a is revoked.

SUBPART C—EXTENSION OF FRUIT DISTILLERS FROM CERTAIN PROVISIONS OF LAW

EXEMPTIONS

* * * * * *

§ 184.51 *Section 2878 (a) and 2883, I. R. C.* Fruit distillers are exempted from the provisions of sections 2878 (a) and 2883, I. R. C., to the extent that brandy of any desired proof may be drawn from receiving tanks and (a) removed from the distillery in packages or by pipeline or in tank cars or tank trucks in the manner prescribed in this part, or (b) stored in the brandy deposit room of the distillery temporarily as provided in this part.

(53 Stat. 316 as amended; 26 U. S. C. 2825)

SUBPART O—ACTION BY DISTRICT SUPERVISOR

ORIGINAL ESTABLISHMENT

* * * * * *

§ 184.334 *Registry numbers.* Fruit distilleries will be numbered serially in the order of their establishment. A separate series will be used for each State. Registry numbers heretofore assigned will be retained, and new distilleries will be assigned numbers in sequence thereto. Registry numbers previously assigned to discontinue distilleries will not be reassigned to other distilleries. In the case of a successor taking over the distillery, the same registry number will be retained. In the case of a change in location of the distillery within the same State, the same registry number may be retained.

SUBPART X—TAX-PAYMENT, REMOVAL AND TRANSFER OF BRANDY FROM DISTILLERY

* * * * * *

TAXPAYMENT FOR REMOVAL BY PIPELINE OR IN TANK CARS OR TANK TRUCKS

§ 184.587 *Application, Form 179.* Whenever the distiller desires to taxpay and remove brandy from the distillery by approved pipelines to contiguous premises, or in tank cars or tank trucks, he shall execute application therefor on Form 179, in quadruplicate. The distiller shall state, in addition to other applicable data on the form, the approximate quantity to be withdrawn and whether such removal will be by pipeline, tank car or tank truck. If the brandy is to be removed in a tank car or tank truck, the number thereof, and the name or symbols of the owner, shall also be stated on the Form 179. All copies of Form 179 shall be delivered to the storekeeper-gauger, whereupon such brandy will be run into a weighing tank and gauged for removal. The storekeeper-gauger shall enter the details of the gauge on Form 1520, in quintuplicate. The proof at which the brandy was distilled, and in the case of tank car or tank truck shipments, the number and name or symbols of the owner of the tank car or tank truck, shall be noted on Form 1520 by the storekeeper-gauger. The storekeeper-gauger will execute his report on each copy of Form 179 and will return all copies thereof, with four copies of Form 1520 attached, to the distiller, who will enter in the space provided therefor on each copy of Form 179, the description of the brandy gauged.

(53 Stat. 298 as amended, 333, 335 as amended, 492; 26 U. S. C. 2800, 2878, 2883, 4017)

§ 184.587a *Methods of taxpayment.* The tax on brandy to be removed by pipe line to a contiguous rectifying plant or tax-paid bottling house or to be removed in a tank car or tank truck will be paid by the distiller (a) by use of a certificate of taxpayment, Form 1595, issued pursuant to application on Form 1594, or (b) by use of distilled spirits stamps prescribed by § 184.594a. Where brandy which is to be removed by tank car or tank truck is taxpaid by use of distilled spirits stamps, a wholesale liquor dealer's stamp will be affixed to the tank car or tank truck. Where taxpayment is by use of a certificate of taxpayment, Form 1595, the certificate will be procured and used in accordance with §§ 184.588, 184.589 and 184.590 to 184.594. Where taxpayment is by use of distilled spirits stamps, they will be procured in accordance with §§ 184.594a to 184.594c and used in accordance with § 184.589a. Where distilled spirits stamps are used for taxpayment of brandy removed by tank car or tank truck, a wholesale liquor dealer's stamp will be procured in accordance with §§ 184.594i and 184.594j.

(53 Stat. 298 as amended, 335 as amended, 374; 26 U. S. C. 2800, 2883, 3172)

§ 184.589a *Use of distilled spirits stamps.* Where brandy is to be taxpaid by use of distilled spirits stamps, the distiller, upon receipt of the copies of Forms 179 and 1520 from the storekeeper-gauger pursuant to § 184.587, will cancel the necessary number of stamps in the exact amount of the tax due by perforation as prescribed herein, or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the distillery, and the serial number of Form 179; for example, "John Doe Distilling Company, Fruit Distillery No. 63, New Jersey, Form 169 Serial Number _____." Prior to use in taxpayment, the distiller, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only. The serial number of the Form 179 must not be entered on the stamp in advance of actual use in taxpayment. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the distiller if adequate for identification; for example, "J. D. Dist. Co. FD 63-NJ-179 S/N _____." The distiller's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. If the distiller's cancellation is made by perforation, each letter and figure of the cancellation must be not less than one-fourth of an inch in height and of proportionate width and suitably spaced for legibility and distinctness, and must be clearly and sharply outlined either (a) by perforation through the substance of the stamp, and not merely puncturing it, each perforation to be not less than one thirty-second of an inch in width or diameter; or (b) by perforations in the form of incisions through the stamp of at least one thirty-second of an inch in width, cutting out the form of the letters and figures from the substance of the stamp, which letters and figures must be of the size, spacing, and distinctness as above specified. The distiller will then attach the stamps to one copy of Form 179 and 1520 to the Government officer. The Government officer, after determining that the canceled stamps are in the proper amount of the tax shown due on the Form 179, will then further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp and will execute a certificate on all copies of Form 179 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps in the amount of tax due. The serial number of the Form 179 will be entered on Form 1520 in the column provided for the kind and serial number of the stamp as an indication that taxpayment was by use of distilled spirits stamps. The canceled distilled spirits stamps will be securely attached to a copy of Form 179 by means of a staple, eyelet, or similar device. Such copy of Form 179, and the accompanying copy of Form 1520, will be attached to the board on the weighing tank and remain thereon until the brandy covered by such stamps has been removed. Where removal is to be by tank car or tank truck, the distiller will procure a wholesale liquor dealer's stamp to be affixed thereto in accordance with §§ 184.594i and 184.594j. Forms 179 and 1520 will be disposed of in accordance with § 184 593 or § 184.594, as the case may be.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

§ 184.590 *Route board.* Tank cars and tank trucks used for the transportation of tax-paid brandy must be equipped with a route board at least 10 by 12 inches in size, to which Form 1595 or a wholesale liquor dealer's stamp can be attached. Such board shall be of substantial material and shall be affixed permanently and securely to the tank car or tank truck by roundheaded or carriage bolts, nutted and riveted, battered, or welded.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

§ 184.591 *Bill of lading.* The distiller shall incorporate in the bill of lading, if any, a description of Form 1595 as follows:

Form 1595, Serial No. _____
Owner and No. of Car (or Truck)_____
Vendor _____ Address _____
Vendee _____ Address _____

Where no bill of lading is issued, as in the case of transfer of a tank car between plants by switching arrangements, the distiller shall incorporate in Form 1520 such description of Form 1595. Where a wholesale liquor dealer's stamp is used in lieu of Form 1595, the distiller shall incorporate in the bill of lading, if any, a description of the stamp, showing the kind of stamp and its serial number.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

§ 184.592 *Storekeeper-gauger's verification.* If taxpayment is by means of a certificate of taxpayment (Form 1595), the distiller shall give the certificate, the bill of lading, if any, and all copies of Form 179 and Form 1520 to the storekeeper-gauger at the distillery. The storekeeper-gauger will transcribe the serial number of the certificate, Form 1595, to his retained copy of Form 1520 and will verify the contents of the weighing tank and the description of Form 1595 in the bill of lading or on Form 1520, as the case may be, and will date and sign the certificate, Form 1595, in the space provided therefor. The certificate must be attached to a board on the weighing tank. If taxpayment is by means of distilled spirits stamps and evidenced by a wholesale liquor dealer's stamp (tank car or tank truck removals only), the distiller shall give the bill of lading, if any, to the storekeeper-gauger at the distillery who will verify the description of the wholesale liquor dealer's stamp on the bill of lading, if any.

(53 Stat. 298 as amended, 335 as amended; 26 U. S. C. 2800, 2883)

RELEASE OF BRANDY FOR TRANSFER

§ 184.593 *By pipeline to contiguous premises.* When the certificate of taxpayment, Form 1595, has been affixed to the weighing tank, in the case of pipeline transfers to contiguous premises, it will be canceled in the same manner as the tax-paid stamp on a package. If taxpayment has been by means of distilled spirits stamps, in lieu of Form 1595, the copy of Form 179 to which the canceled stamps are attached and the accompanying Form 1520 shall be affixed to the weighing tank. The storekeeper-gauger will unlock the outlet valve and permit the distiller to transfer the brandy by pipeline to the contiguous premises. The brandy shall be transferred only under the immediate supervision of the storekeeper-gauger who, after release of the brandy will execute his statement of the date of withdrawal on the three copies of Form 179, forward one copy each of Form 179 and Form 1520 with the canceled Form 1595, or the canceled distilled spirits stamp, as the case may be, attached thereto, to the district supervisor, retain one copy of Form 179 and Form 1520, and deliver one copy of Form 179 and two copies of Form 1520 to the distiller. The distiller will deliver immediately one copy of Form 1520 to the proprietor of the contiguous establishment.

(53 Stat. 298 as amended, 335 as amended; 26 U. S. C. 2800, 2883)

§ 184.594 *By tank car or tank truck.* When brandy is to be transferred to a tank car or tank truck for shipment the storekeeper-gauger, after the certificate of taxpayment or the Form 179 with the

distilled spirits stamps attached thereto, has been affixed to the weighing tank, shall unlock the outlet valve and permit the brandy to be transferred to the tank car or tank truck. The brandy shall be transferred only under the immediate supervision of the storekeeper-gauger. If a certificate of taxpayment, Form 1595, is used, the distiller, upon deposit of the brandy in the tank car or tank truck, will remove the certificate from the weighing tank and affix it securely to the route board of the tank car or tank truck whereupon it will be canceled in the same manner as the tax-paid stamp on a package and then covered with a coating of transparent shellac, lacquer or varnish. If distilled spirits stamps are used and a wholesale liquor dealer's stamp issued to evidence taxpayment, the wholesale liquor dealer's stamp shall be similarly affixed to the tank car or tank truck, canceled and protected. The storekeeper-gauger will verify the contents of the tank car or tank truck, release same for shipment, execute his statement of the date of withdrawal on the three copies of Form 179, and note on all copies of Form 1520 the date of the release. When the tank car or tank truck is released, the storekeeper-gauger will forward one copy each of Form 179 and Form 1520 to the district supervisor, retain one copy of each form, and deliver one copy of Form 179 and two copies of Form 1520 together with the bill of lading, if any, to the distiller. Where distilled spirits stamps have been used to taxpay the brandy, the copy of Form 179 to which the canceled stamps are attached will be forwarded to the district supervisor. The distiller will forward immediately one copy of Form 1520 to the vendee. When the vendee receives tax-paid brandy in a tank car or tank truck, he shall, at the time the car or truck is emptied, dispose of the certificate of taxpayment, Form 1595, or wholesale liquor dealer's stamp, as the case may be, in accordance with the procedure prescribed by Regulations 11 (Part 189 of this subchapter), Regulations 15 (Part 190 of this subchapter), or Regulations 29 (Part 197 of this subchapter). The district supervisor will investigate any discrepancy which may be found respecting the shipment in accordance with such regulations.

(53 Stat. 298 as amended, 335 as amended; 26 U. S. C. 2800. 2883)

DISTILLED SPIRITS STAMPS FOR REMOVALS BY PIPELINES, TANK CARS AND TANK TRUCKS

§ 184.594a *Distilled Spirits Excise Tax stamps.* The tax on brandy removed in tank cars or tank trucks, or by pipeline, may be paid by Distilled Spirits Excise Tax stamps (Series of 1950). Such stamps may be purchased in various denominations by the proprietor from the collector of internal revenue of the district in which the distillery is located. The stamps may be purchased in advance of actual needs, in order to be readily available when needed. The stamps may not be purchased by one proprietor from another, nor may they, except in cases of emergency, be purchased from collectors of other districts. Distillers shall not sell or transfer stamps, except that they may (a) transfer such stamps to other premises operated by themselves as provided in § 184.594d pursuant to the prior approval of the district supervisor; or (b) return such stamps for redemption in accordance with § 184.594e. Distilled spirits stamps for taxpayment of brandy as authorized by this part, used or unused, may not be purchased, sold, or possessed, except as specifically authorized by this part.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398, 399; 26 U. S. C. 2800, 2883, 3172, 3175, 3300, 3304)

§ 184.594b *Form 427–D.* With each purchase of stamps the distiller will submit to the collector Form 427–D, in triplicate, properly filled out. The collector will stamp the date of sale on all copies of Form 427–D, return one copy to the distiller with the stamps and send one copy to the appropriate district supervisor. The remaining copy of Form 427–D will be filed in the collector's office so that all purchases of stamps may be verified at any time. The collector will refuse to sell stamps when such form is not submitted.

(53 Stat. 298 as amended, 374; 26 U. S. C. 2800, 3172)

§ 184.594c *Remittance; delivery.* All orders for stamps must be accompanied by proper remittance in a sum equal to the value of the stamps. Unless the stamps are called for by the distiller or his agent in person, they will be sent to him by ordinary mail, registered mail, or express, at the expense of the distiller. When the stamps are not called for in person the distiller will specify on Form 427–D the means (ordinary mail, registered mail, or express) by which he desires the stamps sent to him. If the stamps are ordered sent by ordinary mail, the distiller shall enclose with his order sufficient postage stamps, or a separate remittance to cover the postage. If the stamps are ordered sent by registered mail, the distiller shall include the postage and registry fee and any required registry surcharge, as provided by the postal laws and regulations. If the remittance is other than cash the sum to cover the postage, registry fee, or surcharge must not be included in the remittance covering the cost of the stamps. The local postmaster should be consulted relative to the amount of the registry fee and surcharge required. Stamps forwarded by express will be sent "collect."

(53 Stat. 298 as amended, 374, 447 as amended; 26 U. S. C. 2800, 3172, 3656)

§ 184.594d *Transfer to other premises.* A proprietor operating other plants on the same or contiguous premises may transfer stamps to such plants from time to time pursuant to prior approval of the district supervisor. When the distillery is permanently discontinued, or the proprietor has no use for the stamps thereat and the proprietor operates other premises in which the stamps could be used, he may transfer such stamps to such other premises for use thereat pursuant to prior approval of the district supervisor. If the premises to which the stamps are to be transferred is located in another supervisory district, the supervisor granting authority to transfer the stamps will advise the district supervisor of the other district so that he may know that the receiving premises is entitled to receive the stamps. The latter district supervisor will also inform the Government officer assigned to the receiving premises of the authority to receive the stamps. A report of all transfers of stamps must be made on Form 1697, as provided in § 184.594h.

(53 Stat. 298 as amended, 374; 26 U. S. C. 2800, 3172)

§ 184.594e *Redemption of distilled spirits stamps.* Distilled spirits stamps for taxpayment of brandy to be removed by pipe line or in tank cars or tank trucks may be redeemed pursuant to section 3304, Internal Revenue Code, which reads as follows:

Redemption of stamps—(a) *Authorization.* The Commissioner, subject to regulations prescribed by the Secretary, may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps, issued under authority of law, to denote the payment of any internal revenue tax, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which through mistake may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner, or until satisfactory proof has been made showing the reason why the same cannot be returned; or, if so required by the said Commissioner, when the person presenting the same cannot satisfactorily trace the history of said stamps from their issuance to the presentation of his claim as aforesaid.

(c) *Time for filing claims.* No claims for the redemption of or allowance for stamps shall be allowed unless presented within four years after the purchase of such stamps from the Government.

(d) *Finality of Commissioner's decision.* The findings of facts in and the decision of the Commissioner upon the merits of any claim presented under or authorized by this section shall, in the absence of fraud or mistake in mathematical calculation, be final and not subject to revision by any accounting officer.

(53 Stat. 399; 26 U. S. C. 3304)

§ 184.594f *Claim to collector.* Distillers desiring to have distilled spirits stamps, described in § 184.594e, redeemed under the provisions of section 3304, I. R. C., must make claim on Form 843 to the collector of internal revenue. The stamps, for which redemption is claimed, must be attached to the claim, and the number and denominations thereof must be listed on the claim or on a sheet of paper attached thereto. Where the stamps have been destroyed, evidence satisfactory to the Commissioner establishing such destruction must accompany the claim.

(53 Stat. 298 as amended, 374, 399; 26 U. S. C. 2800, 3172, 3304)

§ 184.594g *Unredeemable stamps.* Distilled spirits stamps may not be redeemed while brandy on which the stamps can be used in taxpayment, remains on hand and while the distillery remains in a qualified status unless it is shown that the manner of taxpaying brandy thereat is such that the stamps may not be used. When a distillery is discontinued and stamps remain on hand, such stamps are not redeemable if the proprietor operates other premises at which the stamps could be used. In such cases the stamps will be transferred to the other premises for use thereat in accordance with § 184.594d. Notation of the transfer must be made on Form 1697 for both premises.

(53 Stat. 298 as amended, 374, 399; 26 U. S. C. 2800, 3172, 3304)

§ 184.594h *Distilled spirits stamp report, Form 1697.* The distiller shall make a report on Form 1697, properly modified, of all distilled spirits stamps received and used at his distillery. Entries will be made thereon and the report submitted in accordance with the headings of the various lines and columns on the form and the instructions printed thereon or issued in respect thereto and as required by this part. When distilled spirits stamps are surrendered for redemption in accordance with §§ 184.594e and 184.594f, or are transferred to, or received from other premises operated by the distiller, as authorized in § 184.594d, a report thereof must be made on Form 1697, giving the reason for such surrender, transfer, or receipt, the date thereof, and the denominations of the stamps surrended, transferred, or received, and, in cases of transfer or receipt, the name, registry number, and location of the premises to which the stamps were transferred or from which they were received.

(53 Stat. 298 as amended, 374, 26 U. S. C. 2800, 3172)

WHOLESALE LIQUOR DEALER'S STAMPS FOR TANK CARS AND TANK TRUCKS

§ 184.594i *Application for stamps, Form 92.* Where brandy, taxpaid by use of distilled spirits stamps authorized by § 184.587a, is to be removed by tank car or tank truck, the distiller will make application to the storekeeper-gauger on Form 92, properly modified, for a wholesale liquor dealer's stamp to be affixed to such container. Form 92 will be prepared in quadruplicate for intra-district shipments and in quintuplicate for inter-district shipments. All information indicated by the headings of the various columns and lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part, shall be furnished. All copies of the Form 92 will be submitted to the storekeeper-gauger in charge of the distillery. If the brandy is correctly described on Form 92 and has been properly taxpaid, the storekeeper-gauger will sign all copies and return the Form 92 to the distiller. The distiller will execute his certificate on Form 92, entering therein, in appropriate columns, the kind of brandy, the name of the owner of the car or truck and the car or truck number, the net weight, proof, and proof gallons of the brandy as shown on the Form 1520 covering taxpayment, and the statement "Consigned to:" followed by the name and address of the consignee. All copies of Form 92 will be given to the storekeeper-gauger in charge.

(53 Stat. 298 as amended, 301, 335 as amended, 374; 26 U. S. C. 2800, 2802, 2883, 3172)

§ 184.594j *Wholesale liquor dealer's stamps.* Upon receipt of Form 92 with the application for the wholesale liquor dealer's stamp duly executed, the storekeeper-gauger will issue a wholesale liquor dealer's stamp for the tank car or tank truck, as the case may be, and enter the serial number thereof on all copies of Form 1520 and in part 4 on all copies of Form 92. When issuing the stamps, the storekeeper-gauger will enter on each all the information called for and sign each stamp in the space provided therefor, using only such ink as will neither fade nor blur.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 184.594k *Disposition of Form 92.* When the wholesale liquor dealer's stamp has been issued and the serial number thereof recorded on Form 92, the storekeeper-gauger shall return two copies of Form 92 to the distiller with the stamp, forward one copy of the form to the district supervisor and retain one copy. The storekeeper-gauger shall place his retained copy in a permanent file as authority for issuance of the stamp. The distiller will forward one copy of Form 92 to the vendee. Where the vendee is located in a different supervisory district, the storekeeper-gauger will send the remaining copy of Form 92 to the supervisor of the district in which the vendee is located.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 184.594l *Stamp stub.* The storekeeper-gauger shall enter on the stub connected with each wholesale liquor dealer's stamp data similar to that entered on the stamp, to preserve a perfect record of the detached stamp.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 184.594m *Wholesale liquor dealer's stamp books.* Wholesale liquor dealer's stamps will be furnished by collectors to district supervisors upon request. District supervisors will supply storekeeper-gaugers in charge of plants where such stamps are used with such quantities of stamps as may be required. When all the stamps in a book have been issued the storekeeper-gauger in charge will return the stub book to the district supervisor.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 184.594n *Record and report of wholesale liquor dealer's stamps.* Storekeeper-gaugers having custody of wholesale liquor dealer's stamps at fruit distilleries will keep a record of such stamps received and used on part 1 of Form 118, properly modified for the purpose, and as required by the instructions on the form and as issued in respect thereto. The record will be kept in bound form available for inspection by other Government officers. The storekeeper-gauger will prepare his monthly report on part 2 of Form 118, properly modified, and in duplicate, retain one copy and furnish one copy to the district supervisor.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

6. Regulations 10 (26 CFR Part 185; 15 F. R. 5233), "Warehousing of Distilled Spirits," as amended, are amended as follows:

(a) Sections 185.311, 185.626, 185.626a, 185.631, 185.633, 185.654, 185.655, 185.656, 185.657, 185.658, 185.670, 185.672, 185.675, 185.676, 185.677, 185.678, 185.679 and 185.680 are amended; and

(b) Sections 185.653a, 185.653b, 185.653c and 185.675a are added.

SUBPART O—ACTION BY DISTRICT SUPERVISOR

ORIGINAL ESTABLISHMENT

* * * * *

§ 185.311 *Registry numbers.* Internal revenue bonded warehouses will be numbered serially in the order of their establishment. A separate series will be used for each State. Registry numbers heretofore assigned will be retained, and new warehouses will be assigned numbers in sequence thereto. Registry numbers previously assigned to discontinued warehouses will not be reassigned to other warehouses. In the case of a successor taking over the warehouse, the same registry number will be retained. In the case of a change in location of the warehouse within the same State, the same registry number may be retained.

(53 Stat. 352; 26 U. S. C. 2873)

SUBPART CC—TAXPAID WITHDRAWALS BY GAUGE TANK

* * * * *

§ 185.626 *Release of spirits from gauging tank.* When the certificate of taxpayment has been affixed to the gauging tank, and canceled when required, the storekeeper-gauger will unlock the outlet valve to permit the removal of the spirits. The removal of spirits from the gauging tank must be under the immediate supervision of the storekeeper-gauger. When the spirits have been removed, the storekeeper-gauger will execute his statement of the date of withdrawal on the three copies of Form 179. If the spirits are transferred by pipeline, the storekeeper-gauger will forward one copy each of Forms 179 and 1520 and the canceled Form 1595 to the district supervisor, retain one copy each of Forms 179 and 1520 and deliver one copy of Form 179 and two copies of Form 1520 to the warehouseman who will immediately deliver one copy of Form 1520 to the vendee. If the spirits are to be drawn into packages from the gauging tank for transfer to bottling premises, the procedure prescribed in §§ 185.627 to 185.636 will be followed and when

all spirits have been drawn into packages, the storekeeper-gauger will dispose of Forms 179, 1520, and 1595 in the manner provided in this section for removals by pipeline. If the spirits are to be removed by tank car or tank truck the procedure will be in accordance with the applicable provisions of §§ 185.653a to 185.659.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

§ 185.626a *Taxpayment by stamps.* Distilled spirits stamps prescribed by § 185.672 may be used, in lieu of a certificate of taxpayment (Form 1595), to taxpay spirits to be removed by pipe line to a contiguous rectifying plant or taxpaid bottling house, or to be drawn into packages, tank cars, or tank trucks, to which wholesale liquor dealer's stamps will be affixed. When spirits are to be so tax-paid, the proprietor, upon receipt of the copies of Forms 179 and 1520 from the storekeeper-gauger pursuant to § 185.622, will cancel the necessary number of stamps in the exact amount of the tax due by perforation (as prescribed by § 185.675a), or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the warehouse, and the serial number of Form 179; for example, "John Doe Distilling Company, Internal Revenue Bonded Warehouse 63, New Jersey, Form 179, Serial Number ------." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only as authorized by § 185.675. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor if adequate for identification; for example, "J. D. Dist. Co. IRBW 63–NJ–179 S/N ------." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. The proprietor will then attach the canceled distilled spirits stamps to one copy of Form 179 and submit all copies of Forms 179 and 1520 to the Government officer. The Government officer will determine that the canceled stamps are in the full amount of the tax shown due on the Form 179 and will then further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp, and will execute a certificate on all copies of Form 179 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps in the amount of tax due. The serial number of the Form 179 will be entered on Form 1520 in the column provided for the kind and serial number of the stamp, as an indication that taxpayment was by use of distilled spirits stamps. The canceled distilled spirits stamps will be securely attached to a copy of Form 179 by means of a staple, eyelet, or similar device. Such copy of Form 179 and the accompanying copy of Form 1520 will be attached to the board on the gauging tank and remain theron until the spirits covered by the stamps have been removed. The release of the spirits from the tank and the disposition of the forms will be in accordance with the provisions of § 185.626.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

§ 185.631 *Issuance of wholesale liquor dealer's stamps.* Upon receipt of Form 92 with the application for wholesale liquor dealer's stamps duly executed, the storekeeper-gauger in charge will issue a wholesale liquor dealer's stamp for each package listed on the form. When issuing the stamps, the storekeeper-gauger will enter on each stamp all the information called for and sign the stamps in the space provided therefor. The storekeeper-gauger may enter his signature by means of a facsimile stamp, provided care is taken to use only such ink as will neither fade nor blur. Where an appreciable number of wholesale liquor dealer's packages will be filled, the warehouseman must provide the storekeeper-gauger in charge with suitable rubber stamps for the insertion of information common to all wholesale liquor dealer's stamps to be used by him. The total gallonage for which wholesale liquor dealer's stamps are issued shall in no case exceed the taxable gallons shown on Form 179 unless due to normal variations in gauge.

(53 Stat. 301, 329; 26 U. S. C. 2802, 2863)

§ 185.633 *Wholesale liquor dealer's stamp books.* Wholesale liquor dealer's stamps will be furnished by collectors to district supervisors upon request. District supervisors will supply storekeeper-gaugers in charge of bonded warehouses where such stamps are used with such quantities of stamps as may be required. When all the stamps in a book have been isued, the storekeeper-gauger in charge will return the stub book to the district supervisor.

(53 Stat. 301, 329; 26 U. S. C. 2802, 2863)

SUBPART DD—TAXPAID WITHDRAWALS IN TANK CARS AND TANK TRUCKS

* * * * *

§ 185.653a *Taxpayment by stamps.* Distilled spirits stamps prescribed by § 185.672 may be used, in lieu of a certificate of taxpayment (Form 1595), to taxpay spirits to be removed by tank car or tank truck to which a wholesale liquor dealer's stamp will be affixed. When spirits are to be so taxpaid, the proprietor, upon receipt of the copies of Forms 179 and 1520 from the storekeeper-gauger pursuant to § 185.651, will cancel the necessary number of stamps in the exact amount of the tax due by perforation (as prescribed by § 185.675a) or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the warehouse, and the serial number of Form 179; for example, "John Doe Distilling Company, Internal Revenue Bonded Warehouse 63, New Jersey, Form 179, Serial No. ------." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only as authorized by § 185.675. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor, if adequate for identification; for example, "J. D. Dist. Co. IRBW 63–NJ–179 S/N ------." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. The proprietor will then attach the canceled distilled spirits stamps to one copy of Form 179 and 1520 to the Government officer. The Government officer will determine that the canceled stamps are in the full amount of the tax shown due on the Form 179 and will then cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp, and will execute a certificate on Form 179 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps in the amount of the tax due. The serial number of the Form 179 will be entered on Form 1520 in the column provided for the kind and serial number of the stamp, as an indication that taxpayment was by use of distilled spirits stamps. The canceled distilled spirits stamps will be securely attached to a copy of Form 179 by means of a staple, eyelet, or similar device. Such copy of Form 179, and the accompanying Form 1520, will be attached to the board on the gauging tank and remain thereon until the spirits covered by the stamps have been removed. Forms 179 and 1520 will be disposed of in accordance with § 185.657.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

§ 185.653b *Form 92.* When the Form 179 to which the canceled stamps are attached, and Form 1520 have been attached to the board on the gauging tank, the proprietor will make application to the storekeeper-gauger on Form 92, properly modified, for a wholesale liquor dealer's stamp to be affixed to the tank car or tank truck. Form 92 will be prepared in quadruplicate for intra-district shipments and in quintuplicate for inter-district shipments. All information indicated by the headings of the various columns and lines on the form and the instructions printed thereon or issued in respect thereto, and as required by this part, shall be furnished. All copies of the Form 92 will be submitted to the storekeeper-gauger in charge of the warehouse. If the spirits are correctly described on Form 92 and have been properly taxpaid, the storekeeper-gauger will sign all copies and return the Form 92 to the warehouseman. He will then release the spirits for transfer to the tank car or tank truck. The warehouseman will execute his certificate on Form 92, entering therein in appropriate columns, the kind of spirits, the name of the owner of the car or truck and the car or truck number, the net weight, proof, and proof gallons of the spirits as shown on the Form 1520 covering taxpayment, and the statement "Consigned to:" followed by the name and address of the consignee. All copies of Form 92 will be given to the storekeeper-gauger in charge of the warehouse.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 185.653c *Wholesale liquor dealer's stamp.* Upon receipt of Form 92 with the application for the wholesale liquor dealer's stamp duly executed the storekeeper-gauger in charge will issue a wholesale liquor dealer's stamp for the tank car or tank truck, as the case may be, in accordance with the applicable provisions of §§ 185.631 and 185.632 except that a facsimile signature will not be placed on the wholesale liquor dealer's stamp issued for such tank car or tank truck. He will enter the number of the wholesale liquor dealer's stamp on all copies of Form 1520 and part 4 of Form 92, and return two copies of Form 92 and the wholesale liquor dealer's stamp to the warehouseman.

(53 Stat. 301, 335 as amended; 26 U. S. C. 2802, 2883)

§ 185.654 *Route board.* Tank cars and tank trucks used for the transportation of taxpaid distilled spirits must be equipped with a route board at least 10 by 12 inches in size, to which Form 1595 or wholesale liquor dealer's stamp can be attached. Such board shall be of substantial material and shall be affixed permanently and securely to the tank car or tank truck by roundheaded or carriage bolts, nutted and riveted, battered, or welded.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

§ 185.655 *Bill of lading.* The proprietor shall incorporate in the bill of lading, if any, a description of Form 1595 as follows:

Form 1595, Serial Number ------,
Owner and Number of Car (or Truck) ------
Vendor ------ Address ------
Vendee ------ Address ------

Where no bill of lading is issued, as in the case of transfer of a tank car between plants by switching arrangement, the warehouseman shall incorporate in Form 1520 such description of Form 1595. Where a wholesale liquor dealer's stamp is used in lieu of Form 1595, the proprietor shall incorporate in the bill of lading, if any, a description of the stamp, showing the kind of stamp and its serial number.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

§ 185.656 *Storekeeper-gauger's verification.* If taxpayment is by means of a certificate of taxpayment (Form 1595), the proprietor shall give the certificate, the bill of lading, if any, and all copies of Form 179 and Form 1520, to the storekeeper-gauger. The storekeeper-gauger will verify the contents of the tank car or tank truck, and the description of Form 1595 on the bill of lading or Form 1520, as the case may be, determine the security of the route board, and, if no discrepancies are found, he will note the serial number of the certificate, on his retained copy of Form 1520, and date and sign the certificate in the space provided therefor. The proprietor shall then affix the certificate to the route board in the presence of the storekeeper-gauger. The certificate must be securely affixed to the route board with a good adhesive and with a tack in each corner, whereupon it will be canceled in the same manner as a tax-paid stamp after attachment to a package. The certificate will then be covered with a coating of transparent shellac, lacquer, or varnish, to prevent its easy removal or alteration. If taxpayment is by means of distilled spirits stamps and evidenced by a wholesale liquor dealer's stamp, the proprietor shall give the bill of lading, if any, to the storekeeper-gauger who shall verify the contents of the tank car or tank truck, the description of the wholesale liquor dealer's stamp on the bill of lading, if any, and determine the security of the route board. If no discrepancies are found, the proprietor shall affix the wholesale liquor dealer's stamp to the route board in the presence of the storekeeper-gauger. The wholesale liquor dealer's stamp shall be affixed, canceled, and protected in the same manner as a certificate of taxpayment, Form 1595.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

§ 185.657 *Release of tank car or tank truck.* When the certificate of taxpayment (Form 1595) or wholesale liquor dealer's stamp has been affixed to the route board and cancelled, and the tank car or tank truck sealed by the proprietor, the storekeeper-gauger will return the bill of lading, if any, to the proprietor, release the tank car or tank truck for shipment, execute his statement of withdrawal on the three copies of Form 179, and note on all copies of Form 1520 the date of the release of the tank car or tank truck. The storekeeper-gauger will forward one copy of Form 179 and Form 1520 to the district supervisor, retain one copy of each form, and deliver one copy of Form 179 and two copies of Form 1520 to the proprietor, who will forward one copy of Form 1520 to the vendee and retain the remaining copy. Where taxpayment is by means of distilled spirits stamps, the storekeeper-gauger will forward to the district supervisor the Form 179 with the stamps attached and the accompanying Form 1520 and one copy of Form 92. The storekeeper-gauger will retain one copy of Form 92 in a permanent file as authority for issuance of the wholesale liquor dealer's stamp. Where the vendee is located in a different supervisory district, the storekeeper-gauger will send the extra copy of Form 92, prepared in accordance with § 185.653b, to the supervisor of the district in which the vendee is located.

(53 Stat. 335 as amended, 373 as amended; 26 U. S. C. 2883, 3170)

PROCEDURE WHEN TANK CAR OR TANK TRUCK IS EMPTIED

§ 185.658 *Scalping certificate or wholesale liquor dealer's stamp.* When the vendee receives tax-paid distilled spirits in a tank car or tank truck he shall, at the time the car or truck is emptied, dispose of the certificate of taxpayment, Form 1595, or wholesale liquor dealer's stamp, as the case may be, in accordance with the procedure prescribed by Regulations 11 (Part 189 of this subchapter), Regulations 15 (Part 190 of this subchapter) or Regulations 29 (Part 197 of this subchapter). The district supervisor will investigate any discrepancy which may be found respecting the shipment in accordance with such regulations.

(53 Stat. 335 as amended; 26 U. S. C. 2883)

SUBPART EE—TAXPAID WITHDRAWALS IN CASES

§ 185.670 *Application, Form 1519.* Application for taxpayment and withdrawal of distilled spirits in cases bottled in bond shall be made by the warehouseman on Form 1519, in triplicate. Each withdrawal will be made on a separate Form 1519, except that two or more withdrawals on the same day of spirits produced by the same distiller at the same distillery may be made on one form. The storekeeper-gauger will inspect the cases to be removed, and if any case bears evidence of unusual loss that cannot be satisfactorily explained, or of tampering, such case will be detained by him pending further investigation in accordance with the applicable provisions of §§ 185.480 to 185.496. The warehouseman will cancel the necessary stamps in the exact amount of the tax due in the manner provided by § 185.675. He will then attach the stamps to Form 1519 and submit all copies to the Government officer. The Government officer will determine that the canceled stamps are in the full amount of the tax shown due on the Form 1519 and will then complete the cancellation of the stamps as provided by § 185.675 and execute the certificate on Form 1519 certifying to the receipt and cancellation of stamps for the amount of taxes due.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

DISTILLED SPIRITS STAMPS FOR REMOVALS IN CASES, TANK CARS, TANK TRUCKS AND BY PIPELINE

§ 185.672 *Distilled Spirits Excise Tax stamps.* The tax on distilled spirits removed in cases, tank cars, tank trucks and by pipelines may be paid by Distilled Spirits Excise Tax stamps (series of 1950). Such stamps may be purchased in various denominations by the warehouseman from the collector of internal revenue of the district in which the internal revenue bonded warehouse is located. The stamps may be purchased in advance of actual needs, in order to be readily available when needed. The stamps may not be purchased by one warehouseman from another, nor may they, except in cases of emergency, be purchased from collectors of other districts. Warehousemen shall not sell or transfer stamps, except that they may (a) transfer such stamps to other premises operated by themselves as provided in § 185.676 pursuant to the prior approval of the district supervisor; or (b) return such stamps for redemption in accordance with § 185.677. Distilled spirits stamps for taxpayment of distilled spirits as authorized by this part, used or unused may not be purchased, sold,

or otherwise transferred except as provided in this part.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

§ 185.673 *Application for Distilled Spirits Excise Tax stamps.* Application for Distilled Spirits Excise Tax stamps shall be made on Form 1520 by the proprietor of the bonded warehouse in which the spirits are stored. Application may be made for stamps in advance of actual needs, in order to be readily available when needed. Application may be made for stamps of any denomination, but the total amount of stamps applied for shall not exceed the amount of tax due on the spirits to be withdrawn. Application may be made for stamps to be affixed to packages of spirits to be withdrawn for export, but such stamps will be canceled by the storekeeper-gauger.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

§ 185.674 *Delivery of stamps.* Distilled Spirits Excise Tax stamps will be delivered to the proprietor of the bonded warehouse by the collector of internal revenue of the district in which the internal revenue bonded warehouse is located.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

§ 185.675 *Cancellation of stamps.* Distilled Spirits Excise Tax stamps shall be canceled by the storekeeper-gauger by perforation (as prescribed by § 185.675a), or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the warehouse, and the serial number of Form 179 or Form 1519; for example, "John Doe Distilling Company, Internal Revenue Bonded Warehouse 63, New Jersey, Form 179, Serial Number ------." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only as authorized by this section. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor if adequate for identification; for example, "J. D. Dist. Co. IRBW 63–NJ–179 S/N ------." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. The proprietor will then attach the canceled distilled spirits stamps to one copy of Form 179 or Form 1519 and submit all copies of Forms 179 and 1520 to the Government officer. The Government officer will determine that the canceled stamps are in the full amount of the tax shown due on the Form 179 or Form 1519 and will then further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp, and will execute a certificate on all copies of Form 179 or Form 1519 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps in the amount of tax due. The serial number of the Form 179 or Form 1519 will be entered on Form 1520 in the column provided for the kind and serial number of the stamp, as an indication that taxpayment was by use of distilled spirits stamps. The canceled distilled spirits stamps will be securely attached to a copy of Form 179 or Form 1519 by means of a staple, eyelet, or similar device. Such copy of Form 179 or Form 1519 and the accompanying copy of Form 1520 will be attached to the board on the gauging tank and remain theron until the spirits covered by the stamps have been removed. The release of the spirits from the tank and the disposition of the forms will be in accordance with the provisions of § 185.657.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

§ 185.675a *Perforation of stamps.* Perforation of Distilled Spirits Excise Tax stamps shall be made by the use of a machine which will perforate the stamps with the letters "CANCELED" and the number of the warehouse, and the serial number of Form 179 or Form 1519; for example, "CANCELED John Doe Distilling Company, Internal Revenue Bonded Warehouse 63, New Jersey, Form 179, Serial Number ------." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only as authorized by § 185.675. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor if adequate for identification; for example, "J. D. Dist. Co. IRBW 63–NJ–179 S/N ------." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. The proprietor will then attach the canceled distilled spirits stamps to one copy of Form 179 or Form 1519 and submit all copies of Forms 179 and 1520 to the Government officer. The Government officer will determine that the canceled stamps are in the full amount of the tax shown due on the Form 179 or Form 1519 and will then further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp, and will execute a certificate on all copies of Form 179 or Form 1519 (using the certificate of the collector, properly modified) certifying to the receipt and further cancellation of stamps in the amount of tax due. The serial number of the Form 179 or Form 1519 will be entered on Form 1520 in the column provided for the kind and serial number of the stamp, as an indication that taxpayment was by use of distilled spirits stamps. The canceled distilled spirits stamps will be securely attached to a copy of Form 179 or Form 1519 by means of a staple, eyelet, or similar device. Such copy of Form 179 or Form 1519 and the accompanying copy of Form 1520 will be attached to the board on the gauging tank and remain theron until the spirits covered by the stamps have been removed. The release of the spirits from the tank and the disposition of the forms will be in accordance with the provisions of § 185.657.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

§ 185.676 *Removal of stamps.* Distilled Spirits Excise Tax stamps may be removed from the bonded warehouse by the proprietor thereof only for the purpose of (a) transfer to other premises operated by himself as provided in § 185.676 pursuant to the prior approval of the district supervisor; or (b) return for redemption in accordance with § 185.677.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

§ 185.677 *Redemption of stamps.* Distilled Spirits Excise Tax stamps may be redeemed by the collector of internal revenue of the district in which the internal revenue bonded warehouse is located, upon the return of such stamps by the proprietor of the bonded warehouse, if the stamps are returned intact and in their original packages, and if the proprietor has not used, sold, or otherwise disposed of the spirits to which the stamps were affixed. Application for redemption of stamps shall be made on Form 1520 and shall be accompanied by the stamps to be redeemed. Stamps will be redeemed only in the amount of the tax due on the spirits withdrawn from the bonded warehouse.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

§ 185.678 *Loss of stamps.* Any loss of Distilled Spirits Excise Tax stamps shall be reported immediately by the proprietor of the bonded warehouse to the collector of internal revenue of the district in which the internal revenue bonded warehouse is located, and to the district supervisor. The report shall be made in duplicate and shall contain a statement of the circumstances of the loss, the number of stamps lost, and the amount of tax due on the spirits to which the stamps were affixed. The district supervisor will investigate the loss and will report his findings to the collector.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

§ 185.679 *Destruction of stamps.* Distilled Spirits Excise Tax stamps which are damaged, destroyed, or rendered unfit for use shall be destroyed by the proprietor of the bonded warehouse in the presence of the storekeeper-gauger in charge. The proprietor shall report the destruction of the stamps to the collector of internal revenue of the district in which the internal revenue bonded warehouse is located, and to the district supervisor. The report shall be made in duplicate and shall contain a statement of the circumstances of the destruction, the number of stamps destroyed, and the amount of tax due on the spirits to which the stamps were affixed. The district supervisor will investigate the destruction and will report his findings to the collector.

(53 Stat. 298 as amended; 26 U. S. C. 2800)

or possessed, except as specifically authorized by this part.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398, 399; 26 U. S. C. 2800, 2883, 3172, 3175, 3300, 3304)

§ 185.675 *Manner of cancelling stamps.* At the time of delivery of the stamps to the Government officer for payment of the distilled spirits tax on distilled spirits bottled-in-bond, the warehouseman shall cancel the stamps by perforation (as prescribed by § 185.675a) or by legibly writing or stamping on each stamp with indelible (India) ink, his name, registry number, and the serial number of Form 1519; for example, "John Doe Distilling Company, Internal Revenue Bonded Warehouse No. 63, New Jersey, Form 1519, Serial No. ------." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only. The serial number of the withdrawal form must not be entered on the stamp in advance of actual use in taxpayment. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor, if adequate for identification; for example, "J. D. Dist. Co. IRBW 63–NJ–1519 S. N ------." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. The Government officer, after determining that the canceled stamps are in the proper amount, will further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border of each stamp.

(53 Stat. 298 as amended, 335 as amended, 374, 375, 398; 26 U. S. C. 2800, 2883, 3172, 3175, 3300)

§ 185.675a *Manner of perforating stamps.* If the proprietor's cancellation is made by perforation, each letter and figure of the cancellation must be not less than one-fourth of an inch in height and of proportionate width and suitably spaced for legibility and distinctness, and must be clearly and sharply outlined, either (a) by perforation through the substance of the stamp, and not merely puncturing it, each perforation to be not less than one thirty-second of an inch in width or diameter; or (b) by perforations in the form of incisions through the stamp of at least one thirty-second of an inch in width, cutting out the form of the letters and figures from the substance of the stamp, which letters and figures must be of the size, spacing, and distinctness as above specified.

(53 Stat. 298 as amended, 399; 26 U. S. C. 2800, 3303)

§ 185.676 *Transfer to other premises.* A proprietor operating other plants on the same or contiguous premises may transfer stamps to such plants from time to time pursuant to prior approval of the district supervisor. When the internal revenue bonded warehouse is permanently discontinued, or the proprietor has no use for the stamps thereat and the proprietor operates other premises in which the stamps could be used, he may transfer such stamps to such other premises for use thereat pursuant to prior approval of the district supervisor. If the premises to which the stamps are to be transferred is located in another supervisory district, the district supervisor granting authority to transfer the stamps will advise the district supervisor of the other district so that he may know that the receiving premises is entitled to receive the stamps. The latter district supervisor will also inform the Government officer assigned to the receiving premises of the authority to receive the stamps. A report of all transfers of stamps must be made on Form 1697, as provided in § 185.680.

(53 Stat. 298 as amended, 374; 26 U. S. C. 2800, 3172)

§ 185.677 *Redemption of distilled spirits stamps.* Distilled spirits stamps for taxpayment of distilled spirits bottled in bond or to be removed by pipeline or in tank cars or tank trucks, may be redeemed pursuant to section 3304, Internal Revenue Code, which reads as follows:

Redemption of stamps—(a) *Authorization.* The Commissioner, subject to regulations prescribed by the Secretary, may, upon receipt of satisfactory evidence of the facts, make allowance for or redeem such of the stamps, issued under authority of law, to denote the payment of any internal revenue tax, as may have been spoiled, destroyed, or rendered useless or unfit for the purpose intended, or for which the owner may have no use, or which through mistake may have been improperly or unnecessarily used, or where the rates or duties represented thereby have been excessive in amount, paid in error, or in any manner wrongfully collected.

(b) *Method and conditions of allowance.* Such allowance or redemption may be made, either by giving other stamps in lieu of the stamps so allowed for or redeemed, or by refunding the amount or value to the owner thereof, deducting therefrom, in case of repayment, the percentage, if any, allowed to the purchaser thereof; but no allowance or redemption shall be made in any case until the stamps so spoiled or rendered useless shall have been returned to the Commissioner, or until satisfactory proof has been made showing the reason why the same cannot be returned; or, if so required by the said Commissioner, when the person presenting the same cannot satisfactorily trace the history of said stamps from their issuance to the presentation of his claim as aforesaid.

(c) *Time for filing claims.* No claims for the redemption of or allowance for stamps shall be allowed unless presented within four years after the purchase of such stamps from the Government.

(d) *Finality of Commissioner's decision.* The findings of facts in and the decision of the Commissioner upon the merits of any claim presented under or authorized by this section shall, in the absence of fraud or mistake in mathematical calculation, be final and not subject to revision by any accounting officer.

(53 Stat. 399; 26 U. S. C. 3304)

§ 185.678 *Claim to collector.* Proprietors of internal revenue bonded warehouses desiring to have distilled spirits stamps, described in § 185.677, redeemed under the provisions of section 3304, I. R. C., must make claim on Form 843 to the collector of internal revenue. The stamps, for which redemption is claimed, must be attached to the claim, and the number and denominations thereof must be listed on the claim or on a sheet of paper attached thereto. Where the stamps have been destroyed, evidence satisfactory to the Commissioner establishing such destruction must accompany the claim.

(53 Stat. 298 as amended, 374, 399; 26 U. S. C. 2800, 3172, 3304)

§ 185.679 *Unredeemable stamps.* Distilled spirits stamps may not be redeemed while distilled spirits on which the stamps can be used in taxpayment remain on hand and while the internal revenue bonded warehouse remains in a qualified status unless it is shown that the manner of taxpaying spirits thereat is such that the stamps may not be used. When an internal revenue bonded warehouse is discontinued and stamps remain on hand, such stamps are not redeemable if the proprietor operates other premises at which the stamps could be used. In such cases the stamps will be transferred to the other premises for use thereat in accordance with § 185.676. Notation of the transfer must be made on Form 1697 for both premises.

(53 Stat. 298 as amended, 374, 399; 26 U. S. C. 2800, 3172, 3304)

§ 185.680 *Stamp report.* The proprietor of the internal revenue bonded warehouse shall make a report on Form 1697 of all distilled spirits stamps received and used at his warehouse. Entries will be made thereon and the report submitted in accordance with the headings of the various lines and columns on the form and the instructions printed thereon or issued in respect thereto and as required by this part. When distilled spirits stamps are surrendered for redemption, in accordance with §§ 185.677 and 185.678, or are transferred to, or received from, other premises operated by the proprietor, as authorized in § 185.676, a report thereof must be made on Form 1697, giving the reason for such surrender, transfer, or receipt, the date thereof, and the denominations of the stamps surrendered, transferred, or received, and, in cases of transfer or receipt, the name, registry number, and location of the premises to which the stamps were transferred or from which they were received.

(53 Stat. 298 as amended, 374; 26 U. S. C. 2800, 3172)

7. Regulations 11 (26 CFR Part 189; 15 F. R. 4581), "Bottling of Tax-Paid Distilled Spirits," as amended, are hereby amended as follows:

(a) Sections 189.132, 189.167, 189.168, 189.169, 189.186, 189.189, 189.203, 189.204a and 189.376 are amended; and

(b) Section 189.204b is added.

SUBPART M—ACTION BY DISTRICT SUPERVISOR

* * * * * *

§ 189.132 *Registry numbers.* Taxpaid bottling houses will be numbered serially in the order of their establishment. A separate series will be used for each State. Registry numbers heretofore assigned will be retained, and new tax-paid bottling houses will be assigned numbers in sequence thereto. Registry numbers previously assigned to discontinued tax-paid bottling houses will not be reassigned to other tax-paid bottling houses. In the case of a successor taking over the tax-paid bottling house, the same registry number will be retained. In the case of a change in location of the tax-paid bottling house within the same State, the registry number may be retained.

(53 Stat. 303 as amended, 331; 26 U. S. C. 2803, 2871)

SUBPART R—RECEIPT OF DISTILLED SPIRITS

* * * * * *

FROM PREMISES OTHER THAN RECTIFYING PLANTS

* * * * * *

§ 189.167 *Certificate of tax-payment, Form 1595, or wholesale liquor dealer's stamp.* When distilled spirits are received in a tank car or tank truck at a tax-paid bottling house, the proprietor shall at the time the car or truck is emptied scalp the certificate of tax-payment, Form 1595, or the wholesale liquor dealer's stamp, as the case may be, by cutting out all of that portion of the certificate or stamp within the border. The proprietor shall then send the cut-out portion of the certificate or stamp to the supervisor of the district in which the proprietor is located, and shall obliterate the remainder of the certificate or stamp.

(53 Stat. 303 as amended, 331, 335 as amended; 26 U. S. C. 2803, 2871, 2883)

§ 189.168 *Absence of Form 1595 or wholesale liquor dealer's stamp to be reported.* If the tank car or tank truck is received without the certificate or wholesale liquor dealer's stamp attached thereto, the proprietor shall note such fact on the bill of lading, if any, or on Form 1520 or 1440, as the case may be, covering such tank car or tank truck and immediately notify the district supervisor, who will cause such inquiry to be made respecting the shipment and receipt of the car or truck as he may deem appropriate. Where a tank car or tank truck with the certificate or wholesale liquor dealer stamp missing is received at a tax-paid bottling house, the storekeeper-gauger will furnish a complete report to the district supervisor.

(53 Stat. 303 as amended, 331, 335 as amended; 26 U. S. C. 2803, 2871, 2883)

§ 189.169 *Comparison of scalped certificate or wholesale liquor dealer's stamp with application.* The district supervisor will compare the cut-out portion of the certificate of tax-payment, Form 1595, with the copy of the application therefor, Form 1594, forwarded to him by the collector at the time Form 1595 was issued. The certificate and the application will be compared as to serial number, names of vendor and vendee, number of gallons, amount of tax, etc., and any discrepancy will be investigated. If a wholesale liquor dealer's stamp has been used in lieu of a certificate, Form 1595, the district supervisor will compare the cut-out portion of the stamp with the copy of the application, Form 92, forwarded to him at the time the stamp was issued. The stamp and the application will be compared as to serial number, consignor, number of gallons, etc., and any discrepancy will be investigated.

(53 Stat. 303 as amended, 331, 335 as amended; 26 U. S. C. 2803, 2871, 2883)

SUBPART S—DUMPING AND BOTTLING

* * * * * *

§ 189.186 *Distiller's original or wholesale liquor dealer's packages.* Where the spirits to be dumped are contained in distiller's original packages, the proprietor will cut out with a sharp instrument that portion of each tax-paid stamp upon which is shown the serial number of the stamp, the date, the name of the distiller or warehouseman, the proof gallons, and the serial number of the package. In the case of wholesale liquor dealer's packages, that portion of each stamp extending from the top to the bottom and embracing the entire width between the borders of the stamp will be cut out. The cut-out portions of the stamps will be securely attached by means of a staple, eyelet, or similar device, to a slip of paper in such manner that the data thereon may be readily examined, and such slip of paper bearing the cut-out portions of the stamps will be securely attached to the original Form 230.

(53 Stat. 303 as amended, 329, 331; 26 U. S. C. 2803, 2863, 2871)

§ 189.189 *Unstamped spirits.* When a stamp has been lost or mutilated so that the required portion thereof cannot be returned, an affidavit setting forth all the facts in the case will be made by the proprietor and attached to each copy of Form 230. When spirits are received in a tank car or tank truck bearing a certificate of taxpayment, Form 1595, or a wholesale liquor dealer's stamp, or when spirits are received by pipeline, or where spirits in stamped bottles are to be dumped, an explanatory statement will be made in the columns provided for the description of stamps on Form 230, as "Form 1595, Serial No. ------, dated ------------, heretofore submitted," or "wholesale liquor dealer's stamp, Serial No. ------, dated ------------, heretofore submitted," or "Form 1520, dated ------------, pipeline transfer on Form 1595, Serial No. ------," or "Form 1440, dated ------------, pipeline transfer on Form 1595, Serial No. ------," or "See Form 230, Serial No. ------, dated ------------," or "See Form 237, Serial No. ------, dated ------------," or "In Stamped Bottles," as the case may be. If the spirits received by pipeline were tax-paid by the use of distilled spirits stamps, an explanatory statement will be made in the columns provided for the description of stamps on Form 230, as, "Distilled spirits stamps, Form 1520, dated ------------," or "Distilled spirits stamps, Form 1440 dated ------------," as the case may be.

(53 Stat. 303 as amended, 329, 331, 335 as amended; 26 U. S. C. 2803, 2863, 2871, 2883)

§ 189.203 *Destruction of stamps, marks, and brands.* When packages of spirits are dumped for bottling, all stamps, except the cut-out portions attached to Form 230, and all marks and brands which such packages are required by law to bear, must be completely effaced and obliterated. This should be done immediately upon completion of the dumping, draining, and rinsing of the packages. Certificates of tax-payment or wholesale liquor dealer's stamps affixed to tank cars or tank trucks of distilled spirits, except the portion thereof scalped for submission to the district supervisor, must likewise be immediately destroyed when such cars or trucks are emptied. When packages of wines are emptied by any person, all stamps and marks which such packages are required by law and regulations to bear must be destroyed by scraping or obliterating immediately the packages are emptied. All labels and stamps affixed to tank cars, tanks, tank trucks, or similar containers of wine indicating tax-payment of the contents must also be scraped or obliterated immediately such containers are emptied.

(53 Stat. 329, 330, 331, 335 as amended, 398; 26 U. S. C. 2863, 2866, 2871, 2883, 3301)

§ 189.204a *Taxpayment of rinsings.* In lieu of the procedure prescribed in § 189.204 concerning the rinsings of packages, the proprietor may rinse and save the rinsings from packages, to any extent desired, which were not rinsed in the internal revenue bonded warehouse at the time of taxpayment and are so marked in accordance with the provisions of Regulations 10 (Part 185 of this subchapter): *Provided*, That the rinsings are run into a closed, locked tank for taxpayment of the proof gallon contents. Such rinsings may be used for reduction purposes in the tax-paid bottling house, or in a contiguous rectifying plant in the manufacture of rectified spirits or products subject to the rectification tax. When used for reduction, the rinsings must be used in similar spirits. When used in the manufacture of rectified spirits or products, the rinsings may be used with any other appropriate spirits. The tank into which the rinsings are run will be mounted on accurate scales, or equipped with a suitable measuring device whereby the contents can be accurately determined. Upon completion of the rinsing of the packages, the contents of the tank will be gauged by the Government officer and the proof gallon contents determined. The gauge of the tank will be made by weight (where the tank is mounted on scales) or by measure. The Government officer will prepare Form 1520, in triplicate, governing the gauge of the tank showing the proof gallons, and the kind and age of the spirits from which the rinsings were obtained and will deliver all copies to the proprietor. The proprietor will cancel the necessary number of distilled spirits stamps prescribed by Regulations 10 (Part 185 of this subchapter) for the taxpayment of distilled spirits bottled-in-bond, in the exact amount of the tax due, in the manner prescribed by § 189.204b. The proprietor will then attach the stamps to the original copy of Form 1520 and submit it with all copies of Form 1520 to the Government officer. The Government officer, after determining that the canceled stamps are in the proper amount of the tax due, will then further

cancel the stamps in the manner prescribed by § 189.204b, and will execute a certificate on the back of Form 1520, certifying to the receipt and further cancellation of stamps for the amount of tax due. The canceled distilled spirits stamps will be securely attached to the copy of Form 1520 by means of a staple, eyelet, or similar device. The storekeeper-gauger will attach the copy of Form 1520 to which the canceled stamps are attached to the tank, and then release the rinsings for reduction purposes or for transfer by pipeline to a contiguous rectifying plant for use in rectification, as authorized herein. The Government officer will give one copy of Form 1520 to the proprietor and retain the remaining copy. To identify properly the spirits in the tank, Form 1520 to which the stamps are attached will continue to remain on the tank until all the rinsings covered by such stamps have been removed, at which time such form, with the stamps attached, will be forwarded to the district supervisor. Where the rinsings are transferred by pipeline to a contiguous rectifying plant, an additional copy of Form 1520 will be forwarded to the Government officer assigned to such plant. When so transferred, the rinsings will be accounted for in the rectifying plant in the same manner as other spirits received for rectification. Packages of imported spirits may similarly be rinsed and the rinsings saved if taxpaid in accordance with this procedure. The proprietor shall make a report on Form 1697, properly modified, of all distilled spirits stamps received and used at the tax-paid bottling house for taxpayment of rinsings authorized by this section. The form shall be disposed of in accordance with instructions printed thereon.

(53 Stat. 298 as amended, 303 as amended, 331, 335 as amended; 26 U. S. C. 2800, 2803, 2871, 2883)

§ 189.204b *Manner of cancelling stamps used to taxpay rinsings.* At the time of delivery of the stamps to the Government officer for payment of the distilled spirits tax, the proprietor shall cancel the stamps by perforation as prescribed herein, or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the tax-paid bottling house, and the date of the Form 1520; for example, "John Doe Distilling Company, Tax-paid Bottling House No. 63, New Jersey, Form 1520, dated June 1, 1952." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only. The date of the Form 1520 must not be entered on the stamp in advance of actual use in taxpayment. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor, if adequate for identification; for example, "J. D. Dist. Co. TPBH 63–NJ–1520–6–1–52." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. If the proprietor's cancellation is made by perforation, each letter and figure of the cancellation must be not less than one-fourth of an inch in height and of proportionate width and suitably spaced for legibility and distinctness, and must be clearly and sharply outlined either (a) by perforation through the substance of the stamp, and not merely puncturing it, each perforation to be not less than one thirty-second of an inch in width or diameter; or (b) by perforations in the form of incisions through the stamp of at least one thirty-second of an inch in width, cutting out the form of the letters and the figures from the substance of the stamp, which letters and figures must be of the size, spacing, and distinctness as above specified. The Government officer, after determining that the canceled stamps are in the full amount of the tax due, will further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp.

(53 Stat. 298 as amended, 399; 26 U. S. C. 2800, 3303)

SUBPART GG—DUTIES OF STOREKEEPER-GAUGERS

• • • • • •

§ 189.376 *Degree of supervision.* The storekeeper-gauger, who supervises the operations of a tax-paid bottling house in addition to his other duties, will maintain such supervision as will enable him to know that no unauthorized mingling of spirits occurs; that only lawfully tax-paid spirits are bottled; and that the requirements of this part in other respects are being observed by the proprietor. He will, insofar as his other duties permit, examine tank cars or tank trucks of spirits before they are unloaded to determine that the seals are intact and that each bears a collector's certificate of tax-payment or wholesale liquor dealer's stamp, as the case may be; supervise the receipt of spirits by pipeline; examine packages of spirits to be dumped for bottling to determine whether they bear proper evidence of tax-payment; examine storage tanks from which spirits are to be removed for bottling to determine whether the contents correspond with the record on Form 703–A, 1440 or Form 1520 attached to the tank; verify cases filled; supervise the bottling and storing of distilled spirits and wines especially for export, with benefit of drawback, in accordance with Regulations 28 (Part 176 of this subchapter); inspect bottles used for packaging spirits to determine whether the provisions of Regulations 13 (Part 175 of this subchapter) are being complied with; inspect labels to determine whether the provisions of Subpart U are being observed; determine whether proper use is made of strip stamps; and determine whether proper records are kept by the proprietor of the receipt, dumping, bottling, and disposition of spirits. The required supervision may be accomplished by observations made at such times as the storekeeper-gauger must necessarily visit the bottling house for the examination of packages of spirits to be dumped for bottling, the verification of cases filled, the issuance of stamps, etc., and by inspection made at irregular intervals from time to time as his duties at the distillery, bonded warehouse, or rectifying plant permit.

(53 Stat. 303 as amended, 331; 26 U. S. C. 2803, 2871)

8. Regulations 15 (26 CFR Part 190; 15 F. R. 4790), "Rectification of Spirits and Wines," as amended, are amended as follows:

(a) Sections 190.312, 190.409, 190.410, 190.429, 190.432, 190.441, 190.443a, 190.687, 190.718, 190.735, 190.740, 190.742, 190.743, 190.744, 190.745 and 190.746 are amended;

(b) Sections 190.443b, 190.718a, 190.734a and 190.747a are added; and

(c) Sections 190.734 and 190.741 are revoked.

SUBPART O—ACTION BY DISTRICT SUPERVISOR

ORIGINAL ESTABLISHMENT

• • • • • •

§ 190.312 *Registry numbers.* Rectifying plants will be numbered serially in the order of their establishment. A separate series will be used for each State. Registry numbers heretofore assigned will be retained, and new rectifying plants will be assigned numbers in sequence thereto. Registry numbers previously assigned to discontinued rectifying plants will not be reassigned to other rectifying plants. In the case of a successor taking over the rectifying plant, the same registry number may be retained. In the case of a change in location of the rectifying plant within the same State, the same registry number may be retained.

(53 Stat. 300 as amended; 26 U. S. C. 2801)

SUBPART W—RECEIPTS OF SPIRITS

• • • • • •

§ 190.409 *Certificate of taxpayment or wholesale liquor dealer's stamp.* When distilled spirits are received in a tank car or tank truck at a rectifying plant, the rectifier shall at the time the car or truck is emptied scalp the certificate of taxpayment, Form 1595, or the wholesale liquor dealer's stamp, as the case may be, by cutting out all of that portion of the certificate or stamp within the border. The rectifier shall then send the cut-out portion of the certificate or stamp to the supervisor of the district in which the rectifier is located, and shall obliterate the remainder of the certificate or stamp. If the tank car or tank truck is received without the certificate or wholesale liquor dealer's stamp attached thereto, the rectifier shall note such fact on the bill of lading (if any) or on Form 1520 or 1440, as the case may be, covering such tank car or tank truck and immediately notify the district supervisor, who will cause such inquiry to be made respecting the shipment and receipt of the car or truck as he may deem appropriate. Where a tank car or tank truck with the certificate or wholesale liquor dealer stamp missing is received at a rectifying plant, the storekeeper-gauger will furnish a complete report to the district supervisor.

(53 Stat. 300 as amended, 335 as amended; 26 U. S. C. 2801, 2883)

§ 190.410 *Comparison of scalped certificate or wholesale liquor dealer's stamp with application.* The district supervisor will compare the cut-out portion of the certificate of tax-payment, Form 1595, with the copy of the application therefor, Form 1594, forwarded to him by the collector at the time Form 1595 was issued. The certificate and the application will be compared as to serial number, names of vendor and vendee, number of gallons, amount of tax, etc., and any discrepancy will be investigated. If a wholesale liquor dealer's stamp has been used in lieu of a certificate, Form 1595, the district supervisor will compare the cut-out portion of the stamp with the copy of the application, Form 92, forwarded to him at the time the stamp was issued. The stamp and the application will be compared as to serial number, consignor, number of gallons, etc., and any discrepancy will be investigated.

(53 Stat. 300 as amended, 335 as amended; 26 U. S. C. 2801, 2883)

SUBPART X—GAUGING AND DUMPING SPIRITS FOR RECTIFICATION

• • • • • •

§ 190.429 *Wholesale liquor dealer's packages.* Where spirits contained in wholesale liquor dealer's packages are to be dumped, that portion of each wholesale liquor dealer's stamp extending from the top to the bottom and embracing the entire width between the borders of the stamp will be cut out and attached to Form 122 in the same manner as tax-paid stamps.

(53 Stat. 300 as amended, 310, 329; 26 U. S. C. 2801, 2813, 2863)

§ 190.432 *Notation on Form 122.* When spirits are received in a tank car or tank truck bearing a certificate of taxpayment, Form 1595, or a wholesale liquor dealer's stamp, or where spirits are received by pipe line, or where spirits in stamped bottles are to be dumped, an explanatory statement will be made in the columns provided for the descriptions of stamps on Form 122, as "Form 1595, Serial No. ------, dated ----------, heretofore submitted," or "Wholesale liquor dealer's stamp, Serial No. ------, dated ----------, heretofore submitted," or "Form 1520, dated ----------, pipeline transfer on Form 1595, Serial No. ------," or "Form 1440, dated ----------, pipeline transfer on Form 1595, Serial No. ------," or "In stamped bottles," as the case may be. If the spirits received by pipeline were taxpaid by the use of distilled spirits stamps, an explanatory statement will be made in the columns provided for the description of stamps on Form 122, as "Distilled spirits stamps, Form 1520 dated ----------," or "Distilled spirits stamps, Form 1440 dated ----------," as the case may be.

(53 Stat. 310, 335 as amended; 26 U. S. C. 2813, 2883)

§ 190.441 *Destruction of certificate or wholesale liquor dealer's stamp.* Certificates of tax-payment, or wholesale liquor dealer's stamps, affixed to tank cars or tank trucks of distilled spirits, except the portion thereof scalped for submission to the district supervisor, must likewise be immediately destroyed when such cars or trucks are emptied.

(53 Stat. 300, 335 as amended; 26 U. S. C. 2801, 2883)

§ 190.443a *Taxpayment of rinsings.* In lieu of the procedure prescribed in section 190.443 concerning the rinsing of packages, the proprietor may rinse and save the rinsings from packages, to any extent desired, which were not rinsed in the internal revenue bonded warehouse at the time of taxpayment and are so marked in accordance with the provisions of Regulations 10 (Part 185 of this subchapter): *Provided*, That the rinsings are run into a closed, locked tank for taxpayment of the proof gallon contents. Such rinsings may be used for reduction purposes, or in the manufacture of rectified spirits or products subject to the rectification tax. When used for reduction, the rinsings must be used in similar spirits. When used in the manufacture of rectified spirits or products, the rinsings may be used with any other appropriate spirits. The tank into which the rinsings are run will be mounted on accurate scales, or equipped with a suitable measuring device whereby the contents can be accurately determined. Upon completion of the rinsing of the packages, the contents of the tank will be gauged by the Government officer and the proof gallon contents determined. The gauge of the tank will be made by weight (where the tank is mounted on scales) or by measure. The Government officer will prepare For 1520, in triplicate, covering the gauge of the tank showing the proof gallons, and the kind and age of the spirits from which the rinsings were obtained and will deliver all copies to the proprietor. The proprietor will cancel the necessary number of distilled spirits stamps prescribed by Regulations 10 (Part 185 of this subchapter) for the taxpayment of distilled spirits bottled in bond, in the exact amount of the tax due, in the manner prescribed by § 190.443b. The proprietor will then attach the stamps to the original copy of Form 1520 and submit it with all copies of Form 1520 to the Government officer. The Government officer will determine that the canceled stamps are in the full amount of the tax due, and will then further cancel the stamps in the manner prescribed by § 190.443b, and will execute a certificate on the back of Form 1520 certifying to the receipt and further cancellation of stamps for the amount of tax due. The canceled distilled spirits stamps will be securely attached to the copy of Form 1520 by means of a staple, eyelet, or similar device. The storekeeper-gauger will attach the copy of Form 1520 to which the canceled stamps are attached to the tank, and then release the rinsings for reduction purposes or for use in rectification, as authorized herein. The Government officer will give one copy of Form 1520 to the proprietor and retain the remaining copy. To identify properly the spirits in the tank, Form 1520 to which the stamps are attached will continue to remain on the tank until all rinsings covered by such stamps have been removed, at which time such form, with the stamps attached, will be forwarded to the district supervisor. Packages of imported spirits may similarly be rinsed and the rinsings saved if taxpaid in accordance with this procedure. The proprietor shall make a report on Form 1697, properly modified, of all distilled spirits stamps received and used at the rectifying plant for taxpayment of rinsings authorized by this section. The form shall be disposed of in accordance with the instructions printed thereon.

(53 Stat. 298 as amended, 300, 335 as amended; 26 U. S. C. 2800, 2801, 2883)

§ 190.443b *Manner of canceling stamps.* At the time of delivery of the stamps to the Government officer for payment of the distilled spirits tax, the rectifier shall cancel the stamps by perforation as prescribed herein, or by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the rectifying plant, and the date of the Form 1520; for example, "John Doe Company, Rectifying Plant No. 63, New Jersey, Form 1520, dated June 1, 1952." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only. The date of the Form 1520 must not be entered on the stamp in advance of actual use in taxpayment. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor, if adequate for identification; for example, "J. D. Co. R. P. 63–NJ–1520–6–1–52." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. If the proprietor's cancellation is made by perforation, each letter and figure of the cancellation must be not less than one-fourth of an inch in height and of proportionate width and suitably spaced for legibility and distinctness, and must be clearly and sharply outlined either (a) by perforation through the substance of the stamp, and not merely puncturing it, each perforation to be not less than one thirty-second of an inch in width or diameter; or (b) by perforations in the form of incisions through the stamp of at least one thirty-second of an inch in width, cutting out the form of the letters and figures from the substance of the stamp, which letters and figures must be of the size, spacing, and distinctness as above specified. The Government officer, after determining that the canceled stamps are in the full amount of the tax due, will further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp.

(53 Stat. 298 as amended, 300, 399; 26 U. S. C. 2800, 2801, 3303)

SUBPART FF—BOTTLING OF UNRECTIFIED SPIRITS AND WINES

• • • • • •

§ 190.637 *Unstamped spirits.* Where the stamp on a package of spirits to be dumped for bottling without rectification has been lost or mutilated, so that

the required portion thereof cannot be returned, or where spirits received in tank cars or tank trucks bearing certificate of tax-payment, Form 1595, or a wholesale liquor dealer's stamp, or where spirits are received by pipeline from premises other than a rectifying plant, or where spirits in stamped bottles, or wines, are to be dumped for bottling without rectification, the same procedure will be followed as that prescribed in §§ 190.430 to 190.433 in the case of the dumping of spirits or wines from such containers for rectification. When spirits are received by pipeline from a rectifying plant, an explanatory statement will be made in the column provided for the description of stamps on Form 230, as "see Form 230, Serial No. ------, dated ----------."

(53 Stat. 300 as amended, 329, 335 as amended; 26 U. S. C. 2801, 2863, 2883)

SUBPART GG—STAMPS

RECTIFIED SPIRITS STAMPS (FOR BOTTLING TANKS)

• • • • • •

§ 190.718 *Manner of canceling stamps.* At the time of delivery of the stamps to the Government officer for payment of the rectified spirits tax, the rectifier shall cancel the stamps by perforation (as prescribed by § 190.718a) or by legibly writing or stamping on each stamp with indelible (India) ink, his name, registry number, and the serial number of Form 237; for example, "John Doe Company, Rectifying Plant No. 63, New Jersey, Form 237 Serial No. ------." Prior to use in taxpayment, the proprietor, if he so desires, may partially precancel the stamps to the extent of showing his name and registry number only. The serial number of the Form 237 must not be entered on the stamp in advance of actual use in payment of the rectification tax. The district supervisor may, in his discretion, approve a suitable abbreviation of the required information for cancellation, including the initials for the name of the proprietor, if adequate for identification; for example, "J. D. Co. RP 63–NJ–237–S/N ------." The proprietor's cancellation must be made on the lower portion of the stamp below the figures and words indicating the denomination of the stamp. The Government officer, after determining that the canceled stamps are in the proper amount of the tax due, will then further cancel and deface the stamps by cutting a hole one-half inch square in the upper right-hand corner, and wholly within the border, of each stamp.

(53 Stat. 300 as amended; 26 U. S. C. 2801)

§ 190.718a *Manner of perforating stamps.* If the rectifier's cancellation is made by perforation, each letter and figure of the cancellation must be not less than one-fourth of an inch in height and of proportionate width and suitably spaced for legibility and distinctness, and must be clearly and sharply outlined either (a) by perforation through the substance of the stamp, and not merely puncturing it, each perforation to be not less than one thirty-second of an inch in width or diameter; or (b) by perforations in the form of incisions through the stamp of at least one thirty-second of an inch in width, cutting out the form of the letters and the figures from the substance of the stamp, which letters and figures must be of the size, spacing, and distinctness as above specified.

(53 Stat. 300 as amended, 399; 26 U. S. C. 2801, 3303)

WHOLESALE LIQUOR DEALER'S STAMPS

• • • • • •

§ 190.734a *Wholesale liquor dealer's stamp books.* Wholesale liquor dealer's stamps will be furnished by collectors to district supervisors upon request. District supervisors will supply storekeeper-gaugers in charge of rectifying plants where such stamps are used with such quantities as may be required. When all the stamps in a book have been issued, the storekeeper-gauger in charge will return the stub book to the district supervisor.

(53 Stat. 300 as amended, 301, 329; 26 U. S. C. 2801, 2802, 2863)

§ 190.735 *Application to package.* Rectifiers desiring to draw distilled spirits into wholesale liquor dealer's packages of 5 wine gallons or more, as authorized in § 190.733, will make application therefor on Form 92, in quadruplicate, giving all of the information called for by the form. Where the spirits to be so packaged have been dumped from the stamped containers in which received, the application shall show, in addition to other applicable data, the date and number (122 or 230) of the form pursuant to which the spirits were dumped. If the spirits were received in a tank car or tank truck, the application shall show, in addition to other applicable data, the date the certificate of tax-payment (Form 1595) or wholesale liquor dealer's stamp, as the case may be, was submitted to the district supervisor. Should the spirits, which it is permissible to transfer to wholesale liquor dealer's packages under § 190.733, be contained in stamped packages, the stamps thereon must be cut out and the cut-out portion securely attached by means of a staple, eyelet, or similar device, to a slip of paper in such manner that the data thereon may be readily examined, and such slip of paper bearing the cut-out portions of the stamps will be securely attached to one copy of the application.

(53 Stat. 300 as amended, 329; 26 U. S. C. 2801, 2863)

§ 190.740 *Application for stamps.* When the spirits have been properly packaged and the details of the gauge thereof entered on Form 92, the rectifier will make application on such form for the issuance of wholesale liquor dealer's stamps for the packages and deliver all copies of the form to the storekeeper-gauger.

(53 Stat. 300 as amended, 301, 329; 26 U. S. C. 2801, 2802, 2863)

§ 190.742 *Issuance of stamps.* Upon receipt of Form 92 with application for wholesale liquor dealer's stamps duly executed, the storekeeper-gauger in charge will issue a wholesale liquor dealer's stamp for each package listed on the form. When issuing the stamps, the storekeeper-gauger will enter on each stamp all the information called for and sign the stamps in the space provided therefor. The storekeeper-gauger may enter his signature by means of a facsimile stamp, provided care is taken to use only such ink as will neither fade nor blur. Where an appreciable number of wholesale liquor dealer's packages will be filled, the rectifier must provide the storekeeper-gauger in charge with suitable rubber stamps for the insertion of information common to all wholesale liquor dealer's stamps to be used by him.

(53 Stat. 300 as amended, 301, 329; 26 U. S. C. 2801, 2802, 2863)

§ 190.743 *Stamp stub.* The storekeeper-gauger in charge shall enter on the stub connected with each wholesale liquor dealer's stamp data similar to that entered on the stamp, to preserve a perfect record of the detached stamp.

(53 Stat. 300 as amended, 301, 329; 26 U. S. C. 2801, 2802, 2863)

§ 190.744 *Disposition of Form 92.* The storekeeper-gauger in charge will enter the serial numbers of the wholesale liquor dealer's stamps in the proper column on each Form 92, opposite the description of the package for which the stamp is issued. He will then return two copies of Form 92 to the rectifier with the stamps, forward one copy of the form to the district supervisor and retain the remaining copy. The storekeeper-gauger in charge shall place his retained copy in a permanent file as authority for issuance of the stamps. The rectifier will forward one copy of Form 92 to the vendee.

(53 Stat. 300 as amended, 301, 329; 26 U. S. C. 2801, 2802, 2863)

§ 190.745 *Wholesale liquor dealer's stamps for rectified spirits.* Storekeeper-gaugers may not furnish wholesale liquor dealer's stamps in lieu of and in exchange for stamps for rectified spirits, unless the package covered by the stamp for rectified spirits is to be broken into smaller packages.

(53 Stat. 300 as amended, 301, 329; 26 U. S. C. 2801, 2802, 2863)

§ 190.746 *Affixing and canceling of stamps.* Upon receipt from the storekeeper-gauger in charge of Form 92 and the accompanying stamps, the rectifier will affix the stamps to the packages and cancel the same under the supervision of the Government officer. The stamps will be affixed and canceled in the same manner as rectified spirits stamps are required in this subpart to be affixed and canceled.

(53 Stat. 300 as amended, 398; 26 U. S. C. 2801, 3301)

§ 190.747a *Record and report of wholesale liquor dealer's stamps.* Storekeeper-gaugers having custody of wholesale liquor dealer's stamps at rectifying plants will keep a record of such stamps received and used on part 1 of Form 118, properly modified for the purpose, and as required by instructions on the form or as issued in respect thereto. The record will be kept in bound form available for inspection by other Government officers. The storekeeper-gauger will prepare his monthly report on part 2 of Form 118, properly modified and in duplicate, retain one copy and furnish one copy to the district supervisor.

(53 Stat. 300 as amended, 301; 26 U. S. C. 2801, 2802)

9. Section 197.24 (b) and 197.24 (c) of Regulations 29 (26 CFR Part 197; 7 F. R. 9111), "Drawback of Tax on Distilled Spirits Used in the Manufacture of Nonbeverage Products," as amended, are amended as follows:

CLAIMS FOR DRAWBACK

• • • • • •

§ 197.24 *Supporting data.* Each claim will be accompanied by statements of supporting data which shall be prepared in duplicate. One copy shall be attached to the original and one copy shall be attached to the duplicate of the claim.

(a) Data with respect to payment of special tax: A statement showing (1) serial number of special tax stamp, (2) denomination, (3) fiscal year for which issued, (4) date of issuance, and (5) collection district where issued.

(b) Data with respect to taxpayment and receipt of the distilled spirits on which the drawback is claimed:

(1) If the distilled spirits were received in tank cars, a statement showing date of receipt, the name and address of the vendor, whether taxpayment was evidenced by a certificate of taxpayment, Form 1595, or a wholesale liquor dealer's stamp, the serial number of the certificate of taxpayment (Form 1595), or the wholesale liquor dealer's stamp, the date of issuance of the certificate or wholesale liquor dealer's stamp, and the name of the producer, kind, quantity, and proof of the spirits. (When a tank car or tank truck is emptied, the certificate of taxpayment, Form 1595, or the wholesale liquor dealer's stamp, as the case may be, affixed thereto shall be scalped by cutting out all of that portion of the certificate or stamp within the borders and the cut-out portion of the certificate or stamp shall be immediately forwarded to the district supervisor. If the tank car or tank truck is received without the certificate or stamp attached thereto, the vendee shall note such fact on the bill of lading, if any, or on Form 1440 or 1520, as the case may be, and immediately notify the district supervisor who will cause such inquiry to be made respecting the shipment and receipt of the conveyance as he may deem appropriate.)

(2) If the distilled spirits were received in containers, such as barrels, drums, cans, or cases, bearing taxpaid or wholesale liquor dealer's stamps, a statement showing the date of receipt, the name and address of the vendor, the serial number of the taxpaid or wholesale liquor dealer's stamp affixed to the container, the date of issuance appearing on the stamp, the serial number, if any, of the container, and the name of the producer, kind, quantity, and proof of the spirits. (When the package is emptied, the stamp shall be scalped and attached to the next claim filed for drawback on the spirits which were in such package. The scalped stamp will be retained by the district supervisor with the claims record of the claimant.)

(3) If the distilled spirits were received in bottles, a statement showing the date of receipt, the name and address of the vendor, the serial number of the strip stamp affixed over the mouth and neck of the bottle, and the name of the bottler, kind, quantity, and proof of the spirits.

(c) Data with respect to use of distilled spirits upon which drawback is claimed in the manufacture of non-beverage products:

(1) A statement showing the name, description, and formula number, if any, of each nonbeverage product in the manufacture of which distilled spirits were used, the alcoholic content by volume of each such product, the number of proof gallons and kind of distilled spirits used in manufacture thereof, and the quantity produced.

(2) [Reserved.]

(3) Manufacturers intending to file drawback claims covering distilled spirits used in the manufacture of nonbeverage products shall submit quantitative formulas covering all such preparations direct to the Deputy Commissioner, Alcohol and Tobacco Tax Division, Washington 25, D. C., on Form No. 1678, in triplicate; except that quantitative formulas need not be submitted if the products are medicinal preparations, tinctures, or fluid extracts produced under formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the American Institute of Homeopathy, and such products are identified in the supporting data by name and followed by the letters "U. S. P.," "N. F." or "A. I. H.," as the case may be. In the case of food products, such as preserved fruits, cakes, buns, soups, etc., it will be sufficient if the formulas therefor show the quantity of proof gallons of distilled spirits used in the production of a given quantity of finished product. A series of numbers will be given the formulas commencing with number 1 and continuing thereafter in numerical sequence. Amended or revised formulas will be considered as new formulas and serially numbered accordingly.

(4) Formulas for nonbeverage products shall be submitted to the Deputy Commissioner, Alcohol and Tobacco Tax Division, Washington 25, D. C., before or at the time of manufacture of the products. Upon receipt by the Deputy Commissioner, the formulas will be examined and if found to be medicines, medicinal preparations, food products, flavors, or flavoring extracts which are unfit for beverage purposes, they will be approved. If the formulas do not meet the requirements of the law for drawback products, they will be disapproved. No drawback will be allowed on distilled spirits used in a disapproved product, unless such product is later used in the manufacture of an approved nonbeverage product. One copy of each formula will be retained by the Deputy Commissioner, one copy returned to the manufacturer, and one copy will be sent to the district supervisor for filing. The formulas returned to manufacturers shall be filed in serial order by the manufacturer and made available for examination by internal revenue officers in the investigation of drawback claims. The copies sent to district supervisors shall likewise be filed in serial order, available for examination by drawback clerks and laboratory chemists.

• • • • • •

(53 Stat. 467; 26 U. S. C. 3791)

10. It is found that compliance with the notice and public rule-making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), is unnecessary in connection with the issuance of these amendments for the reason that the changes made are of a liberalizing character.

11. These regulations shall be effective upon publication in the FEDERAL REGISTER.

(53 Stat. 298 as amended, 300 as amended, 301, 303 as amended, 310, 316 as amended, 329, 330, 331, 332, 338, 385 as amended 357, 358, 360, 364, 373 as amended 373, 374, 375, 398, 399, 447 as amended 467 452; 26 U. S. C. 2800, 2801, 2802, 2803, 2813, 2825, 2852, 2866, 2871, 2873, 2878, 2883, 3101, 3105, 3122, 3114, 3124, 3170, 3171, 3172, 3175, 3176, 3300, 3301, 3303, 3304, 3656, 3791, 4017)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: July 16, 1952.

E. H. FOLLY,
Acting Secretary of the Treasury.

[F. R. Doc. 52-7944; Filed, July 18, 1952; 8:49 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order No. 11, Amdt. 1]

DMO 11—POLICY DIRECTIVE GOVERNING ISSUANCE OF TAX AMORTIZATION CERTIFICATES UNDER SECTION 124A OF THE INTERNAL REVENUE CODE, AND DEFINING EXTENT TO WHICH ACCELERATED AMORTIZATION CAN BE ALLOWED AS A COST IN NEGOTIATED CONTRACT PRICING

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in me by Executive Order No. 10161 as amended, and Executive Order No. 10193, it is hereby ordered as follows:

1. Paragraph 6 of DMO–11 dated August 14, 1951, is revised as follows:

6. For the purpose of cost computations in negotiated contract pricing, true depreciation, which includes any extraordinary obsolescense reasonably assignable to the emergency period, is allowable. Any accelerated amortization of depreciation which is in excess of true depreciation, regardless of whether such excess is included in tax amortization certificates, is not allowable as an element of cost in negotiated contract pricing.

2. Paragraph 7 of DMO–11 is rescinded; paragraph 8 of DMO–11 becomes paragraph 10.

3. The following paragraphs 7, 8, and 9 are added:

7. It is recognized that cost determination in negotiated contract pricing is a function of the procurement agency concerned. It is also recognized that the Defense Production Administration, in determining the amount or rate of amortization for tax certificate purposes, gives consideration to many factors including the probable economic usefulness of the facility after five years or the probable true depreciation of the facility during the 5-year emergency period. (See DPA Regulation 1 as amended February 14, 1952.) Procurement agencies desire the benefit of such considerations in connection with their negotiations in contract pricing; however, they may also need to consider changed conditions, or other relevant factors that may be subsequently disclosed.

8. With respect to facilities to be used in the performance of negotiated contracts, for which certificates are issued on or after the effective date of this order, the Defense Production Administration will for a specific facility or facilities, upon the request of the procurement agency concerned, make an estimate of true depreciation for the procurement agency. In such cases, the procurement agency concerned shall furnish the Defense Production Administration with such information as it has or is readily available to it which may be useful to the Defense Production Administration in making such estimates. Such estimate will be made at the same time as the processing of the certificate insofar as possible, but the issuance of the certificate and, consequently, the applicant's acquisition or construction of facilities will not be delayed awaiting such estimate.

9. With respect to such facilities for which certificates have heretofore been issued, procurement agencies concerned will, to the extent required for the purpose of cost computations in connection with the negotiation of contract prices, have responsibility for determining true depreciation. However, in special or unusual cases, the Defense Production Administration will, on request, furnish the procurement agency concerned with such information as it has or is readily available to it which would have been pertinent to such an estimate of true depreciation.

4. This amendatory order shall take effect on July 21, 1952.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

[F. R. Doc. 52-8013; Filed, July 18, 1952; 9:37 a. m.]

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 74, Amdt. 10]

CPR 74—CEILING PRICES OF PORK SOLD AT WHOLESALE

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 10 to Ceiling Price Regulation 74 is hereby issued.

STATEMENT OF CONSIDERATIONS

The accompanying amendment to Ceiling Price Regulation 74 makes several substantive changes.

1. This amendment modifies the limitations on the sales of prefabricated retail cuts of pork, permitting the seller of such cuts to sell them to any class of buyer if he is not prohibited from selling prefabricated retail pork cuts by section 14 (b) of the regulation. Thus, he is no longer limited to selling such cuts to certain types of buyers only. Consequently, he is relieved of the task of determining the individual buyers to whom the item was historically sold. The seller is also relieved of the provision that he must secure a written request from the buyer on such sales.

2. CPR 74 formerly permitted the sale of prefabricated retail cuts only by sellers who customarily sold such cuts prior to September 25, 1951. This amendment modifies this restriction by permitting a seller who meets the requirements set forth in section 5 to apply for permission to produce and sell prefabricated retail pork cuts.

3. This amendment also establishes the ceiling price for non-producing sellers of a dried (other than aged, dry cured) pork or specialty pork product, on which the producer's ceiling price has been established by letter order issued pursuant to section 5.

4. A number of changes have been made in section 40 to compensate for the general freight rate increases that have been approved by the Interstate Commerce Commission. These increases affect the freight rates of live hogs, fresh meat and packing house products.

The changes provided in this amendment increase the fixed differentials now in effect for Zones 2, 3, and 4, so that they will be equitable when compared with the automatic increases which have been permitted in Zones 5 and 6 under the provisions of CPR 74. As a result of these changes the ceiling price levels of pork at wholesale will be increased 10 cents per cwt. in Zones 2 and 3, and 15 cents per cwt. in Zone 4.

Also the fixed differential of 50 cents per cwt. heretofore provided for Zone 5 has been increased to 60 cents per cwt. This increase of 10 cents per cwt. will maintain the relationship which has existed between Zone 5 and Zone 2 under this regulation. No change has been made in the provision for Zone 1, which does not permit any zone differential to be added for the reasons set forth in the Statement of Considerations accompanying Ceiling Price Regulation 74, as originally issued. Also, no change is necessary in the differential for Zone 6 since this provides for automatic adjustment to reflect any changes in freight rates.

5. The production of hogs in certain portions of Florida is very low. Slaughterers located there have historically purchased live hogs from production areas which are located at great distances from their slaughtering establishments. Because this portion of Florida is a resort area, the consuming public demands a firm pork product which can only be obtained from hogs produced in grain feeding areas. Consequently, this portion of the State of Florida is provided with the local slaughter addition established for Region E to compensate for the additional costs borne by slaughterers in this area.

In formulating this amendment, the Director of Price Stabilization has consulted so far as practicable with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Titles I and IV of the Defense Production Act of 1950, as amended, are necessary and appropriate to promote the national defense, and comply with all the applicable standards of the Act.

All standards prescribed in this amendment were, prior to the issuance of Ceiling Price Regulation 74, in general use in the meat industry. Such standards as are prescribed are indispensable to price control of pork, since no practicable alternative to such standardization exists for securing effective price control of this commodity. It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 74, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 74 is amended in the following respects:

1. Section 5 is amended by deleting paragraphs (c) (1) and (2) and by substituting therefor a new paragraph, designated (c), to read as follows:

(c) *Prefabricated retail cuts.* If you are not prohibited by section 14 (b) of this regulation from selling prefabricated retail cuts, your ceiling prices for the sales of such cuts are your ceiling prices therefor established under the General Ceiling Price Regulation.

2. Section 5 is also amended by redesignating paragraph (d) as paragraph (e) and by adding a new paragraph, designated (d), to read as follows:

(d) (1) If you desire to produce and sell a prefabricated retail cut which you did not produce and sell prior to September 25, 1951, you must apply in writing to the Office of Price Stabilization, Food and Restaurant Division, Washington 25, D. C., for authority to produce and sell this cut. Your signed application must contain the following information:

(i) Your name and address;

(ii) Your proposed ceiling price for this cut under the General Ceiling Price Regulation;

(iii) Dates of purchase, amount of the investment in, and a description of, the facilities, equipment or supplies which were acquired for the specific purpose of producing and selling this cut;

(iv) A statement to the effect that the facilities, equipment or supplies cannot be utilized in any other manner than to produce and sell prefabricated retail cuts;

(v) Percent of your total volume of meat sales expected to be represented by the sale of this cut.

(2) The Director of Price Stabilization may authorize you to produce and sell such prefabricated retail cut and establish your ceiling price therefor under the General Ceiling Price Regulation provided the information you are required to furnish establishes:

(i) That you have made a substantial financial investment prior to September 25, 1951, which you cannot utilize except in the production and sale of prefabricated retail cuts;

(ii) That your production and sale of this cut will not divert an abnormal amount of pork from low to high cost items; and

(iii) That the approval of your application will be generally fair and equitable, will not adversely affect the price structure established by this regulation, and will not otherwise have an inflationary effect.

3. Section 5 is further amended by adding a new paragraph, designated (f), to read as follows:

(f) *Others.* (1) If you purchase a dried (other than aged, dry cured) pork or specialty pork product, on which the ceiling price of the producer of the item is established by letter order, issued pursuant to this section 5, your ceiling price for the sale of the item shall be the producer's ceiling price, plus any applicable additions provided for your sale of this product in Article IV.

4. Section 14 is amended by deleting paragraph (b) (1) and by substituting therefor a new paragraph, designated (b) (1), to read as follows:

(b) *Selling or buying other than defined cuts.* (1) Regardless of any contract, agreement, or other obligation, except for dried (other than aged, dry cured) pork, specialty pork products, and prefabricated retail cuts, the ceiling prices of which are established by section 5, you shall not sell or deliver, and you shall not, in the regular course of trade or business, buy or receive any pork unless such pork is defined in Appendix 2 of this regulation or unless such pork is sold to a defense procurement agency and meets the specifications of that agency. You may not produce and sell a dried (other than aged, dry cured) pork or a speciality pork product after May 17, 1952, unless you have, prior to May 18, 1952, filed the report required by section 5 (a). Moreover, if you produce a prefabricated retail pork cut you shall not sell such cut unless you have customarily sold it prior to September 25, 1951, or unless the Director of Price Stabilization has, by letter order pursuant to section 5 (d), authorized you to sell that cut.

5. Sections 40 (b) through 40 (e), inclusive, are amended to read as follows:

(b) *Zone 2.* The amount to be added as a zone differential where the distribution point is located in Zone 2 shall be 60 cents per cwt.

(c) *Zone 3.* The amount to be added as a zone differential where the distribution point is located in Zone 3 shall be 80 cents per cwt.

(d) *Zone 4.* The amount to be added as a zone differential where the distribution point is located in Zone 4 shall be $1.15 per cwt.

(e) *Zone 5*—(1) *Green wholesale pork cuts.* For green wholesale pork cuts the amount to be added as a zone differential where the distribution point is located in Zone 5 shall be determined by multiplying by 125 percent the lowest fresh meat carload freight rate from Chicago, Illinois, or East St. Louis, Illinois, to the distribution point, whichever is lower, adjusted to the nearest 10 cents per cwt. and by adding to that amount 60 cents per cwt.

(2) *Cured or processed wholesale pork cuts.* For cured or processed wholesale pork cuts, the amount to be added as a zone differential where the distribution point is located in Zone 5 shall be determined by multiplying by 125 percent the lowest classified carload freight rate for packing house products or semi-sterile canned meat products, whichever is applicable, from Chicago, Illinois, or East St. Louis, Illinois, to the distribution point, whichever is lower, adjusted to the nearest 10 cents per cwt. and by adding to that amount 60 cents per cwt.

(3) *Dressed hogs.* For dressed hogs, the amount to be added as a zone differential where the distribution point is located in Zone 5 shall be determined by multiplying by 115 percent the lowest dressed hog carload freight rate from Chicago, Illinois, or East St. Louis, Illinois, to the distribution point, whichever is lower, adjusted to the nearest 10 cents per cwt. and by adding to that amount 60 cents per cwt.

6. Appendix 1 (b) (5) is deleted and the following substituted therefor:

(5) *Region E* means the areas described as follows: The entire States of Washington, Oregon and California; and that portion of Florida east, southeast and south of, and including, the counties of Pinellas, Hillsborough, Polk, Osceola, Orange, Seminole, and Volusia.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 18, 1952.

NOTE: The record keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

CPR 17—GASOLINES, NAPHTHAS, FUEL OILS AND LIQUEFIED PETROLEUM GASES, NATURAL GAS, PETROLEUM GAS, CASINGHEAD GAS AND REFINING GAS

SR 10—SPECIFIC CEILING PRICES FOR MIDDLE DISTILLATES ON THE EAST COAST

CLARIFYING AMENDMENT

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Supplementary Regulation 10 to Ceiling Price Regulation 17 is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 10 to Ceiling Price Regulation 17, establishing specific ceiling prices for No. 2 heating oil at certain East Coast points, permitted 0.15 cents per gallon to be added to the specific ceilings on all sales other than to bulk plant operators. The intention was to allow addition of this 0.15 cents in those instances where the seaboard terminal or refinery makes any sales direct to consumers. This was plainly set forth in the Statement of Considerations as well as in section 1 of the supplementary regulation. However, because of certain language contained in section 2 (d) (2), some sellers have raised the question whether the 0.15 cents may be added on consumer tank-car sales as described above. To remove any doubt or possible ambiguity, this amendment rewords section 2 (d) (2) so as to make it clear that the 0.15 cents may be added on any sales to consumers, but that the 0.15 cents may not be added by refinery or terminal operators on sales to bulk plant operators, nor by bulk plant operators on sales to other bulk plant operators.

AMENDATORY PROVISIONS

Section 2 (d) (2) of Supplementary Regulation 10 to Ceiling Price Regulation 17 is amended to read as follows:

(2) To the ceiling prices set forth in sections 2 (a), (b) and (c), 0.15 cents per gallon may be added by operators of such terminals or refineries and by bulk plant operators receiving product from these terminals or refineries, when making sales of these products to other than bulk plant operators, including consumers. In no case may the price to the ultimate consumer be increased more than the amount of the adjustment provided for in the appropriate ceiling price set forth in paragraph (a) of this section, plus 0.15 cents per gallon.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective July 18, 1952.

[Ceiling Price Regulation 158]

CPR 158—Ceiling Prices for California Redwood Lumber

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 158 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes dollars and cents ceiling prices for manufacturers' sales of California Redwood lumber produced in any plant or mill located in California or Oregon.

Production of Redwood lumber is concentrated mostly in the northern part of California. The output of the industry for the year 1951 was estimated to be 1 billion board feet, valued at approximately 105 million dollars.

Redwood lumber is light, but strong, and is widely used in housing and industrial construction. It is in great demand for use as mud sills, siding, tank stock and for other purposes where high resistance to insect attack and to weather and other moisture conditions is important. It is sold throughout the United States and is a basic material of prime importance to both the civilian economy and the defense program.

The manufacturing of finished Redwood lumber requires a large investment in equipment and facilities because of the enormous size of the trees and the 18-month period usually required for drying the lumber before it is marketed. The industry is composed of a relatively small number of large integrated firms and numerous small companies. The integrated companies manufacture finished lumber partly from their own timber and partly from green lumber purchased from small mills. The small companies primarily produce rough green lumber.

The coverage of this regulation is limited in scope to manufacturers' sales of Redwood lumber produced in California and Oregon. Manufacturers of the lumber covered by the regulation customarily sell their lumber f. o. b., f. a. s., or on a delivered basis. Accordingly, although the basic ceiling prices set forth in the regulation are f. o. b. prices, provision is also made for f. a. s. and delivered sales.

Specific ceiling prices for almost all of the many basic items produced by the industry are listed in the ceiling price tables of this regulation. Following industry custom, footnotes are included, which provide methods for determining the ceiling prices of non-standard items. To insure uniform grade and measurement standards, the regulation adopts the grade and size standards and the pattern numbers set forth in grade and pattern books published by the California Redwood Association. The standards of that Association are generally accepted and used by the manufacturers in the production area covered by the regulation.

The provision in the regulation permitting an addition for commission-type sales is similar to provisions contained in several other lumber regulations already issued by OPS. However, some question has been raised as to the justification for this provision. OPS is giving the matter further study and will consult further with industry representatives regarding it. If any changes are found to be necessary they will be made simultaneously with respect to all lumber regulations.

Prices of certain items covered by the regulation rose in various degrees between June 1950, and January 1951, and these increases varied substantially among the different firms in the industry. A distorted price pattern resulted and it was this pattern that was frozen by the General Ceiling Price Regulation. The present Redwood regulation restores the industry's generally prevailing price pattern by establishing a schedule of dollars and cents ceiling prices that reflects the price differentials that customarily exist among the items covered. The general level of ceiling prices established by this regulation is approximately equal to the level that prevailed during the period of December 19, 1950, through January 24, 1951, the base period of the General Ceiling Price Regulation, and to the level that prevailed during the period from January 25 to February 24, 1951, inclusive.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

So far as practical in the formulation of this regulation, the Director of Price Stabilization has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950, to June 24, 1950, inclusive; to those prevailing during the period January 25 through February 24, 1951, as well as to the level of prices prevailing just before the issuance of this regulation; and to all relevant factors of general applicability.

In formulating this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included three meetings with the Industry Advisory Committee for Redwood lumber, and four conferences with representatives of that Committee.

Every effort has been made to conform this regulation to business practices existing with respect to the production, sale, and distribution of Redwood lumber covered in the regulation. Insofar as any provisions of this regulation may operate to compel changes in those business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

Authority: Sections 1 to 45 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

COVERAGE

Section 1. *What this regulation does.* This regulation establishes dollars and cents ceiling prices for manufacturers' sales of California Redwood lumber.

Sec. 2. *What regulation is superseded.* This regulation supersedes the General Ceiling Price Regulation insofar as it pertains to the transactions covered by this regulation.

Sec. 3. *What products are covered.* This regulation covers California Redwood (Sequoia Sempervirens) lumber, including lath and battens, produced in a plant or mill located in California or Oregon.

Sec. 4. *What transactions are covered.* This regulation applies to all manufacturers' sales of lumber covered by this regulation. It thus applies when a manufacturer sells his lumber to a wholesaler, retailer, industrial user, or to any other reseller or consumer, whether or not the sale is made directly or through a lumber commission man. (Section 19 of this regulation provides an addition to cover the services of a lumber commission man. Supplementary Regulation 87 to the General Ceiling Price Regulation establishes a formula for determining wholesalers' and other resellers' markups which may be added to manufacturers' selling prices.)

Sec. 5. *Geographical applicability.* Every manufacturer's sale for delivery (f. o. b., f. a. s., or on a delivered basis) in the 48 States of the United States or in the District of Columbia, is subject to this regulation, whether or not the sale of the lumber is made in the United States.

BASIC CEILING PRICES, ADDITIONS, COMMISSION-TYPE SALES, AND PRICING RULES

Sec. 10. *General explanation of ceiling prices.* The basic ceiling prices established by this regulation are f. o. b. ceiling prices. They apply to sales made: f. o. b. car at mill, f. o. b. car at mill's customary rail shipping point in the case of an off-rail mill, f. o. b. truck at mill, or f. o. b. scow or barge alongside a mill dock. These basic f. o. b. ceiling prices are set forth in section 45.

Sections 11 through 19 explain how the the basic f. o. b. ceiling prices are modified under certain circumstances, as, for example, when you sell your lumber on a delivered basis, when you make a mixed car or mixed truck shipment, or when you sell your lumber through a lumber commission man.

Sec. 11. *Delivered sales, general.* This regulation permits you to sell your lumber on a delivered basis, as well as on an f. o. b. basis. On sales on a delivered basis, you may add to the f. o. b. ceiling price an appropriate transportation addition, as explained in sections 12, 13 and 14.

A sale "ceiling delivered" or "f. o. b. mill with freight paid, allowed, or included, to a given destination" will be considered, for the purpose of this regulation, a sale on a delivered basis.

Sec. 12. *Delivered sales; shipment by common or contract carrier.* When you sell on a delivered basis and you ship your lumber by common or contract carrier, the delivered ceiling prices are the f. o. b. ceiling prices set forth in section 45 plus an addition for transportation. The transportation addition is computed by multiplying the appropriate established weight shown in section 45 by the applicable common or contract carrier freight rate in effect at the time of shipment. Where trucking to a yard or job site after a rail haul is required, the transportation addition may also include the actual charge for making the truck delivery as well as the actual charge for transferring the lumber from rail car to truck. However, where a part of the transportation to the buyer is by means of water shipment, no addition to the f. o. b. prices may be made for transportation that occurs before the lumber is placed aboard a vessel except as specifically authorized elsewhere in this regulation. You should note that when you sell on a delivered basis, the delivered price need not thereafter be revised or adjusted even if the amount actually charged by the carrier for carrying your lumber is different from the addition for transportation included in your delivered price.

Note: The provisions of this section do not apply to retail-type sales of the kind described in section 18.

Sec. 13. *Delivered sales; shipment by private truck.* (a) When you sell on a delivered basis, shipping your lumber in a truck which you own or hire, the delivered ceiling prices are the f. o. b. ceiling prices set forth in section 45, plus an addition determined as follows:

(1) For distances of 10 miles or less, not more than $3.00 per M'BM.

(2) For a distance greater than 10 miles and as far as 20 miles, not more than $4.00 per M'BM.

(3) For a distance greater than 20 miles and as far as 30 miles, not more than $5.00 per M'BM.

(4) When the distance is greater than 30 miles, as much as an addition computed in the manner set forth in section 12, using applicable common or contract carrier truck rates.

(b) *"Distance" defined.* As used in this section, the term "distance" refers to the actual mileage from your mill or plant to the point of destination as measured by truck speedometer. It does not include the return mileage from the point of destination to your mill or plant. The term "point of destination" includes a yard or job site.

Note: The provisions of this section do not apply to retail-type sales of the kind described in section 18.

Sec. 14. *Delivered sales; Eureka basing point rate.* Notwithstanding the provisions of sections 12 and 13, when you sell on a delivered basis, shipping your lumber by common or contract carrier or by private truck, and the shipment originates at a mill or plant in California located outside the boundaries of the counties of Humboldt, Mendocina, Del Norte, and Sonoma, you may compute an addition for transportation, which may be added to the f. o. b. ceiling prices set forth in section 45, by multiplying the appropriate established weight by the applicable rail freight rate in effect at time of shipment from Eureka, California, to the point of final destination.

Note: The provisions of this section do not apply to retail-type sales of the kind described in section 18.

Sec. 15. *F. A. S. water shipments.* (a) *Ceiling prices.* If you sell lumber f. a. s. for water shipment, your basic ceiling prices are the same as the f. o. b. ceiling prices set forth in section 45, to which you may add the appropriate service charges provided in paragraph (b) of this section.

(b) *Service charges.* On sales made f. a. s. for water shipment, you may make the following service charges:

(1) If you own or lease deep water dock facilities which are used in loading your lumber aboard a vessel, you may add as much as $3.50 per M'BM to the f. a. s. ceiling prices.

(2) If you are required by circumstances beyond your control to transfer your lumber from a deep water dock, upon which it has been placed preparatory to loading aboard a vessel, to another loading point, you may add to the f. a. s. ceiling price the actual cost of making the transfer.

Sec. 16. *Mixed car or mixed truck shipments.*—(a) *Addition to f. o. b. ceiling prices.* When you make a mixed car or mixed truck shipment as defined in paragraph (b) of this section, the otherwise applicable ceiling prices are increased $3.50 per M'BM.

(b) *Meaning of terms.*—(1) *Mixed car shipment.* A mixed car shipment consists of four or more of the items shown in subparagraph (3) of this paragraph, each of which contains at least one thousand board feet of lumber.

(2) *Mixed truck shipment.* A mixed truck shipment consists of four or more of the items shown in subparagraph (3) of this paragraph, each of which contains at least 250 board feet of lumber. You will note that you may make no addition to the f. o. b. ceiling prices set forth in section 45, if you make a mixed cargo shipment by boat. However, in the latter case, you may apply in the manner provided in section 30 for a special ceiling price if you believe that circumstances warrant the authorization of an increased ceiling price.

(3) *Item.* Each of the following-numbered groups of lumber products constitutes a separate item for the purposes of a mixed car or a mixed truck shipment under this section. In this connection there is no requirement that all the lumber products listed within a numbered group be involved in a particular shipment:

(i) Common boards and strips (any working not listed below) Dimension, Plank, and Small Timbers.

(ii) Surfaced Finish, Surfaced Thick Clears, and Surfaced Shop.

(iii) Rough Finish, Rough Thick Clears, and Rough Shop.

(iv) Casing, Base, Mouldings.

(v) Resawn Sidings.

(vi) Lumber run to pattern, including ceiling, partition, flooring, etc.

(vii) All other items.

Sec. 17. *Stop-over car loadings; addition to f. o. b. ceiling prices.* If you do not charge for making a mixed car or mixed truck shipment (see section 16),

you may add as much as $2.00 per M'BM to the f. o. b. ceiling prices set forth in section 45 whenever you load lumber on a railroad car partially loaded with another seller's lumber which has been stopped in transit to enable you to load your lumber.

SEC. 18. *Retail-type sales*—(a) *Increased ceiling prices.* Your ceiling prices on retail-type sales as defined in paragraph (b) are determined by adding $9.00 per M'BM to the f. o. b. ceiling prices set forth in section 45. If you determine your ceiling price for a retail-type sale under this section, you may not make any of the additions provided in sections 11 through 17.

(b) *Definitions and limitations.* As used in this section, a retail-type sale is a sale of less than 20,000 F BM delivered by truck to a buyer who is a contractor or ultimate consumer and who will use the lumber for construction or maintenance; it is not a sale to a commercial or industrial user for use in manufacturing; nor is it a sale to a buyer who purchases the lumber for resale. The total quantity of lumber involved in a single transaction or sale, between you and a retail buyer, without regard to the quantities involved in single deliveries pursuant to such transaction or sale, shall determine whether or not a sale qualifies as a retail sale within the meaning of this section.

If you determine your ceiling price for a retail-type sale as allowed in paragraph (a), you must:

(1) Deliver the lumber to a job site at such time and in such manner as the buyer specifies; and

(2) Give the buyer the privilege of exchanging and returning unused lumber; and

(3) Rectify promptly any short deliveries from stocks you keep on hand for this purpose.

SEC. 19. *Commission-type sale.* When a sale of your lumber is brought about by the efforts of a lumber commission man, your ceiling price is the otherwise applicable ceiling price on the lumber sold plus 3% of the f. o. b. ceiling price. However, the amount which you may charge the buyer pursuant to this section that is over and above the otherwise applicable ceiling price, may not exceed the actual commission which you pay the lumber commission man. The term "lumber commission man" is defined in section 40.

SEC. 20. *Pricing rules.* You must apply the following rules in determining ceiling prices under this regulation:

(a) When an order does not specify a particular grade of lumber, you may not ship, or charge for, lumber graded higher than construction heart, and your charge shall be only for the grade or grades actually shipped.

(b) When a shipment is made which contains a greater percentage of short lengths than that permitted by this regulation for random lengths, you must price the excess short lengths separately at no more than their appropriate ceiling prices in order to sell the balance as random lengths.

(c) In all random length shipments, you may not charge more than the appropriate ceiling prices for the average length shipped.

SEC. 21. *Discount for cash.* If the buyer pays cash, your ceiling prices determined under other provisions of this regulation are reduced by the amount of the discount which, during the period from January 25, 1951, through February 24, 1951, you allowed a purchaser of the same class for the payment of cash within the same period of time. If you were not in business between January 25 and February 24, 1951, your ceiling prices determined under other provisions of this regulation are reduced by 2 percent for cash payment within 10 days from date of invoice or date of bill of lading, whichever is later.

MISCELLANEOUS PROVISIONS

SEC. 30. *Ceiling prices for special transactions.* (a) *Application.* If you cannot ascertain a ceiling price for lumber or a differential pertaining to lumber subject to this regulation under any other provision of this regulation, as, for example, should you wish to sell lumber with special workings, specifications, services, or other extras not specifically mentioned in this regulation, you must file an application with the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for approval of a special ceiling price. Your signed application must be made by registered letter, return receipt requested, and must set forth the relevant facts, including the following:

(1) As complete a description as possible of the lumber for which the application is filed. This should include the species, grade, condition, measurements, and quantity of the lumber, together with a detailed description of the workings, specifications, services, or other extras involved.

(2) Your proposed ceiling price, together with a statement indicating why you believe it is in line with the level of ceiling prices established under this regulation.

(3) Your ceiling prices to your largest buying class of purchaser, under the General Ceiling Price Regulation, both for the item in your application and for the most comparable item for which a specific ceiling price is established in this regulation.

(4) The proposed use to which the buyer will put the lumber for which you are proposing a special ceiling price.

(b) *Quotation of proposed prices.* After an application has been filed under this section, and before action by the Director of Price Stabilization, you may sell your lumber at a price not higher than the ceiling price proposed in your application: *Provided,* That you agree to, and later, refund to the buyer the amount, if any, by which your price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 20 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to nonretroactive disapproval or modification at a later time.

Approval of applications by the Director under this section is subject to a satisfactory showing that proposed ceiling prices are in line with the level of ceiling prices otherwise established by this regulation.

SEC. 31. *Modification of proposed ceiling prices by Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices established under section 30 of this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 32. *Exports.* The ceiling prices for export sales and sales for export of lumber covered by this regulation are controlled by Ceiling Price Regulation 61 issued by the Office of Price Stabilization.

SEC. 33. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1.

SEC. 34. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell lumber subject to this regulation at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 35. *Records*—(a) *Current records.* On and after the effective date of this regulation, every person who sells and every person who in the regular course of business buys products covered by this regulation, shall make and keep for inspection by the Director of Price Stabilization, for a period of two years, accurate records or invoices of each sale or purchase made in any month in which the seller sold, or the buyer bought, 20,000 board feet or more of lumber subject to this regulation. The records must show:

(1) The dates of sales or purchases;

(2) The names and addresses of the sellers and buyers;

(3) The kind of sales involved, i. e., delivered, f. o. b., f. a. s.;

(4) A description (i. e., the grade, condition, dressing, quantity, etc.) of the lumber sold or bought;

(5) The prices charged or paid, including all additions, extras, and discounts;

(6) The point of origin and point of destination of the shipment, the means of transportation used, the amount of any additions for transportation, and the basing point, if any, upon which the transportation addition may have been computed.

The retention by a buyer of an invoice furnished by a seller, or the retention by a seller of an invoice or settlement sheet furnished by a buyer, which includes the factual information required to be made a matter of record by this paragraph, shall be considered as compliance with the provisions of this paragraph.

(b) *Existing records.* You shall also continue to preserve, for the applicable periods indicated in section 16 of the General Ceiling Price Regulation, all records which you made and kept under the provisions of section 16 of the General Ceiling Price Regulation.

SEC. 36. *Invoices.* (a) On all sales of lumber covered by this regulation, you must submit an invoice to the buyer which includes a description of the lumber. Any working, specification, extras, or services which bear upon the price charged for your lumber must be separately set forth on the invoice, but the invoice need not separately show the charge of such items.

(b) For sales made on an f. o. b. or f. a. s. basis, in addition to the information required by paragraph (a), your invoice must show the f. o. b. or f. a. s. price.

(c) For sales made on a delivered basis, in addition to the information required by paragraph (a), your invoice must show:

(1) The delivered price;

(2) The destination of the shipment; and

(3) The applicable rail, truck, or water carrier freight rate.

SEC. 37. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local OPS District Office. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1.

SEC. 38. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make, and preserve true and accurate records and reports required by this regulation.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and actions for damages. Prices lower than the ceiling prices may be charged, paid, or offered.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligations to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 39. *Evasions.* Any means or device which results in obtaining indirectly a higher price than is permitted by this regulation or in concealing or falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. The prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 40. *Definitions.* (a) This regulation and the terms which appear in it shall be construed in the following manner:

(1) *Air-seasoned commons.* This term means common grades of California Redwood lumber dried to the point where weight does not exceed 75 percent of the appropriate established green weight set forth in this regulation.

(2) *Director of Price Stabilization.* This term extends to any official (including officials of Regional or District offices) to whom the Director of Price Stabilization, by order, delegates a function, power, or authority, referred to in this regulation.

(3) *Dry lumber.* This term means California Redwood lumber of any grade which, when shipped, does not exceed by more than five percent the appropriate established weight for dry lumber set forth in this regulation.

(4) *Green lumber.* This term means California Redwood lumber, of any grade which, when shipped, is not "dry" or "partially dry" lumber, and for which appropriate established weights are set forth in the regulation.

(5) *Lumber commission man.* This term means a person who customarily initiates the sale of, and sells lumber in carload quantities for two or more manufacturers, who receives his compensation from the manufacturer in the form of a commission based on the amount of lumber sold, and who operates independently of both buyer and seller.

(6) *Manufacturer.* This term means any person who produces or concentrates lumber subject to this regulation. The verb "manufacture" shall be construed accordingly. A lumber concentrator receives rough green lumber from small producers, and prepares it for commercial shipment.

(7) *Person.* This term includes any individual, corporation, partnership, association, or any other organized group of persons, or the legal successor or representative of the foregoing, and the United States and any other Government or their political subdivisions or agencies.

(8) *Partially dry lumber.* This term means California Redwood lumber, of any grade, dried to the point where weight does not exceed 75 percent of the appropriate established green weight set forth in this regulation.

(9) *Purchaser of the same class.* The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not, be based on the characteristics or distributive level of the buyer; for instance, manufacturer, wholesaler, individual retail store, retail chain, government agency, or public institution. It may, but need not, be based on the location of the purchaser or the quantity or kinds of lumber purchased by him. It may, but need not, be based on differing terms or conditions of sale or delivery. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

(10) *Records.* This term includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(11) *Retail-type sale.* This term is defined in Section 18.

(12) *Sell.* This term includes sell, supply, dispose, barter, trade, exchange, lease, transfer, deliver, and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed accordingly.

(13) *You.* The pronoun "you" indicates any person who manufactures lumber subject to this regulation. The terms "your" and "yours" shall be construed accordingly.

CEILING PRICE TABLES

SEC. 45. *F. O. B. ceiling prices*—(a) *Nomenclature.* All grade terms, size terms, and pattern numbers appearing in this section refer to, and have the meanings given in, either "Standard Specifications for Grades of California Redwood Lumber" published by the California Redwood Association, effective August 1, 1951; or "Standard Patterns of Worked Redwood Lumber, Pattern Book 738", published by the California Redwood Association, issued May, 1933 and Revised May, 1941; or "Standard Patterns of Worked Redwood Lumber, Pattern Book 948", published and adopted by the California Redwood Association on September 21, 1945.

(b) *Ceiling prices and established weights.* The following are the f. o. b. ceiling prices per one thousand feet board measure, or other measure where indicated, and the established weights per thousand feet board measure or other measure where indicated, for the sale of lumber covered by this regulation:

TABLE 1—ROUGH GREEN 2" AND THINNER

[Ceiling prices shown are per M feet b. m.]

TABLE 3—ROUGH GREEN, WIDE STOCK

[Ceiling prices shown are per M feet b. m.]

Size	Lengths	Add for Dry	Clear All Heart	"A"
1 x 14"	6/20' R/L	$30	$205	$190
1 x 16"	6/20' R/L	30	210	195
1 x 18"	6/20' R/L	30	215	200
1 x 20"	6/20' R/L	30	220	205
1 x 22 and 24"	6/20' R/L	30	225	210
Established weights in pounds:				
Green Rough			4,500	4,500
Green Surfaced			3,500	3,500
Dry Rough			2,400	2,400
Dry Surfaced			1,900	1,900
5/4 and 6/4 x 14"	6/20' R/L	$35	$230	$215
5/4 and 6/4 x 16"	6/20' R/L	35	235	220
5/4 and 6/4 x 18"	6/20' R/L	35	240	225
5/4 and 6/4 x 20"	6/20' R/L	35	245	230
5/4 and 6/4 x 22 and 24".	6/20' R/L	35	250	235
Established weights in pounds:				
Green Rough			4,500	4,500
Green Surfaced			3,700	3,700
Dry Rough			2,500	2,500
Dry Surfaced			2,100	2,100
2 x 14"	6/20' R/L	$40	$195	$180
2 x 16"	6/20' R/L	40	200	185
2 x 18"	6/20' R/L	40	205	190
2 x 20"	6/20' R/L	40	210	195
2 x 22 and 24"	6/20' R/L	40	215	200
Established weights in pounds:				
Green Rough			4,500	4,500
Green Surfaced			3,900	3,900
Dry Rough			2,500	2,500
Dry Surfaced			2,300	2,300

NOTE: For thicker than 2", add $20.00 per M to 2" ceiling price; and use 2" established weights. (This addition is applicable only to ceiling prices shown above in Table 3.)

NOTES (Applicable to Tables 1, 2 and 3 above)

The additions shown below may be made, and the subtraction shown below must be made, to the basic ceiling prices:

1. *Lengths and Widths.*

Standard random lengths are:
Rough lumber 6/20'.
Surfaced lumber 6/20'.
Pattern items 3/20'.

For lengths shorter than 10', deduct $6.00 per M.
To eliminate 6' and shorter, add $5.00 per M.
To eliminate 8' and shorter, add $10.00 per M.
For specified or restricted R/L 10 through 20', add $10.00 per M.
For restricted R/L, 6 through 14', use R/L price.
For 3 through 20' R/L in worked lumber, except resawn sidings and pattern items, deduct $1.00 per M.
For specified lengths 22 and 24', add $15.00 per M.
For specified lengths 26 and 28', add $25.00 per M.
For specified lengths 30 and 32', add $35.00 per M.
For specified lengths 34 through 40', add $45.00 per M.
When specified average lengths are stipulated exceeding 14' average, add $5.00 per M on commons and $7.50 per M on uppers.
When specified average widths are stipulated exceeding 7" average width, add $5.00 on commons and $7.50 on uppers.

2. *Surfacing and Standard Patterns.*

(a) Upper Grades:
For S1S, S2S, S2S1E, S4S, and running to standard pattern (not including resawn sidings):
(1) 2" and thinner x 2", add $15.00 per M.
2" and thinner x 3 and 4", add $12.00 per M.
2" and thinner x 6 through 12", add $10.00 per M.
(2) 3" and thicker, add $12.00 per M on all widths through 12".
(3) Widths 14 through 24", all thicknesses, add $15.00 per M.
(b) Common Grades:
For S1S, S2S, S2S1E, S4S, add $5.00 per M.
For Standard Patterns, add $7.00 per M.
(c) All Grades:
For surfacing standard rough sizes to finished sizes greater than standard add $1.00 per M to the surfaced standard size price for each additional 1/16" or fraction in thickness and $1.00 for each additional 1/4" or fraction in width.
For working non-standard patterns add $2.00 per M to standard pattern charge.

3. *Non-Standard Widths and Thicknesses.*

For odd widths not listed compute footage on basis next greater standard width and add $8.00 per M. For odd thicknesses not listed compute footage on basis next greater standard thickness and add $8.00 per M.
For fractional widths not listed, compute footage on basis next greater standard width and add $11.00 per M. For fractional thicknesses not listed, compute footage on basis next greater standard thickness and add $11.00 per M.

4. *Working (when not otherwise provided).*

(a) Grooving for spline, or shiplap, or T & G, add $12.50 per M.
(b) Resaw, add $15.00 per M.
(c) Straight rip: 4" and narrower, add $6.00 per M; 5" and wider, add $4.00 per M.
(d) Bevel Sill, add $12.00 per M to rough prices, size and grade specified.
(e) Cross-cutting to nominal length: 6" and under cross section, add $10.00 per M; over 6", add $5.00 per M.
(f) Square butting to exact lengths: 6" and under cross section, add $20.00 per M; over 6", add $10.00 per M.

5. *Selection of Grain and Texture.*

For Expansion Joint, add $10.00 per M.
For Pattern Lumber, add $10.00 per M.

6. *Additional Grades not on Tables.*

Select All Heart Structural, add $20.00 to Select Heart.
Dense Select Structural, price same as Clear All Heart.
Foundation, add $10.00 to Select Heart.
Irrigation Heart, add $10.00 to Select Heart.
Bench Grade, add $10.00 to No. 3 Common.
Industrial Clear, price same as Clear All Heart.
Tank Stock, price same as Clear All Heart.
No. 4, all widths and thicknesses, flat price of $30.00 per M.
For 5/4 and 6/4" Commons not priced use 1" prices.

7. *Seasoning.*

For air-seasoned common lumber, and partially dry uppers, add $15.00 per M to the rough green ceiling price, for the appropriate grade.
(To determine delivered ceiling prices, use 75 percent of the established green weight.)

TABLE 4—THIN FINISH, S2S DRY

[Ceiling prices shown are per M feet SM]

Size	A & Btr. 5/16"	A & Btr. 9/16"
3 & 4" x R/L	$124	$142.75
6" x R/L	140	152.00
8" x R/L	154	167.75
10" x R/L	162	180.50
12" x R/L	172	190.25
Random 3" through 12" x R/L	144	171.75
Weights	1,100	1,400

NOTES (Applicable only to Table 4)

For rough 3 and 4", deduct $12.00 per M from above.
For rough 6 through 12", deduct $10.00 per M from above.
For straight A, deduct $7.50 per M feet S. M.
For straight Clear, add $7.50 per M feet S. M.
For Utility, deduct $22.50 from A & Btr.

TABLE 5.—RESAWN SIDING, BEVEL AND BUNGALOW STANDARD PATTERNS, DRY

[Ceiling prices shown are per M feet S. M.]

Size	VG Clear	FG Clear	VG "A"	FG "A"
5/8 x 4" 3/20' R/L	$100	$85	$95	$80
5/8 x 6" 3/20' R/L	125	115	120	110
5/8 x 8" 3/20' R/L	138	130	134	126
5/8 x 10" 3/20' R/L	148	140	144	136

3/4 x 8" 3/20' R/L	193	180	188	175
3/4 x 10" 3/20' R/L	207	195	202	190
3/4 x 12" 3/20' R/L	212	198	207	192
Established weights in pounds:				
5/8" Patterns 320, 322, 323				700
5/8" Patterns 400, 362, 363				850
5/8"				850
3/4				1,000

NOTES: (Applicable only to Table 5)

For 4 through 20' random lengths add $1.00.
For 4 through 20' random lengths add $2.00.
For 8 through 7' random lengths deduct $10.00.
For 8 through 9' random lengths deduct $5.00.

TABLE 6—SHOP LUMBER, ROUGH DRY

[Ceiling prices shown are per M feet b. m.]

Size	Deduct for Green	No. 1 Shop
1 x 4" through 12"	$25	$107
5/4 x 4" through 12"	25	132
6/4 x 4" through 12"	25	132
2 x 4" through 12"	20	115
3" and thicker x 4 through 12"	45	130

ESTABLISHED WEIGHTS IN POUNDS

	Green Rough	Green Surfaced	Dry Rough	Dry Surfaced
1 x 4" through 12"	4,000	3,000	2,400	1,800
5/4 and 6/4 x 4" through 12"	4,000	3,200	2,500	2,000
2 x 4" through 12"	4,000	3,200	2,400	2,000
3 x 4" through 12"	4,000	3,200	2,800	2,200

NOTES (Applicable only to Table 6)

For Heart Shop, add $10.00 per M to No. 1 Shop price on size specified.
For specified or restricted widths, add $5.00 per M.
For surfacing, add $5.00 per M.
For running to pattern, add $10.00 per M.
For vertical grain, add $10.00.
For Thin Shop, use 75 percent of price and weight of 1" Shop.

TABLE 7—REDWOOD SAWN TIES

[Ceiling prices shown are per M feet b. m.]

Add $12.00 per M feet b. m. to rough prices on size and grade specified. Weight 3,000 pounds.

Gutter.
Add $30.00 per M feet b. m. to rough prices on size and grade specified. Weight 2,000 pounds.

GENERAL NOTES—Additions applicable to all basic ceiling prices:

1. For stencilling or hammer marking, when ordered, add $3.00 per M.
2. Cleating ends, when ordered, add $5.00 per M.
3. Bundling, with other than metal, when ordered and not standard, add $5.00 per M.
4. Crating four sides and metal strapped, when ordered, add $30.00 per M.
5. Marking with one paint splash on end, when ordered, add $2.00 per M per end.
6. Wire or metal strapping, when ordered, add $8.00 per M.
7. Stakes and straps in loading open cars add $10.00 per C/L.
8. Bulkheading box cars add $15.00 per C/L.

Effective date. This Ceiling Price Regulation 158 is effective July 23, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 18, 1952.

[F. R. Doc. 52-8026; Filed, July 18, 1952; 10:52 a. m.]

[Ceiling Price Regulation 101, Amdt. 7]

CPR 101—CEILING PRICES OF VEAL SOLD AT WHOLESALE

ADJUSTMENT OF CEILING PRICES OF "VEAL" HINDSADDLES AND FORESADDLES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Economic Stabilization Agency General Order 2, Delegation of Authority by the Secretary of Agriculture to the Economic Stabilization Agency with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 7 to Ceiling Price Regulation 101 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes the following changes in CPR 101:

1. An adjustment has been provided which will have the effect of widening the spread now existing between the ceiling prices of "veal" hindsaddles and foresaddles. This modification is specifically limited to meat officially graded as "veal" and does not apply to meat graded "calf." Moreover, the adjustment applies only to veal of prime, choice, and good grades. The purpose of this change is to provide an interim modification of existing ceiling prices, pending a major revision of

this regulation which is now contemplated.

When CPR 101 was first issued, it was recognized that while both "veal" and "calf" are obtained from immature animals of the bovine species, there are appreciable differences between these two types of meat, both with respect to the weight and muscular structure of the animals from which they are obtained and the coloring and texture of the meat itself. The customary manner of cutting "veal" has differed in some respects from "calf" cutting practices. In addition, and even more important, there has normally been a variation between the price relationships of "veal" cuts and "calf" cuts.

The spread between the prices of hindsaddles and foresaddles of "veal" has customarily been greater than that heretofore provided by CPR 101, while in the case of "calf" the spread has in many instances been narrower. At the time of issuance of CPR 101 these relationships were fully recognized, but, in order to simplify the administration of the regulation, a compromise formula was adopted with the concurrence of the industry advisory committee. It was hoped that this pricing technique would satisfy the requirements of sellers of both types of meat derived from immature bovine animals. During the operation of CPR 101, the Office of Price Stabilization kept a close check on the impact of this pricing technique on sales of "veal" and "calf". As a result of data collected by the Office of Price Stabilization and based upon more recent renewed consultations with the affected industry, it appears that it will be necessary to revise this regulation so as to recognize more fully the variations between these two types of meat.

Such a revision, of course, requires careful study and collection of numerous data to provide the economic basis for new price schedules. This work is now being undertaken by the Office of Price Stabilization. Pending completion of this work this amendment provides an interim measure of adjustment which, particularly in the light of current price relationships, should be amply sufficient to correct the difficulties referred to above at least for the immediate future.

Identical adjustments are provided by this amendment for both primal and fabricated cuts derived from "veal" fores, and for primal and fabricated cuts derived from "veal" hinds. In the case of fabricated cuts, this should provide a sufficiently balanced overall adjustment for the time being. In determining the amount of this adjustment, the assumption has been made that in breaking veal carcasses the trade will generally use the 2-rib hindsaddle which is authorized by this amendment.

Sellers who customarily handle "calf" rather than "veal" have indicated that the ceiling price relationships between "calf" cuts, now contained in CPR 101, are not substantially out of line with historical relationships. It is therefore unnecessary to take any action on these price relationships in this interim amendment.

The amount of the adjustments for "veal" provided by this amendment were calculated as shown in the example below for prime and choice grades. The yields used in these tests were obtained from data submitted by the industry as well as from tests supervised by OPS personnel:

Item	New ceiling prices			Old ceiling prices		
	Yield	Price	Realization	Yield	Price	Realization
	Pct.			Pct.		
Carcass	100.00	$55.50	$55.50	100.00	$55.50	$55.50
Hindsaddle	51.50	68.00	35.02	58.25	64.40	31.72
Foresaddle	48.50	42.30	20.52	50.75	46.00	23.80
Total			55.54			55.52

The amounts of the adjustments were obtained by taking the difference between the new and the old ceiling prices for hindsaddles and foresaddles as follows:

New hindsaddle ceiling price	$68.00
Old hindsaddle ceiling price	64.40
Adjustment	3.60
Old foresaddle ceiling price	46.90
New foresaddle ceiling price	42.30
Adjustment	4.60

2. A related problem, originating from the same basic differences between meat of the "veal" type and meat of the "calf" type, has been recognized with respect to the permissible method of cutting hindsaddles from carcasses which are graded "veal". Because of the differences above referred to between the two types of animals, their weight and body structure, historical differences have existed between the methods of preparing a hindsaddle from each type of animal. Normally, "veal" was cut so that two rib bones were left on the hindsaddle, whereas "calf" was cut with only a single rib bone remaining on the hindsaddle. When CPR 101 was issued, a 1-rib hindsaddle was decided upon, after consultation with the industry, as an acceptable compromise.

However, as a corollary to the recognition of the greater historical spread between "veal" fores and hinds, this interim amendment permits an optional method of breaking the carcass, by permitting sellers to prepare either a one-rib or two-rib hindsaddle of "veal". Permission for this optional method of cutting is provided by an exception to the prohibition against miscuts. In conformance with this optional 2-rib "veal" hindquarter, allowance has also been made for preparation of other related cuts derived from the "veal" carcass.

3. A clarifying change has been made in section 7 of this regulation, which deals with the election of a seller's addition between various classes of sellers. Specifically, the packer branch house addition has been eliminated from the list of those various additions among which any given seller must make a permanent choice. This is because it was the intent of this regulation to permit packer branch houses to take the unaffiliated wholesaler's addition on those items which they obtained from a source not affiliated with them, without at the same time preventing these branch houses from charging the packer branch house addition on meat obtained from their affiliates. By requiring an election, the language of section 7 heretofore was contrary to this contemplated result. The change made by this amendment will permit packer branch houses to operate as originally envisaged. At the same time, a further change makes it clear that a packer branch house may not pyramid the unaffiliated wholesaler or other special seller's addition on top of the packer branch house addition, but in any specific instance may only apply the specific addition for which the sale qualifies.

In formulating this amendment, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, as far as practicable and has given full consideration to their recommendations. In the judgment of the Director of Price Stabilization, the ceiling prices established by this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title I and Title IV of the Defense Production Act of 1950 as amended, and comply with all the applicable standards of that act and are necessary and appropriate to promote the national defense.

All standards prescribed in this amendment were, prior to the issuance of Ceiling Price Regulation 101, in general use in the meat industry. Such standards as are prescribed are indispensable to price control of veal, since no practicable alternative to such standardization exists for securing effective price control of this commodity. It is not believed that this amendment will cause any substantial changes in business practices, cost practices or methods, or means or aids to distribution; however, to the extent that such changes may be compelled, they are necessary to prevent circumvention or evasion of Ceiling Price Regulation 101, as amended.

AMENDATORY PROVISIONS

Ceiling Price Regulation 101 is amended in the following respects:

1. Section 13(c) is redesignated section 13 (c) (1) and a new section 13 (c) (2) is added to read as follows:

(2) *Optional cutting of 2-rib hindsaddles from "veal" (not "calf") carcasses.* Notwithstanding the definitions of veal carcasses and cuts in Appendices 2 through 4 of this regulation, any veal carcass graded as "veal" by an official grader of the United States Department of Agriculture and marked "veal" (not "calf") by such grader in such manner that the word "veal" appears at least once on each of the cuts listed in section 20, Schedule I(b), of this regulation, may be so cut as to leave 2 ribs in the hindsaddle or hindquarter and 11 ribs in the foresaddle or forequarter.

Accordingly, the following cuts shall not be considered miscuts under the provisions of this regulation if they have been derived from carcasses graded and

marked "veal" (not "calf") by an official U. S. grader as set forth above:

(i) The following cuts of veal, named in Schedule I (b) of this regulation:

Hindsaddles or hindquarters of "veal" (not "calf") which contain the 12th and 13th ribs;

Foresaddles or forequarters of "veal" (not "calf") which contain the 1st through 11th ribs, inclusive;

Hotel racks or ribs of "veal" (not "calf") which contain the 6th through 11th ribs, inclusive;

Full loins and short loins of "veal" (not "calf") which contain the 12th and 13th ribs.

(ii) The following cuts of veal, named in Schedule II of this regulation:

Loin, trimmed, and loin steaks which include the 12th and 13th ribs when derived from the loin listed in section 13 (c) (2) (i).

Hotel rack (chine removed, blade bone out) which includes the 6th through the 11th ribs, inclusive, when derived from the hotel rack or rib listed in section 13 (c) (2) (i).

NOTE: The veal shoulder must contain the 1st through the 5th ribs, inclusive, and all cuts of veal must be made in conformity with the definitions in the appendices to this regulation except as specifically exempted above.

2. Section 7 is amended by deleting the words "packer branch houses" and the comma immediately following those words, so that section 7, as amended, now reads as follows:

SEC. 7. *Election of seller's classification.* If you qualify for more than one of the additions provided for in Articles II and IV, for hotel supply houses, combination distributors, wholesalers, peddler truck sellers, or intermediate distributors, you must elect which one of these additions you will add through December 31, 1951. This election must be made within 15 days after the effective date of this regulation. Once you have made this election, you are bound by it until after December 31, 1951. You may change your election once after December 31, 1951, and once after each successive December 31 and June 30 thereafter. In each instance, after you have made your election, you may not thereafter add any of the additions listed above, except the addition which you elected, until you have changed your election in accordance with this section. Each election must be made by notifying your District Office of Price Stabilization of your election by a statement in writing. Any change of election must be made between January 1 and 10 or July 1 and 10 of each year and shall become effective five days after you have mailed or delivered the written statement to your District Office.

3. Section 20 is amended by adding a new special adjustment 8 to Schedule I, to read as follows:

8. After July 22, 1952 and until further notice, on sales of veal forequarters, foresaddles, hindquarters, or hindsaddles which have been derived from veal carcasses that have been graded and marked "veal" (not "calf") by an official grader of the United States Department of Agriculture in such manner that the word "veal" appears at least once on each cut listed in Section 20, Schedule I (b) and on sales of any cut derived from such forequarters, foresaddles, hindquarters, or hindsaddles, you shall apply the following adjustment:

On sales of prime or choice grade hindsaddles, hindquarters, or any cuts derived therefrom you may add $3.60 per cwt. to the prices listed above.

On sales of prime or choice grade foresaddles, forequarters, or any cuts derived therefrom you shall deduct $4.60 per cwt. from the prices listed above.

On sales of good grade hindsaddles, hindquarters, or any cut derived therefrom you may add $2.60 per cwt. to the prices listed above.

On sales of good grade foresaddles, forequarters, or any cut derived therefrom you shall deduct $3.60 per cwt. from the prices listed above.

These adjustments do not apply on the sale of the veal back of any grade.

4. Section 21 is amended by adding the the following sentence immediately after the title thereof:

After July 22, 1952 and until further notice, on sales of cuts made from veal foresaddles, forequarters, hindsaddles, or hindquarters, derived from veal carcasses that have been graded and marked "veal" (not "calf") by an official grader of the United States Department of Agriculture in such manner that the word "veal" appears at least once on each cut listed in Section 20, Schedule I (b), of this regulation, you shall apply the following adjustment:

On sales of cuts derived from the hindsaddle or hindquarter you may add $3.60 per cwt. for prime and choice grades and $2.60 per cwt. for good grade to the prices listed in Schedule II.

On sales of cuts derived from the foresaddle or forequarter you shall deduct $4.60 per cwt. for prime and choice grades and $3.60 per cwt. for good grades from the prices listed in Schedule II.

5. Section 49 (b) is amended by deleting the period at the end of the section and adding, immediately following the words "• • • prior to the sale", the following:

; or

(3) Is sold by you for an amount which includes any of the seller's additions listed in any of the following sections of this regulation:

(i) Special adjustments 5 and 6 of section 20.

(ii) Special additions 1 and 2 of section 22.

(iii) Special additions 4 and 5 of section 24.

(iv) Section 42 (b), Addition for certain affiliated wholesalers.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 23, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 18, 1952.

[Ceiling Price Regulation 159]

CPR 159—CEILING PRICES FOR MILK SOLD IN JUNEAU, ALASKA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 159 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes ceiling prices at the wholesale and retail level for sales of milk in Juneau, Alaska, and a radius of ten miles from the city limits, superseding those established under the General Ceiling Price Regulation, which established ceilings at the highest prices charged during the base period, December 19, 1950 to January 25, 1951.

The price of milk in the Juneau area was last advanced in the spring of 1948. Since that time wages and freight rates have advanced steadily, thus increasing operating costs of dairies. In addition, dairies in Juneau must import practically all feed for the herds from the continental United States as very little feed is raised in the Juneau area. Rising costs of feed have also increased operating costs with a corresponding drop in earnings. These cost increases have placed the Juneau area milk producers in a hardship position.

While, in the judgment of the Director, a formal industry earnings survey is not warranted in this case, evidence submitted by the affected producers indicates that a four cent increase in the price of milk at wholesale and retail (the existing retail price is thirty cents) would be consistent with the requirements of the industry earnings standard and would relieve the hardship position in which these producers currently find themselves.

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

In the formulation of this regulation there has been consultation with industry representatives, including representatives of the cooperative association, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Geographical application.
3. Ceiling prices.
4. Petitions for amendment.
5. Notification and posting.
6. Interpretations.
7. Prohibitions and violations.
8. Evasions.
9. Definitions and explanations.

AUTHORITY: Sections 1 to 9 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup., 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup., 2101-2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation establishes ceiling prices for fresh milk at the wholesale and retail levels of distribution. The ceiling prices established by this regulation supersede, after the effective date of this regulation, ceiling prices established under any other price regulations or orders heretofore issued by the Office of Price Stabilization.

SEC. 2. *Geographical application.* The provisions of this regulation shall apply only in the city of Juneau, Territory of Alaska, and a radius of ten miles from the city limits.

SEC. 3. *Ceiling prices.* Ceiling prices for fresh milk are established as follows:

Commodity	Sales at wholesale	Sales at retail
Milk, homogenized:		
Quarts	$0.29	$0.34
Gallons	1.16	1.36
Milk, selected: Quarts	.33	.38

SEC. 4. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 5. (a) *Notification to retailers.* On and after the effective date of this regulation every person selling the commodities listed herein, except at retail, shall with each delivery supply the purchaser with a statement of the ceiling prices of the commodities at time of delivery as follows: "The Office of Price Stabilization has established fixed ceiling prices for this commodity at $------ on sales at wholesale; and at $------ on sales at retail."

(b) *Posting.* On and after the effective date of this regulation every person offering to sell the listed commodities at retail shall mark the ceiling prices of such commodity in a manner plainly visible to and understandable by the purchasing public. The ceiling price may be marked on the commodity itself or may be posted at the place in the establishment where the commodity is offered for sale. The ceiling price shall be indicated in the form of "Ceiling price $------" or "Our ceiling $------"

SEC. 6. *Interpretations.* If you want an official interpretation of this regulation, you should write to the Territorial Counsel, Office of Price Stabilization, Juneau, Alaska. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, [Revised].

SEC. 7. *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, (but not in limitation of the above), you shall not, regardless of any contract or other obligation, sell, and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling price established by this regulation, and you shall make and preserve true and accurate records and reports required by this regulation.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and action for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the OPS for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 8. *Evasions.* Any means or devices which result in obtaining indirectly a higher price than is permitted by this regulation or in concealing or falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. This includes, but is not limited to means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up grading, tie-in agreements, trade understandings, change in the quality of the product, except when such change in quality takes place in compliance with a regulation issued by an agency of the United States or the Government of Alaska, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 9. *Definitions and explanations.* (a) "Milk" as the term is used in this regulation, means fresh cow's milk.

(b) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, or their legal successors or representatives, and the United States or any agency thereof, or any other government or its political subdivisions or agents.

(c) "Sale at wholesale" means a sale to a retailer or to a commercial, industrial, institutional or governmental user. A person who in the regular course of trade or business makes sales at wholesale is a wholesaler.

(d) "Sale at retail" means a sale to an ultimate consumer. A person who in the regular course of trade or business makes sales at retail is a retailer.

(e) A "listed commodity" means any commodity the ceiling price of which is fixed by this regulation.

(f) The pronoun "you", as used in this regulation, indicates the person subject to the regulation.

Effective date. This Ceiling Price Regulation 159 is effective July 23, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 18, 1952.

[F. R. Doc. 52-8029; Filed, July 18, 1952; 10:55 a. m.]

[General Overriding Regulation 7, Revision 1 Amdt. 3]

GOR 7—EXEMPTIONS AND SUSPENSIONS OF CERTAIN FOOD AND RESTAURANT COMMODITIES

BULK DISTILLED SPIRITS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to General Overriding Regulation 7, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation (GOR) 7, Revision 1, among other things, suspended the application of all ceiling price regulations for sales of imported and domestic bulk whiskey. The prices of all bulk distilled spirits are tied to the relative supplies and prices of bulk whiskey and the economic conditions of the entire bulk distilled spirits industry is currently similar to those conditions prevailing for bulk whiskey. In other words the selling prices of all bulk distilled spirits are below ceiling prices, it is not expected that those selling prices will rise above the ceiling prices in the forseeable future, and there are large inventories of bulk distilled spirits. Therefore, in accordance with the policy of suspending price controls on commodities whose selling prices are substantially below ceilings and are not expected to reach ceiling prices in the forseeable future, GOR 7, Revision 1, is amended so as to suspend the application of all ceiling price regulations to bulk distilled spirits generally. However, all records which were required to be prepared and preserved under applicable ceiling price regulations in effect prior to this suspension must continue to be preserved.

Controls on all bulk distilled spirits will be reimposed when the prices of bulk whiskey rise to a level which calls for recontrol of bulk whiskey, as indicated in the Statement of Considerations to Revision 1 of GOR 7.

Finally, the wording of section 10 (b) is changed to make it clear that price controls on all distilled spirits and wines are suspended in the territories and possessions as well as in the continental United States.

In the formulation of this amendment the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, to the extent practicable, and has given full consideration to their recommendations. In his judgment the provisions of this amendment are generally fair and equitable, and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

General Overriding Regulation 7, Revision 1, is amended in the following respects:

1. The first sentence of section 10 (a) is amended to read as follows: "On and after June 23, 1952 the application of all ceiling price regulations, heretofore or hereafter issued by the Office of Price Stabilization, to sellers for off-premise consumption of imported and domestic distilled spirits and wines, both in bulk and packaged, is suspended."

2. Section 10 (b) is amended to read as follows:

(b) Definitions of terms used in this section 10 are contained in Article III of Ceiling Price Regulation 78, as amended, except that the term "domestic" (as used in this section) means anything produced in the continental United States, its territories and possessions, and the term "imported" (as used in this section) means anything produced outside of and introduced into the continental United States, its territories and possessions.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective July 18, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 18, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Reg. 2, Direction 3 as amended, July 18, 1952]

REG. 2—BASIC RULES OF THE PRIORITIES SYSTEM

DIR. 3—RESTRICTIONS UPON USE OF RATINGS

This amended direction to NPA Reg. 2 is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by the Defense Production Act of 1950, as amended. In the formulation of this direction as amended, consultation with industry representatives, including trade association representatives, has been rendered impracticable by the fact that this direction applies to all trades and industries.

REGULATORY PROVISIONS

SECTION 1. (a) No rating shall be applied or extended to obtain any of the materials or products listed in any numbered item of Appendix A of this direction on or after the date set forth opposite such numbered item, unless the rating bears a program identification consisting of the letter A, B, C, or E, and one digit, or the program identification Z-1 or Z-2.

(b) These restrictions shall not affect the status of ratings applied or extended to obtain any item listed in Appendix A of this direction prior to the date set forth opposite each such numbered item.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This direction as amended, shall, except as otherwise provided herein, take effect July 18, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

APPENDIX A OF DIRECTION 3 TO NPA REG. 2

Material or product	Effective date
1. Any basic, organic, or inorganic chemicals, their intermediates and derivatives, other than compounded end products not customarily sold as chemicals.	Sept. 25, 1951
2. Any primary paper or paperboard (this does not include paper or paperboard processed beyond the primary or base stock stage).	Jan. 15, 1952
3. Waterfowl feathers (goose or duck feathers and down, separated from the fowl, domestic and imported, new and used, regardless of length; except flight feathers having no natural curl).	May 12, 1952
4. Pigs' or hogs' bristles, and brushes and bristle products containing pigs' or hogs' bristles.	June 13, 1952
5. High-tenacity rayon (yarn of 250 denier or coarser and having an average tenacity of 3 grams per denier or higher).	July 18, 1952
6. Pig iron	July 18, 1952

[F. R. Doc. 52-8034; Filed, July 18, 1952; 12:04 p. m.]

[NPA Order M-20, as amended July 18, 1952]

M-20—IRON AND STEEL SCRAP

This order as amended is found necessary and appropriate to promote the National Defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the issuance of this amended order, consultation with industry representatives has not been practicable.

This order as hereby amended affects NPA Order M-20 dated January 30, 1952, by deleting the reference to automobile wrecker and NPA Order M-92 contained in paragraph (c) of section 8, and by changing the date appearing in paragraph (e) of section 8 from the tenth of the month to the fifteenth.

9. Violations.

AUTHORITY: Sections 1 and 9 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* This order establishes inventory limitations for iron and steel scrap and subjects such scrap to allocation to assure its distribution in the interest of national defense. (The delivery and acceptance of used rails and used axles is also subject to the provisions of NPA Order M-64.)

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons and includes any agency of the United States or any other government.

(b) "Scrap" means all ferrous materials, either alloyed or unalloyed, of which iron or steel is the principal component, which are the waste of industrial fabrication or objects that have been discarded on account of obsolescence, failure, or other reasons, including therein iron and steel rails and axles for rerolling purposes.

(c) "Shipper" means any person engaged in the business of scrap dealer or scrap broker, and any person (except a person engaged in demolition, shipbreaking, or other similar long-term projects) engaged in any business in the course of which scrap results, accumulates, or is generated or produced.

(d) "Consumer" means any person who melts scrap in the course of manufacture of iron, steel, or ferro-alloys, and includes persons engaged in the operating of blast furnaces or in the rerolling of iron or steel rails or axles. If the business of any consumer is carried on in or by more than one operating unit, each operating unit shall constitute a consumer within the meaning and intent of this order.

(e) "NPA" means the National Production Authority.

SEC. 3. *Restrictions on shippers.* (a) No shipper, in any 60-day period, may receive delivery of any scrap the total of which will have the effect of increasing his inventory working position beyond a practicable minimum working inventory or beyond the average of his inventory position during the last preceding 60-day period, whichever is the lesser: *Provided, however,* That the prohibition set forth in this section shall not extend to those engaged in normal seasonal accumulation of scrap for subsequent water shipments.

(b) No shipper shall accept an order for, sell, or deliver scrap which, or any part of which, he knows or has reason to believe will be accepted, received, held, or used in violation of any provision of this order.

SEC. 4. *Restrictions on consumers.* NPA may from time to time establish, with respect to the scrap inventory of consumers, limitations either greater or less than the limitations established by the provisions of NPA Reg. 1. The permissible scrap inventory of a consumer which is subject to a limitation established under this section and differing from the limitation established by the provisions of NPA Reg. 1 shall, for the purposes of this section, be known as an emergency inventory. No consumer may receive or accept delivery of scrap if his inventory thereof is, or by such receipt would become, more than a practicable minimum working inventory, or, if NPA shall have established with respect to such consumer an emergency inventory, more than such emergency

inventory as of the date of the proposed receipt. In figuring his inventory a consumer must include all scrap in his possession or held for his account by others, but not that held by him for the account of others.

SEC. 5. *Allocations and directives.* NPA may from time to time allocate scrap and specifically direct the manner and quantities in which deliveries to particular persons or classes of persons or for particular uses or classes of uses shall be made or suspended; and from time to time may issue specific directives to any person as to the source, destination, consignee, or amount of scrap to be delivered or acquired by such person.

SEC. 6. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 7. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref.: M-20.

SEC. 8. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of NPA, at the usual place of business where maintained.

(c) Not later than the tenth day of each calendar month, and unless otherwise directed by NPA, a person (except a consumer and a person who files Form NPAF-33) who purchased and received, or sold and delivered, 100 gross tons or more of scrap during the preceding monthly period, shall report to NPA in the manner prescribed by Form NPAF-32.

(d) Not later than the tenth day of each calendar month, and unless otherwise directed by NPA, a person (except a person who files Form NPAF-32) who generated 100 gross tons or more of scrap during the preceding monthly period, shall report to NPA in the manner prescribed by Form NPAF-33.

(e) Not later than the fifteenth day of each calendar month, a consumer who used any scrap during the preceding monthly period, shall report to NPA in the manner prescribed in Bureau of the Census Form M21C.

(f) Persons subject to this order shall make such records and submit such other reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 9. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of NPA or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

This order as amended shall take effect July 18, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-8037; Filed, July 18, 1952; 12:04 p. m.]

[NPA Order M-25, Direction 4 as amended July 18, 1952]

M-25—CANS

DIR. 4—EMERGENCY PACKING OF PERISHABLE FOOD PRODUCTS

This amended direction to NPA Order M-25 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, consultation with industry representatives has been found to be impracticable because of the need for immediate action.

EXPLANATORY

This amended direction revises Direction 4 of June 30, 1952, to NPA Order M-25, by deleting the words "so far as practicable" from section 4.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Definition.
3. Suspension of can material specifications for perishable food products.
4. Direction to can manufacturers.
5. Duration of this direction.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789, 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* For the purpose of applying, so far as practicable, all stocks of tin plate currently available or to become available to the packing of perishable food products, this direction suspends can material specifications for packing such products and requires can manufacturers to give perference (subject to direct defense requirements) to orders for cans for packing such products.

SEC. 2. *Definition.* "Perishable food product" means any food product for human consumption which by trade custom and to prevent spoilage is canned quickly after its first separation from its natural source.

SEC. 3. *Suspension of can material specification for perishable food products.* Any packer may pack any perishable food product listed in Schedule I of NPA Order M-25 without regard to the can material specifications prescribed for that product by that schedule.

SEC. 4. *Direction to can manufacturers.* Subject to the provisions of section 8 of NPA Order M-25, every can manufacturer shall schedule his operations (including the use of all tin plate in his possession, and his ordering of any such plate) so as to insure preference in the filling of orders for cans for packing perishable food products.

SEC. 5. *Duration of this direction.* This direction shall continue in effect until the National Production Authority shall by order, by direction, or by revocation of this direction, otherwise provide.

This amended direction shall take effect July 18, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-8036; Filed, July 18, 1952; 12:04 p. m.]

[NPA Order M-97, Revocation]

M-97—LIGHTING FIXTURES: LIMITATIONS ON USE OF COPPER

REVOCATION

NPA Order M-97 (17 F. R. 1127) is hereby revoked.

This revocation does not relieve any person of any obligation or liability incurred under NPA Order M-97, nor deprive any person of any rights received or accrued under said order prior to the effective date of this revocation.

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; U. S. C. App. Sup. 2154)

This revocation is effective July 18, 1952.

Issued: July 18, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 906, 928]

[AO-227-A1]

HANDLING OF MILK IN NEOSHO VALLEY AND TULSA, OKLAHOMA, MARKETING AREAS

PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Collegiate Room, Hotel Besse, Pittsburg, Kansas, beginning at 10:00 a. m., c. s. t., August 4, 1952, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth or appropriate modification thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, regulating the handling of milk in the Neosho Valley marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order regulating the handling of milk in the Neosho Valley marketing area and the Tulsa, Oklahoma, marketing area were proposed, as enumerated below.

Proposed by K. M. O. Grade A Milk Producers Association:

1. Delete § 928.51 (a) and insert in lieu thereof the following:

(a) *Class I milk.* The price of Class I milk shall be the basic formula price plus the following amounts per hundredweight: $1.20 during the delivery periods April through June, and $1.65 during the delivery periods of July through March: *Provided*, That for each of the delivery periods of September through December, such price shall not be less than that for the preceding delivery period, and that for each of the delivery periods of April through June such price shall be not more than that for the preceding delivery period.

(1) Divide the total receipts of producer milk in the first and second months preceding by the total gross volume of Class I milk (excluding interhandler transfers and sales by producer-handlers and handlers partially exempt from this order pursuant to this section) for the same months, multiply the result by 100, and round to the nearest whole number. The result shall be known as the Class I utilization percentage:

(2) Compute a "net utilization percentage" by algebraically subtracting from the Class I utilization percentage computed pursuant to subparagraph (1) of this paragraph, the standard utilization percentage shown below:

Month for which price applies—	Months used in computation	Standard utilization percentage
January	November-December	110
February	December-January	110
March	January-February	114
April	February-March	116
May	March-April	118
June	April-May	130
July	May-June	136
August	June-July	139
September	July-August	135
October	August-September	122
November	September-October	119
December	October-November	110

(3) For each minus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be increased 3 cents in January, February, March, July and August; 2 cents in April, May and June; 4 cents in September, October, November and December; and for each plus percentage point in excess of 2 in the "net utilization percentage" the Class I price shall be decreased 3 cents in January, February, March, July and August; 4 cents in April, May and June; and 2 cents in September, October, November and December: *Provided*, That in no event shall an adjustment made pursuant to this subparagraph exceed 50 cents per hundredweight.

2. Amend the provisions of § 906.22 (j) (1) to read as follows:

(1) On or before the 10th day of each month the minimum price for Class I milk computed pursuant to § 906.51 (a) and the Class I butterfat differential computed pursuant to § 906.52 (a) both for the current month; and on or before the 5th day of each month the minimum price for Class II milk pursuant to § 906.51 (b) and the Class II butterfat differential computed pursuant to § 906.52 (b) both for the previous month.

3. Add to following as § 928.90 (c):

(c) Each handler shall make a weight ticket daily or for each delivery, showing the can number and pounds of milk delivered. This weight ticket shall be available to the producer or his agent daily at the handler's plant.

4. Section 928.96 *Marketing services.* Delete paragraph (a) of this section and insert in lieu thereof the following:

(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 928.90 shall deduct 8 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from producers during the delivery period, and shall pay such deductions to the Market Administrator on or before the 15th day after the end of such delivery period. Such moneys shall be used by the Market Administrator to sample, test and check the weights of milk received from producers and to provide producers with market information.

Proposed by the Neosho Valley Cooperative Creamery Association, Inc.:

5. Amend § 928.41 to read as follows:

§ 928.41 *Classes of utilization.* Subject to the conditions set forth in §§ 928.43 and 928.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat disposed of in fluid form (except as livestock feed) as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream, cultured sour cream, any mixture of cream and milk or skim milk (except bulk ice cream mix, eggnog and aerated cream), and all skim milk and butterfat not specifically accounted for under paragraph (b) of this section;

(b) Class II milk shall be all skim milk and butterfat accounted for (1) as having been used to produce any products other than those specified in paragraph (a) of this section, (2) as disposed of for livestock feed, (3) in actual plant shrinkage of skim milk and butterfat in producer milk, but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively: *Provided*, That during the months of April, May and June such maximum shrinkage allowance on skim milk shall be not in excess of 5 percent, (4) in actual plant shrinkage of skim milk and butterfat in other source milk, and (5) in inventory variations of skim milk and butterfat.

6. Amend § 928.44 (a) to read as follows:

§ 928.44 *Transfers.* Skim milk or butterfat disposed of by a handler either by transfer or diversion shall be classified: (a) As Class I milk if transferred or diverted in the form of milk, skim milk or cream, to the approved plant of any other handler unless a transfer of Class II milk is indicated in writing to the market administrator by the transferor-handler on or before the 7th day after the end of the delivery period within which such transaction occurred: *Provided*, That if the transferee-handler makes a Class I utilization of any Class II milk so transferred, the transferee-handler shall account to the market administrator for the difference between the Class I price and the Class II price for all milk so transferred and utilized in Class I: *And provided*, That in no event shall the amount of the skim milk or butterfat so assigned to Class II exceed the total utilization of skim milk or butterfat, respectively, in the plant of the transferee-handler: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred or diverted shall be classified at both plants to give priority to producer milk in the allocation of Class I utilization.

7. Delete § 928.46 (a) (2).

8. Amend § 928.51 (b) to read as follows:

§ 928.51 *Class prices.* • • •

(b) *Class II milk.* The price for Class II milk shall be the arithmetic average

of the basic, or field, prices reported to have been paid or to be paid per hundredweight for ungraded milk of 4.0 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or to the Department on or before the 6th day after the end of the delivery period by the companies indicated below:

Pet Milk Co., Iola, Kans.
Hawks Dairy, Tulsa, Okla.
DeCoursey's, Wichita, Kans.
Bennett Ice Cream Co., Ottawa, Kans.

9. Amend § 928.97 to read as follows:

§ 928.97 *Expenses of administration.* As his pro rata share of the expenses of administration of this subpart, each handler, as hereinafter indicated, shall pay to the market administrator on or before the 15th day after the end of the month 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all receipts within the delivery period of: (a) By the handler for milk from such handler's producers including such handler's own production, and (b) by the handler responsible for the classification of other source milk which is classified as Class I.

Proposed by:

Quality Dairy, Nevada, Mo.
Cedar Lawn Grade "A" Dairy Products, Nevada, Mo.
Beatrice Foods Co., Parsons, Kans.
The Page Milk Co., Coffeyville, Kans.
Feess Paramount Dairy, Parsons, Kans.
Batten's Dairy, Fort Scott, Kans.
Puritan Dairy Co., Pittsburg, Kans.
Community Dairy Products Co., Joplin, Mo.
Radley Creamery Co., Iola, Kans.
Gateway Creamery Co., Joplin, Mo.
Premium Dairy Foods, Inc., Independence, Kans.
Banner Dairy Products, Fort Scott, Kans.
Willson's Dairy, Parsons, Kans.

10. That the price basis be changed from milk of 4.0 percent butterfat to milk of 3.5 percent butterfat.

11. That the order define a "pool plant" as a handler who (a) does not dispose of more than twenty percent (20%) of the producers milk received by it, in bulk sales of Class I milk out of area during any delivery period of January, February, March, July, August, September, October, November and December and (b) who does not dispose of more than seventy-five percent (75%) by such sales during any delivery period of April, May and June. That only pool plants shall receive payments out of the producer settlement fund as provided in § 928.94.

12. That § 928.51 (b) be changed by substituting for the companies there named for determining the Class II price the following: DeCoursey Dairy, Wichita, Kansas; American Foods Co., Miami, Oklahoma; Hawk Dairies, Tulsa, Oklahoma; Pet Milk Co., Iola, Kansas.

13. That § 928.6 be changed by adding to the marketing area there described the county of McDonald in the State of Missouri.

14. That an emergency milk provision be inserted in the order permitting handlers to pro-rate up to 115 percent of producer milk, that is, permitting a handler to pro-rate on a basis of usage an amount of other source milk not to exceed 15 percent of producer milk received.

15. That § 928.41 (a) be changed so that Class I products in inventory at the end of a delivery period shall not be classed as utilized in Class I for that period.

16. That § 928.50 be changed by deleting the use of the price of Class II milk as one of the methods of determining the basic formula price.

17. That § 928.90 be changed to provide that the payment for the milk delivered the first 15 days of the delivery period be made not later than the 5th day of the following delivery period and that the payment for the delivery period, less the first half payment and the deductions, be made not later than the 20th day after the end of the delivery period. That § 928.31 be amended to provide for the payroll report on or before the 25th day of the delivery period for the previous delivery period. That § 928.22 (j) (2) be changed to specify the 12th day of the delivery period for the administrator's announcement of the uniform price for the preceding delivery period.

18. That changes be made by the Secretary to all sections necessary to properly and equitably effectuate the changes here requested.

Proposed by Producers Creamery Company of Springfield, Springfield, Missouri:

19. That present § 928.6 be rescinded and a new section substituted therefor, reading as follows:

§ 928.6 *Neosho Valley marketing area.* "Neosho Valley marketing area," hereinafter called the "marketing area" means all of the territory within the counties of Allen, Bourbon, Cherokee, Crawford, Labette, Montgomery, Neosho and Wilson, all in the State of Kansas.

20. That present § 928.61 be rescinded and a new section be substituted therefor, reading as follows:

§ 928.61 *Handlers subject to other orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I milk in another market area regulated by another milk marketing agreement or order issued pursuant to the act, the provisions of this subpart shall not apply.

21. That allowance of location differentials common to all handlers, both within and without the area, be considered.

Proposed by Dairy Branch, Production and Marketing Administration:

22. Make such other changes as may be required to make the entire marketing agreement and order conform with any amendments that may result from this hearing.

Copies of this notice of hearing and of the order now in effect, may be procured from the market administrator, 28 West Main St., Chanute, Kansas, or from the Hearing Clerk, Room 1353 South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: July 16, 1952.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 5475]

ROBIN AIRLINES, INC.; REVOCATION OF LETTER OF REGISTRATION

NOTICE OF HEARING

In the matter of the revocation and/or termination of Letter of Registration Number 1745 issued to Robin Airlines, Inc.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 401 (a), 1002 (b), 1002 (c), 1005 (e) of said act, and sections 291.18 and 291.20 of the Economic Regulations, a hearing in the above-entitled proceeding is assigned to be held on September 15, 1952, at 10:00 a. m., P. s. t., in Room 810, United States Court House, Los Angeles, California, before Examiner Curtis C. Henderson.

Without limiting the scope of the issues presented by this proceeding, particular attention will be directed to the following matters and questions:

1. Has Respondent violated or is Respondent violating sections 401 (a) and 1005 (e) of the Civil Aeronautics Act of 1938, as amended, §§ 291.18 and 291.20 of the Board's Economic Regulations, and/or the provisions of Order E-3754, or any of them in the manner alleged by the Order to Show Cause herein?

(a) If any such violations are established, were and are each of such violations knowing and willful?

(b) If any such violations are established, whether knowing or willful or otherwise, should the Board issue an order to cease and desist or other order to compel compliance with applicable provisions of the Act and the requirements thereunder?

(c) If any such knowing and willful violations are established, should the Letter of Registration issued to Respondent by the Board be revoked?

2. Has Respondent violated or is Respondent violating the terms and conditions prescribed by the Board in Order E-3754 in the manner alleged by the Order to Show Cause herein?

(a) If any such violations are established, whether knowing or willful or otherwise, should the Board issue an order finding that the authority conferred by the Letter of Registration heretofore issued to Respondent by the Board has terminated as a result of such violations?

For further details of the issues involved in this proceeding and the position of the parties, interested persons are referred to the Board's Order to Show Cause, Serial No. E-6232, the Prehearing Conference Report, the Supplemental Prehearing Conference Report and other documents filed in this proceeding with the Docket Section of the Civil Aeronautics Board.

Notice is further given that any person, other than the parties of record, desiring to be heard in this proceeding shall file with the Board on or before September 15, 1952, a statement setting forth the issues of fact or law raised by this proceeding which he desires to controvert.

Dated at Washington, D. C., July 15, 1952.

By the Civil Aeronautics Board.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[Docket No. 5487]

CUBA AEROPOSTAL, S. A., INVESTIGATION

NOTICE OF HEARING

In the matter of the investigation of Cuba Aeropostal, S. A.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 402 (a), and 1002 of said act, a public hearing is assigned to be held in the above-entitled proceeding on August 25, 1952, at 10:00 a. m., e. d. s. t., in Room E-210, Temporary Building No. 5, Constitution Avenue between Sixteenth and Seventeenth Streets NW., Washington, D. C., before Examiner Curtis C. Henderson.

Without limiting the scope of the issues presented by this proceeding, particular attention will be directed to the following matters and questions:

1. Whether Cuba Aeropostal, S. A., violated or is violating section 402 (a) of the Civil Aeronautics Act of 1938, as amended; and

2. Whether if such violation is established the Board should issue an order directing Cuba Aeropostal, S. A., to cease and desist from engaging in foreign air transportation or other such order to compel compliance with section 402 (a) of the act.

For further details of the issues involved in this proceeding and the position of the parties, interested persons are referred to the Board's order instituting the investigation adopted on March 26, 1952, Serial No. E-6252, and the prehearing conference report which are on file with the Civil Aeronautics Board.

Notice is further given that any person, other than parties of record, desiring to be heard in this proceeding should file with the Board on or before August 25, 1952, a statement setting forth the issues of fact or law raised by this proceeding which he desires to controvert.

Dated at Washington, D. C., July 15, 1952.

By the Civil Aeronautics Board.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL POWER COMMISSION

[Docket No. E-6443]

CITIZENS UTILITIES CO.

NOTICE OF APPLICATION FOR AUTHORIZATION TO EXPORT ELECTRIC ENERGY

JULY 15, 1952.

Notice is hereby given that pursuant to the provisions of section 202 (e) of the Federal Power Act, U. S. C. 824a, Citizens Utilities Company (Applicant) on July 10, 1952, filed with the Federal Power Commission an application, for authorization by the Commission to export energy, over the facilities of the Applicant, from a point of proposed interconnection to serve the office building and residence of National Revenue, Customs and Excise Division, Canadian Government near the international boundary between the United States and Canada, at Newport Town, Vermont, in quantities approximating 5,000 kilowatt hours annually.

Any person desiring to be heard or to make any protest with reference to the application should, on or before August 4, 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

ALLENTOWN-BETHLEHEM GAS CO. ET AL.

NOTICE OF AMENDMENT TO APPLICATION

JULY 15, 1952.

In the matter of the joint application of Allentown-Bethlehem Gas Company, Consumers Gas Company, The Harrisburg Gas Company, Lancaster County Gas Company and The United Gas Improvement Company pursuant to section 7 of the Natural Gas Act; Docket No. G-1910.

Take notice that on the 11th day of July 1952, the above-named companies filed an amendment to their initial application filed on March 6, 1952, pursuant to section 7 of the Natural Gas Act. (Notice of original application published in the FEDERAL REGISTER on March 27, 1952, 17 F. R. 2699-2700.) The application as amended recites that the following facilities and services will be transferred by Applicants, Allentown-Bethlehem Gas Company (Allentown-Bethlehem), Consumers Gas Company (Consumers), The Harrisburg Gas Company (Harrisburg), Lancaster County Gas Company (Lancaster) to Applicant, The United Gas Improvement Company (U. G. I.).

Allentown-Bethlehem Gas Company. Line from the 14-inch natural gas line of The Manufacturers Light and Heat Company to Allentown's distribution plant at Didier, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G-1255.

Lines from the distribution plant at Didier to Easton, Nazareth, Bethlehem, Butztown, Bath, Allentown, Northampton, Greenawalds, Sterlingworth, Wescoesville, Emmaus, Macungie, Old Zionsville, Vera Cruz, Hellertown, Center Valley, Richlandtown, Quakertown, Trumbauersville, Sellersville, Perkasie, and Silverdale.

Lines from the distribution plant at Easton to the center of the bridge crossing the Delaware River through which gas is supplied to City Gas Company at Phillipsburg, New Jersey. The gas carried by such lines is sold by Allentown-Bethlehem Gas Company to City Gas Company of Phillipsburg, N. J., for resale by the latter company.

Consumers Gas Company. Line from the natural gas line of The Manufacturers Light and Heat Company near Millway to Consumers' distribution plant at Reading, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G-1256.

Lines from the distribution plant at Reading to Temple, Fleetwood, Kutztown, Topton, Wernersville, Womelsdorf, Mohnton, Baumstown, Birdsboro, and Douglassville.

Lines from Wamelsdorf to connection points with the lines of the Lebanon Valley Gas Company at the Lebanon County-Berks County line.

Line from Douglassville to the connection point with the line of the Philadelphia Electric Company near Pottstown.

The Harrisburg Gas Company. Line from the natural gas line of The Manufacturers Light and Heat Company near Billmeyer to Harrisburg's distribution plant at Steelton, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G-1254.

Lines from the distribution plant at Steelton to Hainton, Colonial Park, Harrisburg, Heckton, Enola, Shiremanstown, Mechanicsburg, Carlisle, New Market, Middletown, Royalton, Elizabethstown, and Marietta.

Line from Steelton to the connection point with the line of the Lebanon Valley Gas Company at the Dauphin County-Lebanon County line.

Lebanon Valley Gas Company. Lines from the connection point with the line of The Harrisburg Gas Company at the Dauphin County-Lebanon County line

to Hummelstown, Palmyra, Campbellstown, Annville, Lebanon, and Avon.

Lines from the connection points with the lines of Consumers Gas Company at the Lebanon County-Berks County line to Myerstown, Richland, and Sheridan.

Lancaster County Gas Company. Line from the natural gas lines of Texas Eastern Transmission Corporation to Lancaster, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G–1253.

Line from the natural gas lines of Texas Eastern Transmission Corporation to Columbia, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G–1253.

Line from the natural gas lines of The Manufacturers Light and Heat Company to Mount Joy, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G–1253.

Line from the natural gas lines of The Manufacturers Light and Heat Company to Manheim, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G–1253.

Line from the natural gas lines of The Manufacturers Light and Heat Company ot Lititz, which line was certificated by the Federal Power Commission in Order No. 188, Docket No. G–1253.

The application recites that the U. G. I. will continue to operate the facilities described above in exactly the same manner as they are presently being operated.

The above named Applicants, namely Allentown-Bethlehem, Consumers, Harrisburg and Lancaster, all being subsidiaries of U. G. I. will be merged into U. G. I. under the latter company's plan of acquisition, pursuant to the provisions of the Pennsylvania Consolidation and Merger Act of 1909 as amended.

Applicants and U. G. I. request that their joint application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of Practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 4th day of August 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-7930; Filed, July 18, 1952; 8:45 a. m.]

[Docket No. G–1960]

TEXAS EASTERN TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

On May 22, 1952, Texas Eastern Transmission Corporation (Texas Eastern) a Delaware corporation having its principal place of business at Shreveport, Louisiana, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a 24-inch pipeline crossing of the Arkansas River at a point near Little Rock, Arkansas, as more fully described in said application on file with the Commission and open to public inspection.

Due notice of the filing of such application has been given, including publication in the FEDERAL REGISTER on June 13, 1952 (17 F. R. 5378).

Applicant has requested that this application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a public hearing be held on July 29, 1952, at 9:45 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the said rules of practice and procedure.

Date of issuance: July 15, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-7931; Filed, July 18, 1952; 8:45 a. m.]

[Docket No. G–1968]

CITIES SERVICE GAS CO.

ORDER FIXING DATE OF HEARING

On June 2, 1952, Cities Service Gas Company (Applicant), a Delaware corporation having its principal place of business at Oklahoma City, Oklahoma, filed an application, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of certain natural-gas facilities, subject to the jurisdiction of the Commission, as described in the application on file with the Commission and open to public inspection.

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on June 18, 1952 (17 F. R. 5487).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing be held on August 4, 1952, at 9:45 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a nontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by § 1.8 and 1.37 (f) of the said rules of practice and procedure.

Date of issuance: July 15, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-797]

WASHINGTON MUTUAL INVESTORS FUND, INC., AND JOHNSTON, LEMON & CO.

NOTICE OF APPLICATION

JULY 14, 1952.

Notice is hereby given that Washington Mutual Investors Fund, Inc. (hereinafter referred to as the Fund), a registered, open-end, investment company and Johnston, Lemon & Co., the principal underwriter for the shares of the Fund, have filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 22 (d) of the act, the offering of the Fund's shares at reduced public offering prices based on quantity purchases under the circumstances hereinafter described.

The offering price of the Fund's shares to the public will be computed at net asset value at time of purchase plus selling commissions, as a percentage of the offering price, as follows: 6¾ percent on each unit sale under $10,000; 4 percent on that portion of each unit sale which exceeds $10,000 but is less than $25,000; 3 percent on that portion of each unit sale which exceeds $25,000 and is less than $50,000; and 2 percent of that portion of each unit sale which exceeds $50,000.

The application seeks to permit a charitable, religious, educational, and other corporation, fund or foundation exempt from taxation under section 101 (6) of the Internal Revenue Code and an employees' trust exempt from taxation under section 165 of the Internal Revenue Code, to buy shares of the Fund at the net asset value at time of purchase, plus a selling commission, as a percentage of the offering price, of 3 percent for the first $50,000 purchased and 2 percent on that portion of each individual purchase exceeding $50,000.

Since the proposal, in the manner set forth, may result in varying prices to members of the public of the Fund's shares and thus contravene the policy, purposes and provisions of section 22 (d) of the act, applicants seek an order of exemption under section 6 (c) of the act to the extent necessary to permit the offering to such charitable, religious, educational and other non-profit organizations on the basis proposed.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission on or at any time after July 30, 1952, unless prior thereto a hearing upon the application is ordered by the Commission as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may submit to the Commission in writing, not later than July 28, 1952, at 5:30 p. m., e. d. s. t., his views or any additional facts bearing upon this application or the desirability of a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

OFFICE OF DEFENSE MOBILIZATION

[Defense Manpower Policy 4, Notification 53]

PLACEMENT OF PROCUREMENT WITH APPAREL INDUSTRY

NOTIFICATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization its recommendations in the matter of placement of procurement with the apparel industry. These recommendations have been reviewed within the Office of Defense Mobilization to determine their relationship to other policies affecting procurement for which this Office has responsibility, and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration, the Director of Defense Mobilization has concluded that it is in the public interest to give preference in the placement of Government contracts to the apparel industry in accordance with the attached recommendations of the Committee and the provisions of Defense Manpower Policy No. 4.

The Surplus Manpower Committee is continuing to study factual data in order to determine whether further recommendations should be made in the interest of obtaining a more effective utilization of the manpower skills and facilities of the men's tailored clothing portion of the apparel industry than would otherwise be the case. A communication regarding the Committee's further study will be addressed to the Department of Defense and the General Services Administration within thirty days.

The Department of Defense and the General Services Administration are requested to submit the first written report of the actions taken under this notification on September 15, 1952, and thereafter each 30 days until further notice.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

RECOMMENDATIONS OF THE SURPLUS MANPOWER COMMITTEE CONCERNING THE APPAREL INDUSTRY UNDER DEFENSE MANPOWER POLICY NO. 4

In accordance with section III, Paragraph 8 of Defense Manpower Policy No. 4, a Panel of the Surplus Manpower Committee held public hearings on the apparel industry. After consideration of the report of that panel, the Committee makes the following recommendations in the interest of promoting a greater utilization of the manpower skills and facilities of the entire industry than would otherwise be the case:

1. The Department of Defense should continue testing the feasibility of considering relative cutting efficiency in procurement and report the results of progress thereon to the Office of Defense Mobilization within 90 days.

2. Whenever feasible, under the same invitation, bids should be requested for jackets or coats and trousers as separate items, in order that if so desired bidders may bid in combinations of units, and, to the extent that requirements warrant, at least an equal amount of trousers should be included.

3. The Quality Clause in its present form should be retained and carefully administered.

4. No contracts should be allocated on an area basis in the apparel industry.

5. No price differentials should be paid on any procurement items in the apparel industry.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Chairman, Surplus Manpower Committee.

Approved:

JOHN R. STEELMAN,
Acting Director,
Office of Defense Mobilization.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 18952]

WILHELM BRUMMER

In re: Stock owned by Wilhelm Brummer. F-28-24137-D-1.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1–40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR, 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Wilhelm Brummer, whose last known address is Grashoffstrasse 7, Leuna, Kreis Merseburg, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the property described as follows: Six (6) shares of no par value capital stock of Transamerica Corporation, 4 Columbus Avenue, San Francisco, California, a corporation organized under the laws of the State of Delaware, evidenced by certificate numbered SFA–73098, dated May 20, 1933, and registered in the name of Wilhelm Brummer, together with all declared and unpaid dividends thereon,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Wilhelm Brummer, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person referred to in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 15, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Acting Director,
Office of Alien Property.

d. Those certain debts or other obligations, matured or unmatured, evidenced by two (2) promissory notes, numbered 2728 and 2194 in the amounts of $100.00 and $400.00, respectively, both dated August 1, 1928, issued by Swartzell, Rheem & Hensey Co., Washington, D. C., and secured by first deeds of trust conveying Lots 14, 15, 16 and parts of Lots 17 and 3, Square 219, as described in Deed of Trust dated August 1, 1928, said promissory notes owned by Hedwig Soehn, and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said promissory notes,

e. Those certain debts or other obligations, matured or unmatured, evidenced by the promissory notes, said notes numbered, in the amounts, and due on the dates listed below:

Number	Amount	Date
9	$200.00	June 30, 1942
11	200.00	Dec. 31, 1942
14	200.00	June 30, 1943
15	200.00	Dec. 31, 1943
17	200.00	June 30, 1944
19	200.00	Dec. 31, 1944

said notes payable to Theodore W. Richie, owned by Dr. Rudolf Kreutzer and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights in, to and under said promissory notes,

f. That certain debt or other obligation, matured or unmatured, evidenced by one (1) duplicate promissory note, numbered 21, due June 30, 1945, in the amount of $200.00, payable to and owned by Dr. Rudolf Kreutzer, said promissory note presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said promissory note,

g. Those certain debts or other obligations, matured or unmatured, evidenced by six (6) promissory notes numbered, in the amounts, and due on the dates listed below:

Number	Amount	Date
10	$200.00	June 30, 1942
12	200.00	Dec. 31, 1942
14	200.00	June 30, 1943
16	200.00	Dec. 31, 1943
18	200.00	June 30, 1944
20	200.00	Dec. 31, 1944

said notes payable to Theodore W. Richie, owned by Walter Kreutzer, and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said promissory notes,

h. That certain debt or other obligation, matured or unmatured evidenced by a duplicate promissory note numbered 22, in the amount of $200.00, due June 30, 1945, payable to and owned by Walter Kreutzer and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said promissory note

i. Those certain debts or other obligations evidenced by four (4) checks drawn by the Anderson Hotel Company on the Chicago City Bank and Trust Company, said checks numbered, in the amounts and dated as listed below:

Number	Amount	Date
193	$ 5.00	Nov. 30, 1943
184	10.00	Nov. 30, 1944
167	10.00	Nov. 30, 1945
158	20.00	Nov. 15, 1946

said checks owned by the personal representatives, heirs, next of kin, legatees and distributees of Elise Krippner, deceased, of Maria Krippner, deceased, and of Andres Krippner, deceased, and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said checks,

j. Those certain debts or other obligations evidenced by four (4) American Express Company United States Dollar traveller's cheques numbered D 6086215 8, each in the amount of $50.00 and owned by Emil Georg Bayer and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to, and under said cheques,

k. One (1) The United States of America Adjusted Service Certificate, numbered 1472685, in the amount of $254.00, issued January 1, 1925, and owned by Otto Ziegler and presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

l. That certain debt or other obligation, matured or unmatured, evidenced by one (1) promissory note in the amount of $100.00, dated October 13, 1931, issued by Paul Herrling, payable to and owned by Bertrand Panzer and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same, and any and all rights in, to, and under said promissory note,

m. Those certain debts or other obligations matured or unmatured, evidenced by three (3) promissory notes numbered, in the amounts and dated as listed below:

Number	Amount	Date
1	$120.00	Nov. 14, 1932
2	120.00	Do.
3	118.00	Do.

said notes payable to Keramisch Chemische L. G. & Farber, owned by Franz Karl Walther, and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said promissory notes,

n. Those certain debts or other obligations evidenced by twenty-nine (29) American Express Company United States Dollar Traveller's Cheques, numbered and in the amounts listed below:

Number:	*Amount*
G 2990244/63	$10.00 each

I	Sept. 6, 1930	$5,000.00	Mar. 6, 1931
III	Sept. 12, 1930	166.66	Mar. 12, 1931
IV	Oct. 20, 1930	1,166.00	Apr. 20, 1931
V	Oct. 20, 1930	2,083.00	Apr. 20, 1935

said promissory notes owned by Dr. Sigmund Haffner, and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said promissory note.

p. Those certain debts or other obligations evidenced by eight (8) drafts, each in the amount of $20.00, issued by the Mutual Life Insurance Company of New York, said drafts numbered and dated as follows:

Number:	*Date*
53942	May 1, 1940
43955	Apr. 1, 1940
33923	Mar. 1, 1940
22502	Feb. 1, 1940
016415	Jan. 1, 1940
92662	Sept. 1, 1939
112393	Nov. 1, 1939
129455	Dec. 1, 1939

said drafts payable to John Stroehl, and owned by Johann Stroehl, also known as John Stroehl, and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debts or other obligations and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said drafts, and

q. That certain debt or other obligation evidenced by one (1) American Express Company United States Dollar Traveler's Cheque No. F 8756641, in the amount of $10.00, payable to Verlag Franz Eher Nachf. GmbH., owned by Franz Eher Nachf. GmbH., and presently in the custody of the Attorney General of the United States, together with any and all accruals to the aforesaid debt or other obligation and any and all rights to demand, enforce and collect the same, and any and all rights in, to and under said cheque,

is property which is and prior to January 1, 1947, was within the United States

owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

9. That the national interest of the United States requires that the persons referred to in subparagraphs 1, 2, 3 and 7, and named in subparagraphs 4, 5 and 6 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein, shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 15, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Acting Director,
Office of Alien Property.

JOAQUIN PARDAVE AND REPERTORIO WAGNER

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property located in Washington, D. C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

Claimant and Property

Joaquin Pardave, No. 851 Calzada de La Piedad, Mexico, F. D., Mexico; Claim No. 38474; $2,561.54 in the Treasury of the United States. All right, title, interest and claim of whatsoever kind or nature in and to every copyright, claim of copyright, license, agreement, privilege, power and every right of whatsoever nature, including, but not limited to all monies and amounts, by way of royalties, share of profits or other emolument, and all causes of action accrued or to accrue relating to the musical composition Negra Consentida (My Pet Brunette) as listed in Exhibit A to Vesting Order No. 1758 effective July 1, 1943, as amended, to the extent owned by Joaquin Pardave of Mexico City, Mexico, immediately prior to the vesting thereof by Vesting Order No. 1758, as amended.

Fifty percent of all royalties pertaining to Negra Consentida accrued or to accrue to Repertorio Wagner, S. A., Mexico City, Mexico, being twenty-five percent of the total royalties collected by Edward B. Marks Music Corporation, New York, New York, under an agreement concluded between this firm and A. Wagner Y Levien Sucs. S. en C., of Mexico City, Mexico, on January 21, 1932.

Repertorio Wagner, Sociedad Anonima, 28 Venustiano Carranza St., Mexico City, Mexico; Claim No. 31673; $2,856.16 in the Treasury of the United States. All right, title, interest and claim of whatsoever kind or nature in and to every copyright claim of copyright, license, agreement, privilege, power and every right of whatsoever nature, including, but not limited to all monies and amounts, by way of royalties, share of profits or other emolument, and all causes of action accrued or to accrue relating to the musical compositions Cancion Mixteca, Donde Estas Corazon, Hastio, Negra Consentida, Noche Azul, Orticinas, La Perjura, Violetas and Palmera, as listed in Exhibit A to Vesting Order No. 1758 effective July 1, 1943, as amended, to the extent owned by Repertorio Wagner, S. A., Mexico City, Mexico, immediately prior to the vesting thereof by Vesting Order No. 1758, as amended.

Fifty percent of all royalties pertaining to Negra Consentida accrued or to accrue to Repertorio Wagner, S. A., Mexico City, Mexico, being twenty-five percent of the total royalties collected by Edward B. Marks Music Corporation, New York, New York, under an agreement concluded between this firm and A. Wagner Y. Levien Sucs. S. en C., of Mexico City, Mexico, on January 21, 1932.

All royalties pertaining to Cancion Mixteca, Donde Estas Corazon, Hastio, Noche Azul, Orticinas, La Perjura, Violetas and Palmera accrued or to accrue to Repertorio Wagner, S. A., Mexico City, Mexico, being fifty percent of the total royalties collected by Edward B. Marks Music Corporation, New York, New York, on the basis of the agreements named below: Agreement of November 28, 1934, between Edward B. Marks Music Corporation and A. Wagner Y. Levien Sucs. S. en C., of Mexico City, Mexico, relating to Palmera and Hastio; Agreement of January 21, 1932, between Edward B. Marks Music Corporation and A. Wagner Y. Levien Sucs. S. en C., relating to Noche Azul, Donde Estas Corazon and Orticinas; Letter agreement of February 1, and February 6, 1940, between Edward B. Marks Music Corporation and Repertorio Wagner, S. A., relating to Violetas and La Perjura.

Executed at Washington, D. C., on July 14, 1952.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

FEDERAL REGISTER

VOLUME 17 NUMBER 142

Washington, Tuesday, July 22, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10376

PROVIDING FOR PERMANENT APPOINTMENTS IN THE FIELD SERVICE OF THE POST OFFICE DEPARTMENT

By virtue of the authority vested in me by section 2 of the Civil Service Act (22 Stat. 403) and section 1753 of the Revised Statutes of the United States (5 U. S. C. 631), it is hereby ordered as follows:

SECTION 1. Notwithstanding the provisions of section 1 (a) of Executive Order No. 10180 of November 13, 1950, and to the extent authorized by law, appointments to positions in the field service of the Post Office Department for which salary rates are fixed by the act of July 6, 1945, 59 Stat. 435, as amended and supplemented, shall be made on a permanent basis.

SEC. 2. (a) Under such conditions as the Civil Service Commission may prescribe, and to the extent permitted by law, employees serving under indefinite appointments in the field service of the Post Office Department whose salary rates are fixed by the said act of July 6, 1945, as amended and supplemented (hereinafter referred to as employees), and who were appointed by selection in regular order from competitive civil-service registers established subsequent to February 4, 1946, or who normally would have been appointed by selection in regular order from such registers, shall have their appointments converted to probational or permanent appointments as of the effective date of this order: *Provided*, that such employees have served continuously (or without a break in service of more than ninety days) since they were appointed: *Provided further*, that the number of employees whose appointments may be converted under this section shall not exceed the number of vacancies in the authorized complement of permanent positions (consisting of regular positions and positions within the authorized quota of substitutes) existing on the effective date of this order: *And provided further*, that employees shall be selected for conversion of their appointments in the order in which they were or would have been within reach for appointment from such registers. Employees in excess of the number required to fill vacancies in the authorized complement of permanent positions shall have their names entered on appropriate competitive registers and thereafter shall be eligible for probational appointment in accordance with civil-service regulations.

(b) Employees who left positions in the field service of the Post Office Department to enter the armed forces of the United States and are reemployed therein after the effective date of this order pursuant to application for reemployment made within ninety days after honorable discharge, or after hospitalization continuing after discharge for not more than one year, shall have their former indefinite appointments converted to probational or permanent appointments in accordance with this section.

SEC. 3. This order shall become effective thirty days after the date hereof.

HARRY S. TRUMAN

THE WHITE HOUSE,
July 18, 1952.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

REVISED BOOKS

TITLE 32
of the
Code of Federal Regulations

Title 32, containing the regulations of the Department of Defense and other related agencies, has been completely revised. Originally a single book, Title 32 is being reissued as two books as follows:

Parts 1–699 ($5.00)
Part 700 to end (to be announced)

These books contain the full text of regulations in effect on December 31, 1951

Order from

HARVESTED ACREAGE, ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

Sec.
723.476 Determination of harvested acreage for old farms.
723.477 Determination of 1953 base acreages and 1953 preliminary acreage allotments for old farms.
723.478 1953 old farm tobacco acreage allotment.
723.479 Adjustment of acreage allotments for old farms.
723.480 Reallocation of allotments released from farms removed from agricultural production.
723.481 Farms divided or combined.
723.482 Determination of normal yields.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

723.483 Determination of acreage allotments for new farms.
723.484 Time for filing application.
723.485 Determination of normal yields.

MISCELLANEOUS

723.486 Determination of acreage allotments and normal yields for farms returned to agricultural production.
723.487 Approval of determinations made under §§ 723.471 to 723.486.
723.488 Application for review.

AUTHORITY: §§ 723.471 to 723.488 issued under sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 313, 363, 52 Stat. 38, as amended, 47, as amended, 63; 7 U. S. C. 1301, 1313, 1363.

GENERAL

§ 723.471 *Basis and purpose.* The regulations contained in §§ 723.471 to 723.488 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of 1953 farm acreage allotments and normal yields for cigar-filler tobacco. The purpose of the regulations in §§ 723.471 to 723.488 is to provide the procedure for allocating, on an acreage basis, the State marketing quota for cigar-filler tobacco for the 1953–54 marketing year among farms and for determining normal yields. Prior to preparing the regulations in §§ 723.471 to 723.488, public notice (17 F. R. 4896) was given in accordance with the Administrative Procedure Act (5 U. S. C. 1003). The data, views, and recommendations pertaining to the regulations in §§ 723.471 to 723.488, which were submitted have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 723.472 *Definitions.* As used in §§ 723.471 to 723.488, and in all instructions, forms, and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *Committees.* (1) "Community committee" means the group of persons elected within a community as the community committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the community.

(2) "County committee" means the group of persons elected within a county as the county committee of the Production and Marketing Administration to assist in administering the Production and Marketing Administration programs within the county.

(3) "State committee" means the group of persons designated as the State Committee of the Production and Marketing Administration, charged with the responsibility of administering Production and Marketing Administration programs within the State.

(b) *Farm.* "Farm" means all adjacent or nearby farm land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm land which the county committee, in accordance with instructions issued by the Assistant Administrator for Production, Production and Marketing Administration, determines is operated by the same person as part of the same unit with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county in which the major portion of the farm is located.

(c) *New farm.* "New farm" means a farm on which tobacco will be produced in 1953 for the first time since 1947.

(d) *Old farm.* "Old farm" means a farm on which tobacco was produced in one or more of the five years 1948 through 1952.

(e) *Cropland.* "Cropland" means farm land which in 1952 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes or will constitute, if tillage is continued, a wind erosion hazard to the community.

(f) *Operator.* "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(g) *Person.* "Person" means an individual, partnership, association, corporation, estate or trust or other business enterprise or other legal entity, and whenever applicable, a State, a political subdivision of a State, or any agency thereof.

(h) *Tobacco.* "Tobacco" means cigar-filler tobacco, type 41, that type of cigar-leaf tobacco commonly known as Pennsylvania Seedleaf, Pennsylvania Broadleaf, Pennsylvania filler type, or Lancaster and York County filler type, and produced principally in Lancaster County, Pennsylvania, and the adjoining counties, as classified in Service and Regulatory Announcement No. 118 (7 CFR Part 30) of the Bureau of Agricultural Economics of the United States Department of Agriculture. Tobacco which has the same characteristics and corresponding qualities, colors, and lengths shall be treated as one type, regardless of any factors of historical or geographical nature which cannot be determined by an examination of the tobacco. The term "tobacco" shall include all leaves harvested including trash.

§ 723.473 *Extent of calculations and rule of fractions.* All acreage allotments shall be rounded to the nearest one-tenth acre. Fractions of fifty-one thousandths of an acre or more shall be rounded upward, and fractions of five-hundredths of an acre or less shall be dropped. For example, 1.051 would be 1.1 and 1.050 would be 1.0.

§ 723.474 *Instructions and forms.* The Director, Tobacco Branch, Production and Marketing Administration, shall cause to be prepared and issued such forms as are necessary and shall cause to be prepared such instructions as are necessary for carrying out §§ 723.471 to 723.488. The forms and instructions shall be approved by, and the instructions shall be issued by, the Assistant Administrator for Production, Production and Marketing Administration.

§ 723.475 *Applicability of §§ 723.471 to 723.488.* Sections 723.471 to 723.488 shall govern the establishment of farm acreage allotments and normal yields for tobacco in connection with farm marketing quotas for the marketing year beginning October 1, 1953. The applicability of §§ 723.471 to 723.488 is contingent upon the proclamation of a national marketing quota for cigar-filler tobacco by the Secretary of Agriculture, and the approval thereof by growers voting in a referendum pursuant to section 312 of the Agricultural Adjustment Act of 1938, as amended.

HARVESTED ACREAGE, ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR OLD FARMS

§ 723.476 *Determination of harvested tobacco acreage for old farms.* The county committee shall determine from the best available data the acreage of tobacco harvested on each old tobacco farm for each of the years 1948–52. Data for making such determinations shall be taken from county office records, producers' sales records, producers' reports, and estimates of other persons having knowledge of tobacco produced on the farm. In determining the harvested acreage for any year, due allowance shall be made for drought, flood, hail, other abnormal weather conditions and plant bed and other diseases.

§ 723.477 *Determination of 1953 base acreages and 1953 preliminary acreage allotments for old farms.* (a) The base acreage for an old farm shall be the largest of the following:

(1) The average acreage of tobacco harvested on the farm in the five years 1948–52, except that if the five-year average is in excess of the three year, 1950–52, average, it shall be reduced to the larger of such three-year average or 50 percent of the five-year average;

(2) 80 percent of the average acreage of tobacco harvested on the farm in the past three years 1950–52; or

(3) 45 percent of the acreage of tobacco harvested on the farm in 1952.

The base acreage for an old farm may be increased or decreased if the community and county committees find that such increase or decrease is necessary to establish a base acreage for such farm which is fair and equitable in relation to the base acreages for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, or other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the total of the base acreages, as increased or decreased, for all old tobacco farms in the county shall not exceed one hundred and two percent (102%) of the total of the base acreages for all old tobacco farms in the county prior to the making of any such increase or decrease: *And provided further*, That no base acreage shall be (i) increased above the acreage capacity of shed space which is in usable condition and available for curing tobacco produced on the farm; (ii) decreased below the smaller of the average acreage of tobacco harvested on the farm during the years 1950, 1951 and 1952 or the acreage capacity of shed space which is in usable condition and available for curing tobacco produced on the farm; or (iii) less than 0.1 acre.

(b) The preliminary acreage allotment for any old farm shall be the base acreage for the farm, as increased or decreased under paragraph (a) of this section.

§ 723.478 *1953 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 723.477 shall be adjusted uniformly so that the total of such allotments plus the acreage available for adjusting acreage allotments for old farms pursuant to § 723.479 shall not exceed the State acreage allotment: *Provided*, That if the acreage allotment so determined for any farm (except farms operated, controlled, or directed by a person who also operates, controls, or directs another farm on which tobacco is produced) is less than that acreage which, with the normal yield for the farm, would produce 2,400 pounds of tobacco, then such acreage allotment shall be increased to the smaller of (a) 120 percent thereof, or (b) that acreage which, with the normal yield for the farm, would produce 2,400 pounds of tobacco.

§ 723.479 *Adjustment of acreage allotments for old farms.* Notwithstanding the limitations contained in § 723.478 the farm acreage allotment for an old farm may be increased if the community and county committees find that such increase is necessary to establish an allotment for such farm which is fair and equitable in relation to the allotments for other old farms in the community, on the basis of the past acreage of tobacco, making due allowances for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop rotation practices; and the soil and other physical factors affecting the production of tobacco. The acreage available for increasing allotments under this section shall not exceed 2 percent of the 1953 State acreage allotment.

§ 723.480 *Relocation of allotments released from farms removed from agricultural production.* The allotment determined or which would have been determined for any land which is removed from agricultural production for any purpose because of acquisition by any Federal, State, or other agency having a right of eminent domain shall be placed in the State pool and shall be available to the State committee for use in providing equitable allotments for farms owned or purchased by owners displaced because of acquisition of their farms by such agencies. Upon application to the county committee, within five years from the date of such acquisition of the farm, any owner so displaced shall be entitled to have an allotment for any other farm owned or purchased by him equal to an allotment which would have been determined for such other farm plus the allotment which would have been determined for the farm so acquired: *Provided*, That such allotment shall not exceed 20 percent of the acreage of cropland on the farm.

§ 723.481 *Farms divided or combined.* (a) If land operated as a single farm in 1952 will be operated in 1953 as two or more farms, the 1953 preliminary tobacco acreage allotment determined or which otherwise would have been determined for the entire farm shall be apportioned among the tracts in the same proportion as the acreage of cropland available for the production of tobacco in each such tract in such year bore to the total number of acres of cropland available for the production of tobacco on the entire farm in such year, except that, upon recommendation of the county committee, and with State committee approval and agreement of the interested parties in writing, the preliminary tobacco acreage allotment determined or which otherwise would have been determined for the entire farm may be apportioned among the tracts in the same proportion as the 1948–52 five-year average acreage of tobacco harvested on each such tract bore to the 1948–52 five-year average of the acreage of tobacco harvested on the entire farm: *Provided*, That with the recommendation of the county committee and approval of the State committee and with the written agreement of all interested persons, the preliminary tobacco acreage allotment determined for a tract under the provisions of this paragraph may be increased or decreased by not more than the larger of one-tenth acre or 10 percent of the 1953 preliminary acreage allotment determined for the entire farm with corresponding increases or decreases made in the preliminary acreage allotment apportioned to the other tract or tracts.

(b) If two or more farms operated separately in 1952 are combined and operated in 1953 as a single farm, the 1953 preliminary allotment shall be the sum of the 1953 preliminary allotments determined for each of the farms comprising the combination.

(c) If a farm is to be divided in 1953 in settling an estate, the preliminary allotment may be divided among the various tracts in accordance with paragraph (a) of this section, or on such other basis as the State committee determines will result in equitable farm allotments.

§ 723.482 *Determination of normal yields.* The normal yield for any old farm shall be that yield which the county committee determines is normal for the farm taking into consideration (a) the yields obtained on the farm during the years 1946–51 for which data are available; (b) the soil and other physical factors affecting the production of tobacco on the farm; and (c) the yields obtained on other farms in the locality which are similar with respect to such factors.

ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR NEW FARMS

§ 723.483 *Determination of acreage allotments for new farms.* (a) The acreage allotment, other than an allotment made under § 723.480, for a new farm shall be that acreage which the county committee determines is fair and reasonable for the farm taking into consideration the past tobacco experience of the farm operator; the land, labor, and equipment available for the production of tobacco; crop-rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided*, That the acreage allotment so determined shall not exceed 75 percent of the allotments for old tobacco farms which are similar with respect to land, labor, and equipment available for the production of tobacco, crop-rotation practices, and the soil and other physical factors affecting the production of tobacco.

(b) Notwithstanding any other provisions of this section a tobacco acreage allotment shall not be established for any new farm unless each of the following conditions has been met:

(1) The farm operator shall have had experience during two of the past five years in the kind of tobacco for which an allotment is requested and such experience shall have been for the entire crop year beginning with the preparation of the plant bed and extending through preparation of the tobacco for market: *Provided*, That a farm operator who was in the armed services after September 16, 1940, shall be deemed to have met the requirements hereof if he has had such experience during one year either within the five years immediately prior to his entry into the armed services or within the five years immediately following his discharge from the armed services and if he files an application for an allotment within five crop years from date of discharge.

(2) The farm operator shall be largely dependent for his livelihood on the farm covered by the application.

(3) The farm covered by the application shall be the only farm owned or operated by the owner or farm operator for which a cigar-filler (type 41) tobacco allotment is established for the 1953–54 marketing year.

(c) The acreage allotments established as provided in this section shall be subject to such downward adjustment as is necessary to bring such allotments in line with the total acreage available for allotment to all new farms. One percent of the 1953 national marketing quota shall, when converted to an acreage allotment by use of the national average yield, be available for establishing allotments for new farms. The national average yield shall be the average of the several State yields used in converting the State marketing quota into State acreage allotments.

§ 723.484 *Time for filing application.* An application for a new farm allotment shall be filed with the county committee prior to February 1, 1953, unless the farm operator was discharged from the armed services subsequent to December 31, 1952, in which case such application shall be filed within a reasonable period prior to planting tobacco on the farm.

§ 723.485 *Determination of normal yields.* The normal yield for a new farm shall be that yield per acre which the county committee determines is normal for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

MISCELLANEOUS

§ 723.486 *Determination of acreage allotments and normal yields for farms returned to agricultural production.* (a) Notwithstanding the foregoing provisions of §§ 723.471 to 723.485, the preliminary acreage allotment for any farm which was acquired by any Federal, State, or other agency having the right of eminent domain for any purpose and which is returned to agricultural production shall be the sum of the acreages of tobacco harvested on the farm during the five years 1948–52 divided by the number of years for which tobacco was harvested on the farm during such five-year period. If no tobacco was harvested on the farm during the five years 1948–52, the farm returned to agricultural production shall be regarded as a new farm.

(b) The normal yield for any such farm shall be that yield per acre which the county committee determines is reasonable for the farm as compared with yields for other farms in the locality on which the soil and other physical factors affecting the production of tobacco are similar.

§ 723.487 *Approval of determinations made under §§ 723.471 to 723.486.* The State committee will review all allotments and yields and may correct or require correction of any determinations made under §§ 723.471 to 723.486. All acreage allotments and yields shall be approved by the State committee, and no official notice of acreage allotment shall be mailed to a grower until such allotment has been approved by the State committee.

§ 723.488 *Application for review.* Any producer who is dissatisfied with the farm acreage allotment and marketing quota established for his farm, may, within fifteen days after mailing of the official notice of the farm acreage allotment and marketing quota, file application with the county committee to have such allotment reviewed by a review committee. The procedures governing the review of farm acreage allotments and marketing quotas are contained in the regulations issued by the Secretary (7 CFR Part 711) which are available at the office of the county committee.

Done at Washington, D. C., this 17th day of July 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter G—Determination of Proportionate Shares

[Sugar Determination 857.5]

PART 857—PUERTO RICO

1952–53 CROP

Pursuant to the provisions of section 302 of the Sugar Act of 1948, as amended (herein referred to as "act"), the following determination is hereby issued:

§ 857.5 *Proportionate shares for sugarcane farms in Puerto Rico for the 1952–53 crop*—(a) *Farm proportionate share.* A proportionate share shall be established for the farm, as constituted November 1, 1952, in terms of sugar, 96° basis, in the manner provided in this paragraph and such share shall be used on that basis until converted to its raw value equivalent in accordance with paragraph (b) of this section for the purpose of computing the payment for the farm.

(1) *Old farms.* The proportionate share for the farm (except those farms covered by subparagraph (2) of this paragraph) shall be determined by applying to the farm base established under subparagraph (4) of this paragraph, an adjustment factor to be computed (i) by subtracting from 1,100,000 short tons, the production required from the 1952–53 crop under section 302 (a) of the act, the estimated amount of marketings resulting from the application of subparagraphs (2) and (3) of this paragraph, (ii) by dividing the result by the estimated total of the bases for all farms to which this subparagraph applies (the foregoing amounts shall be expressed in terms of sugar raw value), and (iii) by reducing the quotient by the percentage by which the total amount of sugar, 96° basis, produced in Puerto Rico from the 1949–50, 1950–51, and 1951–52 crops is less than the total raw value equivalent of such sugar. The adjustment factor so computed will be published by amendment to this determination.

(2) *Small farms.* The proportionate share for any farm for which a base is established pursuant to subparagraph (4) of this paragraph shall not be less than the smaller of (i) the actual 1952–53 production on the farm or (ii) 10 short tons of sugar, 96° basis.

(3) *New farms.* The proportionate share for any farm from which no sugarcane was marketed (or processed) for the extraction of sugar or liquid sugar during the base period specified in subparagraph (4) of this paragraph (herein referred to as "new" farm) shall be the smaller of (i) the actual 1952–53 production on the farm or (ii) 10 tons of sugar, 96° basis, except that for any such farm on which sugarcane of the 1952–53 crop was planted prior to January 11, 1952, and the yield will be more than 10 tons of sugar, the proportionate share shall be the larger of 10 tons of sugar, 96° basis, or 30 percent of the amount of sugar recoverable therefrom as appraised by the Caribbean Area Office of the Production and Marketing Administration, San Juan 21, Puerto Rico (herein referred to as "Area Office").

(4) *Farm bases.* A base shall be established for each farm from which sugarcane was marketed (or processed) for the extraction of sugar or liquid sugar from any of the 1947–48, 1948–49, 1949–50, 1950–51 and 1951–52 crops (herein referred to as the "base period") by adding (i) 40 percent of the highest production of sugar, raw value, from sugarcane marketed (or processed) from the farm from any crop in the base period and (ii) 60 percent of the result obtained by dividing by 4 the total production of sugar, raw value, for the farm for the other 4 years of the base period.

(5) *Transfer of farm bases.* The farm base established or which would have been established for any land which is removed from sugarcane production because of acquisition by purchase or lease by any Federal, Insular, or other agency having a right of eminent domain shall be available for use in providing an equitable farm base for land owned, purchased, or leased by the owner of the land so acquired by any of such agencies. Upon application to the Area Office, within five years from the date of such acquisition, any such owner shall be entitled to a farm base for any other land owned, purchased, or leased by him equal to the farm base which would have been established for such other land, plus the farm base which would have been established for the land so acquired: *Provided*, That neither the farm base nor the combined farm bases shall exceed the production capacity for the farm so owned, purchased, or leased as determined by the Caribbean Area Committee of the PMA (herein referred to as "Committee").

(6) *Reallotment of deficits.* If the proportionate share established in accordance with the foregoing provisions for any farm is not filled, the proportionate shares for all other farms within the same sugar mill area which can supply additional sugar shall be increased by prorating the aggregate amount of such deficits among such farms on the basis of their proportionate shares established under the other provisions of this paragraph.

(7) *Tolerances.* The requirements of section 301 (b) of the act with respect to the amount of sugarcane grown and marketed (or processed) from the farm shall be deemed to have been met if the amount of sugar recovered therefrom does not exceed the proportionate share for such farm by more than the applicable tolerance in the table below: *Provided, however*, That any amount of sugar within the applicable tolerance shall be excluded in computing the amount of sugar on which payment is made with respect to such farm under section 302 (a) of the act.

[Short tons of sugar, 96° basis]

Proportionate shares:	Tolerance
Not more than 15	1.0
More than 15 but not more than 25	1.5
More than 25 but not more than 40	2.0
More than 40 but not more than 65	2.5
More than 65 but not more than 100	3.0
More than 100 but not more than 150	3.5
Proportionate shares:	Tolerance
More than 150 but not more than 300	4.0
More than 300 but not more than 750	4.5
More than 750	(1)

[1] 5.0 or ¼ of 1 percent of the proportionate share, whichever is larger.

(8) *Delegation.* Farm bases and farm proportionate shares shall be established and reallotment of deficits shall be made by the Director of the Area Office (herein referred to as "Director") in accordance with this determination and instructions issued by the Assistant Administrator for Production, PMA.

(9) *Appeals.* The producer of sugarcane on any farm who is subjected to an undue hardship by reason of the proportionate share established for his farm pursuant to this determination may, not later than 15 days after notice thereof is forwarded to him, file an appeal with the Committee, c/o the Area Office. The Committee may adjust such proportionate share by an amount deemed to be equitable, after consideration of the interest of such producer as related to the interests of all other producers, and shall notify such producer of its decision in writing as soon as practicable, but not later than 30 days after receipt of his appeal. If the producer is dissatisfied with the decision of the Committee he may, within 15 days after such decision is forwarded to him, appeal in writing to the Secretary of Agriculture, or the Secretary may, on his own initiative, within such 15-day period review the decision of the Committee. In either case, the Secretary may make such adjustment in the proportionate share as he deems necessary.

(b) *Sugar for payment.* For the purpose of determining payments pursuant to Title III of the act, the proportionate share established in accordance with this determination and the amount of sugar recoverable, 96° basis, from sugarcane of the 1952–53 crop marketed from the farm shall be converted to raw value on the basis of the average polarization of the sugar produced from 1952–53-crop sugarcane at the mill or mills where the sugarcane was processed. Such conversion shall be made in accordance with section 101 (h) of the act. The payment will be based on the amount of sugar recoverable, raw value, within the proportionate share.

(c) *Share tenant and share cropper protection.* In addition to compliance with the proportionate share for the farm in accordance with this determination, eligibility for payment of any producer of sugarcane shall be subject to the following conditions:

(1) That the number of share tenants or share croppers engaged in the production of sugarcane of the 1952–53 crop on the farm shall not be reduced below the number so engaged with respect to the previous crop, unless such reduction is approved by the Director; and

(2) That such producer shall not have entered into any leasing or cropping agreement for the purpose of diverting to himself or any other producer any payments to which share tenants or share croppers would be entitled if their

leasing or cropping agreements for the previous crop were in effect.

STATEMENT OF BASES AND CONSIDERATIONS

Sugar act requirements. Section 301 (b) of the act provides as a condition for payment to producers, that there shall not have been marketed (or processed) an amount (in terms of planted acreage, weight, or recoverable sugar content) of sugarcane grown on the farm and used for the production of sugar or liquid sugar in excess of the proportionate share for the farm, as determined by the Secretary, of the total quantity of sugarcane required to be processed to enable the area to meet the quota (and provide a normal carryover inventory) as estimated by the Secretary for such area for the calendar year during which the larger part of the sugar or liquid sugar from such crop normally would be marketed.

Section 302 (a) of the act provides that the amount of sugar with respect to which payment may be made shall be the amount of sugar commercially recoverable from the sugarcane grown on the farm and marketed (or processed by the producer) not in excess of the proportionate share for the farm.

Section 302 (b) provides that in determining the proportionate share for a farm the Secretary may take into consideration the past production on the farm of sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugarcane, and that the Secretary shall, insofar as practicable, protect the interests of new producers and small producers, and the interests of producers who are cash tenants, share tenants, or share croppers.

General. Proportionate shares for sugarcane farms must be established for each crop since the marketing of sugarcane within such shares by producers constitutes one of the conditions for payment under the act. Restrictive proportionate shares are required in any area when the indicated production will be greater than the quantities needed to fill the quota and provide a normal carryover inventory for such area.

Production of sugarcane in Puerto Rico has increased significantly since World War II. The five prewar crop years, 1937–38 through 1941–42, averaged about one million tons of sugar while the five postwar crop years, 1946–47 through 1950–51, averaged about 1,200,000 tons. This latter average is about 200,000 tons in excess of the annual basic quotas for Puerto Rico during this period. The production from the 1951–52 crop is currently estimated at approximately 1,360,000 tons.

Restrictions on the 1949–50 and 1950–51 crops appeared necessary and the initial determinations issued for these crops provided the mechanism for limiting the marketing of sugarcane. However, restrictions were not required because unusual marketing outlets developed, quota deficits occurred in other areas and the demand for sugar increased rapidly after the outbreak of hostilities in Korea. During the first half of 1951, world market prices of raw sugar rose sharply, reaching a high point in June of $8.05 per 100 pounds, f. a. s. Cuba, as compared with $5.80 for U. S. quota sugar and threatened to endanger our supplies. This situation together with continued unsettled international conditions made it advisable to maintain domestic sugar supplies at higher levels than would have been considered necessary otherwise. Although the supply and demand situation changed in the fall of 1951, it was too late then to restrict the 1951–52 crop.

Situation indicated for 1953. The major portion of the sugar extracted from sugarcane crops in Puerto Rico is normally marketed in the year in which it is produced, with the balance being carried over into the following year. The carryover on January 1, 1952, of approximately 120,000 tons and the estimated production from the current crop of 1,360,000 tons provide a supply of 1,480,000 tons for marketing in 1952. The marketing of the basic quotas for Puerto Rico for 1952 of 1,010,000 tons (910,000 tons mainland quota and 100,000 tons local quota), together with currently reported sales of about 135,000 tons in non-quota markets, leave a prospective carryover into 1953 of 335,000 tons. Such a carryover would tend to be further increased if the crop exceeds 1,360,000 tons and it will tend to be reduced by any prorations of deficits in quotas for other areas and any additional sales in non-quota markets in 1952. Although the exact amounts of production, deficit prorations and sales to non-quota markets will not be known until later in the year, the balances now anticipated appear to furnish a reasonable guide.

Even though the Sugar Act as recently amended, increases the mainland quota for Puerto Rico by 170,000 tons beginning in 1953, unrestricted production from the 1952–53 crop would likely result in stocks of sugar on January 1, 1954, considerably in excess of the quantity deemed to be a normal carryover. Under these conditions restrictions are required by the Sugar Act to bring sugar production and stocks to more appropriate levels.

1952–53 crop production. Obviously, if carryover stocks are to be reduced to normal levels, sugar production must be kept below marketing quotas. In view of the foregoing, a production of 1,100,000 tons from the 1952–53 crop would enable Puerto Rico to meet its quotas (and provide a normal carryover of sugar) for the calendar year 1953. It seems desirable to give producers the benefit of the estimated curtailment in sugar production which will be required for their farms, so that they may make plans to the best possible advantage. The formula provided by this determination for the establishment of farm proportionate shares requires the use of some data that will not be available until later in the year, thereby necessitating the use of estimates. It is estimated that the farm bases, except for small farms, calculated pursuant to the formula provided for herein, will be subject to an adjustment factor of 0.85. When more accurate data become available later in the year, a definite adjustment factor will be announced.

Public hearing. Since any curtailment of the marketing of sugarcane is of vital importance to the industry, an informal public hearing was held in San Juan, Puerto Rico on February 7, 1952, to call attention to the situation in that area and to obtain the views of all interested persons on the subject. The Department announced on January 11, 1952, a tentative method for the establishment of proportionate shares for sugarcane farms and this plan was also presented at the hearing. More than 100 persons attended the hearing, 15 of whom presented testimony. In addition, several briefs have been submitted within the time limit specified at the hearing. The majority of those testifying were in general agreement with the method suggested by the Department. However, recommendations to vary the formula included (a) the selection of the highest production for the farm for any one of the crops within the base period instead of the highest of the 3 most recent crops, (b) the use of 80 percent of the normal yield instead of the actual production if the actual production from any crop from the farm in the base period was below 80 percent of the normal yield established by applicable determinations of the Secretary and such farm qualified for a deficiency payment, and (c) a change in the weightings to be given to the standards of past production and ability to produce, particularly with respect to farms which have only recently been engaged in the production of sugarcane.

It seemed to be generally realized by those attending the hearing that the stocks of sugar at the end of 1953 would likely be substantially in excess of a desirable carryover for the area. The testimony indicated that a gradual reduction in these stocks should be made rather than a drastic curtailment of sugar production immediately.

Determination. Consideration has been given to the testimony presented at the hearing and to briefs filed within the time prescribed. The method adopted is the one presented at the hearing, except that the measure of "ability to produce" has been modified to conform to the recommendations received at the hearing. The method provides for the use of a 5-year base period comprised of the crops 1947–48 through 1951–52. The farm base will be established by adding the results obtained by (a) assigning a weight of 40 percent to the highest production from the farm for any one of the crops in the base period as the measure of "ability to produce" and (b) assigning a weight of 60 percent to the result obtained by dividing by 4 the total production from the farm for the other four years in the base period as the measure of "past production." A higher percentage weighting has been assigned to "past production" than to "ability to produce", since the highest year of production is used as the measure for ability, whereas four years are used for measuring past production. The proportionate shares for farms for which bases are established will be computed by applying a uniform adjustment factor. This factor will be determined by subtracting the estimated 1952–53 crop production

for small and new farms from 1,100,000 tons and by dividing the result by the estimated total of the farm bases to be determined by the formula provided in this determination. An estimated adjustment factor has been included herein only as a guide.

The proportionate share for any small farm which produced sugar in the base period will be 10 tons of sugar or the actual production, whichever is the smaller. While more than half of the farms produce less than 10 tons of sugar, this production accounts for only about 5 percent of the total. To curtail the production from these farms would result in hardships for many of the producers.

New farms will be limited to 10 tons of sugar, except for those on which sugarcane was planted prior to the announcement of the hearing regarding restrictions. The proportionate share for such a farm will be the larger of 30 percent of the appraised production or 10 tons. Sugarcane of the 1947–48 crop was harvested from about 13,600 farms and for the 1951–52 crop the number of farms will exceed 17,000, or an increase of 20 percent. The number of farms has increased in about the same ratio as the production of sugar during the base period.

Marketing tolerances have been provided which range from 1 ton of sugar for farms having proportionate shares of 15 tons or less to 5 tons or ¼ of 1 percent, whichever is larger, for farms with shares in excess of 750 tons. Such tolerances are needed because yields of sugar cannot be determined in advance with accuracy. The prorations of deficits in proportionate share marketings to other farms in the same mill area will tend to assure that the production objective will be attained. Provision has also been made for consideration by the local farmer Committee of hardships that may arise under the program. Because of the possibility of the acquisition of sugarcane land by Agencies having the right of eminent domain, a provision has been included to provide for the transfer of the farm bases applicable to such land to other land owned, purchased, or leased by the owners of the land so acquired. Share tenant and share cropper protection remains unchanged from previous determinations.

A recommended provision for the substitution of 80 percent of the calculated normal yield for the actual production in establishing farm bases for farms qualifying for crop deficiency payments has not been adopted. It is believed that the use of a 5-year base period and the selection, as a measure of ability, of the highest production from any crop during such period will tend to provide equitable treatment without adjustments for production not actually attained. The principle of using 5-year moving base periods in determining normal yields for farms has been adopted for all sugarcane areas. A provision for adjusting the production only for those farms receiving crop deficiency payments would exclude a number of farms which also had deficiencies in production below 80 percent of normal, but did not receive such payments because they were not located in an approved deficiency area.

In any restrictive crop program there are necessarily many conflicting interests which must be considered. The problem has been made more difficult because of the substantial increase in the number of farms in recent years. However, it is believed that the method adopted is the most equitable basis for establishing proportionate shares.

Accordingly, I hereby find and conclude that the foregoing determination will effectuate the applicable provisions of the Sugar Act of 1948.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup., 1153. Interprets or applies sec. 302, 61 Stat. 930; 7 U. S. C. Sup., 1132)

Issued this 17th day of July 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 71]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 600 is amended as follows:

1. Section 600.6002 is amended by changing the caption to read: "*VOR civil airway No. 2 (Seattle, Wash., to Boston, Mass.)*" and by adding the following first portion to read: "From the Seattle, Wash., omnirange station to the Ellensburg, Wash., omnirange station."

2. Section 600.6004 is amended by changing the caption to read: "*VOR civil airway No. 4 (Seattle, Wash., to Washington, D. C.)*", and by changing the first portion to read: "From the Seattle, Wash., omnirange station via the Ellensburg, Wash., omnirange station; intersection of the Ellensburg omnirange 191° True and the Yakima omnirange 304° True radials; Yakima Wash., omnirange station, excluding those portions which overlap danger areas; Pendleton, Oreg., omnirange station;"

3. Section 600.6025 is amended by changing the caption to read: "*VOR civil airway No. 25 (Oakland, Calif., to Ellensburg, Wash.)*", and by adding the following last portion to read: "From the Yakima, Wash., omnirange station via the intersection of the Yakima omnirange 304° True and the Ellensburg omnirange 191° True radials to the Ellensburg, Wash., omnirange station, excluding those portions which overlap danger areas."

4. Section 600.6103 is amended to read:

§ 600.6103 *VOR civil airway No. 103 (Pendleton, Oreg., to Spokane, Wash.).* From the Pendleton, Oreg., omnirange station to the Spokane, Wash., omnirange station.

5. Section 600.6111 is added to read:

§ 600.6111 *VOR civil airway No. 111.* [Unassigned.]

6. Section 600.6112 is added to read:

§ 600.6112. *VOR civil airway No. 112 (Portland, Oreg., to Pendleton, Oreg.).* From the Portland (Manor), Oreg., omnirange station via the The Dalles, Oreg., omnirange station; intersection of the The Dalles omnirange 096° True and the Pendleton omnirange 254° True radials to the Pendleton, Oreg., omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001, e. s. t., July 22, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[Amdt. 77]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 601 is amended as follows:

1. Section 601.6002 is amended by changing the caption to read: "*VOR civil airway No. 2 control areas (Seattle, Wash., to Boston, Mass.).*"

2. Section 601.6004 is amended by changing the caption to read: "*VOR civil airway No. 4 control areas (Seattle, Wash., to Washington, D. C.).*"

3. Section 601.6025 is amended by changing the caption to read: "*VOR civil airway No. 25 control areas (Oakland, Calif., to Ellensburg, Wash.).*"

4. Section 601.6103 is amended to read:

§ 601.6103 *VOR civil airway No. 103 control areas (Pendleton, Oreg., to Spokane, Wash.).* All of VOR civil airway No. 103.

5. Section 601.6111 is added to read:

§ 601.6111 *VOR civil airway No. 111 control areas.* [Unassigned.]

6. Section 601.6112 is added to read:

§ 601.6112 *VOR civil airway No. 112 control areas (Portland, Oreg., to Pendleton, Oreg.).* All of VOR civil airway No. 112.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t., July 22, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-8016; Filed, July 21, 1952; 8:59 a. m.]

[Amdt. 16]

PART 610—MINIMUM EN ROUTE INSTRUMENT ALTITUDES

ALTERATIONS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable. Part 610 is amended as follows:

1. The footnote to § 610.5 *Minimum en route IFR altitudes along particular routes* is amended as follows:

The Union intersection is altered to read: "Union intersection: The intersection of the South Bend, Indiana, 76° true radial and the Goshen, Indiana, 22° true radial."

2. Section 610.6002 *VOR Civil Airway No. 2* is amended by adding:

From—	To—	Minimum altitude
Seattle, Wash. (VOR)..	Ellensburg, Wash. (VOR).	8,000

3. Section 610.6004 *VOR Civil Airway No. 4* is amended to eliminate:

From—	To—	Minimum altitude
Portland (Manor), Oreg. (VOR).	The Dalles, Oreg. (VOR).	8,000
The Dalles, Oreg. (VOR).	Pendleton, Oreg. (VOR).	4,000

4. Section 610.6004 *VOR Civil Airway No. 4* is amended by adding:

From—	To—	Minimum altitude
Seattle, Wash. (VOR)..	Ellensburg, Wash. (VOR).	8,000
Ellensburg, Wash. (VOR).	Int. Ellensburg, Wash. (VOR) rad. 191° true & Yakima, Wash. (VOR) rad. 304° true.	5,500
Int. Ellensburg, Wash. (VOR) rad. 191° true & Yakima, Wash. (VOR) rad. 304° true.	Yakima, Wash. (VOR).	4,500
Yakima, Wash. (VOR).	Pendleton, Oreg. (VOR).	5,000

5. Section 610.6011 *VOR Civil Airway No. 11* is amended to read in part:

From—	To—	Minimum altitude
Indianapolis, Ind. (VOR).	Fort Wayne, Ind. (VOR).	2,200

6. Section 610.6012 *VOR Civil Airway No. 12* is amended by adding:

From—	To—	Minimum altitude
Daggett, Calif. (VOR)..	Needles, Calif. (VOR)	9,000
Needles, Calif. (VOR)..	Prescott, Ariz. (VOR).	10,000
Prescott, Ariz. (VOR)..	Winslow, Ariz. (VOR).	10,000
Winslow, Ariz. (VOR).	Zuni, N. Mex. (VOR)	10,000

7. Section 610.6023 *VOR Civil Airway No. 23* is amended by adding:

From—	To—	Minimum altitude
Red Bluff, Calif. (VOR).	Fort Jones, Calif. (VOR).	11,000
Redding, Calif. (FM)..	Red Bluff, Calif. (VOR) (southbound only).	3,000
Fort Jones, Calif. (VOR).	Medford, Oreg. (VOR) [1].	10,000

[1] 8,500'—minimum crossing altitud at Medford (VOR), south-bouud.

8. Section 610.6025 *VOR Civil Airway No. 25* is amended by adding:

From—	To—	Minimum altitude
Ellensburg, Wash. (VOR).	Int. Ellensburg, Wash. (VOR) rad. 191° true & Yakima, Wash. (VOR) rad. 304° true.	5,500
Int. Ellensburg, Wash. (VOR) rad. 191° true & Yakima, Wash. (VOR) rad. 304° true.	Yakima, Wash. (VOR).	4,500

9. Section 610.6051 *VOR Civil Airway No. 51* is amended to read in part:

From—	To—	Minimum altitude
Nabb (INT), Ind.....	Int. Louisville, Ky. 356° true rad. & Indianapolis, Ind. 137° true rad.	4,800

10. Section 610.6066 *VOR Civil Airway No. 66* is amended by adding:

From—	To—	Minimum altitude
Columbus, N. Mex. (VOR) N. alternate.	El Paso, Tex. (VOR) N. alternate.	9,200

11. Section 610.6103 *VOR Civil Airway No. 103* is added to read:

From—	To—	Minimum altitude
Pendleton, Oreg. (VOR).	Spokane, Wash. (VOR).	5,500

12. Section 610.6112 *VOR Civil Airway No. 112* is added to read:

From—	To—	Minimum altitude
Portland (Manor), Oreg. (VOR).	The Dalles, Oreg. (VOR).	7,000
The Dalles, Oreg. (VOR).	Pendleton, Oreg. (VOR).	4,000

13. Section 610.19 *Green Civil Airway No. 9* is amended to read in part:

From—	To—	Minimum altitude
South Port Allen (INT).	Makai (DNT): East-bound.....	2,000
	West-bound.....	1,000

14. Section 610.101 *Amber Civil Airway No. 1* is amended to read in part:

From—	To—	Minimum altitude
Fort Jones, Calif. (LFR).	Medford, Oreg. (LFR) [1].	10,000

[1] 8,000'—minimum crossing altitude at Medord (LFR), south-bound.

15. Section 610.644 *Blue Civil Airway No. 44* is amended to read in part:

From—	To—	Minimum altitude
Indianapolis, Ind. (LFR).	Kokomo, Ind. (RBN)..	2,200

16. Section 610.669 *Blue Civil Airway No. 69* is amended to read in part:

From—	To—	Minimum altitude
Jerseyville (INT), Mo..	Quincy, Ill. (LF/RBN).	2,000
Quincy, Ill. (LF/RBN)..	Int. 323° true bearing from Quincy, Ill. (LF/RBN) & SW crs. Burlington, Iowa (LFR).	2,500
Int. 323° true bearing from Quincy, Ill. (LF/RBN) & SW crs. Burlington, Iowa (LFR).	Ottumwa, Iowa (LF/RBN).	2,000
Ottumwa, Iowa (LF/RBN).	Des Moines, Iowa (LFR).	2,200

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter E—Organized Reserves

PART 562—RESERVE OFFICERS' TRAINING CORPS

MISCELLANEOUS AMENDMENTS

The first sentence of § 562.27 (a) is amended, and § 562.35 is revised, as follows:

§ 562.27 *Training of students ineligible for enrollment.* (a) When desired by institutional authorities, male students who for any reason cannot be enrolled in the ROTC may be permitted to pursue the ROTC course without expense to the Government. • • •

§ 562.35 *Transfer between Army ROTC, Navy ROTC, and Air Force ROTC and from other Army ROTC units to Medical Corps ROTC units.* (a) Students may be transferred, at their own request, between the Navy ROTC, the Air Force ROTC, and the Army ROTC under the following conditions:

(1) Students may transfer between the Army ROTC and the Air Force ROTC at any time prior to admission to the advanced course with the approval of the professor of military science and tactics and the professor of air science and tactics concerned.

(2) Advanced course students who are under contract with the Army, the Navy, or the Air Force must obtain the approval of the proper authorities of the service in which enrolled and with which the contract was made before the contract may be terminated and request for transfer to an ROTC unit of another service is approved. The proper authorities for approval of termination of contracts in connection with such request for transfer are as follows:

(i) *Army ROTC students.* Approval must be obtained from the professor of military science and tactics and the army commander.

(ii) *Air Force ROTC students.* Approval must be obtained from the professor of air science and tactics and the Air Force commander.

(iii) *Contract students of Navy ROTC.* Approval must be obtained from the professor of naval science and the Bureau of Naval Personnel.

(3) In all instances, transfers will be limited to exceptional cases. The professor of military science and tactics, after careful consideration of the effect such tranfers will have on the percentage distribution necessary to achieve the procurement objective of each service, will approve only those requests for transfer to the Army ROTC when it has been determined that the student concerned will complete the entire program of instruction which, in the case of advanced course students, will include ROTC training camp. Credit may be granted for that part of the course which the student successfully completed in the Navy or the Air Force ROTC which, in the opinion of the professor of military science and tactics, is substantially equivalent to the curriculum prescribed for the branch in which the student will enroll in the Army ROTC.

(4) Requests for interservice ROTC transfers should contain an indorsement from the officer in charge of the unit to which transfer is being requested, indicating tentative approval of transfer, contingent upon approval of the proper authorities of the service from which the student is requesting transfer.

(b) Students may be transferred, at their own request, from other Army ROTC units to the Medical Corps ROTC units in the following manner:

(1) Basic course students may transfer to a Medical Corps ROTC unit from other Army ROTC units at any time prior to admission to the advanced course with the approval of the professor of military science and tactics concerned.

(2) Advanced course students under contract who transfer their academic subjects to the field of medicine may transfer to a Medical Corps ROTC unit with the approval of the professor of military science and tactics and the army commanders concerned.

(3) Basic and advanced course students may receive hour-for-hour credit on a subject-for-subject basis for previous basic course training as determined by the professor of military science and tactics of the Medical Corps unit.

(c) Discharge of students for the purpose of accomplishing transfers under the provisions of this paragraph will be for the convenience of the Government Reimbursement by the student of funds paid under the old contract will not be required.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Interpretation 4]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

INT. 4—COMBINATION OF RETAIL SELLERS (SECTIONS 39, 39 (a), 42 (c))

The question has been raised as to whether two merchants who had operated independently of each other on the list date and thereafter combined their operations under a new corporate name may price uniformly.

Two such sellers may combine and become a "single seller", pricing uniformly and centrally for their existing stores, by following the procedure set forth in section 7 of SR 1 to CPR 7 for the preparation and filing of a master chart.

If they combine their physical stocks in one store, however, they must adopt the chart of the store having the greater volume, as provided in section 42 (c) of CPR 7. For the purposes of this regulation the coverage of section 42 (c) is strictly limited to the situation where there has been actual physical integration, as contemplated by the use of the phrase "one seller." It should be noted that this is a narrower concept than that of the "single seller" in section 7 of SR 1, which may include a centrally-owned chain of physically separate establishments.

Any additional stores opened by the corporation thereafter must follow section 39 of CPR 7. Such new units may price centrally and uniformly with the existing units in the circumstances described in section 39 (a).

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel, Office of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52-8105; Filed, July 21, 1952; 11:51 a. m.]

[Ceiling Price Regulation 7, Interpretation 5]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

INT. 5—PRICING FOR GOING STORE PURCHASED BY OWNER OF ANOTHER STORE (SECTION 42 OF CPR 7)

A retailer who already operates one store and purchases a second which is a going concern may not determine the ceiling prices for the newly acquired store merely by applying to it the ceiling prices of his old establishment. He is as to the newly acquired store a transferee subject to section 42 of CPR 7, and must continue to use the chart of his transferor for determining ceiling prices for articles sold in that store. He may become a single seller and determine uniform prices for both stores by following the procedure in section 7 of SR 1 to CPR 7 for preparing and filing a master chart.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel, Office of Price Stabilization.

[Ceiling Price Regulation 30, Amdt. 34]

CPR 30—MACHINERY AND RELATED MANUFACTURED GOODS

CEILING PRICES FOR MODIFIED COMMODITIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 34 to Ceiling Price Regulation 30 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment provides a method for determining ceiling prices for commodities which have been substantially modified by the manufacturer.

Section 8 of Ceiling Price Regulation 30, as originally written, established a procedure by which base period prices were established for modified commodities. Since the issuance of Ceiling Price Regulation 30 it has become apparent that many manufacturers were experiencing some difficulty in establishing base period prices for modified items.

Manufacturers for whom subcontracted parts, subassemblies, and subcontracted services constitute substantial elements of costs find it burdensome to determine the cost of such items as of a given date. Many such manufacturers have confirmed that in such cases they have been forced to use section 10 which excludes the cost of such items from the cost adjustment calculations permitted by the regulation.

In addition, it has been brought to the attention of the Office of Price Stabilization that much difficulty is encountered in applying Supplementary Regulation 4 to modified commodities due to the fact that proper allocation of factory overhead and general administrative and selling expenses which were incurred in the pre-Korea period is almost impossible with respect to a commodity which was not produced during that period. Furthermore, it has been determined that a strict application of section 8 as it originally appeared in the regulation very often produces price distortions, particularly in the case of manufacturers who have used the alternative method of determining ceiling prices provided for in Supplementary Regulation 1.

This amendment revises section 8 and provides for a one-step calculation of ceiling prices rather than base period prices. It permits an adjustment of the ceiling price for the original commodity to reflect the modifications by subtracting the computed current total manufacturing cost of the operations or materials no longer going into the product and adding the current manufacturing cost of the new operations or materials involved in the modification. The resulting price is adjusted by applying thereto your customary class of purchaser differentials to determine the ceiling prices for those various classes of purchasers.

This amendment also changes the language of section 23 to make it clear that this section may not be used when there is a substitution of materials occurring after the dates specified in the regulation.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 30 is amended in the following respects:

1. The third sentence of section 3 (a) is amended to read as follows: "Sections 4, 5, 6, 7 and 9 tell you how to obtain your base period price; section 8 tells you how to obtain ceiling prices for modified commodities."

2. The third and fourth sentences of section 4 are amended to read as follows: "There is an exception in the case of a commodity for which you cannot establish a base period price under sections 7 or 9 during the base period you select. In that case, you may use for that commodity any other base period permitted under this section during which you can establish a base period price under the provisions of sections 7 or 9."

3. The introductory paragraph of section 6 is amended to read as follows:

SEC. 6. *How to obtain your base period price.* Sections 7 and 9 tell you how to establish your base period price. Section 8 tells you how to obtain a ceiling price for a modified commodity. You must use the first of these sections which is applicable to the commodity being priced. You should note in particular that you may use section 9 only in the event that it is impossible for you to obtain a base period price under the provisions of section 7 or a ceiling price under section 8 of this regulation. The following provisions of this section must be applied to every base period price.

4. Sec. 8 is amended to read as follows:

SEC. 8. *Ceiling prices for modified commodities*—(a) *Applicability.* This sec-

tion applies to a commodity (new and unused) for which you are able to find a base period price under section 7, or for which you have established a ceiling price under any other section of this regulation or any supplementary regulation to this regulation, but which you have substantially modified subsequent to the end of the base period, or subsequent to the establishment of a ceiling price under any other section of this regulation, or any supplementary regulation thereto. You are not obligated to recompute a ceiling price for any commodity modified before July 26, 1952, but, if you recompute a price for any commodity modified before that date you must recompute ceiling prices for all commodities modified on or after the date the commodity for which you did recompute was modified. If the modification constitutes only a minor change in design or construction which does not substantially affect unit manufacturing costs or materially alter the services given by the commodity, your ceiling price for the modified commodity shall be the same as your ceiling price for the commodity before modification.

(b) *Method for determining ceiling price.* The ceiling price for a modified commodity shall be computed in accordance with the following method:

(1) Using the costs as of the date of the modification in each calculation, figure the increases or decreases, attributable to the modification, of the following costs:

(i) Direct (factory) labor costs before and after modification of those portions which are modified, in each case using straight time labor rates in effect at your plant at the time of the modification.

(ii) In the same manner, the costs of materials, parts, subassemblies and components, not exceeding the applicable ceiling prices of your customary suppliers for your purchases in like quantities.

(iii) In the same manner, the costs of subcontracted services, not exceeding the applicable ceiling prices of your customary suppliers of subcontracted services, including the cost of transportation paid by you for shipment to you from your subcontractors, on the basis of rates in effect on the same date for your purchases in like quantities.

(iv) Royalty payments, if any, determined at the rates you pay on the date of the modification.

(v) Factory overhead, determined on the basis of the unit allocations in effect on the date of the modification.

(2) You then add or subtract the net increase or decrease in the cost calculated under the provisions of subparagraph (1) of this paragraph to or from your ceiling prices for the sale of the commodity before modification to your largest buying class of purchaser, then adjust the resulting price by applying thereto your customary class of purchaser differentials to determine your ceiling prices to those various classes of purchasers.

6. The introductory paragraph of section 9 is amended to read as follows:

SEC. 9. *Base period prices computed by formula.* This section is applicable only to a commodity for which you cannot determine the base period price under section 7 or a ceiling price under section 8 of this regulation. You determine your base period price for such a commodity or service by using either the price determining method which you last had in effect during your base period, or if you had no price determining method in effect during your base period, by using a price determining method approved by the Director of Price Stabilization. You use this price determining method to determine a base period price for the commodity or service to your largest buying class of purchaser.

7. Section 10 is amended to read as follows:

SEC. 10. *Computation of ceiling price where you are unable to determine your base period cost.* This section is applicable if you are unable to determine your base period cost of any material, part, subassembly, subcontracted service, or expendable tool, die, jig, fixture, mould, pattern or work-holding device, which you use in the production of a commodity for which you must obtain a base period price under section 9. This material, part, subassembly, subcontracted service, or expendable tool, die, jig, fixture, mould, pattern or work-holding device will be referred to in this section as the "item".

(a) You compute the base period price of the commodity in accordance with your base period price determining method or your price determining method approved by the Director, as the case may be, but you disregard the cost of the "item" in computing your base period price.

(b) Using the figure you derive under paragraph (a) as your base period price, you compute your ceiling price under section 3(a).

(c) You determine your current cost, not in excess of the applicable ceiling price, of the "item" you disregarded in the computation under paragraph (a) of this paragraph and add to this your mark-up over factory costs (total costs, less selling and general administrative expense) used in the price determining method you used in paragraph (a).

(d) You add the totals found under paragraphs (b) and (c). This is your ceiling price for the new commodity.

8. Section 23 is amended to read as follows:

SEC. 23. *How to compute net cost as of the applicable prescribed dates where you are using a substitute material not used during the base period.* In the case of a substitute material not used by you during the base period (or used in lesser quantities or proportions) in the manufacture of the commodity being priced, you must, if you are using Methods 2, 3 or 4 for calculating the "materials cost adjustment", compute the net cost to you as of the end of your base period of the physical amounts of the materials normally used by you in your base period and the net cost to you as of December 31, 1950, March 15, 1951, or August 1, 1951, whichever date is applicable, of the physical amounts of the materials normally used by you on those prescribed dates. The physical amounts of those materials normally used by you in your base period and the applicable prescribed date must relate to the same quantity of production of the commodities being priced in the case of Method 4, to a unit of the commodity being priced in the case of Method 2, and to a unit of the best selling commodity in the case of Method 3. Since this calculation cannot be made accurately under Method 1 (section 17), you may not use that method for any unit of your business in which you, on the applicable prescribed date, were using significant quantities of a substitute material whose unit cost on that date was lower than the unit cost on that date of the material used by you during the base period. However, if the unit cost on the applicable prescribed date of the substitute material was the same or higher than the unit cost on that date of the material used by you during the base period, you may use Method 1 but without making any allowance for the higher cost of the substitute material.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 26, 1952.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 67, Amdt. 10]

CPR 67—RESELLERS' CEILING PRICES FOR MACHINERY AND RELATED MANUFACTURED GOODS

USE OF SECTION 4 WHERE THE MANUFACTURER HAS CHANGED HIS DISCOUNTS SINCE JUNE 24, 1950, AND MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 10 to Ceiling Price Regulation 67 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes several changes in Ceiling Price Regulation 67, which are, for the most part, of a clarifying nature.

The first of these changes is the addition of a provision requiring that a reseller must determine his ceiling prices on the basis of his most recent net invoice or delivered cost, if during the period April 1 through June 24, 1950, he determined his selling prices on the basis of manufacturers' published list prices, but may not now use this list price to determine his ceiling price because the manufacturer has changed his discounts since June 24, 1950. These resellers determine their ceiling prices by applying to their most recent net invoice or delivered cost the highest percentage markup that they received on a sale of the same commodity or of the most comparable commodity to a purchaser of the same class during the period April 1 through June 24, 1950. Since these resellers were not actually using this method of determining selling prices during the period April 1 through June 24, 1950, but were rather using manufacturers' published list prices as a basis for determining selling prices, they must ascertain if their selling prices during this period were in fact based upon net invoice or delivered cost. The reason for this change is that CPR 67 presently requires such resellers to apply for methods of determining ceiling prices, and it is felt that the same result can be obtained more expeditiously in this manner.

This amendment also changes the definition of "net invoice cost" in order to make it clear that manufacturers' excise taxes may be included as a part of net invoice cost only in the event that the reseller included such taxes as a part of his net invoice cost during the period April 1 through June 24, 1950. Amendment 4 to Ceiling Price Regulation 67, which redefined the term net invoice cost to include manufacturers' excise taxes was intended to accomplish this result.

A further clarifying change is included in this amendment which points out that the cost used by a reseller, who determines his ceiling prices on the basis of net invoice or delivered cost, must be the cost of the commodity being priced when purchased from his normal source of supply or a customary source of supply for the same class of resellers of the same commodity. The normal source of supply for a retail reseller would be a wholesaler but not another retail reseller; and for a wholesale reseller, a distributor or a manufacturer but not another wholesale reseller of the same class.

In addition, this amendment changes the invoicing requirements of the regulation to provide that the invoice given to purchasers must include the brand or trade name only for a commodity whose selling price exceeds $10.00.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Ceiling Price Regulation 67 is amended in the following respects:

1. The introductory paragraph to section 4 is amended to read as follows:

SEC. 4. *Commodities not priced by the use of the manufacturer's published list price.* This section is applicable to commodities for which the manufacturer has not issued a published list price which he has determined under the applicable OPS regulation. Also, if during the period April 1 through June 24, 1950, the manufacturer had a published list price for the commodity you are pricing, or a commodity of the same type and you did not determine the selling price for these commodities by using the manufacturer's published price, you determine your ceiling price for these commodities under this section and not under section 3 of this regulation. In addition, if during the period April 1 through June 24, 1950, you determined your selling prices on the basis of the manufacturer's published list price but since June 24, 1950, the manufacturer has changed his discounts, you determine your ceiling prices under this section instead of section 3 unless the change in discounts has been approved in accordance with the applicable ceiling price regulation. You determine your ceiling price for a commodity covered by this section by multiplying your cost of the commodity, determined under paragraph (a) of this section, by your percentage markup determined under paragraphs (b) and (c) of this section. You use paragraph (b) to determine your percentage markup when, during the period April 1 through June 24, 1950, you determined your selling price for the commodity you are pricing (or a commodity of the same type) by applying a percentage markup to the net invoice cost of the commodity to you, or if you use this section instead of section 3 where the manufacturer has changed his discounts, since June 24, 1950, if your selling price during the period April 1 through June 24, 1950, was in fact your net invoice cost increased by a percentage markup. You use paragraph (c) to determine your percentage markup, when, during the period April 1 through June 24, 1950, you determined your selling price for the commodity you are pricing (or a commodity of the same type) by applying a percentage markup to your delivered cost, or if you use this section instead of section 3 where the manufacturer has changed his discounts since June 24, 1950, if your selling price during the period April 1 through June 24, 1950, was in fact your net invoice cost increased by a percentage markup. An explanation of the terms "net invoice cost" and "delivered cost" is contained in section 17 (*Definitions*). You may use this section only if you have written records of your sales and purchases of the commodity you are pricing, or a commodity of the same type, during the period April 1 through June 24, 1950.

2. Section 4 (a) is amended to read as follows:

(a) *Cost of the commodity.* The cost of the commodity that you must use in determining your ceiling price shall be your most recent net invoice cost or your most recent delivered cost (depending upon whether during the period April 1 through June 24, 1950, you applied your percentage markup to net invoice cost or delivered cost) not in excess of the applicable ceiling price. For the purposes of this section, if you receive a written statement from your supplier that the price charged you does not exceed the applicable ceiling price and you have no reason to doubt the validity of his statement, the price certified by your supplier shall be deemed not to be in excess of the ceiling price. A statement that "prices in this invoice do not exceed OPS ceiling prices" will be acceptable. The net invoice or delivered cost you use under this section is the cost of the commodity being priced when purchased from your normal source of supply or a customary source of supply for resellers of the same class of the same or a similar commodity. For example, if you are a retail reseller your normal or customary source of supply would be a wholesaler, distributor or jobber and not another retail reseller.

3. Section 12 (c) is amended to read as follows:

(c) *An identification of each commodity sold.* If the sales price of any commodity exceeds $10.00 per unit this identification must include its brand or trade name.

4. Section 17 (j) is amended to read as follows:

(j) *Net invoice cost.* This term refers to your invoice cost, less any discount you took or could have taken. It does not include separately stated charges, such as freight, taxes, etc., except that manufacturers excise taxes may be included if it was the seller's practice to include these taxes as a part of net invoice cost during the period April 1 through June 24, 1950.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective July 26, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 69, Amdt. 3 to Revision 1]

CPR 69—FOOD PRODUCTS SOLD IN THE TERRITORY OF HAWAII

SMALL LOT SALES OF GREEN KONA COFFEE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to Ceiling Price Regulation 69, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation 69, Revision 1, provides ceiling prices for small lot sales of green Kona coffee by roaster-wholesalers in Hawaii by permitting a percentage markup over miller's ceiling prices.

Investigation shows that it has been customary for roaster-wholesalers of Kona coffee in the islands to sell green coffee beans to the grocery trade in small lots for resale to small roasters and to consumers at a price above that charged by the miller. The volume of each such sale has been from a maximum of 300 pounds to a minimum of one pound. The over-all annual volume in this type of sale is very small and

small lot sales are made almost entirely by the roaster-wholesalers in Honolulu. The absence of a provision in CPR 69, Revision 1, setting forth special ceiling prices for such sales has deterred the roaster-wholesaler from making small lot sales to small roasters. This omission also eliminated a practice enjoyed by the roaster-wholesalers in supplying a demand from the trade for resale as well as a demand at retail.

In formulating this regulation, the Director has consulted with the members of the industry who are affected and full consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. Section 6.3 of Ceiling Price Regulation 69, Revision 1, is amended to include a new paragraph designated as (f), to read as follows:

(f) *"Small lot sales" of clean, green Kona coffee by roaster-wholesalers.* If you are a roaster-wholesaler and you sell green Kona coffee in quantities of more than 100 pounds and not more than 300 pounds, your ceiling prices shall be the prevailing miller's ceiling prices as set forth in this section plus 5 percent; in quantities of more than 10 pounds and not more than 100 pounds, your ceiling prices shall be the prevailing miller's ceiling prices as set forth in this section plus 10 percent; in quantities of 10 pounds or less, your ceiling prices shall be the prevailing miller's prices as set forth in this section plus 20 percent: *Provided*, That, in no instance shall you sell a greater quantity of green Kona coffee in each of the aforementioned small lots than you did during the calendar year 1951, and provided you do not sell in smaller lots than you customarily sold in 1951. Before you sell any green Kona coffee in small lots in accordance with this paragraph, you must make a report to the Territorial Director of the Office of Price Stabilization stating the following:

(1) Your name and address.

(2) An estimate of the quantity of green Kona coffee that you sold during the year 1951 in lots from 101 pounds to 300 pounds, inclusive.

(3) An estimate of the quantity of green Kona coffee that you sold during the year 1951 in lots of 11 to 100 pounds, inclusive.

(4) An estimate of the quantity of green Kona coffee that you sold during the year 1951 in lots of 1 to 10 pounds, inclusive.

2. Section 6.4 (b) of Ceiling Price Regulation 69, Revision 1, is amended to read as follows:

(b) *Roasted Kona coffee, unground beans.* Your ceiling prices, per pound, for roasted unground Kona coffee beans are as follows:

Grade	In Kona	In Hilo	In Honolulu
No. 1 Extra Prime	$0.7354	$0.7397	$0.7450
Extra Prime			
Peaberry	.6998	.6950	.7001
Prime	.6126	.6170	.6217
No. 3X	.4822	.4866	.4912
No. 3			

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154.)

Effective date. This Amendment 3 to Ceiling Price Regulation 69, Revision 1, is effective July 26, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 97, Amdt. 8]

CPR 97—CEILING PRICES FOR PACIFIC NORTHWEST LOGS

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to Ceiling Price Regulation 97 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment makes certain changes and corrections in Ceiling Price Regulation 97. Specifically it provides the following:

Lincoln and Tillamook counties, Oregon, are removed from the Columbia River district and set up as a separate district. This change is made in recognition of historical differences in prices that have prevailed in these counties for the different species and grades. To reflect the historical differentials, the ceiling prices provided for logs in the Lincoln-Tillamook district are from $2.50 to $10.00 per M'BM lower than those established for logs in the Columbia River district. The amendment specifies delivery points and the grading and scaling rules that are applicable in the Lincoln-Tillamook district.

The western portion of Lane County, Oregon, is removed from the Oregon-California district and added to the Lane-Douglas district. This change is made because it appears that, as indicated by members of the industry doing business in this area, prices in the area normally are in line with those established for the Lane-Douglas district rather than those established for the Oregon-California district.

The classification of "Red Fir Logs" is removed from the list of logs covered by the regulation, because, as the term is used locally, it is synonymous with the "Douglas Fir logs" covered by the regulation. Ceiling prices for Cottonwood logs are established by this amendment at the same level as ceiling prices for Alder logs for similar scales and grades because it is customary for logs of these species to sell at the same level.

This amendment changes the provisions of CPR 97 relating to the delivery of logs to inland mills in the Puget Sound, Willapa Bay-Grays Harbor and Columbia River districts by providing that the established ceiling prices need be reduced for non-delivery in towable waters only when delivery costs to the nearest towable waters, plus booming and rafting costs, would exceed the delivery costs to the place of actual delivery.

This amendment establishes for each district a fixed amount as the booming and rafting cost which is to be used in making the reductions specified in the regulation.

The Brereton Log Scale, which is commonly used by the industry for shipments on ocean-going cargo ships, is approved by this amendment for shipment of logs to buyers in foreign countries other than Canada.

The amendment also provides that buyers and sellers who act in good faith will not be held responsible for inaccurate grades and scales of United States Forest Service graders and scalers.

Other minor clarifications of CPR 97 are also found in this amendment.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included a meeting with the Pacific Northwest Log Industry Advisory Committee.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 97 is amended in the following respects:

1. Section 3 is amended by deleting the words "Red Fir" after the words "Douglas Fir", and inserting the words "and Cottonwood" after the word "Alder", so that section 3 reads as follows:

SEC. 3. *What logs are covered.* This regulation covers Douglas Fir, White Fir, Noble Fir, Western Hemlock, Western Red Cedar, Sitka Spruce, White Pine, Alder and Cottonwood logs produced in Washington, Oregon and California.

2. Section 4 is amended to read as follows:

SEC. 4. *Delivery districts.* (a) This regulation is controlling when you deliver logs described in section 3 of this regulation within specified areas of the United States or when you export logs to a foreign country. Export sales are treated in section 20 of this regulation. The delivery areas in the United States are situated in the western portions of Oregon and Washington and in the extreme northwest portion of California and have been subdivided into six geographical districts. The districts are explained in paragraph (b) of this section.

(b) *Explanation of districts.* The delivery districts referred to in this regulation have the following meanings:

(1) Puget Sound district means that part of Washington west of the crest of the Cascade Mountains, except Grays Harbor, Pacific, Wahkiakum, Cowlitz, Clark and Skamania Counties.

(2) Willipa Bay-Grays Harbor district means the counties of Grays Harbor and Pacific in Washington.

(3) Columbia River district consists of Wahkiakum, Cowlitz, Clark, Skamania, and Klickitat Counties in Washington; and Benton, Clackamas, Clatsop, Columbia, Hood River, Linn, Marion, Multnomah, Polk, Wasco, Washington, and Yamhill Counties in Oregon.

(4) Lincoln-Tillamook district consists of Lincoln and Tillamook Counties in Oregon.

(5) Lane-Douglas district consists of Lane County, Oregon, and the portion of Douglas County, Oregon, east of the crest of the Coast Range Mountains having as a southern boundary a line running due east from Rice Hill, Oregon, to the western boundary of Lane County, Oregon, and running due west from Rice Hill, Oregon, to the crest of the Coast Range Mountains.

(6) Oregon-California district consists of the portion of Douglas County, Oregon, which is not included in the Lane-Douglas district; Coos, Curry, Josephine, and Jackson Counties in Oregon; Del Norte, Humbolt, and Mendocino Counties in California; and the portion of Siskiyou and Trinity Counties in California which are west of the crest of the Coast Range Mountains.

3. Section 10 is amended to read as follows:

SEC. 10. *Ceiling prices.* The ceiling prices per 1,000 feet, Spaulding or Revised Scribner Decimal C Log Scales, for logs covered by this regulation when delivered in the indicated districts, are as follows:

Type of log	Districts: Lincoln-Tillamook district	Puget Sound district	Columbia River district	Willapa Bay-Grays Harbor district	Lane-Douglas district	Oregon-California district
Douglas fir:						
Peeler No. 1	$100.00	$110.00	$110.00	$110.00	$100.00	$90.00

Sawmill No. 1	50.00	60.00	60.00	60.00		
Sawmill No. 2	37.50	45.00	45.00	45.00		
Sawmill No. 3	35.00	42.50	42.50	42.50		
White pine:						
Peelable		60.00	70.00	70.00		
Sawmill No. 1		70.00	60.00	60.00		
Sawmill No. 2		55.00	50.00	50.00		
Sawmill No. 3		50.00	40.00	40.00		
Alder and cottonwood	45.00	45.00	45.00	45.00		
Wood logs	20.00	20.00	20.00	20.00	20.00	

4. Section 11 is amended to read as follows:

SEC. 11. *Additions for long lengths on sawmill logs.* For long lengths of all species of sawmill logs, except Western Red Cedar, the ceiling prices set forth in section 10 are increased as follows:

	Per 1,000 feet log scale
42 to 50 feet	$1.00
52 to 60 feet	2.00
62 to 70 feet	3.00
72 to 80 feet	4.00

5. Section 14 is amended to read as follows:

SEC. 14. *General explanation of log delivery in connection with established ceiling prices.* The ceiling prices established by this regulation are delivered prices. Under the regulation you are permitted to deliver logs to a buyer at a number of places, but in order to charge an established ceiling price you must deliver your logs at a designated locality, and, depending upon the locality that is chosen, you may be required to perform a related service. Three localities are designated for the Lincoln-Tillamook, Lane-Douglas, and Oregon-California districts; one locality is designated for the Puget Sound, Willapa Bay-Grays Harbor, and Columbia River districts. Section 15 shows the designated locality of delivery and a related service for the latter three districts; it also prescribes reductions in established ceiling prices which apply when you do not deliver your logs at the designated locality or when you do not perform the related service. Section 16 shows the three designated localities and a related service for the Lincoln-Tillamook, Lane-Douglas, and Oregon-California districts, and in like manner prescribes a number of reductions in established ceiling prices.

6. Section 15 (b) is amended to read as follows:

(b) *Reductions for delivery at nondesignated locality and nonperformance of services.* (1) If you do not deliver your logs in towable waters as prescribed in paragraph (a) of this section, and the cost of transporting the logs from the point of origin to the point of actual delivery is less than the cost of transporting the logs from the point of origin to the nearest towable waters plus the cost of booming and rafting the logs, as set forth in subparagraph (3) of this paragraph, the established ceiling prices are reduced by the amount by which the cost of transporting the logs from the point of origin to the nearest towable waters plus the cost of booming and rafting the logs exceeds the cost of transporting the logs from the point of origin to the point of actual delivery. For example, the cost of transporting the logs to the place of actual delivery is $7.00 and the cost of transporting the logs to towable waters plus the cost of booming and rafting is $10.00. The established ceiling price is reduced $3.00. If, however, the cost of transporting the logs from the point of origin to the point of actual delivery is equal to or greater than the cost of transporting the logs from the point of origin to the nearest towable waters plus the cost of booming and rafting the logs, as set forth in subparagraph (3) of this paragraph, the established ceiling prices need not be reduced. In computing the transportation cost, you must apply appropriate commercial trucking or common carrier railroad rates.

(2) If, when you deliver your logs in towable waters as prescribed in paragraph (a) of this section, you do not boom and raft the logs, the established ceiling prices are reduced by an amount equal to the applicable booming and rafting cost set forth in subparagraph (3) of this paragraph.

(3) For purposes of subparagraphs (1) and (2) of this paragraph, the cost of booming and rafting logs in the Puget Sound and Columbia River districts shall be $2.00 per M'BM, and the cost of booming and rafting logs in the Willapa Bay-Grays Harbor district shall be $1.75 per M'BM.

7. Section 16 is amended to read as follows:

SEC. 16. *Delivery in the Lincoln-Tillamook, Lane-Douglas and Oregon-California districts—(a) Designated localities and related services.* In order to charge a ceiling price established by this regulation when you deliver your logs in the Lincoln-Tillamook, Lane-Douglas, or Oregon-California districts, you must deliver your logs at one of the following designated localities and, where indicated, you must also perform the related services that are shown:

(1) In towable waters as defined in section 33, in which case you must boom and raft the logs.

(2) At a common carrier railroad shipping point agreed upon by you and the buyer.

(3) At the buyer's mill.

(b) *Reductions for delivery at non-designated localities and non-performance of services.* The ceiling prices established by this regulation are reduced as shown below when you elect to deliver your logs at a locality which is not designated in paragraph (a) of this section, or when you do not perform the related services:

(1) If you do not deliver your logs at a designated locality, the established ceiling prices are reduced by an amount equal to the cost of (i) transporting your logs from the place of actual delivery to the nearest towable waters, or to the nearest railroad shipping point, or to the buyer's mill, whichever is closest to the place of actual delivery, and (ii) the cost of booming and rafting your logs, as set forth in subparagraph (3) of this paragraph, if the transportation cost is computed to the nearest towable waters. In computing the transportation cost, you must apply appropriate commercial trucking or common carrier railroad rates in effect at the time of delivery.

(2) If, when you deliver logs in towable waters, you do not boom and raft the logs, the established ceiling prices are reduced by an amount equal to the booming and rafting cost set forth in subparagraph (3) of this section.

(3) For purposes of subparagraphs (1) and (2) of this paragraph, the cost of booming and rafting logs in the Lincoln-Tillamook, Lane-Douglas and Oregon-California districts shall be $2.00 per M'BM.

8. Section 18 (a) (3) is amended by inserting the words "the Lincoln-Tillamook district" after the words "the Columbia River district", so that section 18 (a) (3) reads as follows:

(3) If you deliver the logs in the Columbia River district, the Lincoln-Tillamook district, or the Lane-Douglas district, the logs must be graded and scaled in accordance with the rules, in effect when this regulation is issued, of the Columbia River Log Scaling and Grading Bureau, Portland, Oregon.

9. Section 19 (a) is amended by inserting the words "or by a United States Forest Service grader and scaler when logs or stumpage are purchased from the United States Government" after the words "accredited grader and scaler" in the second sentence thereof, so that section 19 (a) reads as follows:

SEC. 19. *Accredited graders and scalers.* (a) The Director of Price Stabilization will append to this regulation a list of accredited graders and scalers who have been found by the Director of Price Stabilization to be qualified to grade and scale logs subject to this regulation. When logs are graded and scaled by an accredited grader and scaler, or by a United States Forest Service grader and scaler when logs or stumpage are purchased from the United States Government, neither you nor a purchaser from you will be held responsible for inaccurate grades or scales if it appears that you, or the purchaser, have acted in good faith in relying upon the grades or scales presented. When, however, logs are graded or scaled by a grader and scaler who has not been accredited, and a rescale or check scale shows more than 5 percent variation in value from the original grade or scale, both you and a purchaser from you will be liable for the incorrect grading or scaling and will be subject to the penalties provided for violation of this regulation. When logs are graded or scaled by an accredited bureau, the grading and scaling will not be deemed to have been performed by an accredited grader or scaler unless the individual who performed the grading or scaling is himself listed as an accredited employee of the named bureau.

10. Section 19 (b) (1) is amended by adding after the third sentence thereof the sentence: "If an accredited grader and scaler should become an agent or employee of a log buyer or seller, the named Regional Director shall declare him to be no longer accredited," and by inserting at the end of the section the sentence: "In applying for listing as an accredited grader and scaler, you may use OPS Public Form 125", so that section 19 (b) (1) reads as follows:

(1) Any person may apply to the Regional Director, Office of Price Stabilization, Seattle, Washington, for listing as an accredited grader and scaler. An application must set forth the applicant's qualifications, such as his grading and scaling experience, his familiarity with grading and scaling rules and practices, and his familiarity with species characteristics and lumber products. It must also contain a statement setting forth that the applicant, if accredited, will act independently of all log buyers and sellers and not as an employee or agent of any buyer and seller. If an accredited grader and scaler should become an agent or employee of a log buyer or seller, the named Regional Director shall declare him to be no longer accredited. Upon receiving an application, the named Regional Director will request either the Puget Sound Log Scaling and Grading Bureau, the Grays Harbor Log Scaling and Grading Bureau, the Columbia River Log Scaling and Grading Bureau or the Southern Oregon Log Scaling and Grading Bureau to examine into the applicant's qualifications for listing as an accredited grader and scaler, and to submit to him its findings with respect to the applicant's experience and qualifications. If, on the basis of such an investigation, and whatever other information is brought to his attention, the named Regional Director is of the opinion that the applicant has the necessary qualifications to perform a reasonably satisfactory job of log grading and scaling under this regulation, he shall cause the applicant's name to be added to the list of accredited graders and scalers. In applying for listing as an accredited grader and scaler, you may use OPS Public Form 125.

11. Section 20 (b) is amended to read as follows:

(b) *Grading and scaling.* The provisions of section 17, 18, and 19 of this regulation are applicable to export sales of logs, subject, however, to the qualifications that:

(1) Exported logs shall be graded in accordance with the rules of whichever of the scaling and grading bureaus that may apply to the district in which the logs are produced; and

(2) Logs exported to buyers in foreign countries other than Canada may be scaled in accordance with the Brereton Log Scale. For example, if you make an export sale of logs produced in the Puget Sound district and ship the logs to a buyer in Canada the logs must be graded in accordance with the rules, in effect when this regulation is issued, of the Puget Sound Log Scaling and Grading Bureau, and the logs must be scaled in accordance with either the Spaulding or Revised Scribner, Decimal C Log Scales. If, however, you ship these logs to a buyer in a foreign country other than Canada, the logs must be graded in accordance with the rules, in effect when this regulation is issued, of the Puget Sound Log Scaling and Grading Bureau, but they may be scaled in accordance with either the Spaulding, the Revised Scribner Decimal C, or the Brereton Log Scales.

12. Section 33 (a) is amended by the addition of a new subparagraph (17) at the end thereof, which reads as follows:

(17) *Lincoln-Tillamook district.* This term is explained in section 4.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 8 to Ceiling Price Regulation 97 shall become effective July 26, 1952.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[F. R. Doc. 52-8112; Filed, July 21, 1952; 11:52 a. m.]

[Ceiling Price Regulation 160]

CPR 160—CEILING PRICES FOR USED STEEL DRUMS SOLD IN ALASKA AND FOR THE SERVICE OF RECONDITIONING

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 160 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes dollar-and-cent ceiling prices at all levels of distribution for certain used steel drums sold in the Territory of Alaska, and for the service of reconditioning such drums. Ceiling prices for these drums have, until the issuance of this regulation, been established by CPR 9 and the GCPR.

The average maximum life of a steel drum is two years, during which period it is used eight to ten times. Ordinarily, after each use a drum requires some reconditioning, the extent of which depends upon the use to which it has been put, its condition, and the use to which it is to be put. This reconditioning may consist of washing, scraping, painting, drying, inspection for leaks, and replacement of jackets. It may also include such operations as removing dents, sandblasting, and chaining or tumbling.

The use of steel drums in the Territory of Alaska is extensive, particularly in the petroleum industry, where a sizable portion of deliveries are made in steel drums which have seen prior usage. For the most part these drums have been shipped into Alaska from the Continental United States filled with some commodity, emptied of their contents and then reused. A critical situation may arise in the petroleum industry if the present steel drum situation in the United States becomes tight by reason of steel shortages, or for other reasons.

Alaska has no commercial steel drum reconditioning industry operating at the present time. Consequently, drum reconditioning is limited to the work performed by the industrial companies or individuals reusing empty drums in their businesses. This reconditioning work, however, is limited to functions such as inside and outside washing, rinsing, syphoning, scraping, external painting where necessary, inspection for leaks, and replacement of bung gaskets.

This regulation deals with drums of 40 to 58 gallon capacity, fabricated of 16 to 20 gauge steel, inclusive. The regulatory provisions coverage will encompass approximately 90 percent of the used steel drum business in Alaska, will provide uniform enforceable ceiling prices, and in a large measure will promote the continuance of the normal flow of drums through proper channels and discourage hoarding. The ceiling prices established by this regulation are at the current price level.

In formulating this regulation, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, to the extent practicable, and full consideration has been given to their recommendations. Every effort has been made to conform this regulation to existing business practices, cost practices, or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director to be necessary to prevent circumvention or evasion of the regulation. In his judgment, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Geographical applicability.
3. Ceiling prices.
4. Petitions for amendment.
5. Invoicing requirements.
6. Taxes.
7. Prohibitions.
8. Enforcement.
9. Definitions.

AUTHORITY: Sections 1 to 9 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation establishes ceiling prices at all levels of distribution for (a) empty raw and reconditioned used steel drums of 40 to 58 gallon capacity, inclusive, fabricated of 16 to 20 gauge steel, inclusive, and (b) the service of reconditioning raw steel drums covered by this regulation. This regulation supersedes Ceiling Price Regulation 9 and the General Ceiling Price Regulation for all such sales.

SEC. 2. *Geographical applicability.* This regulation applies only in the Territory of Alaska.

SEC. 3. *Ceiling prices*—(a) *Empty raw used steel drums and empty reconditioned used steel drums.* The ceiling price, f. o. b. point of sale, for sales of empty raw used steel drums and empty reconditioned used steel drums of specified capacities are as follows:

Type of drums	Capacities	Price per drum
Empty raw used steel drums..	40 to 58 gallons, inclusive.	$3.00
Empty reconditioned used steel drums.	do	4.50

When delivery is made by a seller's conveyance, an amount not in excess of the lowest common carrier freight charge for transporting used steel drums from the shipping point to destination may be charged and paid.

(b) *Service of reconditioning raw steel drums.* The ceiling price for the service of reconditioning raw steel drums covered by this regulation is $1.50 per drum.

SEC. 4. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 5. *Invoicing requirements.* Every person making a sale in excess of $10.00 of the products covered by this regulation shall give to the purchaser an invoice for each sale setting forth the following: Each type of drum sold; delivery charges, if any; the price charged; and the quantity of each size or type sold. The seller must also show on each invoice whether the drums were raw or reconditioned, and the invoice must bear the words "These prices do not exceed the ceiling prices established by Ceiling Price Regulation 160."

SEC. 6. *Taxes.* Any person may collect, in addition to the ceiling prices established by this regulation, any excise, sales or similar tax imposed upon him by reason of his sales of the products or service covered by this regulation if he is not prohibited by law from making such collection and if he states separately from his selling price the amount of the tax collected.

SEC. 7. *Prohibitions*—(a) *Against transactions above ceiling prices.* Regardless of any contract or other obligation, on and after the effective date of this regulation, no person shall sell or deliver any of the drums covered by this regulation or furnish the service covered by this regulation at a price in excess of the applicable ceiling price set forth in this regulation; and no person shall buy or receive, in the regular course of trade or business, any such drums or service at a price in excess of such applicable ceiling price. No person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower prices than those set forth in this regulation may be charged, demanded, paid, or offered.

(b) *Against tie-in transactions.* No person shall sell any of the products or service covered by this regulation on condition (1) that the buyer purchase from any person any commodity or service, other than the product in the drum and usually marketed in such a container, or (2) that the buyer sell to any person any commodity or service. No person who in the regular course of trade or business buys any of the products or service covered by this regulation shall participate in any such tie-in transactions. Nothing in this paragraph shall be construed to prohibit any person from selling a product shipped in a steel drum on condition that the buyer shall resell such drum to the shipper. Any such resale, however, shall be subject to the provisions of this regulation. Furthermore, nothing in this paragraph shall be construed to prohibit a person selling a product shipped in a steel drum on condition that the buyer shall return such drum to the shipper on penalty of forfeiture of a deposit.

(c) *Against evasion.* No person shall evade or circumvent the provisions of this regulation by direct or indirect methods in connection with the sale, purchase, delivery, or transfer of the drums or service covered, alone or in conjunction with any other product, or by way of any commission, service, excessive deposit charges, or transportation charge, or discount, premium, or other privilege, or by up-grading, trade understanding, or otherwise.

SEC. 8. *Enforcement.* Persons violating any of the provisions of this regulation shall be subject to criminal penalties, enforcement action, and action for damages.

SEC. 9. *Definitions.* When used in this regulation the term: (a) "Reconditioning" means subjecting a drum to all of the following services to make it suitable for use as a shipping container: Inside and outside washing (or burning), rinsing, syphoning, scraping where necessary, exterior painting, drying, inspection for leaks and replacement of all bung gaskets. In the case of an open head drum these services shall include the cleaning and painting of cover and ring.

(b) "Drum" means any single-walled cylindrical or bilged steel shipping package, liquid tight, having a welded side seam, with a capacity of 40 or 58 gallons inclusive, constructed of steel sheets of 16–20 U. S. Standard gauge, inclusive.

(c) "Empty" means containing not more than 1 inch of residue in the bottom of the drum.

(d) "Raw used steel drum" means a drum which has been used for the shipment of any commodity and which has not been reconditioned.

(e) "Reconditioned used steel drum" means a drum which has been reconditioned.

SEC. 10. *Effective date.* This regulation shall become effective July 26, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

[Ceiling Price Regulation 161]

CPR 161—CEILING PRICES FOR USED STEEL DRUMS SOLD IN HAWAII AND FOR THE SERVICE OF RECONDITIONING

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 161 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes dollar-and-cent ceiling prices at all levels of distribution for certain used steel drums sold in the Territory of Hawaii, and for the service of reconditioning such drums. Ceiling prices for these drums have, until the issuance of this regulation, been established by CPR 9 and the GCPR.

The average maximum life of a steel drum is two years, during which period it is used eight to ten times. Ordinarily, after each use a drum requires some reconditioning, the extent of which depends upon the use to which it has been put, its condition, and the use to which it is to be put. This reconditioning may consist of washing, scraping, painting, drying, inspection for leaks, and replacement of jackets. It may also include such operations as removing dents, sandblasting, and chaining or tumbling.

The use of steel drums in the Territory of Hawaii is extensive, particularly in the petroleum industry, where a sizable portion of deliveries are made in steel drums which have seen prior usage. For the most part these drums have been shipped into Hawaii from the Continental United States filled with some commodity, emptied of their contents and then reused. A critical situation may arise in the petroleum industry if the present steel drum situation in the United States becomes tight by reason of steel shortages, or for other reasons.

Hawaii has no commercial steel drum reconditioning industry operating at the present time. Consequently, drum reconditioning is limited to the work performed by the industrial companies or individuals reusing empty drums in their businesses. This reconditioning work, however, is limited to functions such as inside and outside washing, rinsing, syphoning, scraping, external painting where necessary, inspection for leaks, and replacement of bung gaskets.

This regulation deals with drums of 40 to 58 gallon capacity, fabricated of 16 to 20 gauge steel, inclusive. The regulatory provisions coverage will encompass approximately 90 percent of the used steel drum business in Hawaii, will provide uniform enforceable ceiling prices, and in a large measure will promote the continuance of the normal flow of drums through proper channels and discourage hoarding. The ceiling prices established by this regulation are at the current price level.

In formulating this regulation, the Director of Price Stabilization has consulted with industry representatives, including trade association representatives, to the extent practicable, and full consideration has been given to their recommendations. Every effort has been made to conform this regulation to existing business practices, cost practices, or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director to be necessary to prevent circumvention or evasion of the regulation. In his judgment, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Geographical applicability.
3. Ceiling prices.
4. Petitions for amendment.
5. Invoicing requirements.
6. Taxes.
7. Prohibitions.
8. Enforcement.
9. Definitions.

AUTHORITY: Sections 1 to 9 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation establishes ceiling prices at all levels of distribution for (a) empty raw and reconditioned used steel drums of 40 to 58 gallon capacity, inclusive, fabricated of 16 to 20 gauge steel, inclusive, and (b) the service of reconditioning raw steel drums covered by this regulation. This regulation supersedes Ceiling Price Regulation 9 and the General Ceiling Price Regulation for all such sales.

SEC. 2. *Geographical applicability.* This regulation applies only in the Territory of Hawaii.

SEC. 3. *Ceiling prices*—(a) *Empty raw used steel drums and empty reconditioned used steel drums.* The ceiling price, f. o. b. point of sale, for sales of empty raw used steel drums and empty reconditioned used steel drums of specified capacities are as follows:

Type of drums	Capacities	Price per drum
Empty raw used steel drums..	40 to 58 gallons, inclusive.	$3.00
Empty reconditioned used steel drums.	do	4.50

When delivery is made by a seller's conveyance, an amount not in excess of the lowest common carrier freight charge for transporting used steel drums from the shipping point to destination may be charged and paid.

(b) *Service of reconditioning raw steel drums.* The ceiling price for the service of reconditioning raw steel drums covered by this regulation is $1.50 per drum.

SEC. 4. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 5. *Invoicing requirements.* Every person making a sale in excess of $10.00 of the products covered by this regulation shall give to the purchaser an invoice for each sale setting forth the following: Each type of drum sold; delivery charges, if any; the price charged; and the quantity of each size or type sold. The seller must also show on each invoice whether the drums were raw or reconditioned, and the invoice must bear the words "These prices do not exceed the ceiling prices established by Ceiling Price Regulation 161."

SEC. 6. *Taxes.* Any person may collect, in addition to the ceiling prices established by this regulation, any excise, sales or similar tax imposed upon him by reason of his sales of the products or service covered by this regulation if he is not prohibited by law from making such collection and if he states separately from his selling price the amount of the tax collected.

SEC. 7. *Prohibitions*—(a) *Against transactions above ceiling prices.* Regardless of any contract or other obligation, on and after the effective date of this regulation, no person shall sell or deliver any of the drums covered by this regulation or furnish the service covered by this regulation at a price in excess of the applicable ceiling price set forth in this regulation; and no person shall buy or receive, in the regular course of trade or business, any such drums or service at a price in excess of such applicable ceiling price. No person shall offer, solicit, attempt, or agree to do any of the foregoing. Lower prices than those set forth in this regulation may be charged, demanded, paid, or offered.

(b) *Against tie-in transactions.* No person shall sell any of the products or service covered by this regulation on condition (1) that the buyer purchase from any person any commodity or service, other than the product in the drum and usually marketed in such a container, or (2) that the buyer sell to any person any commodity or service. No person who in the regular course of trade or business buys any of the products or service covered by this regulation shall participate in any such tie-in transactions. Nothing in this paragraph shall be construed to prohibit any person from selling a product shipped in a steel drum on condition that the buyer shall resell such drum to the shipper. Any such resale, however, shall be subject to the provisions of this regulation. Furthermore, nothing in this paragraph shall be construed to prohibit a person selling a product shipped in a steel drum on condition that the buyer shall return such drum to the shipper on penalty of forfeiture of a deposit.

(c) *Against evasion.* No person shall evade or circumvent the provisions of this regulation by direct or indirect methods in connection with the sale, purchase, delivery, or transfer of the drums or service covered, alone or in conjunction with any other product, or by way of any commission, service, excessive deposit charges, or transportation charge, or discount, premium, or other privilege, or by up-grading, trade understanding, or otherwise.

SEC. 8. *Enforcement.* Persons violating any of the provisions of this regulation shall be subject to criminal penalties, enforcement action, and action for damages.

SEC. 9. *Definitions.* When used in this regulation the term: (a) "Reconditioning" means subjecting a drum to all of the following services to make it suitable for use as a shipping container: Inside and outside washing (or burning), rinsing, syphoning, scraping where necessary, exterior painting, drying, inspection for leaks and replacement of all bung gaskets. In the case of an open head drum these services shall include the cleaning and painting of cover and ring.

(b) "Drum" means any single-walled cylindrical or bilged steel shipping package, liquid tight, having a welded side seam, with a capacity of 40 or 58 gallons inclusive, constructed of steel sheets of 16–20 U. S. Standard gauge, inclusive.

(c) "Empty" means containing not more than 1 inch of residue in the bottom of the drum.

(d) "Raw used steel drum" means a drum which has been used for the shipment of any commodity and which has not been reconditioned.

(e) "Reconditioned used steel drum" means a drum which has been reconditioned.

SEC. 10. *Effective date.* This regulation shall become effective July 26, 1952.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52-8114; Filed, July 21, 1952; 11:52 a. m.]

(c) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative or any of the foregoing and includes the United States Government or any agency thereof, or any other government, or any of its political subdivisions or any agency of any of the foregoing.

(d) "Raw steel drum" means a used steel drum which has been emptied but has not been reconditioned for reuse after the last emptying, or an unused drum which has been damaged or deteriorated to such an extent as to require reconditioning before it can be used as a shipping container.

(e) "Reconditioned steel drum" means a raw steel drum which has been reconditioned, as defined by this regulation, to make the raw drum suitable for use as a shipping container.

(f) "Point of sale" means the location of the drum at the time the sales transaction is accomplished, regardless of where such sales transaction is completed.

Effective date. This regulation shall become effective July 26, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

[Distribution Regulation 1, Revision 1, Amdt. 3]

DR 1—FAIR DISTRIBUTION OF LIVESTOCK AND MEAT

CHANGES REQUIRED BY DEFENSE PRODUCTION ACT AMENDMENTS OF 1952

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, Delegation of Authority by the Secretary of Agriculture with respect to meat, as amended, and Economic Stabilization Agency General Order 5, Revision, this Amendment 3 to Distribution Regulation 1, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment modifies Distribution Regulation 1, Revision 1 to conform with the requirements of the recent amendment to section 101 of the Defense Production Act of 1950, as amended. As amended, that section now reads in part as follows:

> Nor shall any restriction or other limitation be established or maintained upon the species, type, or grade of livestock killed by any slaughterer, nor upon the types of slaughtering operations, including religious rituals, employed by any slaughterer; nor shall any requirements or regulations be established or maintained relating to the allocation or distribution of meat or meat products unless, and for the period for which, the Secretary of Agriculture shall have determined and certified to the President that the over-all supply of meat and meat products is inadequate to meet the civilian or military needs therefor:

By this amendment the statement of policy contained in the regulation is modified to reflect the Congressional mandate. Provisions compelling sales of meat to institutional users are limited to periods during which meat is certified by the Secretary of Agriculture to be in short supply. In addition, this amendment removes from the regulation the requirements for separate registration by species. There were previously no specific restrictions in the regulation upon the slaughter of any type or grade of livestock, nor upon the types of slaughtering operations, including religious rituals, employed by slaughterers.

CONCLUSIONS

The provisions of this amendment modify the policy of the Office of Price Stabilization under this regulation only to the extent required by the recent amendments to the Defense Production Act of 1950. Since this amendment merely implements the mandate of Congress, the Director of Price Stabilization has not consulted in its formulation with industry representatives. The Director finds that special circumstances which caused this amendment have rendered consultation with industry representatives, including trade association representatives, impracticable.

In the judgment of the Director, the provisions of this amendment are necessary and appropriate to promote the national defense, generally fair and equitable, and necessary to effectuate the purposes of Title I of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

Distribution Regulation 1, Revision 1, is amended in the following respects:

1. Section 1 is amended by adding at its end a new section 1 (c) to read as follows:

(c) Notwithstanding any other provisions of this regulation to the contrary, if you are permitted to slaughter any species of livestock you are permitted to slaughter all species of livestock; and if you are permitted to have any species of livestock slaughtered for you, you are permitted to have all species of livestock slaughtered for you. Nevertheless, you must continue to observe such limitations regarding weight and transfers as may govern your registration.

2. Section 3 is amended to read as follows:

SEC. 3. *Policy of this revised regulation.* It is the policy of this revised regulation to maintain the normal distribution channels of the livestock industry and (during times of inadequate supply) of the meat industry, in order to promote the national defense by facilitating the production and orderly distribution of livestock and meat. The policy of this revised regulation requires that the slaughter of livestock be maintained in normal channels. That policy also requires that, during times when the overall supply of meat and meat products is inadequate to meet the civilian or military needs therefor, meat must be distributed from the slaughtering plant through the normal classes of customers within geographical areas. All slaughterers, wholesalers, processors, and industrial users may be required to reflect a pattern of distribution of meat based on all or any part of the period beginning January 1, 1950.

3. Section 18 is amended by adding at its end a new section 18 (h) to read as follows:

(h) The provisions of this section are effective for any period for which the Secretary of Agriculture has determined and certified to the President that the over-all supply of meat and meat products is inadequate to meet the civilian or military needs therefor, and at no other time.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of July 1, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[General Ceiling Price Regulation, Amdt. 3 to Supplementary Regulation 4]

GCPR, SR 4—TIDEWATER COAL DOCK DEALERS

TRANSPORTATION COST INCREASES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 3 to Supplementary Regulation 4 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Twice during 1951 the Office of Price Stabilization issued amendments to SR 4 to the GCPR, each of which permitted tidewater coal dock dealers to pass through transportation cost increases resulting from decisions of the Interstate Commerce Commission in Ex Parte 175. The latest amendment had a cut-off date of January 1, 1952. A description of the condition of the industry was contained in the statements of consideration which accompanied Amendments 1 and 2, which were issued on May 1, 1951, and October 12, 1951, respectively, and is incorporated herein by reference. It was noted that losses in volume, in combination with increased costs of dock operation, made it impossible for the industry to absorb any increased transportation costs without serious financial hardship.

The Interstate Commerce Commission issued an order in Ex Parte 175, effective May 2, 1952, increasing rates on coal generally by an additional 6 percent subject to certain maximum rates. Transportation costs constitute an extremely high portion of the cost of acquisition of solid fuels to the tidewater dock operator, varying from 30 percent to 50 percent according to the kind and size of coal purchased. The same situation obtains with respect to the cost of coal purchased by retail coal dealers. Recognizing the relationship between raw material cost and transportation cost, the Office of Price Stabilization on May 24, 1952, permitted retail coal dealers to pass through the above transportation cost increases by the provisions of Amendment 6 to SR 2, Revision 1, to the GCPR. Tidewater coal dock dealers often act as distributors of solid fuel in a dual capacity. Their sales may be made both as retail coal dealers, subject to the provisions of SR 2, Revision 1, and as tidewater dock dealers subject to SR 4 to the GCPR. The provisions of the retail amendment permit the tidewater dock dealers to pass through transportation cost increases on their retail sales, whereas the tidewater dock regulation permits no pass-through after January 1, 1952. This amendment by eliminating the cut-off date in Amendment 2, SR 4, permits tidewater dock dealers to pass through such transportation cost increases in the same manner as is now authorized for retail coal dealers.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Supplementary Regulation 4 to the GCPR, as amended, is hereby further amended in the following respect:

1. Section 3 (d) is amended by deleting "and on or before January 1, 1952" so that the paragraph will read as follows:

(d) Each tidewater coal dock dealer may also increase the ceiling prices of each size and grade of any coal he sells and delivers under this supplementary regulation by the exact amount of increase in transportation costs, rail and/or water that have or may become effective since January 1, 1951: *Provided*, Such increased transportation costs were authorized by the Director, or by an order of the Interstate Commerce Commission or any other agency of the Government of the United States, or of any regulatory body of a State, territory or possession of the United States: *And provided further*, That the authority to increase the ceiling prices of each size or kind of coal by the exact amount of increase in transportation costs shall be effective only upon receipt by the tidewater coal dock dealer of a carrier's invoice, freight bill or other statement of transportation charges, for each such size or grade of coal, reflecting the increased freight charges required to be paid by the tidewater coal dock dealer.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 3 to Supplementary Regulation 4 to the General Ceiling Price Regulation shall become effective July 26, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52-8115; Filed, July 21, 1952; 11:53 a. m.]

[General Ceiling Price Regulation, Supplementary Regulation 63, Area Milk Price Regulation 26]

GCPR, SR 63—AREA MILK PRICE ADJUSTMENTS

AMPR 26—DISTRICT OF COLUMBIA MILK MARKETING AREA, WASHINGTON, D. C., AND PARTS OF NEARBY MARYLAND AND VIRGINIA

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), Economic Stabilization Agency General Order No. 2 (16 F. R. 738), and Delegation of Authority No. 41 (16 F. R. 12679), this Area Milk Price Regulation pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (16 F. R. 9559) is hereby issued.

STATEMENT OF CONSIDERATIONS

The General Ceiling Price Regulation (hereinafter referred to as GCPR) issued on January 26, 1951, pointed out that the general freeze which it imposed on prices at all levels of production and distribution was an emergency measure made imperative by the urgency of bringing the inflationary spiral to a halt. On September 24, 1951, Supplementary Regulation 63 became effective permitting adjustment of ceiling prices for fluid milk products in individual marketing areas upon petition or upon the initiative of the appropriate District or Regional Director. Pursuant to this authority, this area milk price regulation is being issued adjusting ceiling prices for the District of Columbia marketing area on sales of certain fluid milk products within the area by processors and distributors. Sales of pot, bakers' cheese and other dairy products not covered by this regulation and sales by retail stores remain subject to the provisions of the GCPR. Sales by receiving plants are not covered by this regulation. Sales of products processed within the area and sold outside of the area are not covered by this regulation.

The marketing area was determined after considering all relevant factors such as places where milk is processed and utilized, the places where milk in the area originates, and local ordinances or state statutes dealing with health standards in the localities involved. In general, this milk marketing area was based upon past and present milk marketing patterns.

The uniform adjustment method is used in this regulation instead of the method of establishing uniform dollar-and-cents ceiling prices because selling prices in the area historically have not been completely uniform. Under such circumstances the establishment of a dollars-and-cents ceiling price is not feasible. It was thought best to maintain these individual price differences in establishing ceilings.

In general, a seller determines his ceiling prices to a class of purchaser under this regulation by applying a uniform adjustment to his GCPR base period prices for all fluid milk and milk products. For certain items a uniform adjustment is specifically listed. For certain other items a uniform adjustment is determined by using the uniform adjustment listed for the basic container size of the most similar listed product.

Calculations were based on data submitted by a representative number of processors and distributors. This regulation is a result of petitions received from six processors and distributors in the area. These processors and distributors represent approximately 85 percent of the total volume of milk sold in the area. They also represent small, medium and large dealers. The approximate area in percent of the three areas involved in this regulation are respectively 49 percent each for Maryland and Virginia, and 2 percent for the District of Columbia. Spot checks have been made to determine the accuracy of cost, sales and volume figures contained in the petitions.

This area covers parts of the territorial areas of three of the District offices in Region 4, namely: Baltimore, Washington, D. C., and Richmond. None of the territorial areas comprising the District of Columbia milk marketing area has a majority of the area covered by this regulation. Accordingly, this regulation is issued by the Regional Director of the Office of Price Stabilization.

This regulation provides uniform adjustments for ceiling prices determined under the GCPR. These adjustments have been determined by taking prices in effect during the period January 1–June 30, 1950 and adding increases and deducting decreases in cost per sales point of (1) raw milk and other agricultural commodities or products processed therefrom which are ingredients of milk products, (2) direct labor (including distribution labor and commissions) and (3) containers, cans and cases. Where an increased price was taken by the dealers between June 30, 1950, and the "freeze" prices under GCPR, this increase was deducted from the increased cost of raw materials between January–June, 1950, and the current (June, 1952) month. This was done in order to prevent "pyramiding" of price increases. The regulation was issued on the basis of data found to be representative of the operations in the marketing area.

This regulation indicates the price for raw milk (and for certain other ingredients of milk products) upon which the adjustments in ceiling prices are based. These prices are to be the bases for computing future parity adjustments.

Milk sold in the District of Columbia and that part of Maryland included in this regulation is not controlled by any Federal or State Milk Marketing Order. The Virginia State Milk Commission fixes minimum producer and resale prices for the Arlington-Alexandria area,

of an unlisted type or size, or an unlisted type and size, shall be the ceiling price

SEC. 6 *Use of competitor's ceiling prices to establish your ceiling prices—*

under sections 4, 5 or 6, you must apply to the Regional Director of the Office of

which is included in the territory covered by this regulation. Notwithstanding this circumstance, the buying plan for milk and the classification of milk are uniform for at least 85 percent of the total volume of sales of milk by the producers in the area covered by this regulation. The said 85 percent of the volume of sales are by the Maryland-Virginia Milk Producers Association, Inc.

Every effort has been made to conform this regulation to existing business practices, to cost practices or methods, and to means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Regional Director of the Office of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

In the judgment of the Regional Director of the Office of Price Stabilization, the provisions of this area milk price regulation are generally fair and equitable and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

The Regional Director of the Office of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24, 1950 to June 24, 1950, inclusive; and to all relevant factors of general applicability.

The Director has consulted the industry to the extent practicable and has given due consideration to its recommendations.

REGULATORY PROVISIONS

Sec.

1. What this area milk price regulation does.
2. Where this area milk price regulation applies.
3. Sellers and sales covered by this area milk price regulation.
4. Ceiling prices of listed items for processors and distributors.
5. Ceiling prices of unlisted items for processors and distributors.
6. Use of competitor's ceiling prices to establish your ceiling prices.
7. Sellers who cannot price under other sections of this regulation.
8. Producer prices.
9. Rounding of fractions.
10. Special conditions of sale.
11. Transfer of business or stock in trade.
12. Prohibitions.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; SR 63 to GCPR, Sept. 19, 1951, 16 F. R. 9559.

SECTION 1 *What this area milk price regulation does.* This area milk price regulation, issued pursuant to Supplementary Regulation 63 to the General Ceiling Price Regulation (hereinafter referred to as GCPR), provides uniform adjustments of ceiling prices determined under the GCPR. These adjustments are for the listed milk products in designated types and sizes of containers sold in the District of Columbia Milk Marketing Area to all classes of purchasers. It also provides a method for determining ceiling prices for the listed products sold in containers of other types and sizes, as well as ceiling prices of unlisted products.

SEC. 2 *Where this area milk price regulation applies.* The provisions of this area milk price regulation are applicable to the District of Columbia Milk Marketing Area described as follows:

The District of Columbia Milk Marketing Area includes all of the City of Washington, District of Columbia and the adjacent territories in the states of Maryland and Virginia within the following boundaries:

Maryland: Beginning at the junction of the northwest boundary line of the District of Columbia and the Potomac River, thence follow the Potomac River to Route 112, thence along Route 112 to Route 28, thence along Route 28 to Route 118, thence along Route 118 to Route 240, thence along Route 240 to Routes 426 and 124, thence along Route 124 to Route 108, thence along Route 108 to Route 29, thence along Route 29 to the Patuxent River, thence follow the Patuxent River to Chesapeake Bay, thence follow Chesapeake Bay to the Potomac River, thence follow the Potomac River to the northwest boundary line of the District of Columbia.

Virginia: Beginning at the junction of the northwest boundary line of the District of Columbia and the Potomac River, thence follow the Potomac River to a point directly east of Leesburg, Virginia, thence directly west to Route 15, thence along Route 15 to Route 7, thence along Route 7 to Route 690, thence along Route 690 to Routes 626 and 245, thence along Route 245 to Route 17, thence along Route 17 to Route 608, thence along Route 608 to the Potomac River, thence follow the Potomac River to the northwest boundary line of the District of Columbia.

The approximate extent of each of the above described regions comprising the District of Columbia Milk Marketing Area is: Maryland—1,576 square miles (about 49 percent of the total area); Virginia—1,574 square miles (about 49 percent of the total area), and the District of Columbia—66 square miles (about 2 percent of the total area). The total area covered by this regulation is approximately 3,216 square miles.

SEC. 3 *Sellers and sales covered by this area milk price regulation.* This area milk price regulation covers sales in this marketing area of milk products for fluid consumption, cream and cottage cheese, by processors and distributors. Definitions of these terms may be found in sections 3 and 11 (e) of Supplementary Regulation 63 to GCPR. This area milk price regulation also covers sales of milk products to be delivered to a purchaser located in this area, although the seller is located outside of this area, but it does not cover sales of milk products to be delivered from a plant located in this area to a purchaser located outside of the area unless the products are resold inside the area.

SEC. 4 *Ceiling prices of listed items for processors and distributors.*—(a) *How you determine your ceiling prices.* Your ceiling prices for the listed items, both for delivery and non-delivery sales, shall be your GCPR base period prices plus the following uniform adjustments:

RETAIL AND WHOLESALE (CENTS)

Products	Butterfat, percent	Gallons	½ gallons	Quarts	Pints	½ pints
Milk, glass	4.0	.....	3.0	1.5	0.75	0.375

Cottage cheese, bulk (lb.)	5.0 to 6.0	1.5
Cream, aerated mixture (7-oz. can)	30.0	2.5

(b) *Reporting of ceiling prices.* You shall report the ceiling prices resulting from the application of the uniform adjustments specified in section 4 (a) to the Region 4 Office of the Office of Price Stabilization, 900 North Lombardy Street, Post Office Box 1458, Richmond 20, Virginia, by registered mail, return receipt requested, within five days after the effective date of this regulation. The report shall be filed on OPS Public Form 124, which may be obtained from the aforementioned office or your appropriate OPS District Office. Your price lists in effect during any part or all of the GCPR base period, including the time during which they were in effect, must accompany the report, unless you have previously mailed such price lists by registered mail to the Director who is issuing this regulation. You shall not sell at the ceiling prices computed pursuant to this section 4 until the Office of Price Stabilization has received the report required by this paragraph (b) as shown by your return postal receipt.

SEC. 5 *Ceiling prices of unlisted items for processors and distributors.*—(a) *Listed products in unlisted types or sizes, or unlisted types and sizes of containers.* Your ceiling price for a product listed in section 4 which is packed in a container of an unlisted type or size, or an unlisted type and size, shall be the ceiling price determined pursuant to section 4 for a comparison item, adjusted by the dollar-and-cents differential which existed between your ceiling prices, determined pursuant to section 3 of the GCPR, of the comparison item and the unlisted item for which you are seeking a ceiling price. The comparison item which you must use is the same product packed in the container most similar, first as to size, and second, as to type and delivered to the same class of purchaser as the item for which you are determining a ceiling price.

(b) *Unlisted products.* Your ceiling price for a product which is not listed in section 4 shall be the ceiling price determined pursuant to section 4 for a comparison item, adjusted by the differential which you customarily used in the GCPR base period between the price of your comparison item and the price of the unlisted item for which you are seeking a ceiling price. The comparison item which you must use is the product most similar in composition as to butterfat and other ingredients to the item for which you are determining a ceiling price, packed in the container most similar, first as to size and second as to type, and delivered to the same class of purchaser.

(c) *Price differentials.* Ceiling prices established pursuant to sections 4 and 5 must be modified by price differentials which existed between your ceiling prices determined under section 3 of GCPR and which resulted from, among others, discounts, allowances, premiums, extras, location of purchasers, and terms and conditions of sale or delivery.

(d) *Reporting of differentials and prices resulting therefrom.* You shall report the ceiling prices computed pursuant to sections 5 (a) through 5 (c) and the differentials used in determining these ceiling prices to the Region 4 Office of the Office of Price Stabilization, 900 North Lombardy Street, Post Office Box 1458, Richmond 20, Virginia, by registered mail, return receipt requested, within five days after the effective date of this regulation. The report shall be filed on OPS Public Form 123 which may be obtained from the aforementioned office or from your appropriate District Office. Your price lists in effect during any part or all of the GCPR base period, including the time during which they were in effect, must accompany the report, unless you have previously mailed such price lists by registered mail to the Director who is issuing this regulation. You shall not sell at the ceiling prices computed pursuant to this section 5 until the Office of Price Stabilization has received the report required by this paragraph (d) as shown by your return postal receipt.

(e) *Modification of proposed ceiling prices by the Region 4 Director of Price Stabilization.* The Regional Director of the Office of Price Stabilization may at any time disapprove or revise downward ceiling prices established under this section 5 so as to bring them into line with the level of ceiling prices otherwise established under this regulation.

SEC. 6 *Use of competitor's ceiling prices to establish your ceiling prices.*—(a) *How you determine your ceiling price.* If you cannot determine a ceiling price under either sections 4 or 5, your ceiling price for the sale of any milk product for fluid consumption to any class of purchaser is the ceiling price determined under this regulation for the sale of the same milk product in the same size and type of container by your most closely competitive seller of the same class (as defined in section 22 of GCPR) to the same class of purchaser.

(b) *When you may sell at your competitor's ceiling price.* You shall not sell any such milk product until you have sent the report required by paragraph (c) of this section by registered mail, return receipt requested, to the Regional Director of the Office of Price Stabilization who issued this regulation. After OPS has received your reports, as shown by your return postal receipt, you may sell the product at your proposed ceiling price unless you are notified by the Regional Director that your proposed ceiling price has been disapproved or that more information is required.

(c) *Report required when you use your competitor's ceiling price.* Your report shall state the name and address of your company; the name, address, and type of business of your most closely competitive seller of the same class; your reasons for selecting him as your most closely competitive seller; and if you are starting a new business, a statement indicating whether you or the principal owner of your business has been engaged in any part of the past 12 months in any capacity in the same or similar business at any other establishment and if so, the trade name and address of each such establishment. Your report should also include the following:

(1) *If you are a processor:* A description of the product you are pricing; the processing involved in the production of that product; the classes of purchasers to whom you will be selling; the ceiling price of your nearest competitor, and your proposed ceiling price to each class of purchaser.

(2) *If you are a distributor:* A description of the product you are pricing; your net invoice cost of the commodity being priced; the names and addresses of your sources of supply; the function performed by them (e. g., processing, distributing, etc.), and the class of purchasers to whom they customarily sell; the classes of purchasers to whom you plan to sell; the ceiling price of your most closely competitive seller; your proposed ceiling price to each class of purchaser; and a statement that your proposed ceiling prices will not exceed the ceiling price your customers paid to their customary sources of supply. A report under this section 6 may be filed on OPS Public Form 122, which may be obtained from the Regional Director of the Office of Price Stabilization who issued this regulation.

SEC. 7 *Sellers who cannot price under other sections of this regulation.*—(a) *How you obtain your ceiling price.* If you cannot determine a ceiling price under sections 4, 5 or 6, you must apply to the Regional Director of the Office of Price Stabilization who issued this regulation for the establishment of a ceiling price for sales by you of that milk product for fluid consumption. The Director will, as soon as possible after the receipt of the application or the receipt of such additional information as he may request, issue a letter order establishing a ceiling price for the sale by you of that product at the various levels of distribution, and specifying a producer price for milk from which parity adjustments will be computed. You may not sell the milk product until the Director has issued a letter order establishing your ceiling price for the sale of the product.

(b) *What your application must contain.* An application under the provisions of this section must contain the following information: An explanation of why you are unable to determine your ceiling price under any other provision of this regulation; all pertinent information describing the product and the nature of your business such as indicated in section 6 (c) (1) or (2) of this regulation; a description of the product, its butterfat content, the type and size of container in which it will be sold and the class of purchaser to whom you intend to sell; your proposed ceiling price and the method used by you to determine it, including the producer price upon which it is based; and the reason you believe the proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

SEC. 8. *Producer prices.* (a) The following prices are current (June 30, 1952) prices for raw milk on which are based the uniform adjustments specified in, or determined pursuant to sections 4 and 5, of this area milk price regulation:

Use	Price per hundredweight	Test (butterfat, per cent)	F. o. b.
Class I	$6.60	3.5	Processing plant.
Class II	3.76	3.5	Do.

(b) The producer prices which each processor paid for milk or products processed therefrom, in the month of June 1952, are to be used as a basis of computing parity adjustments due to changes in the prices of such commodities or products. Adjustment computations shall be made in accordance with section 8 of Supplementary Regulation 63 to GCPR.

(c) After the determination of your ceiling price under either section 6 or 7 you may increase, and you must decrease, the ceiling prices so established by parity adjustments in conformity with section 8 (a) of Supplementary Regulation 63. If your ceiling price was determined under section 6 of this regulation, you shall compute your parity adjustments from the highest price you paid or incurred for your customary purchase of milk or products processed therefrom during the most recent paying period prior to the date you mailed your report. If you made no customary pur-

SEC. 4 *Sales of commodities by the*

chase prior to the date you mailed your report, the price you paid or incurred for your first customary purchase between the date you mailed your report and the date you first offered your product for immediate delivery shall be your base for computing parity adjustments. If your ceiling price was determined under section 7 of this regulation, you shall compute your parity adjustments from the producer price specified in the letter order.

SEC. 9 *Rounding of fractions.* Fractions of a cent remaining after you have computed your ceiling price for the total number of units of any milk product (and after giving effect to section 8 (b) of Supplementary Regulation 63) shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more. If, however, you have customarily billed any particular purchaser or any class of purchasers for milk products for fluid consumption purchased during a month or other billing period, any fraction remaining after the computation of the ceiling price for the total number of units of all milk products for fluid consumption so sold during the preceding month or other billing period shall be dropped if less than one-half cent and may be increased to the next higher cent if one-half cent or more.

SEC. 10 *Special conditions of sale.* Deposit charges for all types of containers must be made in conformity with General Interpretation 2, dated August 2, 1951.

SEC. 11 *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after this regulation becomes effective, and the transferee carries on the business, or continues to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 12 *Prohibitions.* After the effective date of this regulation, regardless of any contract or other obligation, you shall not sell, and you shall not buy in the regular course of business or trade, any milk product at a price in excess of the ceiling price established by this regulation. The term "sell" includes sell, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The term "buy" shall be construed accordingly.

SEC. 13 *Violation*—(a) *Civil and criminal action.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

(b) *Violations of reporting requirements.* If any person subject to this regulation fails to file the reports required by this regulation, or if any person subject to this regulation fails to establish a ceiling price, or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director may issue an order fixing ceiling prices for the milk products such person sells. Any ceiling price fixed in this manner will be in line with ceiling prices established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers for which a ceiling price was not established in accordance with the provisions of this regulation, including deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

Effective date. This area milk price regulation is effective July 18, 1952.

NOTE. The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

W. F. BAILEY,
Regional Director,
Office of Price Stabilization.

JULY 18, 1952.

[F. R. Doc. 52-8063; Filed, July 18, 1952; 5:03 p. m.]

[General Overriding Regulation 11, Revision 2]

GOR 11—EXEMPTION OF CERTAIN SALES BY STATE AND FEDERAL AGENCIES AND INSTRUMENTALITIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation 11, Revision 2, is hereby issued.

STATEMENT OF CONSIDERATIONS

In the Defense Production Act Amendments of 1952 extending the Defense Production Act of 1950, Congress specifically exempted from price control rates, fees, and charges for materials or services supplied directly by the States, Territories, and possessions of the United States, and their political subdivisions and municipalities, the District of Columbia, and any agency of the foregoing. This action revises OPS regulations to conform to the amended act.

Accordingly, this General Overriding Regulation 11, Revision 2, continues the exemptions from price control presently in effect under this regulation, and in addition exempts from ceiling price regulations sales of commodities directly by local Governments and their agencies. It also continues the present exemption under General Overriding Regulation 14, as amended, for the supply of services directly by such governments and agencies, eliminating the prior restriction as to the supply of services incidental to or related to or connected with the sale of a commodity.

Although the Defense Production Act Amendments of 1952 do not exempt services supplied directly by the United States and its agencies, as distinct from those supplied by local Governments and their agencies, this revision of GOR 11 continues the present exemption under General Overriding Regulation 14 of such services supplied by the United States and its agencies. This revised regulation does not, however, make any corresponding over-all exemption with respect to sales of commodities by the United States or its agencies, since such sales are in many cases of sufficient volume and importance to have a significant effect on prices. The provisions of the General Ceiling Price Regulation are, however, suspended with respect to certain sales of commodities by Federal agencies by Supplementary Regulation 72 to the General Ceiling Price Regulation.

This revision does not exempt any sale of a commodity or service by a private person, even though he may be a contractor, lessee, licensee or concessionaire of a Government or agency covered by this regulation.

In the formulation of this revised regulation, and in view of its nature, the Director has found that consultation with industry representatives is not necessary or practicable.

REGULATORY PROVISIONS

ARTICLE I

Sec.
1. Exemptions.
2. Sales of services by Federal, State, and local Governments and their agencies.
3. Sales of commodities by State and local Governments and their agencies.
4. Sales of commodities by the Federal Government and its agencies.

ARTICLE II

20. Definitions.

AUTHORITY: Sections 1 to 20 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

ARTICLE I

SECTION 1. *Exemptions.* No ceiling price regulation heretofore or hereafter issued by the Office of Price Stabilization shall apply to the sales described in the following sections.

SEC. 2. *Sales of services by Federal, State, and local Governments and their agencies.* Sales of any service supplied directly by the United States, the States, Territories, and possessions of the United States, and their political subdivisions and municipalities, the District of Columbia, or any agency of the foregoing.

SEC. 3. *Sales of commodities by State and local Governments and their agencies.* Sales of any commodity sold directly by the States, Territories, and possessions of the United States, and their political subdivisions and municipalities, the District of Columbia, or any agency of the foregoing.

SEC. 4. *Sales of commodities by the Federal Government and its agencies*—(a) *Sales to certain purchasers.* Sales by the United States and its agencies:

(1) To another United States agency for use and not resale;

(2) To any foreign government or official agency thereof;

(3) To any relief organization for donation or export sale.

(b) *Sales of certain commodities.* Sales by the United States or its agencies:

(1) Of personal property when sold together with an interest in land or buildings in a single transaction and for a single price;

(2) Of all or substantially all of the United States Government-owned contents of a factory or plant to the owner, lessee, or operator of such factory or plant, or to any other single buyer purchasing for use in that location;

(3) Of scrap tires and scrap tubes if the person to whom such scrap tires or scrap tubes are sold is not a consumer and if the sale is not an export sale or a sale for delivery FAS port of exit, as these terms are defined in Ceiling Price Regulation 59.

(c) *Sales by certain Federal agencies.* (1) Sales by the Veterans' Canteen Service.

(2) Sales of sand, stone, gravel, gypsum, rock salt, yucca, and sulphur by the United States Department of the Interior under the Materials Act of July 31, 1947 (61 Stat. 681), as amended; 43 U. S. C. 1185–1188, provided the Department of the Interior notifies the purchaser in writing in advance of sale that the resale of such materials is subject to any applicable ceiling price regulation.

ARTICLE II

SEC. 20. *Definitions.* "Agency" means any department, commission, corporation, or other such instrumentality of the governments referred to in Article I.

Effective date. This Revision 2 to General Overriding Regulation 11, shall become effective the 21st day of July 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[General Overriding Regulation 14, Amdt. 18]

GOR 14—EXCEPTED AND SUSPENDED SERVICES

MISCELLANEOUS AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 18 to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

In the Defense Production Act Amendments of 1952 extending the Defense Production Act of 1950, Congress specifically exempted sales of certain services from price control. Some of these services had previously been exempted from price control by this regulation, but its provisions require modification in some respects to comply with the Congressional action. Other services had not previously been exempted and are now added to the exemptions under this regulation.

Congress exempted sales of commodities and services by State and local governments and their agencies, and this exemption is now contained in General Overriding Regulation 11, Revision 2. Accordingly, subparagraphs (46) and (65) of section 3 (a) have been deleted because they are now incorporated in GOR 11, Revision 2, and subparagraph (89) has been amended to refer to the exemption now available under that regulation.

The Congress made certain changes in section 402 (e) (v) of the Defense Production Act, which originally exempted from price control only the rates of common carriers and other public utilities. The Congress has now added to the exemption rates charged by all persons subject to the Shipping Act of 1916. The Shipping Act, as amended principally by the Transportation Act of 1940, gives the Federal Maritime Board broad rate regulatory authority over common carriers by water in foreign commerce, in commerce between the United States and its territories and possessions, and in commerce within the territories. It also gives the Board authority to prevent those persons rendering terminal services in connection with such common carriers by water or in connection with common carriers by water in interstate commerce from employing unreasonable or discriminatory business practices. Common carriers by water subject to the Shipping Act have been exempt from price control by virtue of the original exemption of common carriers contained in section 402 (e) (v) of the Defense Production Act. Therefore they are not included in this amendment. The Congress has now exempted the rates of those persons subject to the Shipping Act rendering terminal services in connection with such carriers. This exemption is now added to GOR 14. The exemption defines the persons it covers in terms substantially the same as the terms used in section 1 of the Shipping Act itself. These terms are as precise as feasible for language designed to embrace a broad group of businesses. Furthermore, there are several decisions of the United States Maritime Commission, now the Federal Maritime Board, and the Supreme Court of the United States which interpret these terms and thus provide a reasonable touchstone for making decisions as to the applicability of the exemption to a particular seller.

The Congress also amended section 402 (e) (v) of the Defense Production Act to exempt certain charges made or paid by common carriers for services which are not themselves common carriage, but which are interwoven with and incidental to common carriage. The charges made by common carriers which are exempt are those for the use of transportation equipment, for the use of washroom and toilet facilities in terminals and stations, for the use of parking facilities operated in connection with common carrier operations, and for the repair of transportation equipment. The charges paid by common carriers which are exempt are those for the performance of part of their transportation service rendered to the public, including pick-up and delivery and local transfer services and the use of equipment owned by others than common carriers, and charges for protective service against heat or cold to property transported. These new statutory exemptions are added.

This action also adds to GOR 14 the new statutory exemption relative to prices charged by bowling alleys for a game of bowling.

In view of the nature of this action, special circumstances have made consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respects:

1. Subparagraph (46) of paragraph (a) of section 3 is deleted.

2. Subparagraph (65) of paragraph (a) of section 3 is deleted.

3. Subparagraph (68) of paragraph (a) of section 3 is amended to read as follows:

(68) Charges made by a common carrier for the repair of cars or other transportation equipment; charges for railroad car repair services performed by a railroad car owner who is a party to the freight and passenger car interchange rules agreement of the Association of American Railroads in effect at the time of performance, when the charges for such services (including the furnishing of repair parts incidental thereto) are prescribed by the Code of Rules of the Association of American Railroads governing the condition of, and repairs to, freight and passenger cars for the interchange of traffic.

4. Subparagraph (89) of paragraph (a) of section 3 is amended to read as follows:

(89) Services supplied directly by the United States, the States, Territories and possessions of the United States, their political subdivisions and municipalities, the District of Columbia, and any agency of the foregoing, to the extent that such services are exempted by General Overriding Regulation 11.

5. Subparagraph (99) of paragraph (a) of section 3 is amended to read as follows:

(99) Charges made by a common carrier for the use by others of its cars or other transportation equipment; charges paid by a common carrier for the use of cars or other transportation equipment owned by a person other than a common carrier; charges paid by a common carrier to others for protective service against heat or cold to property transported or to be transported, charges for per diem, mileage allowance and protective services in connection with the use of railroad cars between railroads, and between railroads and private rail-

6. Paragraph (b) of section 8 is

sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.

road car owners, who are participants in and operate under the car service rules and per diem rules of the Code of the Association of American Railroads, or are parties to and operate under the rules, regulations and charges of Mileage Tariff No. 7–N, L. C. Schuldt, Agent, I. C. C. No. 3924, or as hereafter amended or revised.

6. Paragraph (a) of section 3 is amended by adding at the end thereof the following subparagraphs:

(104) Rates charged by any person subject to the Shipping Act of 1916, Public Law 260, Sixty-fourth Congress, as amended, with respect to his business of furnishing forwarding, wharfage, dock, warehouse or other terminal facilities in connection with a common carrier by water as the term "common carrier by water" is defined in section 1 of that act.

(105) Charges made by a common carrier for (i) the use of washroom and toilet facilities operated directly by it in its terminals and stations; (ii) the use of parking facilities operated directly by it in connection with its common carrier operations.

(106) Charges paid by a common carrier to others for (i) the performance of a part of its transportation services to the public; (ii) pickup and delivery and local transfer services.

(107) Prices charged for the game of bowling. This exemption does not extend to the supply of any other service or the sale of any commodity by the operator of a bowling alley.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 18 to General Overriding Regulation 14 is effective July 21, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52–8117; Filed, July 21, 1952; 11:54 a. m.]

[General Overriding Regulation 14, Amdt. 19]

GOR 14—EXCEPTED SERVICES

ADDITIONAL EXCEPTED SERVICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 19 to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 19 to General Overriding Regulation 14 extends the list of exemptions contained in that regulation to include fees of corporate directors and charges for admission to exhibits and various entertainment activities presented by certain non-profit organizations.

After consultation with other government agencies it has been determined that the fees charged by corporate directors for their services as representatives of the corporation, including attendance at meetings and participation in board of directors' meetings, may possibly be subject to the jurisdiction of the Office of Price Stabilization. However, in line with the policy of OPS to exempt services which have minor significance and slight effect upon the cost of living and services which cannot practicably be controlled, it is considered advisable to exempt fees charged by corporate directors acting in their capacity as directors of the corporation.

Also exempted are rates, fees and charges for admission to various cultural, educational, agricultural and industrial exhibits such as museums, historical restorations, etc., when operated solely and exclusively by a non-profit organization. The exemption also includes admission charges for special events of relatively short duration conducted exclusively by such non-profit organizations. Such special events include bazaars, carnivals, sports and entertainment activities when the special events conducted by the non-profit organization do not occur more than 30 days in any one calendar year. Generally, these special events are one or two day affairs and rarely do they continue more than two weeks.

The exemption, however, is limited to services rendered directly by non-profit organizations where no part of the receipts inures to the benefit of any private shareholder, and does not extend to services rendered on behalf of these non-profit organizations by persons supplying such services in a private capacity, such as subcontractors, lessors, lessees, licensors, licensees, concessionaires or promoters.

The exemption does not apply to sales of services incidental to or related to sales of commodities subject to OPS regulation, even though such services are rendered directly by a non-profit organization.

The limited applicability of these amendments and the varied and widespread nature of the services rendered has made formal consultation with industry representatives impracticable. However, informal conferences have been held with representatives of organizations affected by this regulation, and consideration has been given to their proposals and recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respects:

Paragraph (a) of section 3 is amended by adding at the end thereof the following:

(108) Compensations paid to corporate directors acting in their capacity solely as directors of the corporation when such compensation is not subject to regulation by the Salary Stabilization Board. This exemption, therefore, does not extend to such matters as compensation paid corporate directors acting as employees of a corporation or in any capacity other than as director of a corporation.

(109) Admission charges to cultural, educational, agricultural and industrial exhibitions when operated directly by a non-profit organization where no part of the receipts inures to the benefit of any private shareholders or similar beneficiaries; or to bazaars, carnivals and other occasional or special entertainment or sport events conducted directly by such non-profit organization when such events do not occur for more than 30 days in any one calendar year. This exemption does not extend to the rates, fees, or charges for services which are incidental or related to or connected with the sale of any commodity subject to ceiling price regulation by any such non-profit organization, or to the rates, fees and charges of sub-contractors, lessors, lessees, licensors, licensees, concessionaires, promoters or other persons supplying services related to such exhibitions or special events conducted by any such non-profit organizations.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 19 to General Overriding Regulation 14 shall be effective July 21, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52–8118; Filed, July 21, 1952. 11:54 a. m.]

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M–8, as Amended July 21, 1952]

M–8—TIN

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this order as amended there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected in advance of the issuance of this order as amended has been rendered impracticable by the fact that the order affects a large number of different trades and industries.

EXPLANATORY

This order as amended revises NPA Order M–8 as amended April 9, 1952, by making certain changes, among which are the following:

1. Section 1 is amended by deleting the reference to List A.

2. Paragraph (1) of section 2 is amended by deleting the reference to item 13 of Schedule VII.

3. Section 4 is amended by deleting paragraph (c), and by redesignating paragraph (d) as paragraph (c).

4. Section 5 is amended by including a reference to Schedule VIII.

5. The certification set out in paragraph (a) of section 8 is amended by adding the words "and within the quantities" to follow the words "only for the purposes."

6. Paragraph (b) of section 8 is amended by amending subparagraph (3), by deleting subparagraph (4), and by adding a new subparagraph designated subparagraph (4).

7. The tabulation included in paragraph (a) of section 11 is amended by deleting the specific reference to "lead-base alloys."

8. Subparagraph (3) of paragraph (a) of section 14 is amended by substituting the word "duplicate" for the word "triplicate."

9. List A is deleted.

10. Item (8) of Part A of Schedule I is redesignated item (9), and an additional item, designated item (8), is added to Part A of Schedule I.

11. Items (3) and (4) of Part B of Schedule I are amended by deleting the reference to List A.

12. Schedule II has been substantially revised to reflect an increase in the permissible tin content of solder for certain applications.

13. Item (1) of Schedule IV has been amended to abolish the distinction between new fluid milk shipping containers and all other dairy equipment, and to permit the use of pig tin to plate, coat, or retin dairy equipment.

14. Subdivision (ix) of item (7) of Schedule IV is amended to include "Spiral binding wire for stenographic and school note books."

15. Item (9) of Schedule IV is amended by changing "7 percent" to "12 percent."

16. An additional item, "Sterilizing equipment," to be designated item (12), is added to Schedule IV.

17. Schedule VI has been substantially revised, primarily for the purpose of liberalizing restrictions on the use of tin oxide.

18. Items (1), (2), and (12) of Schedule VII have been amended to permit greater freedom in the use of tin and certain materials containing tin.

19. A new schedule is added, designated Schedule VIII, which permits the quarterly use of secondary tin (or of pig tin, if secondary tin cannot be used) in the processes or for the manufacture of the items included in such schedule in quantity not exceeding 25 percent by weight of the average quarterly base-period usage of total tin.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Application of order.
4. Restrictions on use of pig tin and alloys and other materials containing tin.
5. Limitations on use of pig tin.
6. Maintenance, repair, and operating supplies.
7. Allocation of pig tin.
8. Certification.
9. Defense orders for items containing tin.
10. Exemption.
11. Inventories.
12. Export certificates.
13. Importation of pig tin.
14. Records and reports.
15. Request for adjustment or exception.
16. Communications.
17. Violations.

AUTHORITY: Sections 1 to 17 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* The purpose of this order is to describe how tin remaining after allowing for the requirements of national defense may be distributed and used in the civilian economy. It restricts the use of pig tin in manufacture, processing, and construction. It prohibits all uses of pig tin, secondary tin, and certain tin-bearing products not expressly set forth in the attached Schedules I through VIII. The order also sets forth limitations on inventories of pig tin and alloys and other materials containing tin, and explains the conditions under which reports are required in connection with the production, distribution, importation, use, and inventories of pig tin. In addition, it covers the conditions under which reporting is required in connection with the customs entry of tin importation. It prohibits the private importation of pig tin and places pig tin under allocation by prohibiting, subject to limited exceptions, any deliveries not covered by allocation authorizations to be issued monthly by the National Production Authority. It is the intent of this order that other materials which are not in short supply will be substituted for tin and alloys and other materials containing tin wherever possible.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(b) "Base period" means the 6-month period ending June 30, 1950.

(c) "Manufacture" means to melt, put into process, machine, fabricate, cast, roll, turn, spin, coat, extrude, or otherwise alter pig tin, alloys containing tin, or other materials containing tin, by physical or chemical means and includes the use of tin and alloys and other materials containing tin in plating, and in chemical compounding and processing. It does not include the use of tin contained in any "in process" materials or any other materials not actually to be incorporated into the items to be manufactured, such "in process" materials and other materials being included under paragraphs (d) and (e) of this section.

(d) "Maintenance" means the minimum upkeep necessary to continue a building, machine, piece of equipment, or facility in sound working condition, and "repair" means the restoration of a building, piece of equipment, or facility to sound working condition when the same has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts, or the like: *Provided, however,* Neither maintenance nor repair includes the improvement of any such item with material of a better kind, quality, or design.

(e) "Operating supplies" means any tin or alloy or other material containing tin normally carried by a person as operating supplies according to established accounting practice and not included in his finished product, except that materials included in such product which are normally chargeable to operating expense may be treated as operating supplies.

(f) "Import" means to transport in any manner into the continental United States from areas outside the continental United States, including territories and possessions. It includes shipments into foreign-trade zones, customs bonded warehouses, and customs custody, except when such shipments are merely in transit through the continental United States, to destinations outside the continental United States, as shown by the bills of lading or other shipping documents. However, if any such material in transit is halted or diverted to a destination in the continental United States or subjected to processing or manufacture in the continental United States, it becomes an "import" for the purposes of this order.

(g) "Pig tin" means metal containing 95 percent or more by weight of the element tin, in shapes current in the trade, including anodes, small bars, and ingots, but excluding the products specifically listed in section IV of report Form NPAF–7.

(h) "Secondary tin" means any alloy, produced from scrap, which contains less than 95 percent but not less than 1.5 percent by weight of the element tin.

(i) For the purpose of the reporting requirements relating to imports stated in section 14 (b) of this order, "tin" means pig tin and tin in any raw, semi-finished, or scrap form, and any alloys, compounds, or other materials containing tin (where tin is of chief value) in any raw, semifinished, or scrap form. This includes, but is not limited to, the following:

Babbitt metal and solder	6506.100
Alloys and combinations of lead, not in chief value lead (including lead, antimony, and white metal)	6506.900
Type metal	6507.000
Tin bars, blocks, pigs, grained or granulated	6551.300
Tin metallic scrap (except alloyed scrap)	6551.500
Tin alloys, chief value tin, n. s. p. f. (including alloyed scrap)	6551.900
Tin dross, skimmings, and residues	6740.170
Tin foil less than 0.006 inch thick	6790.710
Tin powder, flitters, and metallics	6790.720
Tin bichloride, tin tetrachloride, and other chemical compounds, mixtures, and salts, tin chief value (including tin oxide)	8380.920

NOTE: The numbers listed in the second column are commodity numbers taken from Schedule A, Statistical Classification of Imports into the United States, issued by the U. S. Department of Commerce (August 1, 1950 edition).

(j) "Copper-base alloy" for the purpose of this order means any alloy containing tin in the composition of which the percentage of copper metal by weight equals or exceeds 40 percent of the total weight of the alloy.

(k) "Scrap" means all materials or objects which are the waste or by-products of industrial fabrication or which have been discarded for obsolescence, failure, or other reason, and

which contain tin or alloys or other materials containing tin in a form making such scrap suitable for industrial use.

(l) "Soldering" means joining with solder. This term does not include dipping or solder-coating in which the joining operation is not performed simultaneously with such dipping or coating. (For dipping or coating see Schedule IV.)

(m) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles, and radio and radar equipment), and any parts, assemblies, or materials to be incorporated in any of these items. This term does not include facilities or equipment used to manufacture the items described above nor does it include any "in process" or any other materials not actually to be incorporated into the items described above.

SEC. 3. *Application of order.* Subject to the exemption stated in section 10, this order applies to all persons who produce tin or alloys or other materials containing tin, or who use tin or alloys or other materials containing tin, in manufacture, processing, or construction, or for maintenance, repair, or operating supplies. In addition, the reporting provisions stated in section 14 of this order apply to persons who produce, distribute, or hold in their possession pig tin, or who import tin.

SEC. 4. *Restrictions on use of pig tin and alloys and other materials containing tin.* Subject to the exemption in section 10 of this order, or unless specifically directed by the National Production Authority:

(a) No person shall use pig tin for any purpose where secondary tin can be used.

(b) No person shall use any pig tin, secondary tin, solder, babbitt, copper-base alloy, or other alloy containing 1.5 percent or more tin, or other materials containing 1.5 percent or more tin, in the manufacture, treatment, installation, or construction of any item or product, or in any process, or for any purpose, except those set forth in the attached schedules and to the extent permitted thereby. Uses not expressly authorized by said schedules are prohibited.

(c) In addition to the restrictions set forth in the attached schedules, no person shall use: (1) In the manufacture of any product or for any purpose as to which the attached schedules limit tin content, any alloys or other materials having a tin content greater than that being used by such person in such manufacture or for such purpose on January 27, 1951; (2) in the coating of any item, a heavier coating in terms of tin content than that being used by such person for such purpose on January 27, 1951; or (3) any metal to which pig tin has been added to produce any product or perform any process for which the use of pig tin is not permitted in the schedules.

SEC. 5. *Limitations on use of pig tin.* Subject to the restrictions in section 4 of this order, or unless specifically directed by the National Production Authority, during the calendar quarter commencing July 1, 1951, or any calendar quarter thereafter, no person shall use in the manufacture, processing, installation, construction, or treating of any item or product a total quantity by weight of pig tin in excess of 90 percent of his average quarterly use of pig tin for such purposes during the base period except as modified in Schedule IV, Schedule VI–B, and Schedule VIII of this order: *Provided, however,* That such use in any one month shall not exceed 40 percent of the permitted quarterly use.

SEC. 6. *Maintenance, repair, and operating supplies.* Unless specifically directed by the National Production Authority, no person shall use for maintenance, repair, and operating supplies during the calendar quarter commencing July 1, 1951, or any calendar quarter thereafter, a quantity by weight of pig tin in excess of 100 percent of his average quarterly use of pig tin for such purposes during the base period: *Provided, however,* That his use of pig tin for such purposes shall be in accordance with, and only to the extent permitted in, the attached schedules, and that no pig tin shall be used for such purposes where secondary tin can be used.

SEC. 7. *Allocation of pig tin.* (a) No person shall deliver pig tin or accept delivery of pig tin for any purpose in any month except in accordance with the terms of an allocation authorization issued for such month by the National Production Authority. An allocation authorization will be sent by the National Production Authority to the appropriate supplier and the purchaser will be notified of the issuance thereof. The authorization will permit the supplier to make delivery pursuant to the purchaser's order within the limitations of the authorization. The National Production Authority may specifically direct the purposes for which a person may use pig tin in the manufacture, processing, installation, treating, or construction of any item or product, whether or not such pig tin has been directly allocated to such person. A person who has received pig tin pursuant to an allocation for the purpose of resale may dispose of such pig tin only by resale. The issuance of an allocation authorization by the National Production Authority shall not dispense with the necessity of complying with the requirements of section 8 of this order with regard to certification.

(b) An application for an allocation authorization must be filed with the National Production Authority by the proposed purchaser on Form NPAF–7 not later than the twentieth day of the month preceding the month in which delivery is sought, and such application shall separately indicate the quantity of pig tin requested for use and the quantity requested for resale.

(c) No person shall deliver any pig tin if he knows or has reason to believe that the person requesting delivery is not permitted to receive it under the inventory limitations of section 11 of this order, or that such tin will be used for purposes not permitted by this order or in excess of the quantity limitations on use contained in section 5 of this order.

(d) The provisions of paragraph (a) of this section shall not apply to any: (1) delivery of pig tin to the Reconstruction Finance Corporation or the General Services Administration for the stockpile of strategic materials; (2) delivery of pig tin pursuant to specific directives of the National Production Authority; (3) delivery of pig tin to any person whose total receipts during the month in which such delivery occurs are and by such delivery will remain less than 6,000 pounds, and who has not received an allocation authorization for pig tin for that month, and who furnishes to the supplier a signed certification in substantially the following form:

The undersigned certifies, subject to the penalties of Title 18, U. S. Code (Crimes), section 1001, that receipt of this shipment of pig tin in the month requested will not be in violation of the inventory provisions of section 11 of NPA Order M–8; that no allocation authorization for pig tin for that month has been issued to the undersigned by the National Production Authority; that his total receipt of pig tin in that month, including that covered by this order, will not exceed 6,000 pounds; that his total use of pig tin in that month will not exceed his permitted use of pig tin pursuant to section 5 of NPA Order M–8; and that the pig tin herein ordered will be used only for the purposes permitted by NPA Order M–8 (Schedule ------, item -------) as follows:[1]

(Specify end use)

Any person who furnishes the foregoing certification shall not be required to furnish, with respect to pig tin, the certification required by section 8 of this order.

SEC. 8. *Certification.* (a) No person shall sell or deliver and no person shall purchase or accept delivery of any pig tin, secondary tin, solder, babbitt, or any other alloys or materials containing 1.5 percent or more tin (excluding ores and concentrates) until the purchaser has furnished a signed certification in substantially the following form:

The undersigned certifies, subject to the penalties of Title 18, U. S. Code (Crimes), section 1001, that the tin or tin product herein ordered will be used only for the purposes and within the quantities permitted by NPA Order M–8 (Schedule-----, item-----) or as permitted by special authorization from the National Production Authority as follows: [1]

(Specify end use)

This certification constitutes a representation by the purchaser to the seller and to the National Production Authority that the tin or tin-bearing products or materials delivered will be used either for the purpose or purposes set forth in the attached schedules or for "implements of war," or for resale without change in form (other than packaging), and that such use is not prohibited by other applicable orders or regulations of the National Production Authority.

[1] In cases coming within the exemption stated in section 10, substitute the phrase "implements of war" for the reference to schedule and item. Where the tin or tin products are purchased for resale without change in form (other than packaging), substitute the phrase "for resale upon proper certification."

(b) This certification shall not be required in connection with the delivery of: (1) tin to the General Services Administration for the stockpile of strategic materials; (2) tin or tin-bearing items or products pursuant to a specific authorization of the National Production Authority; (3) solder for joining purposes containing no more than 40 percent tin by weight; (4) tin chemicals (excluding tin oxide) produced from secondary tin or scrap, provided that such secondary tin or scrap has an impurity content too high for use in the production of other items permitted in the attached schedules; (5) babbitt for bearing purposes containing 10 percent or less tin; (6) babbitt for bearing purposes of any specifications in lots of 5 pounds or less; (7) printing plates and type metal containing tin for use by the printing, publishing, and related services industries; (8) liquor-finished wire; or (9) copper-base alloy scrap containing not more than 6 percent tin by weight when delivered to a scrap dealer, brass mill, or smelter. Such scrap when delivered to any other person and all other scrap containing 1.5 percent or more tin by weight may be delivered only upon proper certification by the purchaser.

(c) No person giving a certification under this section may receive, use, or dispose of the materials obtained upon such certification contrary to its terms.

SEC. 9. *Defense orders for items containing tin.* Notwithstanding the provisions of NPA Reg. 2 which establishes a priorities system, rated orders calling for items containing tin are subject to the provisions of sections 4, 5, 6, and 8 of this order unless within the exemption provided in section 10 or unless otherwise directed by the National Production Authority.

SEC. 10. *Exemption.* The restrictions of section 4 of this order shall not apply to the manufacture of "implements of war" produced for the Department of Defense, Atomic Energy Commission, United States Coast Guard, and the National Advisory Committee for Aeronautics, provided that the use of tin contrary to these restrictions is required either by the latest applicable specifications or drawings, or by letter or contract issued by any such government agency for which the "implements of war" are being produced.

SEC. 11. *Inventories.* In addition to the inventory provisions of NPA Reg. 1, it is considered that a more exact requirement applying to users of pig tin or alloys or other materials containing tin (excluding ores and concentrates) is necessary.

(a) No person obtaining any such materials for use in manufacture, processing, or construction, or for maintenance, repair, or operating supplies, shall receive or accept delivery of a quantity of the materials listed in Column A below from domestic sources, if his inventory of such materials is, or by such receipt would become, more than the smallest quantity which will be required by his scheduled method and rate of operation to be put into use for such purposes during the next succeeding period specified in Column B below, or (except for pig tin) in excess of a "practicable minimum working inventory" as defined in NPA Reg. 1, whichever is less:

Column A	*Column B*
Pig tin for tin plate	120 days.
Pig tin for all other uses	60 days.
All other materials and alloys containing 1.5 percent or more tin	60 days.

For the purpose of this section, any such materials in which only minor changes or alterations have been effected shall be included in inventory.

(b) Section 10 of NPA Reg. 1, entitled "Imported materials" will continue to apply. The other provisions of that regulation will continue to apply except as modified by this section.

(c) No scrap dealer shall accept delivery of any form of scrap defined in section 2 of this order, unless, during the 60 days immediately preceding the date of such acceptance, he shall have made delivery or otherwise disposed of scrap to an amount at least equal in weight to his scrap inventory on the date of such acceptance, exclusive of the delivery to be accepted.

SEC. 12. *Export certificates.* Any purchaser of an item included in the attached schedules who intends to export such item from the United States, its territories or possessions, or from Canada, shall include in the certification required under section 8 of this order the words "for export" as well as the number of the export license applicable to such item. No item may be produced for export unless its manufacture is permitted under the provisions of section 4 of this order.

SEC. 13. *Importation of pig tin.* Commencing on the effective date of this order, no person other than the Reconstruction Finance Corporation acting for and in behalf of the General Services Administration, shall import into the United States, its territories or possessions, any quantity of pig tin in bars, blocks, pigs, grain or granulated (Item 6551.300 Statistical Classification of Imports into the United States, dated August 1, 1950), except as specifically authorized in writing by the National Production Authority: *Provided, however,* That this prohibition shall not apply to any private importation pursuant to a contract executed prior to the effective date of this order, which is reported to and approved by the National Production Authority on or before March 23, 1951. The report of such contracts shall be by letter in duplicate addressed to the National Production Authority, Washington 25, D. C. (Ref: M–8), stating the date of execution of the contract, the parties thereto, the approximate date or dates of arrival, and the quantity and brand or brands of the material to be imported.

SEC. 14. *Records and reports.* (a) *Reports on pig tin.* (1) Any person using 1,000 pounds or more of pig tin in any calendar month must complete and file report Form NPAF–7 with the National Production Authority on or before November 20, 1950, and on or before the twentieth day of each succeeding month with respect to such use during the preceding month.

(2) Any person who on any day of any calendar month has in his possession or under his control 1,000 pounds or more of pig tin must complete and file report Form NPAF–7 with the National Production Authority on or before November 20, 1950, and on or before the twentieth day of each succeeding month with respect to such possession or control on the last day of the preceding month.

(3) Any person who produces, imports, or distributes any pig tin must report his production, entries, receipts, deliveries, inventories, balance of entries, and all other transactions in pig tin either by completing and filing report Form NPAF–7, or by letter in duplicate with the National Production Authority, on or before November 20, 1950, with respect to all such operations and transactions during October 1950, and on or before the tenth day of each succeeding month with respect to all such operations and transactions during the preceding month.

(b) *Reports on customs entry.* No tin, including without limitation, tin imported by or for the account of the Reconstruction Finance Corporation, or any other United States governmental department, agency, or corporation, shall be entered through the United States Collectors of Customs, unless the person making the entry shall complete and file, with the Collector of Customs, Form NPAF–8. The filing of such form a second time shall not be required upon any subsequent entry of the same material through the United States Collectors of Customs; nor shall the filing of such form a second time be required upon the withdrawal of such material from bonded custody of the United States Collectors of Customs, regardless of the date when such material was first transported into the continental United States. Form NPAF–8 will be transmitted by the Collectors of Customs to the National Production Authority.

(c) *Records.* (1) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(2) All records required by this order shall be made available for inspection and audit by duly authorized representa-

tives of the National Production Authority at the usual place of business where maintained.

(3) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

(d) *Submission of reports.* All reports required by this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–8, together with such number of copies as may be specified in the report form.

SEC. 15. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing by letter in triplicate, and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 16. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–8.

SEC. 17. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Except as otherwise provided herein, this order as amended shall take effect July 21, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

SCHEDULES OF NPA ORDER M–8

(See section 4)

SCHEDULE I—BRASS AND BRONZE

Alloys containing 1.5 percent or more by weight of tin may be processed for the following purposes only	*Maximum permissible tin content of alloys (percent by weight)*
A. CAST COPPER-BASE ALLOYS	
(1) Piston rings for locomotives and for airbrake equipment	(1) 20.
(2) Bridge trunnion bearings, bridge bearing plates, railroad and bridge turntable bearing discs, mill stand screw down nuts.	(2) 18.
(3) Jack nuts, feed nuts, and elevating nuts	(3) 14.
(4) High ratio worm gears, fire engine pump gears, thrust washers or discs, machine tool spindle bearings.	(4) 12.
(5) Hydraulic pump bodies and ends for gear pumps, grinder spindle sleeve bearings, step bearings, internal parts of industrial centrifugal pumps and injectors, collector rings, bearings, bushings, and chemical process valves.	(5) 10.
(6) Bearings produced by the process of powder metallurgy	(6) 10.
(7) Steam industrial and aircraft valves, fittings, and specialties.	(7) 6.5.
(8) Tablets, markers, and memorials	(8) 4.
(9) All other castings	(8) 6.
B. WROUGHT ALLOYS	
(1) Condenser tubes, engine beater bars, jordan bars, ductor blades, fourdrinier wire, and screen plates.	(1) 8.
(2) Manufacture of discs and diaphragms for industrial control instruments, bronze welding rods, and rifle nuts in air hammers.	(2) 10.
(3) For use as bearings, spectacle wire, and functional parts in all other items.	(3) 5.5.
(4) All other	(4) 2.
C. COPPER NICKEL ALLOYS	
(1) Seats, discs, and bearing surfaces of steam and industrial valves.	(1) 13.

SCHEDULE II—SOLDERS

Pig or secondary tin may be used to make solder to be used for the following purposes only. (See definition of "soldering" in section 2. Solder coating is covered by Schedule IV.)	*Maximum permissible tin content of solder (percent by weight)*
(1) For soldering side seams in the manufacture of cans made with either lock or lap side seams or with a combination of lock or lap seams.	(1) 5.
(2) For soldering end seams of all solder seam cans and for the sealing of milk cans	(2) 30.
(3) For a filler or smoother for the repair of automobile or truck bodies or fenders or for similar repair purposes.	(3) 30.
(4) Radiators	(4)
(i) Average per radiator	(i) 30.
(ii) Wire solder not over 5/32 inch in diameter for the hand repair of radiators.	(ii) 40.
(5) For all soldering on the following: railroad car and truck refrigeration; refrigeration equipment inside refrigeration compartments; aluminum refrigeration condensers; aircraft motors; Diesel and electric generators; electric-traction motors; generators for railroads, street cars, mine locomotives, railway locomotives, and busses (including the dipping of commutator segments).	(5) Unlimited.
(6) Electrical precision instruments; meters, recording and indicating; dairy equipment; food processing equipment; and hospital and sterilizing equipment.	(6) 50.
(7) Tin-zinc solders for soldering aluminum foil condensers, and tin-lead solders for soldering printed circuits.	(7) 60.
(8) For soldering operations not specified above	(8) 40.

SCHEDULE III—BABBITT

Pig or secondary tin may be used to make babbitt metal or alloys used as babbitt, cast or plated, for the following purposes only:	*Maximum permissible tin content of babbitt (percent by weight)*
(1) For manufacture, repair, maintenance, or replacement of multivane crosshead linings in locomotives or for lining aluminum crossheads, and for bonding of precision bearings and all bearings included under items (2) and (3) below.	(1) Unlimited.
(2) For manufacture, repair, maintenance, or replacement of connecting rods or main engine bearings for trucks, tractors, bulldozers, or busses.	(2) 90.

SCHEDULE III—BABBITT—Continued

Pig or secondary tin may be used to make babbitt metal or alloys used as babbitt, cast or plated, for the following purposes only:	*Maximum permissible tin content of babbitt (percent by weight)*
(3) For manufacture, repair, maintenance, or replacement of Diesel engines; turbines; locomotive connecting rod or coupling rod bearings; irrigation water pumping engines and equipment; industrial engines, generators, and motors; compressors; pumps; vessels or other ship facilities; electric locomotives; electric traction motor and generator bearings; stone crusher bearings; saw mill, planing mill, paper mill machinery; and roll neck bearings 8 inches in diameter or larger.	(3) 90.
(4) For any other bearing purpose	(4) 10.

SCHEDULE IV—PLATING AND COATING

Pig tin or alloys containing tin may be used to plate or coat solely for protective or functional purposes in the following items only:	*Permitted use of pig tin or alloys containing tin*
(1) **Dairy equipment.**	(1) Plate, coat, or retin.
(2) **Equipment** for preparing and handling food, including kitchen utensils, galley and mess equipment.	(2) Coat or retin only such parts as are designed to come in actual contact with food.
(3) **Cutlery and flatware.**	(3) Plate or coat.
(4) Copper or brass pipe and fittings:	(4)
(i) Tubing or fittings to dispense beverages or distilled water.	(i) Coat.
(ii) Tubing or fittings used as refrigeration tubing or in contact with beverages or drinking water in beverage or drinking water equipment.	(ii) Electro tin or chemically tin.
(5) **Snap** fasteners and hooks and eyes	(5) Tin or tin chemicals may be used for barrel plating or chemical plating.
(6) **Copper** and copper-base alloy wire and strip:	(6)
(i) Wire—0.032 inch nominal diameter or finer.	(i) Coat.
(ii) Wire—larger than 0.032 inch nominal diameter.	(ii) Coat with alloy containing not more than 12 percent tin by weight.
(iii) Strip—0.0270 inch thick or thinner where solderable coating is required for electrical connection.	(iii) Coat. Coating limited to 0.0004 inch in thickness.
(iv) Strip—where solderable coating is required for radiators and heat exchangers.	(iv) Coat with an alloy containing not more than 15 percent tin by weight.
(7) **Steel** wire, for following purposes:	(7) Coat for purposes indicated.
(i) Liquor-finishing process of fine steel bright wire.	
(ii) Armature binding wire and wire for all electrical equipment and aircraft parts including aircraft wire and cable.	
(iii) Wire having ultimate tensile strength of 100,000 pounds per square inch for manufacture of stranded cable (not including picture wire, fishing leaders, and like items), but including musical instrument strings.	
(iv) Spring steel wire for use as springs where prime function of the wire is a spring and alternative coatings cannot be used. (This does not include wire for spiral binding and like applications.)	
(8) Tin plate and terneplate	(8) Pig or secondary tin may be used to coat tin plate only when and to the extent specifically authorized in writing by NPA. Only secondary tin may be used to produce terne metal for coating terneplate. Terne metal containing not more than 15 percent tin may be used for coating short ternes and roofing ternes. Terne metal containing not more than 10 percent tin may be used for coating all other long ternes. All uses of tin plate and terneplate shall be in accordance with the specification limits stated in NPA Order M–24.

SCHEDULE VII—MISCELLANEOUS—Continued

SCHEDULE VI.—TIN CHEMICALS AND TIN OXIDE—Continued

Pig or secondary tin or scrap may be used for the production of chemicals as follows:

B. TIN OXIDE

Production	*Permitted use*
Tin oxide may be produced only as specifically authorized in writing by NPA.	(1) For the production of green, pink, yellow, and red colors in amounts in any one quarter not in excess of 60 percent of the average quarterly use for such purposes during the base period. (2) For the production of earthenware plumbing fixtures. (3) Laboratory agents and medicinals. (4) For polishing, provided that no person shall use for this purpose in any calendar quarter more than 50 percent of his average quarterly use for this purpose during the base period.

SCHEDULE VII—MISCELLANEOUS

Except where otherwise stated, pig or secondary tin may be used to make the following items, for permitted uses as shown:

Items	*Permitted use*
(1) Aluminum alloys containing not more than 7 percent tin by weight.	(1) For any purpose.
(2) Tin pipe, sheet, and fittings	(2) To repair or maintain beverage dispensing units and their parts, including soda fountain carbon dioxide tanks. Where such repairs require the purchase of more than 50 pounds of tin, the purchaser must return to the supplier a quantity of scrap tin having the same tin content as the material supplied.
(3) Tin pipe or tubes	(3) Where required, for conducting chemically pure distilled water.
(4) Bolster metal	(4) In the manufacture of surgical instruments if the tin content of the bolster metal does not exceed 35 percent of tin by weight. For all other cutlery, if the tin content of the bolster metal does not exceed 10 percent of tin by weight and provided such bolster metal is produced from secondary tin only.
(5) Pipe organs for religious and educational institutions.	(5) May be manufactured, rebuilt, or repaired with secondary tin taken from the inventories of organ builders or acquired from old organs.
(6) Dental amalgam alloys	(6) No restriction on tin content.
(7) Detonators and blasting caps (including electric blasting caps).	(7) Pig or secondary tin may be used to make the detonators and blasting caps and all necessary parts and accessories.
(8) Collapsible tubes	(8) Pig or secondary tin may be used in accordance with the specification limits stated in NPA Order M-27.
(9) Printing plates and type metal containing tin.	(9) May be made for use by the printing, publishing, and related services industries without certification.
(10) Terne metal	(10) Terne metal containing not more than 15 percent of tin may be produced if made from secondary tin only.

SCHEDULE IV—PLATING AND COATING—Continued

Pig tin or alloys containing tin may be used to plate or coat solely for protective or functional purposes in the following items only	*Permitted use of pig tin or alloys containing tin*
(9) Sheet (other than tin plate, terneplate, or tin mill black plate), tubing, wire, foundry chaplets, etc.	(9) Lead-base alloys containing not more than 12 percent of tin may be used to coat, if the alloys are derived from secondary tin only.
(10) Steel-bearing shells	(10) Pig or secondary tin may be used to electro-tin to a thickness not exceeding 0.00006 inch.
(11) Electrotype shells	(11) Pig or secondary tin may be used to electro-plate, electrotype shells only where such installations were operating on or before January 27, 1951.
(12) Sterilizing equipment	(12) Plate or coat.

SCHEDULE V—FOIL

Pig or secondary tin may be used to make foil for the following purposes only	*Maximum permissible tin content of foil (percent by weight)*
(1) Electrotypers' foil	(1) 30.
(2) Soft babbit for the preparation of industrial metallic packing.	(2) 1½.
(3) Condenser foil of dimensions 0.00035 inch by 1 inch or less.	(3) 50.
(4) Condenser foil for all other condensers	(4) 15.
(5) Foil for aircraft magnetos	(5) 50.
(6) Cap liner foil for packing medicinal, pharmaceutical, and biological preparations containing chloroform or other highly volatile chemicals; and preparations containing an equivalent alcohol content in excess of 50 percent, and for which other types of liners cannot be used.	(6) Unlimited.
(7) Dental foil	(7) Unlimited.
(8) Lead-base foil for burglar alarm systems	(8) 4½.

SCHEDULE VI—TIN CHEMICALS AND TIN OXIDE

Pig or secondary tin or scrap may be used for the production of chemicals as follows:

A. TIN CHEMICALS (OTHER THAN TIN OXIDE)

Types of tin chemicals	*Permitted use*
(1) Tin chemicals (excluding tin oxide).	(1) May be used only as or for: Laboratory reagents, medicinals, or plating (to the extent permitted in other schedules).
(2) Tin chemicals (excluding tin oxide) produced from secondary tin or scrap, provided that such secondary tin or scrap has an impurity content too high for use in the production of other items permitted in the attached schedules.	(2) May be used for any purpose without certification.

SCHEDULE VII—MISCELLANEOUS—Continued

Except where otherwise stated, pig or secondary tin may be used to make the following items, for permitted uses as shown:

Items	*Permitted use*
(11) Fusible alloys and dry pipe seat rings:	(11)
(i) Dry pipe seat rings	(i) Pig or secondary tin may be used to the extent required to meet performance specifications.
(ii) Fusible alloys for safety purposes only.	(ii) Pig or secondary tin may be used to the extent required to meet minimum code requirements with respect to the operation of the product in which the alloy is to be contained.
(12) Linings for chromium plating tanks and lead anodes for chromium plating.	(12) Lead-base alloys containing not more than 7 percent tin may be used if the alloys are derived from secondary tin only.
(13) Bismuth alloys. Pig or secondary tin may be used for the production of bismuth alloys.	(13) For items permitted elsewhere in these schedules or as specifically authorized in writing by the National Production Authority.
(14) Clutch and brake facings when produced by the process of powder metallurgy.	(14) Not more than 10 percent by weight of tin powder.
(15) Carbon brushes when produced by the process of powder metallurgy.	(15) Tin powder up to 12 percent of the copper content by weight.
(16) Hammer metal, die-proofing metal, and filling and sealing metal.	(16) Lead-base alloys containing not more than 5 percent tin may be used if the alloys are derived from secondary tin only.

SCHEDULE VIII

Pig or secondary tin may be used by any person in the following processes or in the production of the following items, provided that such usage in any calendar quarter shall not exceed 25 percent of his average quarterly usage of tin (total weight of pig and secondary tin) for such purpose during the base period, and that no pig tin is used where secondary tin can be used. Solder for joining purposes may be used without limit in the production of these items. The usage of tin under this schedule is subject to the specification limitations set forth in any other applicable schedule and in section 4 (c) of this order.

1. Advertising specialties.
2. Art objects.
3. Britannia metal, pewter metal, or other similar tin-bearing alloys.
4. Buckles.
5. Buttons.
6. Chimes and bells.
7. Coated paper.
8. Emblems and insignia.
9. Fasteners as follows: Book match clips and staples, paper clips, spiral binders for advertising purposes, office staples, and paper fasteners.
10. Jewelry.
11. Novelty souvenirs and trophies.
12. Ornaments and ornamental fittings.
13. Hollow ware.
14. Plating and coating for decorative purposes.
15. Powder for decorative purposes.
16. Refrigerator trays or shelves (all types).
17. Seals and labels.
18. Slot, game, and vending machines.
19. Tin oxide (except for the purposes and to the extent set forth in Schedule VI).
20. Toys and games.
21. Zinc galvanizing.
22. All other ornamental or decorative purposes.

[F. R. Doc. 52-8067; Filed, July 21, 1952; 9:52 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

FOX RIVER AND PORTAGE CANAL, WISCONSIN

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.643 is amended; paragraph (b) is redesignated as paragraph (c) and regulations are hereby prescribed as paragraph (b) to govern the operation of the highway bridge across the Fox River and U. S. Canal at De Pere, Wisconsin, as follows:

§ 203.643 *Fox River and Portage Canal, Wisconsin.* • • •

(b) *Bridge (highway) at De Pere, Wis.* (1) The owner of or agency controlling the bridge will not be required to keep draw tenders in constant attendance or maintain a signal device at this bridge.

(2) For the purpose of this paragraph the bridge tender and the acting clerk of the City of De Pere, Wisconsin, are designated as authorized representatives of the owner.

(3) The bridge shall be opened promptly upon the call signal of three distinct blasts of a whistle or horn for the passage of any vessel unable to pass safely under the closed draw span from 10:00 a. m. to 8:00 p. m., c. s. t., on all days of the regular navigation season. In case the draw cannot be opened immediately when the signal is given, a red flag or a ball by day, or a red light by night, shall be conspicuously displayed.

(4) At all other times during the regular navigation season, whenever a vessel unable to pass under the closed bridge desires to pass through the draw, at least 2 hours' advance notice of the time the opening is required shall be given to the authorized representative of the owner of or agency controlling the bridge. Upon receipt of such advance notice, the representative shall arrange for the prompt opening of the draw at the time specified in the notice for the passage of the vessel.

(5) The owner of or agency controlling such bridge shall provide arrangements whereby the representative specified in subparagraph (2) of this paragraph can be reached readily by telephone or otherwise at any time, and shall keep conspicuously posted on both the upstream and downstream sides of the bridge, in such a manner that it can be read easily at any time, a copy of these regulations together with a notice stating exactly how he may be reached.

(c) *Bridges at or between Berlin and Portage, Wis.* • • •

(28 Stat. 362; 33 U. S. C. 499) [Regs., July 1, 1952, 823.01–ENGWO]

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

PART 204—DANGER ZONE REGULATIONS

VIEQUES PASSAGE IN THE VICINITY OF POINT CASCAJO, PUERTO RICO

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), and Chapter XIX of the Army Appropriation Act of July 9, 1918 (40 Stat. 892; 33 U. S. C. 3), § 204.232, establishing a danger zone and governing navigation within an Army antiaircraft artillery and water-borne target gunnery range in the waters of Vieques Passage between Puerto Rico and Vieques Island is hereby prescribed, effective on and after its publication in the FEDERAL REGISTER due to the urgency of the training program and the wide publicity already given, as follows:

§ 204.232 *Waters of Vieques Passage in the vicinity of Point Cascajo, Puerto Rico; antiaircraft artillery and water-borne target range, United States Army Forces Antilles and Military District of Puerto Rico*—(a) *The danger zone.* (1) All waters of Vieques Passage off the east coast of Puerto Rico, within the sector of a circle, bounded by radii of 25,000 yards bearing 156° 09′ 57″ and 226° 48′ 46″, respectively, from latitude 18°12′24″, longitude 65°37′54″, and the included arc.

NOTE: All bearings are referred to true meridian.

(2) The outer boundaries of the danger zone will not be marked but signs will be posted at conspicuous places on the shore to warn against trespassing on the area. Aircraft and watercraft will be presumed to know the location of the danger zone by its principal landmark.

(b) *The regulations.* (1) The danger zone shall be open to navigation at all times except when antiaircraft artillery and water-borne target practice firing or both are being conducted. At such times, no vessel or other craft except those engaged in the patrol of the area, or in antiaircraft artillery and water-borne target firing practice, shall enter or remain within the area.

(2) The fact that antiaircraft artillery and water-borne target firing practice, or both are to take place over the designated area will be advertised to the public through the usual media for the dissemination of such information. Inasmuch as such practice is to be carried on throughout the year, without regard to season, such advertising will be re-

peated at intervals not exceeding three months, and at more frequent intervals when, in the opinion of the Commanding General responsible for the use of the area, such frequent repetition is advisable in the interest of the public safety.

(3) Prior to conducting each anti-aircraft artillery or water-borne target firing practice, or both, the entire danger zone will be patrolled to insure that no watercraft are within the danger zone. Any watercraft found in the vicinity will be warned that such practice is about to take place. Any such watercraft shall, upon being so warned, leave the danger zone immediately and shall not return until such practice shall have been terminated and notification to that effect shall have been given by the patrol craft.

(4) This section shall be enforced by the Commanding General, United States Army Forces Antilles and Military District of Puerto Rico, and such agencies as he may designate.

(40 Stat. 266, 892; 33 U. S. C. 1, 3) [Regs., July 7, 1952, 800.2121–ENGWO]

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 35—PANAMA CANAL

Chapter I—Canal Zone Regulations

PART 4—OPERATION AND NAVIGATION OF PANAMA CANAL AND ADJACENT WATERS

MISCELLANEOUS AMENDMENTS

1. Pursuant to the authority vested in me by Rules 9 and 12 of Executive Order No. 4314 of September 25, 1925, establishing rules governing the navigation of the Panama Canal and adjacent waters, §§ 4.20 and 4.21a of Title 35 of the Code of Federal Regulations are hereby amended in the following respects.

2. In § 4.20, in the tabular listing of documents required, the number of required copies of item (f) in both columns is changed from 4 to 2; of item (g) in the second column is changed from 8 to 4; and of item (k) in the second column is changed from 4 to 2. Note 1 under this section is amended to read as follows:

NOTE 1: *Documents required at ports.* In case a vessel takes on or discharges passengers or cargo at only one Canal Zone port and does not transit the Canal, the documents to the number indicated in the second column are required. In case a ship docks or takes on or discharges passengers or cargo at both Cristobal and Balboa, or at a port other than the port of entry, all documents to the number indicated in the second column will be required at the first port and, in addition, one copy each of documents (f), (g), (h), and (i), and document (k) to the number indicated in the second column, will be required at the second port.

3. In § 4.21a the word "Six" and the word "six", wherever they appear, are amended to read "Two" and "two", respectively.

(E. O. 4314, Sept. 25, 1925)

Issued at Balboa Heights, Canal Zone, June 30, 1952.

J. S. SEYBOLD,
Governor of the Canal Zone.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter II—Forest Service, Department of Agriculture

PART 271—USE OF "SMOKEY BEAR" SYMBOL

Pursuant to authority vested in me by the act of May 23, 1952, 66 Stat. 92, 18 U. S. C. 711 there are hereby prescribed the following regulations governing the manufacture, reproduction or use of "Smokey Bear."

Sec.

271.1 Definitions.
271.2 Present use.
271.3 Non-commercial license.
271.4 Commercial license.
271.5 Interim commercial use.
271.6 Review of licenses.
271.7 Power to revoke.
271.8 Consultation with Association of State Foresters and the Advertising Council.

AUTHORITY: §§ 271.1 to 271.8 issued under 66 Stat. 92; 18 U. S. C. 711.

§ 271.1 *Definitions.* (a) the term "Smokey Bear" as used in this part means the character "Smokey Bear" originated by the Forest Service of the United States Department of Agriculture in cooperation with the Association of State Foresters and The Advertising Council, or any facsimile thereof, or the name "Smokey Bear", or any name or designation sufficiently similar as to suggest the character "Smokey Bear".

(b) The term "Chief" means the Chief of the Forest Service, United States Department of Agriculture, or person designated to act for him.

(c) The term "Association of State Foresters" means the national organization of State Foresters.

(d) The term "the Advertising Council" is the Advertising Council Inc., organized under the laws of the State of New York.

§ 271.2 *Present use.* Materials heretofore or hereafter produced and released as part of the nation-wide cooperative forest fire prevention program and approved jointly by the Advertising Council, the Association of State Foresters, and the United States Department of Agriculture, may continue to be used without express approval. These include glossy prints, mats, cuts, and other official campaign materials.

§ 271.3 *Non-commercial license.* The Chief may authorize the use of "Smokey Bear" for non-commercial educational purposes without charge under such conditions as will contribute to purposes of education and information concerning the prevention of forest fires.

§ 271.4 *Commercial license.* The Chief may authorize the commercial manufacture, reproduction, or use of "Smokey Bear" upon the following findings:

(a) That the use to which the article or published material involving "Smokey Bear" is to be put shall contribute to public information concerning the prevention of forest fires.

(b) That the proposed use is consistent with the status of "Smokey Bear" as the symbol of forest fire prevention and does not in any way detract from such status.

(c) That a use or royalty charge which is reasonably related to the commercial enterprise has been established.

Such other conditions shall be included as the Chief deems necessary in particular cases.

§ 271.5 *Interim commercial use.* The Chief may authorize the manufacture, reproduction or use of "Smokey Bear" without regard to the requirements of § 271.4, for periods not to exceed 180 days in any case, subject to the following limitations:

(a) It shall be determined that such persons, because of plans or commitments made prior to the enactment of 18 U. S. C. 711 would suffer substantial loss if denied such authorization.

(b) Such continued manufacture, reproduction or use will not detract from the symbolic status of "Smokey Bear."

(c) Reasonable use charge or royalty shall be made for this privilege, unless in the judgment of the Chief such charge would be unreasonable, in view of the prior plans or commitments of the licensee.

(d) No license granted under this section shall be effective after May 22, 1953.

§ 271.6 *Review of licenses.* The Chief will cooperate with the Association of State Foresters and the Advertising Council, and for this purpose may review with these organizations from time to time the nature and status of licenses granted under these regulations.

§ 271.7 *Power to revoke.* It is the intention of this part that the Chief, in exercising the authorities delegated hereunder, will at all times consider the primary purpose of fostering public information in the prevention of forest fires. All authorities and licenses granted under this part shall be subject to abrogation by the Chief at any time he finds that the use involved is injurious to the purpose of forest fire prevention, is offensive to decency or good taste, or for similar reasons in addition to any other limitations and terms contained in the licenses.

§ 271.8 *Consultation with Association of State Foresters and the Advertising Council.* This part has been issued after consultation with the Association of State Foresters and the Advertising Council.

It is to the benefit of the public that these regulations be made effective at the earliest practicable date. Accordingly, pursuant to the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238), it is found upon good cause that notice and public procedure on this amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making these regulations effective less than thirty days after publication.

The foregoing regulations shall be effective July 22, 1952.

Done at Washington, D. C., this 17th day of July 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52–7969; Filed, July 21, 1952; 8:48 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 51]

INSPECTION, CERTIFICATION AND STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

STANDARDS FOR FLORIDA ORANGES

Notice is hereby given that the United States Department of Agriculture is considering the issuance of proposed separate United States Standards for Florida Oranges and the deletion of all reference to Florida under the present effective Standards for Oranges (14 F. R. 6831), issued November 15, 1949. This action is being taken pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451; 82d Cong., approved July 5, 1952).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with M. W. Baker, Deputy Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m. e. s. t. on the thirtieth (30) day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 51.302 *Standards for Florida oranges*—(a) *General* (1) The standards in this section apply only to the common or sweet orange group and varieties belonging to the Mandarin group, except tangerines. The standards in this section do not apply to tangerines for which separate U. S. Standards are issued.

(b) *Grades*—(1) *U. S. Fancy.* U. S. Fancy consists of oranges of similar varietal characteristics which are well colored, firm, well formed, mature, and of smooth texture, and which are free from ammoniation, bird pecks, bruises, buckskin, creasing, cuts which are not healed, decay, growth cracks, scab, split navels, sprayburn, and undeveloped or sunken segments, and free from injury caused by green spots or oil spots, pitting, rough and excessively wide or protruding navels, scale, scars, thorn scratches, and from damage caused by dirt or other foreign materials, dryness or mushy condition, sprouting, sunburn, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) In this grade not more than one-tenth of the surface, in the aggregate, may be affected with discoloration. (See Tolerances for Defects.)

(ii) If any lot of U. S. Fancy Fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(2) *U. S. No. 1.* U. S. No. 1 consists of oranges of similar varietal characteristics which are firm, well formed, mature, and of fairly smooth texture, and which are free from bruises, cuts which are not healed, buckskin or similar type of discoloration, decay, growth cracks, sprayburn, undeveloped or sunken segments, and free from damage caused by ammoniation, bird pecks, creasing, dirt or other foreign materials, dryness or mushy condition, green spots or oil spots, pitting, scab, scale, scars, split or rough or protruding navels, sprouting, sunburn, thorn scratches, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) Oranges of the early and mid-season varieties shall be fairly well colored.

(ii) With respect to Valencia and other late varieties, not less than 50 percent, by count, of the oranges shall be fairly well colored and the remainder reasonably well colored.

(iii) In this grade not more than one-third of the surface, in the aggregate, may be affected with discoloration. (See Tolerances for Defects.)

(iv) If any lot of U. S. No. 1 fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(3) *U. S. No. 1 Bright.* The requirements for this grade are the same as for U. S. No. 1 except that no fruit may have more than one-tenth of its surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 1 Bright fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(4) *U. S. No. 1 Golden.* The requirements for this grade are the same as for U. S. No. 1 except that not more than 30 percent, by count, of the fruits shall have in excess of one-third of their surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 1 Golden fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges).

(5) *U. S. No. 1 Bronze.* The requirements for this grade are the same as for U. S. No. 1 except that more than 30 percent but not more than 75 percent, by count, of the fruits shall have in excess of one-third of their surface, in the aggregate, affected with discoloration: *Provided*, That when the predominating discoloration on each of 75 percent or more, by count, of the fruits is caused by rust mite, all fruits may have in excess of one-third of their surface affected with discoloration. (See Tolerances for Defects).

(i) If any lot of U. S. No. 1 Bronze fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges).

(6) *U. S. No. 1 Russet.* The requirements for this grade are the same as for U. S. No. 1 except that more than 75 percent, by count, of the fruits shall have in excess of one-third of their surface, in the aggregate, affected with discoloration. (See Tolerances for Defects).

(i) If any lot of U. S. No. 1 Russet fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges).

(7) *U. S. No. 2.* U. S. No. 2 consists of oranges of similar varietal characteristics which are mature, fairly firm, not more than slightly misshapen, of not more than slightly rough texture, and which are free from bruises, cuts which are not healed, decay, growth cracks, and are free from serious damage caused by ammoniation, bird pecks, buckskin, creasing, dirt or other foreign materials, dryness or mushy condition, green spots or oil spots, pitting, scab, scale, scars, split or rough or protruding navels, sprayburn, sprouting, sunburn, thorn scratches, undeveloped or sunken segments, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) Each orange of this grade shall be reasonably well colored.

(ii) In this grade not more than one-half of the surface, in the aggregate,

may be affected with discoloration. (See Tolerances for Defects.)

(iii) If any lot of U. S. No. 2 fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(8) *U. S. No. 2 Bright.* The requirements for this grade are the same as for U. S. No. 2 except that no fruit may have more than one-tenth of its surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 2 Bright fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(9) *U. S. No. 2 Russet.* The requirements for this grade are the same as for U. S. No. 2 except that more than 10 percent, by count, of the fruits shall have in excess of one-half of their surface, in the aggregate, affected with discoloration. (See Tolerances for Defects.)

(i) If any lot of U. S. No. 2 Russet fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(10) *U. S. No. 3.* U. S. No. 3 consists of oranges of similar varietal characteristics which are mature, which may be misshapen, slightly spongy, rough but not seriously lumpy for the variety or seriously cracked, which are free from cuts which are not healed, and from decay, and from very serious damage caused by bruises, growth cracks, ammoniation, bird pecks, caked melanose, buckskin, creasing, dryness or mushy condition, pitting, scab, scale, split navels, sprayburn, sprouting, sunburn, thorn punctures, riciness or woodiness of the flesh, disease, insects, or mechanical or other means.

(i) Each fruit may be poorly colored but not more than 25 percent of the surface of each fruit may be of a solid dark green color. (See Tolerances for Defects.)

(ii) If any lot of U. S. No. 3 fruit also meets the internal specifications of "U. S. Grade AA Juice (Double A)" or "U. S. Grade A Juice" it may be so specified in accordance with the facts. (See Standards for Internal Quality of Common Sweet Oranges.)

(c) *Unclassified.* Unclassified consists of oranges which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Tolerances.* In order to allow for variations incident to proper grading and handling in each of the foregoing grades, the following tolerances are provided as specified:

(1) *U. S. Fancy Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided*, That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. None of the foregoing tolerances shall apply to wormy fruit.

(2) *U. S. No. 1 Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, other than for discoloration, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping points: *Provided*, That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. In addition, not more than 10 percent, by count, of the fruits in any lot may have discoloration in excess of one-third of the fruit surface. None of the foregoing tolerances shall apply to wormy fruit.

(3) *U. S. No. 1 Bright and U. S. No. 2 Bright Grades.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of the grade, other than for discoloration, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided*, That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. In addition, not more than 10 percent, by count, of the fruits in any lot may not meet the requirements relating to discoloration. None of the foregoing tolerances shall apply to wormy fruit.

(4) *U. S. No. 1 Golden and U. S. No. 1 Bronze Grades.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of the grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided*, That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. No part of any tolerance shall be allowed to reduce or to increase the percentage of fruits having in excess of one-third of their surface, in the aggregate, affected with discoloration which is required in the grade, but individual containers may vary not more than 10 percent from the percentage required: *Provided*, That the entire lot averages within the percentage specified. None of the foregoing tolerances shall apply to wormy fruit.

(5) *U. S. No. 1 Russet Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided*, That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. None of the foregoing tolerances shall apply to wormy fruit.

(6) *U. S. No. 2 Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, other than for discoloration, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage other than that caused by dryness or mushy condition, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided*, That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. In addition, not more than 10 percent, by count, of the fruits in any lot may not meet the requirements relating to discoloration. None of the foregoing tolerances shall apply to wormy fruit.

(7) *U. S. No. 2 Russet Grade.* Not more than 10 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-half of this amount, or 5 percent, shall be allowed for very serious damage other than that caused by dryness or mushy condition, and not more than one-twentieth of the tolerance, or one-half of one percent, shall be allowed for decay at shipping point: *Provided*, That an additional tolerance of 2½ percent, or a total of not more than 3 percent, shall be allowed for decay en route or at destination. No part of any tolerance shall be allowed to reduce the percentage of fruits having in excess of one-third of their surface, in the aggregate, affected with discoloration which is required in this grade, but individual containers may have not more than 10 percent less than the percentage required: *Provided*, That the entire lot averages within the percentage specified. None of the foregoing tolerances shall apply to wormy fruit.

(8) *U. S. No. 3 Grade.* Not more than 15 percent, by count, of the fruits in any lot may be below the requirements of this grade, but not more than one-third of this amount, or 5 percent, shall be allowed for defects other than that caused by dryness or mushy condition, and not more than one-fifth of this amount, or 1 percent, shall be allowed for decay at shipping point: *Provided*, That an additional tolerance of 2 percent, or a total of not more than 3 percent, shall be allowed for decay enroute or at destination.

None of the foregoing tolerances shall apply to wormy fruit.

(e) *Application of tolerances to individual packages.* (1) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade.

(i) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual packages in any lot shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages in any lot shall have not more than double the tolerance specified, except that at least one decayed or very seriously damaged fruit may be permitted in any package.

(ii) For packages which contain 10 pounds or less, individual packages in any lot are not restricted as to the percentage of defects: *Provided*, That not more than one orange which is seriously damaged by dryness or mushy condition or very seriously damaged by other means may be permitted in any package, and in addition, enroute or at destination not more than 10 percent of the packages may have more than one decayed fruit.

(f) *Standard pack for oranges except Temple variety.* (1) Fruit shall be fairly uniform in size, unless specified as uniform in size, and when packed in boxes shall be arranged according to the approved and recognized methods. Each wrapped fruit shall be fairly well wrapped.

(2) All packages shall be tightly packed and well filled but the contents shall not show excessive or unnecessary bruising because of overfilled packages.

(3) When packed in standard nailed boxes, each container shall show a minimum bulge of 1¼ inches.

(4) "Fairly uniform in size" means that not more than a total of 10 percent, by count, of the fruits in any container are outside the range of diameters given in the following table for various packs:

TABLE I

[Diameter in inches]

Pack	Minimum	Maximum
96's	3 6/16	3 13/16
126's or 128's	3 3/16	3 10/16
150's	3	3 7/16
176's or 176's	2 14/16	3 3/16
200's	2 13/16	3 1/16
216's	2 10/16	3
252's	2 8/16	2 14/16
288's or 294's	2 7/16	2 12/16
324's	2 6/16	2 10/16

(5) "Uniform in size" means that not more than 10 percent, by count, of the fruits in any container vary more than the following amounts:

150 size and smaller—not more than 4/16 inch in diameter.

126 size and larger—not more than 5/16 inch in diameter.

(6) In order to allow for variations, other than sizing, incident to proper packing, not more than 5 percent of the packages in any lot may not meet the requirements of standard pack.

(g) *Definitions.* (1) "Similar varietal characteristics" means that the fruits in any container are similar in color and shape.

(2) "Well colored" means that the fruit is yellow or orange in color with practically no trace of green color.

(3) "Firm" as applied to common oranges, means that the fruit is not soft, or noticeably wilted or flabby; as applied to oranges of the Mandarin group (Satsumas, King, Mandarin), means that the fruit is not extremely puffy, although the skin may be slightly loose.

(4) "Well formed" means that the fruit has the shape characteristic of the variety.

(5) "Mature" means the same as that term is set forth for oranges other than Temple oranges in sections 19 and 20, chapter 25149 and for Temple oranges, in sections 601.21 and 601.22, chapter 26492, Florida Statutes, known as the Florida Citrus Code of 1949.

(6) "Smooth texture" means that the skin is thin and smooth for the variety and size of the fruit.

(7) "Injury" means any defect which more than slightly affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as injury:

(i) Green spots or oil spots, when appreciably affecting the appearance of the individual fruit;

(ii) Rough and excessively wide or protruding navels, when protruding beyond the general contour of the orange; or when flush with the general contour but with the opening so wide, considering the size of the fruit, and the navel growth so folded and ridged that it detracts noticeably from the appearance of the orange;

(iii) Scale, when more than a few adjacent to the "button" at the stem end, or when more than 6 scattered on other portions of the fruit;

(iv) Scars which are depressed, not smooth, or which detract from the appearance of the friut to a greater extent than the maximum amount of discoloration allowed in the grade; and,

(v) Thorn scratches, when the injury is not slight, not well healed, or more unsightly than discoloration allowed in the grade.

(8) "Discoloration" means russeting of a light shade of golden brown caused by rust mite or other means. Lighter shades of discoloration caused by superficial scars or other means may be allowed on a greater area, or darker shades may be allowed on a lesser area, provided no discoloration caused by melanose or other means may affect the appearance of the fruit to a greater extent than the shade and amount of discoloration allowed for the grade.

(9) "Fairly smooth texture" means that the skin is fairly thin and not coarse for the variety and size of the fruit.

(10) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Ammoniation, when not occurring as light speck type similar to melanose;

(ii) Creasing, when causing the skin to be materially weakened;

(iii) Dryness or mushy condition, when affecting all segments of common oranges more than one-fourth inch at the stem end, or all segments of varieties of the Mandarin group more than one-eighth inch at the stem end, or more than the equivalent of these respective amounts, by volume, when occurring in other portions of the fruit;

(iv) Green spots or oil spots, when more than 5 in number, or when the aggregate area of all spots exceeds the area of a circle three-fourths inch in diameter on an orange of 200-size. Smaller sizes shall have a lesser number or lesser areas of green spots or oil spots and larger sizes may have a larger number or greater areas: *Provided*, That the appearance of the orange is not affected to a greater extent than the number or area permitted on a 200-size orange;

(v) Scab, when it cannot be classed as discoloration, or appreciably affects shape or texture;

(vi) Scale, when occurring as a blotch and its size exceeds the area of a circle five-eights inch in diameter on an orange of 200-size. Smaller sizes shall have lesser areas of scale and larger sizes may have greater areas: *Provided*, That no scale shall be permitted which affects the appearance to a greater extent than a blotch five-eighths inch in diameter on a 200-size orange;

(vii) Scars which are not smooth, or scars which are deep, or scars which are shallow or fairly shallow and detract from the appearance of the fruit to a greater extent than the amount of discoloration allowed in the grade;

(viii) Split or rough or protruding navels, when any split is unhealed, or more than three well-healed splits at the navel, or any split which is more than one-fourth inch in length, or three-cornered, star-shaped, or other irregular navels when the opening is so wide, considering the size of the orange, and the navel growth so folded and ridged that it detracts materially from the appearance of the orange; or navels which flare, bulge, or protrude beyond the general contour of the orange to the extent that they are subject to mechanical injury in the process of proper grading, or handling, or packing;

(ix) Sunburn, when the area affected exceeds 25 percent of the fruit surface, or when the skin is appreciably flattened, dry, darkened, or hard;

(x) Thorn scratches, when the injury is not well healed, or concentrated light colored thorn injury which has caused the skin to become hard and the aggregate area exceeds the area of a circle one-fourth inch in diameter, or slight scratches when light colored and concentrated and the aggregate area exceeds the area of a circle 1 inch in diameter, or dark or scattered thorn injury

which detracts from the appearance of the fruit to a greater extent than the amounts specified above; and,

(xi) Riciness or woodiness, when the flesh of the fruit is so ricey or woody that excessive pressure by hand is required to extract the juice.

(11) "Fairly well colored" means that the yellow or orange color predominates over the green color on that part of the fruit which is not discolored, except for an aggregate area of green color which does not exceed the area of a circle 1 inch in diameter.

(12) "Reasonably well colored" means that the yellow or orange color predominates over the green color on at least two-thirds of the fruit surface, in the aggregate, which is not discolored.

(13) "Fairly firm" as applied to common oranges, means that the fruit may be slightly soft, but not bruised; as applied to oranges of the Mandarin group (Satsumas, King, Mandarin), means that the skin of the fruit is not extremely puffy or extremely loose.

(14) "Slightly misshapen" means that the fruit is not of the shape characteristic of the variety but is not appreciably elongated or pointed or otherwise deformed.

(15) "Slightly rouugh texture" means that the skin is not of smooth texture but is not materially ridged, grooved, or wrinkled.

(16) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(i) Ammoniation, when scars are cracked, or when dark and the aggregate area exceeds the area of a circle three-fourths inch in diameter, or when light colored and the aggregate area exceeds the area of a circle 1¼ inches in diameter;

(ii) Buckskin, when aggregating more than 25 percent of the fruit surface, or the fruit texture is seriously affected;

(iii) Creasing, when so deep or extensive that the skin is seriously weakened;

(iv) Dryness or mushy condition, when affecting all segments of common oranges more than one-half inch at the stem end, or all segments of varieties of the Mandarin group more than one-fourth inch at the stem end, or more than the equivalent of these respective amounts, by volume, when occurring in other portions of the fruit;

(v) Green spots or oil spots, when seriously affecting the appearance of the individual fruit;

(vi) Scab, when it cannot be classed as discoloration, or when materially affecting shape or texture;

(vii) Scale, when it seriously affects the appearance of the individual fruit;

(viii) Scars which are not fairly smooth, or scars which are very deep, or scars which are not very deep but which detract from the appearance of the fruit to a greater extent than the amount of discoloration allowed in the grade;

(ix) Split or rough or protruding navels, when any split is unhealed, or one well healed split at each corner of irregular navels when any one is more than one-half inch in length, or when aggregating more than 1 inch in length, or when more than four in number; or navels which protrude beyond the general contour of the orange to the extent that they are subject to mechanical injury during the process of proper grading, or handling, or packing; or irregular navels when the opening is so wide, considering the size of the orange, and the navel growth so badly folded and ridged that it detracts seriously from the appearance of the orange;

(x) Sprayburn which seriously affects the appearance of the fruit, or is hard, or when light brown in color and the aggregate area exceeds the area of a circle 1¼ inches in diameter;

(xi) Sunburn which affects more than one-third of the fruit surface, or is hard, or the fruit is decidedly one-sided, or when light brown in color and the aggregate area exceeds the area of a circle 1¼ inches in diameter;

(xii) Thorn scratches, when the injury is not well healed, or concentrated light colored thorn injury which has caused the skin to become hard and the aggregate area exceeds the area of a circle one-half inch in diameter, or slight scratches when light colored and concentrated and the aggregate area exceeds the area of a circle 1½ inches in diameter, or dark or scattered thorn injury which detracts from the appearance of the fruit to a greater extent than the amounts specified above;

(xiii) Undeveloped or sunken segments, in navel oranges, when such segments are so sunken or undeveloped that they are readily noticeable; and,

(xiv) Riciness or woodiness, when the flesh of the fruit is so ricey or woody that excessive pressure by hand is required to extract the juice.

(17) "Misshapen" means that the fruit is decidedly elongated, pointed or flat-sided.

(18) "Slightly spongy" means that the fruit is puffy or slightly wilted but not flabby.

(19) "Very serious damage" means any defect which very seriously affects the appearance, or the edible or shipping quality of the fruit. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as very serious damage:

(i) Growth cracks that are seriously weakened, gummy or not healed;

(ii) Ammoniation, when aggregating more than 2 inches in diameter, or which has caused serious cracks;

(iii) Bird pecks, when not healed;

(iv) Caked melanose, when more than 25 percent, in the aggregate, of the surface of the fruit is caked;

(v) Buckskin, when rough and aggregating more than 50 percent of the surface of the fruit;

(vi) Creasing, when so deep or extensive that the skin is very seriously weakened;

(vii) Dryness or mushy condition, when affecting all segments of common oranges more than one-half inch at the stem end, or all segments of varieties of the Mandarin group more than one-fourth inch at the stem end, or more than the equivalent of these respective amounts, by volume, when occurring in other portions of the fruit;

(viii) Scab, when aggregating more than 25 percent of the surface of the fruit;

(ix) Scale, when covering more than 20 percent of the surface of the fruit;

(x) Split navels, when not healed or the fruit is seriously weakened;

(xi) Sprayburn, when seriously affecting more than one-third of the fruit surface;

(xii) Sunburn, when seriously affecting more than one-third of the fruit surface;

(xiii) Thorn punctures, when not healed or the fruit is seriously weakened; and,

(xiv) Riciness or woodiness, when the flesh of the fruit is so ricey or woody that excessive pressure by hand is required to extract the juice.

(20) "Diameter" means the greatest dimension measured at right angles to a line from stem to blossom end of the fruit.

(h) *Standards for internal quality of common sweet oranges (Citrus Sinensis (L) Osbeck)*—(1) *U. S. Grade AA Juice (Double A).* Any lot of oranges, the juice content of which meets the following requirements, may be designated "U. S. Grade AA Juice (Double A)":

(i) Each lot of fruit shall contain an average of not less than 5 gallons of juice per standard packed box of one and three-fifths bushels.

(ii) The average juice content for any lot of fruit shall have not less than 10 percent total soluble solids, and not less than one-half of 1 percent anhydrous citric acid, or more than the maximum acid specified in Table II of this section.

(2) *U. S. Grade A Juice.* Any lot of oranges, the juice content of which meets the following requirements, may be designated "U. S. Grade A Juice":

(i) Each lot of fruit shall contain an average of not less than four and one-half gallons of juice per standard packed box of one and three-fifths bushels.

(ii) The average juice content for any lot of fruit shall have not less than 9 percent total soluble solids, and not less than one-half of 1 percent anhydrous citric acid, or more than the maximum acid specified in Table II of this section.

(i) *Maximum anhydrous citric acid permissible for corresponding total soluble solids.* (1) For determining the grade of juice, the maximum permissible anhydrous citric acid content in relation to corresponding total soluble solids in the fruit is set forth in the following Table II together with the minimum ratio of total soluble solids to anhydrous citric acid:

TABLE II

Total soluble solids average percent	Maximum anhydrous citric acid average percent	Minimum ratio of total soluble solids to anhydrous citric acid
9.0	0.947	9.50-1
9.1	.953	9.45-1

FEDERAL SECURITY AGENCY

Social Security Administration

[45 CFR Part 301]

ORGANIZATION AND OPERATION OF FEDERAL CREDIT UNIONS

FEE FOR SUPERVISION

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946 (60 Stat. 238, 5 U. S. C. 1003), that the regulations set forth in tentative forms below are proposed to be prescribed by the Director of the Bureau of Federal Credit Unions with approval of the Commissioner for Social Security and the Federal Security Administrator. The proposed regulations amend existing regulations concerning fees for supervision.

Prior to the official adoption of the proposed regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Director of the Bureau of Federal Credit Unions, Federal Security Agency, Federal Security Building, Washington 25, D. C., within a period of thirty days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under authority contained in section 16a and section 5 of the Federal Credit Union Act, as amended. (48 Stat. 1221, 12 U. S. C. 1766; 66 Stat. 63, 12 U. S. C. 1755; and section 2 of the act of June 29, 1948 (62 Stat. 1091)).

[SEAL] CLAUDE R. ORCHARD,
Director, Bureau of Federal Credit Unions.

Dated: July 16, 1952.

Approved:

A. J. ALTMEYER,
Commissioner for Social Security.

Approved:

JOHN L. THURSTON,
Acting Federal Security Administrator.

Section 301.6 is hereby amended to read as follows:

§ 301.6 *Fee for supervision*—(a) *Extent of fee.* Not later than January 31 of each calendar year, each Federal credit union shall pay to the Bureau of Federal Credit Unions, for the preceding calendar year, a supervision fee in accordance with the graduated scale set forth in subparagraph (1) of this paragraph on the basis of assets as of December 31 of such preceding year, but such fee shall in no event be less than $10: *Provided, however,* That no such annual fee shall be payable by such an organization with respect to the year in which its charter is issued or the year in which final distribution is made in liquidation of the credit union or the charter is otherwise canceled.

(1) *Scale of supervision fees.*

Totals Assets	*Maximum Fee*
$500,000 or less	30 cents per $1,000;
Over $500,000 and not over $1,000,000	$150, plus 25 cents per $1,000 in excess of $500,000;
Over $1,000,000 and not over $2,000,000	$275, plus 20 cents per $1,000 in excess of $1,000,000;
Over $2,000,000 and not over $5,000,000	$475, plus 15 cents per $1,000 in excess of $2,000,000;
Over $5,000,000	$925, plus 10 cents per $1,000 in excess of $5,000,000.

Provided, however, That no fee shall be payable with respect to the last fractional part of $1,000 of total assets.

(2) *Definition of assets.* (i) The term "assets" as used in this section shall mean all items properly coming within the classification of asset accounts as stated in the Manual of Accounting Procedure for Federal Credit Unions, as revised.

(ii) The term "total assets" as used in this section shall mean the sum of all assets.

(b) *Supervision fee certificate.* The treasurer of each Federal credit union shall certify as to the correctness of the Supervision Fee Certificate, Form FCU 511 Rev. He shall send, not later than January 31 of each year, the original supervision fee certificate and as many copies as the Bureau of Federal Credit Unions may request, together with a check in payment of the supervision fee stated on the supervision fee certificate to be due, to the Regional Office of the Bureau of Federal Credit Unions for the region in which the Federal credit union maintains its principal office, and shall retain one copy of the supervision fee certificate in the permanent files of the Federal credit union. Copies of the supervision fee certificate form may be obtained from any Regional Office of the Bureau of Federal Credit Unions.

(c) *Checks in payment of supervision fees.* All checks in payment of supervision fees shall be made payable to the Treasurer of the United States.

(d) *Audit of supervision fee computation and payment.* Whenever the Bureau of Federal Credit Unions makes a regular or special examination of a Federal credit union, the employee of the Bureau of Federal Credit Unions making the examination will audit the computation and payment of annual supervision fee(s) for the years which have elapsed since the last previous audit. Such employee shall adjust any errors in computation and the Federal credit union shall deliver to such employee a check pay-

able to the Treasurer of the United States to cover the amount of any underpayment of the supervision fee(s). The decision of the employee of the Bureau as to amount due shall be final and conclusive: *Provided*, That the Federal credit union may make the supplementary payment subject to the results of an appeal from the employee's decision to the Regional Representative of the Bureau of Federal Credit Unions for the region in which the Federal credit union maintains its principal office: *Provided further*, That the Federal credit union shall file such appeal within 30 days from the date the employee's decision is made. If the audit discloses that an overpayment has been made, the employee of the Bureau of Federal Credit Unions is authorized to advise and assist the Federal credit union to prepare and file a request for a refund of the amount of overpayment. Such request should be addressed to the Regional Representative of the Bureau of Federal Credit Unions for the area in which the credit union maintains its principal office.

[F. R. Doc. 52-7963; Filed, July 21, 1952; 8:47 a. m.]

NOTICES

DEPARTMENT OF DEFENSE

Office of the Secretary

SECRETARIES OF ARMY, NAVY, AND AIR FORCE

DELEGATION OF AUTHORITY FOR SUBMITTING LOYALTY CERTIFICATIONS OF CIVILIAN PERSONNEL ASSIGNED TO UNITED STATES MISSIONS TO GREECE AND TURKEY

Pursuant to the authority vested in me as Secretary of Defense, and in accordance with section 202 (f) of the National Security Act, as amended, the authority and responsibility for making required loyalty certifications is hereby delegated to the Secretaries of the Army, Navy, and Air Force, respectively, for personnel under their jurisdictions, in order to meet the provisions of the Greek-Turkish Assistance Act of 1947, subsection 2 of section 1, 61 Stat. 103, and the Greek-Turkish Assistance Act of 1948, section 304, 62 Stat. 158. This authority may be redelegated to specified officials as appropriate.

WILLIAM C. FOSTER,
Acting Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 61

JULY 14, 1952.

Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), I hereby classify as hereinafter indicated under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. Sec. 682a), as amended, the following described public lands in the Anchorage, Alaska, Land District:

INDEX LAKE UNIT

SEWARD MERIDIAN

For lease and sale—for cabin sites:

T. 20 N., R. 8 E.
Sec. 23: Lots 3, 4, 6, and 7 and N½NW¼NE¼SW¼.

Containing approximately 16 acres.

This order shall not become effective to permit the initiation of any rights or any disposition under the public land laws until it is so provided by an order to be issued by the Chief, Division of Land Planning, Bureau of Land Management, Region VII, Anchorage, Alaska, opening the lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, with a 91 day preference right period for filing such applications by veterans of World War II and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 747, 43 U. S. C. sec. 279), as amended.

FRED J. WEILER,
Chief,
Division of Land Planning.

[F. R. Doc. 52-7960; Filed, July 21, 1952; 8:46 a. m.]

CALIFORNIA

NOTICE OF FILING OF PLAT OF SURVEY

JULY 14, 1952.

Notice is given that the plat of original survey of the following described lands, accepted February 28, 1952, will be officially filed in the Land Office, Sacramento, California, effective at 10:00 a. m. on the 35th day after the date of this notice:

MOUNT DIABLO MERIDIAN

T. 22 S., R. 13 E.,
Sec. 11, E½;
Sec. 12, W½.

The area described aggregates 640 acres.

These lands lie across the crest of the Coast Range in Monterey County and partially in Fresno County. The lands are not accessible by vehicle and are extremely rough, broken and mountainous with elevations ranging from 2,700 to 3,650 feet. The lands are generally covered with a dense stand of brush and are considered to be primarily valuable for watershed and wildlife purposes. Grazing value for domestic livestock is limited, and the lands are not known to contain timber, minerals, permanent water or other resources of public value.

The S½NE¼, NE¼SE¼ Sec. 11, and SW¼, SW¼NW¼ Sec. 12, above township and range, are patented lands. Therefore, they are not subject to application under the public land laws.

The N½NE¼, W½SE¼, SE¼SE¼ Sec. 11, and N½NW¼, SE¼NW¼ Sec. 12, above township and range, are vacant public lands which are embraced in noncompetitive oil and gas leases issued under the act of February 25, 1920 (41 Stat., 443, 30 U. S. C. Sec. 226), as amended.

No applications for the described vacant public lands may be allowed under the homestead, small tract, or any other nonmineral public land laws unless the land has already been classified as valuable or suitable for such application or shall be so classified upon consideration of an application.

At the hour and date specified above the described vacant public lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land Office at Sacramento, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 and 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

[SEAL] J. M. GIBBONS,
Manager.

[F. R. Doc. 52-7994; Filed, July 21, 1952; 8:55 a. m.]

[Misc. 63387]

IDAHO

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

JULY 16, 1952.

In an exchange of lands made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

BOISE MERIDIAN

T. 2 S., R. 18 E., B. M., Idaho
Sec. 1, lot 1;
Sec. 22, E½E½;
Sec. 23, W½, W½E½,
T. 2 S., R. 19 E.,
Sec. 6, lots 3, 4, 5, 6, SE¼NW¼, NE¼SW¼;
Sec. 17, SE¼, SE¼SW¼;
Sec. 20, N½NE¼, NE¼NW¼,
T. 1 N., R. 22 E.,
Sec. 22, N½NW¼, SE¼NW¼, NE¼SW¼.

The areas described aggregate 1,427.30 acres.

The lands are primarily suitable for grazing.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Boise, Idaho, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Boise, Idaho.

WILLIAM ZIMMERMAN, JR.,
Acting Director.

[F. R. Doc. 52-7961; Filed, July 21, 1952; 8:47 a. m.]

UTAH

AIR-NAVIGATION SITE WITHDRAWAL NO. UTAH R-IV-2

JULY 14, 1952.

By virtue of the authority contained in section 4 of the act of May 24, 1928, 45 Stat. 729 (49 U. S. C. 214), and in section 7 of the act of June 28, 1934, 48 Stat. 1272, as amended by the act of June 26, 1936, 49 Stat. 1976 (43 U. S. C. 315f), and pursuant to section 2.22 (a) (2) of Delegation Order No. 427 of August 16, 1950 (15 F. R. 5639), it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Utah are hereby withdrawn from all forms of appropriation under the public-land laws and reserved for the use of the Civil Aeronautics Administration, Department of Commerce, in the maintenance of air-navigation facilities, the reservation to be known as Air-Navigation Site Withdrawal No. Utah R-IV-2.

UTAH

SALT LAKE MERIDIAN

T. 27 S., R. 11 E.,
Sec. 35: S½NW¼SW¼; N½SW¼SW¼.

The area described aggregates 40 acres.

It is intended that the above-described lands shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

WM. N. ANDERSON,
Acting Regional Administrator.

CIVIL AERONAUTICS BOARD

[Docket No. 5587]

COMPANIA CUBANA DE AVIACION, S. A.; AMENDMENT OF FOREIGN AIR CARRIER PERMIT

NOTICE OF HEARING

In the matter of the application of Compania Cubana de Aviacion, S. A., under section 402 of the Civil Aeronau-

tics Act of 1938, as amended, for an amendment of its foreign air carrier permit so as to add Varadero, Cuba, as an intermediate point between Havana, Cuba, and Miami, Fla.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402, 1001 and 1002 of said Act, that public hearing in the above-entitled proceeding is assigned to be held on August 11, 1952, at 10:00 a. m., (eastern daylight time) in Room E-210, Temporary Building No. 5, 16th Street and Constitution Avenue NW., Washington, D. C., before Examiner Walter W. Bryan.

Without limiting the scope of the issues presented by said applicant, particular attention will be directed to the following matters and questions:

1. Whether the proposed air transportation will be in the public interest.

2. Whether the applicant is fit, willing, and able to perform the proposed transportation and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board thereunder.

3. Whether the authorization of the proposed transportation is consistent with any obligation assumed by the United States in any treaty, convention, or agreement in force between the United States and Cuba.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before August 11, 1952, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details of the service proposed and authorization requested, interested parties are referred to the application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., July 17, 1952.

By the Civil Aeronautics Board.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[Region IX, Redelegation of Authority No. 28, Amdt. 1]

DIRECTORS OF DISTRICT OFFICES, REGION IX, KANSAS CITY, MISSOURI

REDELEGATION OF AUTHORITY TO ACT UNDER SECTIONS 10 (e) AND 16 (c) OF CPR 98, AS AMENDED

By virtue of the authority vested in the Director of the Regional Office of Price Stabilization, Region IX, pursuant to the provisions of Delegation of Authority No. 53, Amendment 1, dated June 30, 1952 (17 F. R. 5971), this Amendment 1 to Redelegation of Authority No. 28, (17 F. R. 1957), is hereby issued.

Redelegation of Authority No. 28 is amended by redesignating the present paragraph 2 as paragraph 4 and adding new paragraphs 2 and 3 to read as follows:

2. *Authority under section 10 (e) of Ceiling Price Regulation 98, as amended.* Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region IX, to accept applications for the establishment of ceiling markups made in accordance with the provisions of section 10 (e) of Ceiling Price Regulation 98, as amended, to request further information in connection with such application, to approve, disapprove or revise proposed ceiling markups, and to modify or revoke ceiling markups established under that section.

3. *Authority under section 16 (c) of Ceiling Price Regulation 98, as amended.* Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region IX, to accept applications for the establishment of ceiling warehouse prices made in accordance with the provisions of section 16 (c) (2) of Ceiling Price Regulation 98, as amended, to request further information in connection with such applications, to approve or disapprove such ceiling prices and to revoke ceiling prices established under section 16 (c).

This Amendment 1 to Redelegation of Authority No. 28 shall take effect as of July 11, 1952.

COMMODITY RATES TO AND FROM KRANNERT, GA.

APPLICATION FOR RELIEF

JULY 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Consolidated Freight Classification, Alternate Agent A. H. Carson's ICC No. 107.

Commodities involved: Commodity rates.

Between: Krannert, Ga., and points in the United States.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, to apply over short tariff routes rates constructed on the basis of the short line distance formula, newly established station.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

[4th Sec. Application 27225]

LIQUEFIED CHLORINE GAS FROM BATON ROUGE AND NORTH BATON ROUGE, LA., TO KINGSPORT, TENN.

APPLICATION FOR RELIEF

JULY 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent C. A. Spaninger's tariff ICC No. 1167, pursuant to fourth section order No. 16101.

Commodities involved: Liquefied chlorine gas, in tank-car loads.

From: Baton Rouge and North Baton Rouge, La.

To: Kingsport, Tenn.

Grounds for relief: Competition with rail carriers, circuitous routes, operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27226]

VARIOUS COMMODITIES FROM SOUTHERN TERRITORY TO POINTS IN OFFICIAL AND SOUTHERN TERRITORIES

APPLICATION FOR RELIEF

JULY 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent C. A. Spaninger's tariff ICC No. 1172 and other tariffs, pursuant to fourth section order No. 9800.

Commodities involved: Various commodities, carloads.

From: Points in southern territory.

To: Points in official and southern territories.

Grounds for relief: Competition with rail carriers, circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27227]

VARIOUS COMMODITIES FROM POINTS IN TRUNK-LINE TERRITORY TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

JULY 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to his tariff ICC No. A-911, pursuant to fourth section order No. 9800.

Commodities involved: Various commodities, carloads.

From: Points in trunk-line territory.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 27228]

ELECTRODES FROM NIAGARA FALLS AND SUSPENSION BRIDGE, N. Y., TO HOPEWELL, VA.

APPLICATION FOR RELIEF

JULY 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to Erie Railroad Company's ICC No. 20786, pursuant to fourth section order No. 9800.

Commodities involved: Carbon furnace electrolytic bath electrodes (carbon plugs) and green electrode mix, carloads.

From: Niagara Falls and Suspension Bridge, N. Y.

To: Hopewell, Va.

Grounds for relief: Competition with rail carriers, circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[4th Sec. Application 27229]

SAND FROM CHICAGO, ILL., TO MEMPHIS, TENN.

APPLICATION FOR RELIEF

JULY 17, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to his tariff ICC No. 699.

Commodities involved: Sand, carloads.

From: Chicago, Ill., and points taking same rates.

To: Memphis, Tenn.

Grounds for relief: Circuitous routes.

Schedules filed containing proposed rates; R. G. Raasch, Agent, ICC No. 699, supl. 47.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY WITH RESPECT TO COMPLAINT AGAINST FULLMAN FARES AND CHARGES

1. Pursuant to the provisions of sections 201 (a) (4) and 205 (d) and (e) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, authority to represent the interests of the executive agencies of the Federal Government in the matter of United States of America v. the Pullman Company, I. C. C. Docket No. 31046, a complaint against the Pullman fares and charges, before the Interstate Commerce Commission, is hereby delegated to the Secretary of Defense.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration and shall further be exercised in cooperation with the responsible officers, officials and employees of such Administration.

4. This delegation of authority shall be effective as of June 2, 1952.

Dated: July 16, 1952.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-206]

UNITED PUBLIC SERVICE CORP.

NOTICE OF FILING AND NOTICE OF AND ORDER FOR HEARING ON PLAN FILED

JULY 15, 1952.

Notice is hereby given that United Public Service Corporation ("UPS"), a registered holding company and a subsidiary of the Middle West Corporation, also a registered holding company presently in the process of liquidation, has filed an application for approval of a plan for its liquidation and dissolution pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act").

All interested persons are referred to the plan, which is on file in the office of this Commission, for a statement of the transactions therein proposed which may be summarized as follows:

UPS was incorporated under the laws of New Jersey in December 1934, pursuant to a plan of reorganization of United Public Service Company and United Public Utilities Company. It has sold substantially all of the securities owned by it and has distributed the proceeds thereof to its stockholders in partial liquidation of the company pursuant to the provisions of section 11 (b) of the act.

As at December 31, 1951, the only outstanding securities of UPS consisted of 305,992 shares of capital stock, par value 25 cents per share. Current liabilities amounted to $182, and contingent liabilities amounted to $52,500. The assets of UPS, as of the same date, consisted of $339,491 in cash and U. S. Treasury securities and 148,055 shares (approximately 40 percent) of the common stock of United Public Utilities Corporation, which company as of December 31, 1951 had substantially liquidated all of its assets and had distributed the proceeds thereof to its security holders except for approximately $70,000, which is subject to the expenses of its dissolution plan, and approximately $35,700 of unclaimed distributions to stockholders. At December 31, 1953, United Public Utilities Corporation will distribute any remaining balance on hand to the holders of its common stock.

In brief, the plan provides for an initial cash distribution to stockholders of approximately $340,000 in cash (equivalent to a maximum amount of approximately $1.10 per share) less certain expenses and liabilities of the Company existing at the effective date of the plan; a final cash distribution, if funds are available, after the expiration of five years from the effective date of the plan; and the dissolution of UPS. UPS has requested that the Commission, in the event it approves the plan, apply to an appropriate court to enforce and carry out the terms and provisions thereof. The effective date of the plan will be the date of the entry of the order of the Court enforcing the plan.

Under the plan, the following steps are proposed:

1. Within 30 business days after the effective date of the plan UPS will make an initial distribution to its stockholders of an amount in cash equal to the cash and government securities held at the effective date of the plan (exclusive of cash held in Dividend and Liquidation Accounts payable pursuant to prior distributions) less the sum of (a) admitted liabilities of the Company, (b) claims, if any, filed on or prior to a date to be fixed by the Court, upon request of the Company, (c) administrative and other expenses of liquidation paid prior to the date of distribution, and (d) expenses of liquidation estimated at $12,000.

To participate in this distribution stockholders must surrender their stock certificates or otherwise properly transfer them to the Company or the Security Trust Company, the depositary and paying agent of the Company under the plan, within five years from the effective date of the plan.

The stock transfer books of UPS will be permanently closed at the close of business on the business day next preceding the date fixed for said distribution and thereafter no transfer of certificates for shares of the Company will be made on the Company's books. UPS will keep an authentic record of the persons to whom payments of the initial distribution are made, and any further distribution in respect of any shares of stock so surrendered will be made to the same persons or their legal representatives, or, in cases where notice of assignment is filed with the Security Trust Company or the Company within thirty days after the date fixed for the initial distribution, to the assignee named in such assignment. Not less than twenty days prior to the date fixed for said initial distribution, UPS will mail to its stockholders a notice advising them of the date and terms of said distribution and of the closing of the stock transfer books.

2. UPS holds for the account of lost stockholders monies deposited by the company in Dividend and Liquidation Accounts Payable, amounting to approximately $19,000, pursuant to the terms of distributions heretofore made by the Company. Monies so held will be paid to the persons entitled thereto for a period of five years from the effective date of the plan. Thereafter, all rights and claims against the Company for such funds shall be lost and any balance thereof shall become part of the assets of UPS to be distributed in the final distribution under this plan.

3. As soon as practicable after the expiration of five years from the effective date of the plan and after the payment, settlement or other discharge of all liabilities of the Company, all the remaining assets of the Company will be distributed to the persons who have theretofore surrendered their stock certificates or who shall otherwise have effectively transferred said shares to the Company for cancellation. The final distribution will be made to the persons entitled thereto in the proportions that the number of shares surrendered by each bears to the total number of outstanding shares entitled to participate in the distribution. The amounts to be paid in final distribution shall include, in addition to other available funds, amounts payable with respect to shares of stock not surrendered within the five year period, amounts represented by checks delivered in payment of any distributions under the plan which have become void, and the balance in the Dividend and Liquidation Accounts Payable with respect to distributions authorized by the Company prior to the filing of the plan.

Upon the expiration of one year from the date of the final distribution all rights of any person in the undistributed funds shall cease and the undistributed balance shall be paid to the American Red Cross as a donation.

Each check issued and delivered by UPS to stockholders in payment of the initial distribution under the plan or to stockholders for dividends and liquidations authorized by the Company prior to the filing of this plan will become void unless presented for payment within five years after the effective date of the plan or within thirty days after date of the check, whichever shall be later. Each check issued and delivered by UPS in payment of the final distribution will be void unless presented for payment within sixty days after date of the check.

4. UPS will cause to be published in a newspaper in the Cities of New York and Chicago not less than sixty nor more than ninety days preceding the expiration of five years from the effective date of the plan, an appropriate notice that the rights of the holders of all shares of stock of the Company not surrendered for cancellation before the expiration of the said five years will thereafter be void and that the rights of all persons entitled to authorized distributions who do not make claim therefore upon the Company before the expiration of the five year period will become void.

5. All liabilities of and claims against the Company which are not expressly provided for in the plan shall be filed, determined and disposed of in such manner as may be directed by the United States District Court for the District of Delaware.

6. UPS will pay the fees and expenses in connection with the plan and the proceedings with respect thereto.

7. As soon as practicable, before or after the final distribution, UPS will be dissolved by taking appropriate action under the laws of the State of New Jersey.

The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted thereunder, to find after notice and opportunity for hearing, that the plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11 of the act and is fair and equitable to the persons affected thereby; and it appearing appropriate to the Commission that notice be given and a hearing be held with respect to said plan, and that said plan shall not become effective except pursuant to further order of the Commission:

It is ordered, That a hearing on said application pursuant to the applicable

provisions of the Act and Rules thereunder, be held on August 18, 1952, at 10:00 a. m., e. d. s. t., at the offices of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., in such room as may be designated on that day by the hearing room clerk in Room 193. In the event that amendments to said plan are filed during the course of said proceeding, no notice of such amendments will be given unless specifically ordered by the Commission.

It is further ordered, That any person desiring to be heard in connection with this proceeding, or otherwise participate herein, shall file with the Secretary of the Commission, on or before August 14, 1952 his request and application therefor as provided in Rule XVII of the rules of practice of the Commission.

It is further ordered, That William W. Swift, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in the proceeding. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Public Utilities of the Commission having advised the Commission that it has made a preliminary examination of the application, and that, upon the basis thereof, the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the plan as submitted, or as it may hereafter be modified, is necessary to effectuate the provisions of section 11 (b) of the act and is fair and equitable to the persons affected thereby.

2. Whether the fees and expenses and other remuneration which may be claimed in connection with the plan and transactions incident thereto are for necessary services and are reasonable in amount.

3. Generally, whether the proposed transactions are in all respects in the public interest and in the interest of investors or consumers, and consistent with all the applicable provisions of the act and rules thereunder, and if not what modification should be required to be made therein, and what terms and conditions should be imposed to satisfy the applicable statutory standards.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing copies of this notice and order by registered mail to United Public Service Corporation; and that notice to all other persons shall be given by publication of this notice and order in the FEDERAL REGISTER and that a general release of this Commission with respect to this notice and order be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act.

It is further ordered, That United Public Service Corporation give notice of this hearing to all holders of its common stock (in so far as the identity of such security holders is known and available to UPS) by mailing a copy of this notice and order and of the proposed plan to such security holders at least twenty days prior to the date of said hearing.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

OFFICE OF DEFENSE MOBILIZATION

[CDHA 63]

FINDINGS AND DETERMINATION OF CRITICAL DEFENSE HOUSING AREAS UNDER THE DEFENSE HOUSING AND COMMUNITY FACILITIES AND SERVICES ACT OF 1951 (PUB. LAW 139, 82d CONG.)

JULY 21, 1952.

Upon a review of the construction of new defense plants and installations, and the reactivation or expansion of operations of existing defense plants and installations, and the in-migration of defense workers or military personnel to carry out activities at such plants or installations, and the availability of housing and community facilities and services for such defense workers and military personnel in each of the areas set forth below, I find that all of the conditions set forth in section 101 (b) of the Defense Housing and Community Facilities and Service Act of 1951 (Pub. Law 139, 82d Cong., 1st Sess.) exist.

Accordingly, pursuant to section 101 of the Defense Housing and Community Facilities and Services Act of 1951 and by virtue of the authority vested in me by paragraph number 1 of Executive Order 10296 of October 2, 1951, I hereby determine that each of said areas is a critical defense housing area.

Las Vegas, Nevada, Area: (The area consists of the Townships of Las Vegas, Henderson and Nelson, including the City of Las Vegas, the City of Henderson and Boulder City, all in Clark County, Nevada.)

JOHN R. STEELMAN, *Acting Director of Defense Mobilization.*

[F. R. Doc. 52-8091; Filed, July 21, 1952; 10:48 a. m.]

[Defense Manpower Policy No. 4, Notification 54]

PLACEMENT OF PROCUREMENT IN THE TACOMA, WASH., AREA

NOTIFICATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization its findings and recommendation in the matter of placement of procurement in the Tacoma area. The recommendation has been reviewed within the Office of Defense Mobilization to determine its relationship to other policies affecting procurement for which this Office has responsibility and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration, the Director of Defense Mobilization has concluded that it is in the public interest to give preference to the Tacoma area, with the exception of the textile and apparel industries located in that area, in the placement of Government contracts, in accordance with the attached findings of the Committee and the provisions of Defense Manpower Policy No. 4. The Department of Defense and the General Services Administration are hereby requested to take the actions specified in paragraph 6 of section III of Defense Manpower Policy No. 4.

The textile and apparel industries are excluded from the provisions of this notification pursuant to Notification 38 dated June 4, 1952 and Notification 53 dated July 19, 1952.

The Department of Defense and the General Services Administration are requested to submit the first written report of the actions taken under this notification on September 15, 1952, and thereafter each 30 days until further notice.

OFFICE OF DEFENSE MOBILIZATION, JOHN R. STEELMAN, *Acting Director.*

FINDINGS AND RECOMMENDATION OF THE SURPLUS MANPOWER COMMITTEE CONCERNING THE TACOMA, WASHINGTON AREA UNDER DEFENSE MANPOWER POLICY NO. 4

Under date of July 1, 1952, the Defense Manpower Administration of the Department of Labor certified to this Committee, under Defense Manpower Policy No. 4, the existence of the Tacoma area as a surplus labor area under standards established by the Secretary of Labor. The Tacoma area is composed of Pierce County.

On the basis of information contained in the files of the Committee and furnished by the Department of Labor relative to the manpower situation in the Tacoma area, and by the Seattle Regional Defense Mobilization Committee relative to facilities in the Tacoma area, the Committee makes the following findings and recommendation:

FINDINGS

The Committee finds:

1. That the Tacoma area, as defined by the Defense Manpower Administration, is an area of current labor surplus, including a surplus of manpower possessing skills necessary to the fulfillment of Government contracts;

2. That there exist in the Tacoma area a comparatively small number of suitable facilities for the performance of additional Government contracts;

3. That in order to accomplish the objectives of Defense Manpower Policy No. 4, the public interest dictates the need for the negotiation of available Government contracts at reasonable prices in the Tacoma area provided that a substantial portion of the work involved in the execution of the contracts will be performed in the Tacoma area, and provided further that contractors in the said area will be afforded the opportunity to meet prices obtainable in any labor market area classified by the Department of Labor as Group I, II, or III.

4. That no price differential for the Tacoma area is considered necessary in order to effectuate the objectives of Defense Manpower Policy No. 4, provided that the operations under the notification recommended herein will be reviewed within a reasonable period of time to determine whether the establishment of an appropriate maximum price differential is required in order to effectuate Defense Manpower Policy No. 4 for the Tacoma area.

RECOMMENDATION

The Committee recommends that the Director of Defense Mobilization conclude that it is in the public interest to give preference to the Tacoma area in the placement of contracts in accordance with the Committee's findings, and that the Director so notify the Secretary of Defense and the Administrator of the General Services Administration.

OFFICE OF DEFENSE MOBILIZATION, ARTHUR S. FLEMMING, *Chairman, Surplus Manpower Committee.*

Approved:

JOHN R. STEELMAN, *Acting Director, Office of Defense Mobilization.*

[Defense Manpower Policy No. 4, Notification 55]

PLACEMENT OF PROCUREMENT IN THE POINT PLEASANT, W. VA., AREA

NOTIFICATION TO DEPARTMENT OF DEFENSE AND GENERAL SERVICES ADMINISTRATION

The Surplus Manpower Committee, appointed under Defense Manpower Policy No. 4, has reported to the Director of Defense Mobilization its findings and recommendation in the matter of placement of procurement in the Point Pleasant area. The recommendation has been reviewed within the Office of Defense Mobilization to determine its relationship to other policies affecting procurement for which this Office has responsibility and no conflicts exist.

The Department of Defense and the General Services Administration are hereby notified that upon full consideration the Director of Defense Mobilization has concluded that it is in the public interest to give preference to the Point Pleasant area, with the exception of the textile and apparel industries located in that area, in the placement of Government contracts, in accordance with the attached findings of the Committee and the provisions of Defense Manpower Policy No. 4. The Department of Defense and the General Services Administration are hereby requested to take the actions specified in paragraph 6 of section III of Defense Manpower Policy No. 4.

The textile and apparel industries are excluded from the provisions of this notification pursuant to Notification 38 dated June 4, 1952 and Notification 53 dated July 19, 1952.

The Department of Defense and the General Services Administration are requested to submit the first written report of the actions taken under this notification on September 15, 1952, and thereafter each 30 days until further notice.

OFFICE OF DEFENSE MOBILIZATION, JOHN R. STEELMAN, *Acting Director.*

FINDINGS AND RECOMMENDATION OF THE SURPLUS MANPOWER COMMITTEE CONCERNING THE POINT PLEASANT, WEST VIRGINIA AREA UNDER DEFENSE MANPOWER POLICY NO. 4

Under date of June 18, 1952, the Defense Manpower Administration of the Department of Labor certified to this Committee, under Defense Manpower Policy No. 4, the existence of the Point Pleasant area as a surplus labor area under standards established by the Secretary of Labor. The Point Pleasant area is composed of Mason, Jackson, and Putnam Counties.

On the basis of information contained in the files of the Committee and furnished by the Department of Labor relative to the manpower situation in the Point Pleasant area, and by the Richmond Regional Defense Mobilization Committee relative to facilities in the Point Pleasant area, the Committee makes the following findings and recommendation:

FINDINGS

The Committee finds:

1. That the Point Pleasant area, as defined by the Defense Manpower Administration, is an area of current labor surplus, including a surplus of manpower possessing skills necessary to the fulfillment of Government contracts;

2. That there exist in the Point Pleasant area a comparatively small number of suitable facilities for the performance of additional Government contracts;

3. That in order to accomplish the objectives of Defense Manpower Policy No. 4, the public interest dictates the need for the negotiation of available Government contracts at reasonable prices in the Point Pleasant area provided that a substantial portion of the work involved in the execution of the contracts will be performed in the Point Pleasant area, and provided further that contractors in the said area will be afforded the opportunity to meet prices obtainable in any labor market area classified by the Department of Labor as Group I, II, or III.

4. That no price differential for the Point Pleasant area is considered necessary in order to effectuate the objectives of Defense Manpower Policy No. 4, provided that the operations under the notification recommended herein will be reviewed within a reasonable period of time to determine whether the establishment of an appropriate maximum price differential is required in order to effectuate Defense Manpower Policy No. 4 for the Point Pleasant area.

RECOMMENDATION

The Committee recommends that the Director of Defense Mobilization conclude that it is in the public interest to give preference to the Point Pleasant area in the placement of contracts in accordance with the Committee's findings, and that the Director so notify the Secretary of Defense and the Administrator of the General Services Administration.

OFFICE OF DEFENSE MOBILIZATION, ARTHUR S. FLEMMING, *Chairman, Surplus Manpower Committee.*

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 18955]

CATHERINE A. GODRON

In re: Estate of Catherine A. Godron, deceased. File F-28-31947.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Gretchen Anderson, Peter Beckmann, and Gustav Beckmann, whose last known address is Germany, on or since December 11, 1941 and prior to January 1, 1947 were residents of Germany and are, and prior to January 1, 1947 were, nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the sum of $1,184.88 on deposit with the Controller, State of California, pursuant to an order of the Superior Court, Los Angeles County, California, on April 15, 1941, in the matter of the estate of Catherine A. Godron, deceased, is property which is and prior to January 1, 1947 was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by Gretchen Anderson, Peter Beckmann, and Gustav Beckmann, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that such persons be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1952.

For the Attorney General.

CERTAIN UNKNOWN GERMAN NATIONALS

In re: United States currency owned by unknown German nationals.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the Landeszentralbank von Nordrhein-Westfalen, Dusseldorf, Germany, on or about June 11, 1952, shipped to the Federal Reserve Bank of New York, United States currency and coin in the aggregate amount of $1,762.06, which amount had been released by the Office of the United Kingdom High Commissioner for Germany for the purpose of such shipment;

2. That the persons who own the property described in subparagraph 3 hereof, who if individuals there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and which, if corporations, partnerships, associations or other business organizations, there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were, organized under the laws of and had their principal places of business in Germany, are and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That the property described as follows: United States currency and coin in the aggregate amount of $1,762.06 shipped on or about June 11, 1952 by the Landeszentralbank von Nordrhein-Westfalen, Dusseldorf, Germany, to the Federal Reserve Bank of New York and presently in the custody of the Federal Reserve Bank of New York,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the persons referred to in subparagraph 2 hereof, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons referred to in subparagraph 2 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Acting Director,
Office of Alien Property.

[Vesting Order 18957]

CERTAIN UNKNOWN GERMAN NATIONALS

In re: United States currency owned by unknown German nationals.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the Landeszentralbank von Nordrhein-Westfalen, Dusseldorf, Germany, on or about June 11, 1952, shipped to the Federal Reserve Bank of New York, United States currency and coin in the aggregate amount of $15,012.86, which amount had been released by the Office of the United Kingdom High Commissioner for Germany for the purpose of such shipment;

2. That the persons who own the property described in subparagraph 3 hereof, who if individuals there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and which, if corporations, partnerships, associations or other business organizations, there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were, organized under the laws of and had their principal places of business in Germany, are and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That the property described as follows: United States currency and coin in the aggregate amount of $15,012.86 shipped on or about June 11, 1952, by the Landeszentralbank von Nordrhein-Westfalen, Dusseldorf, Germany, to the Federal Reserve Bank of New York and presently in the custody of the Federal Reserve Bank of New York,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the persons referred to in subparagraph 2 hereof, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons referred to in subparagraph 2 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1952.

For the Attorney General.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

REVISED BOOKS

TITLE 32 of the Code of Federal Regulations

Title 32, containing the regulations of the Department of Defense and other related agencies, has been completely revised. Originally a single book, Title 32 is being reissued as two books as follows:

Parts 1–699 ($5.00)
Part 700 to end (to be announced)

These books contain the full text of regulations in effect on December 31, 1951

Order from
Superintendent of Documents, Government Printing Office, Washington 25, D. C.

foreign made sewing machine heads, or sewing machines of which foreign made heads are a part, without clearly and conspicuously disclosing on the the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Sewing Machine Exchange, Inc., et al., Philadelphia, Pa., Docket 5887, April 15, 1952]

In the Matter of Sewing Machine Exchange, Inc., a Corporation, and Willis Harris, Jerry Fineman and Manual Harris, Individually and as Officers of Said Corporation

This proceeding was heard by James A. Purcell, hearing examiner, upon the complaint of the Commission, respondent's answer, and a substitute answer (filed pursuant to the granting of motion so to do), which admitted all the material allegations of fact set forth in the complaint, but reserved the right to submit proposed findings and conclusions and also made certain other reservations.

Thereafter the proceeding regularly came on for final consideration by said examiner, theretofore duly designated by the Commission, upon said complaint and substituted answer, no proposed findings and conclusions having been submitted on behalf of any party to the proceeding, and said examiner, having duly considered the record in the matter, excepting certain testimony and exhibits, in view of the filing of the admission answer, and having found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

Thereafter the matter was disposed of by the Commission's "order denying motion to stay decision of the Commission, decision of the Commission and order to file report of complaint", Docket 5887, April 15, 1952, as follows:

The initial decision of the hearing examiner in this proceeding having been filed, and service thereof having been completed on March 15, 1952, and no notice of an appeal having been filed, and the respondents having filed a motion on March 31, 1952, that the Commission stay its decision in this matter until decisions are rendered by the Commission in certain other proceedings; and

It appearing that the grounds relied upon by the respondents in support of said motion are that the initial decision of the hearing examiner was filed prior to the issuance by the Commission of its order permitting the withdrawal of a certification of question to the Commission by the hearing examiner, and that the respondents are in close competition with the respondents in certain other proceedings pending before the Commission and that a decision adverse to the respondents at this time will prejudice the business interests of the respondents and create an inequitable situation; and

The Commission having duly considered said motion and the record herein and it appearing that the respondents were in no way prejudiced as a result of the hearing examiner having filed his initial decision prior to the issuance by the Commission of its order permitting withdrawal of the certification of question and further that there is not sufficient reason to warrant the staying of the decision in this proceeding until decisions in certain other matters have been rendered; and

The Commission being of the opinion that the initial decision of the hearing examiner is appropriate in all respects to dispose of this proceeding:

It is ordered, That the motion of the respondents that the Commission stay its decision in this proceeding be, and it hereby is, denied.

It is further ordered, That the initial decision of the hearing examiner, a copy of which is attached,[1] shall on the 15th day of April 1952 become the decision of the Commission.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

The order to cease and desist in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That the respondents, Sewing Machine Exchange, Inc., a corporation, and its officers, and William (alias dictus Willis) Harris, Jerome (alias dictus Jerry) Fineman and Emanuel (alias dictus Manual) Harris, individually and as officers of said corporation, and said respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of sewing machine heads for sewing machines in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Offering for sale, selling or distributing foreign made sewing machine heads, or sewing machines of which foreign made heads are a part, without clearly and conspicuously disclosing on the heads, in such a manner that it will not be hidden or obliterated, the country of origin thereof.

Issued: April 15, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 52–8057; Filed, July 22, 1952; 8:56 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

PART 6—AIR COMMERCE REGULATIONS

LANDING REQUIREMENTS

Section 6.3 *Landing requirements* of Title 19, Code of Federal Regulations, such section being also designated as § 116.3 of Title 8 and § 71.503 of Title 42, is hereby amended as follows:

Paragraphs (d), (e), and (f) are hereby redesignated as paragraphs (e), (f), and (g), and a new paragraph (d) is inserted reading as follows:

(d) *Permit to proceed; foreign aircraft.* (1) Aircraft are subject to customs entry when brought in for repairs or when otherwise treated as imported articles. The commander of an aircraft which is not treated as an imported article, which is registered in a foreign country, and which arrives in the United States carrying passengers for hire or merchandise shall, before the aircraft is ferried (proceeds in ballast) from the airport of first arrival to one or more airports in the United States, obtain from the collector of customs at the airport of first arrival a "Permit allowing aircraft of foreign registry to proceed from airport to airport in the United States," customs Form 4449, which shall be retained on board such aircraft while in the United States. At each airport visited, the customs officer there, or, if there is none, the airport manager, shall make an endorsement on the back of

Titus, Ormrod, and Edward W. Morehouse---------- 6753

(GCPR)---------- 6738
Part 116----------

customs Form 4449 showing the name of the airport, date and time of arrival, date and time of departure and purpose of the visit. The permit shall be surrendered to the collector of customs at the port of final clearance for a foreign destination, who shall satisfy himself prior to the issuance of clearance that the aircraft received proper customs treatment while in this country. The permit shall then be returned to the collector of customs at the port of issue.

(2) A copy of the permit shall be retained by the collector at the port where issued. If within 60 days after the issuance of such permit the said collector does not receive a report of the outward clearance of the aircraft covered thereby, the matter shall be reported to the supervising customs agent for investigation.

(3) Civil aircraft registered in the United States arriving from a foreign country with passengers carried for hire or merchandise, after proper customs treatment of their cargo (passengers carried for hire or merchandise), may be allowed to proceed upon their identity being established.

This order shall become effective on the date of its publication in the FEDERAL REGISTER.

(R. S. 161, sec. 23, 39 Stat. 892, as amended, sec. 24, 43 Stat. 166, R. S. 251, secs. 624, 644, 46 Stat. 759, 761, secs. 201, 367, 58 Stat. 683, 706, sec. 7, 44 Stat. 572, as amended; 5 U. S. C. 22, 6 U. S. C. 102, 222, 19 U. S. C. 66, 1624, 1644, 42 U. S. C. 202, 270, 49 U. S. C. 177)

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

SUPPLIES FOR VESSELS OF WAR

The Department of State has furnished the Treasury Department an up-to-date list of countries which permit the withdrawal of supplies free of duty and tax by vessels of war of the United States while in ports of those countries. Therefore, § 10.59 (d), Customs Regulations of 1943 (19 CFR 10.59 (d)), containing a list of countries whose vessels of war shall be accorded the privilege of withdrawing supplies free of customs duties and internal-revenue tax while in ports of the United States, as provided for in section 309 (a), Tariff Act of 1930, as amended, is further amended to read as follows:

§ 10.59 *Exemption from customs duties and internal revenue tax.* • • •

(d) The privilege shall be accorded to vessels of war of the following countries:

Argentina.	Ireland.
Australia.	Mexico.
Belgium.	The Netherlands.
Brazil.	New Zealand.
Canada.	Nicaragua.
Chile.	Norway.
Colombia.	Panama.
Cuba.	The Philippines.
Denmark.	El Salvador.
The Dominican Republic.	Spain.
Ethiopia.	Sweden.
Finland.	Thailand.
France.	Turkey.
Great Britain.	Union of South Africa.
Greece.	Uruguay.
Haiti.	Venezuela.
India.	

(Sec. 5, 52 Stat. 1080; 19 U. S. C. 1309)

[SEAL] FRANK DOW,
Commissioner of Customs.

Approved: July 16, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

FLUORIDATED WATER AND PROCESSED FOODS CONTAINING FLUORIDATED WATER

Pursuant to section 3 of the Administrative Procedure Act (60 Stat. 237, 238; 5 U. S. C. 1002), the following statement of policy is issued:

§ 3.27 *Status of fluoridated water and foods prepared with fluoridated water under the Federal Food, Drug, and Cosmetic Act.* (a) The program for fluoridation of public water supplies recommended by the Federal Security Agency, through the Public Health Service, contemplates the controlled addition of fluorine at a level optimum for the prevention of dental caries.

(b) Public water supplies do not ordinarily come under the provisions of the Federal Food, Drug, and Cosmetic Act. Nevertheless, a substantial number of inquiries have been received concerning the status of such water under the provisions of the act and the status, in interstate commerce, of commercially prepared foods in which fluoridated water has been used.

(c) The Federal Security Agency will regard water supplies containing fluorine, within the limitations recommended by the Public Health Service, as not actionable under the Federal Food, Drug, and Cosmetic Act. Similarly, commercially prepared foods within the jurisdiction of the act, in which a fluoridated water supply has been used in the processing operation, will not be regarded as actionable under the Federal law because of the fluorine content of the water so used, unless the process involves a significant concentration of fluorine from the water. In the latter instance the facts with respect to the particular case will be controlling.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: July 17, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 52-8041; Filed, July 22, 1952; 8:50 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5920; Regs. 132]

PART 325—EXCISE AND SPECIAL TAX ON WAGERING

REGISTRY, RETURN AND PAYMENT OF TAX

Regulations 132 amended to require persons liable for special (occupational) wagering tax to file returns and pay tax before commencing taxable activity and to file supplemental returns advising of all agents or employees engaged to receive wagers, or with respect to all persons for whom wagers are received.

On June 3, 1952, notice of proposed rule making regarding amendment of § 325.50 of Regulations 132 was published in the FEDERAL REGISTER (17 F. R. 4988). No objection to the rules proposed having been received, § 325.50 of Regulations 132 is amended to read as follows:

§ 325.50 *Registry, return, and payment of tax.* (a) No person shall engage in the business of accepting wagers subject to the 10 percent excise tax imposed by section 3285 of the Internal Revenue Code (see § 325.24) until he has filed a return on Form 11-C and paid the special tax imposed by section 3290. Likewise, no person shall engage in receiving wagers for or on behalf of any person engaged in such business until he has filed a return on Form 11-C and paid the special tax imposed by section 3290 of the Internal Revenue Code. Filing of successive applications and payment of tax by such persons are required on or before July 1 of each year thereafter during which taxable activity continues. The return, with remittance, shall be filed with the collector of internal revenue for the district in which is located the taxpayer's office or principal place of business. If such taxpayer resides in the United States, but has no office or principal place of business in the United States, the return shall be filed with the collector of internal revenue for the district in which he resides. If the taxpayer has no office, residence, or principal place of business in the United States, the return shall be filed with the Collector of Internal Revenue, Baltimore, Maryland. The collector, upon request, will furnish the taxpayer proper forms which shall be filled out and signed as indicated therein.

(b) Each return shall show the taxpayer's full name. A person doing business under an alias, style, or trade name shall give his true name, followed by his alias, style, or trade name. In the case of a partnership, association, firm, or company, other than a corporation, the style or trade name shall be given, also the true name of each member and his place of residence. In the case of a corporation, the true name and title of each officer and his place of residence shall be shown.

(c) Each person engaged in the business of accepting wagers on his own account shall report on Form 11-C the name and address of each place where such business will be conducted and the name, address, and number appearing on the special (occupational) stamp of each agent or employee who may accept wagers on his behalf. Thereafter, a return shall be filed on Form 11-C, marked "supplemental", each time an additional employee or agent is engaged to receive wagers. Such supplemental return shall be filed not later than 10 days after the date such agent or employee is engaged to receive wagers and shall show the name, address, and number appearing on the special (occupational) stamp of each such agent or employee. As to a change of address, see § 325.57.

(d) Each agent or employee of a person accepting wagers shall report on Form 11-C the name and residence address of each person (i. e., individual, partnership, corporation, etc.) on whose behalf wagers are to be accepted. Thereafter, a return shall be filed on Form 11-C, marked "supplemental," each time the agent or employee is engaged or employed to receive wagers for a person or persons other than the person or persons first reported on Form 11-C. Such supplemental return shall be filed not later than 10 days after the date such agent or employee is engaged to receive wagers and shall show the name, business address, or, if none, the residence address of the person or persons by whom he is engaged to receive wagers. As to a change of address, see § 325.57.

The amendments made by this Treasury decision shall become effective September 1, 1952.

(53 Stat. 467; 26 U. S. C. 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: July 16, 1952.

E. H. FOLEY,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Supplementary Regulation 1, Revocation]

GCPR, SR-1—DEFENSE AGENCY PRICING

Supplementary Regulation 1 to the General Ceiling Price Regulation was issued as an interim measure, applicable only to the GCPR, and was designed to prevent an undue effect of the "freeze" upon the defense program. The Office of Price Stabilization is issuing, simultaneously with this revocation, General Overriding Regulation 2, Revision 1, which incorporates all matters of a special and overriding nature applying to sales to the United States, its agents, and suppliers. As such it exempts certain transactions from ceiling price regulation, establishes alternative ceiling prices for some commodities and services, and creates special procedures for the establishment of ceiling prices of defense contractors. Necessary amendments and revocations of other regulations are being issued simultaneously. Therefore, Supplementary Regulation 1 to the General Ceiling Price Regulation is being revoked as well as certain portions of General Overriding Regulation 9.

The reasons for this action are set forth in the Statement of Considerations accompanying General Overriding Regulation 2, Revision 1.

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, Supplementary Regulation 1 to the General Ceiling Price Regulation is hereby revoked, effective July 26, 1952.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52-8121; Filed, July 21, 1952; 4:00 p. m.]

[General Overriding Regulation 2, Revision 1]

GOR 2—SALES TO THE UNITED STATES, ITS AGENTS AND SUPPLIERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation 2, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

General Overriding Regulation 2, Revision 1, covers all matters of a special and overriding nature applying to sales to the United States, its agents, and suppliers. As such, it continues various exemptions from ceiling price regulation, continues alternative ceiling prices from some commodities and services, and creates special procedures for the establishment of ceiling prices of defense contractors and subcontractors. It also requires certain defense contractors and subcontractors to include in their price proposals and contracts statements regarding their ceiling prices.

This General Overriding Regulation 2, Revision 1, does not list all commodities or services sold to the United States, its agents and suppliers which are exempted or suspended from ceiling price regulation. It does, however, list all commodities and services which are exempted from ceiling price regulation specifically because the sale is to an agency of the United States or one of its suppliers. For example, certain advertising novelties which are exempt from price control under General Overriding Regulation 5, regardless of the seller or purchaser, are not listed in this regulation, but other items which are generally subject to price ceiling regulations, such as aviation gasoline of 100 octane ASTM or higher, are listed in this General Overriding Regulation and may be exempted from ceiling price regulation when sold under a defense contract or subcontract.

The exemptions made by this General Overriding Regulation (GOR), the ceiling prices fixed by it, and the procedures provided for the establishment of ceiling prices are controlling, notwithstanding any other price regulation. To the extent of its coverage, this GOR supersedes all other price regulations. Accordingly, necessary amendments and revocations of other regulations are being issued simultaneously with the issuance of this regulation. Supplementary Regulation 1 (SR 1) to the General Ceiling Price Regulation (GCPR) is being revoked, as well as certain portions of GOR 9.

The need for combining into one regulation those exemptions, methods for establishing ceiling prices, and procedures, especially applicable to sales to the United States, its agents and suppliers, has been felt for some time, and various requests for this action have been made by other Government agencies, industry, and components of OPS. It is believed that this consolidation will be of substantial assistance to all concerned, including those suppliers who have occasion to deal with the Federal Government and who will be able to determine the existence of special exemptions and procedures applicable to Government purchases by examining a single regulation. Another reason for this action lies in the fact that with one or two exceptions the present special procedures and exemptions for defense contracts and subcontracts exist only with regard to commodities and services which are still covered by the GCPR. Thus, the exemptions set forth in SR 1 to the GCPR do not apply to the sale of any commodity or service subject to some other regulation (in the absence of a specific reference to SR 1). In order to make available uniform special procedures and exemptions for defense contracts and subcontracts which will be applicable and effective regardless of any other price regulation, the issuance of a General Overriding Regulation of this type is deemed necessary.

Since the GCPR was issued, ceiling price regulations generally have been applicable to sales to Government agencies and their suppliers. However, in order to prevent an undue adverse effect of the "freeze" upon the defense program, and until tailored regulations could be issued, SR 1 to the GCPR, issued February 1, 1951, exempted certain sales to defense agencies and their suppliers. It was not felt at that time that all of the considerations which supported the issuance of SR 1 would apply with equal force and effect to tailored price regulations, which it was expected would be issued as rapidly as possible, and which would supersede the GCPR and provide a more practicable and equitable form of price control. Subsequent study and experience indicated the

desirability of changing somewhat the extent of exemptions. As a result, General Overriding Regulation 9, originally issued on May 1, 1951 and later amended, restricted the number and type of commodities which were exempt from price control and which would otherwise come within the purview of CPR 30, General Overriding Regulation 2, Revision 1, therefore follows closely the list of exempt items set forth in GOR 9, as amended.

Some sections of SR 1, now revoked, have been omitted from this regulation. Thus, the exemption from the GCPR of sales by commissaries, exchanges, and stores under the supervision of the Department of Defense has been omitted from GOR 2, Revision 1, because in general such sales have for some time been under various numbered ceiling price regulations (e. g., CPR 6, 7, 15, 16, 134, etc.). Certain sales by the Atomic Energy Commission and sales of scrap, waste, damaged, and used materials or commodities by defense agencies have been exempted from the GCPR (but not necessarily from other ceiling price regulations) since October 4, 1951 by SR 72, and no exemption is provided for them in this regulation.

The provision in SR 1 which relieved Defense Agency officers from legal liability, as purchasers, under the Defense Production Act of 1950, as amended, was omitted from other regulations, issued since SR 1, which apply to defense agencies. Consequently, it is omitted from GOR 2. This fact does not change the existing situation with respect to most defense transactions subject to OPS regulations, since Defense Agency officers are now generally subject to legal sanctions, and the fact is mentioned only in an effort to clarify the existing situation.

GOR 2, Revision 1, is not simply a collation or consolidation of existing provisions contained in other regulations. Many changes dictated by study and experience during the past year have been made. The number of defense agencies covered has been enlarged. The conditions for exemption of certain items have been modified. Changes have been made in those sections dealing with "first production" contracts and emergency purchases. A new procedure for establishing ceiling prices for defense contractors and subcontractors has been provided.

Those items which are on the exempt list are there for three reasons: (1) The commodity or service is of a military nature and the imposition of price ceilings upon it is not practicable because of frequent, substantial, and unpredictable changes of specifications or production schedules, extraordinary and unpredictable start-up costs, or variations in the conditions under which contractors and subcontractors operate, resulting in unpredictable cost fluctuations; (2) The existence of procurement statutes, regulations and procedures, including price negotiation and redetermination techniques, whereby the defense agencies themselves can, to a considerable extent, perform the function which price ceilings would otherwise perform; and (3) The Office of Price Stabilization-Munitions Board agreement concluded in December 1951. While no one of these reasons, in and of itself, could justify the exemptions, the effect of all of them considered together has been persuasive.

Under the agreement of December 1951 the Director of Price Stabilization and the Chairman of the Munitions Board representing the Department of Defense, reached the following understanding:

(1) The Office of Price Stabilization will collaborate with the Department of Defense in reviewing defense contract pricing and repricing policies, procedures, and practices for items purchased by the military, including those under price ceilings and those exempt, and will make such visits to military procurement offices as the Office of Price Stabilization deems advisable in this connection.

(2) The Office of Price Stabilization will recommend procurement pricing policies, procedures, and practices which it deems essential to accomplish the objectives of the price stabilization program.

(3) The Department of Defense will supply to the Office of Price Stabilization statistical data requested by the Office of Price Stabilization on the amount of procurement under each major type of contract; on prices for commercial-type items of military procurement; and on prices, costs, profit allowances, and explanations of trends therein, for a list of selected, representative military-type end items, components, parts, and subassemblies.

(4) The Munitions Board and the Office of Price Stabilization have further agreed that if obstacles, such as shortages of qualified personnel involved in contract pricing or repricing, including price estimation, analysis, auditing, or statistical reporting of contract prices, should prevent adequate discharge of contract pricing or repricing operations, the Office of Price Stabilization has an obligation under the Defense Production Act to reconsider any existing or later exemptions or suspensions of military-procured items from price ceiling regulations.

As has been previously pointed out in the statement of considerations accompanying Amendment 12 to GOR 9, careful contracting, redetermination of prices, and renegotiation of contracts are not complete substitutes for ceiling price regulation. On the other hand, the need for avoiding substantial impediment to defense procurement cannot be questioned.

Under Article I, section 1, of this regulation, certain commodities are exempt from ceiling price regulation when sold under a defense contract or subcontract which provides for ultimate delivery of the commodity to a Defense Agency. These commodities are easily recognizable as military items. Certain other commodities sold under a defense contract or subcontract are also exempt, only when currently designed to meet military needs exclusively. Some of these commodities were previously exempt under SR 1 to the GCPR simply because they were sold under a defense contract or subcontract. Component parts and assemblies of most of the currently exempt end items are also exempt under the same conditions as are the end items. In section 2 certain services sold under defense contracts and subcontracts are exempt.

Certain personal and professional services previously exempted under GCPR by section 6 (a) of SR 1 are now largely exempted by GOR 14.

Practically the same exemptions as are now in sections 3, 4, and 5 were in SR 1 to the GCPR, although some clarifications and changes have been made. In section 3 certain sales by manufacturers of nonfood commodities under a defense contract or subcontract are exempt, subject to the conditions stated, where the commodity being produced or supplied, or a comparison commodity, has not been previously produced or supplied by the particular manufacturer, and where a period of time is required by the manufacturer to accumulate sufficient production experience to permit him to make a reasonably accurate estimate of his costs. Contracts, officially classified as "Secret" or above, are exempt under section 4. Under section 5, emergency purchases by defense agencies are exempt, subject to the conditions stated, where immediate delivery is imperative and it is impossible to secure delivery at the ceiling price. This section does not exempt Defense Agency contracts which must be placed immediately, but under which immediate delivery is not imperative. Sections 6 and 7 continue previously existing provisions in GOR 2. Section 6 exempts sales of certain strategic and critical materials to Federal agencies and instrumentalities under the Strategic and Critical Materials Stockpiling Act and the Defense Production Act of 1950, as amended. It also incorporates two exemptions heretofore in GOR 9 and CPR 17 concerning certain materials essential to the defense program and adds a provision permitting the establishment of resale ceiling prices for United States agencies and instrumentalities with respect to commodities purchased by them under this section. Such resale ceiling prices will be established at levels consistent with the stabilization program. Section 7 exempts sales of stamped envelopes to or by the United States Post Office and the paper manufactured for use in such envelopes. Section 8 is new and exempts certain experimental, developmental, and research services supplied to Federal agencies and instrumentalities. Section 9 incorporates a provision presently in GOR 14 and exempts services rendered by printers and binders pursuant to "Standard Rate" contracts entered into with the United States Government Printing Office.

Article II provides for the issuance at a later date of suspensions from ceiling price regulation should such action become desirable or necessary. The suspension from price control of sales by manufacturers of new and used aircraft, aircraft parts, and the licensing of aircraft production is not included here because those suspensions are not limited to manufacturers' sales to United States agencies and their suppliers. They remain in GOR 9.

Article III is concerned with ceiling prices applicable to defense contracts and subcontracts. Under section 31, defense contractors and subcontractors for commodities to be delivered to Defense Agencies, and persons performing services on such commodities, are required to state the contractors' ceiling price, if the commodity or service has not been exempted from price control. This statement is to be included in the proposal and contract. However, an exception is made in the case of bids and offers submitted directly to the Defense Agencies pursuant to formal advertising for bids, and in the case of defense contracts resulting from such formal advertising.

Contracting officers of Defense Agencies, as well as prime contractors and subcontractors thereunder, can often use to good advantage information as to the ceiling price of the particular seller. Such information may assist materially in the negotiations. Since the Government and its contractors are subject to the sanctions of the Defense Production Act, it is felt that knowledge of the ceiling prices of suppliers will help them, as purchasers, to avoid violations and to assist in carrying out the stabilization effort. The necessity for stating the ceiling price will mean in most instances that the seller will have to compute or otherwise determine the ceiling price. This in itself will call his attention to the existence of price ceilings where applicable and will tend to counteract the impression which prevails to a considerable extent that persons dealing with the Government directly, or as subcontractors, are for this reason exempt from price control. An exception has been made to this requirement with respect to bids and offers submitted directly to a Defense Agency pursuant to formal advertising for bids, and with respect to defense contracts resulting therefrom. In such cases, defense agencies presently require prime contractors to certify that prices quoted to them do not exceed ceiling prices and normally accept the lowest responsible and responsive bid, unless such formal advertising has failed to produce adequate price competition.

Article IV continues existing provisions of GOR 2. As such it provides an alternative method for determining ceiling prices for sales to agencies of the United States and establishes ceiling prices for certain sales to the Office of Rubber Reserve in connection with the production and sale of synthetic rubber.

Article V provides a special procedure for establishing ceiling prices for defense contractors and subcontractors. The need for minimizing interference with the defense procurement program has already been emphasized. Unnecessary impediments to the defense program must be avoided, and OPS procedures should be designed to facilitate the establishment of ceiling prices of those commodities and services under ceiling price regulation which are purchased directly by defense agencies or by persons holding subcontracts. Under Article V, any seller who intends to enter into a defense contract or subcontract for the sale of a commodity or service for which a ceiling price or method for determining a ceiling price, has not been established (other than a method requiring application to OPS or requiring OPS approval of a proposed price) and who files an application or a request for approval of the ceiling price or method for determining a ceiling price, has the right, at the time the application is filed or at any subsequent time before OPS acts upon the application, to submit bids and enter into contracts at the price set forth in the application or request, to make deliveries under the contracts, and to be paid 75 percent of the amount set forth in the contract, provided he has complied with the filing requirements of section 51 and the contract and bid require him to make final settlement in accordance with the ceiling price subsequently established by OPS and to refund to the buyer any amount paid in excess thereof.

Substantially the same right was granted to defense contractors and subcontractors under Price Procedural Regulation 6, and Supplementary Order 9, issued by the Office of Price Administration. However, because of intense competition in the sale of waste, scrap, and salvage materials and the close similarity of functions among competitive sellers, any upward adjustment in selling price permitted a single seller of these materials would have the natural effect of diverting them from normal channels. OPA experience with this type of procedure indicated that substantial diversions of waste, scrap, and salvage materials did occur. For this reason Article V does not apply to these materials. Similar reasons make it undesirable to apply this procedure to sales of food commodities.

Although General Overriding Regulation 2, Revision 1, does not in itself contain provisions for adjusting OPS ceiling prices for defense contracts and subcontracts, special provisions for such adjustments are contained in General Overriding Regulation 29. Adjustments of Ceiling Prices of Certain Essential Commodities and Services, and reference to this regulation is made in Article VI.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, of means or aids to distribution. Insofar as any provision of this regulation may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of the regulation.

Since this regulation pertains to sales to the United States and its suppliers, consultations have been held with Government agencies responsible for procurement policy. However, due to its wide coverage, formal consultation with industry representatives, including trade association representatives, has been impracticable in the formulation of this regulation.

REGULATORY PROVISIONS

ARTICLE I—EXEMPTIONS

Sec.
1. Certain commodities sold under a defense contract or subcontract.
2. Certain services sold under a defense contract or subcontract.
3. First production contracts.
4. Secret contracts.
5. Emergency purchases.
6. Certain materials essential to the defense program.
7. Stamped envelopes and paper.
8. Experimental, developmental, and research services.
9. Printing and binding services for the Government Printing Office.
10-20. (Reserved).

ARTICLE II—SUSPENSIONS

21-30. (Reserved).

ARTICLE III—STATEMENT REGARDING CEILING PRICES

31. Defense contracts and subcontracts.

ARTICLE IV—ALTERNATIVE CEILING PRICES

41. Sales to the United States.
42. Sales to the Office of Rubber Reserves, Reconstruction Finance Corporation.
43-50. (Reserved).

ARTICLE V—ESTABLISHMENT OF CEILING PRICES FOR DEFENSE CONTRACTS AND SUBCONTRACTS

51. Contracts and deliveries pending the establishment of a ceiling price.
52. Effect of filing.
53. Exceptions.
54-60. (Reserved).

ARTICLE VI—ADJUSTMENT OF CEILING PRICES FOR DEFENSE CONTRACTS AND SUBCONTRACTS

61. Right to apply for adjustment.

ARTICLE VII—GENERAL PROVISIONS

71. Petitions for amendment.
72. Interpretations.
73. Prohibitions.
74. Definitions.

AUTHORITY: Sections 1 to 74 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

ARTICLE I—EXEMPTIONS

SECTION 1. *Certain commodities sold under a defense contract or subcontract.* No price regulation shall apply to the sale of any of the following commodities pursuant to a defense contract or subcontract (as defined in section 74) which provides for ultimate delivery of the commodity to a Defense Agency:

(a) Aircraft, ammunition, armored infantry carriers, armor plate, armored trains, artillery, automatic weapons, balloon barrage equipment, bombs, bomb directors, bomb sights, caissons, combat helmets, combat helmet liners, combat tanks, degaussing equipment, depth charges, fire control equipment (such as range, position, and height finders and aiming devices), gas masks, grenades, guided missiles, gun mounts, gun sights, machine guns, military bridges, military propellants, military tactical trucks and trailers, mines, mine sweeping equipment, missile and rocket launchers, mortars, projectiles, projector charges, rockets, self-propelled artillery, submarines, torpedoes, torpedo tubes, and toxicological agents.

(b) Any of the following commodities when currently designed to meet military needs exclusively: Beach markers, boats, canteens, canteen cups, cargo tractors, caskets, dehydrated foods, electronic and communication devices, ground handling equipment for aircraft, hand tools, harbor and yard craft, identification tags, instruments, landing mats, mobile units (including bath, laundry, shoe repair, and bakery), metal insignia, navigational buoys, parachutes, photographic equipment, pyrotechnics, radar, ration containers, ships, small arms, sonar, and steel nets and booms.

(c) Components, parts, assemblies, and subassemblies (including adjuncts, accessories, wire and cable, and spare parts, but not containers or packaging materials) of commodities, the sale of which is exempt from ceiling price regulation by paragraphs (a) or (b) of this section. However, this exemption does not apply unless such components, parts, assemblies, and subassemblies have been machined, or fabricated, and the part, assembly, or subassembly is in such form as to permit its use only in the manufacture of a commodity listed in paragraphs (a) or (b) of this section, and it is currently designed to meet military needs exclusively.

(d) Ammunition boxes, aviation gasoline of 100 octane ASTM or higher, cartridge cases, concertina barbed wire, military explosives, and source and fissionable materials.

(e) Completed operational rations—when made especially to military specifications and substantially different from any commodity normally produced in the industry for non-military purposes.

SEC. 2. *Certain services sold under a defense contract or subcontract.* No price regulation shall apply to the sale, pursuant to a defense contract or subcontract, of any of the following services:

(a) Repairs to and maintenance of boats, ships, and vessels;

(b) Aircraft services—lubrication, maintenance, painting, rental, repair, storage, washing, operation, conversion, modification, or other servicing thereof (including but not limited to maintenance of or repairs to engines, instruments, accessories, parts, and other equipment used in connection therewith);

(c) Preparation for shipment of commodities listed in section 1 (a), (b), or (c) (including but not limited to lubricating, painting, storing, packing, washing, testing, repairing, converting, modifying, and maintaining);

(d) Stevedoring and car loading and unloading;

(e) Tow boat, barge, and lighterage services and charter hire of ships and vessels;

(f) Cataloguing services, material identification services, and material preservation services except those pertaining to food;

(g) Construction services, including repairs, alterations, and maintenance, installed sales, and the installation and removal of building materials and equipment, performed in connection with any building, structure, or construction project.

(h) Marine salvage operations.

(i) Any manufacturing service supplied in the production of a product listed in section 1 (a), (b), or (c).

SEC. 3. *First production contracts.* (a) No price regulation shall apply to the sale by a manufacturer of any non-food commodity pursuant to a "first production" contract. This exemption does not apply to the sale of any commodity pursuant to a subcontract, unless such subcontract is a "first production" contract within the meaning of this section, nor does it apply to the delivery of any commodity after the expiration of the period when the contract is deemed a first production contract.

(b) A contract is, for the purpose of this section, a "first production" contract during the period of time required by the manufacturer for the accumulation of sufficient production experience to permit him to make a reasonably accurate estimate of his costs, but no contract shall be deemed to be a first production contract after six months from the date of completion by the manufacturer of production of the first unit of the commodity or a comparison commodity in his regular commercial stage of production as distinguished from his experimental or developmental stage.

(c) This exemption shall not apply to any sale unless both of the following conditions are complied with:

(1) At the time the contract is entered into the seller requests, and the Defense Agency gives the seller, a written certificate stating that the contract is a "first production" contract within the meaning of this section and containing the following information:

(i) Name and address of the seller;

(ii) Date and number of the contract;

(iii) Description of each commodity covered by the contract (nomenclature of commodity, materials used, manufacturing processes, whether standardized or custom made, designation of specifications or designs applicable);

(iv) The quantity of each commodity covered by the contract;

(v) The current price of each commodity covered by the contract;

(vi) Scheduled delivery dates of each commodity covered by the contract;

(vii) The reasons why the contract is considered to be a first production contract (why the seller cannot estimate costs accurately, how long he has produced item since end of developmental stage, how long before he can estimate costs accurately);

(viii) An estimate of the expected duration of the exemption (not to exceed the limitations set forth in paragraph (b)), and

(2) Within 15 days after the execution of the contract, the seller files with the Coordinator for Government Purchases and Sales, Office of Price Stabilization, Washington 25, D. C., one copy of the certificate required by subparagraph (1) of this paragraph.

(d) If at any time the Director of Price Stabilization determines after consultation with the certifying Defense Agency, that a period of time less than that certified by the Defense Agency is necessary for the accumulation of such experience, or that the contract is not a first production contract, and in writing so notifies such agency and the manufacturer of the commodity, this exemption shall not apply to the commodities thereafter sold, delivered, or supplied under the contract or subcontract to which such notice relates.

SEC. 4. *Secret contracts.* (a) No price regulation shall apply to the sale of any commodity or service pursuant to a contract which is officially classified by any agency of the United States as "Secret" or above. This exemption does not apply to the sale of any commodity or service pursuant to a subcontract unless such subcontract is classified as "Secret" or above.

(b) The classifying agency shall immediately notify the seller, whenever such contract or subcontract ceases to be secret. This exemption shall not apply after the seller is notified by the classifying agency that the contract or subcontract is no longer deemed to be secret.

SEC. 5. *Emergency purchases.* (a) No price regulation shall apply to the sale of any commodity or service to a Defense Agency under such circumstances as to make immediate delivery imperative, and as, in the judgment of the Defense Agency, to render it impossible to secure delivery at the ceiling price which would otherwise be applicable.

(b) This exemption shall not apply to any sale unless at the time of sale the Defense Agency gives the seller a written certificate stating that the sale is an emergency sale authorized by this section and containing the following information:

(1) Name and address of the seller;

(2) Date of the sale (i. e., date of contract, purchase order or agreement);

(3) Description of the commodity or service sold (nomenclature of commodity, materials used, manufacturing processes, whether standardized or custom made, designation of specifications or designs applicable);

(4) Quantity sold;

(5) The price at which sold;

(6) The seller's stated ceiling price.

(c) Within 15 days after such emergency purchase, the Defense Agency shall file with the Coordinator for Government Purchases and Sales, Office of Price Stabilization, Washington 25, D. C., one copy of the certificate required by paragraph (b) of this section, and a statement of the facts giving rise to the emergency situation which necessitated such purchase at a price higher than the applicable ceiling price.

SEC. 6. *Certain materials essential to the defense program.* (a) No price regulation shall apply to the sale to any agency or instrumentality of the United States, pursuant to the Strategic and Critical Materials Stockpiling Act (60 Stat. 596) as amended; 50 U. S. C. 98, or the Defense Production Act of 1950 (64 Stat. 803) as amended; 50 U. S. C. App Supp. 2101, of:

(1) Strategic and critical materials (as defined in section 74) mined or produced outside the United States, its territories, or possessions, or

(2) Strategic and critical materials mined or produced inside the United States, its territories, or possessions:

(i) Under any contract executed prior to January 25, 1951; or

(ii) Under any contract executed after January 25, 1951, with respect to which such agency or instrumentality has filed with the Coordinator for Government Purchases and Sales, Office of Price Stabilization, Washington 25, D. C., a certification that the marginal or submarginal character of the source or the necessity of constructing or installing substantial additional facilities or equipment renders it uneconomic to produce such material at the ceiling price otherwise applicable.

(b) No price regulation shall apply to the sale to any agency or instrumentality of the United States of tungsten concentrates (as defined in section 74) processed from ore produced outside the United States, its territories, or possessions.

(c) The Director of Price Stabilization may, upon application by the procuring agency or instrumentality referred to in paragraphs (a) and (b) of this section, establish a resale ceiling price with respect to any commodity purchased by such agency or instrumentality pursuant to those paragraphs.

(d) No price regulation shall apply to the sale of special hydrocarbon fractions or liquefied petroleum gas when sold for use in manufacturing the following products or components of such products:

(1) Synthetic rubber.

(2) Aviation gasoline of 100 octane ASTM or higher, toluene, benzene, or their components, when sold to a Defense Agency or to any person for use in connection with a defense contract or subcontract.

SEC. 7. *Stamped envelopes and paper.* No price regulation shall apply to the sale of stamped envelopes to or by the United States Post Office Department or the paper manufactured for use in such envelopes.

SEC. 8. *Experimental, developmental, and research services.* No price regulation shall apply to experimental, developmental, or research services (as defined in section 74) supplied to the United States or its agencies or instrumentalities.

SEC. 9. *Printing and binding services for the Government Printing Office.* No price regulation shall apply to the rates, fees, and charges for printing and binding services rendered by printers and binders pursuant to "Standard Rate Contracts" entered into with the United States Government Printing Office.

SEC. 10–20. (Reserved.)

ARTICLE II—SUSPENSIONS

SEC. 21–30. (Reserved.)

ARTICLE III—STATEMENT REGARDING CEILING PRICES

SEC. 31. *Defense contracts and subcontracts.* (a) Where there is knowledge or reason to believe that a commodity will ultimately be delivered to a Defense Agency, either in the same form or as a component, part, assembly, or sub-assembly of another commodity, every offer or bid submitted to a Defense Agency, or to a defense contractor or subcontractor, and every defense contract and subcontract, covering such commodity, must state the offeror's or contractor's ceiling price of such commodity, if the commodity is not exempt from OPS ceiling price regulation. Where there is knowledge or reason to believe that a service is or will be supplied in connection with the production, manufacture, processing, distribution, or packaging of a commodity which will ultimately be delivered to a Defense Agency, either in the same form or as a component, part, assembly, or sub-assembly of another commodity, every offer or bid submitted to a Defense Agency, or to a defense contractor or subcontractor, and every defense contract and subcontract, covering such service, must state the offeror's or contractor's ceiling price of such service, if the service is not exempt from OPS ceiling price regulation.

(b) This section does not apply to any bid or offer submitted directly to a Defense Agency pursuant to formal advertising for bids, nor to a contract with a Defense Agency resulting from any such bid or offer.

ARTICLE IV—ALTERNATIVE CEILING PRICES

SEC. 41. *Sales to the United States.* With respect to any sale to the United States or any agency thereof which is not exempt from ceiling price regulation, and notwithstanding the provisions of any other price regulation, you may determine your ceiling price for the sale of a commodity or service to the United States or any agency thereof by using as a base the ceiling price of the same commodity or service, when sold to a different class of purchaser, and by adjusting such price so as to reflect your customary discounts, allowances, and differentials (as defined in section 74) between such class of purchaser and the United States and its agencies.

SEC. 42. *Sales to the Office of Rubber Reserve, Reconstruction Finance Corporation.* Unless and until a price regulation establishes, provides for, or permits a higher ceiling price:

(a) The ceiling price for the sale (including sales made prior to the date of this regulation) to the Office of Rubber Reserve, Reconstruction Finance Corporation, of any commodity or service covered by any of the following contracts shall be the price specified in such contract:

(1) Any cost-plus-fixed-fee contract executed prior to or during the base period, December 19, 1950, through January 25, 1951;

(2) Any cost-plus-fixed-fee contract which was in the process of negotiation during the base period, December 19, 1950, through January 25, 1951, provided such negotiations were completed prior to July 26, 1951, and the fee schedule specified in such contract was established prior to or during such base period.

(b) The ceiling price for the sale (including sales made prior to the date of this regulation) to the Office of Rubber Reserve, Reconstruction Finance Corporation, of any commodity or service covered by any contract (other than a cost-plus-fixed-fee contract) which specifies a fixed price or a rate or pricing method negotiated prior to or during the base period, December 19, 1950, through January 25, 1951, shall be the highest price payable under such contract with respect to deliveries made or services supplied during said base period.

SEC. 43–50. (Reserved).

ARTICLE V—ESTABLISHMENT OF CEILING PRICES FOR DEFENSE CONTRACTS AND SUBCONTRACTS

SEC. 51. *Contracts and deliveries pending the establishment of a ceiling price.* Any seller who proposes to enter into a defense contract or subcontract for the production, manufacture, distribution or supply of a commodity or service for which a ceiling price or method for determining a ceiling price has not been established may file an application for or a request for approval of a ceiling price or method for determining a ceiling price in accordance with the provisions of the applicable price regulation.

SEC. 52. *Effect of filing.* Upon the filing of the application or request and until the issuance of an order granting or denying the application or request, (1) bids may be submitted and contracts may be entered into at the ceiling price proposed in the application or request, (2) deliveries may be made under such contracts, and (3) the buyer may pay and the seller may receive 75 percent of the ceiling price so proposed: *Provided*, The bid and contract stipulate in writing that final settlement shall be made at a price no higher than the ceiling price as established or determined by the employment of the pricing method established by OPS, or as subsequently adjusted by OPS, and that any amount paid in excess thereof will be immediately refunded to the buyer.

SEC. 53. *Exceptions.* This Article V does not apply to the sale of any commodity or service if the commodity or service or the price regulation covering its sale is listed below:

COMMODITY
(1) Any waste, scrap, or salvaged materials.
(2) Food.
REGULATION
(1) CPR 6 Fats and Oils.
(2) CPR 53 Lead Scrap Materials, Secondary Lead, Antimonial Lead.
(3) CPR 54 Aluminum Scrap and Secondary Aluminum Ingot.

SEC. 54–60. (Reserved).

ARTICLE VI—ADJUSTMENT OF CEILING PRICES FOR DEFENSE CONTRACTS AND SUBCONTRACTS

SEC. 61. *Right to apply for adjustment.* Applications for adjustment of ceiling prices for defense contracts and subcontracts may be filed in accordance with General Overriding Regulation 29, Ad-

justment of Ceiling Prices of Certain Essential Commodities and Services.

ARTICLE VII—GENERAL PROVISIONS

SEC. 71. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 72. *Interpretations.* If you have any doubt as to the meaning of this regulation, you should write to the OPS for an interpretation. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revision 2.

SEC. 73. *Prohibitions.* On and after the effective date of this General Overriding Regulation 2, Revision 1, no Government agency or official or employee thereof and no person subject to this regulation shall do any act prohibited or omit to do any act required by this regulation and shall not offer, solicit, attempt, or agree to do or not to do any such acts. Specifically (but not in limitation of the above) no such agency, official, employee or person shall sell, and no person in the regular course of trade or business (including any such agency or official or employee thereof) shall buy at a price higher than the ceiling price, and all such persons shall make the reports required by this regulation. Violations of any provisions of this general overriding regulation are subject to applicable criminal penalties, enforcement action, and action for damages.

SEC. 74. *Definitions.* Terms used in this General Overriding Regulation shall, unless defined herein, or unless the context requires a different meaning, have the same meaning as when used in the General Ceiling Price Regulation.

(a) "Customary discounts, allowances, and differentials" means discounts, allowances, and differentials in effect between January 1, 1950 and June 30, 1950.

(b) "Defense Agency" means the Department of Defense (including the Department of the Army, the Department of the Navy, and the Department of the Air Force), the Maritime Administration of the Department of Commerce, the United States Coast Guard, the Atomic Energy Commission, the Emergency Procurement Service of the General Services Administration, the Defense Materials Procurement Agency, and any official agency of a foreign Government

(c) "Defense Contract" means any purchase order or agreement with a Defense Agency.

(d) "Experimental, developmental, and research services" means services of theoretical analysis, exploratory studies, and experimentation in any field of science or technology, and services calling for the practical application of investigative findings and theories of a scientific or technical nature, and includes the incidental sale of such quantities and kinds of equipment, supplies, parts, accessories, patent rights, drawings, and designs by the person supplying such services as are necessary to the conduct of such services.

(e) "First production contract". This term is explained in section 3, where it appears.

(f) "Foreign Government" means the Government of any nation or state other than the United States of America.

(g) "OPS" means the Office of Price Stabilization.

(h) "Price regulation" means a ceiling price regulation heretofore or hereafter issued by the Office of Price Stabilization, and any amendment or supplement thereto or order issued thereunder.

(i) "Strategic and critical materials" means the materials set forth on the official list prepared by the General Services Administration and approved by the Director of Price Stabilization, or any amendment or supplement thereto. The term includes ores, concentrates, mattes, speiss, bullion, blister and the various forms of refined metal in standard commercial shapes, including ferro-alloys, powders, and chemical compounds of such metals; but it does not include such materials as alloy ingot, wire bar or billet, or alloyed or unalloyed rod, sheet, tube or extruded shapes or any other form which customarily commands a premium.

(j) "Subcontract" means any purchase order or agreement to perform all or any part of the work required under, or to make or furnish any commodity needed for the performance of a Defense Contract.

(k) "Tungsten concentrates" include wolframite, hubnerite, ferberite or natural or synthetic scheelite which has been separated from gangue or associated rocks by physical or chemical processes.

(l) "You" means a seller of any commodity or service and includes a manufacturer, wholesaler, and retailer.

Effective date. General Overriding Regulation 2, Revision 1, shall become effective the 26th day of July, 1952.

NOTE: The record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52-8122; Filed, July 21, 1952; 4:00 p. m.]

[General Overriding Regulation 9, Amdt. 22]

GOR 9—EXEMPTIONS OF CERTAIN INDUSTRIAL MATERIALS AND MANUFACTURED GOODS

TRANSFER OF CERTAIN EXEMPTIONS AND SUSPENSIONS CONCERNING SALES TO THE UNITED STATES, ITS AGENTS AND SUPPLIERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 22 to General Overriding Regulation 9 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 22 to General Overriding Regulation 9 removes from General Overriding Regulation 9 certain exemptions and suspensions concerning sales to the United States, its agents, and suppliers. Simultaneously with this action General Overriding Regulation 2 is being revised to cover all matters of a special and overriding nature applying to sales to the United States, its agents, and suppliers, including exemptions, suspensions and pricing procedures.

Among other things, General Overriding Regulation 2, Revision 1, now contains provisions dealing with the same subjects covered by those sections of General Overriding Regulation 9 which are being revoked. For example, General Overriding Regulation 2, Revision 1 exempts secret contracts, developmental contracts, (first production contracts) and emergency purchases, as well as certain military commodities and services, under the circumstances described in the regulation.

The reasons for this action are set forth in the statement of considerations accompanying General Overriding Regulation 2, Revision 1.

AMENDATORY PROVISIONS

General Overriding Regulation 9 is amended in the following respects:

1. Section 2 (a) (4) and section 2 (a) (5) are revoked.

2. Section 2 (b) (1), section 2 (b) (2), and section 2 (b) (3) are revoked.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 22 to General Overriding Regulation 9, is effective July 26, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

[F. R. Doc. 52-8123; Filed, July 21, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Amdt. 32]

GCPR—GENERAL CEILING PRICE REGULATION

SALES OF FERTILIZER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 32 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment is issued to carry out the purposes of section 402 (d) (5) of the Defense Production Act of 1950, as amended. This provision was added by the Defense Production Act Amendments of 1952.

Section 402 (d) (5) provides, "For the purpose of determining the applicable ceiling price under the general ceiling price regulation issued January 26, 1951, as amended, any sale of fertilizer to the ultimate user by a person who acquired it for resale shall be considered a retail sale." Accordingly, the definitions of "sale at retail" and "sale at wholesale" contained in section 22 of the General Ceiling Price Regulation are being amended to conform to this provision.

Heretofore dealers' sales of fertilizer to farmers have been treated under the General Ceiling Price Regulation as sales at wholesale because of the definition of wholesale sales contained in that regulation. As a consequence of this treatment, a dealer could not use a price as his ceiling price to a wholesale class of purchaser unless he made at least 10 percent by dollar volume of his total deliveries of the commodity during the period December 19, 1950 through January 25, 1951 to that class of purchaser at that price or at a higher price. This requirement is not applicable to sales at retail.

One effect of this amendment to the General Ceiling Price Regulation, therefore, is to remove from the coverage of the 10 percent rule resales of fertilizer to the ultimate user, including farmer-purchasers.

Another result of classifying these sales as retail sales is to render ineffective dealers' written price announcements as determinative of fertilizer ceiling prices under the circumstances set forth in section 3 (b) of the General Ceiling Price Regulation, since that paragraph deals only with sales by manufacturers and wholesalers.

One other change results from this amendment. Under section 6 of the GCPR, a seller prices new products by reference to a competitor's price and reports his action to OPS. If he is a wholesaler he must wait 30 days before selling at his proposed ceiling price, but if he is a retailer, he may sell as soon as the report is mailed. Under this amendment, the dealer is a retailer when selling fertilizer to an ultimate user and need not wait before selling a new fertilizer whose ceiling price is established by section 6.

Neither this amendment nor section 402 (d) (5) of the Defense Production Act of 1950, as amended, changes the general rule that a seller's ceiling price for fertilizer cannot exceed the highest price at which he delivered it during the period December 19, 1950 to January 25, 1951, inclusive, to a purchaser of the same class. A seller's own customary practice, during this base period, of charging different prices to different customers who may not have differed functionally, is sufficient to demonstrate his different classes of purchasers, and must be maintained, as explained in Interpretation 48 to the GCPR, issued February 15, 1952.

In view of the urgency of this amendment the Director has found it impracticable to consult with industry representatives, including trade association representatives.

AMENDATORY PROVISIONS

The General Ceiling Price Regulation is amended in the following respects:

1. The definition of "sale at retail and retailer" in section 22 is amended to read as follows:

Sale at retail and retailer. Sale at retail means a sale to an ultimate consumer other than an industrial or commercial user. In addition, for determining the applicable ceiling price under this regulation, any sale of fertilizer to the ultimate user by a person who acquired it for resale shall be considered a sale at retail. A seller who in the regular course of business makes sales at retail is a retailer.

2. The definition of "sale at wholesale and wholesaler" in section 22 is amended to read as follows:

Sale at wholesale and wholesaler. Sale at wholesale means a sale by a person who buys a commodity and resells it, without substantially changing its form, or who supplies a service, to an industrial or commercial user, or to any person other than the ultimate consumer. However, for determining the applicable ceiling price under this regulation, any sale of fertilizer to the ultimate user by a person who acquired it for resale shall be considered a sale at retail. A seller who in the regular course of business makes sales at wholesale is a wholesaler.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective July 21, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 21, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-2 as Amended July 22, 1952]

M-2—RUBBER

This order as amended is found necessary and appropriate to promote the national defense. It is issued pursuant to both the Defense Production Act of 1950 as amended, and the Rubber Act of 1948 as amended. In the formulation of this amended order there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. Explanation.
2. Applicability of other regulations and orders.
3. Definitions.
4. Limitation on inventory of dry natural rubber.
5. Limitation on purchase of cold GR-S.
6. Limitation on use of pale crepe or sole crepe.
7. Reports of rubber consumption and stocks.
8. Reports by tire, tube, and camelback manufacturers.
9. Records and reports.
10. Request for adjustment or exception.
11. Communications.
12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 8, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Explanation.* This amended order continues in effect certain restrictions applicable to cold GR-S and natural crepe rubber. The order contains no other controls on acquisition, inventories, and consumption of either natural or synthetic rubber. In the interest of national security, however, it has been jointly determined by the appropriate Government agencies that production by the Government-owned synthetic rubber plants should be maintained at levels substantially in excess of the minimum quantities required by the Rubber Act of 1948, as amended; viz, 200,000 long tons per annum for GR-S and 15,000 long tons per annum for butyl. In order to support the higher production levels desirable for national security, GR-S consumption cannot be permitted to fall below the rate of 450,000 long tons per annum, and butyl consumption cannot be permitted to fall below the rate of 60,000 long tons per annum. Since voluntary industry usage appears unlikely to drop below such levels, mandatory consumption of synthetic rubber has not been imposed, but if consumption falls below these levels the order will be amended by establishing industry-wide manufacturing specifications requiring the use of stated percentages of synthetic rubber in all rubber products. This action is in accord with the legislative policy of section 2 of the Rubber Act of 1948, as amended, which states that "In order to strengthen national security through a sound industry it is essential that • • • regulations requiring mandatory use of synthetic rubber • • • be ended and terminated whenever consistent with national security • • • •."

SEC. 2. *Applicability of other regulations and orders.* Nothing contained in this order as amended shall be construed to relieve any person from complying with such limitations as may be contained in any other applicable NPA regulation or order, or any order or regulation of any other competent authority. Moreover, nothing contained in this order as amended shall be construed as relieving any person of any obligation or liability incurred under this order as originally issued or as amended from time to time.

SEC. 3. *Definitions.* As used in this order:

(a) "Natural rubber" means all forms and types of tree, vine, or shrub rubber, both dry and latex, including all grades of wild rubber, but excluding balata, gutta percha, and reclaimed natural rubber.

(b) "Dry natural rubber" means all natural rubber in solid form.

(c) "Natural rubber latex" means the dry latex solids contained in natural rubber liquid latex.

(d) "Synthetic rubber" means all new RHC products of chemical synthesis in solid or latex form, prepared from a diolefin or derivative therefrom as an essential component, similar in general properties and applications to natural

rubber and specifically capable of vulcanization, but excluding reclaimed synthetic rubber.

(e) "GR–S" means a general-purpose synthetic rubber of the butadiene or butadiene-styrene type produced in the United States, generally suitable for use in the manufacture of transportation items such as tires or camelback, as well as any other type of synthetic rubber equally or better suited for use in the manufacture of transportation items such as tires or camelback, as determined from time to time by NPA, but excluding reclaimed general-purpose synthetic rubber.

(f) "Cold rubber" means GR–S polymers produced at low temperatures as classified by the Reconstruction Finance Corporation.

(g) "Butyl" or "GR–I" means special-purpose synthetic rubber produced in the United States, suitable for use in the manufacture of transportation items such as pneumatic inner tubes, but excluding reclaimed special-purpose synthetic rubber.

(h) "Reclaimed rubber" means any rubber derived from the processing or treatment of vulcanized rubber or cured scrap rubber.

(i) "New RHC" means total new rubber hydrocarbon. This is the total content of dry natural rubber, natural rubber latex, synthetic rubber (including the oil in oil-extended GR–S), uncured scrap rubber, and uncured in-process materials.

(j) "Pale crepe" means dry natural rubber produced from the fresh coagula of natural liquid latex meeting the specifications of the Rubber Manufacturers Association for pale latex crepes, thick or thin, number IX, 1, or 2.

(k) "Sole crepe" means dry natural rubber produced from pale crepe which has not been compounded, vulcanized, or physically attached to any manufactured product.

(l) "Consume" means (in the case of dry natural rubber, natural rubber latex, or synthetic rubber) to compound, expend, formulate, or in any manner make any substantial change in the form, shape, or chemical composition thereof.

(m) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(n) "NPA" means the National Production Authority.

SEC. 4. *Limitation on inventory of dry natural rubber.* Inventories of dry natural rubber are subject to the provisions of NPA Reg. 1.

SEC. 5. *Limitation on purchase of cold GR–S.* No person may purchase for delivery during the third calendar quarter of 1952, or any subsequent calendar quarter, a quantity of dry cold GR–S in excess of 70 percent of all of the dry GR–S he purchases from the Reconstruction Finance Corporation for delivery during that calendar quarter.

SEC. 6. *Limitation on use of pale crepe or sole crepe.* No person shall use or consume any pale crepe or sole crepe in the manufacture of pneumatic tires, shoes, shoe soles, heels, welting, or wrappers.

SEC. 7. *Reports of rubber consumption and stocks.* Every person who consumes or owns, at any time during any month, any type of rubber listed in this section shall file a monthly report on Form NPAF–3 with NPA in accordance with the instructions accompanying the form. This report form covers consumption, stocks, receipts, production, and shipments. Those persons who consume rubber for the production of both transportation and nontransportation products shall also file a monthly report on Form NPAF–3A, showing, separately, consumption by type of rubber for each of the two product groups. Also, any person who does not file a Form NPAF–3 for any type of rubber listed in this section for each month of any calendar year shall file an annual report for such year on Form NPAF–4. Any person who consumes rubber as part of a scientific laboratory experimental program only, shall file his report annually on Form NPAF–4. Each person who is hereby required to file Form NPAF–4 shall do so by the twentieth of January of each year.

TYPES TO BE REPORTED

Dry natural rubber.
Natural rubber latex.
Reclaimed rubber.
GR–S types, excluding latex.[1]
GR–S type latex.[1]
Butyl types.[1]
Neoprene, excluding latex.
Neoprene latex.
Butadiene-acrylonitrile types (N-type) excluding latex.
Butadiene-acrylonitrile types (N-type) latex.

SEC. 8. *Reports by tire, tube, and camelback manufacturers.*—(a) *Monthly reports.* Each manufacturer of tires, tubes, and camelback shall file with NPA a report of his production, shipments, and inventory for each calendar month on Form NPAF–5 in accordance with the instructions accompanying the form.

(b) *Weekly reports of cured tires.* Each manufacturer of tires shall file with NPA a report of his production of cured tires for each week on Form NPAF–6 in accordance with the instructions accompanying the form.

SEC. 9. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 10. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 11. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M–2.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect July 22, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[1] Includes all types; whether obtained from Government or other sources, including imports.

[NPA Order M–50, Direction 1 of July 22, 1952]

M–50—ELECTRIC UTILITIES

DIR. 1—TEMPORARY SUSPENSION OF INVENTORY LIMITATIONS ON COPPER AND ALUMINUM

This direction under NPA Order M–50 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this direction, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. Suspension of inventory limitations.

AUTHORITY: Sections 1 and 2 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* In view of the work stoppage in the steel industry and consequent interruption in meeting schedules of construction authorized under NPA Order M–50, this direction temporarily accords electric utilities the privilege of exceeding inventory restrictions upon copper and aluminum.

SEC. 2. *Suspension of inventory limitations.* (a) An electric utility may accept delivery of any item of copper controlled material and any item of aluminum controlled material without regard to the inventory limitations of NPA Order M–50.

(b) Nothing in this section shall be construed to permit any electric utility to obtain any controlled material or to make allotments in excess of the related allotment received by it or in excess of the quantities for which it is permitted to self-authorize delivery orders.

This direction shall take effect July 22, 1952.

[NPA Order M–82 as Amended July 22, 1952]

M–82—DISTRIBUTION OF BRASS MILL PRODUCTS TO DISTRIBUTORS

This amended NPA Order M–82 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended order, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the order affects many different trades and industries.

This amendment affects NPA Order M–82 as last amended May 28, 1952, by increasing the monthly quotas of X–6 orders which distributors may place with brass mills or other distributors.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. How a distributor obtains brass mill products.
4. Monthly X–6 quotas on orders placed with brass mills or other distributors.
5. Limitations on acceptance of X–6 orders by brass mills or distributors.
6. Limitations on acceptance of orders by distributors.
7. Inventory limitations.

AUTHORITY: Sections 1 to 13 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* The purpose of this order is to provide for the restoration and maintenance of reasonable inventories by distributors of brass mill products. It describes how orders for brass mill products shall be accepted and filled by distributors and how such shipments shall be replaced by brass mills. It authorizes distributors to place authorized controlled material orders within certain limitations, sets forth limitations on the required acceptance of such orders by brass mills, and revokes the authority of distributors to place orders certified under Direction 1 to NPA Order M–11.

SEC. 2. *Definitions.* As used in this order:

(a) "Base period" means the period commencing January 1, 1947, and ending June 30, 1950.

(b) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(c) "Brass mill products" means copper and copper-base alloys in the following forms: sheet, plate, and strip, in flat lengths or coils; rod, bar, shapes, and wire (except copper wire mill products); ancdes, rolled, forged, or sheared from cathodes; and seamless tube and pipe. Straightening, threading, chamfering, and cutting to width and length, and reduction in gage, do not constitute changes in form of brass mill products except as determined by NPA. The following related products which have been produced by a change in form of brass mill products are not included in the definition of brass mill products:

Circles.
Discs.
Cups.
Blanks and segments.
Forgings (except anodes).
Welding rod, 3 feet or less in length.
Rotating bands.
Tube and nipples—welded, brazed, or mechanically seamed.

(d) "Brass mill" means any person who produces brass mill products.

(e) "Item of brass mill products" means a particular brass mill product of one given dimension (except length), shape, temper, alloy, and finish.

(f) "Inventory" means brass mill products owned by a distributor or held by him on consignment within the United States, its territories and possessions, for resale as brass mill products. It does not include brass mill products held by him for fabrication, whether for his own account or for others, or direct mill shipments by a mill to a distributor's customer.

(g) "Distributor" means any person (including a warehouseman or jobber but not a retailer) engaged in the business of stocking brass mill products received from a brass mill or another distributor at a location regularly maintained by him for such purpose, for sale or resale in the form or shape as received, or after performing the operations described in this paragraph, and who, in connection therewith, maintains facilities and equipment necessary to conduct such business. Such operations are straightening, threading, chamfering, cutting to width and length, and edging. A distributor shall be deemed to be such only with respect to such brass mill products as are regularly maintained in his inventory. Occasional or accommodation sales, or purchases from brass mills or other distributors, shall not constitute engaging in the business of distributing brass mill products. Any brass mill maintaining an inventory of brass mill products at a location other than the mill and regularly engaging in the business of making sales from such inventory as a distributor shall be deemed to be a distributor with respect to such inventory and business for the purposes of this order. Any distributor operating more than one warehouse may consider all warehouses operated by him as one warehouse for the purpose of this order.

(h) "NPA" means the National Production Authority.

SEC. 3. *How a distributor obtains brass mill products.* (a) Commencing on September 1, 1951, and subject to the quantity limitations contained in sections 4 and 7 of this order, a distributor may apply the allotment symbol X–6 to orders for brass mill products for the purpose of replacing his inventory of such products.

(b) A delivery order bearing the symbol X–6, together with the certification provided for in section 8 of this order, shall constitute an authorized controlled material order for the purpose of all CMP regulations.

(c) Commencing on May 28, 1952, any distributor who during the preceding calendar month has delivered brass mill products from his inventory to fill authorized controlled material orders which bear program identifications consisting of the letter A, B, C, or E, followed by a digit, or the program identification Z–2, or a program identification

containing the suffix B–5, in obtaining materials to replace in inventory the brass mill products covered by such orders may append as a suffix to the X–6 allotment symbol the program identification B–5, so that the authorized controlled material order placed by him will contain a program identification which reads X–6–B–5.

(d) Subject to the limitations of any other applicable NPA regulation or order, a distributor may purchase brass mill products without limitation where such purchase is not a purchase made from a domestic brass mill or another distributor which will result in a violation of section 4 or 7 of this order. A distributor may apply the allotment symbol X–6 to all his orders for brass mill products. Such orders are hereby designated authorized controlled material orders for the purpose of section 17 (d) of CMP Regulation No. 1.

SEC. 4. *Monthly X–6 quotas on orders placed with brass mills or other distributors.* Any distributor who during the preceding calendar month has delivered brass mill products from his inventory to fill authorized controlled material orders placed with him may place an order with a brass mill or another distributor for replacement in his inventory of an equal weight of brass mill products, to which order the allotment symbol X–6 may be applied. In addition, a distributor whose inventory (by weight) on the last business day of any calendar month is less than his average monthly inventory (by weight) during the base period may place an order bearing the allotment symbol X–6 with a brass mill or another distributor during the succeeding month for 15 percent of the difference between his average monthly inventory (by weight) during the base period and such inventory at the end of the month. The total weight of material covered by orders placed by any distributor with brass mills and other distributors in each month and bearing the allotment symbol X–6 shall, however, in no event exceed 150 percent of the average monthly weight of deliveries of brass mill products from brass mills and other distributors to such distributor during the base period. In determining average monthly inventory during the base period or average monthly deliveries of brass mill products during the base period, a distributor may exclude any months during the base period in which he was not engaged in the business of distributing brass mill products.

SEC. 5. *Limitations on acceptance of X–6 orders by brass mills or distributors.* (a) A brass mill or another distributor need not accept an X–6 order from any distributor if such distributor was not a purchaser of brass mill products from him during the base period.

(b) A brass mill or another distributor need not accept an X–6 order from a distributor for any item of brass mill products which such distributor did not purchase from him during the base period.

(c) Any distributor who is unable to place an order bearing the allotment symbol X–6 due to the limitations of this section should apply to the National Production Authority, Washington 25, D. C., Ref: M–82, specifying the brass mills or distributors that refused to accept the order. NPA will assist him in locating sources of supply.

SEC. 6. *Limitations on acceptance of orders by distributors.* (a) A distributor may not accept for delivery from his inventory (1) any one order from any one person for more than 2,000 pounds of any item of brass mill products except condenser tubes, or for more than 10,000 pounds of condenser tubes, without the written approval of NPA, or (2) orders for any brass mill products in excess of the distributor's inventory of such products (including such products in transit to the distributor) on the date of the receipt of such order. Distributors are not required to accept an authorized controlled material order for more than 500 pounds of any item of brass mill products or 50 percent of the distributor's inventory of such item, whichever is less, unless otherwise directed by NPA. For the purposes of the quantity limitations of this section, a distributor shall regard separate orders placed for delivery in the same month for the same item by any person as one order.

(b) A distributor may accept an order for brass mill products for direct shipment from the brass mill to the customer only to the extent that such order is acceptable to the brass mill. Such a transaction shall not be considered a sale or delivery by a distributor for the purposes of this order. In forwarding such an order to the brass mill for acceptance, the distributor must furnish the brass mill with the name and address of the customer, the date and number of the customer's order, the authorized controlled material order allotment symbol, and a copy of the certification, which copy, however, need not be a duplicate original. An order for brass mill products for direct shipment from the brass mill to the customer may be shipped to the distributor who placed the order with the brass mill, but in that event the distributor may not incorporate the material so received physically in his inventory, and must use all such material only for the purpose of filling the order for which it was received.

(c) A distributor may not accept any order for copper controlled materials except an authorized controlled material order, or ship or deliver any copper controlled material except pursuant to an authorized controlled material order valid for the calendar quarter in which delivery is requested, unless the quantity of material to be delivered on any one sale to any one person aggregates less than 25 pounds. Only sales on authorized controlled material orders are replaceable under the provisions of the first sentence of section 4 of this order.

SEC. 7. *Inventory limitations.* No distributor may accept delivery of brass mill products from domestic brass mills or other distributors if his inventory is, or by such receipt would become, in excess of his average monthly inventory during the base period (excluding therefrom the months during which he was not engaged in the business of distributing brass mill products) or in excess of a practicable minimum working inventory as defined in NPA Reg. 1, whichever is less.

SEC. 8. *Certification.* Any order for brass mill products placed by a distributor with a supplier and bearing the allotment symbol X–6 pursuant to this order shall contain a certification in substantially the following form:

Certified under CMP Regulation No. 1 and NPA Order M–82

This certification shall constitute a representation to the supplier and to NPA that the purchaser is authorized to place an authorized controlled material order under the provisions of this order to obtain the material covered by the delivery order.

SEC. 9. *Applicability of other regulations and orders.* Nothing in this order shall be construed to relieve any person from the obligations of complying with such limitations as may be contained in any other applicable regulation or order of NPA or of any order of any other competent authority.

SEC. 10. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available at the usual place of business where maintained for inspection and audit by duly authorized representatives of NPA.

(c) Persons subject to this order shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 11. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts and the nature of the relief sought, and shall state the justification therefor.

SEC. 12. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M–82.

SEC. 13. *Violations.* Any person who wilfully violates any provision of this order or any other order or regulation of NPA or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amended order shall take effect July 22, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52–8134; Filed, July 22, 1952; 11:15 a. m.]

[NPA Order M–86, Amendment 1 of July 22, 1952]

M–86—DISTRIBUTION OF COPPER WIRE MILL PRODUCTS TO DISTRIBUTORS

INCREASE IN MONTHLY QUOTAS OF X–6 ORDERS

This amendment of NPA Order M–86 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the amendment affects many different trades and industries.

AMENDATORY PROVISIONS

This amendment affects NPA Order M–86 as last amended May 28, 1952, as follows:

Section 4 is amended by increasing the monthly quotas of X–6 orders which distributors may place with copper wire mills or other distributors, so that the section as amended now reads as follows:

SEC. 4. *Monthly X–6 quotas on orders placed with copper wire mills or other distributors.* (a) Subject to the inventory limitations of section 7 of this order, any distributor, who during the preceding calendar month (commencing with the preceding calendar month of June 1952 has delivered copper wire mill products from his inventory to fill authorized controlled material orders placed with him, may place an order or orders with a copper wire mill or another distributor for a quantity of copper wire mill products equal to 150 percent of such deliveries (measured in pounds of copper content) made during the preceding calendar month. The allotment symbol X–6 may be applied to any such order or orders so placed with a copper wire mill or another distributor: *Provided, however,* That, commencing with the first calendar month succeeding the calendar month in which any distributor's inventory has reached the maximum level permitted by section 7, he may not place an order or orders with copper wire mills or other distributors which in the aggregate require the delivery of a quantity of copper wire mill products in excess of 100 percent of the deliveries of such products which he made from his inventory to fill authorized controlled material orders during the preceding calendar month.

(b) A distributor shall reduce or cancel outstanding orders to the extent that the aggregate of such orders calls for delivery of a quantity of material in excess of the quantity he would be permitted to receive under section 7 at the time such orders are scheduled for delivery.

(c) A distributor may not place duplicate orders bearing the symbol X–6 in anticipation of cancelling one upon delivery of the other.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect July 22, 1952.

Chapter XVII—Housing and Home Finance Agency

[CR 2, Amdt.]

CR 2—RESIDENTIAL CREDIT CONTROLS: REGULATION GOVERNING PROCESSING AND APPROVAL OF EXCEPTIONS AND TERMS FOR AREAS AFFECTED BY SAVANNAH RIVER (S. C. AND GA.), PADUCAH (KY.), AND REACTOR TESTING STATION (IDAHO) INSTALLATIONS OF THE ATOMIC ENERGY COMMISSION

GEOGRAPHICAL AREAS AFFECTED

On February 27, 1952, Regulation CR 2, as revised and amended, was published in the FEDERAL REGISTER at 17 F. R. 1721. In section 3 of said regulation certain geographical limits are set forth describing three separate areas affected by installations of the Atomic Energy Commission. Paragraph (a) of section 3 describes the geographical area affected by the Savannah River Atomic Energy Commission installation. An amendment to this area was subsequently published in the FEDERAL REGISTER on April 4, 1952 (17 F. R. 2934). Paragraph (a) of section 3 of CR 2 is hereby further amended to read as follows:

(a) Savannah River, Georgia-South Carolina, Area. (Aiken, Allendale, Barnwell and Bamberg Counties, and Orangeburg County, except the Townships of Elloree, Eutaw, Holly Hill, Providence and Vance, all in South Carolina; and Richmond, Columbia, and McDuffie Counties, and District 81—Wrens (including Wrens Town) in Jefferson County, all in Georgia.)

B. T. FITZPATRICK,
Acting Housing and Home Finance Administrator.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 9]

[Rent Regulation 2, Amdt. 8]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

MISCELLANEOUS AMENDMENTS

Effective July 23, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 18th day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Sections 147, 148 and 149 of Rent Regulation 1 are amended to read as follows:

SEC. 147. *Adjustment in maximum rent for decreases.* The order on any petition under section 146 may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by section 146 may be decreased in accordance with the provisions of section 159.

SEC. 148. *Refund to tenant for decreases on or after April 1, 1948.* If the landlord fails to file the report required by section 146 within the time specified, or decreases the services, furniture, furnishings, or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or April 1, 1948, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by an order decreasing the maximum rent on account of such decrease in services, furniture, furnishings, or equipment: *Provided, however,* That the Director may issue an order relieving the landlord of the duty to refund the excess rent for any rental period if the Director finds that during such period the landlord did not know of his obligation to furnish the services, furniture, furnishings or equipment, or the Direc-

tor may issue an order relieving the landlord of the duty to refund the excess rent, in whole or in part, if the Director finds that the issuance of such an order would not be inconsistent with the purposes of the act and regulation. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order unless the refund is stayed in accordance with the provisions of Rent Procedural Regulation 3.

SEC. 149. *Adjustment in maximum rent for decreases prior to April 1, 1948.* Where a landlord decreased living space, services, furniture, furnishings, or equipment before April 1, 1948, while the accommodations were occupied, or decreased the living space, services, furniture, furnishings, or equipment during such period while the accommodations were vacant, and failed or fails to file a petition or a written report as was required by the provisions of former § 825.5 (b) prior to April 1, 1948 (24 CFR 1947 Supp.), the rent received by the landlord for any rental period commencing on or after such decrease or July 1, 1947, whichever is later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by an order decreasing the maximum rent on account of such decrease in living space, services, furniture, furnishings, or equipment: *Provided, however,* That the Director may issue an order relieving the landlord of the duty to refund the excess rent for any rental period if the Director finds that during such period the landlord did not know of his obligation to furnish the living space, services, furniture, furnishings or equipment, or the Director may issue an order relieving the landlord of the duty to refund the excess rent, in whole or in part, if the Director finds that the issuance of such an order would not be inconsistent with the purposes of the act and regulation. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order unless the refund is stayed in accordance with the provisions of Rent Procedural Regulation 3.

2. Section 149 of Rent Regulation 2 is amended to read as follows:

SEC. 149. *Refund to tenant for decreases.* If the landlord fails to file the report required by sections 146 and 147 within the time specified, or decreases the services, furniture, furnishings, equipment, or living space without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or July 1, 1947, or the effective date, whichever is the later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by an order decreasing the maximum rent on account of such decrease in services, furniture, furnishings, equipment, or living space: *Provided, however,* That the Director may issue an order relieving the landlord of the duty to refund the excess rent for any rental period if the Director finds that during such period the landlord did not know of his obligation to furnish the living space, services, furniture, furnishings or equipment, or the Director may issue an order relieving the landlord of the duty to refund the excess rent, in whole or in part, if the Director finds that the issuance of such an order would not be inconsistent with the purposes of the act and regulation. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order unless the refund is stayed in accordance with the provisions of Rent Procedural Regulation 3.

[Rent Regulation 1, Amdt. 65 to Schedule A]

[Rent Regulation 2, Amdt. 63 to Schedule A]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE A—DEFENSE-RENTAL AREAS

CALIFORNIA, IOWA, OHIO, AND PENNSYLVANIA

Effective July 23, 1952, Rent Regulation 1 and Rent Regulation 2 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 18th day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Schedule A, Item 33a, is amended to describe the counties in the defense-rental area as follows:

Monterey County, except the Cities of Carmel-by-the-Sea and Salinas.

In Monterey County, the Townships of Alisal, Castroville, Gonzales, Monterey, Pacific Grove and Pajaro, except the Cities of Carmel-by-the-Sea and Salinas.

In Santa Cruz County, the Township and City of Watsonville; in San Benito County, the Townships of Hollister and San Juan.

This decontrols the City of Salinas in Monterey County, California, a portion of the Monterey Bay, California, Defense-Rental Area.

2. Schedule A, Item 38, is amended to describe the counties in the defense-rental area as follows:

San Francisco County.

This decontrols Sonoma County, California, a portion of the San Francisco Bay, California, Defense-Rental Area, on the initiative of the Director of Rent Stabilization under section 204 (c) of the Housing and Rent Act of 1947, as amended.

3. In Item 112 of Schedule A, all that which pertains to Lee County, Iowa, is deleted.

This decontrols the City of Keokuk in Lee County, Iowa, a portion of the Burlington, Iowa, Defense-Rental Area.

4. Schedule A, Item 113, is amended to describe the counties in the defense-rental area as follows:

In Linn County, the City of Cedar Rapids.

This decontrols the City of Marion in Linn County, Iowa, a portion of the Cedar Rapids, Iowa, Defense-Rental Area.

5. Schedule A, Item 228, is amended to describe the counties in the defense-rental area as follows:

Cuyahoga County, except the Cities of Bedford, Berea, Shaker Heights and University Heights, and the Villages of Bay, Beachwood, Bentleyville, Bratenahl, Brecksville, Chagrin Falls, Gates Mills, Highland Heights, Hunting Valley, Independence, Lyndhurst, Mayfield Heights, Moreland Hills, North Olmsted, North Royalton, Oakwood, Orange, Parkview, Pepper Pike, Seven Hills, Solon, Strongsville, Valley View, Warrensville Heights, Westlake and West View.

This decontrols the Village of Oakwood in Cuyahoga County, Ohio, a portion of the Cleveland, Ohio, Defense-Rental Area.

6. Schedule A, Item 261, is amended to describe the counties in the defense-rental area as follows:

In Erie County, the City of Erie, the Boroughs of Northeast and Wesleyville, and the Townships of Harborcreek, Lawrence Park, Millcreek and Northeast.

This decontrols the Boroughs of Middleboro, North Girard, Platea and Wattsburg, and the Townships of Greene, Greenfield, McKean, Summit and Venango, all in Erie County, Pennsylvania, portions of the Erie, Pennsylvania, Defense-Rental Area, on the initiative of the Director of Rent Stabilization under section 204 (c) of the Housing and Rent Act of 1947, as amended.

7. Schedule A, Item 270, is amended to describe the counties in the defense-rental area as follows:

Mercer County, except the Boroughs of Fredonia, Jackson Center, Jamestown, New Lebanon, Sandy Lake, Sheakleyville and Stoneboro, and the Townships of Deer Creek, Delaware, East Lackawannock, Fairview, French Creek, Greene, Jackson, Jefferson, Lackawannock, Lake, Liberty, Mill Creek, New Vernon, Otter Creek, Perry, Salem, Sandy Creek, Sandy Lake, Sugar Grove, Wilmington, Wolf Creek and Worth.

This decontrols the Boroughs of Fredonia, Jamestown, New Lebanon, Sandy Lake, Sheakleyville and Stoneboro, and the Townships of Deer Creek, Delaware, East Lackawannock, Fairview, French Creek, Greene, Jackson, Jefferson, Lackawannock, Lake, Liberty, Mill Creek, New Vernon, Otter Creek, Perry, Salem, Sandy Creek, Sandy Lake, Sugar Grove, Wilmington, Wolf Creek and Worth, all in Mercer County, Pennsylvania, portions of the Sharon-Farrell, Pennsylvania, Defense-Rental Area, on the initiative of the Director of Rent Stabilization under section 204 (c) of the Housing and Rent Act of 1947, as amended.

All decontrols effected by these amendments, except those in items 2, 6 and 7 thereof, are based on resolutions submitted in accordance with section 204 (j) (3) of the act.

[F. R. Doc. 52-8049; Filed, July 22, 1952; 8:54 a. m.]

[Rent Regulation 2, Amdt. 14 to Schedule B]

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO INDIVIDUAL DEFENSE-RENTAL AREA OR PORTIONS THEREOF

COLORADO

Effective July 23, 1952, Rent Regulation 2 is amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 18th day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

A new item 65 is added to Schedule B of Rent Regulation 2, reading as follows:

65. *Provisions relating to the Pueblo, Colorado, Defense-Rental Area (Item 46 of Schedule A):*

The application of this regulation is terminated with respect to housing accommodations which on July 3, 1952, were furnished, consisted of one room, and did not contain any housekeeping facilities.

All provisions of this regulation insofar as they are applicable to the Pueblo, Colorado, Defense-Rental Area, are hereby amended to the extent necessary to carry into effect the provisions of this item 65 of Schedule B.

MISCELLANEOUS AMENDMENTS

Effective July 23, 1952, Rent Regulation 3 and Rent Regulation 4 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 18th day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Section 82 of Rent Regulation 3 is amended to read as follows:

SEC. 82. *Adjustment in maximum rent for decreases.* The order on any petition under sections 80 and 81 may require an appropriate adjustment in the maximum rent; and any maximum rent for which a report is required by sections 80 and 81 may be decreased in accordance with the provisions of section 86. If the landlord fails to file the report required by sections 80 and 81 within the time specified, or decreases the services, furniture, furnishings, or equipment without an order authorizing such decrease where such order is required, the rent received by the landlord for any rental period commencing on or after such decrease or the effective date, whichever is later, shall be received subject to refund to the tenant of any amount in excess of the maximum rent which may later be fixed by an order decreasing the maximum rent on account of such decrease in services, furniture, furnishings or equipment: *Provided, however,* That the Director may issue an order relieving the landlord of the duty to refund the excess rent for any rental period if the Director finds that during such period the landlord did not know of his obligation to furnish the services, furniture, furnishings or equipment, or the Director may issue an order relieving the landlord of the duty to refund the excess rent, in whole or in part, if the Director finds that the issuance of such an order would not be inconsistent with the purposes of the Act and Regulation. Such amount shall be refunded to the tenant within 30 days after the date of issuance of the order unless the refund is stayed in accordance with the provisions of Rent Procedural Regulation 3.

Issued this 18th day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

Schedule A, Item 33a, is amended to describe the counties in the defense-rental area as follows:

In Monterey County, the Townships of Alisal, Castroville, Gonzales, Pacific Grove, Pajaro and Monterey, except the Cities of Carmel-by-the-Sea and Salinas; in Santa Cruz County, the Township and City of Watsonville; in San Benito County, the Townships of Hollister and San Juan.

This decontrols the City of Salinas in Monterey County, California, a portion of the Monterey Bay, California-Defense-Rental Area, based on a resolution submitted under section 204 (j) (3) of the Housing and Rent Act of 1947, as amended.

[F. R. Doc. 52-8052; Filed, July 22, 1952; 8:55 a. m.]

[Rent Regulation 3, Amdt. 12 to Schedule B]

[Rent Regulation 4, Amdt. 6 to Schedule B]

RR 3—HOTELS

RR 4—MOTOR COURTS

SCHEDULE B—SPECIFIC PROVISIONS RELATING TO DEFENSE-RENTAL AREA OR PORTIONS THEREOF

TEXAS AND MISSISSIPPI

Effective July 23, 1952, Rent Regulation 3 and Rent Regulation 4 are amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 18th day of July 1952.

TIGHE E. WOODS,
Director of Rent Stabilization.

1. Item 17 is added to Schedule B of Rent Regulation 3, reading as follows:

17. *Provisions relating to the Howard County, Texas, Defense-Rental Area (Item 303 of Schedule A):*

The application of this regulation is terminated with respect to rooms in any hotel which on January 22, 1952 (a) had no more than 20 percent of its rooms rented on the basis of a weekly or monthly term of occupancy, and (b) provided to persons occupying its rooms customary hotel services, including elevator service, bellboy service, telephone and switchboard services, maid service, use and upkeep of furniture, and the furnishing and laundering of linens.

All provisions of this regulation insofar as they are applicable to the Howard County, Texas, Defense-Rental Area, are hereby amended to the extent necessary to carry into effect the provisions of this item 17 of Schedule B.

2. Item 18 is added to Schedule B of Rent Regulation 4, reading as follows:

18. *Provisions relating to Harrison County, Mississippi, a portion of the Biloxi-Pascagoula, Mississippi, Defense-Rental Area (Item 162 of Schedule A):*

Maximum daily rates established by this regulation shall no longer be applicable to those housing accommodations which on June 20, 1952, had a maximum daily rent established by this regulation of $6.00 or more, properly registered with the area rent office.

All provisions of this regulation insofar as they are applicable to Harrison County, Mississippi, are hereby amended to the extent necessary to carry into effect the provisions of this item 18 of Schedule B.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

BRANDYWINE RIVER AT WILMINGTON, DEL.

Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.230 is hereby amended by deleting all references to the Highway Bridge at Church Street from the provisions of paragraph (b) and prescribing paragraph (c) to govern the operation of this bridge, as follows:

§ 203.230 *Brandywine River at Wilmington, Del.*—(a) Highway bridge at *Seventh Street, Wilmington, Del.* • • •

(b) *Bridges (highway and railroad).* The following regulations are prescribed to govern the operation of the drawspans in the following-named drawbridges crossing the Brandywine River in the City of Wilmington, Delaware:

Pennsylvania Railroad Bridge above Seventh Street drawbridge.
State Highway Bridge at Sixteenth Street.

(1) Owners of these drawbridges will not be required to keep draw tenders in attendance at these bridges: *Provided,* That the said owners shall keep conspicuously posted on both the upstream and downstream sides of the drawbridges in such manner that it can be easily read at any time a copy of the regulations in this section together with a notice stating to whom requests for the opening of the draw shall be made and explaining exactly how such persons can be reached.

• • • • •

(5) [Revoked.]

(c) *Highway bridge at Church Street, Wilmington, Del.* (1) The owner of or agency controlling this bridge will not be required to open the drawspan for the passage of vessels.

(2) The owner of or agency controlling this bridge shall keep a legible copy of these regulations in this section posted conspicuously on both the upstream and downstream sides of the bridge.

[Regs., July 1, 1952, 823.01-ENGWO] (28 Stat. 362; 33 U. S. C. 499)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

SUBPART A—REGISTRATION AND RESEARCH

MISCELLANEOUS AMENDMENTS

1. Section 21.106, inadvertently removed from the Code of Federal Regulations by 14 F. R. 3408, June 23, 1949 is hereby reinstated and reads as follows:

§ 21.106 *Compensation for productive labor, definition of.* Compensation for productive labor means wages, salary, commission, bonus, or other payments received by a veteran by reason of his employment, whether self-employed or otherwise, and regardless of whether such employment is related to his training.

(a) For the purpose of Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12 note), the term "wages" means only so much of the compensation as is derived from productive labor based on the standard workweek for the particular trade or industry in the immediate community in which the veteran is employed. If there is not a uniform practice for a trade or industry within a community, the standard workweek in the establishment in which the veteran is employed shall be considered in computing the rates payable. Any compensation received for productive labor performed beyond the standard workweek is not to be considered as compensation to be reported. (On or after August 8, 1946, and prior to April 1, 1948, the term "wages" included as compensation customarily scheduled overtime in the establishment where the veteran was employed.)

(b) When lodging, meals, laundry, or other services are furnished a person in training, the reasonable value of such services will constitute a part of the wages or salary for the purpose of determining the rate of compensation for productive labor, except that, if living quarters or meals are furnished to the employee-trainee for the convenience of the employer-trainer, the value thereof need not be computed and added to the compensation otherwise received by the employee-trainee for these purposes. A certification by the employer-trainer to this effect will be accepted by the Veterans' Administration for the purpose of subsistence allowance authorizations.

(c) All advancements, drawing accounts, allowances, commissions, bonuses, wages, or salaries paid to a veteran pursuing training in the field of insurance or other fields where the manner of employment compensation is similar are considered as compensation from productive labor. Any money advanced or paid as reimbursement to the veteran for his own actual training expenses incurred in connection only with the training phase of his course and which is not income from productive labor to be retained by the trainee as such is excepted and should not be reported as compensation for productive labor. Such training expense money must maintain a separate entity as expense as distinguished from income and particularly reported as such. Only such amounts as are actually expended for necessary expenses incurred in connection with the pursuit of the approved training program may be considered as such expense in determining the trainee's income from productive labor.

(d) Advertising and promotional expenses incurred by the trainee for the purpose of increasing sales (and hence his income) shall, in general, not be considered as necessary expense incurred in connection with the training phase of the veteran's program. They will not be deductible from amounts received or advanced by the employer-trainer but will be included in the computation and reporting of compensation for productive labor within the meaning of the law.

(e) In general, only those sums reportable by the trainee and or trainer-employer as expense rather than income to the Bureau of Internal Revenue for income tax purposes shall be considered as training expense as distinguished from compensation for productive labor.

(f) Christmas gifts in reasonable amounts, where such gifts are made by a firm or business establishment in the same amount to each employee, veteran and nonveteran alike, without regard to the length of service or wage or salary paid to the individual employee, need not be reported as income for productive labor.

2. In § 21.114, paragraphs (a) and (e) are amended to read as follows:

§ 21.114 *Repayment of value of training supplies; Part VIII, Veterans Regulation 1 (a), as amended (38 U. S. C. ch. 12 note).* (a) Supplies furnished a trainee are deemed released to him and should not be marked to indicate ownership by the United States. A trainee will not be required to repay the value of consumable supplies nor will he be required to pay the reasonable value of nonconsumable supplies in the event he fails to complete his course of education or training if he has turned them in to a school which effects recovery of nonconsumable supplies through contractural arrangements with the Veterans' Administration. In all other cases a trainee will not be required to pay the reasonable value of nonconsumable supplies in the event he fails to complete his course of education or training unless it be determined that his failure to do so was because of fault on his part and, in making such determination, the trainee will be given the benefit of any reasonable doubt. Determination of the presence or absence of fault will be made by the registration officer, and the findings will be filed in the R&E folder.

• • • • •

(e) When repayment is in order the veteran will be required to pay the value at which the nonconsumable supplies were issued to him less a percentage equivalent to the percentage of the term or period completed. For example, a veteran who discontinued training after completing one-third of a term during which supplies were issued would be required to repay two-thirds of the issue value. However, if no supplies were issued during such period, he would not be required to repay any amount. Under no circumstances will supplies be accepted in lieu of repayment.

• • • • •

[Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12 note. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500–1504, 1506, 1507, 58 Stat. 286, 300, as amended; 38 U. S. C. 693g, 697–697d, 697f, g, ch. 12 note)

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 855]

ALASKA

WITHDRAWING PUBLIC LAND FOR USE OF DEPARTMENT OF THE ARMY IN CONNECTION WITH ACTIVITIES OF ALASKA NATIONAL GUARD

By virtue of the authority vested in the President by section 1 of the act of March 12, 1914, 38 Stat. 305, 307 (48 U. S. C. 303), and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, including the rights of the public, if any, to the alley, the following-described public lands are hereby withdrawn from sale or other disposal and reserved for the use of the Department of the Army in connection with the activities of the Alaska National Guard:

EAST ADDITION TO ANCHORAGE TOWN SITE

Lots 1 to 12, inclusive, and the 20 foot alley in Block 32C as shown on the supplemental plat of survey of the East Addition to Anchorage Town Site accepted August 30, 1941.

It is intended that the lands described shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

OSCAR L. CHAPMAN,
Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 953]

HANDLING OF LEMONS GROWN IN CALIFORNIA AND ARIZONA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO REVISION OF RULES AND REGULATIONS

Notice is hereby given that the Department is considering the approval of a proposed revision, hereinafter set forth, of the rules and regulations (7 CFR 953.110 et seq.; Subpart—Lemon Administrative Committee rules and regulations; 16 F. R. 5530) that are currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 16 F. R. 5525), regulating the handling of lemons grown in California and Arizona. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). The revision of the said rules and regulations has been proposed by the Lemon Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof.

The proposed revision is as follows:

SUBPART—RULES AND REGULATIONS

DEFINITIONS

Sec.
953.100 General.
953.101 Marketing agreement.
953.102 Order.
953.103 Central points.
953.104 Storage facilities.

COMMUNICATIONS

953.110 Communications.

NOMINATION PROCEDURE

953.115 Time of nomination.
953.116 Manner of nomination.

PRORATE BASE AND ALLOTMENTS

Sec.
953.120 Application.
953.121 Advance credit count.
953.122 Computation of available lemons.
953.123 Allotment loans.
953.124 Overshipment tolerances.
953.125 Agreement with by-products manufacturers.

REPORTS

953.130 Reports.

DEFINITIONS

§ 953.100 *General.* Terms used in this subpart shall have the meaning as prescribed for such terms in the marketing agreement and order.

§ 953.101 *Marketing agreement.* "Marketing agreement" means Marketing Agreement No. 94, as amended, regulating the handling of lemons grown in the States of California and Arizona.

§ 953.102 *Order.* "Order" means Order No. 53, as amended (7 CFR Part 953; 16 F. R. 5525), regulating the handling of lemons grown in the States of California and Arizona.

§ 953.103 *Central points.* "Central points" shall mean the handler's packing house and such other facilities for the assembly of lemons as may be approved by the Manager of the Lemon Administrative Committee.

§ 953.104 *Storage facilities.* "Storage facilities" shall mean those facilities available to a handler for the purpose of curing and storing lemons, as outlined and defined on blueprints prepared under the direction of the Lemon Administrative Committee for each handler on the Prorate base having such facilities.

COMMUNICATIONS

§ 953.110 *Communications.* Unless otherwise prescribed in this subpart, or in the marketing agreement and order, or required by the Lemon Administrative Committee, all reports, applications, requests, and communications in connection with the marketing agreement and order shall be submitted to:

Lemon Administrative Committee, 111 West Seventh Street, Los Angeles 14, California.

NOMINATION PROCEDURE

§ 953.115 *Time of nomination.* The time of nominating members and alternate members of the Lemon Administrative Committee shall be not later than 20 days preceding the date of expiration of the terms of the members and alternate members of the said committee.

§ 953.116 *Manner of nomination.* The manner of nominating members and alternate members of said committee shall be as follows:

(a) Sunkist Growers, Inc., a California nonprofit cooperative marketing association with its principal place of business at Los Angeles, California, so long as it continues to market more than 60 percent of the total volume of lemons marketed in fresh form, as provided in the marketing agreement and order, shall by resolution adopted by its board of directors, nominate not less than 6 growers for 3 members and 6 growers for 3 alternate members of the committee.

(b) A meeting shall be held, at such time and place as may be designated by the agent of the Secretary, at which all cooperative marketing organizations, other than Sunkist Growers, Inc. (which includes its affiliated district exchanges and local associations), shall nominate not less than 2 growers for a member and 2 growers for an alternate member of the committee. The vote of each such organization shall be weighted by the quantity of lemons which is marketed in fresh form during the fiscal year (as defined in the marketing agreement and order), the end of which is nearest the date on which the meeting is held. Any person who votes at any such meeting shall submit to the agent of the Secretary written evidence of his authority to vote for such an organization.

(c) Not less than 5 and not more than 10 meetings shall be held, at such times and places, throughout the lemon-producing areas in California and Arizona, as may be designated by the agent of the Secretary, at which growers who are not members of, or affiliated with, the organizations included in paragraphs (a) and (b) of this section may vote. At each such meeting, the growers present shall nominate 1 grower. The number of ballots to be cast in selecting the nominee for each meeting shall be determined at the respective meeting. All growers voting at any such meeting shall submit their names and addresses to the agent of the Secretary.

(d) The name and address of the grower who has been selected at each of the grower meetings to be held pursuant to paragraph (c) of this section shall be placed on a ballot which shall be mailed to all growers of record, and otherwise made available to growers, who are not members of, or affiliated with, a cooperative marketing organization which markets lemons, with instruction to vote for only 1 grower whose name appears on the ballot, and to sign the ballot and return it within such reasonable time as may be determined by the agent of the Secretary.

(e) The agent of the Secretary shall give adequate notice of any meeting to be held pursuant to this section and of the voting for nominees by growers who are not members of, or affiliated with, a cooperative marketing organization, as provided in paragraph (d) of this section.

PRORATE BASE AND ALLOTMENTS

§ 953.120 *Application.* Each handler shall submit an application for a prorate base and allotment to the Lemon Administrative Committee at the beginning of each season. Each such application shall contain the following information on LAC Form 101, "Application for a prorate base and allotments":

(a) Name and address of applicant handler.

(b) The net cubical content of each box or container used by the applicant for the assembling or storage of lemons.

(c) Total acreage of lemons, bearing and nonbearing, which the applicant owns or has authority to market under written contract and estimated production of lemons therefrom for the current season.

(d) Location of the applicant's packing and storage facilities for lemons.

(e) Signature of the applicant.

§ 953.121 *Advance credit count.* Advance credit count computed under § 953.53 (d) on lemons to be exported other than to Canada shall be issued subject to the following conditions:

(a) Except on shipments to Mexico, advance credit count on export shipments may be computed but shall not be credited to the handler until after each box of lemons is packed in a container which is marked for export.

(b) With respect to each export shipment of lemons to Mexico, the handler shall obtain from the purchaser, at time of delivery of such lemons, a certification on LAC Form 11, to the United States Department of Agriculture and the Lemon Administrative Committee that such lemons are to be exported to Mexico and will not re-enter the United States or be re-shipped to Canada. Such certificate shall state the date of shipment, the quantity of lemons included in such shipment, the truck license number or other identification of the carrier of such lemons, and the signature and address of the purchaser. The certificate shall also be signed by the handler or his authorized representative and shall be submitted to the committee with the handler's next weekly report (§ 953.130 (c)).

(c) With respect to each sale of lemons to the Armed Forces for export, the handler shall complete LAC Form 12 "Certificate of Sale of Lemons for Export to the Armed Forces" showing the date of shipment, the quantity of lemons included in such shipment, their destination or port of departure, and the purchase order number. Such certificate shall be signed by the handler or his authorized representative and shall be submitted to the committee with the handler's next weekly report (§ 953.130 (c)).

(d) Except as provided in paragraphs (b) and (c) of this section, each handler shall submit to the committee, as soon as possible following each export shipment of lemons by such handler, a copy of the "on-board" bill of lading, or other shipping document acceptable to the committee, covering such shipment.

§ 953.122 *Computation of available lemons.* (a) Any handler requesting a computation of available lemons in accordance with § 953.53 (e) shall submit a written application to the Lemon Administrative Committee. This application shall be submitted not less than 5 days prior to the date as of which the computation of available lemons is to be made and shall include the following information on LAC Form 102:

(1) The lemon acreage and number of trees under control of the applicant during the current season, and for the two preceding seasons.

(2) An estimate of the current crop of lemons on the trees which are under control of the applicant.

(3) Description of facilities owned or controlled by the applicant for the assembling of lemons.

(4) Description of facilities suitable for the purpose of assembling lemons, which are available to the handler within the area of production.

(5) Record of the quantity of lemons picked, by weeks, during the current season and during the two preceding seasons.

(6) Record of the quantity of lemons disposed of, by weeks, in the following channels during the current season and during the two preceding seasons:

(i) Interstate commerce or Canada.
(ii) Intrastate commerce.
(iii) Exported.
(iv) Diverted to by-products uses.
(v) Disposed of otherwise.

(7) Description of marketing methods and policy followed by the applicant in the handling of lemons.

(8) Record of the quantity of lemons the applicant has in storage.

(9) Certification to the United States Department of Agriculture and the Lemon Administrative Committee that, except as set forth in the application, there are no facilities for the assembling and storage of lemons available to the handler.

(b) Each applicant shall submit to the Lemon Administrative Committee, upon request, such additional data and information as the committee may require in order to determine whether the applicant is entitled to a computation of available lemons under § 953.53 (e).

(c) The committee shall consider the evidence submitted by a handler pursuant to paragraphs (a) and (b) of this section to determine whether such evidence establishes unavailability of facilities.

(d) In the event such handler has no storage facilities, the unavailability of facilities is established.

(e) In the event such handler has storage facilities, the committee in making its determination shall consider such evidence to establish unavailability of facilities only if:

(1) The proportion of such handler's total tree crop which can be stored in his storage facilities is at least 33⅓ percent less than the proportion of the total tree crops of all handlers within his district that can be stored in the total storage facilities within such district;

(2) Such handler has diverted to by-products channels at least as large a percentage of his total volume marketed during the then current season to date as the average of such volume so diverted by all handlers within his district;

(3) Storage boxes of lemons are well filled;

(4) Storage boxes of lemons are stacked as high as is consistent with good industry practice (i. e., eleven boxes high or within one storage box of the ceiling);

(5) Aisles and all other temporary space are fully utilized; and

(6) The handler has certified to the United States Department of Agriculture and the Lemon Administrative Committee that, except as stated in his application, there are no facilities for the assembling and storage of lemons available to him.

(f) If the committee from the available information determines that the handler is entitled to a computation of his available lemons under § 953.53 (e), it shall compute for such handler the quantity of lemons available for current shipment during the applicable 2-week period which such handler would have picked and assembled if facilities were available to him; for handlers referred to in paragraph (e) of this section, the quantity of unharvested lemons included in said computation shall not exceed the total number of field boxes picked during the two weeks prior to the available lemon count date.

(g) In the event a handler previously has submitted an application for a computation of available lemons in accordance with paragraph (a) of this section, and desires to re-apply for such a computation, he may make such reapplication by submitting the following information with respect to the current season on LAC Form 103:

(1) The Lemon acreage and number of trees controlled by the applicant.

(2) Estimated crop of lemons so controlled.

(3) Lemon picks, by weeks, since the last week shown on previous application.

(4) Disposition of lemons, by weeks, since the last week shown on previous application.

(5) Quantity of lemons which the applicant has assembled.

(6) Certification to the United States Department of Agriculture and the Lemon Administrative Committee that, except as set forth in the previous application, there are no facilities for the assembling and storage of lemons available to him.

§ 953.123 *Allotment loans.* Allotment loans shall be deemed repaid if such loans fall due in a week during which there is no limitation on shipments of lemons.

§ 953.124 *Overshipment tolerances.* The overshipment tolerance provided in § 953.57 is not available to a handler during any week or weeks in which such handler is required to reduce the quantity of lemons which he may handle by reason of prior shipments of lemons in excess of his allotments therefor: *Provided*, That repayments of borrowed allotments shall not preclude a handler from claiming and using overshipment tolerances in cases where otherwise appropriate.

§ 953.125 *Agreement with by-products manufacturers.* By-products manufacturers may apply to the Lemon Administrative Committee on LAC Form 104, to be placed upon the committee's list of approved by-products manufacturers. Such application shall include:

(a) Name and address of applicant.

(b) An agreement that all lemons purchased by the applicant, on which the committee has issued advance credit count, will be used solely for manufacturing purposes.

(c) A statement indicating that it is understood that failure of the applicant to comply with the agreement prescribed in paragraph (b) of this section will cause removal of the manufacturer's name from the list of approved by-products manufacturers.

(d) Signature of the applicant.

REPORTS

§ 953.130 *Reports.* Handlers shall submit to the Lemon Administrative Committee the reports prescribed in this section. Unless otherwise prescribed on the report form, all lemons shall be reported in terms of packed "boxes" as defined in § 953.9. Where shipment is made in any manner other than in packed boxes, the lemons shall be converted to packed boxes on the basis of 79 pounds per packed box: *Provided*, That the following conversion factors may be used:

One box of fresh loose lemons (market pack) equals 81 percent of one packed box.

One box of by-products lemons equals 63.3 percent of one packed box.

Copies of report forms may be obtained from the committee.

(a) *Lemon diversion report (LAC Form 5).* Name and address of approved by-products plant or charitable organizations, or other diversion of lemons from fresh fruit channels; number of loose gross boxes and the advance credit count number of juice grade or non-juice grade lemons; net weights of juice grade and non-juice grade lemons, respectively, and total net weight of such lemons; and certification of handler and of receiver of such lemons. This report shall be submitted within 5 days following such diversion of lemons.

(b) *Certificate of assignment of allotment (LAC Form 6).* Certificates of assignment of allotment as provided for in § 953.63 shall be issued by the first handler at the time of each sale or transfer of any lemons which move by truck and which require prorate allotment. Each such certificate shall cover the total quantity of lemons so shipped and shall contain the following information: Date lemons are shipped; handler's invoice number when and if available; name of consignee (purchaser or receiver); destination (address of consignee); truck driver's name; truck driver's address; number of packed boxes of lemons covered by the assignment. Each such certificate shall be signed by the handler or his authorized agent and shall show the address of the handler issuing it. This report shall be submitted daily.

(c) *Weekly report (LAC Form 8).* The weekly report required by § 953.70 shall be submitted to the Lemon Administrative Committee on or before 12:01 p. m., P. s. t., Monday of each week, and shall contain the following information with respect to shipments of lemons during the preceding week:

(1) The total movement of fresh lemons subject to prorate in interstate commerce and intrastate commerce; quantities exported other than to Canada; quantities sold or disposed of to canners or by-products manufacturers; quantities shipped for distribution to persons on relief or donated for charitable institutions; and

(2) Detailed information concerning each shipment of lemons showing the number of packed boxes; whether shipped in interstate commerce or intrastate commerce or exported to destinations other than to Canada; and identification of the carrier (railroad car number or, if shipment is made by truck, the date and number of the certificate of assignment of allotment or, if exported to destinations other than Canada, the name of the steamship if known). This report shall be signed by the handler submitting it or his authorized agent.

All persons who desire to submit written data, views, or arguments for consideration in connection with such proposed revision of the rules and regulations should do so by forwarding the same to the Director, Fruit and Vegetable Branch, Production and Marketing Administration, Room 2077 South Building, Washington 25, D. C., not later than the tenth day after publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 18th day of July 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[7 CFR Part 961]

[Docket No. AO-160-A-14]

HANDLING OF MILK IN PHILADELPHIA, PA., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held concurrently with a hearing by the Pennsylvania Milk Control Commission, in Room 246, City Hall, Philadelphia, Pennsylvania, beginning at 10:00 a. m., e. d. s. t., August 12, 1952, for the purpose of receiving evidence with respect to the proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order as amended, for the Philadelphia, Pennsylvania, marketing area have been proposed as follows:

By Inter-State Milk Producers Cooperative, Inc.:

1. Consider the recommendations of a committee study on butterfat differentials, which would amend the order as follows:

(a) The basic test for quoting prices and calculating butterfat payments would be 3.7 percent;

(b) The producer or "pay out" differential would be 7 cents per point of fat at the present Class I price;

(c) The producer butterfat differential would change automatically with the annual level of the Class I price;

(d) The producer butterfat differential would fluctuate in 1 cent intervals;

(e) The Class I "pay in" differential and the producer "pay out" butterfat differential would be equal except as noted in paragraph (f);

(f) The Class I "pay in" differential for items containing less than 3 percent and items containing more than 6 percent butterfat would continue to be determined as at present;

(g) No change would be made in the present method of distributing among producers the "pay in" butterfat differential on Class II milk; and

(h) Grade A producers would continue to receive for milk testing more

than 3.7 percent, a butterfat differential 2 cents in excess of the differential on Grade B milk.

By Milk Distributors Association of the Philadelphia Area, Inc.:

2. That § 961.40 be opened to consider downward adjustments of the Class I prices set forth in the Class I price table to offset on a market wide basis any other upward adjustments that may be made in the Class I pay-in butterfat differentials.

3. That § 961.41 be opened to consider the adjustment of the price ranges for milk under 3 percent and over 6 percent in connection with other adjustments that may be made in the butterfat differentials.

4. That § 961.85 be opened to consider a downward adjustment of the butterfat premium of 2 cents on Grade A milk in connection with other adjustments which may be made in the butterfat differentials.

5. That adjustments be made elsewhere in the order as may be necessary to equalize any changes in the order that may be made as a result of the proposed hearing.

By Mifflin Creamery Company, Inc., Lancaster Milk Company, Chenango Farm Products Company, Inc., W. M. Evans Dairy Company, Inc., and Grover Farms, Inc.:

6. Amend § 961.43, the second proviso thereof to read: "*And provided further*, That in the case of Class I milk disposed of in an area where the handling of milk is regulated by another order of the Secretary the price effective under such other order shall apply, except that when disposed of in the New York metropolitan milk marketing area, the price for such milk shall be the Class II price pursuant to subparagraphs (1) (exclusive of the proviso) and (2) of § 961.40 (b)."

By the Dairy Branch, Production and Marketing Administration:

7. Reconsider § 961.43 (Class I milk disposed of outside the marketing area).

Copies of this notice of hearing, the said order, as amended, and the said tentative marketing agreement may be procured from the Market Administrator, 1612 Market Street, Philadelphia, Pennsylvania, or from the Hearing Clerk, United States Department of Agriculture, Room 1353, South Building, Washington 25, D. C., or may be there inspected.

Dated: July 18, 1952.

[SEAL] GEORGE A. DICE,
Acting Assistant Administrator.

DEPARTMENT OF STATE

[Public Notice 110, Delegation of Authority No. 57]

ASSISTANT ADMINISTRATOR, INFORMATION CENTER SERVICE, UNITED STATES INTERNATIONAL INFORMATION ADMINISTRATION

DELEGATION OF AUTHORITY TO MAKE AND ADMINISTER INFORMATION MEDIA GUARANTEES

JULY 14, 1952.

Pursuant to the authority vested in me by Department of State Public Notice 8 of May 26, 1949 (14 F. R. 2931), I hereby delegate to the Assistant Administrator, Information Center Service, United States International Information Administration, the following authority vested in the Secretary of State by section 2 (b) of Executive Order 10368 of June 30, 1952 (17 F. R. 5931): (1) to make information media guarantees under section III (b) (3) of the Economic Cooperation Act of 1948, as amended (22 U. S. C. 1509 (b) (3)), and section 536 of the Mutual Security Act of 1951, as amended; and (2) to administer such guarantees made prior to July 1, 1952.

W. K. SCOTT,
Acting Deputy Under Secretary for Administration.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[Public Notice 59, Supp. 2]

YUMA PROJECT, ARIZONA; CALIFORNIA VALLEY AND RESERVATION DIVISIONS

SUPPLEMENT TO PUBLIC NOTICE NO. 59, AUG. 22, 1947, OPENING PUBLIC LAND TO ENTRY AND ANNOUNCING AVAILABILITY OF WATER THEREFOR

JULY 9, 1952.

SECTION 1. *Lands for which water will be available.* Water will be available from and after July 9, 1952 for those irrigable public lands on the Valley Division of the Yuma Project shown on approved farm unit plats on file in the office of the District Manager, Lower Colorado River District, Yuma, Arizona, and in the Land and Survey Office, Bureau of Land Management, Phoenix, Arizona, which are described as follows:

GILA AND SALT RIVER BASE AND MERIDIAN, ARIZONA

TOWNSHIP 10 SOUTH, RANGE 25 WEST

Section	Farm unit	Description	Total irrigable acres
11	K	Lots 3 and 4, sec. 11; lot 19, sec. 12; lot 3, sec. 13; and lots 1 and 6, sec. 14	109.2

Application may be made in accordance with this supplement to Public Notice No. 59 dated August 22, 1947, beginning at 2 p. m., July 9, 1952, for a certificate of qualification which will entitle the holder to file an application for entry on the said public lands.

SEC. 2. *Extent to which provisions in Public Notice No. 59 applicable.* Except as otherwise provided in this supplement, the provisions of Public Notice No. 59 dated August 22, 1947, copies of which are available for inspection in the office of the District Manager, Lower Colorado River District, Yuma, Arizona; Regional Director, Bureau of Reclamation, Boulder City, Nevada; Commissioner, Bureau of Reclamation, Washington, D. C.; and the Land and Survey Office, Bureau of Land Management, Phoenix, Arizona, shall be applicable to applications filed hereunder. Application forms in which an applicant may express his desire to enter upon the above-described unit, certify that he considers himself qualified within the provisions of said public notice to enter the same, and indicate whether he claims veterans preference under section 3 of said notice, may be obtained from the above offices and must be filed with the District Manager, Bureau of Reclamation, Yuma, Arizona, before 2:00 p.m., October 7, 1952.

Applicants should not submit any proof or evidence of veterans status or of their qualifications, as provided in sections 3, 4 and 6 of said public notice until they are requested to do so by the Examining Board.

SEC. 3. *Procedure for award of farm unit.* The board will conduct a public drawing of the names of the applicants who in their application claim veterans preference under the provisions of section 3 of said notice. After the drawing a sufficient number of applicants, in the order of their priority as established in the drawing, will be supplied with forms on which to submit additional information corroborating their statements in the application, and showing that they meet the qualifications set forth in sections 4 and 5 of said public notice and, in case veterans preference is claimed, establishing proof of such preference, as set forth in section 3 of said public notice. Full and accurate answers must be made to all questions. The completed form, together with any attachments required, must be mailed or delivered to the District Manager, Bureau of Reclamation, Yuma, Arizona, within 30 days of the date the form is mailed to the last known address furnished by the applicant. Failure of an applicant to furnish all of the information requested or to see that information is furnished by his references within the period specified will subject his application to rejection.

SEC. 4. *Construction and other charges and payment thereof.* The initial charge which the applicant to whom an award is made will be required to remit pursuant to section 9a (iii) of said public notice is $9.43 for each irrigable acre of land in said unit in lieu of the initial charge of $5.93 mentioned in said section. Said initial charge of $9.43 consists of the first annual per-acre construction charge installment of $2.93 and $6.50 representing the second installment of the assessment of $15.50 per acre levied by the Yuma County Water Users' Association to meet operation and maintenance charges for the calendar year 1952 under its Public Notice No. 20. The first installment of said assessment, amounting to $9.00, has been paid by the lessee under the lease mentioned in section 5 hereof. According to said notice, payment of said assessment will permit the delivery of not to exceed 5 acre-feet of water per acre for the lands described in section 1 hereof. The applicant's share of said water shall, under the Association's present policy, be limited to the balance which shall remain unused by said lessee as of June 30, 1952. According to said notice, additional water will be available to the applicant at the rate of $1.50 per acre-foot.

The construction charge of $85.00 for each irrigable acre contained in said farm unit shall become due and payable to the United States as follows: $2.93 by inclusion in said initial charge; $2.83 on December 1, 1953; and $2.83 on December 1 of each year thereafter to and including December 1, 1981.

The Association is operating and maintaining certain of the irrigation and drainage works and other appurtenant structures utilized for the benefit of lands in the Valley Division pursuant to a contract between the United States of America and the Association dated June 15, 1951, copy of which is available for inspection at the office of the District Manager, Bureau of Reclamation, Yuma, Arizona.

OSCAR L. CHAPMAN,
Secretary of the Interior.

[Commissioner's Order 18]

ASSISTANT COMMISSIONERS OF RECLAMATION

REDELEGATION OF AUTHORITY FOR EXECUTION OF CONSTRUCTION, SUPPLY, AND SERVICE CONTRACTS

JULY 14, 1952.

Pursuant to the authority contained in section 50 of Departmental Order No. 2509 (14 F. R. 306), subject to applicable regulations and available appropriations, the Assistant Commissioners of Reclamation are severally authorized, irrespective of amounts involved:

a. To approve, award, and execute contracts for construction, supplies, or services.

b. To approve and execute change orders and extra work orders pursuant to contracts for construction, supplies, or services.

c. To approve and enter into modifications of contracts for construction, supplies, or services, which are legally permissible.

d. To terminate contracts for construction, supplies, or services, if such action is legally authorized.

e. Except in those cases in which the Commissioner or an Assistant Commissioner is the contracting officer, to act, with respect to contracts entered into on United States standard forms, as the authorized representative of the Secretary within the meaning of Articles 3 and 4 of Form No. 23 (Revised April 3, 1942), and Article 2 of Form No. 32 (Revised June 18, 1935), and, for the purpose of extending the time within which a contractor may notify a contracting officer of the causes of delay, Article 9 of Form No. 23 (Revised April 3, 1942), Article 5 of Form No. 32 (Revised June 18, 1935), and Condition 4 of Form No. 33 (Revised January 17, 1939).

MICHAEL W. STRAUS,
Commissioner.

Office of the Secretary

, ALASKA

NOTICE FOR FILING OBJECTIONS TO ORDER WITHDRAWING PUBLIC LAND FOR USE OF DEPARTMENT OF THE ARMY IN CONNECTION WITH ACTIVITIES OF ALASKA NATIONAL GUARD[1]

For a period of 60 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

OSCAR L. CHAPMAN,
Secretary of the Interior.

DEPARTMENT OF COMMERCE

Federal Maritime Board

TRANS-PACIFIC PASSENGER CONFERENCE ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Trans-Pacific Passenger Conference:

Agreement No. 131-216, between the regular Member Lines of the above named Conference, modifies the basic agreement of that Conference (No. 131) to bring the By-Law governing the classification of the lines into membership groups in line with recently approved modification of the geographical scope of the Conference agreement.

North Atlantic Red Sea & Gulf of Aden Freight Conference:

Agreement No. 7530-2 between the member lines of the above named Conference modifies Article 1 of the basic agreement of said Conference (No. 7530) by extending the geographical scope of the agreement to include the trade from Gulf and South Atlantic ports to Suez and ports on the Red Sea and Gulf of Aden. Agreement No. 7530 presently covers the trade from U. S. North Atlantic ports (Hampton Roads/Portland range) to Suez and ports on the Red Sea and Gulf of Aden.

Middle East Mediterranean Westbound Freight Conference:

Agreement No. 7880-1 between the member lines of the above named Conference modifies the basic agreement of said Conference (No. 7880) by enlarging the range of ports on the U. S. Atlantic Coast covered by the agreement from "Hampton Roads/Portland, Maine, range" to "Charleston, S. C./Portland, Maine, range". Agreement No. 7880

presently covers the trade from Egyptian, Palestinian, Syrian, Lebanese, Latakian, Grecian, Turkish, Russian (Black Sea), Bulgarian and Roumanian Ports, and from the Islands in the Eastern Mediterranean to North Atlantic ports of the United States, in the Hampton Roads/Portland, Maine, range.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: July 18, 1952.

By order of the Federal Maritime Board.

FEDERAL POWER COMMISSION

[Docket Nos. G-1921, G-1922, G-1969]

TENNESSEE GAS TRANSMISSION CO. AND NIAGARA GAS TRANSMISSION LTD.

ORDER FIXING DATE OF HEARING

JULY 16, 1952.

In the matters of Tennessee Gas Transmission Company, Docket No. G-1921; and Niagara Gas Transmission Limited and Tennessee Gas Transmission Company, Docket Nos. G-1922, G-1969.

On July 1, 1952, the Commission consolidated proceedings on the joint application of Tennessee Gas Transmission Company and Niagara Gas Transmission Limited in Docket No. G-1921 and those on the applications of Tennessee Gas Transmission Company in Docket Nos. G-1922 and G-1969 and ordered a hearing thereon at a time and place to be fixed by further order of the Commission.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 3, 7, and 15 of the Natural Gas Act and Executive Order No. 8202 dated July 13, 1939, and the Commission's rules of practice and procedure, a public hearing be held commencing on August 6, 1952, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, Hurley Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the aforesaid applications.

Date of issuance: July 17, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-8043; Filed, July 22, 1952; 8:50 a. m.]

[Docket No. G-1964]

TEXAS EASTERN TRANSMISSION CORP.

ORDER FIXING DATE FOR ORAL ARGUMENT ON MOTION AND FOR FILING BRIEFS

JULY 16, 1952.

On July 7, 1952, Commission staff counsel filed a motion in the above-entitled proceedings for an order dismissing Texas Eastern Transmission Corporation's proposed FPC Gas Tariff, First Revised Volume No. 1, and First Revised Sheets Nos. 77 and 78 to its FPC Gas Tariff, Original Volume No. 1, and dismissing the proceedings. Additionally, staff counsel prayed that the motion be set for oral argument and that a date be fixed for the filing of briefs or memoranda of law with respect to the motion.

The Commission finds: It is necessary or appropriate to carry out the provisions of the Natural Gas Act that the motion of Commission staff counsel be set for oral argument and that Commission staff counsel and each party to the proceeding in Docket No. G-1964 be given an opportunity to file a memorandum of law or brief with respect to said motion as hereinafter ordered.

The Commission orders:

(A) The motion of Commission staff counsel filed July 7, 1952, be set for argument before the Commission and orally argued on July 28, 1952, at 10 a. m., e. d. s. t., in the Hearing Room, Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., and that Commission staff counsel and each party to the proceeding may file a memorandum of law or brief with respect to said motion on or before July 23, 1952.

(B) Parties to this proceeding who intend to participate in the oral argument shall so notify the Secretary of the Commission on or before July 23, 1952, and of the time requested for presentation of their argument.

Date of issuance: July 17, 1952.

By the Commission. Commissioner Draper dissenting.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-8044; Filed, July 22, 1952; 8:50 a. m.]

[Docket No. G-1977]

LOPENO GAS CO.

ORDER FIXING DATE OF HEARING

JULY 16, 1952.

On June 19, 1952, Lopeno Gas Company (Applicant), a Texas corporation having its principal place of business at Dallas, Texas, filed an application, which was supplemented on July 14, 1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the operation of certain natural-gas transmission facilities, subject to the jurisdiction of the Commission, all as more fully described in said application on file with the Commission and open to public inspection.

Applicant has represented that it proposes to remove approximately 25 miles of 8-inch, 10-inch, and 12-inch pipe from its existing transmission system in connection with the operations proposed in its application, as supplemented, and that said pipe has been sold to Utilities Natural Gas Company to be used by the latter, along with other pipe, in the construction of a pipeline to supply an electric utility customer in Victoria, Texas.

Applicant further represents that construction of said pipeline has been started and all available pipe has been laid. Construction of said pipeline has been halted awaiting the delivery of pipe from Applicant's existing line. Applicant states that any delay in delivery of pipe which it has sold to Utilities Natural Gas Company will result in failure to institute service by the latter company on August 1, 1952, in accordance with its contract for service.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure for shortened proceedings, and no request to be heard, protest, or petition has been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on June 28, 1952 (17 F. R. 5480).

The Commission finds:

(1) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(2) It is reasonable and in the public interest and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held on July 28, 1952, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the application, as supplemented: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by § 1.8 and § 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: July 17, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-8023; Filed, July 22, 1952; 8:48 a. m.]

[Docket No. G-1991]

MISSISSIPPI RIVER FUEL CORP. AND TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

JULY 17, 1952.

Take notice that on July 2, 1952, Mississippi River Fuel Corporation (Mississippi) and Texas Eastern Transmission Corporation (Texas Eastern), Delaware corporations with their principal places of business at St. Louis, Missouri, and Shreveport, Louisiana, respectively, filed a joint application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of certain natural-gas transmission pipeline facilities hereinafter described for the transportation and sale of natural gas subject to the jurisdiction of the Commission.

Applicants propose to establish an interconnection between their respective natural-gas systems at a point near Bald Knob, Arkansas, by the construction by Mississippi of approximately 2,000 feet of 10-inch pipeline extending from a point north of its West Point compressor station to the suction side of Texas Eastern's compressor station No. 6, at which point of interconnection Mississippi proposes to construct and operate a meter station and Texas Eastern to install appurtenant facilities.

By means of such facilities, Mississippi proposes to deliver and sell to Texas Eastern near Bald Knob such quantities of gas as may be requested from time to time by The East Ohio Gas Company (East Ohio), a Rate Schedule TLS (Temporary Limited Service) customer of Texas Eastern, but not exceeding the quantity (1) which is available for sale in Mississippi's system at Bald Knob after the requirements of its regular customers, both firm and interruptible, are met: *Provided, however*, That Mississippi's obligation to deliver shall not exceed 35,000 Mcf per day, and (2) which Texas Eastern can transport to the point of delivery to East Ohio without impairment of its existing obligations.

It appears that, in accordance with the terms of a contract between Mississippi, Texas Eastern, and East Ohio, dated June 26, 1952 (Exhibit No. 1 to the application), Mississippi is to sell and Texas Eastern to transport, natural gas to East Ohio in the volumes noted above. Applicants state that Mississippi will deliver its gas into the Texas Eastern system at a price of 17 cents per Mcf, and Texas Eastern will transport the gas at a charge of 7 cents per Mcf, resulting in a total cost to East Ohio of 24 cents per Mcf which is equal to its cost of gas presently under contract for storage purposes under Rate Schedule TLS. The tripartite agreement is to terminate by its terms on October 31, 1952.

The estimated total cost of the facilities proposed is $17,300.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of August 1952. The application is on file with the Commission for public inspection.

[F. R. Doc. 52-8045; Filed, July 22, 1952; 8:51 a. m.]

[Docket No. G-1995]

MISSISSIPPI RIVER FUEL CORP.

NOTICE OF APPLICATION

JULY 17, 1952.

Take notice that Mississippi River Fuel Corporation (Mississippi River), a Delaware corporation, having its principal place of business at St. Louis, Missouri, filed on July 9, 1952, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the construction and operation of transmission, metering, and regulating facilities for the purpose of rendering natural-gas service to Union Electric Company of Missouri in Jefferson County, Missouri. Mississippi proposes to sell and deliver natural gas, on an interruptible basis, to Union Electric for firing boilers in an electric power plant of that company.

The estimated cost of the facilities is stated to be $140,690. Mississippi River states that it will finance such cost from cash on hand.

In addition to the aforementioned application, Mississippi River petitions the Commission for the issuance of a declaratory order, pursuant to § 1.7 (c) of the Commission's rules of practice and procedure, declaring that the construction and operation of the facilities proposed to be constructed and operated for the purpose of rendering the sale of natural gas as hereinbefore described, does not come within the purview of the Commission's "certificate jurisdiction under section 7 of the Natural Gas Act as amended."

The application and petition are on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of August 1952.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the Bank Deutscher Laender, Frankfurt/Main, Germany, on or about June 28, 1952, shipped to the Federal Reserve Bank of New York United States currency in the amount of $5,995.00;

2. That the persons who own the property described in subparagraph 3 hereof, who if individuals there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and which, if corporations, partnerships, associations or other business organizations, there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were, organized under the laws of and had their principal places of business in Germany, are and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That the property described as follows: United States currency in the aggregate amount of $5,995.00 shipped on or about June 28, 1952, by the Bank Deutscher Laendar, Frankfurt/Main, Germany, to the Federal Reserve Bank of New York and presently in the custody of the Federal Reserve Bank of New York,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the persons referred to in subparagraph 2 hereof, the aforesaid nationals of a designated enemy country (Germany);

and it is hereby determined:

4. That the national interest of the United States requires that the persons referred to in subparagraph 2 hereof, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 17, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS, *Acting Director, Office of Alien Property.*

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter F—Miscellaneous Regulations

[FHA Instruction 123.2]

PART 387—SALE OF ABSTRACTS OF TITLE

Sec.
387.1 General.
387.2 Sales authority.
387.3 Sales.

AUTHORITY: §§ 387.1 to 387.3 issued under sec. 203 (c), 63 Stat. 385; 40 U. S. C. 484 (c). Interpret or apply sec. 203 (a), (b), 63 Stat. 385; 40 U. S. C. 484 (a), (b).

§ 387.1 *General.* Government-owned abstracts of title covering lands in which the Government no longer has any interest will be considered surplus personal property and sold. By memorandum dated February 27, 1952, the Administrator, General Services Administration, authorized the Secretary of Agriculture to dispose of surplus property abstracts under his jurisdiction without further report of such abstracts to that Administration.

§ 387.2 *Sales authority.* State Directors, State Field Representatives, and County Supervisors are authorized to dispose of surplus abstracts of title as outlined in this part. Area Finance Office officials have negotiated sales authority.

§ 387.3 *Sales.* Sales of surplus abstracts of title will be for cash and generally will be negotiated in cases where the reasonable recovery value involved in any one sale does not exceed $500. In the event it appears that the reasonable recovery value in any one sale will exceed $500, it is required that such abstracts be advertised for sale. All abstracts covering land owned by a particular individual may be sold to him as a unit, even though they cover separate, non-contiguous tracts. When the property owner has evidenced no interest in buying them, such abstracts may be sold as a unit to abstract companies or to others.

(a) *Negotiated sales.* When equal offers are received from owners and others, the sale should be made to the owners. In those cases where an abstract covers a tract of land which has been subdivided, and the land interests are held by several parties, determination should be made as to whether they wish to purchase the abstract jointly. If all of them are not interested in making a joint purchase of the abstract, the abstract may be sold to any one or more of the several owners who are interested in buying it.

(b) *Advertised sales.* If there should be cases where it appears that the reasonable recovery value of surplus abstracts of title in any one sale will exceed $500, the Area Finance Office will furnish the State Office with the required invitation to bid forms and necessary instruction for handling the

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

REVISED BOOKS

TITLE 32 of the Code of Federal Regulations

Title 32, containing the regulations of the Department of Defense and other related agencies, has been completely revised. Originally a single book, Title 32 is being reissued as two books as follows:

Parts 1–699 ($5.00)
Part 700 to end (to be announced)

These books contain the full text of regulations in effect on December 31, 1951

Order from
Superintendent of Documents, Government Printing Office, Washington 25, D. C.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 58—GRADING AND INSPECTION OF DAIRY PRODUCTS

APPLICATION AND CONTRACT OF AGREEMENT

The United States Department of Agriculture hereby issues a revised form of application for grading service on a written agreement basis, as hereinafter set forth. This form of application shall supersede, with respect to dairy products, the currently effective Application and Contract of Agreement for Grading Service, Forms DA–154 and DA–154–1, issued under the regulations governing the Sampling, Grading, Grade Labeling, and Supervision of Packaging of Butter, Cheese, and Eggs (7 CFR Part 55).

Whenever any person desires grading service to be rendered by the Administration at any plant for class, quality, or condition of butter, cheese, or other manufactured or processed dairy products, pursuant to applicable regulations (7 CFR Part 58) of the Department, he may apply for such service by submitting to the Administrator, a properly completed application, in triplicate, in the form herein set forth. Upon approval of the application by the Administrator, it shall become the agreement providing for grading service at such plant or plants. Those firms now under contract will be required to execute the revised form prior to the date this application and contract of agreement becomes effective. This application form specifies the terms and conditions under which service shall be performed (including the extent of financial obligations to be assumed by the applicant) in accordance with the aforesaid regulations. Such regulations are currently operative pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et. seq.) and the Department of Agriculture Appropriation Act of 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952).

The Department finds that it is impractical, unnecessary, and contrary to public interest to give preliminary notice, engage in public rule-making, or postpone the effective date of this application and contract of agreement until thirty (30) days after publication in the FEDERAL REGISTER for the reasons that (1) no purpose would be served thereby, because the revised form of application and contract of agreement contains essentially the same provisions, with slight revisions and additions with respect to dairy products, as the application and contract of agreement currently in effect; (2) the total charges for service are revised slightly upward to provide additional revenue calculated to cover current operating deficiencies and, therefore, a delay would be adverse to program efficiency; (3) the charges are reasonable, and as nearly as may be to cover the cost of the service rendered as required by the aforesaid Department of Agriculture Appropriation Act of 1953; and (4) no additional requirements are included with respect to applicants' compliance with the regulations; therefore, this revised form of application and contract of agreement here issued is to become effective August 1, 1952.

The form of application and contract is as follows:

APPLICATION AND CONTRACT OF AGREEMENT

§ 58.201 *Form of application and contract of agreement for dairy products grading service on a written agreement basis.* Whenever any person desires grading service at a plant, pursuant to § 58.47 of the regulations, he shall apply for such service, on a written agreement basis, by submitting to the Administrator a properly completed application, in triplicate, in the following form:

APPLICATION AND CONTRACT OF AGREEMENT FOR DAIRY PRODUCTS GRADING SERVICE

Application is hereby made, in accordance with the applicable provisions of the regulations (7 CFR Part 58) governing the grading, inspection, sampling, grade labeling, and supervision of packaging of butter, cheese, and other manufactured or processed dairy products, for grading service at the following designated plant or plants:

Name of plant _____
Street address _____
City and State _____
Product _____
Service _____
_____

(a) Upon approval of this application by the Production and Marketing Administration, United States Department of Agriculture (hereinafter referred to as "PMA"), PMA will furnish grading service in accordance with the terms and conditions hereof.

(b) In making this application, the applicant agrees to comply with the terms and conditions of the aforesaid regulations (including such applicable instructions as may be issued from time to time by the Administrator), and such other terms and conditions as hereinafter enumerated.

(c) The applicant agrees to pay to PMA an amount equal to the full cost of the grading service rendered hereunder upon presentation of an invoice rendered by PMA for each calendar month. The full cost shall comprise such of the following items as may be due and may properly be included, from time to time, in the invoice or invoices covering the period or periods during which the grading service may be rendered:

(i) A charge for each plant survey to be computed on the basis of (1) the number of hours used in making the survey at the hourly rate specified in the Regulations, and (2) the actual cost to the Administration of the applicable travel and per diem expenses incurred;

(ii) An installation charge of $50.00 to cover costs incurred by PMA in connection with the inauguration of the grading service and assignment of a Federal employee or licensee to the designated plant;

(iii) A charge equal to the gross salary costs incurred by PMA for each Federal employee or licensee assigned to the applicant's plant by PMA, including earned annual leave, and, if necessary, earned sick leave: *Provided*, That, no charge is to be made for salary costs for any assigned Federal employee or licensee at the designated plant while said employee or licensee is temporarily reassigned by PMA to perform grading service for other than the applicant;

(iv) A charge equal to the salary costs, travel and per diem expenses, including earned annual leave, incurred by PMA for any Federal employee or licensee whose services are required for relief purposes when the regularly assigned person is on annual or sick leave;

(v) A charge equal to the actual cost to PMA for any travel and per diem expense, or other expense, incurred by any Federal employee or licensee assigned to the plant while in the performance of grading service rendered the applicant;

(vi) A charge of an amount, not in excess of the actual cost to PMA, for the travel (including the cost of movement of household goods and dependents) and per diem expense with respect to each Federal employee who is transferred from an official station to the designated plant. Any such costs shall be subject to the concurrence of the applicant;

(vii) A charge included in salary costs, when applicable, equal to the Employer's Tax Imposed under the United States Internal Revenue Code (26 U. S. C.) for Old Age and Survivor's Benefits under the Social Security System;

(viii) A charge in an amount equal to six and one-half percent (6½%) of the above said charges prescribed in (iii), (iv), and (v) hereof to cover the approximate cost incurred by PMA for fiscal, personnel, and budget services applicable to the Federal employee assigned; and

(ix) An administrative service charge per calendar month for each Federal employee or licensee, which shall be computed as follows:

(1) For each grader or inspector in charge and regularly employed in the work	$50.00
(2) For each assistant grader or inspector regularly employed in the work	20.00
(3) For each sampler regularly employed in the work	45.00
(4) For each assistant sampler regularly employed in the work	20.00

(5) During any calendar month when no grader, inspector, or sampler is assigned (after inauguration of the service), a minimum service charge of twenty dollars ($20.00) per month shall apply.

(d) Grading service on a contract basis under the terms hereby indicated shall be for not less than a period of two calendar months.

(e) The applicant shall designate, in writing, the employees of the applicant who will be required and authorized to furnish each Federal employee or licensee with such information as may be necessary for the performance of the grading service.

(f) The applicant shall confirm, in writing, his concurrence with the salary, work week, overtime (when required), annual and sick leave allowances, and other working conditions pertaining to the Federal employee or licensee assigned.

(g) The applicant shall furnish office space for the person assigned and such stenographic and clerical assistance as may be necessary in typing certificates and handling correspondence in connection with the grading service covered hereby.

(h) The applicant agrees to employ such manufacturing or processing methods and provide such facilities and equipment for handling, inspecting, grading, sampling, and identifying the product as may be necessary to conform to the Instructions of PMA. It is agreed that:

(a) PMA will authorize or license an adequate number of persons to perform the grading service covered hereby;

(b) PMA shall not be responsible for damages accruing through any acts of commission or omission on the part of any Federal employee or licensee;

(c) The provisions hereof shall continue in full force and effect from the effective date until suspended, withdrawn, or terminated, by (i) mutual consent of the applicant and PMA; (ii) written notice given by either party to the other to take effect on a specific date not less than 30 days from the date of the giving of such notice; (iii) one (1) day's written notice by PMA to the applicant, if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service as herein provided; or (iv) termination of the services requested herein pursuant to the provisions in the following paragraph (d);

(d) The services to be rendered hereunder shall be terminated by PMA at any time PMA, acting pursuant to any applicable laws, rules, or regulations, debars the applicant from receiving any further benefits of the service, or the services hereunder may be suspended or terminated at any time PMA concludes that the applicant has not conformed, or cannot conform, hereto;

(e) All terms used herein shall have the same meaning as when used in the aforesaid Regulations and Instructions;

(f) A Federal employee or licensee will be required to confine his activities to those duties necessary in the rendering of grading service and such closely related activities as may be approved by PMA: *Provided*, That, in no instance will the Federal employee or licensee assume the duties of management;

(g) No member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this agreement or to any benefit that may arise therefrom unless derived through the agreement made with a corporation for its general benefit.

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

CIGAR-FILLER AND BINDER TOBACCO MARKETING QUOTA REGULATIONS, 1953-54 MARKETING YEAR

Correction

In F. R. Doc. 52-7965, appearing at page 6619 of the issue for Saturday, July 19, 1952, the following changes should be made:

1. In § 723.419 (a), the word "which" should be inserted between the words "farm" and "in" in the first line of the third column on page 6620.

2. The word "under" should be inserted between "made" and "§§ 723.411" in the headnote for § 723.427, so that the headnote now reads:

§ 723.427 *Approval of determinations made under §§ 723.411 to 723.426.*

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 813, Amdt. 2]

PART 813—SUGAR QUOTAS AND PRORATIONS OF QUOTA DEFICITS

1952 DETERMINATION AND PRORATION OF AREA DEFICIT

Basis and purpose. This amendment is issued pursuant to the Sugar Act of 1948 for the purpose of prorating a Domestic Beet Sugar Area deficit which is hereby determined. Section 204 (a) of the act provides that the Secretary shall from time to time determine whether any domestic area, the Republic of the Philippines, or Cuba will be unable to market its quota. If he so finds with respect to the Domestic Beet Sugar Area, the quotas for other domestic areas and Cuba are required to be revised by prorating to such areas an amount of sugar equal to any deficit so determined on the basis of their existing quotas.

The Sugar Act provides that the quota for any domestic area, the Republic of the Philippines, Cuba, or other foreign countries as established under the provisions of section 202 shall not be reduced by reason of any determination of a deficit and makes the proration of any such deficit to areas able to supply the additional sugar a mere mathematical computation. Hawaii is excluded from the proration because it appears certain that its production and shipping prospects will not make possible the utilization of additional quota in 1952.

In order to afford sellers of sugar in effected areas an adequate opportunity to market the additional sugar authorized by this amendment, and thereby protect the interest of consumers, it is essential that this amendment be made effective immediately. Therefore, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act is unnecessary, impracticable and contrary to the public interest and the amendment herein shall become effective on the date of its publication in the FEDERAL REGISTER.

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (61 Stat. 922, 7 U. S. C. Sup. I, 1100) and the Administrative Procedure Act (60 Stat. 237) Sugar Regulation 813 (16 F. R. 13032) is hereby amended by adding paragraphs (c) and (d) to § 813.33, to read as follows:

§ 813.33 *Determination and proration of area deficits.* • • •

(c) *Deficit in quota for the Domestic Beet Sugar Area.* It is hereby determined, pursuant to subsection (a) of section 204 of the act, that for the calendar year 1952 the Domestic Beet Sugar Area will be unable by an amount of 200,000 short tons of sugar, raw value, to market the quota established for that area in § 813.32.

(d) *Proration of deficit in quota for the Domestic Beet Sugar Area.* An amount of sugar equal to the deficit determined in paragraph (c) of this section is hereby prorated, pursuant to subsection (a) of section 204 of the act, as follows:

Area:	*Additional quota in terms of short tons, raw value*
Mainland cane sugar	24,810
Puerto Rico	45,155
Virgin Islands	298
Cuba	129,737
	200,000

Statement of bases and considerations. The estimate of production of sugar from sugar beets to be harvested in 1952, issued by the Department on July 10, 1952, is 1,471,000 short tons, raw value, compared to 1,552,000 tons a year earlier. The current forecast of the 1952 crop assumes average growing conditions for the remainder of the season and average recovery of sugar per ton of sugar beets. The great bulk of the sugar will be produced after September 1, 1952, and most of it will be marketed after January 1, 1953. Beet processors held inventories at the beginning of 1952 of about 1,175,000 tons and by June 30 had distributed about 742,000 tons. Examination of these inventory, production and marketing data in relation to comparable data for previous years indicate that the domestic beet sugar area will probably not distribute more than 1,600,000 short tons of sugar, raw value, in the calendar year 1952.

Declaration of this Domestic Beet Sugar Area deficit of 200,000 short tons, raw value, is consistent with the policy of taking such actions whenever the progress of the crop and the availability of statistics regarding it make possible a reasonably accurate quantitative estimate of the deficit.

Exclusion of Hawaii from the proration of deficit. The production of sugar in Hawaii in 1952 will make available for shipment to the mainland no more than the statutory quota for this area. Accordingly, none of the deficit declared in this action is prorated to Hawaii.

After giving effect to the changes set forth in this amendment to Sugar Regulation 813, the quotas for all areas are as follows:

BASIC QUOTAS, PRORATIONS OF DEFICIT AND ADJUSTED QUOTAS FOR 1952

[Short tons, raw value]

Production area	Basic quota	Proration of deficits: Philippine	Proration of deficits: Beet	Adjusted quota
Domestic beet sugar	1,800,000		(200,000)	[1] 1,600,000
Mainland cane sugar	500,000		24,810	524,810
Hawaii	1,052,000			[2] 1,052,000
Puerto Rico	910,000		45,155	[3] 955,155
Virgin Islands	6,000		298	6,298
Philippines, Republic of	974,000	(280,000)		[4] 774,000
Cuba	2,424,971	100,000	129,737	[5] 2,744,308
Other foreign countries:				
Belgium	197.4			197.4
Canada	378.5			378.5
China and Hongkong	193.3			193.3
Czechoslovakia	176.6			176.6
Dominican Republic	4,473.7	[6] 2,495.8		7,169.5
Dutch East Indies	141.8			141.8
Guatemala	224.6			224.6
Haiti	618.3	[6] 372.6		990.9
Honduras	2,302.7			2,302.7
Mexico	4,046.7	[6] 2,438.5		6,485.2
Netherlands	140.6			140.6
Nicaragua	6,857.1			6,857.1
Peru	7,456.2	[6] 4,493.1		11,949.3
Salvador	5,507.0			5,507.0
United Kingdom	295.2			295.2
Venezuela	194.5			194.5
Other countries	28.8			28.8
Unallotted reserve	250.0			250.0
Subtotal	33,426.0	10,000.0		43,426.0
Total	7,700,000			7,700,000

[1] In accordance with sec. 204 (c) of the act the basic quotas are not impaired by determinations of deficits.
[2] The following quantities may be entered as direct-consumption sugar: Hawaii, 29,616 tons; Puerto Rico, 126,633; Philippines, 59,925; Cuba, 375,000.
[3] May be filled with raw sugar for further processing only.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup., 1153)

Done at Washington, D. C., this 18th day of July 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN, *Secretary.*

[Sugar Reg. 814.7, Amdt. 1]

PART 814—ALLOTMENT OF SUGAR QUOTAS

PUERTO RICO, 1952

Basis and purpose. This amendment is issued under section 205 (a) of the Sugar Act of 1948 (hereinafter called the "act") for the purpose of revising § 814.7 (17 F. R. 2477) which allots the 1952 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar transferred for further processing and shipment within the direct-consumption portion of such quota) and the 1952 sugar quota for local consumption in Puerto Rico among persons (1) whose Puerto Rican raw sugar is brought into the continental United States or who transfer such sugar for further processing and shipment to the continental United States as direct-consumption sugar, and (2) who market sugar for local consumption in Puerto Rico.

The sugar quota for Puerto Rico for consumption in the continental United States is referred to herein as "mainland quota" and allotments thereof are referred to as "mainland allotments." The sugar quota for consumption in Puerto Rico and allotments thereof are referred to respectively as "local quota" and "local allotments."

Amendment 2 to Sugar Regulation 813 (7 CFR Part 813)[1] increased the mainland quota for Puerto Rico by 45,155 short tons, raw value, to a total of 955,155 short tons, raw value. As established in Sugar Regulation 814.7 issued March 19, 1952 (17 F. R. 2477), representatives of all allottees stipulated for the record of the hearing with respect to allotment of the 1952 quotas for Puerto Rico, or subsequently in writing, that any increase in the 1952 sugar quotas after the initial allotment order shall be allotted, without further hearing, on the same basis as the initial allotments were made. The initial order allotted 80 percent of the quotas pending availability of final 1951-52-crop production data. Such data is not yet available for all allottees. This docket accordingly allots 80 percent of the larger quota.

[1] See F. R. Doc. 52-8094, *supra*.

Since a number of allottees have already marketed their previous allotments, they are precluded from marketing additional quantities of sugar until this amendment becomes effective. It is imperative, therefore, that this amendment become effective at the earliest possible date in order to permit continued orderly marketing of sugar. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237), is impracticable and contrary to the public interest and, consequently, this order shall be effective when published in the FEDERAL REGISTER.

Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, paragraph (a) of § 814.7 is hereby amended to read as follows:

§ 814.7 *Allotments of 1952 sugar quotas for Puerto Rico*—(a) *Allotments.* Eighty percent of the 1952 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar to be further processed and marketed within the direct-consumption portion of such quota), amounting to 764,124 short tons of sugar, raw value, and 80 percent of the 1952 sugar quota for local consumption in Puerto Rico, amounting to 80,000 short tons of sugar, raw value, are hereby allotted to the following processors in amounts which appear in columns (1) and (2) opposite their respective names:

[Short tons, raw value]

Processor	Mainland allotment	Local allotment
Antonio Roig, Sucesores, S. en C.	18,591	16,562
Arturo Lluberas, (estate of) y Sobrinos (San Francisco)	3,255	1,136

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53050]

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

FEES FOR RECORDING INSTRUMENTS OF TITLE FOR VESSEL

In order to provide for a more expeditious and economical method of computing fees required for recording certain instruments of title and related instruments under the Ship Mortgage Act, 1920, as amended (46 U. S. C. 911, et seq.), § 4.98 (g), Customs Regulations of 1943 (19 CFR 4.98 (g)), is amended to read as follows:

§ 4.98 *Navigation fees.* • • •

(g) In computing the amounts to be collected under Fee 7:

(1) The word "folio" shall mean 100 words, counting each figure as a word (R. S. 854). No charge shall be made for fractions of a folio.

(2) When any instrument presented is not on an appropriate customs form, the number of folios shall be computed under the pertinent one of the following formulas:

(i) Except as specified in subdivision (iii) of this subparagraph, if the instrument is of less than 20 pages, the total number of lines shall be determined; the number of words in 10 percent of the lines of each size and style of writing or printing (handwritten, pica typewritten, elite typewritten, printed, etc.; full measure, indented, etc.) shall be counted, using lines of average length; the average number of words per line of each size and style of writing or printing shall be multiplied by the total number of lines of such size and style in order to arrive at the total number of words; and that total shall be divided by 100 in order to ascertain the total number of folios.

(ii) Except as specified in subdivision (iii) of this subparagraph, if the instrument is of 20 pages or more, the number of words on a representative sample of pages (10 percent of the total, using pages of average width and length) shall be counted; the average number of words per page shall be multiplied by the number of pages in order to arrive at the total number of words; and that total shall be divided by 100 in order to ascertain the total number of folios.

(iii) If any such instrument contains a recitation or copy of a marine document of a vessel, whether reproduced by photostatic process or otherwise, the number of folios in such recitation or copy shall not be determined as specified in subdivision (i) or (ii) of this subparagraph, but instead each such recitation or copy shall be deemed to contain 5 folios. The number of folios contained in such recitation or copies, determined in accordance with this subdivision, shall be added to the number of folios contained in the remainder of such instrument, ascertained in accordance with subdivision (i) or (ii) of this subparagraph, as the case may be, and the sum shall be the total number of folios in that instrument.

(3) When any instrument presented is on one of the following customs forms and contains only such written matter as is customarily used and necessary to complete and fill in the blanks on the form or when it contains such matter and other written matter interpolated or appended of less than 200 words, the number of folios in the instrument shall be deemed to be in accordance with the following schedule:

(i) Bill of sale of vessel on customs Form 1340, 1342, 1344, 1346, or 1356: 10 folios.

(ii) Mortgage of vessel on customs Form 1348—If marine document is not recited: 15 folios. If marine document is recited: 20 folios.

(iii) General Index or Abstract of Title on customs Form 1332: 5 folios.

(iv) General Index or Abstract of Title—Continuation Sheet on customs Form 1332-A: 1 folio for each two instruments noted thereon.

(v) Certificate of Ownership on customs Form 1330: 5 folios.

(4) When any such instrument is prepared on a customs form and contains such written matter as is customarily used and necessary to complete and fill in the blanks on the form and other written matter interpolated or appended of 200 or more words, the number of folios in the instrument shall be computed on the basis of the above schedule for the printed forms, plus an additional amount for all the written matter other than such as is used and necessary to complete and fill in the blanks on the form in the customary manner, which amount shall be computed as though that portion of the instrument were not on a customs form.

(5) The number of folios in a certified copy of any instrument furnished under Fee 7, Service (b), shall be computed in the same manner as in the case of the original, except that the number of folios in a certificate of discharge on customs Form 1363 shall be deemed to be 5, unless the form contains interpolated or appended written matter of 200 or more words in addition to such written matter as is customarily used and necessary to complete and fill in the blanks on the form, in which case the fee shall be computed on the basis of a charge for 3 folios for the printed form, plus an additional amount for all the written matter other than such as is used and necessary to complete and fill in the blanks on the form in the customary manner, which amount shall be computed as though that portion of the instrument were not on a customs form.

(R. S. 161, sec. 2, 23 Stat. 118; 5 U. S. C. 22. 46 U. S. C. 2. Sec. 102, Reorganization Plan No. 3 of 1946; 3 CFR 1946 Supp., ch. IV. Reorganization Plan No. 26 of 1950; 3 CFR 1950 Supp., ch. III.)

[SEAL] FRANK DOW,
Commissioner of Customs

Approved: July 16, 1952.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 25, Revision 1, Interpretation 4]

CPR 25—CEILING PRICES OF BEEF SOLD AT RETAIL

INT. 4—PERMISSIBLE ADDITIONS ON THE RETAIL SALE OF PRIMAL CUTS UNDER SECTION 13 (C), CPR 25, REVISION 1

A retailer asks whether, under section 13 (c) of Ceiling Price Regulation 25, Revision 1, wholesalers' and local delivery additions may be taken on sales and what zone differential is applicable to such sales.

Under section 13 (c) retailers, in addition to their customary service charges determined under CPR 34, may add as much as $2.25 per cwt., as specially permitted by that section, to the maximum price established in CPR 24, which maximum price may include the wholesaler's addition of $2.25 per cwt. as permitted in section 42 of CPR 24 and the zone differential amount allowed wholesalers under section 40 of CPR 24. The amount which may be included by a retailer as a zone differential in the CPR 24 maximum price depends upon the zone in which the retailer is located.

No local delivery charge may be included in the CPR 24 maximum price since section 13 (c) of CPR 25 specifically prohibits as additions to be included in the CPR 24 maximum price the items detailed in section 41 of CPR 24. Local delivery charges constitute one of these items.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154).

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

JULY 23, 1952.

[F. R. Doc. 52-8220; Filed, July 23, 1952; 11:47 a. m.]

[Ceiling Price Regulation 45, Revision 1, Interpretation 1]

CPR 45—APPAREL MANUFACTURERS' GENERAL CEILING PRICE REGULATION

INT. 1—ELECTION TO USE REGULATION FOR A CATEGORY OF ARTICLES (SECTION 3 (A))

Under section 3 (a) of CPR 45, Rev. 1, a manufacturer may elect prior to the mandatory effective date of the regulation to make it effective for his sales of an article by determining a ceiling price for that article pursuant to the regulation and by selling the article at the new price or taking some other action which indicates an election to use the regulation. If the manufacturer does this, he must establish ceiling prices under the regulation for all articles in the same category. A manufacturer is thus permitted to establish ceiling prices under the General Ceiling Price Regulation for all commodities in one category, and under CPR 45, Rev. 1, for all articles in another category.

The definition of the term "category" contained in section 6 (c) of CPR 45, Rev. 1, is different from the definition of the same term contained in section 4 (c) of the General Ceiling Price Regulation. Because of this difference in definition of the term, generally under CPR 45, Rev. 1, a category covers a smaller group of related articles than a category under the GCPR. It is thus possible for a category under the GCPR to cover commodities which would fall into two or more categories under CPR 45, Rev. 1. Some apparel manufacturers have asked which definition of the term "category" governs a manufacturer in determining the articles which fall in a particular category for which he has elected to continue to use GCPR and those which fall within a category for which he has elected to use CPR 45, Rev. 1. Since the election is made under section 3 (a) of CPR 45, Rev. 1, as to which article and consequently as to which category, should be priced under CPR 45, and the term "category" is specifically defined in section 6 (c) of CPR 45, that definition governs the grouping of commodities for the purpose of such election. Thus, although a category defined under GCPR would include articles A, B, C, D, E and F, if the manufacturer elects to use CPR 45, Rev. 1, for a category which, under the definition in section 6 (c), CPR 45, Rev. 1, includes only articles D, E and F, the manufacturer may continue to use GCPR for articles A, B, and C and must use CPR 45, Rev. 1, for articles D, E, and F.

[Ceiling Price Regulation 25; Revision 1, Interpretation 5]

CPR 25—REVISED CEILING PRICES OF BEEF ITEMS SOLD AT RETAIL

INT. 5—NECESSITY FOR GRADING OF BEEF WHERE REQUIRED TO BE SOLD AT NO MORE THAN UTILITY GRADE PRICES (SECTION 18)

A retailer inquires whether the fact that non-graded and improperly cut cuts of beef are sold at not higher than the ceiling price for utility grade pursuant to sections 18 (a) and (b), Ceiling Price Regulation 25, Revision 1, excuses the failure to grade or properly cut the beef in question.

The fact that sections 18 (a) and (b) establish ceiling prices for non-graded or improperly cut beef cuts does not eliminate the requirements of grading and grademarking. Section 18 (c) states that the pricing requirements of section 18 do not in any way excuse the violation of the grading, grademarking or cutting requirements of Distribution Regulation 2 under which the beef is graded.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

HERBERT N. MALETZ,
Chief Counsel,
Office of Price Stabilization.

JULY 23, 1952.

[F. R. Doc. 52-8219; Filed, July 23, 1952; 11:47 a. m.]

[Ceiling Price Regulation 134, Amdt. 4]

CPR 134—CEILING PRICES FOR EATING AND DRINKING ESTABLISHMENTS

CIVIC EVENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 4 to Ceiling Price Regulation 134 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment permits operators of eating and drinking establishments to charge the same prices on the days of the civic events listed in Appendix A as they charged during the days of the corresponding civic event when it was held in their community in 1951. The events listed have been included on the basis of their being of overall community interest and of long standing. On the days of these events, it has been the customary practice of operators in the areas involved to charge higher prices for meals, food items and beverages than they charge normally. In the judgment of the Director of Price Stabilization permission to continue this practice where it has such a firm historical basis would not be incompatible with the purposes of the price stabilization program. The new section added to the regulation by this amendment parallels the existing provision which permits operators to charge on New Year's Day, Easter, Passover, Thanksgiving Day, Christmas Day and New Year's Eve the same prices they charged on the most recent identical holiday.

The community civic events which, on the basis of currently available information, meet the test set out above include the following:

Cheyenne Frontier Days, The Hambletonian, The Santa Fe Fiesta, Anadarko (Oklahoma) Indian Exposition, New Orleans Mardi Gras and Utah Pioneer Days, at Ogden, Utah.

Because of the nature of this amendment, the Director of Price Stabilization has not found it practicable to consult formally with official advisory committees or with trade association representatives. However, members of the industry have been consulted with informally and consideration has been given to their recommendations. In the judgment of the Director, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that Act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 134 is amended in the following respects:

1. Section 6, paragraph (a) is revised by the addition of a new subparagraph (4) to read as follows:

(4) Despite the other provisions of this section, you may, on the days of the civic events listed in Appendix A which take place in your community, charge for any meals, food item or beverage the price you charged for it on the days of the same event when it was held in your community in 1951.

2. A new Appendix A is added to the regulation by inserting the following after section 27:

APPENDIX A—CIVIC EVENTS DURING WHICH YOU MAY CHARGE HIGHER PRICES

Cheyenne Frontier Days.
The Hambletonian.
Kentucky Derby.
Santa Fe Fiesta Days.
Anadarko, Oklahoma, Indian Exposition.
Utah Pioneer Days at Ogden, Utah.
New Orleans Mardi Gras.
Indianapolis Memorial Day Races.
New Orleans Spring Fiesta.
Pendleton Round-Up at Pendleton, Oreg.
Frontier Days at Butler, Wis.
Sidney Rodeo at Sidney, Iowa.
Blossom Festival at Benton Harbor, Mich.
Blossom Festival at St. Joseph, Mich.
Forest Festival at Elkins, W. Va.
Buckwheat Festival at Kingwood, W. Va.
Apple Blossom Festival at Winchester, Va.
Tulip Festival at Pella, Iowa.
Tulip Festival at Holland, Mich.
National Cherry Festival at Traverse City, Mich.
Strawberry Festival at Buckhannon, W. Va.
Tobacco Festival at Richmond, Va.
Apple Harvest Week at Charlottesville, Va.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 4 to Ceiling Price Regulation 134 is effective as of July 21, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 22, 1952.

[F. R. Doc. 52-8154; Filed, July 22, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Supplemental Regulation 34, Revision 1, Interpretation 1]

GCPR, SR 34—ADJUSTMENT OF CEILING PRICES OF MANUFACTURERS AND DISTRIBUTORS OF FRESH AND SEMI-DRY SAUSAGE MADE IN WHOLE OR IN PART FROM BEEF OR STUFFED IN SHEEP CASINGS

INT. 1—REQUIRED STATEMENT (SECTION 10 (b))

OPS has been asked whether it is necessary for a manufacturer to furnish a statement of the authority to increase ceiling prices under section 10 (b) of SR 34, Revision 1, with each and every invoice for a given item of sausage that might be sold to his customer.

Section 10 (b) is not intended to impose such a requirement. It states that the statement in question must be furnished upon the customer's initial purchase at the increased ceiling price. It is sufficient therefore that only one statement be furnished to the same customer with respect to an item of sausage for which a price increase is taken under SR 34, Revision 1.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Chapter VI—National Production Authority, Department of Commerce

[CMP Regulation No. 1, Amendment 4 of July 23, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

AMENDMENT OF SECTION 17 (d)

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable because the amendment affects many different industries.

AMENDATORY PROVISIONS

This amendment affects CMP Regulation No. 1, as amended November 23, 1951, by amending paragraph (d) of section 17 to read as follows:

(d) Unless otherwise provided by NPA, if it develops, after a consumer has received delivery of controlled materials or Class A products pursuant to an allotment, that he cannot use them for a purpose permitted under paragraph (b) of this section, he shall not use or dispose of them except as provided below: (1) He may hold the controlled materials or Class A products in his inventory for use in connection with future authorized production schedules; (2) he may sell or otherwise transfer title to such controlled materials to his original supplier of such controlled materials; (3) he may sell or otherwise transfer title to such steel controlled materials to a steel distributor who has a base tonnage within the meaning of, and who operates under, the provisions of NPA Order M-6A; (4) he may sell or otherwise transfer title to such controlled materials to a person who places an authorized controlled material order with him (including, but not limited to, sales of brass mill products to distributors of brass mill products who place orders in accordance with the provisions of NPA Order M-82, sales of copper wire mill products to distributors of copper-wire mill products who place orders in accordance with the provisions of NPA Order M-86, and sales of aluminum to distributors of aluminum who place orders in accordance with the provisions of NPA Order M-88), in which event he (the seller) shall not extend the allotment number identifying such order; or (5) he shall request authorization from NPA or the appropriate claimant agency as to any other use or disposition of such controlled materials or Class A products.

(64 Stat. 816, Pub. Law 429, 82d Cong; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[CMP Regulation No. 1, Amendment 5 of July 23, 1952]

CMP REG. 1—BASIC RULES OF THE CONTROLLED MATERIALS PLAN

AMENDMENTS OF SCHEDULES I, III, AND IV

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, there has been consultation with industry representatives and consideration has been given to their recommendations. However, consultation with representatives of all industries affected has been rendered impracticable because the amendment affects many different industries.

AMENDATORY PROVISIONS

CMP Regulation No. 1, as amended November 23, 1951, is hereby further amended as follows:

1. The following items in Schedule I (Revised) of CMP Regulation No. 1 under the heading "Aluminum" are deleted:

Foil.
Powder (atomized or flake, including paste).

2. A new footnote reference, numbered "15" shall be inserted after the heading "Aluminum" in Schedule I (Revised) of CMP Regulation No. 1, and a new footnote numbered "15" shall be added to read as follows:

[15] Aluminum foil and aluminum powder, (atomized or flake, including paste) are neither Class A nor Class B products.

3. The following items in Schedule III (Revised) of CMP Regulation No. 1 under the heading "Aluminum" and under the column headings indicated are deleted:

Name of product:	*Aluminum and copper*
Foil.	
Powder (atomized or flake, including paste)	60

4. The following items in Schedule IV (Revised) of CMP Regulation No. 1 under the heading "Aluminum," and under the column headings indicated are deleted:

Name of product:	*Aluminum and copper (pounds)*
Foil.	
Powder (atomized or flake, including paste)	[15]

(64 Stat. 816, Pub. Law 429, 82d Cong; 50 U. S. C. App. Sup. 2154)

This amendment shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-8232; Filed, July 23, 1952; 12:17 p. m.]

[CMP Regulation No. 6, Revised, Amendment 2 of July 23, 1952]

CMP REG. NO. 6, REVISED—CONSTRUCTION

MISCELLANEOUS AMENDMENTS

This amendment to Revised CMP Regulation No. 6 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the amendment affects many different industries.

This amendment affects paragraph (f) of section 17, and Table III of Revised CMP Regulation No. 6, as amended March 6, 1952, and as further amended by Amendment 1 of June 18, 1952. It conforms section 17 to the changes simultaneously being made in CMP Regulation No. 1, and it deletes certain items from the listing of aluminum controlled material set forth in Table III.

AMENDATORY PROVISIONS

Revised CMP Regulation No. 6 is amended in the following respects:

1. Paragraph (f) of section 17 is amended to read as follows:

(f) Unless otherwise provided by NPA, if it develops, after a person has received delivery of controlled materials or Class A products pursuant to an allotment, that he cannot use them for a purpose permitted under paragraph (d) of this section, he shall not use or dispose of them except as provided in this paragraph: (1) He may hold the controlled materials or Class A products in his inventory for use in connection with future authorized production schedules; (2) he may sell or otherwise transfer title to such controlled materials to his original supplier of such controlled materials; (3) he may sell or otherwise transfer title to such steel controlled materials to a steel distributor who has a base tonnage within the meaning of, and who operates under, the provisions of NPA Order M-6A; (4) he may sell or otherwise transfer title to such controlled materials to a person who places an authorized controlled material order with him (including, but not limited to, sales of brass mill products to distributors of brass mill products who place orders in accordance with the provisions of NPA Order M-82, sales of copper wire mill products to distributors of copper wire mill products who place orders in accordance with the provisions of NPA Order M-86, and sales of aluminum to distributors of aluminum who place orders in accordance with the provisions of NPA Order M-88), in which event he (the seller) shall not extend the allotment number identifying such order; or (5) he shall request authorization from NPA or the appropriate claimant agency as to any other use or disposition of such controlled materials or Class A products.

2. The list of aluminum controlled materials in Table III is amended to read as follows:

ALUMINUM [15]
Rolled bar, rod, wire (including drawn wire), structural shapes.
Aluminum cable steel reinforced (ACSR) and bare aluminum cable.
Insulated or covered wire or cable.
Extruded bar, rod, shapes, tubing (including drawn or welded tubing).
Sheet, strip, plate.
Pig or ingot, granular or shot.

3. A new footnote 15 is added at the end of Table III to read as follows:

[15] Aluminum foil and aluminum powder (atomized or flake, including paste) are neither Class A nor Class B products.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154).

This amendment shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-8233; Filed, July 23, 1952; 12:17 p. m.]

[NPA Order M-5 as Amended July 23, 1952]

M-5—ALUMINUM

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this order as amended, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

NPA Order M-5 as last amended April 29, 1952, is amended in its entirety. As amended, NPA Order M-5 reads as follows:

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Relation to other NPA orders and regulations.
4. Assignment and use of AM numbers.
5. Production of aluminum.
6. How production schedules are authorized.
7. Production material requirements of producers of aluminum.
8. Prohibition on shipment.
9. Restrictions on toll agreements.
10. Opening of books.
11. Acceptance of orders.
12. Production materials for foil or powder fabricators.
13. NPA assistance in placing orders.
14. Reports on Form NPAF-167.
15. Reports on Form NPAF-122.
16. Reports by foil or powder fabricators on Form NPAF-222.
17. Request for adjustment or exception.
18. Communications.
19. Records and reports.
20. Violations.

AUTHORITY: Sections 1 to 20 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* This order applies to primary producers, secondary smelters, independent fabricators, and importers of aluminum. It provides rules concerning the scheduling of production and shipment of aluminum. It sets forth the procedure by which aluminum producers receive the controlled materials which they require as production materials, as well as the procedure to be followed by producers of aluminum foil and aluminum powder in acquiring their production materials, and the quantities of such material for which they may place orders. The order authorizes the production of aluminum only in accordance with an authorized production schedule or production directive, and permits the production, shipment, or delivery of aluminum only when such production, shipment, or delivery is to fill an authorized controlled material order or is pursuant to an NPA directive. It also sets forth circumstances wherein an aluminum producer may reject an authorized controlled material order. It supplements the CMP regulations and supersedes the provisions of those regulations to the extent that they may be inconsistent with the provisions of this order as amended.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or any other government.

(b) "NPA" means the National Production Authority.

(c) "Aluminum" means only the following aluminum forms and shapes:

Rolled bar, rod, wire (including drawn wire), structural shapes.
Aluminum cable steel reinforced (ACSR) and bare aluminum cable.
Insulated or covered wire or cable.
Extruded bar, rod, shapes, tubing (including drawn or welded tubing).
Sheet, strip, plate.
Pig or ingot, granular or shot.

(d) "Foil" means the product which results from the operation of a rolling mill in which aluminum sheet (foil stock), as those terms are commonly understood by custom and usage in the trade, is reduced to a thickness of less than 0.006 of an inch.

(e) "Powder" means the product which results from processing aluminum (or aluminum-base alloy) pig, ingot, or scrap in a ball mill, hammer mill, or atomizer, and includes paste.

(f) "Pig" means aluminum of variable composition produced by the electrolytic reduction of alumina.

(g) "Pig or ingot, secondary" means any aluminum produced by a secondary smelter; or pig or ingot, granular or shot, produced by a primary producer in a secondary smelter operation.

(h) "Primary producer" means a person producing aluminum both in the form of pig and in any one or more of the other forms or shapes listed in paragraph (c) of this section.

(i) "Secondary smelter" means any person who remelts virgin metal or scrap to produce properly alloyed, refined, chemically tested, specification casting ingot, or deoxidizing or granular aluminum, and who has the equipment and technical knowledge necessary to perform this function without downgrading or waste; and includes a primary producer to the extent that he performs such function.

(j) "Independent fabricator" means any person (except a secondary smelter) who does not produce aluminum pig, but who produces aluminum for sale in any of the other forms and shapes listed in paragraph (c) of this section.

(k) "Foil or powder fabricator" means any person who produces either foil or powder, as defined in paragraphs (d) and (e) of this section, respectively. For the purposes of this paragraph the foil-producing department or division of any company, firm, corporation, or association which produces aluminum sheet (foil stock), and the powder-producing department or division of any company, firm, corporation, or association which produces aluminum (or aluminum-base alloy) pig or ingot shall be deemed a separate person.

(l) "Importer" means a person who imports aluminum in the forms and shapes listed in paragraph (c) of this section either for his own account or for the account of another person.

(m) "Production directive" means a directive issued by NPA authorizing a primary producer, a secondary smelter, or an independent fabricator to produce during a designated period a specified quantity of any one or more of the aluminum forms and shapes listed in paragraph (c) of this section.

(n) "Authorized controlled material order" means a delivery order for any controlled material (as distinct from a product containing controlled material) which is placed pursuant to an allotment, as provided in section 19 of CMP Regulation No. 1, or which is specifically designated to be such by any other regulation or order of NPA.

(o) "Fabrication order" means a delivery order for aluminum sheet (foil stock) or aluminum (or aluminum-base alloy) pig, ingot, or scrap which is placed pursuant to section 12 of this order by a foil or powder fabricator, respectively; and includes orders placed pursuant to a toll, conversion, or repurchase agreement or other similar arrangement by which the foil or powder fabricator supplies aluminum scrap which is not self-generated aluminum scrap; or if the foil fabricator is a department or division of a company, firm, corporation, or association which produces aluminum sheet (foil stock) as well as foil, or the powder fabricator is a department or division of a company, firm, corporation, or association which produces aluminum (or aluminum-base alloy) pig or ingot as well as powder, then the acquisition by such department or division of the aluminum sheet (foil stock) or aluminum (or aluminum-base alloy) pig or ingot will be deemed a fabrication order.

(p) "AM number" means the allotment symbol AM, together with the number which is assigned by NPA, which is used by persons who produce, smelt, fabricate, or distribute aluminum in placing authorized controlled material orders for aluminum in accordance with the provisions of this order and of NPA Order M-88.

SEC. 3. *Relation to other NPA orders and regulations.* All provisions of any NPA regulation or order are superseded to the extent that such provisions are inconsistent with this order, but in all other respects the provisions of such regulations and orders shall remain in full force and effect.

SEC. 4. *Assignment and use of AM numbers.* AM numbers are assigned by NPA, upon application in writing, to primary producers, secondary smelters, and independent fabricators of aluminum, and are used to identify authorized controlled material orders for aluminum placed by such persons. (NPA Order M-88 describes the assignment and use of AM numbers by distributors of aluminum).

SEC. 5. *Production of aluminum.* (a) No person shall, in any calendar quarter, produce any aluminum unless such production is pursuant to an authorized production schedule or directive previously issued in writing by NPA for the production of such materials in that calendar quarter.

(b) After the effective date of this order, no producer of aluminum shall place into production any order for the delivery of aluminum, unless such order is an authorized controlled material order, a fabrication order placed in accordance with section 12 of this order by a foil or powder fabricator, or an order which he has accepted or scheduled pursuant to specific directive or written authorization by NPA.

(c) No aluminum producer, secondary smelter, or independent fabricator shall be required to accept any authorized controlled material order for less than the mill quantities set forth in Schedule IV of CMP Regulation No. 1 or which is placed within less time than the "lead time" specified in Schedule III of CMP Regulation No. 1.

SEC. 6. *How production schedules are authorized.* (a) Every primary producer, secondary smelter, and independent fabricator shall, on or before July 15, 1952, complete and file with NPA on Form NPAF-149, an application for an authorized production schedule for the fourth calendar quarter of 1952. (This was required by NPA Order M-5 as amended January 23, 1952). For each subsequent calendar quarter the application for an authorized production schedule shall be made by the completion and filing of Form NPAF-149 on or before the fifteenth day of the first month of the calendar quarter preceding the calendar quarter for which the application is made. An original and three copies of Form NPAF-149, which may be secured from the Washington, D. C., office of NPA only, shall in each instance be completed and filed with the National Production Authority, Washington 25, D. C., Ref: NPA Order M-5.

(b) Each person who is required by paragraph (a) of this section to file Form NPAF-149 will enter thereon, for each form and shape of aluminum listed, his proposed production schedule and, if applicable, the aluminum production materials which he requires to fulfill the proposed production schedule in accordance with the instructions accompanying the form. NPA, after review of the Form NPAF-149, will set forth on a copy thereof, which will be returned to the applicant, the approved production schedule for each form or shape listed, and the quantity of aluminum production materials which are allotted for such production. Such production schedules and related allotments may be made on a quarterly or monthly basis, or at such other intervals as NPA may from time to time deem appropriate.

(c) In addition to the procedure outlined in paragraph (b) of this section for the authorization of production schedules for producers of aluminum, NPA may from time to time issue production directives and related allotments to producers of aluminum which by their terms may amend, suspend, or supersede the authorized production schedules issued on Form NPAF-149. These production directives and related allotments may be issued on either a monthly or quarterly basis and may concern the production of any or all of the forms or shapes of aluminum. In each instance in which such a production directive and related allotment is issued it will by its terms define the relationship of the directive to the authorized production schedule issued or to be issued.

(d) After an authorized production schedule or production directive has been issued to a primary producer, secondary smelter, or independent fabricator in accordance with paragraph (b) or (c) of this section, NPA may from time to time issue directives to primary producers or secondary smelters with respect to the sale of aluminum production material to other primary producers or secondary smelters, independent fabricators, or foil or powder fabricators. In that event, NPA will notify such persons of the name of the person from whom he shall purchase the aluminum production material he requires.

SEC. 7. *Production material requirements of producers of aluminum.* (a) A primary producer, secondary smelter, or independent fabricator of aluminum may order the aluminum production materials allotted to him on Form NPAF-149 or by directive, in accordance with the provisions of section 19 of CMP Regulation No. 1. In ordering such materials he shall use the allotment symbol AM together with his AM number.

(b) A primary producer, secondary smelter, or independent fabricator of aluminum who requires steel controlled materials as production material (as defined in section 21 of CMP Regulation No. 1) for use in the fulfillment of his authorized production schedule is hereby authorized to use the allotment symbol PM to obtain such production materials: *Provided, however,* That no person who produces aluminum cable steel reinforced (ACSR) shall use the allotment symbol PM to obtain in any calendar quarter for his production of that material a greater quantity of steel by weight than 37 percent of the gross metal weight of the aluminum cable steel reinforced (ACSR) that he is to produce in that calendar quarter pursuant to his authorized production schedule.

(c) All orders for which the use of the allotment symbol AM or PM are authorized by this section are hereby designated as authorized controlled material orders, and shall be certified in accordance with the provisions of section 19 (c) of CMP Regulation No. 1. The certification of such orders shall be signed as provided in NPA Reg. 2, and shall constitute a representation that, subject to the criminal penalties provided for in the United States Code, Title 18 (Crimes) section 1001, such person is authorized by this section to make the certification for the quantity of steel or aluminum ordered in connection therewith.

(d) The self-authorization procedure by which a producer of aluminum obtains production materials (other than controlled materials) is described in Direction 2 to CMP Regulation No. 1.

SEC. 8. *Prohibition on shipment.* Except as provided in NPA Order M-88 and NPA Order M-89, no primary producer, secondary smelter, independent fabricator, distributor, or importer shall accept any orders for aluminum, or ship any aluminum, except pursuant to a valid authorized controlled material order, or fabrication order placed in accordance with section 12 of this order by a foil or powder fabricator, or pursuant to a directive by NPA.

SEC. 9. *Restrictions on toll agreements.* No person other than a foil or powder fabricator shall receive any aluminum pursuant to any existing or future toll, conversion, or repurchase agreement or any similar arrangement without the prior written approval of NPA. No person shall deliver any aluminum pursuant to any existing or future toll, conversion, or repurchase agreement or any similar arrangement without the prior written approval of NPA, unless such delivery is made to a foil or powder fabricator.

SEC. 10. *Opening of books.* Each producer of aluminum shall open his order books for the purpose of accepting authorized controlled material orders or fabrication orders no later than 105 days prior to the first day of each calendar quarter for which such orders are valid. An aluminum producer may open his order books for the purpose of accepting purchase orders for any calendar quarter as long in advance of such quarter as he may choose, but after his order books are open he shall accept orders as provided in section 11 of this order.

SEC. 11. *Acceptance of orders.* (a) Until 75 days prior to the first day of the month in which delivery is requested, and subject to the provisions of paragraph (b) of this section, a producer of aluminum shall have the option of determining which authorized controlled material orders and fabrication orders or portions thereof he will accept and schedule without regard to the dates of receipt of such orders: *Provided, however,* That the total of the orders which he accepts for any aluminum product does not exceed 85 percent of the level of production he has scheduled for such product for the month in which delivery is requested in order to complete his authorized production schedule or to comply with the production directive he received from NPA. In the event that such a person has not received either an authorized production schedule or a production directive for any month for which he received an authorized controlled material order or a fabrication order requesting delivery, he shall compute the foregoing 85-percent limitation on the acceptance of orders on the following basis: (1) A primary producer shall assume an authorized production schedule or production directive requiring the same production as was directed for the previous quarter, and therefore schedule his monthly production so as to meet such a quarterly production level. (2) A secondary smelter shall assume his maximum production from the production materials he expects to have available. (3) An independent fabricator shall assume that the same quantity of aluminum will be allocated to him as was allocated to him in the previous quarter.

(b) During the period of time in which a producer of aluminum may reject orders in accordance with paragraph (a) of this section, and until such time as he has accepted orders up to the 85-percent maximum limitation contained in paragraph (a) of this section, he may not reject any order bearing the allotment symbol A, B, C, E, AM, or Z-2 which has been offered to him, and shall comply with all NPA directives which have been issued to him.

(c) An aluminum producer shall accept, or reject and return, all purchase orders tendered to him promptly after receipt of such orders. Upon such acceptance or rejection he shall immediately notify the person who tendered the orders of such acceptance or rejection in writing or by telegram. For the purpose of the first sentence of this section the word "promptly" shall be deemed to mean as quickly as possible, but in no event later than 13 consecutive calendar days after receipt. For the purpose of the first sentence of this paragraph receipt of an order shall not be deemed to have occurred until the order is received at the place where the producer usually acknowledges and schedules such orders. This provision is intended to give those persons whose orders have been rejected an opportunity to place their orders with other producers or with distributors.

(d) Within the period of 75 to 60 days prior to the first day of the month in which delivery is requested and subject to the provisions of paragraph (g) of this section, each producer of aluminum shall accept all authorized controlled material orders and fabrication orders offered to him (subject to the provisions of CMP Regulation No. 3) until he has thereby committed 125 percent of the proposed production necessary to fulfill his authorized production schedule or production directive, minus the quantity of aluminum he is required to produce or ship in that calendar quarter to fill orders carried over from a previous calendar quarter, unless otherwise specifically directed by NPA. This requirement is subject to the provisions of section 20 of CMP Regulation No. 1.

(e) At such time as an aluminum producer has fully complied with the provisions of paragraph (d) of this section he shall not accept any additional orders unless he is specifically directed to do so by NPA.

(f) The percentages referred to in paragraphs (a) and (b) of this section shall be calculated by each aluminum producer for each calendar quarter on the basis of the authorized production schedule and production directives issued to him for that calendar quarter regardless of the quantities of aluminum he expects to produce or ship in that quarter to fill orders carried over from a previous calendar quarter.

(g) No primary producer shall accept any order for "pig or ingot, other than secondary" to be used for any purpose for which "pig or ingot, secondary" is suitable.

SEC. 12. *Production materials for foil or powder fabricators.* (a) A foil or powder fabricator who requires aluminum sheet (foil stock) to produce foil, aluminum cores to package foil, or aluminum (or aluminum-base alloy) pig or ingot to produce powder may, within the limits prescribed in paragraph (c) of this section, place a fabrication order for such materials only if such order is accompanied by a certificate reading substantially as follows:

Certified under NPA Order M-5

The certificate shall be signed as provided in NPA Reg. 2, and shall constitute a representation to the supplier and to NPA that, subject to the criminal penalties provided for in the United States Code, Title 18 (Crimes) section 1001, such person is authorized by this section to place the fabrication order which the certificate accompanies; that the quantities of aluminum sheet (foil stock) and aluminum cores so ordered will be used only in the production or packaging of foil; and that the quantities of aluminum (or aluminum-base alloy) pig or ingot so ordered will be used only in the production of powder.

(b) Allotments of aluminum production materials for the production of foil or powder, and the authority to use the allotment symbol AM or PM in ordering such materials, previously issued to foil or powder fabricators, are hereby withdrawn insofar as such allotments or authority relate to any quantities of aluminum sheet (foil stock), aluminum cores, or aluminum (or aluminum-base alloy) pig or ingot which have not been shipped by the producers of such material prior to July 23, 1952. Any authorized controlled material order of a foil or powder fabricator for aluminum sheet (foil stock), aluminum cores, or aluminum (or aluminum-base alloy) pig or ingot, heretofore placed but unfilled by the producer of such materials as of July

23, 1952, shall be deemed a fabrication order (as defined in section 2 (o) of this order) for the purposes of this section, but shall maintain its position in the delivery schedules of producers of such materials.

(c) Unless authorized in writing by NPA, no foil fabricator shall in any calendar month place a fabrication order for a quantity by weight of aluminum sheet (foil stock) to be used in the production of foil in excess of the quantity by weight of foil which he shipped to his customers during the preceding calendar month. Unless authorized in writing by NPA, no powder fabricator shall in any calendar month place a fabrication order for a quantity by weight of aluminum (or aluminum-base alloy) pig, ingot, or scrap, to be used in the production of powder, in excess of the quantity by weight of powder (including, in cases of shipment of paste, only the aluminum content of paste) which he shipped to his customers during the preceding month. Unless authorized in writing by NPA, no foil fabricator shall in any calendar quarter place a fabrication order for a quantity by weight of aluminum cores for the packaging of foil in excess of the weight of such cores which he shipped in the preceding month.

(d) The quantities of aluminum sheet (foil stock) or aluminum (or aluminum-base alloy) pig or ingot, for which a foil or powder fabricator may place fabrication orders in any month in accordance with paragraph (c) of this section, are over and above any quantities of such material which is produced, pursuant to a toll, conversion, or repurchase agreement or any other similar arrangement, from aluminum scrap which they have themselves generated in the process of producing foil or powder.

(e) NPA may from time to time issue directives to producers of aluminum sheet (foil stock) or aluminum (or aluminum-base alloy) pig or ingot with respect to the acceptance of fabrication orders.

SEC. 13. *NPA assistance in placing orders.* Any person who is entitled to place an authorized controlled material order for aluminum or a fabrication order and who has been unable to place any such order may apply to NPA for assistance in placing such an order. Application should be made on Form NPAF-148. These forms may be obtained from Department of Commerce field offices, NPA industry divisions, or the Office of Small Business of NPA. The form, which provides space for the applicant's name and address, the allotment symbol he is authorized to use, his allotment record, his previous purchase record, his experience in attempting to place orders, and other pertinent data, shall be filled out completely and mailed to the National Production Authority, Washington 25. D. C., Ref: NPA Order M-5.

SEC. 14. *Reports on Form NPAF-167.* Each primary producer, secondary smelter, and independent fabricator of aluminum shall, or or before the fifteenth day of each month, complete and file Form NPAF-167, in accordance with the instructions accompanying the form, setting forth the quantity of aluminum for which he has accepted authorized controlled material orders or fabrication orders placed in accordance with section 12 of this order by a foil or powder fabricator, the quantity of aluminum for which he has not yet accepted such orders, and the estimated quantity of aluminum he expects to ship against past-due unfilled orders. These forms may be secured from the Washington Office of NPA and shall in each instance be completed and filed in duplicate with the Bureau of the Census, Industry Division, Washington 25, D. C. A separate report is required for each of the aluminum forms and shapes listed in section 2 (c) of this order.

SEC. 15. *Reports on Form NPAF-122.* (a) Each primary producer, secondary smelter, independent fabricator, or importer, who sells aluminum in the regular course of business, shall each month complete and file Form NPAF-122 in accordance with the instructions accompanying the form. The form shall be completed in duplicate and filed on or before the tenth day of each month by mailing to the Bureau of the Census, Industry Division, Washington 25, D. C., Ref: NPA Order M-5.

(b) Any other person who in any month receives for resale or sells any aluminum shall file Form NPAF-122 for that month in accordance with the instructions accompanying that form.

SEC. 16. *Reports by foil or powder fabricators on Form NPAF-222.* Each foil or powder fabricator shall each month complete and file Form NPAF-222 in accordance with the instructions accompanying the form, showing the volume of shipments, inventories, and unfilled orders. The Form NPAF-222 shall be filed in duplicate on or before the tenth day of each month by mailing to the Bureau of the Census, Industry Division, Washington 25, D. C., Ref: NPA Order M-5.

SEC. 17. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 18. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-5.

SEC. 19. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such other reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 20. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[NPA Order M-80, Schedule C, as Amended July 23, 1952]

M-80—IRON AND STEEL—ALLOYING MATERIALS AND ALLOY PRODUCTS

SCHED. C—CHROMIUM AND CHROMIUM-NICKEL

This schedule, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this schedule as amended there was consultation with industry representatives, including trade association representatives, and consideration was given to their recommendations. This schedule, as amended, is issued under NPA Order M-80, and is made a part of that order.

REGULATORY PROVISIONS

Sec.
1. Definitions.
2. Restricted uses.
3. Certification required.
4. Exceptions.
5. Communications.

AUTHORITY: Sections 1 to 5 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Definitions.* All definitions contained in NPA Order M-80, including the definitions of chromium and nickel contained in List I of that order, are applicable to this schedule.

SEC. 2. *Restricted uses.* Subject to the exceptions contained in section 4 of this schedule, no person shall:

(a) Melt, process, fabricate, or deliver, any heat-resistant chromium or chromium-nickel-alloy iron or steel for any particular use set forth in Appendix 1 of this schedule with a higher nickel or nickel-plus-chromium content than permitted for that use in said Appendix 1;

(b) Specify temperature requirements beyond those necessary to maintain his current operations, when ordering heat-resistant chromium or chromium-nickel-alloy iron or steel for any use indicated in Appendix 1 of this schedule;

(c) Increase the total weight of the heat-resistant chromium or chromium-nickel-alloy iron or steel, in redesigning or rebuilding any equipment or parts therefor, in any unit to an amount greater than 10 percent of the weight of such iron or steel contained in the original design of such unit.

SEC. 3. *Certification required.* No person shall deliver any heat-resistant chromium or chromium-nickel-alloy iron or steel for any of the uses set forth in Appendix 1 of this schedule unless he first receives from the purchaser to whom delivery is to be made, a signed certificate in the following form:

Certified under Schedule C to NPA Order M-80.

This certification shall constitute a representation by the purchaser to the person making delivery and to NPA that the purchaser will use such material only as permitted in this schedule.

SEC. 4. *Exceptions.* The provisions of this schedule shall not apply to alloying materials to be used for Navy shipboard installations where such use is approved on Form NPAF-60.

SEC. 5. *Communications.* All communications concerning this schedule shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-80, Schedule C.

This schedule as amended shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

APPENDIX 1 TO SCHEDULE C OF NPA ORDER M-80

RESTRICTIONS ON CERTAIN USES OF CHROMIUM AND CHROMIUM-NICKEL, IRON AND STEEL ALLOYS FOR HEAT-RESISTANT PURPOSES

(This schedule does not apply to applications that primarily require corrosion resistance.)

PART 1

Parts for, or equipment used in, industrial, heat-treating, or other metallurgical furnaces

	Furnace parts						Electric heating elements			
	Moderate stress no thermal fatigue. Blades. Blades (carrier). Boxes (annealing). Built-in-beams and supports. Conveyors (screw). Dampers. Furnace buckets. Furnace parts. Hobbers. Rabble arms. Retorts (annealing). Retorts (revolving). Roller rails. Rolls (hearth). Shafts (rotating). Skids. Skid-rails. Trays. Tubes (radiant). Walking-beam furnace parts.		High or indeterminate stress or thermal fatigue exposed to oxidizing or neutral atmospheres. Belts (conveyor). Conveyors (chain). Fans. Fixtures (enameling). Fixtures or trays (liquid, spray and forced-air quench). Hearths (shaker). Plates (hearth). Rolls. Shafts (rotating). Sheathing for electric heating elements and pots (for lead).		High or indeterminate stress or rapid quench and exposed to chemically reactive media. Fans. Fixtures (liquid, spray and forced-air). Hearths (shaker). Muffles. Pots (cyanide). Retorts and accessories (carburizing). Trays (liquid, spray and forced-air). Tubes (radiant).	In air atmosphere.		Protective atmosphere.	
Temperature, °F.	Maximum Ni percent	Maximum percent Ni plus Cr [1]	Maximum Ni percent	Maximum percent Ni plus Cr [1]	Maximum Ni percent	Maximum percent Ni plus Cr [1]	Maximum Ni percent	Maximum percent Ni plus Cr [1]	Maximum Ni percent	Maximum percent Ni plus Cr [1]
Below 900	0	0	0	0	0	0				
900-1,000	2	20	10	35	37	56				
1,000-1,100	2	20	10	35	37	56				
1,100-1,200	2	20	10	35	37	56				
1,200-1,300	10	35	10	35	37	56				
1,300-1,400	10	35	10	35	37	56				
1,400-1,500	15	42	15	42	37	56				
1,500-1,600	15	42	15	42	37	56				
1,600-1,700	15	42	37	56	37	56	37	56		
1,700-1,800	15	42	37	56	37	56	80	100		
1,800-1,900	15	42	37	56	37	56	80	100	37	56
1,900-2,000	37	56	37	56	37	56	80	100	80	100
Over 2,000	37	56	37	56	37	56	80	100	80	100

[1] Seamless wrought tubing: maximum 13 percent Ni and 38 percent Ni plus Cr.
[2] Cr content is a suggested value and not limited to maximum indicated.

PART 1A

Parts for, or equipment used in, industrial, heat-treating, or other metallurgical furnaces

	Exceptions								
	Ammonia dissociation.		Salt [1] bath electrodes (carburizing).		Endothermic gas generators—Muffles (hydrogen).		Metal reduction and sintering (hydrogen).		In media with halogens or halide compounds.
Temperature, °F.	Maximum Ni percent	Maximum percent Ni plus Cr [2]	Maximum Ni percent	Maximum percent Ni plus Cr [2]	Maximum Ni percent	Maximum percent Ni plus Cr [2]	Maximum Ni percent	Maximum percent Ni plus Cr [2]	
Below 900									Special cases requiring nickel commensurate with temperature conditions and compounds.
900-1,000									
1,000-1,100									
1,100-1,200			37	56					
1,200-1,300			37	56					
1,300-1,400			37	56					
1,400-1,500	80	100	37	56					
1,500-1,600	80	100	37	56					
1,600-1,700	80	100	37	56					
1,700-1,800	80	100	37	56			80	100	
1,800-1,900	80	100					80	100	
1,900-2,000	80	100					80	100	
Over 2,000	80	100			80	100	80	100	

[1] For neutral salt baths: 3 percent Ni and 33 percent Ni plus Cr.
[2] Cr content is a suggested value and not limited to maximum indicated.

PART II

Parts for, or equipment used in, furnaces for oil refineries, synthetic rubber plants, and cement mills

Temperature, °F.	Maximum Ni percent	Maximum percent Ni plus Cr [2]
Below 900	0	0
900–1,000 [1]	0	6
1,000–1,050 [1]	0	6
1,050–1,100 [1]	0	6
1,100–1,200 [1]	0	6
1,200–1,300 [1]	0	6
1,300–1,400 [1]	0	6
1,400–1,500	111	35
1,500–1,600	111	35
1,600–1,700	15	42
1,700–1,800	15	42
1,800–1,900	15	42
Over 1,900	18	48

[1] Seamless wrought tubing, maximum 13 percent Ni and 38 percent Ni plus Cr.

[2] Cr content is suggested value and not limited to maximum indicated.

[3] Under conditions of high stress, alloy C (11 maximum percent Ni and 32 maximum percent Ni plus Cr) may be used in temperature range 900°/1,400° F. In cases of seamless tubing footnote No. 1 applies.

PART III

Parts for power boilers and associated equipment

Temperature, °F [1]	For materials for nonload-carrying, non-pressure parts		Materials for load-carrying, non-pressure parts		Maximum allowable metal temperatures for load-carrying, pressure parts	
	Maximum Ni percent	Maximum percent Ni plus Cr [2]	Maximum Ni percent	Maximum percent Ni plus Cr [2]	Maximum Ni percent	Maximum percent Ni plus Cr [2]
Below 800	------	------	0	0	0	0
800–900	0	0	0	6	0	6
900–1,000	0	6	0	6	0	6
1,000–1,050	0	6	0	6	0	6
1,050–1,100	0	6	0	6	0	6
1,100–1,150	0	6	0	6	111	32
1,150–1,200	111	32	14	42	111	32
1,200–1,300	111	32	14	42	------	------
1,300–1,400	111	32	14	42	------	------
1,400–1,500	11	32	14	42	------	------
1,500–1,600	11	32	14	42	------	------
1,600–1,700	14	42	22	50	------	------
1,700–1,800	14	42	22	50	------	------
1,800–1,900	14	42	22	50	------	------
1,900–2,000	14	42	------	------	------	------

[1] Seamless wrought tubing, maximum, 13 percent Ni and 38 percent Ni plus Cr.

[2] Cr content is suggested value and not limited to maximum indicated.

[3] Operating temperatures of materials are based primarily upon load-carrying ability of indicated temperatures. The safe allowable working stress permissible at temperatures is determined by the applicable table found in the ASME Power Boiler Code.

[NPA Order M-84, as Amended July 23, 1952]

M-84—ALUMINUM FOR DESTRUCTIVE USES

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this amended order there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. However, consultation with representatives of all trades and industries affected has been rendered impracticable by the fact that the order affects a very substantial number of different trades and industries.

REGULATORY PROVISIONS

Sec.
1. Purpose and scope.
2. Definitions.
3. Limitations on use of aluminum for destructive uses.
4. Assignment of right to use allotment symbols.
5. Restrictions on sales and deliveries.
6. Request for adjustment or exception.
7. Records and reports.
8. Communications.
9. Violations.

AUTHORITY: Sections 1 to 9 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Purpose and scope.* This order sets forth the procedure by which persons who require aluminum for destructive uses may obtain the appropriate quantities and grades of aluminum.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(b) "NPA" means the National Production Authority.

(c) "Aluminum" means metallic aluminum in the form of pig, ingot, shot or grain, or rod extruded from reclaimed mounted foil scrap, as well as aluminum scrap as defined in paragraph (d) of this section, but does not include aluminum foil, powder, or paste.

(d) "Aluminum scrap" means all materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure, or other reason, the principal ingredient of which by either weight or volume is metallic aluminum, or from which metallic aluminum may be recovered by sweating, either of domestic generation or imported in either loose or pig form, and shall include all types and grades of aluminum residues, such as drosses, skimmings, fines, grindings, sawings, and buffings.

(e) "Destructive use" of aluminum means use in production where aluminum cannot be recovered as a metal, including but not limited to the following uses:

Steel deoxidizing and/or alloying.
Reduction of ferro-alloys (thermit reaction).
Thermit for welding.
Copper-base alloys.
Alnico.
Nickel alloys.
Magnesium-base alloys.
Zinc-base alloys.
Anhydrous aluminum chloride.
Chemical reactions.
Addition to galvanizing bath.
Explosive and pyrotechnical purposes (industrial and commercial).

SEC. 3. *Limitations on use of aluminum for destructive uses.* No person shall use a higher grade or greater quantity of aluminum in destructive uses than is necessary for the particular purpose intended, notwithstanding the fact that the aluminum may have been received pursuant to a specific allotment under the Controlled Materials Plan.

SEC. 4. *Assignment of right to use allotment symbols.* (a) Any person who requires aluminum for any one or more of the following uses may use the allotment symbol X7 plus the "use" identifying number assigned by the order, set opposite the particular use on delivery orders for such aluminum:

Use	"Use" identifying no.
Steel deoxidizing and/or alloying	X7-1
Reduction of ferro-alloys (thermit reaction)	X7-2
Thermit for welding	X7-3
Copper-base alloys	X7-4
Alnico	X7-5
Nickel alloys	X7-6
Magnesium-base alloys	X7-7
Zinc-base alloys	X7-8
Anhydrous aluminum chloride	X7-9
Chemical reactions	X7-7
Addition to galvanizing bath	X7-7
Explosive and pyrotechnical purposes (industrial and commercial)	X7-0

Such allotment symbol may be used only to obtain the amount of aluminum actually required for production authorized under applicable NPA regulations, orders, or directives, and the aluminum so obtained may be used only in accordance with the limitations of section 3 of this order. Any delivery order bearing any one of the above allotment symbols and certified as provided in paragraph (c) of section 19 of CMP Regulation No. 1 shall constitute an authorized controlled material order for the purpose of all CMP regulations.

(b) Any person who has received an allotment of aluminum for any of the purposes set forth in paragraph (a) of this section, shall not use the procedure provided for in this section to obtain aluminum unless he shall first have returned such allotment as provided in section 18 of CMP Regulation No. 1.

(c) Any person who requires aluminum for any destructive use other than those listed in paragraph (e) of section 2 of this order may apply for authorization to use an allotment symbol to obtain such aluminum to the National Production Authority, Washington 25, D. C., Ref: M-84.

SEC. 5. *Restrictions on sales and deliveries.* No person shall sell or deliver aluminum to any person if he knows or has reason to believe such material is to be used in violation of the provisions of this order, and no person shall purchase or accept delivery of aluminum if such material is to be used in violation of the provisions of this order.

SEC. 6. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 7. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 8. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: M-84.

SEC. 9. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully conceals a material fact or furnishes false information in the course of operation under this order is guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-8235; Filed, July 23, 1952; 12:18 p. m.]

[NPA Order M-88 as Amended July 23, 1952]

M-88—ALUMINUM DISTRIBUTORS

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this order there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

EXPLANATORY

NPA Order M-88 of November 1, 1951, as amended by Amendment 1 of January 25, 1952, is amended in the following respects:

1. The definition of "aluminum" no longer includes aluminum foil or powder.
2. The definition of "distributor" in section 2 is broadened to include persons who deal in surplus aluminum.
3. Definitions of "surplus aluminum," "mill distributor," and "surplus distributor" are added to section 2.
4. Provision is made in a new section 4 for assignment and use of the allotment symbol AS by surplus distributors.
5. The provisions covering NPA assistance to distributors in placing authorized controlled material orders is amended to provide for such assistance by directive action.
6. Those sections of the order respecting records and reports and applications for adjustment or exception are amended to conform their language and provisions with corresponding provisions in more recent NPA orders and regulations.

This order as amended embodies, and in some respects revises, the substance of Amendment 1 to NPA Order M-88 of January 25, 1952.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Assignment and use of AM numbers.
4. Assignment and use of the symbol AS.
5. Distributors who operate more than one warehouse or in more than one capacity.
6. How a mill distributor obtains aluminum.
7. How a surplus distributor obtains aluminum.
8. Limitations on acceptance of mill distributors' orders by aluminum producers.
9. Acceptance of orders which are not authorized controlled material orders.
10. Rejection of orders by distributors.
11. Certification.
12. Imported aluminum.
13. Applicability of other regulations and orders.
14. Request for adjustment or exception.
15. Records and reports.
16. Communications.
17. Violations.

AUTHORITY: Sections 1 to 17 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* The purpose of this order is to provide the means whereby aluminum distributors who purchase aluminum from domestic aluminum producers may obtain replacements of their stock, and also to provide the means whereby aluminum distributors who deal with surplus stocks of aluminum may acquire material for resale. It specifies a tonnage limitation and item limitation for acceptance of authorized controlled material orders by distributors, and also permits distributors to accept and fill certain orders for aluminum controlled materials although they are not authorized controlled material orders. It authorizes mill distributors to place authorized controlled material orders with producers, and supplements CMP Regulation No. 4. It authorizes surplus distributors to place authorized controlled material orders with consumers of aluminum, an owner, a contractor, or a subcontractor (as defined in Revised CMP Regulation No. 6) to whom certain quantities may have become surplus, and it supplements section 17 (d) of CMP Regulation No. 1 and section 17 (f) of Revised CMP Regulation No. 6.

SEC. 2. *Definitions.* As used in this order: (a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or of any other government.

(b) "Aluminum" means only the following aluminum wrought forms and shapes:

Rolled bar, rod, wire (including drawn wire), structural shapes.
Aluminum cable steel reinforced (ACSR) and bare aluminum cable.
Insulated or covered wire or cable.
Extruded bar, rod, shapes, tubing (including drawn or welded tubing).
Sheet, strip, plate.
Pig or ingot, granular or shot.

(c) "Surplus aluminum" means aluminum in the possession of a consumer (as defined in CMP Regulation No. 1), an owner, a contractor, or a subcontractor (as defined in Revised CMP Regulation No. 6) who has properly received delivery of aluminum but cannot use it for a purpose permitted by section 17 (b) of CMP Regulation No. 1, or section 17 (d) of Revised CMP Regulation No. 6.

(d) "Distributor" means any person who is regularly engaged in the business of stocking any of the forms and shapes of aluminum listed in paragraph (b) of this section at a location regularly maintained by him for such purpose, for general sale or resale, in the form or shape in which received, or after performing such operations as cutting to length, slitting, shearing to size or shape, or sorting and grading. A person who, in connection with any sale from his stock, bends, punches, or performs any fabricating or processing operation designed to prepare aluminum for final use or assembly, is not a distributor with respect to such sale; and a person who, in connection with any purchase of aluminum for resale, does not take physical delivery of the material into his own stock, at a location regularly maintained by him for such purpose, shall not be deemed a distributor with respect to such resale.

(e) "Mill distributor" means a distributor who obtained aluminum from a do-

mestic aluminum producer during the base period.

(f) "Surplus distributor" means a distributor who buys and sells surplus aluminum.

(g) "Producer" means any person producing aluminum in any one or more of the forms or shapes listed in paragraph (b) of this section.

(h) "Base period" means the calendar year 1950.

(i) "AM number" means the allotment symbol AM together with the number which is assigned by NPA to each person who produces, smelts, fabricates, distributes, or sells aluminum.

(j) "AS symbol" means the allotment symbol AS used by persons engaged in the distribution of surplus aluminum in making purchases of aluminum in accordance with this order.

(k) "NPA" means the National Production Authority.

SEC. 3. *Assignment and use of AM numbers.* AM numbers in the 9000 series are assigned to mill distributors by NPA upon application in writing. A mill distributor shall use the AM number assigned to him by NPA, in the manner set forth in section 6 of this order, whenever he purchases or receives delivery of aluminum. No person shall use an AM number unless it has been assigned to him in writing by NPA. Nothing contained in this order shall be deemed to prevent the assignment of an AM number to persons who are assigned the symbol AS in accordance with section 4 of this order.

SEC. 4. *Assignment and use of the symbol AS.* The allotment symbol AS is assigned by NPA to surplus distributors upon application in writing. A surplus distributor shall use the allotment symbol AS in the manner set forth in section 7 of this order, whenever he purchases or receives delivery of surplus aluminum. No person may use the allotment symbol AS unless it has been assigned to him in writing by NPA. Nothing contained in this order shall be deemed to prevent the assignment of the symbol AS to persons who have been assigned an AM number.

SEC. 5. *Distributors who operate more than one warehouse or in more than one capacity.* (a) Any distributor who operates more than one warehouse may, for the purpose of this order, elect to consider all warehouses operated by him as one warehouse, or may treat each such warehouse as a separate distributor. Once an election is made, it may not thereafter be changed without written authorization of NPA.

(b) Any distributor may operate both as a mill distributor and a surplus distributor. In any such case, his operations as a mill distributor shall be governed by the provisions of this order applicable to mill distributors, and his operations as a surplus distributor shall be governed by the provisions of this order applicable to surplus distributors.

SEC. 6. *How a mill distributor obtains aluminum.* (a) In each calendar month a mill distributor may place orders with a domestic producer for the same quantity of each form and shape of aluminum which he delivered during the preceding month, from his stock of aluminum purchased from a domestic producer, to fill authorized controlled materials orders, orders which he is permitted to accept under the provisions of section 9 of this order, or orders which he has been directed to fill by NPA. Such orders must bear the distributor's AM number and the certification required by section 11 of this order.

(b) In the event a mill distributor does not sell a sufficient quantity of forms or shapes during any single month to warrant a mill-rolling of that form or shape by the producer, he may accumulate the orders he is authorized to place by this order for that particular form or shape for a period not to exceed three calendar months. Orders which are accumulated in accordance with this paragraph may be considered to have been deliveries "during the preceding month" for the purposes of paragraph (a) of this section.

(c) In order to enable mill distributors to maintain inventories at a level consistent with the total supply of aluminum and the needs of consumers who normally purchase aluminum from mill distributors, NPA may from time to time authorize a mill distributor to acquire specific quantities of a given form or shape of aluminum in addition to the quantity he is permitted to order pursuant to paragraph (a) of this section.

(d) A mill distributor's order bearing his AM number and the certification required by section 11 of this order is hereby designated an authorized controlled material order for the purpose of all CMP regulations.

SEC. 7. *How a surplus distributor obtains aluminum.* (a) A surplus distributor may place orders for aluminum only with a consumer of such material, or an owner, a contractor, or a subcontractor who has properly received delivery thereof but who cannot use them for a purpose permitted by section 17 (b) of CMP Regulation No. 1 or section 17 (d) of Revised CMP Regulation No. 6, and who desires to dispose of them. Such orders must bear the allotment symbol AS and the certification required by section 11 of this order.

(b) A surplus distributor's order bearing the allotment symbol AS and his certification as required by section 11 of this order is hereby designated an authorized controlled material order for the purpose of section 17 (d) of CMP Regulation No. 1 and section 17 (f) of Revised CMP Regulation No. 6.

SEC. 8. *Limitations on acceptance of mill distributors' orders by aluminum producers.* (a) An aluminum producer need not accept an order bearing the mill distributor's AM number and the certification required by section 11 of this order if the mill distributor placing the order did not purchase aluminum from such producer during the base period.

(b) An aluminum producer need not accept an order bearing the mill distributor's AM number and the certification required by section 11 for any form or shape of aluminum which the mill distributor placing the order did not purchase from the producer during the base period.

(c) If any order of a mill distributor is rejected by a producer, the mill distributor should apply to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-88, specifying the aluminum producer that refused to accept the order. NPA will assist him in locating sources of supply. NPA may from time to time issue directives to aluminum producers with respect to the acceptance of and shipment to fill a mill distributor's order.

SEC. 9. *Acceptance of orders which are not authorized controlled material orders.* Subject to the limitations provided in section 10 of this order, a mill distributor who has been assigned an AM number, or a surplus distributor who is entitled to use the allotment symbol AS may accept orders from persons who are not required to have an authorized production schedule or allotment, and who are not entitled to place an authorized controlled material order under any other order or regulation of NPA (for example: persons ordering aluminum for personal or household use), for shipment each month of a quantity of aluminum not to exceed, in the aggregate shipped to all such persons, 5 percent of his total sales from stock during the previous month.

SEC. 10. *Rejection of orders by distributors.* (a) Unless specifically directed by NPA, no distributor shall be required to accept any order calling for delivery to any one person at any one destination for any one month, and regardless of gages, alloys, sizes, or shapes, of more than 1,000 pounds of aluminum sheet or plate, more than 300 pounds of aluminum wire, rod, or bar, or more than 300 pounds of aluminum tubing, extrusions, or structural shapes.

(b) A mill distributor may accept an order from another mill distributor, but is not required to do so unless specifically directed to by NPA. No person operating solely as a surplus distributor may place an order with, or accept delivery from, any other distributor.

(c) NPA from time to time may earmark particular aluminum products in the inventory of any aluminum distributor for special treatment by such distributor. Any such earmarking shall be accomplished by the issuance by NPA of published schedules under this order or by directives to specified distributors. Such schedules or directives may provide, among other things, that the aluminum products so earmarked shall be held by the aluminum distributor solely for sale to persons designated by an agency of the United States Government. Such schedules or directives may contain such other provisions particularly applicable to such earmarked stock as NPA may deem appropriate. All provisions of any schedule or directive shall be deemed to be incorporated into and made a part of this order as of the effective date of the schedule, or directive, or amendment thereto, as the case may be. In the event of any inconsistency between a schedule or directive and this order, the provisions of the schedule or directive shall govern. Schedules or directives may be issued or amended at any time and from time to time, and shall remain in full force and effect until individually amended, superseded, or revoked.

SEC. 11. *Certification.* Each order for aluminum bearing the allotment symbol AM placed by a distributor with an aluminum producer and each order for aluminum bearing the allotment symbol AS placed by a distributor with a consumer, an owner, a contractor, or a subcontractor pursuant to this order shall contain a certification in substantially the following form:

Certified under CMP Regulation No. 1 and NPA Order M-88

The certification shall be signed as set forth in NPA Reg. 2, and will constitute a representation to the person with whom the order is placed and to NPA that the purchaser is authorized to use the AM number or allotment symbol AS under the provisions of this order to obtain the material so ordered.

SEC. 12. *Imported aluminum.* Nothing contained in this order restricts or limits the acquisition of imported aluminum by persons who acquire title to such material before its entry into the United States, its territories or possessions, and who do not use the aluminum so acquired.

SEC. 13. *Applicability of other regulations and orders.* Nothing contained in this order shall be construed to relieve any person from the obligation of complying with such limitations as may be contained in any other applicable NPA regulation or order or of any order or regulation of any other competent authority.

SEC. 14. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 15. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Each distributor shall file a report on Form NPAF-122 with the Bureau of the Census not later than the tenth day of each month following the month covered by the report.

(d) Persons subject to this order shall make such records and submit such other reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 16. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-88.

SEC. 17. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-8237; Filed, July 23, 1952; 12:18 p. m.]

[NPA Order M-89, Amendment 2 of July 23, 1952]

M-89—DISTRIBUTION OF CONTROLLED MATERIALS TO RETAILERS

DELETION OF CERTAIN ALUMINUM ITEMS FROM SCHEDULE

This amendment to NPA Order M-89 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action and because the amendment affects a large number of different trades and industries.

AMENDATORY PROVISIONS

NPA Order M-89, as last amended May 9, 1952, is hereby amended in the following respects:

The following items in Schedule I of NPA Order M-89, as amended May 9, 1952, under the heading *C. Aluminum* are deleted, the other items under that heading being redesignated accordingly.

$25	(d)	Foil in mill form, but not including foil sold for packaging or general household use	60
$25	(h)	Powder (atomized or flake, including paste)	60

As amended, Schedule I under the heading *C. Aluminum* now reads as follows:

C. Aluminum

$25	(a)	Bars and rods, rolled or extruded	60
$25	(b)	Extruded shapes	60
$35	(c)	Sheets	60
$50	(d)	Tubing	60
$25	(e)	Drawn wire, such as used for guy wire or clothes line	60
$25	(f)	Insulated or covered wire or cable for electrical conduction	60

(Sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Supp. 2154)

This amendment shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

[F. R. Doc. 52-8238; Filed, July 23, 1952; 12:18 p. m.]

[NPA Reg. 1, as Amended July 23, 1952]

NPA REG. 1—INVENTORY CONTROL

This regulation, as amended, is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by the Defense Production Act of 1950, as amended. In the formulation of this amended regulation, consultation with industry representatives has been rendered impracticable because this regulation applies to all trades and industries.

This regulation, as amended, affects NPA Reg. 1, as amended by Amendment 1 of May 16, 1952, and by Amendment 2 of June 30, 1952, as follows: The second sentence of paragraph (b) of section 2 is changed in order to refer specifically to the period intended. Changes of a minor nature are made in paragraphs (a) and (b) of section 5. Section 13 is changed to provide for an election of the method of maintaining inventory records where more than one operating unit is involved. Certain items have been deleted from Table IA under the headings "Chemicals," "Forest Products," "Metals and Minerals," "Textile Materials" and "Miscellaneous." A few chemicals have been added to Table IA and certain items appearing in Table IB are also added to Table IA, as shown therein by asterisks.

domestic producer for the same quantity of each form and shape of aluminum

or shape of aluminum which the mill distributor placing the order did not pur-

order, the provisions of

directive shall govern. Schedules or di-

the provisions of this order. This order

lation of this amendment, consultation

Table IA, as shown therein by asterisks.

Certain items have been deleted from Table IB. Other items have been deleted from Table II because of revocation or changes in certain of the M-orders previously listed therein.

AUTHORITY: Sections 1 to 19 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789.

SECTION 1. *What this regulation does.* The purpose of this regulation is to prevent the accumulation of excessive inventories of materials in short supply. It does this by limiting the quantities of such materials that can be ordered, received, or delivered.

SEC. 2. *Definitions.* As used in this regulation:

(a) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(b) "Practicable minimum working inventory" means the smallest quantity of material from which a person can reasonably meet his deliveries or supply his services on the basis of his currently scheduled method and rate of operation. In the absence of unusual circumstances, a person's inventory will be considered more than a practicable minimum working inventory if the ratio of his inventory to his currently scheduled operations is substantially greater than the ratio which he normally maintained between his inventory and his operations during any reasonably representative period in the 6 months ending June 30, 1950.

SEC. 3. *Materials affected.* This regulation applies only (a) to those materials listed in Table IA or Table IB (as amended from time to time) appearing at the end of this regulation, in the shapes and forms therein specified, or if no particular shape or form of any such material is specified, then in all shapes and forms of such material, and (b) to such other materials as may be made subject to it by any other NPA regulation or order.

SEC. 4. *Persons affected.* This regulation applies to all persons buying for use or resale, including resale in export trade, except an ultimate consumer with respect to the buying of materials for his personal or household use.

SEC. 5. *Restrictions on receipts.* (a) Except as provided in paragraph (b) of this section, no person may receive or accept delivery of any material listed in Table IA of this regulation, if his inventory of such material is, or by reason of such receipt would become, more than a practicable minimum working inventory.

(b) No person buying for use in production or construction or for use as maintenance, repair, or operating supplies, may receive or accept delivery of any material listed in Table IB of this regulation, if his inventory of such material is, or by reason of such receipt would become, more than a practicable minimum working inventory, or more than the smallest quantity thereof reasonably required to meet his deliveries or supply his services on the basis of his currently scheduled method and rate of operation during the next succeeding number of calendar days listed for that material in column 2 of Table IB, whichever is less.

(c) In figuring his inventory a person must include all such material referred to in paragraphs (a) and (b) of this section, in his possession or held for his account by others, but not that held by him for the account of others. For the purpose of the restrictions in paragraphs (a) and (b) of this section, a material which is to be further processed is considered to be in inventory until actually put into process or actually installed or assembled. For the purpose of this regulation, processing does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming, or other operation, unless such initial operation is a part of a continuous fabricating or assembling operation; nor does it include operations such as inspection, testing, and aging, or segregation or earmarking for a specific job.

(d) Any person engaged in a seasonal business or industry who normally stocks inventory in advance of the season may, notwithstanding the restrictions in paragraphs (a) and (b) of this section, accept such advance delivery of his seasonal requirements provided that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated seasonal requirements.

SEC. 6. *Restriction on deliveries.* No person may deliver any material if he knows, or has reason to believe, that the person requesting delivery is forbidden to receive it by this regulation.

SEC. 7. *Restrictions on ordering.* (a) No person may place any order calling for delivery of any material earlier, or in larger amounts, than he would be permitted to receive under this regulation.

(b) No person may place separate orders with the same supplier, or with different suppliers, calling for delivery in the aggregate of any material in excess of the amount he is permitted to receive under this regulation even though he intends to cancel one or more of the orders before delivery.

SEC. 8. *Adjustment of orders.* (a) A person who, prior to the effective date of any amendment to this regulation, has placed any order for a material calling for delivery earlier, or in greater quantities, than he is permitted to receive under this regulation must promptly cancel, reduce, or defer delivery under, every such order to the extent necessary so that delivery will not result in his exceeding his practicable minimum working inventory of such material. Nothing in this section shall affect any obligation of, or liability incurred by, a person under this regulation prior to the effective date of any amendment of this regulation.

(b) A person whose requirements change because of an alteration in his operations, slowing or stoppage of his production, or delayed delivery by suppliers, or for any other reason, must promptly cancel, reduce, or defer delivery under, his outstanding orders to the extent necessary so that delivery will not result in his exceeding his practicable minimum working inventory.

SEC. 9. *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders as required by section 8 of this regulation, delivery of the material involved may be made and accepted, and the restrictions on receipts of materials provided in this regulation may be exceeded, in any of the following cases only:

(a) If the supplier has shipped the material or loaded it for shipment before receipt of the instruction to adjust the order.

(b) If the material is a special item which, before receipt of the instruction to adjust the order, the supplier had in stock, or in production, or for the production of which he had acquired special components or special materials. For the purpose of this section a "special item" is one which the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others.

(c) If the material had already been produced or was in production before receipt of the instruction to adjust the order and cannot be used to fill other orders on the producer's books.

SEC. 10. *Imported materials.* A person may import any material acquired prior to landing without regard to the inventory restrictions of this regulation. However, if his inventory of a material thereby becomes in excess of the amount permitted, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him is permitted to receive.

SEC. 11. *Minimum production or sales quantities.* In the case of materials that are mass produced or are normally marketed only in minimum sales quantities, a person may order and receive from a producer a minimum production run of such a material, or from any other supplier a minimum sales quantity, provided it is not practicable for him to procure his needs from other suppliers in smaller quantities, even though his inventory of such material is thereby increased beyond a practicable minimum working inventory. He may not thereafter receive additional quantities of such material until his inventory thereof is reduced below a practicable minimum working inventory.

SEC. 12. *Excess inventory.* This regulation does not provide for disposal of excess inventory which may be on hand. Excess inventory may, however, be subject to requisition under certain circumstances, as provided in section 201 (a) of Title II of the Defense Producton Act of 1950, as amended.

SEC. 13. *Separate operating units.* A person who has or may hereafter have more than one operating unit in his business may elect on or after July 23, 1952, to maintain separate inventory records for any of such units. After such an election has been made it may not at any time thereafter be changed without the prior written approval of NPA. The provisions of this regulation shall apply independently to any unit for which separate inventory records are maintained pursuant to this section.

SEC. 14. *Relation to other NPA regulations and orders.* Other or additional inventory restrictions are included in certain NPA orders and other regulations presently in effect, and may be included in NPA orders and other regulations issued in the future. The inventory restrictions of any such order or other regulation shall govern to the extent that they modify this regulation. Table II at the end of this regulation includes a list of materials with respect to which quantitative inventory restrictions are provided in the orders and other regulations listed in that table, in effect on the date specified in that table. Even if an NPA order or other regulation containing inventory restrictions is not listed in Table II, a person must nevertheless comply with such restrictions. Upon revocation in any manner of the inventory restrictions of an order or regulation listed in Table II, covering a material listed in Table IA or Table IB of this regulation, all provisions of this regulation shall apply to such material.

SEC. 15. *Defense against claims for damages.* Persons complying with this regulation are entitled to the protection afforded by section 707 of the Defense Production Act of 1950, as amended, which provides in part that "No person shall be held liable for damages or penalties for any act or failure to act resulting directly or indirectly from his compliance with a rule, regulation, or order issued pursuant to this act, notwithstanding that any such rule, regulation, or order shall thereafter be declared by judicial or other competent authority to be invalid."

SEC. 16. *Request for adjustment or exception.* Any person affected by any provision of this regulation may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this regulation, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 17. *Records and reports.* (a) Each person participating in any transaction covered by this regulation shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this regulation. This regulation does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this regulation shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this regulation shall make such records and submit such reports to NPA as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 18. *Communications.* All communications concerning this regulation shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Reg. 1.

SEC. 19. *Violations.* Any person who wilfully violates any provision of this regulation, or any other regulation or order of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this regulation, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

NPA Reg. 1, as so amended, shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

TABLE IA OF NPA REG. 1

(As amended July 23, 1952)

MATERIALS SUBJECT TO PRACTICABLE MINIMUM WORKING INVENTORY LIMITATION

(See section 5 (a))

[Items preceded by asterisk (*) have been added or are changed in their description since issuance of NPA Reg. 1 as amended April 2, 1952]

CHEMICALS

Acetylene.
*Alkyl and aromatic substituted phenolic resins.
Alkyl polysulfide polymers (Thiokol-polymers, trade name).
Alpha picoline.
Argon.
Benzene (benzol).
*Bis-phenol.
Butadiene.
Calcium carbide.
*Charcoal, granular.
*Chlorine.
Cobalt salts and driers.
Copper chemicals.
Cyclohexanol.
Dihydroxydichlorodiphenylmethane.
Freon.
Lithium chemicals.
*Lithium metal.
Methylene chloride.
Monochlorotrifluorethylene.
Naphthalene.
Nickel chemicals.
Oxygen.
Parachlorophenol.
Paranitrophenol.
*Paraphenylphenol.
*Paratertiary butyl phenol.
Phthalic anhydride.
Pine oil.
Polyethylene.
Polyethylene resins.
Pyrethrum.
Pyridine.
Selenium compounds (as defined in NPA Order M-91).
Sulfur.
Sulfuric acid.
Toluene.

FOREST PRODUCTS

*Lumber as specified below (excluding inventories of producers or distributors, but including inventories of users).
Cedar: Port orford.
Cypress.
Douglas fir, thick clears.
Eucalyptus: Ironbark.
Pine: Southern, longleaf, upper grades.
Teak.
*Plywood, softwood AA grade, all thicknesses, exterior and interior; ¼ inch, all grades, exterior.

LEATHER AND TANNING MATERIALS

Vegetable tanning materials:
Chestnut.
Wattle.

IRON AND STEEL

*Gray iron castings (excluding cast iron soil and pressure pipe and fittings), rough and semifinished.
*Malleable iron castings, rough and semifinished.
*Pig iron.
Steel:
*Forgings (rough as forged).
Iron and steel scrap.
*Non-nickel-bearing stainless (i. e., containing less than 1 percent nickel).

METALS AND MINERALS

*Aluminum foil (plain coiled).
*Aluminum powder (atomized or flake, including paste).
Aluminum scrap.
Asbestos, amosite.
Asbestos, chrysotile, spinning fibers.
Asbestos, crocidolite.
*Beryllium: Metal, oxides, master alloys, and compounds.
Cerium:
Cerium metal, cerium alloys, such as ferro-cerium and cerium compounds in which cerium is a recognizable component.
All scrap and waste material containing commercially recoverable cerium of the above listed types.
*Chromium:
Chrome metal.
Ferro-chrome.
*Cobalt: Cobalt metal, oxides, and hydrides.
*Columbium: Pure metal and chemicals, ferro-columbium, ferro-columbium-tantalum (ferro-tantalum-columbium).
Copper:
Refined copper (fire-refined and electrolytic).
Secondary copper and copper-base alloys.
All copper and copper-base alloy scrap containing commercially recoverable copper.
Corundum, grain and superfines.
Cryolite.
Diamonds, industrial.
Electrodes, carbon.
Fluorspar, acid and ceramic grades.
Graphite, artificial, electrodes and anodes.
*Graphite, natural:
Crucible flake.
Ceylon lump, 97 percent and higher carbon.
Iridium.
Magnesium:
Magnesium, primary and secondary ingots.
Semifabricated shapes.
All magnesium-base alloy scrap containing commercially recoverable magnesium.
*Manganese: Manganese metal and ferro-manganese.
Mica, muscovite block and film, good stained and better.
*Molybdenum:
Pure metal, powder, wire, rod, sheet.
Ferro-molybdenum, molybdenum oxide and molybdenum compounds.
Nickel:
Nickel, alloyed or unalloyed.
Imported nickel matte.
Nickel and nickel alloy, metal (cathode nickel, pigs, shot, and other primary forms).
Nickel and nickel alloy, secondary.
Nickel and nickel alloy, semifinished; bars, rods, tubes, sheet bar, ingot, blooms, billets, sheet strip, and similar mill products not further manufactured.
All nickel and nickel-base alloy scrap and nickel silver scrap containing commercially recoverable nickel.
Platinum.
*Rutile.
*Scrap, ferrous and nonferrous (except antimony, bismuth, cadmium, lead, and zinc scrap).
*Selenium and selenium alloys.
*Talc, block (lava grade).
*Tantalum:
Pure metal and chemicals.
Ferrotantalum-columbium.
*Tin:
Pig tin, primary or secondary.
All other materials and alloys containing 1.5 percent or more tin.
*Titanium:
Sponge.
Semifabricated shapes.
Sheets, tubes, extrusions.
Titanium-bearing alloys.
Titanium-base alloy scrap.
*Tungsten: Pure metal, powder, wire, rod, sheet, chemical compounds, ferrotungsten.
*Vanadium: Ferrovanadium, vanadium oxide, ammonium meta-vanadate, and other vanadium-bearing products.
Zirconium: Zirconium metal, ferro-aluminum-zirconium-silicon alloys, and all other metallic compositions used as sources of zirconium in the manufacture of any alloy products.

RUBBER MATERIALS

Natural rubber, dry.

TEXTILE MATERIALS

Nylon staple and nylon filament yarn.
Rayon yarn, high-tenacity.
Silk, noils and waste.
Twine, binder and baler.

MISCELLANEOUS

*Bristles, pigs' and hogs'.
*Components and parts for electric light bulbs and tubes.

CONTAINERS AND PACKAGING MATERIALS

Collapsible tubes.
Cylinders, gas.
*Metal cans.
Packaging closures made in whole or in part of controlled materials.[1]

TABLE IB OF NPA REG. 1

(As amended July 23, 1952)

MATERIALS SUBJECT TO SPECIFIC CALENDAR DAY INVENTORY LIMITATION OR TO PRACTICABLE MINIMUM WORKING INVENTORY LIMITATION, WHICHEVER IS LESS

(See section 5 (b))

[Items preceded by asterisk (*) have been added or are changed in their description since issuance of NPA Reg. 1 as amended April 2, 1952]

Materials	Inventory limitation (calendar days)
*Aluminum castings (before machining)	60
*Aluminum forgings, pressings, and impact extrusions (before machining)	60
*Aluminum foil (plain coiled)	60
*Aluminum powder (atomized or flake, including paste)	60
Components and parts for electric light bulbs and tubes	60
*New drums, steel shipping	[2] 60
Iron:	
*Pig iron	30
*Gray iron castings (excluding cast iron soil and pressure pipe and fittings), rough and semifinished	60
Steel:	
Forgings (rough as forged)	60
Non-nickel-bearing stainless (i. e., containing less than 1 percent nickel)	45
Reels and spools, shipping and package, wholly or in part of metal	[2] 60
Rutile	45
Strapping, metal (but not less than 1,000 pounds)	[2] 60

[1] Packers may continue customary carload or truckload lot purchases provided deliveries are not received or accepted until inventories of drums of each size and type included in such carload or truckload is less than a 45-calendar-day supply. The practicable minimum working inventory limitation provision does not apply.

[2] The practicable minimum working inventory limitation provision does not apply.

[2] Users customarily purchasing metal strapping in full carload lots may continue such purchases provided deliveries are not received or accepted until inventory is less than a 45-calendar-day supply. The practicable minimum working inventory limitation provision does not apply.

[1] Packers may purchase packaging closures in carload or truckload lots provided deliveries of any size or type of packaging closures are not received or accepted until inventory of the particular size or type is less than a practicable minimum working inventory.

TABLE II OF NPA REG. 1

(As amended July 23, 1952)

MATERIALS SUBJECT TO SPECIAL INVENTORY RESTRICTIONS IN NPA ORDERS OR OTHER NPA REGULATIONS IN EFFECT ON JULY 23, 1952

(See section 14)

[Items preceded by asterisk (*) have been added since issuance of NPA Reg. 1 as amended April 2, 1952]

Materials	NPA order or regulation
Pig tin	M-8
Lead-base alloys (1.5 percent or more tin)	M-8
All other materials and alloys containing 1.5 percent or more tin	M-8
Copper, refined and or scrap	M-19
Iron and steel scrap	M-20
Aluminum scrap	M-22
Cans	M-25
Steel, copper, and aluminum for electric utilities	M-50
Platinum and platinum scrap	M-54
Sulfur	M-59
Marine MRO	M-70
*MRO for rail transportation systems	M-73
*Communications	M-77
MRO for mining industry	M-78
Alloying materials:	
Boron	M-80
Calcium	M-80
Chromium	M-80
Cobalt	M-80
Columbium and tantalum	M-80
Manganese	M-80
Molybdenum, excluding pure molybdenum	M-80
Nickel	M-80
Silicon	M-80
Titanium	M-80
Tungsten, excluding pure tungsten	M-80
Vanadium	M-80
Zirconium	M-80
Pure tungsten	M-81
Pure molybdenum	M-81
Brass mill products	M-82
Copper wire mill products	M-86
MRO for solid fuels industry	M-87
Certain controlled materials in the inventory of a retailer	M-89
Selenium	M-91
Sulfuric acid	M-94
Cryolite	M-99
*Diamond grinding wheels	M-103
*MRO for iron and steel producers	M-105
Steel (controlled material shapes and forms)	CMP Reg. 2
Copper (controlled material shapes and forms)	CMP Reg. 2
Aluminum (controlled material shapes and forms)	CMP Reg. 2
MRO—general	CMP Reg. 5
MRO repairmen	CMP Reg. 7

NOTE: Interpretations 1, 2, and 3, as amended October 22, 1951, remain in full force and effect.

[F. R. DOC. 52-8239; Filed, July 23, 1952; 12:19 p. m.]

[NPA Reg. 2, Direction 3 as Amended July 23, 1952]

REG. 2—BASIC RULES OF THE PRIORITIES SYSTEM

DIR. 3—RESTRICTIONS UPON USE OF RATINGS

This amended direction to NPA Reg. 2 is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by the Defense Production Act of 1950, as amended. In the formulation of this direction as amended, consultation with industry representatives, including trade

association representatives, has been rendered impracticable by the fact that this direction applies to all trades and industries.

REGULATORY PROVISIONS

SECTION 1. (a) No rating shall be applied or extended to obtain any of the materials or products listed in any numbered item of Appendix A of this direction on or after the date set forth opposite such numbered item, unless the rating bears a program identification consisting of the letter **A**, **B**, **C**, or **E**, and one digit, or the program identification Z-1 or Z-2.

(b) These restrictions shall not affect the status of ratings applied or extended to obtain any item listed in Appendix A of this direction prior to the date set forth opposite each such numbered item.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This direction as amended, shall, except as otherwise provided herein, take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

APPENDIX A OF DIRECTION 3 TO NPA REG. 2

Material or product	Effective date
1. Any basic, organic, or inorganic chemicals, their intermediates and derivatives, other than compounded end products not customarily sold as chemicals.	Sept. 25, 1951
2. Any primary paper or paperboard (this does not include paper or paperboard processed beyond the primary or base stock stage).	Jan. 15, 1952
3. Waterfowl feathers (goose or duck feathers and down, separated from the fowl, domestic and imported, new and used, regardless of length; except flight feathers having no natural curl).	May 12, 1952
4. Pigs' or hogs' bristles, and brushes and bristle products containing pigs' or hogs' bristles.	June 13, 1952
5. High-tenacity rayon (yarn of 250 denier or coarser and having an average tenacity of 3 grams per denier or higher).	July 18, 1952
6. Pig iron	July 18, 1952
7. Aluminum foil, aluminum powder (atomized or flake, including paste)	July 23, 1952

[F. R. Doc. 52-8240; Filed, July 23, 1952; 12:19 p. m.]

[NPA Designation of Scarce Materials 1, as Amended July 23, 1952]

DSM-1—DESIGNATION OF SCARCE MATERIALS AND WITHDRAWAL OF PREVIOUS DESIGNATION

This amended designation is issued pursuant to section 102 of the Defense Production Act of 1950, as amended; Executive Orders 10161, 10200, and 10281; and Defense Production Administration Delegation 1, as amended (16 F. R. 738, 4594).

DSM-1, as last amended June 5, 1952, is amended by revising the designation of scarce materials contained in the appended List A and the withdrawals contained in the appended List B, and by revising section 8 to reflect the changes made in such designation and withdrawal.

REGULATORY PROVISIONS

Sec.
1. Purpose of this designation.
2. Definition of person.
3. Designation of scarce materials.
4. Receipts of imported materials.
5. Receipts of minimum production or sales quantities.
6. Receipts of materials after adjustment of orders.
7. Applicability of other provisions of law, regulation, and orders.
8. Withdrawal of designation of scarce materials.

AUTHORITY: Sections 1 to 8 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 102, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2072; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951, Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789, 3 CFR, 1951 Supp.

SECTION 1. *Purpose of this designation.* Section 102 of the Defense Production Act of 1950, as amended, provides in part that, in order to prevent hoarding, no person shall accumulate (a) in excess of the reasonable demands of business, personal, or home consumption, or (b) for the purpose of resale at prices in excess of prevailing market prices, materials which have been designated as scarce materials or materials the supply of which would be threatened by such accumulation. This designation lists certain materials as scarce materials. It also prescribes in sections 4, 5, and 6, certain conditions under which a person may accumulate such materials in excess of the reasonable demands of business, personal, or home consumption. In addition it lists other materials which are withdrawn from their previous designation as scarce.

SEC. 2. *Definition of person.* As used in this designation, the word "person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

SEC. 3. *Designation of scarce materials.* Each material included in List A of this designation, in the shapes and forms therein described, or in all shapes and forms if no particular shape or form is therein described, is hereby designated, pursuant to section 102 of the Defense Production Act of 1950, as amended, a scarce material. Whenever "material" or "materials" is hereinafter used, it means any such designated material or materials.

SEC. 4. *Receipts of imported materials.* (a) Notwithstanding any provision of this designation, a person may import by land, sea, or air any material acquired by him prior to landing without regard to the reasonable demands of his business, personal, or home consumption. However, if his total quantity of a material accumulated thereby becomes in excess of the reasonable demands of his business, personal, or home consumption, he may not receive any additional amount of such material from any domestic source until his total quantity thereof has been reduced below an amount which is not in excess of the reasonable demands of his business, personal, or home consumption.

(b) Within the meaning of paragraph (a) of this section, importation by a person is not limited to the person who takes title to the material prior to landing or who pays the customs entry thereon, but includes a person who, prior to landing, purchases or contracts to purchase the material from or through an importing broker, wholesaler, or other importer, even though such broker, wholesaler, or other importer makes the customs entry in his own name, places the material on board the inland carrier for shipment to his customer, and retains title until such shipment is made. Within the meaning of paragraph (a) of this section, a material is not imported by a person who acquires such material from an importing broker, wholesaler, or other importer who took such material into his own stock or inventory.

SEC. 5. *Receipts of minimum production or sales quantities.* Notwithstanding any provision of this designation, in the case of materials that are mass-produced or are normally marketed only in minimum sales quantities, a person may order and receive from a producer a minimum production run of such material, or from any other supplier, a minimum sales quantity, provided it is not practicable for him to procure his needs from other suppliers in smaller quantities, even though his accumulation of such material thereby becomes in excess of the reasonable demands of his business, personal, or home consumption. After such receipt, however, he may not receive any additional amount of such material until his accumulation thereof has been reduced below an amount which is not in excess of the reasonable demands of his business, personal, or home consumption.

SEC. 6. *Receipts of materials after adjustment of orders.* Notwithstanding any provision of this designation, a person who has promptly instructed the supplier to reduce or defer delivery of a material under an order for such material previously placed by him with the supplier, to the extent necessary so that his accumulation of such material will not be in excess of the reasonable demands of his business, personal, or home consumption, may accept delivery of the material involved in any of the following cases only:

•Vanadium: Ferrovanadium, vanadium oxide, ammonium meta-vanadate, and other vanadium-bearing products.

are not received or accepted until inventory of the particular size or type is less than a practicable minimum working inventory.

direction as amended, consultation with industry representatives, including trade

8769, 3 CFR, 1951 Supp.

"material" or "materials" is hereinafter

ing cases only:

(a) If the supplier has shipped the material or loaded it for shipment before receipt of the instruction to adjust the order.

(b) If the material is a special item which, before receipt of the instruction to adjust the order, the supplier has in stock or in production, or for the production of which he has acquired special components or special materials. For the purpose of this section a "special item" is one which the supplier does not usually make, stock, or sell, and cannot readily dispose of to others.

(c) If the material has already been produced or was in production before receipt of the instruction to adjust the order and cannot be used to fill other orders on the books of the producer.

SEC. 7. *Applicability of other provisions of law, regulations, and orders.* Nothing in sections 4, 5, and 6 of this designation shall be deemed to modify in any respect, or relieve any person from complying with, any applicable regulation, order, or other provision of law.

SEC. 8. *Withdrawal of designation of scarce materials.* The materials included in List B of this designation, all of which were designated as scarce materials in List A of NPA Designation of Scarce Materials 1 of June 5, 1952, are hereby withdrawn from such designation.

This Designation of Scarce Materials 1, as amended, shall take effect July 23, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

LIST A—DESIGNATION OF SCARCE MATERIALS

[Items preceded by asterisk have been added or are changes in their description since issuance of NPA Designation 1, as amended June 5, 1952]

CHEMICALS

Acetylene.
•Alkyl and aromatic substituted phenolic resins.
Alkyl polysulfide polymers (Thiokol-polymers, trade name).
Alpha picoline.
Argon.
Benzene (benzol).
•Bis-phenol.
Butadiene.
Calcium carbide.
•Charcoal, granular.
•Chlorine.
Cobalt salts and driers.
Copper chemicals.
Cyclohexanol.
Dihydroxydichlorodiphenylmethane.
Freon.
Lithium chemicals.
•Lithium metal.
Methylene chloride.
Monochlorotrifluorethylene.
Naphthalene.
Nickel chemicals.
Oxygen.
Parachlorophenol.
Paranitrophenol.
•Paraphenylphenol.
•Paratertiary butyl phenol.
Phthalic anhydride.
Pine oil.
Polyethylene.
Polyethylene resins.
Pyrethrum.
Pyridine.
Selenium compounds.
Sulfur.
Sulfuric acid.
Toluene.

FOREST PRODUCTS

•Lumber:
Cedar: Port Orford.
Cypress.
Douglas fir, thick clears.
Eucalyptus: Ironbark.
Pine: Southern, longleaf, upper grades.
Teak.
•Plywood, softwood AA grade, all thicknesses, exterior and interior; ½ inch, all grades, exterior.

LEATHER AND TANNING MATERIALS

Vegetable tanning materials:
Chestnut.
Wattle.

IRON AND STEEL

Iron:
Pig iron.
•Gray iron castings (excluding soil and pressure pipe and fittings) rough and semi-finished; malleable iron castings, rough and semifinished.
Steel (carbon, including low alloy, high strength alloy, and stainless): Ingots and semifinished steel, including skelp; steel castings, rough and semifinished; structural shapes and piling; plates; rails and track accessories; wheels and axles; bars, hot-rolled, including light shapes and reinforcing; cold-finished bars; pipe; tubing; wire, wire rods, and drawn wire products; tin plate, terneplate, and tin mill black plate; hot-rolled sheet and strip; cold-rolled sheet and strip; other mill shapes and forms.
Forgings, rough as forged.
Non-nickel-bearing stainless (i. e., containing less than 1 percent nickel).
Iron and steel scrap.

METALS AND MINERALS

Aluminum:
Primary and secondary in crude form.
Semifabricated shapes, castings (including die); forgings, plate, sheet and strip; foil; rolled structural shapes, rod, bar, and wire; extruded shapes, tube blooms, and tubing; powder, flake, and paste.
All aluminum and aluminum-base scrap containing commercially recoverable aluminum.
Aluminum castings (before machining).
Aluminum forgings, pressings, and impact extrusions (before machining).
Asbestos, amosite.
Asbestos, chrysotile, spinning fibers.
Asbestos, crocidolite.
•Beryllium: Metal oxides, master alloys, and compounds.
Cerium:
Cerium metal, cerium alloys, such as ferro-cerium and cerium compounds in which cerium is a recognizable component.
All scrap and waste material containing commercially recoverable cerium of the above listed types.
•Chromium:
Chrome metal.
Ferro-chrome.
•Cobalt: Cobalt metal, oxides, and hydrides.
•Columbium: Pure metal and chemicals, ferro-columbium, ferro-columbium-tantalum (ferro-tantalum-columbium).
Copper:
Refined copper (fire-refined and electrolytic) including refinery shapes such as wire bars, slabs, cakes, billets, and ingots.
Secondary copper and copper-base alloys.
Copper—Continued
Copper and copper-base alloys: alloy plate, sheet, and strip; alloy rod, bar, and wire (including extruded shapes); alloy tube and pipe; unalloyed rod, bar, and wire (including extruded shapes); unalloyed plate, sheet, and strip; unalloyed tube and pipe; copper and copper-base alloy castings; copper powder mill products.
All copper and copper-base alloy scrap containing commercially recoverable copper.
Corundum, grain and superfines.
Cryolite.
•Diamond grinding wheels.
Diamonds, industrial.
Electrodes, carbon.
Fluorspar, acid and ceramic grades.
Graphite, artificial, electrodes and anodes.
•Graphite, natural:
Crucible flake.
Ceylon lump, 97 percent and higher carbon.
Iridium.
Magnesium:
Magnesium, primary and secondary ingots.
Semifabricated shapes.
All magnesium-base alloy scrap containing commercially recoverable magnesium.
•Manganese: Manganese metal and ferro-manganese.
Mica, muscovite block and film, good stained and better.
•Molybdenum:
Pure metal, powder, wire, rod, sheet.
Ferro-molybdenum, molybdenum oxide and molybdenum compounds.
Nickel:
Nickel, alloyed or unalloyed.
Imported nickel matte.
Nickel and nickel alloy, metal (cathode nickel, pigs, shot, and other primary forms).
Nickel and nickel alloy, secondary.
Nickel and nickel alloy, semifinished; bars, rods, tubes, sheet bar, ingot, blooms, billets, sheet strip, and similar mill products not further manufactured.
All nickel and nickel-base alloy scrap and nickel silver scrap containing commercially recoverable nickel.
Platinum.
Rutile.
•Scrap, ferrous and nonferrous (except antimony, bismuth, cadmium, lead and zinc scrap).
•Selenium and selenium alloys.
•Talc, block (lava grade).
•Tantalum:
Pure metal and chemicals.
Ferrotantalum-columbium.
•Tin:
Pig tin, primary or secondary.
All other materials and alloys containing 1.5 percent or more tin.
•Titanium:
Sponge.
Semifabricated shapes.
Sheets, tubes, extrusions.
Titanium bearing alloys.
Titanium-base alloy scrap.
•Tungsten: Pure metal, powder, wire, rod, sheet, chemical compounds, ferrotungsten.
•Vanadium: Ferrovanadium, vanadium oxide, ammonium meta-vanadate and other vanadium bearing products.
Zirconium: Zirconium metal, ferro-aluminum-zirconium-silicon alloys, and all other metallic compositions used as sources of zirconium in the manufacture of any alloy products.

RUBBER MATERIALS

Natural rubber, dry.

TEXTILE MATERIALS

Nylon staple and nylon filament yarn.
Rayon yarn, high tenacity.
Silk, noils and waste.
Twine, binder and baler.

MISCELLANEOUS

•Bristles, pigs' and hogs'.
•Metal cans.
Collapsible tubes.
Components and parts for electric light bulbs and tubes.
Cylinders, gas.
•New drums, steel, shipping.
Packaging closures made in whole or in part of controlled materials.
Reels and spools, shipping and package (wholly or in part of metal).
Strapping, metal.

LIST B—MATERIALS WITHDRAWN FROM THEIR PREVIOUS DESIGNATION AS SCARCE IN LIST A OF NPA DESIGNATION 1 AS AMENDED JUNE 5, 1952

BUILDING MATERIALS

Cast iron pressure pipe and fittings.
Cast iron soil pipe and fittings.

CHEMICALS

Alkyl phenol.
Alkyl phenol resins.
Allethrin.
Amylphenol.
Butyl phenol.
Carbon disulfide.
Chloroform.
Chlorophenol-para.
Cyclohexylamine.
Dichlorobenzene, ortho, meta and para.
Dichlorodiphenyltrichloroethane.
2-4 Dichlorophenoxy acetic acid.
Diphenylamine.
Ethylene oxide.
Hexylresorcinol.
Hydrofluoric acid and compounds derived therefrom.
Iron oxide yellow.
Lead naphthenate.
Melamine resins and molding powders.
Naphthenic acid.
Orthophosforic acid.
Phenothiazine.
Phosphorus.
Polytetrafluorethylene.
Polyvinylidene chloride and copolymer resins.
Resorcinol.
Resorcinol resins.
Sebacic acid.
Sodium chlorate.
Sulfonated oils.
Zinc chloride.
Zinc ammonium chloride.

FOREST PRODUCTS

Lumber (except railway crossties, mine ties, and hardwood flooring).
Plywood (softwood and hardwood).
Wood poles and piles.
Paper, paperboard, wet machine board, and construction paper and board materials, all types and grades.
Converted paper and board products, all types and grades.

IRON AND STEEL

Gray iron castings (including soil and pressure pipe and fittings) rough and semi-finished.

METALS AND MINERALS

Boron: Ferro-boron, boron metal and all other alloys used as sources of boron.
Calcium: Calcium-silicon, calcium-manganese silicon, and metallic calcium.
Mica, splittings, muscovite, and phlogopite.
Osmium.
Scrap, nonferrous, all types. (Antimony, bismuth, cadmium, lead and zinc scrap are removed from this item.)
Silicon: All grades of ferro-silicon, including silvery iron or silicon pig; all grades of silicon metal; and all other compositions containing more than 6 percent silicon, which are used as sources of silicon in the manufacture of any alloy products.
Tin:
Tin, chemicals, including tin oxide.
Tin products such as tin pipe and sheet.
All alloys containing tin.
All tin and tin-base alloy scrap containing commercially recoverable tin.
Zinc, slab (all grades).

TEXTILE MATERIALS

Bristle, nylon tapered.
Burlap, Hessian (in the piece).
Cotton duck, army (in the piece).
Cotton duck, numbered (in the piece).
Webbing (heavy military types).

MISCELLANEOUS

Aluminum foil, converted.
Cellophane.
Containers and fabricated products made wholly or partly from aluminum foil.
Containers, metal delivery and fluid milk shipping containers.
Containers, other shipping containers, packages and packaging material, except glass containers.
Textile bags.
Unit packages, wrappers, and shipping containers of all types made wholly or partly from any of the following films and plastics: Cellophane, cellulose acetate, cellulose acetate butyrate, ethyl cellulose, melamine resins and molding powders, methyl cellulose, phenolic resins and molding powders, pliofilm, polyethylene, polystyrene and copolymers, polyvinyl alcohol, polyvinyl chloride and copolymers, polyvinylidene chloride and copolymers, and urea resins and molding powders.

RUBBER MATERIALS

Synthetic rubbers, including latices, GR-S, butyl, neoprene, and N-type.

[F. R. Doc. 52-8241; Filed, July 23, 1952; 12:19 p. m.]

Chapter XIV—General Services Administration

MANGANESE REGULATIONS

DOMESTIC MANGANESE PURCHASE PROGRAM

Correction

In F. R. Doc. 52-7544, appearing at page 6154 of the issue for Wednesday, July 9, 1952, section 5 (a) should be changed as follows:

SEC. 5. *Specifications*—(a) *Chemical requirements.* All shipments must meet the following chemical analysis:

	By weight (dry basis) (percent minimum)
Manganese (Mn)	40.0
	(percent maximum)
Iron (Fe)	16.0
Silica plus Alumina (SiO_2 plus Al_2O_3)	15.0
Phosphorous (P)	.30
Copper plus lead plus zinc (Cu plus Pb plus Zn)	[1] 1.00

[1] Of which not more than 0.25 percent may be copper.

Analyses superior to the foregoing are desired.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 925]

[Docket No. AO-226-A3]

HANDLING OF MILK IN PUGET SOUND, WASHINGTON, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR, 900.1 et seq.), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Puget Sound, Washington, marketing area, to be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 15th day after its publication in the FEDERAL REGISTER.

A public hearing was called by the Production and Marketing Administration, United States Department of Agriculture, following a request of the United Dairymen's Association, and was held March 11–14, 1952. The major issues presented on the record of the hearing and covered by this decision relate to:

1. Revision of the method of computing producer bases and of the rules governing the allotment and application of such bases.

2. Modification of the definition of "handler" to include bargaining cooperatives which do not operate plants.

3. Introduction of a provision designed to change the Class I price differential automatically in response to changes in the Class I sales and producer supply relationship on a 12 months' moving average basis; revision of the date by which the monthly Class I price is announced; and adoption of a provision requiring changes in the Class I price

to be made in steps of not less than 23 cents per hundredweight.

4. Revision of location adjustments applicable to Class I milk and deliveries of base milk.

5. Introduction of location adjustments applicable to Class II milk and excess milk deliveries.

6. A proposed expansion of the marketing area as defined in the order.

7. The reclassification of certain milk products from Class I milk to Class II milk; and revision of the method of computing and allocating milk shrinkage.

8. The exemption of a handler's "own production" from classification and pricing.

9. Revision of the Class II price formula and of the method of computing the respective butterfat differentials to handlers and to producers.

10. Several proposed changes in definitions and other provisions for the purpose of clarification and to improve administrative procedures.

An additional issue of record, that of adopting an appropriate price differential for Class I milk, was considered in a decision of the Secretary of Agriculture issued April 11, 1952, and an amendment to the order revising the previous differential was made effective May 1, 1952. No further discussion of such issue is necessary.

Findings and conclusions. The following findings and conclusions on the issues decided herein are hereby made upon the basis of the record of the hearing:

(1) The "base" and "excess" plan of payment for milk should be modified.

Producer organizations proposed a major revision of the base and excess plan of payment for milk. Under the proposal individual producer bases would be effective in each month of the year (from March 1 to the end of the following February) and would be computed with respect to the producer's average deliveries in the four months (excluding April, May and June) of his lowest production within the most recent calendar year. Other changes proposed would modify the method of establishing original bases for "new" producers and would revise the rules governing the application of bases once computed. The plan now in effect provides for bases to be computed once a year on average deliveries during the months of October through January and to be effective only in the following months of March through September.

Testimony of proponents disclosed concern that the present plan might tend over a period of time to induce a shortage of milk in the months of August and September as producers attempt to have their cows freshen near the beginning of the (October through January) base-making period. It was stated also, however, that producers can and will respond well to a fixed base-making period such as the four months named. Production data were introduced to demonstrate unseasonably low production in August and September 1951 and increased production in the remaining months of last year as compared with the previous year and in relation to customary August and September levels. In support of the year-round application of bases it was contended further that under the present plan the producer who evens out his production throughout the year is penalized during the base-forming period by being forced to receive the excess price for a portion of his production while the producer who is attempting to expand his base for the next year through increased deliveries in the base-making months receives a higher proportion of the market's sales than his "earned" base entitles him to receive. The latter producer, it was stated, should not be subsidized by those who already have evened out their production curve. It was argued that if the market requires "excess" milk to satisfy Class I requirements in the base-forming period, the order already provides sufficient reward to the producer who is attempting to expand base in that the proceeds from those Class I sales over and above the total quantity of base milk delivered in such months is included in the computation of the price for excess milk.

The principal purpose of the base and excess plan of payment is to encourage a production curve for milk more nearly suited to the sales pattern of the market by providing returns to the individual producer directly related to his ability to increase deliveries of milk in the fall and winter months as compared with deliveries in spring and summer. Some further shift in deliveries to the fall and winter months would be desirable in maintaining adequate supplies on a year-round basis and to make possible more efficient utilization of milk in the months of seasonably high production.

During the only season of low production which has occurred since the effective date of the order producers expanded production substantially above previous levels for such period. Although August and September production in 1951 was lower than in preceding years in relation to the peak production month, deliveries during the following months did not follow the usual seasonal trend. The record indicates that a decrease of as much as 50 percent could be expected between June of any year and the following November. In the comparable period of 1951 deliveries fell less than 27 percent. An unusually even pattern of production existed from August 1951 through February 1952, the latest month for which data were included in the record. Based upon the limited experience available, the seasonal production trend of Grade A milk in 1951 appeared to be far more suited to the market's requirements than in other recent years.

It does not appear that the plan submitted by the proponements would have greater effect in accomplishing the objectives sought than the type of plan currently in use. Under the proposed plan a producer attempting to deliver increased quantities of milk in the fall months when the need for additional supplies is greatest would be required to take less than the base price for quantities delivered in excess of his base carried over from the four months of his lowest production in the previous calendar year. If the producer is to change his breeding and feeding practices to increase fall milk production he should be given the maximum encouragement possible within the prevailing framework of class prices. Participation in the returns for milk during the fall season on the same basis for all producers should provide greater incentive in this respect than the plan of proponents. The retention of an "open period" for the establishment of bases annually, as contrasted with the proposed application of bases to deliveries in all months, will provide a more reliable basis for judging the total production response to the producer price level. If deliveries are well adjusted to Class I sales in the base-making months, relatively few producers will be disadvantaged by sharing with other producers the total market proceeds from milk through the medium of a uniform price. The small disadvantage which might result for some producers from open period plan as compared with the plan of proponents is outweighed by the advantages of the former plan as outlined above.

Unusual weather characterized by lack of rainfall was a major factor in the relatively low production of August and September 1951. The testimony indicates, however, that encouragement to freshen cows earlier in the year than October 1 should be given to maintain or increase supplies in the early fall. With this in view it is concluded that the annual base-making period for producers should be the September–December period instead of the months of October through January and changes in order provisions have been made accordingly. Bases so computed would be in effect from February through August of the following year.

The provisions relating to the establishment of bases for producers entering the market for the first time during the months of February through August (and as an alternate method for producers who desire to cancel base in preference for treatment as new producers) also have been revised to insure more uniform adherence to the basic provisions of the plan. The record indicates that the monthly percentages of deliveries for the individual months provided under such "new producer" provisions, which were adopted originally without the benefit of operating experience to permit the free entrance of new producers into the market and as a means of preventing undue hardship on regular producers in individual instances, have been unduly high. During the one year of operation, more than 15 percent of the regular producers cancelled bases made on October 1950–January 1951 deliveries in favor of bases computed in the manner primarily intended for new producers. This method of establishing base actually was utilized by regular producers to a much greater extent than by new producers. Unless changed, the provision would make the base plan relatively ineffective as a program of encouraging a production pattern in line with market requirements. It is concluded that such percentages should be reduced as provided in § 925.60 (b) of the order made a part of this decision.

The further revision to include definite percentage figures will add clarity to the provision by making known in advance

what monthly percentage is available to the producer and will simplify base computations for the producer who delivers to more than one plant during the same month. Other minor changes have been made also in the rules governing the application of computed bases in order to improve the workability of the payment plan.

One proposal offered would enable new producers delivering to a fluid milk plant or country plant which was a non-pool plant during the base-making months to receive bases computed on deliveries in such prior base-making period. Since this would provide different treatment for some new producers as compared with others, the suggested provision should be denied.

(2) The definition of "handler" should not be broadened to designate a cooperative association not operating a fluid milk plant or country plant as a handler for purposes other than those described in § 925.15 (b).

Proposals were made at the hearing by producer and handler groups to consider a bargaining cooperative to be a handler with respect to milk of its members received at fluid milk plants or country plants of proprietary operating handlers, thus requiring payment to the cooperative of the class utilization value of the milk and establishing the cooperative as the medium between the market administrator and the plant operator through which monthly reports of milk utilization would be filed with to the market administrator and payments to the producer-settlement and administrative assessment funds would be made. A similar proposal was made by producer representatives at the original promulgation hearing. For the present hearing, producer proponents of such proposal also suggested a corollary provision which would permit any handler cooperative to reduce a required payment to the producer-settlement fund by the amount by which the proprietary handler buying milk from the cooperative defaults or delays in making payment to it at the class prices.

Producer proponents stated in support that accounting for base milk under the present system of reporting is made unnecessarily cumbersome. The milk of an individual producer may be delivered to several different plants during the course of a pay period requiring the coordination of information regarding his deliveries of milk by the cooperative before the payment obligations of the several handlers involved to the association and to the market administrator can be determined. It is contended that the proposed changes would simplify the reporting of computed base and excess milk for a substantial number of producers who are in this position. Additional testimony of proponents indicates that supplemental invoices with respect to existing "premium" payments above the Class II price by handlers for excess milk would be eliminated by the change and would make unnecessary supplemental invoices concerning Class I price premiums if the latter are ever sought by the cooperatives. As to collection at the class prices for milk caused to be delivered by the cooperative directly from farms to a proprietary handler's plant, proponents contend that the position of the bargaining cooperatives is no different from that of cooperatives operating plants covered by the regulation in that in either case the handler who fails to make payment on time places the cooperative in the position of being unable to make its payments to the producer-settlement fund.

The original decision of the Secretary dated April 5, 1951, official notice of which has been taken, denied the suggested provision on the following grounds: "Its adoption would result in unnecessary administrative complications and duplication with respect to matters of reporting, classification, allocation and payment by introducing a third party in transactions between the market administrator and those persons primarily to be regulated and who have first hand knowledge of the receipt and disposition of the milk to be priced."

In the administration of milk orders of this type it is necessary to require the market administrator to deal, in matters regarding the reporting, classification, and payment for milk, with those who must ultimately be held responsible for financial obligations to producers resulting from the utilization of milk. From the standpoint of administrative practice and enforcement procedure it is evident that such matters can best be resolved by securing reports and payments directly from those who have first hand knowledge of the receipt and disposition of the milk. The bargaining cooperative has no knowledge of receipts or utilization other than that furnished by handlers voluntarily or that which the market administrator might be required to transmit to it. In this respect, the bargaining cooperative is in a different position from the operating cooperative which physically receives and tests producer milk and sells specific quantities to handlers on a class use basis. The latter cooperative has original records of milk received and, under present order terms, is not excused from payment to the market administrator on time if a handler fails to pay the cooperative for milk purchased. In the absence of compelling reason for following other administrative procedure, it is concluded that the present policy should be continued under the Puget Sound order.

It is recognized that the necessary exchange of reports between the bargaining cooperative and handlers regarding deliveries of individual producers to determine base milk and excess milk is somewhat cumbersome and time-consuming. The limited time period following the end of the month allowed handlers for making their monthly reports to the market administrator has contributed somewhat to the difficulties which have arisen. Such difficulties, however, are not sufficient to overweigh the considerations outlined above, especially since they may be somewhat ameliorated by setting forward by two days the date by which handlers must make their regular reports to the market administrator. It should be noted also that the problem is limited to the seven months of the year when bases are in effect. Moreover, the proposal of these producers would not reduce the total number of processes involved in completing producers' payments to cooperatives and others through the producer settlement fund. It is concluded, therefore, that the order should be amended in this connection only to the extent of setting forward by two days the date on which handlers are required to make their regular reports to the market administrator.

(3) A "price mover" to change prices automatically should not be adopted at this time; the date for announcement of the monthly Class I price should not be changed; the Class I price differential should not be established on a "bracket" schedule. Producers proposed the adoption of a "price mover" which would revise the level of the Class I price differential automatically in accordance with changes in the supply and Class I sales relationship in the most recent 12-month period from the relationship which existed in a selected base period (12 months ended May 31, 1952). The price differential would be increased or decreased, as the case might be, by 3 cents for each percentage point of variance from the base period percentage.

The record indicates the main objective of this provision to be a measure of the supply response of producers to price. According to proponents the effect of shortrun influences which might affect either the supply situation or the demand for Class I milk over the period of a month or two should not be reflected in the computation and therefore a 12-month moving average relationship was suggested. The inclusion in the order of a provision which would assist in a reasonable forecast of supply and demand conditions for the immediate period ahead would have considerable merit in this market. Whether the plan proposed would accomplish such an objective is highly questionable. The record does not provide a basis for a conclusion that the resulting price changes, either up or down, would keep in step with changes in market requirements in view of industrial and military factors present within the marketing area which, past experience has shown, can result in a rapidly changing demand situation.

During several months of the base period selected for proposed formula abnormal production conditions prevailed. A severe drought was experienced which reduced milk production and raised production costs. No reasonable measure is available for judging whether the extremely close balance of production and sales during the latter half of 1951 was the result of accurate pricing, abnormally bad production conditions, or to some extent the influence of the adoption of a base and excess plan of payment on a market-wide basis with the advent of the order. Certainly the production pattern for 1951 did not follow the usual seasonal trend. The record discloses misgivings by proponents as to the base period suggested under their plan. At the time of the hearing market data for only a seven-month period was available for study.

Figures are not available prior to June 1, 1951 from which one could determine

that another base period would be more suitable. In view of the particular base period selected and the limited information available from which to develop a possible alternative formula which might be expected to work adequately over a period of time, it is concluded that no automatic price mover should be adopted at this time.

A proposal was made to require the market administrator to publicly announce on or before the 25th day of each month the minimum price for Class I milk to be effective for the following month. The desirability of informing handlers of the Class I price in advance is recognized. Following a well established custom in a number of regulated markets, at the beginning of this regulation the monthly Class I price differential in such market was related to a basic formula price employing data for the preceding month in order that handlers might have the Class I price early in the month during which it was to be effective. To use basic formula price data for the second preceding month (possibly an even earlier month might be necessary) could introduce undesirable seasonal aspects in the establishment of the Class I price and would make such price less responsive to current conditions. Information is available within the industry and in official publications from which handlers can make reasonably accurate estimates of the Class I price level for any month or before the first day of such month. It is concluded that the proposal should not be adopted.

Another proposal would change the Class I price in steps of not less than 23 cents. In other words, monthly price changes under the formula would be allowed to accumulate until a total of 23 cents or more is indicated and then the price would be changed by an amount equal to the sum of the monthly changes. This principle would be followed whether prices are increasing or declining.

An exhibit was introduced by proponents to show how such plan would have worked in 1949, 1950, 1951 and the first three months of this year. It is suggested from these data that the number of price changes could be reduced without loss of returns to producers and that the handlers' position in buying milk would be improved under resale price controls in effect. The significant portion of the statistics presented cover the period June 1951 through March 1952. This is the period the order has been in effect. Data prior to June of last year are hypothetical since they are backward projections of the formula adopted at that time and do not necessarily reveal what might have happened had the order been instituted sometime prior to 1949. Since July 1951 Class I prices have changed more than 5 cents per hundredweight from one month to the next on four separate occasions. Under the plan proposed three changes of not less than 23 cents each would have occurred in this period. The sum of the four sizable price changes under the present plan was 78 cents per hundredweight (34, 19, 14, and 21=78) while the sum of price changes (28, 27, and 24) under the proposed plan would have been 79 cents. The minor price variations of −4, −2, and +6 cents which occurred also during the period under the plan in effect may not be considered as significant from a resale price standpoint. It should be noted also that in the same period the current plan resulted in an average Class I price for the period of $5.91 as compared with $5.88 for proponents' plan. It is evident from marketing and production conditions as shown by the record that any plan which would have reduced returns to producers during this particular period would not have been superior to the plan which prevailed. In consideration of the above there appear to be no important advantages for either producers or handlers in the plan suggested, and it is concluded that such plan should not be adopted.

(4) Present price adjustments for location should be revised by increasing such adjustments by 15 cents per hundredweight. That is to say the adjustment for milk received at plants not located in District 1 or in the counties of Kitsap and Mason should be increased from 25 cents per hundredweight to 40 cents per hundredweight and the adjustment for milk received at plants in Clallam and Jefferson counties, which is at present 35 cents per hundredweight, should be increased to 50 cents per hundredweight.

Producers proposed that these adjustments be increased by 25 cents per hundredweight.

The purpose of these adjustments is to reflect the different values of milk received at plants located at different distances from the centers of consumption within the marketing area. The marketing of milk received from producers in Districts 2 and 3 requires performance of more and more costly services than does the marketing of milk received from producers in District 1. The purpose of the location adjustment is to reflect the additional costs and values of these additional services.

Typically, in District 1 milk received from producers is shipped directly in cans from producers' farms to plants in or near the consumption area where it is weighed, tested, recorded, processed, bottled, and loaded on routes for resale and wholesale distribution. The cost to farmers of shipping milk to plants in District 1 averages 22.7 cents per hundred weight. In Districts 2 and 3 the typical marketing procedure is for producers' milk to be shipped from farms to so-called country receiving stations where it is weighed, tested, recorded, and cooled and thereafter shipped to the consumption areas in tank trucks.

It appears that the average cost to farmers of shipping milk from farms to country stations in Districts 2 and 3 is about 28.5 cents per hundredweight. The average cost for transshipping milk from country receiving stations in Districts 2 and 3 to areas of consumption is about 25 cents per hundredweight. The cost of operating the country receiving stations was stated to range from about 25 to about 32 cents per hundredweight and to average approximately 27 cents per hundredweight. In providing for appropriate location differentials it is not, of course, necessary to take into account the total cost of operating country receiving stations because the services performed at these stations are largely the same as those performed at the city processing plants in District 1 on milk received directly from producers and with respect to which no charge is made against producers. Since we are concerned here only with the additional cost of handling milk received in Districts 2 and 3 as compared with direct shipped milk received in District 1, the savings in cost at city plants on transshipped milk may therefore be offset against the costs incurred at the country station. For some months cooperatives have been charging handlers 10 cents per hundredweight additional on bulk milk furnished to handlers in tanks from country receiving stations. This 10 cents appears to represent a reasonable equating of the additional cost of performing these services at country stations and of the additional value of these services to handlers. Ten cents per hundredweight, therefore, should be added to account for the additional services performed at country stations.

It appears that the total value of services performed on milk received from producers in Districts 2 and 3 is about 63.5 cents per hundredweight, i. e., farm to country plant transportation 28.5 cents; country plant handling 10 cents; country plant to District 1 plant transportation 25 cents. The cost of performing services on milk received from producers in District 1 is 22.7 per hundredweight. Hence, the additional cost of performing services on milk received in Districts 2 and 3 is about 40.8 cents per hundredweight, i. e. 63.5 cents minus 22.7 cents. An allowance of 40 cents per hundredweight will thus reflect reasonably the additional services performed on milk received from producers in Districts 2 and 3 as compared with the services performed on milk received directly at plants in District 1.

An additional 10 cents per hundredweight is provided with respect to milk received from producers in Challam and in Jefferson counties to account for the additional costs of ferry transportation involved in moving this milk into the consumption area.

(5) A location adjustment should be adopted with respect to milk originating in District 1 of the marketing area which is utilized in certain Class II milk products and with respect to "excess" milk originating in such district.

Producers proposed a location adjustment of 25 cents per hundredweight to be applicable to milk originating in District 1 of the marketing area and used in certain Class II milk products and to milk delivered by producers to plants in such district over and above their deliveries of base milk.

Since prior to the inception of the order the total Class I use of milk annually in District 1 has exceeded the Grade A milk deliveries of producers to plants in such district. Also milk, of either Grade A or factory quality, must move from the outlying areas (Districts 2 and 3) into the central portion, or main consuming center, of the marketing area during a substantial part of the year to meet the need for certain products covered by Class II milk. Handlers customarily bid for the limited supply of ungraded, or factory, milk and for "excess" Grade A milk in District 1 by offering premiums over the prevailing prices for such supplies of milk in Districts 2 and 3. Since the total supply of milk (irrespective of the quality factor) for Class II product requirements is insufficient within District 1, plants in Districts 2 and 3 customarily charge the current price at the factory plant for factory milk plus transportation and handling costs when milk is disposed of for Class II milk for uses in District 1. During 1951 the pay price to dairy farmers delivering factory milk to plants within District 1 averaged $3.94. A similar price was paid for milk deliveries in such district over and above base quantities. This price may be compared with a factory payment level of $3.74 in the other districts and $4.42 as the price to the handler in District 1 who purchased factory milk from a District 2 or 3 plant.

Data relative to prices for factory milk in District 1 may be compared also with the minimum price for Class II milk under the order for the first eight months of order operation (June 1951–January 1952). These data disclose that during months when the base plan was in operation handlers purchasing either factory milk or excess milk in District 1 paid a price which averaged 25 cents per hundredweight over the minimum Class II price. Tariff rates for milk hauled between districts by tank truck range from 22 cents to 29 cents per hundredweight and average 25 cents.

Since District 1 is a deficit producing area the cost of transporting producer milk for the necessary market uses and reserves should be reflected in the relative returns to producers in the respective districts. Adoption of a location differential of 25 cents per hundredweight applicable to the principal Class II uses at District 1 plants and to excess milk in such district, in conjunction with the location adjustments for Class I and base milk previously discussed, will accomplish this purpose and also will tend to make more uniform among handlers the prices of milk utilized in Class II products within District 1. During the short season of production the average butterfat tests of milk received from producer and country plant sources to fill Class I requirements in such district exceeds the average test of Class I milk. This results in some "distress" butterfat which has to be churned. Also, there is some maldistribution of supplies between handlers in all seasons. This results in the processing of some butter and nonfat dry milk solids within District 1 from producer milk and the diversion of quantities of such milk from plants in the district to evaporated milk manufacture. Milk is not intentionally moved from Districts 2 or 3 to District 1 for manufacture into such products although some milk moved in this way occasionally is so utilized. As adopted such products of Class II milk in District 1 plants would be exempt from the location adjustment to the extent that producer milk was so used by the plant after allocating to such products the available amounts of other source milk. By this means no handler providing an outlet for distress milk would be unduly charged in so doing. The costs attendant to plant handling in connection with shipment from District 2 or 3 plants should not be reflected in a location differential for Class II milk since the Class II price formula includes an allowance for plant handling.

As a corollary change the transfer provisions of the order should be modified to remove the necessity of allocating the greatest possible quantity of Class I milk of a handler in District 1 to District 1 sources prior to allocation of any of his Class I milk to sources in other districts as a method of preventing a handler from avoiding the cost of moving milk for Class II uses and consequently decreasing returns to producers for Grade A milk. This required also a proration of shipments among plants for classification purposes when more than one supplying plant in an outlying district was involved. Such provisions would not be necessary following adoption of the location adjustment for Class II milk discussed above.

(6) The definition of marketing area should be revised. A proposal was made to include within the marketing area Townships 23N and 24N located in that portion of Range 8E which is within King County. The principal communities in these townships are Snoqualmie, Snoqualmie Falls, North Bend, and a portion of Issaquah. A handler operating a plant at Snoqualmie has had difficulty in maintaining status for his plant as a participating plant in the market-wide pool under the delivery requirements placed by the order on plants which are outside the defined marketing area. The plant in question operates, however, primarily as a processing and distributing plant for fluid milk. At the time the order was introduced 80 percent of the fluid milk sold from this plant was disposed of outside the marketing area. Now 50 percent or more of its fluid milk is distributed within the boundaries of the marketing area but extra records must be kept by the plant operator to prove qualification for pool status under the "country plant" definition. Inclusion of the townships named will place such plant under the definition of "fluid milk plant" and will permit pool status at all times. Although other handlers covered by the order do not appear to be competing actively with this handler in such communities in the distribution of packaged fluid milk, some are in close competition with him for producer milk supplies. Pool participation for producers supplying the plant at Snoqualmie will assure them a minimum price equivalent to that received by producers supplying other handlers who compete for milk supplies in this segment of the milkshed. It appears that such plant should be included in the pool throughout the year and that expansion of the marketing area is a logical method of accomplishing this. It is concluded that the townships referred to above should be made a part of the marketing area.

A second proposal made with respect to the scope of the marketing area would remove the town of Vader, Washington, and thus exclude from regulation any person distributing milk in such community who does not distribute in any other segment of the marketing area. At the present time fluid milk is distributed in Vader from a plant located outside the marketing area at Longview, Washington, and from the plant of a producer-handler located in the vicinity of Vader. The operator of the Longview plant has been required, under order terms, to remit to the producer-settlement fund as a "compensatory payment" the difference between the Class I and Class II prices on a relatively small quantity of milk sold as Class I milk in Vader. Pursuant to order provisions the milk of such plant is not pooled and the dairy farmers involved are not "producers" as defined. Vader is the only community within the marketing area to which fluid milk distribution routes extend from such plant. The producer-handler serving Vader purchases the bulk of his milk supply as Class I milk from a plant covered by the order and produces the balance (about 5 percent) on his farm. None of the major handlers covered by the order competes for Class I milk sales in Vader and the total volume of business done in this locality is small in relation to total Class I sales for the marketing area. The record discloses that dairy farmers supplying the Longview plant have received prices for milk which have been closely aligned with the monthly Class I prices effective under the order.

Although objection to the exclusion of Vader from the defined marketing area was raised by the producer-handler who distributes there, it appears from the record that the latter also competes with the proponent handler for Class I business at points outside the marketing area where the so-called "compensatory payment" is not applicable. It may not be concluded from the testimony offered that undue hardship will be inflicted on the producer-handler by the removal of Vader from the marketing area or that its inclusion is necessary for the maintenance of orderly marketing and a reasonable price level for those producers whose minimum prices will continue to be determined by the order. It is concluded that the town of Vader should be removed from the defined marketing area until experience indicates that its inclusion is essential to the maintenance of reasonable uniformity of cost of milk and equity among handlers and to prevent undue displacement by unregulated milk of producer milk in Class I within the marketing area.

It was proposed also at the hearing that the counties of Kitsap and Mason (which include the city of Bremerton) on the Olympic Peninsula be included within District No. 1 of the marketing area. Proponents testified in support that (a) such counties do not produce enough milk locally to meet requirements and are an integral part of the sales area for the milk of those producers shipping to regulated plants, (b) if the population of the Kitsap-Mason area is to have sufficient milk, it must rely on producers and handlers now covered by the order, (c) some of the sea-

delivered by the cooperative directly

seven months of the year when bases

tomary August and September levels.

his breeding and feeding practices to

provision by making known in advance

sonal reserve of milk produced on the Olympic Peninsula is utilized in regulated plants at the expense of the pool, (d) stable conditions for producers generally in the Puget Sound area cannot be maintained if conditions in surrounding markets, such as the Kitsap-Mason area, are disorderly and uncontrolled surpluses exist, (e) if a decline in prices should occur under the order, it would be reflected also in such two counties, (f) with stability in Kitsap and Mason Counties depending on the operation of the order, all handlers selling milk in such counties should be placed on the same buying basis, (g) there are no significant differences in the health regulations applicable to milk between the subject counties and the marketing area as currently defined, (h) producers and handlers in such counties should contribute to the maintenance of stable conditions for the entire Puget Sound area and to the cost of administration of the order, (i) local processors of milk in Kitsap and Mason Counties have a competitive advantage over handlers operating out of the present marketing area, resulting in the creation of trade barriers for the benefit of the local cooperative association and other local processors.

Approximately 95 percent of the Grade A milk produced on the Kitsap-Mason Peninsula is marketed by a local producers' association which operates fluid milk distribution facilities in Bremerton. Nearly all milk produced in such counties is utilized locally and none is distributed in fluid form to outlets located within the presently defined marketing area or provides a source of supply for any regulated plant. During most months the local supply is insufficient to meet all the fluid milk requirements of such counties. This deficit may be as high as 60 percent at times. One local handler purchases about 95 percent of his milk supply from a plant covered by the order. The local cooperative association purchases supplemental milk supplies covered by the order from a producer cooperative during some months of the year and in the flush production season disposes of a portion of the seasonal excess of locally produced milk to the same producer group. Monthly prices paid dairy farmers by the local cooperative association have been closely in line with (sometimes greater than) the respective Class I prices for District 1 of the marketing area.

Milk is distributed at wholesale and retail also from four additional local plants and from two plants in Seattle operated by handlers covered by the order. Concerning fluid milk distribution the proponent handler indicated some difficulty in competing with the smaller distributors of fluid milk in the Kitsap-Mason area. No complaint was made relative to competition with the distribution of milk with the local distributing cooperative which controls 95 percent of the local milk production. The magnitude of the competitive problem presented does not indicate an unstable market situation but rather follows a pattern which may be expected at the edge of any area made subject to regulation. Since a milk marketing order is a type of regulation requiring specific boundaries for the area to be covered, some competition between regulated handlers and others hardly can be avoided at points outside the regulated area. The size of the marketing area is related to the particular problems involved in establishing and maintaining orderly marketing conditions. A regulated handler who distributes outside the regulated area so established incurs voluntarily whatever risks are involved in doing business in competition with persons unregulated. In connection with problems of milk distribution reference is made in the record to the fluctuating purchases of fluid milk by the Navy Yard at Bremerton which buys on contract following bids by interested parties. Proponents however did not complain of competitive disadvantage as to this business. The record discloses also that local milk production is not sufficient for such institutional business and that the only available sources of milk to supply this requirement are plants covered by the order. As a practical matter a local distributor who holds the successful bid for such business must pay order prices for milk needed to cover such sales and does not have price advantage over handlers under regulation.

It was not shown in the record that orderly marketing of milk for Kitsap-Mason dairy farmers is dependent upon regulation of the prices they receive or upon the pooling of their returns for milk with those of producers east of Puget Sound. Similarly, it was not demonstrated that an orderly market for the producers whose milk is already under the order is dependent upon the inclusion of the Kitsap-Mason Peninsula or that such inclusion is necessary to prevent undue hardship on certain regulated handlers. The competitive situation for regulated handlers on the Kitsap-Mason Peninsula does not appear to be substantially different than it was prior to regulation. Kitsap-Mason dairy farmers testified that the maintenance of orderly marketing conditions does not require an order at this time. In view of this and in the absence of compelling reason to extend the marketing area for the purpose of establishing or maintaining orderly marketing conditions either inside or outside the presently defined marketing area, it is concluded that the counties of Kitsap and Mason should not be included in the marketing area.

A proposal to include all the townships of Range 8 E in Whatsom, Skagit, Snohomish, and King Counties, submitted during the course of oral testimony, is denied. Such proposal was not within the scope of the notice of hearing issued and interested parties did not have adequate notice of the proposal.

(7) The provisions under which milk is classified should be revised.

Certain proposals were offered which would (a) reclassify eggnog and yoghurt from Class I milk to Class II milk, (b) specify as Class I milk any milk product required by State law or local ordinance or regulation to be made from Grade A (producer) milk, (c) revise the method of computing the volume of milk disposed of in cottage cheese, and (d) modify the method of computing quantities of milk lost by shrinkage.

The record indicates it is not a requirement of the applicable health authorities that the products eggnog and yoghurt be made from milk of Grade A quality. Producer milk is not needed to supply the demand for these products and therefore milk so utilized should not carry the Class I price. It is concluded that such products should be reclassified to Class II milk.

The proposal which would place automatically in Class I all products required to be made of locally approved milk should not be adopted. While the requirement that a dairy product be made of locally approved milk is an important consideration in determining the classification of milk to make that product, it is not, however, the sole determinant of classification. Consequently, when a product appears which is required to be made of approved milk, consideration should be given in an amendment proceeding to all of the facts which must be taken into account in establishing an appropriate classification for the milk used to make such products. Moreover, there was no showing that the provision as suggested could be applied in all contingencies. For instance, it was not shown how the provision would be interpreted in a situation where some but not all of the political subdivisions in the marketing area required that a particular product be made from approved milk or how it would be applied if all of the political subdivisions changed their requirements with respect to products required to be made from approved milk at some time other than the beginning of a delivery period. The determination of whether a particular product is "required at any time under the applicable health regulations to be derived from producer milk" might be a technical, legal question which only a court of competent jurisdiction could determine after appropriate proceedings. Certainly situations could arise where making the determinations required by the proposal would place a responsibility upon the market administrator which would be beyond his competency to discharge.

The present definition of Class II milk provides for the accounting of milk sold as cottage cheese on the basis of the finished product converted to its milk equivalent by means of a "conversion factor." In view of the variations within the market concerning the moisture content and butterfat tests of cottage cheese made resulting in a wide range of product yields, it is concluded that use of a standard conversion factor in converting cottage cheese to its milk equivalent for pricing purposes may create inequities and may produce milk "overages" where no actual overages exist. Because of this, it is provided in the attached amendment that the volume of milk "used to produce" the cheese should be the basis for determining the volume of Class II milk disposed of in this product pending additional market experience.

Under a proposal of handlers concerning the amount of shrinkage to be priced as Class II milk, actual shrinkage up to 2 percent of the total weight of producer milk receipts would be allowed in such

class. Proponents reviewed generally for the record the shrinkage provisions of orders regulating the handling of milk in other market areas several of which provide shrinkage allowances in lower-priced classes established as a percentage of the total milk receipts covered by such orders, respectively. It was contended that a shrinkage allowance so computed would result in greater equity among handlers since it is not possible to determine accurately, except where detailed departmental records of a plant are available, how much of the plant's shrinkage results from Class I operations and how much occurs because of Class II operations. Producers raised no objection to a change in the method of computing allowed shrinkage at the Class II price provided such change would not reduce producer returns appreciably.

Total shrinkage of handlers, including that allocated to Class I milk, has averaged approximately 1.4 percent of total producer milk receipts since June 1, 1951, the effective date of the shrinkage provisions. Undoubtedly, in many instances the shrinkage allowed in Class II operations cannot be traced specifically to the processing of Class II milk products in the handler's plant since the skim milk or butterfat utilized as Class II milk will result from a process of separation or standardization of milk which involves Class I milk operations also. The latter is evidenced on a market-wide basis by the tests of the classes of milk in relation to the average test of incoming milk from producers. As to individual plants, it may reasonably be expected that rather wide variations from the market averages prevail. In view of the above, the amount of shrinkage allowed in Class II milk should be computed as a percentage of producer milk receipts in the handler's plant(s). From experience gained under the order, as disclosed by the record, it is concluded that actual shrinkage up to 1.5 percent of producer milk received and processed in the handler's fluid milk plant(s) and country plant(s) should be allowed in Class II milk.

(8) Milk of a handler's own production should not be made exempt from the classification and pricing provisions of the order.

A proposal was submitted which would, if adopted, exempt milk of a handler's own farm production from the classification and pricing provisions of the order. The proponent, a handler who both produces milk and purchases milk from other producers, testified that his own production is priced under the market pool as producer milk under the uniform price provision while a distributor who comes under the definition of producer-handler is exempt from the pool as to his own farm production even though he may purchase additional milk from a fluid milk plant or country plant. It was contended that this situation results in price discrimination in favor of the producer-handler. Proponent testified also that he makes an effort to maintain even production and therefore should not be obliged to share in the general pool along with other producers and be credited with the uniform price as to his own production. No contention was made by proponent that he should not have to pay other producers from whom milk is purchased at least the minimum uniform price.

The producer-handler who handles only milk of his own production maintains control of his milk until ultimate disposition and in this respect his situation is entirely different from the regular producer whose milk is marketed by another person (handler). For this reason and because the administrative burden would be increased without assisting in a substantial measure to stabilize the market for other producers, those persons who are producer-handlers in fact have been made exempt from regulation other than for certain reporting requirements. The expansion of activity by a producer-handler through the purchase of milk from other individual producers places him in direct competition purchasewise with other handlers for milk supplies and the person from whom milk is purchased are placed in the same category as other producers. Moreover, the act of handling milk purchased from other producers and milk of his own production in the same plant creates classification and auditing problems similar to those of any regulated plant. The proponent handler operates a relatively small plant but distinction between his operation and those of other handlers may not be made merely on the basis of size if equitable treatment is to be accorded all handlers. Exemption on the basis requested could result in serious inequities among handlers and weaken the classified basis of pricing milk in the market. As stated above, proponent points to the fact that a producer-handler who purchases extra supplies from a plant is exempt with respect to his own production. Any milk so purchased is Class I milk under the milk transfer provisions of the order. The alternative of purchasing milk from a plant in similar manner is open to proponent and if used as a source of milk in lieu of purchases from producers, would assure exemption for milk of his own farm production. Proponent's contention that he maintains relatively even production throughout the year does not afford sufficient reason for the exemption. The order, through the "base and excess" plan of payment to individual producers, provides proportionately greater returns to those producers who maintain even production. Such producers do not share in carrying the seasonal reserves of milk to the same extent as producers who produce greater quantities in the spring and summer than during the fall and winter. It is concluded that the request for exemption of a handler's own farm production should be denied.

A suggestion was made also during the course of the hearing that producer-handlers should be brought under the classification and pricing provisions with respect to all milk handled. It is concluded that this proposal should be denied for the reasons given above and those stated in the decision issued April 5, 1951 on the original promulgation of the order. Official notice is taken of such decision.

At the time the order was first promulgated it was provided that milk sold to plants outside the marketing area but within the counties of Kitsap and Mason from which milk is distributed for consumption as fluid milk would be classified on the basis of its verified use in the transferee plant after allocating such transferred milk to Class I milk products. If verification were not permitted, such milk became Class I in its entirety. The record does not disclose a basis for continuing such provision which treats plant operators, including persons who are primarily producer-handlers, whose business is outside the marketing area at some price advantage as compared with producer-handlers inside the marketing area who rely on plants of handlers for supplemental supplies. It is concluded that such transfer provision should be modified to provide that milk transferred to nonpool plants distributing milk in fluid form outside the marketing area be classified as Class I milk with respect to the entire volume transferred.

(9) The provisions relating to butterfat differentials should be revised; the butter quotations employed in connection with the Class II price formula should not be changed.

Various proposals offered to revise the butterfat differential provisions would (a) substitute a monthly average of Seattle and San Francisco butter quotations combined, or the Chicago quotation plus 2 cents, for the monthly average of San Francisco quotations which is now used in computing the Class II price and butterfat differentials, (b) reduce from 1.3 to 1.25 the percentage factor employed in computing the butterfat differential applicable to base milk and Class I milk, (c) compute both handler and producer butterfat differentials on quotations of the same month, (d) revise the method of computing the butterfat differentinl for base milk, and (e) revise the wording of such provisions for clarification.

Handlers proposed the use of an average of Seattle and San Francisco butter quotations in lieu of San Francisco quotations alone. It was testified that the latter quotations are not truly representative of the value of butterfat and are subject to wider fluctuations than Seattle quotations because the San Francisco market imports substantial amounts of butter from distant sources. As a preferred alternative, however, the average price per pound of 92 score Chicago butter for the month plus 2 cents was suggested by proponents during the course of testimony.

The record indicates that the Seattle butter market is a minor market for trading and would not provide a reliable basis for determining butterfat values. Record data concerning the relationship between Chicago and San Francisco quotations indicates wide variations in prices between such two major markets from month to month, and even in the yearly averages. For example, in 1951 the widest monthly disparity in 92 score butter prices between the markets was 5.1 cents per pound and the smallest was 1.9 cents. Yearly averages for 1949, 1950, and 1951 were 2.6, 1.9, and 3.5 cents per pound, respectively. In no month of

edge of any area made subject to regulation. Since a milk marketing order is a type of regulation requiring specific

the method of computing quantities of milk lost by shrinkage.

2 percent of the total milk receipts would be allowed in such

pool along with other producers and be credited with the uniform price as to his own production. No contention was

5, 1951 on the original promulgation of the order. Official notice is taken of such decision.

1.9 cents. Yearly averages for 1949, 1950, and 1951 were 2.6, 1.9, and 3.5 cents per pound, respectively. In no month of

such three year period was the difference exactly 2 cents per pound. From the data presented it is concluded that the price deviations of the San Francisco quotations from those of Chicago make undesirable a switch to the Chicago quotations. Although the contention was made that the San Francisco quotations are not representative of the value of butterfat, no effort was made to demonstrate this point by the introduction of statistical or other material evidence. Therefore, it is concluded the San Francisco quotations should continue to be used under the order.

Proposals were made by producers to reduce the percentage factor by which the butter quotations are multiplied in the formula for determining butterfat prices for Class I milk and base milk, to use butter price data for the same month in the case of both base milk and Class I milk formulas, and to establish the butterfat differential for base milk as a "blend" of the butterfat differentials for Class I milk and Class II milk in any month when the volume of base milk exceeds the total Class I milk in the market. The record indicates that the percentage factor "1.3" tends to allocate to the butterfat component too great a proportion of any changes which may occur in the Class I price. Also, somewhat less encouragement to the production of butterfat in producer milk is appropriate since the test of incoming milk currently exceeds the average test of Class I milk, resulting in an excess of butterfat for disposition at a lower price. A reduction in the percentage factor to "1.25" should be made as suggested. In view of the base and excess of plan of payment to producers, a proportionate "blending" of the butterfat differentials for Class I and Class II milk should be made in connection with producer payments when base quantities include some Class II usage. This change will provide for a more equitable distribution of returns among producers. Handlers' obligations will not be changed by such a provision. The use of data for the same month in connection with both Class I and base milk butterfat differentials will tend to clarify the application of butterfat differentials without changing the average level of such differentials over a period of time. It is concluded that such proposal should be adopted.

(10) Certain revisions of order language should be made to (a) clarify the application of the classification and pricing provisions to Grade A milk disposed of by commingling with factory milk and to improve the basis for auditing milk receipts and utilization, and (b) to clarify the meaning of the term "plant" in relation to "farm tank" milk.

Few plants in the milkshed which handle factory milk as well as Grade A milk are so arranged that the two types of operations are physically separate. Most of such plants are actually small operating units with some facilities for receiving Grade A milk separately but frequently having common facilities for the further handling of milk of either type. The two types of milk are often commingled in manufacturing operations. Because such plants are, from a practical standpoint, single operating units there is little or no basis for clear cut product accounting with respect to Grade A milk utilization as compared with the use of manufacturing milk. Prior to the order it was sufficient for handlers to assume that all Grade A milk not specifically accounted for had been transferred to the manufacturing side of the plant and to consolidate the records of both types of milk. Under a strict system of classification the results are a distortion of the amount of shrinkage, or overage, which exists in the plant, a consequent loss of money to the pool, and an audit which does not test the reasonableness of the reported transfer of Grade A milk to the manufacturing operation. It is concluded that the order should provide clearly for the audit of manufacturing operations when Grade A milk is included, that the audit findings there made should be consolidated with Grade A milk operations to determine shrinkage, or overage, for the handler's entire operation, and that the over-all figures be used as the basis for prorating such shrinkage or overage. This requires the rewording of certain definitions as well as changes in other applicable provisions of the order.

The hearing developed considerable discussion of "farm tank" hauling by which milk is picked up at the farm by small tank trucks and then is transferred to a larger tank truck for delivery to a plant. Under this system, which has shown some growth in the supply area, the milk of the individual producers loses its identity by commingling with other milk at the time it is placed in the farm tank truck. A proposal was made to consider a building used primarily as a shelter during the transfer of milk from a farm tank truck to a larger tank truck for additional hauling as a plant for the purpose of applying prices and location adjustments to the milk involved.

It is concluded that a building or shelter of this kind should not be regarded as a plant. No records of utilization of the subject milk are available at such location. When transferred from one truck to another the milk is still in transit to a plant where it will ultimately be processed. It is only at a plant, or plants, where use is made of the milk that records of utilization are available and that audits of such are possible. To consider the truck shelter as a plant would merely introduce a third party into matters between the market administrator and handlers involving financial responsibility that would not assist, and might even interfere in attainment of the main objectives of the order. Such milk should be considered as "received" by the handler when it reaches a plant where milk actually is processed.

Although the record does not indicate such a situation at present, it could develop that milk would be tanked from such a shelter to more than one processing plant. In order to provide a specific and clear basis for the accounting and payment for milk so handled, it is concluded that the order should provide for the first plant to receive any portion of the particular load to be responsible for the entire load and that subsequent deliveries from such load be considered as interplant transfers. Appropriate language is included to cover the above.

Rulings on briefs. Briefs were filed on behalf of a substantial number of producers and handlers who would be subject to the proposed marketing agreement and to the order, as amended, and as hereby proposed to be further amended. The briefs contained suggested findings of fact, conclusions, and arguments with respect to the proposals discussed at the hearing. Every point covered in the briefs was carefully considered along with evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the suggested findings and conclusions contained in the briefs are inconsistent with the findings and conclusions contained herein, the requests to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the findings and conclusions in this recommended decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, as amended. The order, as amended, and as proposed below to be further amended, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. A revised marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as proposed to be amended as follows:

DEFINITIONS

§ 925.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 925.2 *Secretary.* "Secretary" means the Secretary of Agriculture, or other officer or employee of the United States authorized to exercise the powers or to

perform the duties of the said Secretary of Agriculture.

§ 925.3 *Department.* "Department" means the United States Department of Agriculture or such other Federal agency authorized to perform the price reporting functions specified in this subpart.

§ 925.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 925.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers, duly organized as such under the laws of any state, which includes members who are producers as defined in § 925.12 and which the Secretary determines, after application by the association:

(a) To be qualified under the standards set forth in the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) To have its entire organization and all of its activities under the control of its members; and

(c) To be currently engaged in making collective sales of or marketing milk or its products for its members.

§ 925.6 *Puget Sound, Washington, Marketing Area.* "Puget Sound, Washington, Marketing Area" (hereinafter called the "marketing area") means all territory lying west of range 8E in Whatcom, Skagit, Snohomish, and King Counties; all territory lying within townships 23N and 24N within range 8E in King County; all territory lying west of range 8E and north of township 18N in Pierce County, except Fox, McNeil, and Anderson Islands and the peninsulas on which Lake Bay and Gig Harbor are located northward to the Kitsap County line; all territory lying within Thurston county; all territory, except the town of Vader, lying west of range 5E in Lewis County; all territory lying east of range 10W and north of township 12N in Pacific County; and all territory lying south of township 19N in Grays Harbor County; all in the State of Washington. As used in this section, "territory" shall include all municipal corporations, Federal military reservations, facilities and installations, and state institutions lying wholly or partly within the above-described area. "District No. 1" of the marketing area shall include that part of the marketing area lying within the counties of King, Pierce, Snohomish, Thurston, and Grays Harbor. "District No. 2" of the marketing area shall include that part of the marketing area lying within the counties of Skagit and Whatcom, and "District No. 3" of the marketing area shall include that part of the marketing area lying within the counties of Lewis and Pacific.

§ 925.7 *Plant.* "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment which is maintained and operated primarily for the receiving, handling and processing of milk or milk products: *Provided*, That this definition shall not be deemed to include any building or other structure used primarily for the transfer of milk from a truck (including a "farm tank" truck) to another truck for additional hauling.

§ 925.8 *Fluid milk plant.* "Fluid milk plant" means any plant, other than the plant of a producer-handler, located in the marketing area which is approved by any health authority having jurisdiction in the marketing area as a plant from which milk may be distributed for consumption as fluid milk in the marketing area, and from which during the month Class I milk pursuant to § 925.41 (a) (1) is disposed of (including sales at such plant, plant store or eating place) within the marketing area: *Provided*, That this definition shall be deemed to include, for the purposes of §§ 925.30 through 925.34 and §§ 925.40 through 925.45 only, any facilities operated on the same premises for the receiving and processing of milk or milk products not having the health authority approval referred to in this section even though such facilities are operated by a person other than the operator of the fluid milk plant, and any such milk or milk products shall be deemed to be other source milk.

§ 925.9 *Country plant.* "Country plant" means any plant, other than a fluid milk plant or the plant of a producer-handler, which is approved by any health authority having jurisdiction within the marketing area for the receiving of milk qualified for consumption as fluid milk within the marketing area: *Provided*, That any such plant located outside of the marketing area other than the plant of Kristoferson Dairy, Inc., at Sequim and the plant of the Dungeness-Sequim Cooperative Creameries at Dungeness shall not be a country plant if the percentage of either butterfat or skim milk in milk so qualified which is received at the plant from dairy farmers and moved in fluid form as milk to a fluid milk plant, or disposed of within the marketing area as Class I milk pursuant to § 925.41 (a) (1), is less than:

(a) 50 percent in the current month during the period October through December; or

(b) 20 percent in the current month during the period January through September, except that if the percentage was more than 50 percent for the entire period of October through December immediately preceding no percentage shall be required for such months of January through September:

And provided further, That any plant which otherwise meets the requirements of this section may withdraw from country plant status for any month in the January–September period if the operator of the plant files with the market administrator, prior to the first day of such month, a written request for such withdrawal.

§ 925.10 *Nonpool plant.* "Nonpool plant" means any plant other than a fluid milk plant or a country plant.

§ 925.11 *Dairy farmer.* "Dairy farmer" means any person who is engaged in the production of milk.

§ 925.12 *Producer.* "Producer" means any dairy farmer, other than a producer handler, who produces milk of dairy cows under a dairy farm permit or rating issued by an appropriate health authority having jurisdiction in the marketing area, for the production of milk qualified for disposition in fluid form to consumers as Grade A milk within the marketing area.

§ 925.13 *Producer milk.* "Producer milk" or "milk received from producers" means milk qualified as described in § 925.12 and either received directly from a farm at a fluid plant or country plant or caused to be diverted by a handler for his account from such a plant to a nonpool plant: *Provided*, That milk so diverted shall be deemed to have been received by the diverting handler at the plant from which it was diverted. For the purposes of this order any milk moved from a producer's farm in a "farm tank" pick-up truck shall be deemed to be received by the handler at the plant where any portion thereof is first unloaded from such truck (or from another truck to which it may have been transferred in transit): *Provided*, That if such milk is commingled with the milk of any other producer(s) prior to delivery to a plant, the operator of the plant at which any portion of such load is first received shall be the receiving handler for the total volume of milk contained in such load; and if any portion of such delivery is moved to another plant without being unloaded from such truck it shall be considered to be an interplant transfer to be classified pursuant to § 925.44.

§ 925.14 *Other source milk.* "Other source milk" means (a) all skim milk and butterfat received from a producer-handler (or the plant of a producer-handler) in any form (including bottled products), and (b) all other skim milk and butterfat other than in (i) producer milk, and (ii) milk and milk products received from fluid milk plants and country plants.

§ 925.15 *Handler.* "Handler" means:

(a) Any person engaged in the handling of milk in his capacity as the operator of a fluid milk plant, a country plant or any other plant from which milk in any of the forms specified in § 925.41 (a) is disposed of to any place or establishment within the marketing area other than a plant: *Provided*, That this paragraph shall not be deemed to include any such person with respect to any of the items specified in § 925.41 (a) disposed of to military or other ocean transport vessels leaving the marketing area; if the items so disposed of originated at a plant located outside the marketing area and were not received or processed at any fluid milk plant or country plant; and

(b) Any cooperative association, which is not a handler pursuant to paragraph (a) of this section, with respect to producer milk caused to be diverted for the account of such cooperative association from a fluid milk plant or a country plant to a nonpool plant.

§ 925.16 *Producer-handler.* "Producer-handler" means any person who is both a dairy farmer and a handler,

and who processes milk from his own farm production and distributes all or a portion of such milk within the marketing area as Class I milk, but who received no milk from producers: *Provided*, That (a) the maintenance, care and management of the dairy animals and other resources necessary to produce milk is the personal enterprise of and at the personal risk of such person in his capacity as a dairy farmer, and (b) the processing, packaging, and distribution of the milk is the personal enterprise of and at the personal risk of such person in his capacity as a handler.

§ 925.17 *Base.* "Base" means a quantity of milk, expressed in pounds per day, computed pursuant to § 925.60.

§ 925.18 *Base milk.* "Base milk" means (a) milk delivered by a producer during the month in the period February through August, inclusive, of each year which is not in excess of his base multiplied by the number of days of delivery in such month: *Provided*, That with respect to any producer on "every-other-day" delivery to a fluid milk plant or country plant the days of nondelivery intervening days of delivery shall be considered as days of delivery for the purposes of this paragraph; and (b) all milk delivered by a producer in each of the months of September, October, November, December, and January.

§ 925.19 *Excess milk.* "Excess milk" means milk delivered by a producer in excess of base milk.

MARKET ADMINISTRATOR

§ 925.20 *Designation.* The agency for the administration of this order shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be designated by, and shall be subject to removal at the discretion of the Secretary.

§ 925.21 *Powers.* The market administrator shall have the following powers with respect to this subpart:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 925.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this subpart, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of funds provided by § 925.88 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses (except those incurred under § 925.87) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this subpart, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Audit all reports and payments by each handler by inspection of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends;

(h) Publicly announce, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not:

(1) Made reports pursuant to §§ 925.30 to 925.32, inclusive; or

(2) Made one or more of the payments pursuant to §§ 925.80 to 925.88, inclusive.

(i) On or before the 13th day after the end of each month, report to each cooperative association (or its duly designated agent) which so requests the class utilization of milk caused to be delivered by such cooperative association directly from farms of producers who are members of such cooperative association to each handler to whom the cooperative association sells milk. For the purpose of this report, the milk caused to be so delivered by such a cooperative association shall be prorated to each class in the proportion that the total receipts of producer milk by such handler were used in each class;

(j) On or before the 13th day after the end of each month, notify:

(1) Each handler whose total value of milk is computed pursuant to § 925.70 (a) of:

(i) The amounts and values of his producer milk in each class and the totals of such amounts and values;

(ii) The amount of any charge made pursuant to § 925.70 (a) (5);

(iii) The uniform prices for base milk and excess milk;

(iv) The totals of the amounts computed in the manner provided by § 925.80 (a);

(v) The amount due such handler from the producer-settlement fund or the amount to be paid by such handler to the producer-settlement fund, as the case may be; and

(vi) The totals of the amounts required to be paid by such handler pursuant to §§ 925.87 and 925.88.

(2) Each handler whose total value of milk is computed pursuant to § 925.70 (b) of the pounds of other source milk on which payment is required to be made and the amount due the producer-settlement fund from such handler.

(k) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the prices determined for each month as follows:

(1) On or before the 5th day of each month, the minimum price for Class I milk pursuant to § 925.51 (a) and the Class I butterfat differential pursuant to § 925.52 (a), both for the current month; and the minimum price for Class II milk pursuant to § 925.51 (b) and the Class II butterfat differential pursuant to § 925.52 (b), both for the preceding month; and

(2) On or before the 13th day of each month, the uniform price computed pursuant to § 925.71 and the butterfat differential computed pursuant to § 925.82, both applicable to producer milk received during the preceding month; and

(l) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

REPORTS, RECORDS, AND FACILITIES

§ 925.30 *Monthly reports of receipts and utilization.* On or before the 8th day of each month and in the detail and on forms prescribed by the market administrator, each person who is a handler pursuant to § 925.15 (a), except a producer-handler, shall report for the preceding month to the market administrator with respect to milk and milk products received at each of such handler's fluid milk plants and country plants, and at each of his plants where milk or milk products subject to payments required under § 925.70 (b) were handled, and each cooperative association which is a handler pursuant to § 925.15 (b) shall report with respect to milk diverted on its account during the preceding month, as follows:

(a) The quantities of skim milk and butterfat contained in milk received from producers;

(b) The quantities of skim milk and butterfat contained in milk and milk products received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk received (except Class II milk products disposed of in the form in which received without further processing by the handler);

(d) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including the pounds of skim milk and butterfat on hand at the beginning and end of each month as milk and milk products;

(e) The aggregate quantities of base milk and excess milk received; and

(f) Such other information with respect to such receipts and utilization as the market administrator may prescribe.

§ 925.31 *Payroll reports.* On or before the 20th day of each month, each handler shall submit to the market administrator his producer payroll for deliveries of the preceding month which shall show:

(a) The total pounds of base milk and the total pounds of excess milk received from each producer, the pounds of butterfat contained in such milk, and the number of days on which milk was delivered by such producer in such month;

(b) The amount of payments to each producer and cooperative association; and

(c) The nature and amount of any deductions or charges involved in such payments.

§ 925.32 *Other reports.* At such times and in such manner as the market administrator may prescribe:

(a) Each handler shall report to the market administrator such information in addition to that required under § 925.30 as may be requested by the market administrator with respect to milk and milk products handled by him;

(b) Each producer-handler shall report to the market administrator relative to his receipts and utilization of milk and milk products.

§ 925.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or to establish the correct data with respect to the information required to be reported pursuant to §§ 925.30, 925.31, and 925.32 and to payments required to be made pursuant to §§ 925.80 through 925.88.

§ 925.34 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 925.35 *Handler report to producers.* On or before the 19th day of each month each handler shall furnish each producer from whom milk was received, a monthly statement containing at least the following information: (a) The amount of milk received from such producer each day during the preceding month, (b) the base and excess prices used in computing the producer's value of milk for such preceding month, (c) an itemized list of all deductions made by the handler from such prices, and (d) any premiums or payments above the minimum prices provided by the order for such preceding month.

CLASSIFICATION

§ 925.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat received within the month by a handler which is required to be reported pursuant to § 925.30 shall be classified by the market administrator pursuant to the provisions of §§ 925.41 to 925.45, inclusive.

§ 925.41 *Classes of utilization.* Subject to the conditions set forth in §§ 925.42, 925.43 and 925.44, the classes of utilization shall be as follows:

(a) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat (1) disposed of in fluid form as milk (including milk frozen), skim milk, skim milk drinks, buttermilk flavored milk, flavored milk drink and cream (sweet or sour), except any item named in this subparagraph disposed of pursuant to paragraph (b) (3) of this section, (2) disposed of as any fluid mixture containing cream and milk or skim milk (but not including ice cream or other frozen dessert mixes disposed of to a commercial processor, any mixture disposed of in containers or dispensers under pressure for the purpose of dispensing a whipped or aerated product, evaporated or condensed products), (3) contained in monthly inventory variations, and (4) not specifically accounted for under paragraph (b) of this section.

(b) Class II milk shall be all skim milk and butterfat (1) disposed of as (or used to produce, in the case of ice cream and frozen desserts and mixes for such products (liquid or powder), cottage cheese and aerated cream products) any product other than those included under paragraph (a) (1) and (2) of this section, (2) disposed of for livestock feed, (3) disposed of in bulk in any of the forms specified in paragraph (a) (1) of this section to bakeries, soup companies and candy manufacturing establishments in their capacity as such and to nonpool plants subject to the conditions of § 925.44 (c) (2), (4) in actual shrinkage of producer milk computed pursuant to § 925.42 but not in excess of 1.5 percent of the quantity of skim and butterfat, respectively, in producer milk, and (5) in actual shrinkage of other source milk computed pursuant to § 925.42.

§ 925.42 *Shrinkage.* The market administrator shall determine the shrinkage of skim milk and butterfat, respectively, in producer milk and in other source milk in the following manner:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each handler; and

(b) Prorate the total shrinkage of skim milk and butterfat, respectively, computed pursuant to paragraph (a) of this section, between the pounds of producer milk and other source milk after deducting receipts from other handlers: *Provided*, That with respect to any fluid milk plant where no producer milk has been received during the month, all shrinkage shall be allocated for such month to the other source milk in such plant.

§ 925.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such milk or butterfat proves that such skim milk and butterfat should be classified as Class II milk.

(b) The burden shall rest upon each handler to establish the sources of milk and milk products required to be reported by him pursuant to § 925.30.

(c) Except as provided in § 925.44 (a) (3) and (c) (1), any skim milk or butterfat classified in one class shall be reclassified if used or reused by any handler in another class.

§ 925.44 *Transfers.* Skim milk and butterfat moved in any of the forms specified in § 925.41 (a) (1) from one plant to another shall be assigned (separately) to each class in the following manner:

(a) From country plants to fluid milk plants and between fluid milk plants:

(1) As Class I milk to the extent Class I milk is available at the transferee plant if the transfer is (i) from a country plant or fluid milk plant located in District No. 1 to any fluid milk plant, (ii) from a country plant not located in District No. 1 to a fluid milk plant located in District No. 2 or District No. 3, or (iii) between fluid milk plants not located in District No. 1.

(2) As Class I milk to the extent Class I milk is available at the transferee plant if the transfer is from a country plant or fluid milk plant not located in District No. 1 to a fluid milk plant located in District No. 1.

(3) As Class I milk if the transfer is to the plant of a producer-handler.

(b) From a fluid milk plant or country plant to a country plant: As Class II milk: *Provided*, That (1) the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the transferee plant after the subtraction, pursuant to § 925.45 (b) (2), of other source milk at such plant, and (2) any additional amounts of such skim milk or butterfat shall be assigned to Class I milk.

(c) From a country plant or fluid milk plant to a nonpool plant:

(1) As Class I milk if the transfer is to a nonpool plant not located in the marketing area.

(2) As Class II milk if the transfer is to a nonpool plant located in the marketing area or within any of the counties of Clallam, Jefferson, Grays Harbor, Kitsap, Island, or Mason in the State of Washington which is not engaged in the distribution of milk for consumption as fluid milk: *Provided*, That if such plant disposes of skim milk or butterfat in any of the forms specified in § 925.41 (a) (1) to any other nonpool plant distributing milk in fluid form which is not located in the marketing area or in the counties specified, such disposition up to the quantity of producer milk transferred to the first nonpool plant shall be classified as Class I milk.

§ 925.45 *Computation of the quantity of producer milk in each class.* For each handler the market administrator shall:

(a) Correct for mathematical and for other obvious errors the monthly report submitted by such handler and compute

(c) Obtain a bond in a reasonable amount and with reasonable surety

of milk is computed pursuant to § 925.70

from each producer, the pounds of but-

No. 144——5

the total pounds of skim milk and butterfat in each class;

(b) Allocate skim milk in the following manner;

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk shrinkage allowed pursuant to § 925.41 (b) (4);

(2) Subtract from the pounds of skim milk in Class II milk the pounds of skim milk in other source milk received: *Provided*, That if the receipts of skim milk in other source milk are greater than the pounds of skim milk in Class II milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the remaining pounds of skim milk in each class, respectively, the skim milk received from other fluid milk plants and country plants and assigned to such class pursuant to § 925.44;

(4) Add to the remaining pounds of Class II milk, the amount subtracted pursuant to subparagraph (1) of this paragraph; and

(5) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk in milk received from producers, subtract such excess (hereinafter referred to as "overage") from the remaining pounds of skim milk in each class beginning with Class II milk.

(c) Allocate butterfat in accordance with the procedure prescribed for skim milk in paragraph (b) of this section.

(d) Add together for each class the quantities of skim milk and butterfat in such class computed pursuant to paragraphs (b) and (c) of this section and compute the weighted average butterfat content of such class.

MINIMUM PRICES

§ 925.50 *Basic formula price to be used in determining Class I prices.* The basic formula price to be used in computing the price per hundredweight of Class I milk for the current month shall be the highest of the prices computed pursuant to paragraphs (a), (b), and (c) of this section for the preceding month.

(a) Divide by 3.5 and then multiply by 4.0 the average of the basic, or field, prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from dairy farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location
Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Greenville, Wis.
Borden Co., Black Creek, Wis.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Jefferson, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis

(b) The price per hundredweight computed by the market administrator from the following formula:

(1) Multiply the simple average of the daily average wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month, by 6;

(2) Add 2.4 times the simple average, as published by the Department, of the prices determined per pound of "Cheddars" on the Wisconsin Cheese Exchange at Plymouth, Wisconsin, for the trading days that fall within the month;

(3) Divide by 7;

(4) Add 30 percent thereof; and

(5) Multiply by 4.

(c) The price per hundredweight computed by the market administrator from the following formula:

(1) Multiply by 4.8 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at Chicago, as reported by the Department during the month: *Provided*, That, if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract 67 cents.

§ 925.51 *Class Prices.* Subject to the differentials provided in § 925.52 the following are the minimum prices per hundredweight to handlers for Class I milk and Class II milk:

(a) *Class I Milk.* The price for Class I milk shall be the basic formula price plus $1.65: *Provided*, That the price for Class I milk for the months of April through June, inclusive, of any year shall not be higher than the price computed pursuant to the above provisions of this paragraph for the month of March immediately preceding, and the price for Class I milk for any October through January period, inclusive, shall not be lower than the price computed pursuant to the above provisions of this paragraph for the month of September immediately preceding.

(b) *Class II Milk.* The price for Class II milk shall be that computed by the market administrator from the following formula:

(1) Multiply by 4.8 the simple average of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade AA (93-score) bulk creamery butter per pound at San Francisco, as reported by the Department during the month: *Provided*, That, if no price is reported for Grade AA (93-score) butter, the highest of the prices reported for Grade A (92-score) butter for that day shall be used in lieu of the price for Grade AA (93-score) butter;

(2) Multiply by 8.2 the simple average of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph, subtract 80 cents.

§ 925.52 *Butterfat differentials to handlers.* If the average butterfat content of Class I milk or Class II milk, computed pursuant to § 925.45, for any handler for any month differs from 4.0 percent, there shall be added to, or subtracted from, the applicable class price (§ 925.51) for each one-tenth of 1 percent that the average butterfat content of such class is respectively above, or below, 4.0 percent, a butterfat differential computed by the market administrator as follows:

(a) *Class I milk:* Multiply by 1.25 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco, as reported by the Department during the preceding month, divide the result by 10, and round to the nearest tenth of a cent.

(b) *Class II milk:* Multiply by 1.15 the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco, as reported by the Department during the preceding month, divide the result by 10, and round to the nearest tenth of a cent.

§ 925.53 *Location adjustment to handlers on Class I milk.* In computing the value of each handler's milk there shall be credited with respect to skim milk and butterfat, respectively, in producer milk received at a plant not located in District No. 1 or in the counties of Kitsap and Mason and classified as Class I milk, 40 cents per hundredweight: *Provided*, That an additional 10 cents shall be credited with respect to skim milk and butterfat so received and classified at any plant located in Clallam or Jefferson Counties.

§ 925.54 *Location adjustment to handlers on Class II milk.* In computing the value of each handler's milk there shall be added, with respect to skim milk and butterfat, respectively, in producer milk received at a plant located in District No. 1 or in the counties of Kitsap and Mason and classified as Class II milk, 25 cents per hundredweight: *Provided*, That this adjustment shall not be made with respect to skim milk and butterfat in producer milk used in the manufacture of evaporated milk in hermetically sealed cans, butter, nonfat dry milk solids, powdered whole milk, or cheddar cheese, but for the purposes of this proviso the amount of butterfat and skim milk contained in producer milk that may be accounted for as used to manufacture nonfat dry milk solids, powdered whole milk, cheddar cheese, butter and evaporated milk in hermetically sealed cans in a District No. 1 plant shall be limited to any amount remaining after the subtraction of skim milk and butterfat contained in other source milk from the total amount of skim milk and butterfat used to produce such specified milk products.

§ 925.60 *Computation of daily base.* Subject to the rules set forth in § 925.61, the market administrator shall determine daily bases for producers in the manner provided in paragraphs (a) and (b) of this section:

(a) During each of the months of February through August, inclusive, of each year beginning with 1954 the daily base of each producer whose milk was received by a handler(s) on not less than 90 days during the immediately preceding months of September through December, inclusive, shall be a quantity computed by dividing such producer's total pounds of milk delivered in such four-month period by the number of days from the date of first delivery to the end of such four-month period: *Provided*, That with respect to any producer on "every-other-day" delivery the days of non-delivery intervening days of delivery shall be considered as days of delivery for the purpose of ascertaining whether delivery was made on 90 days or more pursuant to this paragraph.

(b) Any producer who is not eligible to receive a base computed pursuant to paragraph (a) of this section, shall have, beginning with February 1953, a monthly base in the months of February through August, inclusive, computed by applying the appropriate monthly percentage in the following table to his deliveries to a handler(s):

February	70	June	50
March	65	July	55
April	55	August	65
May	45		

§ 925.61 *Base rules.* The following rules shall be observed in determination of bases:

(a) A base may be transferred during the period of February through August, inclusive, upon written notice to the market administrator on or before the last day of the month of transfer, but only under the following circumstances:

(1) Upon the death, retirement or entry into military service of a producer, the entire base may be transferred to a member (or members) of his immediate family who continues to supply producer milk from the same farm.

(2) If a base is held jointly and such joint holding is terminated the entire base may be transferred as a unit to one of the joint holders or to another producer.

(b) A producer who ceases deliveries to a fluid milk plant or country plant for more than 45 days shall lose his base if computed pursuant to § 925.60 (a) and if he resumes deliveries to such a plant he shall be paid on a base determined pursuant to § 925.60 (b) until he can establish a new base under § 925.60 (a) to begin the next February 1.

(c) By notifying the market administrator prior to the 15th day of any month in the period February through August, inclusive, a producer holding a base established pursuant to § 925.60 (a) may relinquish such base by cancellation, and effective from the first day of the month in which notice is received by the market administrator until the end of such seven-month period such producer's base shall be computed in the manner provided by § 925.60 (b).

(d) As soon as bases computed by the market administrator are allotted, notice of the amount of each producer's base shall be given by the market administrator to the handler receiving such producer's milk and to the cooperative association of which the producer is a member. Each handler, following receipt of such notice, shall promptly post in a conspicuous place at each of his plants a list or lists showing the base of each producer whose milk is received at such plant.

(e) If a producer operates more than one farm he shall establish a separate base with respect to producer milk delivered from each such farm.

(f) Only producers as defined in § 925.12 may establish or earn a base pursuant to the provisions of § 925.60, and only one base shall be allotted with respect to milk produced by one or more persons where the land, buildings, and equipment used are jointly owned or operated.

DETERMINATION OF UNIFORM PRICE

§ 925.70 *Computation of value of milk.* (a) Except as provided in paragraph (b) of this section, the total value of milk received during any month by each handler including a cooperative association, shall be a sum of money computed by the market administrator as follows:

(1) Multiply the pounds of producer milk in each class for such month by the class price (§ 925.51) and add together the resulting amounts;

(2) Deduct the total amount of all location adjustment credits computed in accordance with § 925.53;

(3) Add the total amount of all location adjustments computed pursuant to § 925.54;

(4) Add or subtract, as the case may be, the amount necessary to correct errors as disclosed by the verification of reports of such handler of his receipts and utilization of skim milk and butterfat in previous months for which payment has not been made;

(5) Add, if such handler had overage, an amount computed by multiplying the pounds of overage deducted from each class pursuant to § 925.45 by the applicable class price: *Provided*, That if overage results in a fluid milk plant or country plant having receipts of other source milk, such overage shall be prorated between producer milk and other source milk and such applicable class price shall be charged only with respect to the quantity prorated to producer milk; and

(6) Add, with respect to other source milk received at each fluid milk plant and country plant of such handler in excess of the total volume of his Class II milk (except allowable shrinkage) at such plant an amount computed by multiplying the hundredweight of such other source milk by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and in the case of a fluid milk plant or country plant not located in District No. 1 or in the counties of Kitsap or Mason, reduced by 40 cents per hundredweight: *Provided*, That with respect to skim milk and butterfat so received and classified at any plant located in Clallam and Jefferson Counties, there shall be a further reduction of 10 cents per hundredweight.

(b) The value of milk of each handler at any plant where only other source milk was received and from which, during the month, some other source milk was disposed of within the marketing area as Class I milk pursuant to § 925.41 (a) (1) shall be a sum of money computed by the market administrator by multiplying the hundredweight of such other source milk so disposed of by the difference between the Class I milk and Class II milk prices adjusted, respectively, by the butterfat differentials provided in § 925.52 (based on the butterfat test of such other source milk), and, in the event disposition within the marketing area was only within Districts Nos. 2 and 3, reduced by 40 cents per hundredweight.

§ 925.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk received from producers as follows:

(a) Combine into one total the values computed pursuant to § 925.70 for all handlers who made the reports prescribed in § 925.30 and who made the payments pursuant to § 925.84 for the preceding month;

(b) Add the aggregate of the values of the location adjustments on base milk allowable pursuant to § 925.81 (a);

(c) Deduct the aggregate of the values of the location adjustments on excess milk computed pursuant to § 925.81 (b);

(d) Add an amount representing not less than one-half the unobligated cash balance in the producer-settlement fund;

(e) Subtract, if the average butterfat content of the milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 925.82 and multiplying the resulting figure by the total hundredweight of such milk;

(f) Multiply the hundredweight of excess milk by the Class II price for 4.0 percent milk, rounded to the nearest one-tenth cent;

(g) Compute the total value of base milk by subtracting the amount computed pursuant to paragraph (f) of this section from the net amount computed pursuant to paragraph (e) of this sec-

White House Milk Co., West Bend, Wis

tion: *Provided*, That if such result is greater than an amount computed by multiplying the hundredweight of base milk by the Class I milk price (for 4.0 percent milk) plus 4 cents such amount in excess thereof shall be subtracted from the result obtained prior to this proviso;

(h) Divide the net amount obtained in paragraph (g) of this section by the total hundredweight of base milk and subtract not less than 4 cents but less than 5 cents. This result shall be known as the uniform price per hundredweight of base milk of 4.0 percent butterfat content; and

(i) Divide the amount obtained in paragraph (f) of this section plus any amount subtracted pursuant to the proviso of paragraph (g) of this section by the hundredweight of excess milk. This result shall be known as the uniform price per hundredweight of excess milk of 4.0 percent butterfat content.

PAYMENTS

§ 925.80 *Time and method of payment to producers and to cooperative associations.* (a) On or before the 19th day after the end of each month, each handler, including a cooperative association which is a handler, shall make payment to each producer, for milk received at his plant from such producer during such month pursuant to subparagraphs (1) and (2) of this paragraph: *Provided*, That such payment shall be made, upon request, to a cooperative association, or to its duly authorized agent, qualified under § 925.5 with respect to milk received from each producer who has given such association authorization by contract or by other written instrument to collect the proceeds from the sale of his milk, and any payment made pursuant to this proviso shall be made on or before the 17th day after the end of such month: *And provided further*, That if by such date such handler has not received full payment for such month pursuant to § 925.85, he shall not be deemed to be in violation of this paragraph if he reduces uniformly for all producers his payments per hundredweight pursuant to this paragraph by a total amount not in excess of the reduction in payment from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator:

(1) At not less than the uniform price for base milk for the quantity of base milk received, adjusted by the butterfat differential computed pursuant to § 925.82 and by any location adjustment applicable under § 925.81; and

(2) At not less than the uniform price for excess milk for the quantity of excess milk received, adjusted by the butterfat differential computed pursuant to § 925.82 and by any location adjustment applicable under § 925.81.

(b) On or before the 17th day after the end of each month each handler shall pay to each cooperative association which operates a fluid milk plant or country plant, for skim milk and butterfat received from such cooperative association during such month, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class (pursuant to § 925.41) by the class price adjusted by the amounts of any location adjustments applicable pursuant to §§ 925.53 and 925.54.

(c) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c (5) (F) of the act from making payment for milk to its producers in accordance with such provision of the act.

§ 925.81 *Location adjustments to producers.* In making payments to producers pursuant to § 925.80 (a) (1) the following adjustments for location are applicable:

(a) Deductions may be made per hundredweight of base milk received from producers as follows: 50 cents at plants located in Clallam and Jefferson Counties, and 40 cents at other plants not located in District No. 1 or in the counties of Kitsap and Mason.

(b) 25 cents per hundredweight shall be added for the months of February through August, inclusive, to the uniform price for excess milk received from producers at plants located in District No. 1.

§ 925.82 *Producer butterfat differential.* In making payments pursuant to § 925.80 (a) for base milk and for excess milk, there shall be added to, or subtracted from, the uniform prices thereof for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, a butterfat differential computed by the market administrator as follows: Multiply the simple average of the daily wholesale selling prices per pound (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter at San Francisco, as reported by the Department during the month in which the milk was received, by 1.25 in the case of base milk, and by 1.15 in the case of excess milk, and, in each case, divide the resulting amount by 10, and round to the nearest tenth of a cent: *Provided*, That if the total quantity of butterfat in Class I milk is less than the total amount of butterfat in base milk received from producers by all handlers the butterfat differential applicable to base milk for the month shall be computed by multiplying the butterfat differential for Class I milk by the percentage of Class I butterfat represented within such total base milk and by multiplying the remaining percentage of butterfat within base milk by the butterfat differential for Class II milk, and adding together the resulting amounts: *And provided further*, That in the months of September through January, inclusive, the butterfat differential to be used pursuant to this section shall be computed by multiplying the butterfat differential for Class I milk by the percentage of butterfat in producer milk classified in such class and the butterfat differential for Class II milk by the percentage of butterfat in producer milk classified in such class, and adding together the resulting amounts.

§ 925.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to § 925.84 and out of which he shall make all payments to handlers pursuant to § 925.85.

§ 925.84 *Payments to the producer-settlement fund.* On or before the 15th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the total value of such handler's milk as determined pursuant to § 925.70 is greater than the value of such handler's producer milk computed at the minimum uniform prices as specified in § 925.80 (a).

§ 925.85 *Payments out of the producer-settlement fund.* On or before the 17th day after the end of the month during which the milk was received, the market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the total value of such handler's milk as determined pursuant to § 925.70 is less than the value of such handler's producer milk computed at the minimum uniform prices as specified in § 925.80 (a), and less any unpaid obligations of such handler to the market administrator pursuant to §§ 925.84, 925.86, 925.87, and 925.88: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 925.86 *Adjustments of accounts.* Whenever verification by the market administrator of reports or payment of any handler discloses errors resulting in money due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred following the 5th day after such notice.

§ 925.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 925.80 (a), shall make a deduction of 5 cents per hundredweight of milk, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association; and

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association.

Such deduction shall be paid by the handler to the market administrator on or before the 15th day after the end of the month. Such moneys shall be expended by the market administrator for the verification of weights, sampling, and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer (1) who is a member of, or who has given written authorization for the rendering of marketing services and the taking of deduction therefore to, a cooperative association, (2) whose milk is received at a plant not operated by such association, and (3) for whom the market administrator determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct, in lieu of the deduction specified under paragraph (a) of this section, from the payments made pursuant to § 925.80 (a) the amount per hundredweight on milk authorized by such producer and shall pay over, on or before the 15th day after the end of the month, such deduction to the association entitled to receive it under this paragraph.

§ 925.88 *Expense of administration.* As his pro rata share of the expense of administration of this order, each handler shall pay to the market administrator on or before the 15th day after the end of each month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within such month of (a) other source milk classified as Class I milk, and (b) milk received from producers, including such handler's own production.

§ 925.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this order for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this order shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this order shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 925.90 *Effective time.* The provisions of this subpart or any amendment to this subpart shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 925.91.

§ 925.91 *Suspension or termination.* The Secretary may suspend or terminate this subpart or any provision of this subpart whenever he finds this subpart or any provision of this subpart obstructs or does not tend to effectuate the declared policy of the act. This subpart shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 925.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 925.93 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 925.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 925.101 *Separability of provisions.* If any provision of this subpart, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

§ 925.102 *Producer-handlers.* Sections 925.40 to 925.45, inclusive, 925.50 to 925.54, inclusive, 925.70 to 925.71, inclusive, and 925.80 to 925.89, inclusive, shall not apply to a producer-handler.

Filed at Washington, D. C., this 21st day of July 1952.

[SEAL] ROY W. LENNARTSON,
Assistant Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42, 45, 61]

SPECIAL CIVIL AIR REGULATION; EMERGENCY EVACUATION PROVISIONS FOR TRANSPORT TYPE AIRPLANES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of a proposed Special Civil Air Regulation in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by August 8, 1952. Copies of such communications will be available after August 12, 1952, for examination by interested persons at the Docket Section

which operates a fluid milk plant or

centage of butterfat in producer milk

ated by a cooperative association

of the Board, Room 5412, Commerce Building, Washington, D. C.

On November 15, 1951, the Board adopted Amendment 4b–4 which provided new emergency evacuation provisions for the certification of transport category airplanes, and which became effective on December 20, 1951. Subsequently, the Board caused a notice of proposed rule making to be published in the FEDERAL REGISTER (16 F. R. 13151) and also circulated Draft Release No. 51–16 indicating its intent to amend the emergency evacuation provisions applicable to the operation of airplanes presently certificated. An amended proposal was subsequently published as a notice of proposed rule making in the FEDERAL REGISTER (17 F. R. 4503) and circulated as Draft Release No. 52–13. Further study as a result of comment on these notices of proposed rule making has indicated that the proposals would not be practicable in application in all cases and that additional changes were necessary.

First of all, there is reason to believe that the substantiation by means of an evacuation demonstration of the number of exits in relation to the number of occupants permitted to be carried does not necessarily result in an appropriate level of safety because of the difficulty in making such demonstrations sufficiently realistic. One of the reasons why the regulations effective prior to the promulgation of Amendment 4b–4 were considered no longer practical was the provision permitting evacuation demonstrations. Furthermore, those regulations were impractical and not sufficiently explicit with respect to airplanes having relatively large occupancy. For example, the increments in the table contained in § 4b.362 (b) (1) cannot logically be extended arithmetically with respect to airplanes carrying considerably in excess of 50 passengers.

A reevaluation of the maximum number of occupants in specific airplane types prescribed in Draft Release 52–13 indicated the need for some revisions to be consistent with the latest approvals. Such inconsistencies as do exist with respect to certain of the less conservative values prescribed for maximum occupancy are due mainly to prior approvals. Others are due to comparisons with comparable airplanes taking into consideration the size, number, and location of emergency exits as well as the normal configurations within the passenger compartment. Although some approved occupancies as set forth in the proposed table may seem high in comparison to newer models, the Board does not consider that it is justified in requiring a reduction in occupancy below the numbers previously approved. The Board considers that the number of occupants authorized by this proposal can be evacuated within a safe time with the present improved evacuation methods now being put into practice by the several operators.

It is now proposed that all airplanes of 12,500 pounds or more maximum certificated take-off weight operated while carrying passengers for hire comply with Civil Air Regulation Amendment 4b–4, except that those airplanes listed in the table contained in the proposal may be approved by the Administrator for a maximum number of occupants not to exceed the numbers stated. Allowance to carry such maximum numbers will be based on compliance with the applicable number, size, and arrangement of exits and passenger cabin configuration presently approved by the Administrator of Civil Aeronautics. For example, the Lockheed 049, 649, and 749 are approved for 71 occupants with 4 window exits and 1 door, 76 occupants with 5 window exits and 1 door, and for 87 occupants with 6 window exits and 1 door.

Because this proposed rule contains major substantive changes from the previous proposals, the Board will allow an additional 15 days for public comment before considering the proposal for final adoption.

Accordingly it is proposed to promulgate a Special Civil Air Regulation to read substantially as follows:

Contrary provisions of the Civil Air Regulations notwithstanding, no large airplane (12,500 pounds or more maximum certificated take-off weight) while carrying passengers for hire shall be operated with occupants in excess of the number permitted by applying the provisions of Civil Air Regulation Amendment 4b–4, effective December 20, 1951, except that airplane types listed in the following table may be operated with the maximum number of occupants therein listed when approved by the Administrator. Such approval shall be based on the emergency exit requirements already authorized by him for that airplane type prior to the effective date of this regulation.

Airplane type:	*Maximum number of occupants including the crew*

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[417.45]

DICALCIUM PHOSPHATE

TARIFF CLASSIFICATION

JULY 21, 1952.

The Bureau, by letter to the collector of customs, New York, New York, dated July 21, 1952, ruled that all dicalcium phosphate is classifiable under paragraph 5, Tariff Act of 1930, and dutiable at the modified rate of 12½ percent ad valorem rather than free of duty under paragraph 1685.

In any case in which this ruling will result in the assessment of duty rather than the free entry heretofore accorded under a uniform practice this ruling will be effective as to such or similar merchandise entered for consumption or withdrawn from warehouse for consumption after 30 days after the date of publication of the abstract of this decision in a forthcoming issue of the weekly Treasury Decisions.

[SEAL] D. B. STRUBINGER, *Acting Commissioner of Customs.*

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

TRANSFER OF JURISDICTION OF INTEREST

JULY 16, 1952.

By virtue of the authority contained in section 7 of the Public Works Act of August 24, 1949 (63 Stat. 629; 48 U. S. C. 486e), and pursuant to section 2.56 of Delegation Order No. 427, of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Jurisdiction of interest in and to the following described lands located in the

East Addition to Kodiak Townsite, Alaska, U. S. Survey No. 2538B, is hereby transferred to the Office of Territories, Department of the Interior:

Beginning at the Easterlymost corner of the U. S. Military Reserve, designated as MR 8; thence South 55° 17' West, a distance of 460 feet; thence North 34° 43' West, a distance of 460 feet; thence North 55° 17' East, a distance of 460 feet; thence South 34° 43' East, a distance of 460 feet to the point of beginning, containing 4.858 acres, more or less.

Lots 1, 2, 3, 9, to 16 inclusive, Block 38.

Any subsequent conveyance which may be made of the lands to a public body under authority of the Act of August 24, 1949, supra, the instrument of conveyance shall contain a provision reserving a right-of-way for ditches and canals constructed under authority of the United States, and reserving also to the United States (1) all fissionable source materials in the land, together with the right of the United States to enter upon the land and prospect for, mine and remove such materials in accordance with the Act of August 1, 1946 (60 Stat. 755; 43 U. S. C. 1801), (2) all oil and gas and other mineral deposits in the lands together with the rights of the United States, its agents, representatives, leasees or permittees, to prospect for, mine and remove the same under such regulations as the Secretary may prescribe, (3) a right-of-way for the construction of railroads, telegraph and telephone lines in accordance with the act of March 12, 1914 (38 Stat. 305; 48 U. S. C. 305), (4) a right-of-way for roads, highways, tramways, trails, bridges, and appurtenant structures constructed by or under authority of the United States or of any State created out of the Territory of Alaska, in accordance with the act of July 24, 1947 (61 Stat. 418; 48 U. S. C. 321d), and (5) such other reservations, covenants, terms, and conditions as may be deemed proper by the Office of Territories, as well as those which may be required for the protection of the Department of the Interior or any agency thereof.

ABE BARBER, *Acting Regional Administrator.*

[F. R. Doc. 52–8068; Filed, July 23, 1952; 8:45 a. m.]

Office of the Secretary

[Order 2509, Amdt. 16]

DELEGATIONS OF AUTHORITY; GENERAL

This amendment supersedes the original text of Order No. 2509 and Amendments 1 to 15, inclusive.

Order No. 2509, as amended, is revised to read as follows:

Sec.
1. Under Secretary, Assistant Secretaries, and Administrative Assistant Secretary.
2. Solicitor as Acting Assistant Secretary.
11. Authentication of documents.
20. Patents.
21. Tort claims.
22. Claims relating to irrigation works.
23. Appeals in land cases.
24. Contract appeals.
25. Appeals in Indian probate proceedings.
26. Escheat of Indian estates.
27. Remission of liquidated damages.
28. Acquisition of real estate by condemnation.
50. Contracts; Bureaus.
51. Contracts; Office of the Secretary.
52. Leases.
53. Contracts; Chairman, Field Committees.
60. Correspondence concerning condemnation proceedings.
61. Requests for title opinions.

SECTION 1. *Under Secretary, Assistant Secretaries, and Administrative Assistant Secretary.* (a) The Under Secretary, the Assistant Secretaries, and the Administrative Assistant Secretary may severally exercise all the authority of the Secretary of the Interior with respect to any matter, including any defense matter concerning electric power, fishery commodities, metals and minerals, or solid fuels, which comes before any of them, except:

(1) The signing of correspondence addressed to the President;

(2) The issuance of orders delegating the authority of the Secretary;

(3) The exercise of powers delegated by the President to the Secretary without any authorization for redelegation;

(4) The issuance of general regulations; and

(5) The making of appointments under section 710 of the Defense Production Act of 1950 (50 U. S. C. App., 1946 ed., Supp. IV, sec. 2160).

(b) Notwithstanding the limitation contained in subparagraph (2) of paragraph (a) of this section:

(1) the Under Secretary, an Assistant Secretary, or the Administrative Assistant Secretary may authorize officers or employees of the Department to sign on behalf of the United States contracts the provisions of which have been approved by the Under Secretary, the Assistant Secretary, or the Administrative Assistant Secretary; and

(2) The Administrative Assistant Secretary may, in writing, redelegate or authorize the redelegation of such portions of the authority of the Secretary with respect to matters in the field of administrative management, including matters relating to budget, finance, personnel (except appointments under section 710 of the Defense Production Act of 1950), management research, property management, and administrative services, as the Administrative Assistant Secretary may deem appropriate.

SEC. 2. *Solicitor as Acting Assistant Secretary.* Whenever an Assistant Secretary of the Interior is absent or a vacancy exists in such a position and the Secretary of the Interior directs the Solicitor of the Department, in accordance with Executive Order No. 9794, to perform the duties of the absent Assistant Secretary or of the vacant position, the Solicitor may, with respect to any matters which come before him, exercise all the authority of the Secretary of the Interior.

SEC. 11. *Authentication of documents.* The Chief Clerk of the Department is authorized to authenticate copies of books, records, papers, and documents of the Department. This section does not affect the authority of any bureau official to authenticate copies of books, records, papers, or documents under 43 CFR, Part 2, or under applicable statutes.

SEC. 20. *Patents.* The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior with respect to patent policies and procedures, including the adjudication of patent rights in inventions made by personnel of the Department of the Interior and the issuance of licenses for the use of inventions under patents controlled by the Secretary of the Interior.

SEC. 21. *Tort claims.* (a) The Solicitor of the Department of the Interior may exercise all the authority conferred upon the Secretary of the Interior by 28 U. S. C., secs. 2671–2680.

(b) The Regional Counsels of the Bureau of Land Management, of the Bureau of Reclamation, and of the National Park Service, the Area Counsels of the Bureau of Indian Affairs, the General Counsel of the Bonneville Power Administration, the Chief Counsels of the Southwestern Power Administration and the Southeastern Power Administration, and the Counsel of The Alaska Railroad are severally authorized to consider, ascertain, adjust, determine, and settle, pursuant to the provisions of 28 U. S. C., sec. 2672, any claim not exceeding $1,000 against the United States based upon a negligent or wrongful act or omission of an employee of the Department of the Interior, and, without considering its merits, to reject any tort claim which is for an amount in excess of $1,000.

(c) Any claimant who is dissatisfied with a determination made under paragraph (b) of this section regarding his claim may take an appeal to the Solicitor of the Department of the Interior within 15 days after receiving notice of such determination. Written notice of his desire to take an appeal shall be given by the claimant to the official who made the determination upon his claim, and such official shall thereupon promptly transmit to the Solicitor all documents and other data relating to the claim (28 U. S. C., sec 2672).

SEC. 22. *Claims relating to irrigation works.* (a) The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior in determining whether claims for damages arising out of the survey, construction, operation, or maintenance of irrigation works on Indian irrigation projects shall be allowed in whole or in part or shall be disallowed.

(b) Subject to the direction and supervision of the Solicitor, the Area Counsels of the Bureau of Indian Affairs are severally authorized to determine whether claims not exceeding $1,000 for damages arising out of the survey, construction, operation, or maintenance of irrigation works on Indian irrigation projects shall be allowed in whole or in part or shall be disallowed.

(c) Any award which may be made by the Solicitor pursuant to paragraph (a) of this section or by an Area Counsel pursuant to paragraph (b) of this section and which is accepted by the claimant in full satisfaction of his claim shall be paid out of funds available for the Indian irrigation project involved in the claim.

paragraph 1685.

20. Escheat of Indian estates.

(d) The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior in determining whether claims for damage to or loss of property, personal injury, or death arising out of activities of the Bureau of Reclamation shall be allowed in whole or in part or shall be disallowed.

(e) Subject to the direction and supervision of the Solicitor, the Regional Counsels of the Bureau of Reclamation are severally authorized to determine whether claims not exceeding $1,000 for damage to or loss of property, personal injury, or death arising out of activities of the Bureau of Reclamation shall be allowed in whole or in part or shall be disallowed.

(f) Any award which may be made by the Solicitor pursuant to paragraph (d) of this section or by a Regional Counsel pursuant to paragraph (e) of this section and which is accepted by the claimant in full satisfaction of the claim shall be paid out of funds available to the Bureau of Reclamation for such purpose.

(g) Any claimant who is dissatisfied with a determination made under paragraph (b) or paragraph (e) of this section regarding his claim may take an appeal to the Solicitor of the Department of the Interior within 15 days after receiving notice of such determination. Written notice of his desire to take an appeal shall be given by the claimant to the official who made the determination upon his claim, and such official shall thereupon promptly transmit to the Solicitor all documents and other data relating to the claim.

SEC. 23. *Appeals in land cases.* The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior with respect to the disposition of appeals to the Secretary from decisions of the Director of the Bureau of Land Management (or his delegates), and from decisions of the Director of the Geological Survey (or his delegates), in proceedings which relate to lands or interests in lands.

SEC. 24. *Contract appeals.* The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior in deciding appeals to the head of the Department from findings of fact or decisions by contracting officers of the Department of the Interior and its several agencies. (Articles 9 and 15, U. S. Standard Form No. 23; Article 12, U. S. Standard Form No. 32 (General Provisions, Supply Contract).)

SEC. 25. *Appeals in Indian probate proceedings.* The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior with respect to the disposition of appeals to the Secretary in proceedings for the determination of heirs or the approval of wills of deceased Indians.

SEC. 26. *Escheat of Indian estates.* The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior with respect to the disposition of the restricted or trust estates of Indians who have died interstate and without heirs.

SEC. 27. *Remission of liquidated damages.* If the Solicitor of the Department of the Interior determines that, as a matter of justice and equity, all or any part of the liquidated damages assessed on or after July 1, 1949, because of delay against a party to a contract made by the Department of the Interior or one of its agencies on behalf of the Government should be remitted, the Solicitor is authorized to recommend to the Comptroller General that such remission be made. (41 U. S. C., 1946 ed., Supp. IV, sec. 256a.)

SEC. 28. *Acquisition of real estate by condemnation.* (a) The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior under section 1 of the act of August 1, 1888, as amended (40 U. S. C., 1946 ed., Supp. IV, sec. 257), to acquire real estate for the United States by condemnation, under judicial process, whenever in the opinion of the Solicitor it is necessary or advantageous to the Government to do so, and the Solicitor is authorized to submit to the Attorney General of the United States applications for the institution of proceedings for condemnation.

(b) The Solicitor of the Department of the Interior may exercise the power of the Secretary of the Interior under section 1 of the act of February 26, 1931 (40 U. S. C., 1946 ed., sec. 258a), to sign declarations of taking.

SEC. 50. *Contracts; Bureaus.* (a) Irrespective of the amount involved, the head of a bureau may enter into contracts for construction, supplies, or services in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations. Secretarial approval is not a condition precedent to the consummation of such a contract unless the Secretary by a written order published in the FEDERAL REGISTER specifically prescribes such a requirement with respect to a particular contract or type of contract, or unless Secretarial approval is specifically required by statute. However, the head of a Bureau may request Secretarial approval of any proposed contract.

(b) With respect to any such contract, including a contract approved by the Secretary, the head of a bureau may issue change orders and extra work orders pursuant to the contract, enter into modifications of the contract which are legally permissible, and terminate the contract if such action is legally authorized.

(c) Except in those cases in which he is the contracting officer, the head of a bureau may, with respect to contracts entered into on United States standard form number 23, act as the authorized representative of the Secretary within the meaning of Articles 3 and 4 of that form, and, for the purpose of extending the time within which a contractor may notify a contracting officer of the causes of delay, Article 9 of Form No. 23. This paragraph shall not affect the authority to deviate from the standard form contracts granted to the Bureau of Reclamation by the Chairman of the Interdepartmental Board of Contracts and Adjustments, with the approval of the Director of the Bureau of the Budget, in the memorandum dated November 26, 1927.

(d) The head of a bureau may redelegate to subordinate officials and employees of the bureau the authority granted in this section. Each such redelegation shall be published in the FEDERAL REGISTER.

(e) This section is not intended to affect any requirement that proposed programs be cleared with the Office of the Secretary prior to their inauguration.

(f) The head of a bureau shall make such reports concerning the exercise of the authority granted by this section as the Secretary may require. The bureaus will be guided by such procedures as the Secretary may from time to time prescribe.

(g) As used in this section, the term "bureau" means The Alaska Railroad, the Alaska Road Commission, the Bureau of Indian Affairs, the Bureau of Land Management, the Bureau of Mines, the Bureau of Reclamation, the Fish and Wildlife Service, the Geological Survey, the National Park Service, the Puerto Rico Reconstruction Administration, the Southeastern Power Administration, and the Southwestern Power Administration.

(h) This section has no application to the Bonneville Power Administrator, who may continue to exercise authority to contract in accordance with the act of August 20, 1937, as amended (16 U. S. C., 1946 ed., sec. 832 et seq.). Articles 3, 4, and 9, U. S. Standard Form No. 23.)

SEC. 51. *Contracts: Office of the Secretary.* (a) Irrespective of the amount involved, the Chief Clerk is authorized to enter into contracts for supplies or services (1) for the Office of the Secretary, (2) for bureaus and offices from appropriations entitled "Contingent Expenses, Department of the Interior," and (3) for bureaus and offices and territorial agencies under special arrangements, such actions to be taken in conformity with applicable regulations and statutory requirements and subject to the availability of appropriations. Secretarial approval is not a condition precedent to the consummation of such a contract unless the Secretary by a written order published in the FEDERAL REGISTER specifically prescribes such a requirement with respect to a particular contract or type of contract, or unless Secretarial approval is specifically required by statute.

(b) With respect to any such contract, including a contract approved by the Secretary, the contracting officer may issue change orders and extra work orders pursuant to the contract, enter into modifications of the contract which are legally permissible, and terminate the contract if such action is legally authorized.

SEC. 52. *Leases—(a) Continental United States.* The head of a bureau may, within the continental limits of the United States and outside the District of Columbia, lease space in buildings (1) that is to be used wholly or predominantly for the special purposes of the bureau and will not be generally suitable for the use of other agencies, or (2) that is required for use incidental to and in conjunction with space that will be used for such special purposes, or (3) that is to be acquired under a lease involving no rental or a nominal consideration of $1 per annum. (See General Services Administration, Real Property Management Regulation No. 1, sec. 4 (a), December 21, 1950.)

(b) *Territories and possessions.* The head of a bureau may, in the territories and possessions of the United States, lease space in buildings either for the general purposes or for the special purposes of the bureau.

(c) Secretarial approval is not a condition precedent to the consummation of any lease authorized by this section unless the Secretary, by written order published in the FEDERAL REGISTER, prescribes such a requirement with respect to a particular lease or type of lease, or unless Secretarial approval is specifically required by statute. However, the head of a bureau may request Secretarial approval of any proposed lease.

(d) With respect to any such lease described in paragraphs (a) and (b) of this section, including a lease approved by the Secretary, the head of a bureau may modify or renew the lease if such action is legally permissible, and may terminate the lease if such action is legally authorized.

(e) The head of a bureau may redelegate to subordinate officials and employees of the bureau the authority granted in this section. Each such redelegation shall be published in the FEDERAL REGISTER.

(f) The authority granted under this section shall be exercised in compliance with applicable regulations and statutory requirements and shall be subject to the availability of appropriations.

(g) A copy of U. S. Standard Form 81, Revised, "Request for Space", for each lease and each modification or renewal of a lease shall be transmitted to the Chief Clerk of the Department. Such action will be taken with respect to all leasing transactions, including those in which the General Services Administration does not require the filing of Standard Form 81, Revised (General Services Administration, Real Property Management Regulation No. 3, sec. 4b, June 21, 1951).

(h) As used in this section, the term "bureau" means The Alaska Railroad, the Alaska Road Commission, the Bonneville Power Administration, the Bureau of Indian Affairs, the Bureau of Land Management, the Bureau of Mines, the Bureau of Reclamation, the Fish and Wildlife Service, the Geological Survey, the National Park Service, the Office of Territories, the Puerto Rico Reconstruction Administration, the Southeastern Power Administration, and the Southwestern Power Administration. (Sec. 3 (b), Reorganization Plan No. 18 of 1950 (15 F. R. 3177).)

SEC. 53. *Contracts: Chairmen, Field Committees.* In conformity with applicable regulations and statutory requirements, and subject to the availability of appropriations, the chairmen of the following field committees severally may, without Secretarial approval, purchase supplies and make contracts for supplies and services if the amount involved in any one case does not exceed $100:

Alaska Field Committee.
Colorado River-Great Basin Field Committee.
Missouri River Basin Field Committee.
Pacific Northwest Field Committee.
Southwest Field Committee.

SEC. 60. *Correspondence concerning condemnation proceedings.* The head of any bureau of this Department may approve and sign correspondence concerning pleadings, awards, or judgments in condemnation proceedings, and any other routine, incidental, or related correspondence regarding the conduct of such proceedings, without the submission of such matters for Secretarial consideration, except that requests for condemnation proceedings and declarations of taking shall be submitted to the Secretary for consideration and approval. This section shall not be construed as a limitation upon the authority of the Bonneville Power Administrator, who may continue to exercise authority with respect to the institution of condemnation proceedings and the execution of declarations of taking in accordance with the Bonneville Project Act, as amended (16 U. S. C., 1946 ed., secs. 832a (c) and (d), 832k (b).)

SEC. 61. *Requests for title opinions.* The head of any bureau of this Department may request the Attorney General to render opinions concerning the validity of title pursuant to section 355, Revised Statutes (40 U. S. C., 1946 ed., sec. 255), without the submission of such requests to the Secretary for consideration or approval.

(Sec. 2, Reorganization Plan No. 3 of 1950, 15 F. R. 3174, except as otherwise noted.)

OSCAR L. CHAPMAN,
Secretary of the Interior.

[Order 2694]

HEADS OF BUREAUS AND AGENCIES

REDELEGATION OF AUTHORITY TO TRANSFER, DONATE, OR DISPOSE OF EXCESS OR SURPLUS REAL PROPERTY

JULY 17, 1952.

SECTION 1. *Definitions.* All terms used herein conform with definitions in Secretarial Order No. 2643, dated June 25, 1951, and GSA Public Buildings Service Circular No. 1, dated March 8, 1950.

SEC. 2. *Policy.* The purpose of this order is to foster and assure maximum utilization of excess real property and related personal property and enable the efficient and prompt transfer, donation, or disposal of excess or surplus real property and related personal property.

SEC. 3. *Scope.* This redelegation shall apply to all excess or surplus real property and related personal property in all bureaus and agencies of this Department that is subject to disposition under the Federal Property and Administrative Services Act of 1949, as amended.

SEC. 4. *Authority redelegated.* (a) The authority delegated to the Secretary to transfer, donate, or dispose of real property and related personal property excess to the needs of the Department of the Interior in accordance with the Federal Property and Administrative Services Act of 1949, as amended, and regulations issued thereunder, together with special delegations of authority issued to the Secretary by the Administrator of General Services, is hereby redelegated to the head of each bureau and agency with respect to property under his jurisdiction.

(b) The authority delegated in paragraph (a) may be further redelegated, in writing, by the head of each bureau or agency to the greatest extent practicable in order to adequately and efficiently carry out established programs. (5 U. S. C., 1946 ed., sec. 22; 41 U. S. C., 1946 ed., Supp IV, sec. 201 et seq.; Reorganization Plan No. 3 of 1950, 15 F. R. 3174.)

SEC. 5. *Standards.* (a) The Departmental agency having custody of the property shall circularize all other bureaus and agencies having a possible interest in excess property in order to determine that such property is actually excess to the needs of the Department. The extent of such circularization shall be governed by the nature of the property and the likelihood of its use.

(b) All bureaus and agencies having excess property shall include in their circularization of notice of such property the appropriate programming division of the Office of the Secretary; either the Division of Minerals and Fuels, the Division of Land Utilization, or the Division of Water and Power.

(c) Property determined to be excess to the needs of the Department shall be transferred, donated, or disposed of in accordance with issuances of the Office of the Secretary and Public Buildings Service Circular No. 1 (and supplements thereto).

SEC. 6. *Compliance.* (a) In carrying out the provisions of this order, each

The Solicitor of the Department of the Interior may exercise all the authority of the Secretary of the Interior with respect to the disposition of the restricted or

of delay, Article 9 of Form No. 23. This paragraph shall not affect the authority to deviate from the standard form contracts granted to the Bureau of

may, within the continental limits of United States and outside the District of Columbia, lease space in buildings (1) that is to be used wholly or predom-

[F. R. Doc. 52-8071; Filed, July 23, 1952; 8:47 a. m.]

SEC. 6. *Compliance.* (a) In carrying out the provisions of this order, each

agency shall prepare and maintain such records as will show compliance with:

(1) The Federal Property and Administrative Services Act of 1949, as amended, including regulations and special delegations issued thereunder by the Administrator of General Services;

(2) Order No. 2643, Property Accounting;

(3) Order No. 2680, Sale of surplus Government property to Government employees;

(4) Other issuances from the Office of the Secretary. Such records shall be available for inspection at all reasonable times.

(b) Reports shall be prepared and filed with the Administrator in such manner as specified by General Services Administration regulations.

(c) Bureaus or agencies shall file with the Division of Property Management two (2) copies of all redelegations and instructions of general applicability which they may issue in furtherance of this order.

SEC. 7. *Revocation.* Order No. 2265 is hereby revoked.

(64 Stat. 832; 5 U. S. C. 22, 109; 18 U. S. C. 100, 189; 31 U. S. C. 89-92; 41 U. S. C. 1946 ed., Supp. IV, 232, 233)

OSCAR L. CHAPMAN,
Secretary of the Interior.

[Order 2697]

FISH AND WILDLIFE SERVICE

DESIGNATION OF ACTING DIRECTOR AND ACTING ASSISTANT DIRECTOR

SECTION 1. *Acting Director.* (a) In the event of the absence, sickness, resignation, or death of the Director of the Fish and Wildlife Service, his duties shall be performed by an Assistant Director. If more than one Assistant Director is available the duties of the Director shall be performed by the Assistant Director whose appointment bears the earliest date.

(b) The Chief, Division of Administration, shall perform the duties of the Director in the event of the absence, sickness, resignation, or death of the Director and the Assistant Directors.

(c) The Chief, Division of Management, when for any reason the Chief, Division of Administration, is not available, shall perform the duties of the Director in the event of the absence, sickness, resignation, or death of the Director and the Assistant Directors.

(d) The Chief Counsel, when for any reason the Chief, Division of Administration, and the Chief, Division of Management, are not available, shall perform the duties of the Director in the event of the absence, sickness, resignation, or death of the Director and the Assistant Directors.

(e) An officer acting under authority of this section shall sign documents under the title "Acting Director".

SEC. 2. *Acting Assistant Director.* (a) In the event of the absence, sickness, resignation, or death of an Assistant Director, his duties shall be performed by another Assistant Director.

(b) The Chief, Division of Administration, shall perform the duties of Assistant Director in the event of the absence, sickness, resignation, or death of the Assistant Directors.

(c) The Chief, Division of Management, when for any reason the Chief, Division of Administration, is not available, shall perform the duties of Assistant Director in the event of the absence, sickness, resignation, or death of the Assistant Directors.

(d) The Chief Counsel, when for any reason the Chief, Division of Administration, and the Chief, Division of Management, are not available, shall perform the duties of Assistant Director in the event of the absence, sickness, resignation, or death of the Assistant Directors.

(e) An officer, other than an Assistant Director, acting under authority of this section shall sign documents under the title "Acting Assistant Director".

(5 U. S. C., 1946 ed., sec. 22, Reorganization Plan No. 3 of 1950, 15 F. R. 3174)

Issued this 17th day of July 1952.

OSCAR L. CHAPMAN,
Secretary of the Interior.

DEPARTMENT OF COMMERCE

Office of International Trade

[Case No. 134]

O. B. HAUFSTADTER CO. ET AL.

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of: Ozyash B. Haufstadter, doing business as O. B. Haufstadter Co., 220 Broadway, New York 7, New York; Gustav von Hornung, "Hantra" Transit-Handelsgesellschaft, St. Jacobstrasse 21, Basel, Switzerland; S. Stier, 125, Rue de Hollande, Tangier, Morocco, Respondent; Case No. 134.

This proceeding was begun by the issuance of a charging letter, dated October 5, 1951, wherein the Director, Investigation Staff, Office of International Trade, charged Ozyash B. Haufstadter and O. B. Haufstadter Co. of 220 Broadway, New York City, New York; Gustav von Hornung and "Hantra" Transit-Handelsgesellschaft of St. Jacobstrasse 21, Basel, Switzerland; and S. Stier of 125, Rue de Hollande, Tangier, Morocco, with having violated the Export Control Act of 1949, as amended, and the Regulations promulgated thereunder.

In conformity with 15 CFR 382.11 (a) (15 F. R. 2733), all the named respondents were temporarily suspended from validated license privileges pending the determination of this proceeding.

All the respondents were duly informed of their right to answer the charges and their right to demand an oral hearing. Haufstadter and his company at first demanded a hearing but later submitted an affidavit, intended to be an answer, and elected to submit the case on this affidavit and the evidence, without oral hearing. They were represented by counsel. Von Hornung, Hantra, and Stier submitted answers but did not demand an oral hearing. The answers and all the evidence, together with the charging letter, were duly submitted to a Compliance Commissioner for his consideration, report, and recommendations. Two informal hearings were held by the Compliance Commissioner and he has filed his report and recommendations with the Assistant Director for Export Supply.

After reviewing the whole record and carefully considering the evidence and the report and recommendations of the Compliance Commissioner, I hereby make the following findings of fact:

1. Ozyash B. Haufstadter is engaged in the business of exporting pharmaceuticals and drugs and does business under the firm name and style of O. B. Haufstadter Co., at 220 Broadway, New York 7, New York.

2. Gustav de Hornung, sometimes called Gustav von Hornung, is an active official of "Hantra" Transit-Handelsgesellschaft and was an active, knowing participant in the acts hereinafter found to have been done by Hantra.

3. "Hantra" Transit-Handelsgesellschaft is a transit and trading company engaged in business in Basel, Switzerland.

4. S. Stier is engaged in the pharmaceutical and chemical business in Tangier, Morocco.

5. On January 25, 1951, Haufstadter submitted to the Office of International Trade two applications for validated licenses to export 400,000 grams of dihydrostreptomycin sulphate to England. These applications were assigned OIT Case Nos. 2279174 and 2279177.

6. In these applications Haufstadter falsely certified that the country of ultimate destination was England, when, in fact, he knew that it was intended that the goods were to be transshipped to Soviet Russia.

7. On December 12, 1950, Haufstadter submitted to the Office of International Trade an application for validated license to export 100,000 grams of dihydro-

streptomycin sulphate to Switzerland. This application was assigned OIT Case No. 2220361.

8. In this application, Haufstadter falsely certified that Hantra was the ultimate consignee and purchaser, that Switzerland was the country of ultimate destination, and that the goods were to be sold there in the open market for medicinal purposes. So as to make it appear that he had an order to support this application, on December 13, 1950, he requested Hantra to send him the order predated December 9, 1950. Hantra did so.

9. Both Hantra and Haufstadter knew and intended that if the license were granted and the goods were shipped, they would be resold to an agency representing purchasers in a country or countries under Communist control for re-export to such country or countries.

10. On November 29, 1950, Haufstadter submitted to the Office of International Trade an application for validated license to export 400,000 grams of dihydrostreptomycin sulphate to Madrid, Spain. This application was assigned OIT Case No. 2200759.

11. In this application Haufstadter falsely certified that the person named therein was the ultimate purchaser and consignee, that Spain was the country of ultimate destination and that the goods were to be sold in the open market there for medicinal purposes.

12. Haufstadter created these false conditions and on December 15, 1950, he induced a correspondent to furnish him with what might appear to be an order for the goods mentioned upon the conditions certified, for the sole purpose of obtaining a license to export the goods there so that they might subsequently be acquired by an agency representing purchasers in a country or countries under Communist control for re-export to such country or countries.

13. On December 12, 1950, Haufstadter submitted to the Office of International Trade an application for validated license to export 50,000 grams dihydrostreptomycin sulphate to Tangier, Morocco. This application was assigned OIT Case No. 2220362.

14. In this application, Haufstadter falsely certified that Stier was the ultimate purchaser and consignee, that Morocco was the country of ultimate destination, and that the goods were to be sold in the open market there for medicinal purposes. So as to make it appear that he had an order to support this application, on December 15, 1950, he requested Stier to send him the order predated to about the middle of November 1950.

15. Stier sent him this order on December 23, 1950, with the intention, in accordance with Haufstadter's request, that it be pro forma or provisional only and without binding effect.

16. Haufstadter's purpose in filing this application was to obtain the license to ship this product to Tangier, Morocco, so that it might be purchased there by an agency representing purchasers in a country or countries under Communist control for re-export to such country or countries and he forthwith engaged in an active effort to have Hantra make arrangements necessary to accomplish that purpose. Hantra did, in fact, endeavor to effectuate a sale to such foreign interests but such sale was not consummated solely because of the unwillingness of Stier to deliver the goods unless they were shipped to him, "Tangier in transit."

17. The license was granted for 7500 grams, which were shipped to Stier.

18. On January 17, 1950, Haufstadter submitted to the Office of International Trade an application for validated license to export 40,000 vials of penicillin to Stier in Tangier, Morocco. This application was assigned OIT Case No. 2265651.

19. In this application, Haufstadter falsely certified that Stier was the ultimate purchaser and consignee, that Morocco was the country of ultimate destination, and that the goods were to be sold there for medicinal purposes. Prior to or just after the filing of said application, Stier had ordered a similar quantity of penicillin to be shipped, "in transit Tangier." Despite this, and knowing that such shipment would not be licensed, Haufstadter sent Stier "pro forma" invoices and requested that Stier send him a new, specific order indicating that the goods were for sale in the home market in Morocco.

20. Export license to ship 25,000 vials of penicillin was granted and these were shipped to Stier.

21. On January 16, 1951, Haufstadter submitted to the Office of International Trade an application for validated license to export 3,000 bottles of chloromycetin and 3,000 bottles of aureomycetin to a merchant in Chile. This application was assigned OIT Case No. 2263811.

22. Prior to the submission of this application, Haufstadter had received an inquiry from the merchant in Chile concerning these drugs but had not received an order.

23. In this application, Haufstadter falsely certified that he possessed an accepted order for the goods mentioned, that Chile was the country of ultimate destination, and that the purchaser and consignee therein mentioned would resell the goods in the open market there for medicinal purposes.

24. This application was granted as requested and the export license was issued February 16, 1951.

25. Immediately thereafter, on February 19, 1951, Haufstadter offered the chloromycetin and aureomycetin, so licensed for Chile, to Hantra.

26. Subsequently, on April 25, 1951, Haufstadter was informed that his named purchaser and consignee in Chile could not obtain an import license for the goods licensed for export but, despite this knowledge, he failed to return the license to the Office of International Trade and it was later retrieved from him by a special agent of this agency.

And, from the foregoing, I make the following conclusions:

A. That Haufstadter, Hantra, and Stier knowingly submitted false orders in support of applications for validated export licenses with the intention not to abide by such orders, in violation of 15 CFR 381.1 (b) (3) (iii) (15 F. R. 2730).

B. That Haufstadter and Hantra conspired to obtain validated export licenses to export commodities from the United States to certain named destinations for the purpose of transshipping and diverting such commodities from the destinations so named to a country or countries to which export of such commodities would not have been licensed to their knowledge and, in furtherance of such conspiracy, Haufstadter knowingly submitted applications to the Office of International Trade for such validated export licenses, which applications contained numerous false statements and Hantra knowingly aided and abetted him in so doing, all in violation of 15 CFR 381.1 (b) (3) (i) (15 F. R. 2730).

C. That Haufstadter knowingly submitted each and every one of the applications hereinabove mentioned for the purpose of obtaining validated export licenses and knowingly set forth therein false statements calculated to induce the issuance of such licenses, in violation of 15 CFR 381.1 (b) (2) (15 F. R. 2730).

D. That Haufstadter knowingly failed, omitted, and neglected to return to the Office of International Trade Export License No. B1-216-33541, which had been issued to him for the export of chloromycetin and aureomycetin to Chile after he had been informed that the licensed consignee and purchaser was unable to obtain an import license necessary to complete said transaction, in violation of 15 CFR 372.16 (15 F. R. 2717).

In his report, the Compliance Commissioner has analyzed the various acts to the respondents, their relationship to each other, their possible motives and the degree and nature of their participation in the acts found to have been committed. He thereupon made certain recommendations. These recommendations are found by me to be fair and reasonable under the particular facts of this case, they are necessary and proper to achieve effective enforcement of the law, and they should be adopted: *Now, therefore, it is ordered,* As follows:

I. The temporary suspension order presently effective against S. Stier be and the same hereby is continued in effect until the last day of the calendar month in which this order is dated; and, until and including that day he, and every other person, firm, corporation, or business association with or to which he may be related by ownership, control, responsible position or other connection in the conduct of trade involving exportations from the United States, be and they hereby are denied the privilege of participating directly or indirectly in any capacity in the obtaining or using of validated export licenses and they and each of them are hereby declared to be ineligible to be a purchaser, ultimate consignee, intermediate consignee, or otherwise a party to any exportation from the United States under any validated export license.

II. All outstanding validated export licenses held by or issued in the names of, or wherein are named in any capacity, Ozyash B. Haufstadter, O. B. Haufstadter Co., Gustav de Hornung, also known as Gustav von Hornung, and "Hantra"

Transit-Handelsgesellschaft, or any of them, be and they hereby are revoked and shall be returned forthwith to the Office of International Trade for cancellation.

III. Ozyash B. Haufstadter, O. B. Haufstadter Co., Gustav de Hornung, also known as Gustav von Hornung and "Hantra" Transit-Handelsgesellschaft, its officers and shareholders, their successors and assigns, representatives, agents, and employees be and they hereby are denied for a period of three (3) years from the date of this order or for the duration of export controls, whichever is shorter, the privileges of directly or indirectly exporting or otherwise participating in any exportations of any commodity from the United States to any foreign destination, including Canada. This denial of export privileges includes and prohibits participation directly or indirectly in any capacity (a) in the obtaining or using of validated export licenses and general licenses, (b) as a party or as a representative of a party to any export license application or to any exportation, (c) in the receiving of any commodities exported from the United States, and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States.

IV. This revocation and denial of export privileges applies not only to each of the respondents named in paragraph III hereof but also to any other person, firm, corporation or business organization with which each or any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith.

V. This revocation and denial of export privileges includes also and embraces within its scope any and all sales of goods by Ozyash B. Haufstadter, O. B. Haufstadter Co., and any person, firm, or corporation within the scope of paragraph IV hereof, even though such sales be fully consummated in this country, if it is known by such vendor that the goods so sold are sold to a purchaser or purchasers in the United States for the express purpose of exporting the same from the United States, regardless of the prices or terms upon which said Haufstadter, Haufstadter Co., or related firm or corporation may sell such goods to such purchaser or purchasers and regardless also of whether said Haufstadter, Haufstadter Co., or related firm or corporation shall act in any such transaction as principal, agent, or broker. Nothing in this paragraph contained shall be deemed to limit or in any way restrict the generality or effect of paragraph III above.

VI. No person or business organization shall knowingly (a) apply for or obtain any license, shipper's export declaration, bill of lading or other export control document relating to any exportation from the United States of commodities to or for any of the respondents or those persons and business organizations covered in paragraphs III and IV hereof, or (b) order, receive, service, or otherwise act as a party or as a representative of a party to, any exportation of commodities from the United States, in such manner that any of the said respondents or those persons and business organizations within the scope of paragraphs III and IV hereof will directly or indirectly obtain any benefit therefrom, without prior disclosure of such facts to, and specific authorization of, the Office of International Trade.

Dated: July 18, 1952.

JOHN C. BORTON,
Assistant Director for Export Supply.

[F. R. Doc. 52-8126; Filed, July 23, 1952; 8:58 a. m.]

DEPARTMENT OF LABOR

Office of the Secretary

SPECIAL ASSISTANT TO SECRETARY

DELEGATION OF AUTHORITY WITH RESPECT TO RECRUITMENT OF MEXICAN WORKERS FOR AGRICULTURAL EMPLOYMENT IN UNITED STATES

Since the publication in the August 16, 1951, issue of the FEDERAL REGISTER (16 F. R. 8147) of the statement of organization of the United States Department of Labor, certain additional functions have vested in the Secretary of Labor pursuant to the Act of July 12, 1951, 65 Stat. 119. Under this act, the Secretary is authorized to perform various functions with respect to the recruitment of Mexican workers for agricultural employment in the United States. The functions of the Secretary under this act and under the Migrant Labor Agreement of 1951, as amended, between the Governments of the United States and Mexico are carried out generally through the Bureau of Employment Security. The making of final determinations pursuant to Article 30 of the Migrant Labor Agreement of 1951, as amended, has been delegated to Special Assistant to the Secretary Paul M. Kenefick.

Signed at Washington, D. C., this 16th day of July 1952.

MAURICE J. TOBIN,
Secretary of Labor.

Wage and Hour Division

APPLICATION TO INCLUDE MANUFACTURE OF CITRUS MOLASSES IN FLORIDA WITHIN CITRUS PULP AND WASTE DEHYDRATING INDUSTRY IN FLORIDA AND TEXAS, WHICH HAS BEEN DETERMINED TO BE OF SEASONAL NATURE

NOTICE OF DENIAL OF PETITION FOR REVIEW

On April 18, 1952, notice was published in the FEDERAL REGISTER (17 F. R. 3459) that the authorized representative of the Administrator of the Wage and Hour Division designated to hear and consider this matter had denied a petition to amend the seasonal industry determination for the citrus pulp and waste dehydrating industry in Florida and Texas so as to include within such industry the manufacture of citrus molasses in Florida.

The notice provided that any person aggrieved by the said determination could, within 15 days after the date of publication of the notice in the FEDERAL REGISTER, file a petition with the Administrator requesting that he review the action of the authorized representative upon the record of the hearing. A petition for review was filed with the Administrator within 15 days of publication of the notice. After careful consideration of the petition I find that a review of the presiding officer's findings is not warranted. Therefore, pursuant to the provisions of § 526.7 of the regulations (29 CFR Part 526), the petition for review is hereby denied, and the findings and determination of the presiding officer are now final.

Signed at Washington, D. C., this 18th day of July 1952.

WM. R. MCCOMB,
Administrator, Wage and Hour Division, United States Department of Labor.

Indiana Sportswear Co., Indiana, Pa., effective 7-17-52 to 1-16-53; 100 learners for expansion purposes (men's, boys' and juveniles' sport jackets).

The H. D. Lee Co., Inc., Box 455, Boaz, Ala., effective 7-14-52 to 7-13-53; 10 learners (men's work clothing and overalls).

The H. D. Lee Co., Inc., Box 455, Boaz, Ala., effective 7-14-52 to 1-13-53; 10 learners for expansion purposes (men's work clothing and overalls).

Modelrite Dress Co., 147 Chestnut Street, Dunmore, Pa., effective 7-8-52 to 7-7-53; 10 learners (dresses and blouses).

Palm Beach Co., Talladega, Ala., effective 7-11-52 to 7-10-53; 10 percent of the productive factory force (coats and pants).

Salisbury Undergarment Co., Inc., Salisbury, Pa., effective 7-11-52 to 7-10-53; 10 learners (ladies' woven underwear).

Trego's Westwear, 1001 and 1003, Woodward, Okla., effective 7-7-52 to 7-6-53; 10 learners. Learners to be engaged at subminimum wage rates in the manufacture of only those items covered under section 522.161 (a) (3) (6) of the apparel regulations (leather fringed coats, cowgirl suits, cowboy suits).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.51, as revised November 19, 1951; 16 F. R. 10733).

Trio Knitting Mill, Willow Street, Mount Airy, N. C., effective 7-11-52 to 7-10-53; five learners.

Wrenn Hosiery Mills, Thomasville, N. C., effective 7-18-52 to 7-17-53; 5 percent of the productive factory force.

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Stedman Manufacturing Co., Asheboro, N. C., effective 7-14-52 to 2-13-53; 20 learners for expansion purposes (men's knitted underwear).

Shoe Industry Learner Regulations (29 CFR 522.250 to 522.260, as amended March 17, 1952; 17 F. R. 1500).

Malsek-Handler Shoe Co., Inc., Senath, Mo., effective 8-1-52 to 7-31-53; 10 learners.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Brick Infants Wear Co., Star Route, Freehold, N. J., effective 7-11-52 to 1-10-53; five learners for expansion purposes; sewing machine operators; 320 hours; 65 cents per hour for the first 160 hours and 70 cents per hour for the remaining 160 hours (infants' bathrobes, blankets, buntings, carriage covers, etc.).

Ener Bait Manufacturing Co., Highway 17, Bartow, Fla., effective 7-11-52 to 1-10-53; 10 learners for expansion purposes; Artificial lure tiers; 160 hours at 65 cents per hour (fishing lures).

Londontown Manufacturing Co., 1101 East Twenty-fifth Street, Baltimore 18, Md., effective 7-11-52 to 7-10-53; five learners; sewing machine operators; 480 hours; 60 cents per hour for the first 240 hours and 65 cents per hour for the remaining 240 hours (men's raincoats, topcoats and sport coats).

The following special learner certificate was issued in the Virgin Islands to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning period and the learner wage rates are indicated, respectively.

V. I. Jewelry Manufacturing Corp., St. Thomas, V. I., effective 7-9-52 to 1-8-53; 80 learners; Soldering, 160 hours at 25 cents per hour, 240 hours at 32½ cents per hour; stone setting, 160 hours at 25 cents per hour, 160 hours at 35 cents per hour; lay out, 160 hours at 25 cents per hour, 160 hours at 35 cents per hour (custom jewelry).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 17th day of July 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

[Docket No. G-1975]

MISSISSIPPI RIVER FUEL CORP.

ORDER FIXING DATE OF HEARING

JULY 17, 1952.

On June 12, 1952, Mississippi River Fuel Corporation (Mississippi) a Delaware corporation having its principal place of business at 407 North 8th Street, St. Louis, Missouri, filed an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a 2-inch diameter tap and a metering and regulating station connecting with its Line No. 1 in Morehouse Parish, Louisiana, for the delivery and sale of natural gas, on an interruptible basis, to Mid Valley Pipe Line Company (Mid-Valley), Mississippi also filed, on June 12, 1952, a petition requesting this Commission to issue a declaratory order declaring that the construction and operation of the facilities required in the sale to Mid-Valley would not involve such transportation in interstate commerce as to be within the jurisdiction of this Commission.

Mississippi accompanied the aforementioned application with a request for a temporary certificate of public convenience and necessity, stating that the natural gas to be sold and delivered to Mid-Valley would be used as fuel in a pumping station of that company—pumping crude oil to a refinery of Mid-Valley, at which refinery the crude oil would be refined as aviation gasoline, and that there is a shortage of aviation gasoline for defense purposes.

On July 3, 1952, the Commission by telegram notified Mississippi that its request for a temporary certificate was denied since its issuance was not shown to come within the purview of the Commission's authority under section 7 of the Natural Gas Act, and the Commission's regulations thereunder.

On July 7, 1952, Mississippi filed a telegraphic request with the Commission, requesting the Commission to reduce the usual fifteen day period between publication of the order setting date of hearing in this matter, and the date of hearing. Mississippi bases its request on the same grounds which it set forth in its request for a temporary certificate, aforementioned.

The Commission finds:

(1) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on June 26, 1952 (17 F. R. 5740).

(2) It is reasonable and in the public interest and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held on July 28, 1952, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the application, as supplemented: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: July 18, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-8081; Filed, July 23, 1952; 8:50 a. m.]

[Docket No. G-1994]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

JULY 18, 1952.

Take notice that Northern Natural Gas Company (Applicant), a Delaware corporation, address 2223 Dodge Street, Omaha 1, Nebraska, filed on July 7, 1952, an application pursuant to section 7 of the Natural Gas Act for (1) a certificate of public convenience and necessity authorizing the construction and maintenance of certain transmission pipe-line facilities and the operation of said facilities in the future as an emergency interconnection pursuant to the terms of § 157.14 of the Commission's general rules and regulations, and (2) authorization to abandon certain other transmission pipe-line facilities.

The facilities for which Applicant seeks certification consist of approximately 4 miles of 16-inch pipeline between its 24 and 26-inch main line and the 26-inch main line of Natural Gas Pipeline Company of America, all located in Mills County, Iowa. The facilities proposed to be abandoned consist of approximately 1.3 miles of 12-inch pipeline between Applicant's 24-inch main line and Natural Gas Pipeline Company of America's 18-inch main line, also all located in Mills County, Iowa.

Applicant states that construction was commenced on the facilities for which certification is sought during recent Missouri River floods, as an emergency interconnection. It is now proposed that said facilities will remain as an interconnection for emergency purposes although not physically connected with the pipeline of Natural Gas Pipeline Company of America. The facilities proposed to be abandoned presently serve as an emergency interconnection between Applicant's and Natural Gas Pipeline Company of America's pipelines; however, they are stated by Applicant to be inadequate for such purpose as they were under water during the recent floods. It is estimated that 385,000 Mcf of natural gas per day could be delivered to Applicant through the new facilities in the event of an emergency.

The estimated cost of the facilities for which certification is sought is $244,000, while the estimated cost of removal of the facilities proposed to be abandoned is $4,600. The project is proposed to be financed out of Applicant's general funds.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of August 1952. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE COMMISSION

G. W. ZILLER, INC.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 18th day of July 1952.

In the Matter of G. W. Ziller, Inc., 730 Marsh Avenue, Reno, Nevada.

I. The Commission's public official files disclose that G. W. Ziller, Inc., hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1949, 1950, and 1951 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 2d day of September 1952 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before August 26, 1952. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived:

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 2, 1952.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

ROBERT E. HORTON

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 18th day of July 1952.

In the matter of Robert E. Horton, 530 West Sixth Street, Los Angeles, California.

I. The Commission's public official files disclose that Robert E. Horton, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943 through 1951 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 2d day of September 1952 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before August 26, 1952. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived:

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 2, 1952.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

STAMPLEY & CO.

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 18th day of July 1952.

In the matter of Kenneth McIntosh, dba Stampley & Company.

I. The Commission's public official files disclose that Kenneth McIntosh, doing business as Stampley & Company, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,[1] stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1943 through 1951 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV. The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in Paragraph II hereof is true;

(b) Whether registrant has wilfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in Paragraph IV hereof on the 2d day of September 1952 at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before August 26, 1952. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived:

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to September 2, 1952.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provi-

sions of the section delaying the effective date of any final Commission action.

[File No. 70-2436]

ELECTRIC BOND AND SHARE CO.

ORDER GRANTING RECITALS

JULY 18, 1952.

The Commission, on August 24, 1950, having approved the acquisition by Electric Bond and Share Company ("Bond and Share"), a registered holding company, of shares of the common stock of The Southern Company in exchange for Bond and Share's holdings of the common stock of Birmingham Electric Company subject to the condition that Bond and Share should within one year from the date of such acquisition divest itself of the stock of The Southern Company so acquired; and

Bond and Share having notified the Commission pursuant to Rule U-44 (c) of the rules and regulations promulgated under the act of Bond and Share's intention to sell from time to time prior to January 1, 1953 through the facilities of the New York Stock Exchange the remainder of Bond and Share's holdings of the common stock of The Southern Company totaling 171,053 shares; and

The Commission having notified Bond and Share that no declaration need be filed with respect to this matter; and

Bond and Share having requested that the Commission enter an order containing the recitals required by section 1808 (f) and Supplement R of the Internal Revenue Code, and the Commission deeming it appropriate that such request be granted:

It is ordered and recited, That the sale by Electric Bond and Share Company of the remainder of its holdings of the Southern Company common stock totaling 171,053 shares from time to time through the facilities of the New York Stock Exchange is necessary or appropriate to the integration or simplification of the holding company system of which Electric Bond and Share Company is a member and is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, all in accordance with the meaning and requirements of the Internal Revenue Code and section 1808 (f) and Supplement R thereof.

By the Commission.

[File No. 70-2868]

COLUMBIA GAS SYSTEM, INC., AND NATURAL GAS COMPANY OF W. VA.

ORDER AUTHORIZING ISSUANCE AND SALE OF COMMON STOCK AND INSTALLMENT PROMISSORY NOTES BY SUBSIDIARY AND ACQUISITION THEREOF BY PARENT COMPANY

JULY 18, 1952.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and Natural Gas Company of West Virginia ("Natural Gas"), a subsidiary company of Columbia having filed a joint application, and an amendment thereto, with this Commission pursuant to sections 6 (b), 9 and 10 of the Public Utility Holding Company Act of 1935 with respect to the following proposed transactions:

Natural Gas proposes to amend its Articles of Incorporation so as to increase its authorized common stock, par value of $100 per share, from 30,000 shares to 50,000 shares. Natural Gas further proposes to issue and sell and Columbia proposes to acquire, at par, 5,500 shares of common stock, par value $100 per share ($550,000), and a maximum of $600,000 principal amount of 3⅝ percent Installment Promissory Notes. Natural Gas represents that the proceeds in the amount of $1,150,000 to be derived from Columbia would be used to finance, in part, its 1952 construction program estimated to cost $1,336,189. Natural Gas states that such common stock and 3⅝ percent Notes would be issued and sold at such times and in such amounts as are necessary not to exceed in the aggregate the amounts set forth hereinabove, and that none of such securities would be sold subsequent to March 31, 1953.

It is further stated that the 3⅝ percent Notes proposed to be issued by Natural Gas would be payable in twenty-five equal annual installments on February 15 of each of the years 1954 to 1978, inclusive. Interest on the unpaid principal amount thereof would be payable semi-annually on February 15 and August 15.

The Public Service Commission of the State of West Virginia having expressly authorized the proposed issuance and sale of the common stock and Notes by Natural Gas; and

Due notice having been given of the filing of the joint application, as amended, and a hearing not having been requested or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules and regulations promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said joint application, as amended, be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of said act, that said joint application, as amended, be, and the same hereby is, granted, effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-8089; Filed, July 23, 1952; 8:53 a. m.]

[File No. 70-2900]

NEW ENGLAND GAS AND ELECTRIC ASSOCIATION AND ALGONQUIN GAS TRANSMISSION CO.

NOTICE OF FILING OF PROPOSED SALE BY SUBSIDIARY OF REGISTERED HOLDING COMPANY OF PRINCIPAL AMOUNT OF BONDS AND SHARES OF COMMON STOCK AND OF PROPOSAL BY PARENT TO ACQUIRE COMMON STOCK AND TO ISSUE AND SELL SHORT-TERM NOTES

JULY 18, 1952.

Notice is hereby given that New England Gas and Electric Association ("NEGEA"), a registered holding company, and one of its subsidiary companies, Algonquin Gas Transmission Company ("Algonquin"), have filed a joint-application-declaration pursuant to sections 6, 7, 9 (a), 10, and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder with respect to the following transactions:

Algonquin proposes to issue and sell privately to three insurance companies $9,734,000 aggregate principal amount of its First Mortgage Pipeline Bonds, 4¼ percent Series, due September 1, 1971. Each of the three prospective purchasers of the bonds were members of the group of four insurance companies which purchased the presently outstanding $27,600,000 principal amount of Algonquin's 3¾ percent Series bonds, due 1971. The names of the companies to which the new bonds are to be sold and the respective amounts to be sold to each of them are as follows:

Metropolitan Life Insurance Co	$5,675,000
John Hancock Mutual Life Insurance Co	3,446,000
New England Mutual Life Insurance Co	613,000

The bonds are to be issued under and secured by Algonquin's present Mortgage and Deed of Trust dated as of March 1, 1951, as supplemented by an indenture to be subsequently submitted to the Commission. In accordance with the terms of a bond purchase agreement to be entered into between Algonquin and the purchasers, the bonds are to be sold, from time to time, for cash at 100 percent of principal amount plus accrued interest. A commitment fee will be paid at the rate of 1 percent per annum of the unused balance of the total commitment from the date of the purchase agreement to the date the bonds are issued. The purchase agreement will also provide for an additional special sinking fund with respect to Algonquin's presently outstanding First Mortgage Pipeline Bonds, 3¾ percent Series, due 1971. This special sinking fund will provide for payments by Algonquin out of net income and depreciation funds not required for construction until a total of $3,000,000 principal amount of the 3¾ percent Series Bonds have been retired, after which the regular sinking fund payments applicable to such bonds will be reduced pro rata.

Algonquin also proposes to amend its charter so as to increase the amount of its authorized $100 par value common stock, and to issue and sell, from time to time, pursuant to preemptive rights, 48,660 additional shares of such stock. NEGEA, which does not desire to purchase its proportionate share of the common stock to be offered by Algonquin, proposes to acquire 15,610 shares of Algonquin's additional common stock. Providence Gas Company, another of the present holders of Algonquin's common stock, has waived its preemptive right to purchase any of the additional common stock to be offered by Algonquin; Eastern Gas and Fuel Associates and Texas Eastern Transmission Corporation, the only other stockholders of Algonquin, have indicated that they will purchase, respectively, 18,760 and 14,290 shares of the additional common stock proposed to be offered by Algonquin.

NEGEA states that it contemplates financing the proposed acquisition of the additional shares of Algonquin's common stock by the issuance to banks of short-term notes. In this connection NEGEA requests Commission authorization to issue to banks, from time to time, notes with a maturity of not more than nine months from the date of issue aggregating (together with all other outstanding notes and drafts of a maturity of nine months or less as to which NEGEA is liable) not more than 8 percent of the principal amount and par value of the other securities of NEGEA then outstanding. NEGEA states that its outstanding short-term notes maturing in less than nine months aggregate $2,605,100 or 4.86 percent of the principal amount and par value of the other outstanding securities of NEGEA.

Algonquin is presently constructing pipeline facilities to supply natural gas to distributing companies in New Jersey, Connecticut, Rhode Island and Massachusetts. Algonquin states that the $14,600,000 proceeds of the proposed sale of bonds and common stock will be used, together with the $36,800,000 previously realized from the sale of Algonquin's outstanding securities, plus $100,000 interest from short-term investments, to meet the presently estimated cost ($51,500,000) of construction of the company's pipeline, including allowances of $420,000 for working capital and $1,164,600 for contingencies.

The filing states that no State commission and no Federal commission other than this Commission has jurisidiction over the proposed transactions.

Algonquin requests an exemption from the competitive bidding requirements of Rule U-50, and joins with NEGEA in requesting that the Commission's order become effective upon issuance.

Notice is further given that any interested person may, not later than July 29, 1952, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application-declaration, as filed or as amended, may be granted or permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2902]

DUQUESNE LIGHT CO.

NOTICE OF FILING REGARDING ISSUANCE OF EIGHTY-DAY BANK LOAN NOTE

JULY 18, 1952.

Notice is hereby given that a declaration has been filed with this Commission by Duquesne Light Company ("Duquesne"), a public utility subsidiary of Philadelphia Company, a registered holding company. Declarant has designated sections 6 (a) and 7 of the act and Rule U-23 promulgated thereunder as applicable to the proposed transaction, which is summarized as follows:

Duquesne presently has a short-term bank loan indebtedness aggregating $14,810,000 represented by three notes, each bearing interest at 3 percent per annum. The company proposes in the instant declaration to issue a $1,000,000 note bearing interest at 3 percent per annum and maturing approximately 80 days

[1] Filed as part of the original document.

[1] Filed as part of the original document.

subsequent to March 31, 1953.

No. 144——7

after the date thereof, such note to be issued to Mellon National Bank and Trust Company; of Pittsburgh, Pennsylvania. Duquesne will have the right to prepay such note at any time prior to maturity, without premium. The company proposes to use the proceeds from such note to defray part of the cost of its current construction program involving an estimated total cost of about $30,000,000 for the year 1952. The company has expressed its intention to pay off all outstanding short-term notes with the proceeds expected to be derived from a permanent financing program now being formulated. It is stated that no fees or expenses will be incurred in connection with the proposed $1,000,000 borrowing, other than estimated miscellaneous expenses not exceeding $100.

Declarant states that no State Commission has jurisdiction over the proposed transaction and has requested that the transaction be authorized pursuant to the procedure of Rule U-23, without a hearing, and that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than July 25, 1952, at 1:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27233]

CEMENT FROM KANSAS CITY AND SUGAR CREEK, MO., TO POINTS IN KANSAS

APPLICATION FOR RELIEF

JULY 21, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: L. E. Kipp, Agent, for carriers parties to his tariffs ICC Nos. A-3850 and A-3815.

Commodities involved: Cement, in carloads.

From: Kansas City and Sugar Creek, Mo.

To: Points in Kansas.

Grounds for relief: Competition with rail carriers, competition with motor carriers, to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: L. E. Kipp, Agent, ICC No. A-3850, supl. 33; L. E. Kipp, Agent, ICC No. A-3815, supl. 35.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[Vesting Order 18958]

FELIX ROEFFS

In re: Debt owing to Felix Roeffs. F-28-2464.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Cong., 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Felix Roeffs, whose last known address is Dechaneistrasse 29, Muenster/Vestfalen, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation owing to Felix Roeffs, by the American Express Company, 65 Broadway, New York, New York, in the amount of $5,000.00, as of June 25, 1952, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Felix Roeffs, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person referred to in subparagraph 1 hereof be treated as a person who is and prior to January 1, 1947, was a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on July 16, 1952.

For the Attorney General.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Export and Diversion Programs

PART 571—WHEAT

SUPPART A—WHEAT AND WHEAT-FLOUR EXPORT PROGRAM — INTERNATIONAL WHEAT AGREEMENT

TERMS AND CONDITIONS OF 1952-53 COMMODITY CREDIT CORPORATION WHEAT AND WHEAT-FLOUR EXPORT PROGRAM

The terms and conditions of 1952-53 Commodity Credit Corporation Wheat and Wheat-Flour Export Program (F. R. Doc. 52-6887, 17 F. R. 5625) are amended to include the following section:

§ 571.239 *Restriction on use of U. S. Government funds.* In connection with any sales of wheat or flour for recording against the 1951-52 and the 1952-53 guaranteed quantities:

(a) The foreign purchaser must not use funds made available by the United States to carry out the provisions of the Mutual Security Act of 1951 which were appropriated under Title 3 of the Act making supplemental appropriations for the fiscal year ending June 30, 1953, and for other purposes, or funds allocated from any appropriations to the Director of Mutual Security, or the Mutual Security Agency, or the Department of State, to pay for such wheat or flour, and any such funds must not be used to pay for wheat or flour under any subsequent resale. If any such funds are used by the foreign purchaser or any subsequent purchaser to pay for wheat or flour, and the exporter has received a payment on such wheat or flour hereunder, the exporter shall refund such payment to the CCC.

(b) If wheat or flour is exported to a country which has obtained any funds referred in paragraph (a) of this section which could be used for the purchase of wheat or flour, the exporter must have submitted to the Vice President, a certified statement by an authorized representative of the Government agency of such country having control over the allocation of such funds that such funds have not been used and will not be used by the foreign purchaser to pay for wheat or flour purchased under the Wheat Agreement and that such funds have not been used and will not be used to pay for such wheat or flour under any subsequent resale of the wheat or flour.

(Pub. Law 547, 82d Cong.)

Dated this 22d day of July 1952.

[SEAL] JOHN H. DEAN, *Acting Vice President, Commodity Credit Corporation.*

Approved:

HAROLD K. HILL, *Acting President, Commodity Credit Corporation.*

TITLE 7—AGRICULTURE

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[1061 (Special Program 52)-1, Supp. 2]

PART 707—FARM LAND RESTORATION PROGRAM

SUBPART—1952

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act and the Flood Rehabilitation Act, 1952, the 1952 Farm Land Restoration Program, issued October 25, 1951 (16 F. R. 11045), as amended February 4, 1952 (17 F. R. 1171), is further amended as follows:

1. Section 707.122 is amended by adding paragraph (f) as follows:

§ 707.122 *Deduction.* • • •

(f) Notwithstanding other provisions of this subpart, if the producer to whom materials were furnished is unable, due to reasons beyond his control, to use them to carry out prior to January 1, 1953, the practice for which the materials were furnished, he may be relieved of the deduction for the materials upon determination by the county committee that the materials were used not later than December 31, 1953, in performing the practice for which the materials were furnished.

2. Section 707.153 (a) is amended by adding Adams, Clay, and Sarpy Counties

PART 723—CIGAR-FILLER TOBACCO, AND CIGAR-FILLER AND BINDER TOBACCO

CIGAR-FILLER TOBACCO MARKETING QUOTA REGULATIONS, 1953–54 MARKETING YEAR

Correction

In F. R. Doc. 52-8008, appearing at page 6681 of the issue for Tuesday, July 22, 1952, the word "Relocation" in the headnote for § 723.480 should be "Reallocation", so that the headnote now reads:

§ 723.480 *Reallocation of allotments released from farms removed from agricultural production.*

[1023 (Burley and Flue-53)-3, Supp. 1]

PART 725—BURLEY AND FLUE-CURED TOBACCO

MARKETING QUOTA REGULATIONS, BURLEY AND FLUE-CURED TOBACCO 1953–54 MARKETING YEAR

The amendment herein is based on the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, applicable to tobacco (7 U. S. C. 1311–1314), and is made for the purpose of amending § 725.417 of the Burley and flue-cured tobacco marketing quota regulations, 1953–54 marketing year, relating to determination of Burley and flue-cured tobacco acreage allotments for old farms, pursuant to Public Law 528, 82d Congress. In view of the fact that this amendment merely incorporates the provisions of said Public Law 528, it is hereby found and determined that notice and public procedure thereon provided for in the Administrative Procedure Act (5 U. S. C. 1003) are unnecessary.

The marketing quota regulations, Burley and flue-cured tobacco, 1953–54 marketing year, are amended by deleting § 725.417 and inserting in lieu thereof the following:

§ 725.417 *1953 old farm tobacco acreage allotment.* The preliminary allotments calculated for all old farms in the State pursuant to § 725.416 shall be adjusted uniformly so that the total of such allotments for old farms pursuant to § 725.418 shall not exceed the State acreage allotment: *Provided*, That in the case of Burley tobacco, the farm acreage allotment shall not be less than the smallest of (a) the 1952 allotment, (b) seven-tenths of an acre, or (c) 25 percent of the cropland in the farm: *Provided further*, That no 1952 allotment of one acre or less shall be reduced more than one-tenth of an acre.

(Sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interprets or applies sec. 313, 52 Stat. 47, as amended; Pub. Law 528, 7 U. S. C. 1313, 82d Cong.)

Done at Washington, D. C., this 22d day of July 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

[F. R. Doc. 52-8172; Filed, July 24, 1952; 8:57 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Peach Order 1]

PART 950—PEACHES GROWN IN UTAH

REGULATION BY GRADES AND SIZES

§ 950.302 *Peach Order 1*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 50 (7 CFR Part 950) regulating the handling of peaches grown in the State of Utah, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of such peaches, as hereinafter set forth, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than July 26, 1952. A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop and adequate information thereon was not available to the Administrative Committee until July 7, 1952, recommendation as to the need for, and the extent of, regulation of shipments of such peaches was made at the meeting of said committee on July 7, 1952, after consideration of all information then available relative to the supply and demand conditions for such peaches, at which time the recommendation and supporting information was submitted to the Department, and made available to growers and handlers; necessary supplemental information was not available to the Department until July 17, 1952; shipments of the current crop of such peaches are expected to begin on or about August 4, 1952, and this section should be applicable to all shipments of such peaches in order to effectuate the declared policy of the act; and compliance with this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., m. s. t., July 26, 1952, and ending at 12:01 a. m., m. s. t., October 10, 1952, no handler shall ship:

(i) Any peaches which do not grade at least U. S. No. 1; and

(ii) Are of a size not smaller than 2 inches in diameter: *Provided*, That any lot of peaches shall be deemed to be of a size not smaller than 2 inches in diameter (*a*) if not more than 10 percent, by count, of the peaches in such lot are smaller than 2 inches in diameter and if not more than 15 percent, by count, of the peaches contained in any individual container in such lot are smaller than 2 inches in diameter; or (*b*) if the peaches in such lot are shipped in peach boxes (inside dimensions) 4½–5" x 11½" x 16⅛") and the peaches are of a size not smaller than a size that will pack, in accordance with the specifications of a standard pack, a count of 78 peaches in a peach box, except that the tolerance for variations incident to proper packing, provided in such pack specifications, shall not permit a variation of more than 4 peaches in any such box; or (*c*) if the peaches in such lot are shipped in L. A. lugs (inside dimensions 4½–5¾" x 13½" x 16⅛") and the peaches are of a size not smaller than a size that will pack, in accordance with the specifications of a standard pack, a count of 90 peaches in a L. A. lug, except that the tolerance for variations incident to proper packing, provided in such pack specification, shall not permit a variation

of more than 4 peaches in any such L. A. lug.

(2) *Definitions.* As used in this section, "peaches," "handler," and "ship" shall have the same meaning as when used in the aforesaid marketing agreement and order; "U. S. No. 1," "diameter," "count," and "standard pack" shall have the same meaning as when used in the United States Standards for Peaches (7 CFR 51.312).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 23d day of July 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-8258; Filed, July 24, 1952; 9:12 a. m.]

[Lemon Reg. 444, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.551 (Lemon Regulation 444, 17 F. R. 6625) are hereby amended to read as follows:

(ii) District 2, 700 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 23d day of July 1952.

[SEAL] S. R. SMITH
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-8257; Filed, July 24, 1952; 9:12 a. m.]

PART 979—IRISH POTATOES GROWN IN EASTERN SOUTH DAKOTA PRODUCTION AREA

RECODIFICATION

In accordance with the revised Federal Register Regulations (1 CFR Part 1), the format of the order (Order No. 79, 7 CFR Part 979) of the Secretary of Agriculture, regulating the handling of Irish potatoes grown in the Eastern South Dakota production area (including the requisite findings set forth therein), and the format of the South Dakota Potato Committee's rules and regulations (7 CFR Part 979) adopted pursuant thereto with the approval of the Secretary of Agriculture, are recodified as set forth below. To facilitate cross reference between the aforesaid order and the marketing agreement and to obviate possible difficulties in future amendatory proceedings, the provisions of Marketing Agreement No. 103 shall be renumbered and the section headings redesignated to conform to the recodified order. The supplementary provisions of the said marketing agreement shall be renumbered as follows: §§ 979.79 *Counterparts;* 979.80 *Order with marketing agreement;* 979.81 *Record of Irish Potatoes handled and authorization to correct typographical errors;* 979.82 *Effective date.*

This recasting of the format and recodification is not intended, nor shall it be deemed, to make any substantive change in the provisions of the aforesaid order of the Secretary, the aforesaid marketing agreement, and the aforesaid rules and regulations of the South Dakota Potato Committee.

Done at Washington, D. C., this 22d day of July 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

SUBPART—ORDER RELATIVE TO HANDLING

SOURCE: §§ 979.0 to 979.78 contained in Order No. 79, 13 F. R. 1904.

FINDINGS AND DETERMINATIONS

§ 979.0 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Watertown, South Dakota, on June 19–20, 1947, upon a proposed marketing agreement and a proposed order regulating the handling of Irish potatoes grown in Eastern South Dakota production area. Upon the basis of evidence introduced at such hearing, and the record thereof, it is found that:

(1) The terms and provisions of this order prescribe, so far as practicable, such different terms, applicable to different production areas, as are necessary in order to give due recognition to the difference in production and marketing of such Irish potatoes;

(2) This order is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to any subdivision of said production area specified in this subpart would not effectively carry out the declared policy of the act; and

(3) This order and all of the terms and conditions of this order will tend to effectuate the declared policy of the act with respect to Irish potatoes produced in said production area, specified in this order, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish prices to the producers thereof at a level that will give such Irish potatoes a purchasing power, with respect to the articles that the producers thereof buy, equivalent to the purchasing power of such Irish potatoes in the base period, August 1919–July 1929, and by protecting the interest of the consumer by (i) approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumption demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such Irish potatoes above the level which it is declared in the act to be the policy of Congress to establish.

(b) *Determinations.* It is hereby determined that:

(1) The marketing agreement, upon which the public hearing at Watertown, South Dakota, was held on June 19–20, has been executed by handlers who handled not less than 50 percent of the commodity covered by this order, and

(2) The issuance of this order is favored and approved by producers of Irish potatoes who, during the determined representative period (July 1, 1946 to June 30, 1947, both dates inclusive), produced for market within the production area at least two-thirds of the Irish potatoes produced for market within such area.

Order relative to handling. It is, therefore, ordered, pursuant to the findings and determinations set forth in § 979.0 of this subpart and pursuant to the aforesaid act, that such handling of Irish potatoes produced in the counties of Codington, Clark, Hamlin, Deuel, Brown, Day, and Kingsbury in the State of South Dakota, as is in the current of commerce between any of said counties and any point outside the State of South Dakota, or so as directly to burden, obstruct, or affect such commerce, shall, from and after the time specified in this subpart be in conformity to and in compliance with the terms and conditions of this order.

DEFINITIONS

§ 979.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or member of the United States Department of Agriculture, who is or may hereafter be authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 979.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

§ 979.3 *Person.* "Person" means an individual, partnership, corporation, association, legal representative, or any organized group or business unit of individuals.

§ 979.4 *Production area.* "Production area" means the counties of Codington, Clark, Hamlin, Deuel, Brown, Day and Kingsbury in the State of South Dakota.

§ 979.5 *Potatoes.* "Potatoes" means all varieties of Irish potatoes grown in the production area.

§ 979.6 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of potatoes owned by another person) who ships potatoes in fresh form, whether of his own production or other.

§ 979.7 *Ship or handle.* "Ship" or "handle" means to transport, sell, or in any other manner place potatoes in the current of interstate commerce or so as directed to burden, obstruct, or affect such commerce.

§ 979.8 *Producer.* "Producer" means any person engaged in the production of potatoes for market.

§ 979.9 *Fiscal year.* "Fiscal year" means the period beginning on July 1 of each year and ending June 30 of the following year.

§ 979.10 *Committee.* "Committee" means the South Dakota Potato Committee established pursuant to § 979.20.

§ 979.11 *Varieties.* "Varieties" means and includes all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 979.12 *Seed potatoes.* "Seed potatoes" means and includes all potatoes officially certified and tagged, marked, or otherwise appropriately identified, by the State of South Dakota Seed Certification Board or its legal successors.

§ 979.13 *Table stock potatoes.* "Table stock potatoes" means and includes all potatoes not included within the definition of "seed potatoes."

ADMINISTRATIVE COMMITTEE

§ 979.20 *Establishment and membership.* A South Dakota Potato Committee, consisting of seven producer members, is hereby established. For each member of the committee, there shall be an alternate member, who shall have the same qualifications as the member.

§ 979.21 *Initial committee.* The initial members and alternates of committee shall be selected by the Secretary for a term of office ending on June 30, 1948, and until their successors are selected and qualified. Such members and alternates may be selected by the Secretary from lists of nominees supplied by producer groups or associations operating in and representative of producers in the production area.

§ 979.22 *Term of office.* The term of office of members and alternates of the Committee shall begin on the first day of July or the date of qualification, whichever is later, and continue until the end of the then current fiscal year and until their successors are selected and have qualified.

§ 979.23 *Nominations.* Except for initial members and alternates of the committee, nominations for membership may be determined by:

(a) *Assembled meetings.* Elections may be conducted in assembled meetings of producers in each district to determine nominees for such district. Such election shall be conducted under the supervision of a chairman and a secretary designated by the committee in accordance with the provisions of Roberts' Rules of Order; or

(b) *Mail voting.* Selection of nominees may be effected by the producers of each district by written ballot forwarded or presented to the teller designated by the committee. Each ballot form shall have printed thereon the date on which such ballot must be in the hands of the teller to be counted and ballots received after such date shall not be counted. Ballots not presented to the teller in person by the voter must be enclosed in an envelope with the voter's name and address indicated thereon. The notice of election attached to such ballot form may contain a list or lists of candidates sponsored for election by a group or groups of producers.

(c) *Method.* The committee shall determine the most desirable and convenient method, aforesaid, of electing nominees for each district, thereafter appointing indicated officials to conduct such elections. Such committee determinations shall be conveyed to interested producers by means of newspaper stories, mail, or such other means of communication deemed adequate by the committee. Nominees shall be elected, through use of forms provided by the committee, by June 10th of each year and lists thereof certified by appropriate election officials (either chairman and secretary or teller depending on the method of election) shall be forwarded via the committee to the Secretary by June 15th of each year.

(d) *Voting.* Each producer shall be eligible to cast one vote for each of the designated number of nominees in the district in which he qualifies as such producer, which vote can not be cumulated for any one nominee. A producer qualifying thereas in more than one district shall elect the district in which he chooses to exercise his voting rights.

§ 979.24 *Districts.* The production area is divided into four districts, identified, described and with nominee representation as follows:

District Number, Description, and Nominees

1. Codington and Deuel Counties: 4 for members, 4 for alternates.

2. Clark County: 6 for members, 6 for alternates.
3. Hamlin and Kingsbury Counties: 2 for members, 2 for alternates.
4. Brown and Day Counties: 2 for members, 2 for alternates.

§ 979.25 *Selection and qualification of members.* (a) Except for the initial committee, the Secretary shall select two members and two alternates from nominees submitted from District No. 1, three members and three alternates from the nominees submitted by District No. 2, and one member and one alternate from the nominees submitted by each of the remaining Districts.

(b) If nominations are not supplied to the Secretary within the time and in the manner specified in § 979.23, the Secretary may, without regard to nominations, select the members and alternates of the committee, which selection shall be on the basis of the representation provided in this subpart.

(c) Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 979.26 *Vacancies.* To fill any vacancy occasioned by the failure of any person selected as a member or alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate member, a successor for his unexpired term may be selected by the Secretary. Such selections, if made, shall be on the basis of substitute representation for the producers of the District involved.

§ 979.27 *Obligations.* Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds, together with all books and records, in his possession, to his successor in office or to a trustee designated by the Secretary and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or trustee full title to all of the property, funds, and claims vested in such member pursuant to this subpart: *Provided*, That the provisions of this subpart shall apply to alternate members in possession of funds, property, books or records, or participating in the receipt or disbursement of funds.

§ 979.28 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is alternate during such member's absence. In the event of death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 979.29 *Procedure.* (a) Four members of the committee shall constitute a quorum, and any action of the committee shall require four concurring votes.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication, and any vote cast at such a meeting shall be confirmed promptly in writing: *Provided*, That if an assembled meeting is held all votes shall be cast in person: *Provided, further*, That the committee shall hold an annual assembled meeting during the last two weeks of March in each year, the exact time, place and date to be determined by the committee.

§ 979.30 *Members' expenses and compensation.* The members of the committee and their respective alternates, when acting as members, may be reimbursed for expenses necessarily incurred by them in performance of their duties and in the exercise of their powers under this subpart, and shall receive compensation at a rate to be determined by the committee, which rate shall not exceed $5.00 for each day or portion thereof, spent in attendance at meetings of the committee.

§ 979.31 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms.

(b) To make rules and regulations to effectuate the terms and provisions of this subpart.

(c) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this subpart.

(d) To recommend to the Secretary amendments to this subpart.

§ 979.32 *Duties.* It shall be the duty of the committee:

(a) To act as intermediary between the Secretary and any producer or handler.

(b) To keep minutes, books and records which clearly reflect all of the acts and transactions of the committee and such minutes, books and records shall be subject to examination at any time by the Secretary.

(c) To investigate the growing, shipping and marketing conditions with respect to potatoes and to assemble data in connection therewith.

(d) To furnish to the Secretary such available information as he may request.

(e) To select a chairman and such other officers as may be necessary, and to adopt such rules and regulations for conduct of its business as it may deem advisable.

(f) At the beginning of each fiscal year, to submit to the Secretary a budget of its expenses for such fiscal year, together with a report thereon.

(g) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year, and at such times as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this subpart, and a copy of each such report shall be furnished to the Secretary.

(h) To appoint such employees, agents, and representatives as it may deem necessary, and to determine the salaries and define the duties of each such person.

(i) To confer with other Marketing Agreement and Order Committees in other States and areas.

EXPENSES AND ASSESSMENTS

§ 979.35 *Expenses.* The committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out the functions of the committee pursuant to the provisions of this subpart during each fiscal year. The funds to cover such expenses shall be acquired by levying assessments as provided in this subpart.

§ 979.36 *Assessment.* (a) Each handler who first handles potatoes which are regulated, shall, with respect to the potatoes so handled by him pay to the committee such handler's pro rata share of the expenses which the Secretary finds will be necessarily incurred by the committee for its maintenance and functioning during each fiscal year. Such assessment share shall be due and payable when the committee bills the handler therefor. Such handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of potatoes handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of potatoes handled by all handlers, as the first handlers thereof during the same fiscal year. The Secretary shall fix the rate of assessment to be paid by such handlers.

(b) At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expense of the committee. Such increase shall be applicable to all potatoes handled during the given fiscal year. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

§ 979.37 *Accounting.* (a) If, at the end of a fiscal year, it shall appear that assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of the excess assessments shall be credited with such refund against the operations of the following fiscal year, unless he demands payment thereof, in which event such sums shall be paid to him.

(b) The committee may, with the approval of the Secretary maintain in its own name, or in the name of its members, a suit against any handler for the collection of such handler's pro rata share of the expenses of the committee.

REGULATION

§ 979.40 *Marketing policy.* At the beginning of each fiscal year, the committee shall prepare and submit to the Secretary a report setting forth its proposed policy for the marketing of potatoes during such fiscal year. In the event it becomes advisable to deviate from such marketing policy, because of changed demand and supply conditions, the committee shall formulate a new marketing policy and shall submit a report thereon to the Secretary. The committee shall notify producers and handlers of the contents of such reports.

§ 979.41 *Recommendations for regulations.* (a) It shall be the duty of the committee to investigate the supply and demand conditions for grade, size and quality of potatoes of all varieties. Whenever the committee finds that such conditions make it advisable to regulate the shipment of particular grade, size and quality of potatoes of any or all varieties during any period, it shall recommend to the Secretary the particular grade, size and quality of any or all varieties thereof deemed advisable to be shipped during such period.

(b) In determining the grade, size, and quality of potatoes of all varieties deemed advisable to be regulated in view of the prospective demand therefor, the committee shall give due consideration to the following factors: (1) Market prices including prices by grade, size and quality of potatoes of all varieties for which regulation is recommended; (2) potatoes on hand in the market areas as manifested by supplies en route and on track at the principal markets; (3) available supply, quality, and condition of potatoes in the production area; (4) supplies from competitive areas and regions producing potatoes; (5) the trend and level of consumer income, and (6) other relevant factors.

§ 979.42 *Issuance of regulations.* Whenever the Secretary shall find, from the recommendations and information submitted by the committee, or from other available information, that to limit the shipment of potatoes to particular grade, size and quality of any or all varieties thereof would tend to effectuate the declared policy of the act, he shall so limit the shipments of potatoes during a specified period. Any specific regulation may be made applicable to any variety or varieties of potatoes, different regulations may be applied in any fiscal year to different varieties, and different regulations may be applied in any fiscal year to table stock potatoes, on the one hand, and to seed potatoes on the other hand. One or more varieties of either table stock or seed potatoes may be regulated in any fiscal year without regulation of the remaining varieties. The Secretary shall notify the committee of any such regulation and the committee shall give reasonable notice thereof to handlers.

§ 979.43 *Limitation of regulations.* (a) Nothing contained in this subpart shall authorize any limitation of the shipment of potatoes for any of the following purposes:

(1) Potatoes shipped for consumption by charitable institutions or for distribution by relief agencies; (2) potatoes shipped for manufacturing or conversion into byproducts, except for manufacturing or conversion into specified products recommended by the committee for regulation and approved by the Secretary therefor; (3) potatoes shipped by the producer thereof from the point or place of production to the nearest customary grading, storing, or loading point for the purpose of having said potatoes graded, stored, or loaded for shipment; and (4) upon recommendation of the committee and approval of the Secretary, potatoes shipped for livestock feed or for other specified purposes. The Secretary shall give prompt notice to the committee of any approval issued by him under the provisions of this section.

(b) The committee may prescribe adequate safeguards to prevent potatoes shipped for the purposes stated in this section for entering the current of interstate commerce or directly burdening, obstructing, or affecting such commerce contrary to the provisions of this subpart, which safeguards shall include Federal-State inspection provided by § 979.50 and the payment of a pro rata share of expenses provided by § 979.36: *Provided*, That, such inspection and payment of expenses may be required at different times than otherwise specified by the aforesaid sections. The committee shall issue Certificates of Privilege for shipment of potatoes effected or to be effected under the provisions of this section and shall make a weekly report to the Secretary showing the number of certificates applied for, the number of bushels of potatoes covered by such applications, the number of certificates denied and granted, the number of bushels of potatoes shipped under duly issued certificates and such other information as may be requested by the Secretary. The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

REGULATION OF SURPLUS

§ 979.47 *Recommendation.* It shall be the duty of the committee to investigate supply and demand conditions of potatoes. Whenever the committee finds that a surplus of potatoes exists, it shall determine the extent of such surplus of potatoes or of any grade, size or quality thereof. If it is deemed advisable, the committee shall recommend the control and disposition of surplus potatoes and plans for equalizing the burden of surplus elimination or control among the producers and handlers thereof under uniform rules established by the committee and approved by the Secretary.

§ 979.48 *Issuance of regulations.* (a) Whenever the Secretary finds from the recommendations and information submitted by the committee, or from other available information, that the control and disposition of surplus potatoes will tend to effectuate the declared policy of the act, he shall control and dispose of such surplus potatoes and shall further provide for equalizing the burden of such surplus elimination or control among producers and handlers thereof. Such control and disposition, in any fiscal year, may be applied, where the facts so warrant, either to table stock or to seed potatoes, or both: *Provided*, That different controls and dispositions may be utilized, in any fiscal year for table stock potatoes on the one hand, and seed potatoes, on the other hand, and for the various varieties of table stock and seed potatoes.

(b) At any time during which the Secretary provides for the control and disposition of surplus potatoes, the committee is authorized to enter into contracts or agreements with any person, agency, or organization, for the purpose of facilitating the disposal of surplus potatoes. The Secretary may designate the committee as an agency to assist in and to effectuate the elimination or control of surplus potatoes under any governmental program.

INSPECTION

§ 979.50 *Inspection and certification.* During any period in which the Secretary has regulated the shipment of potatoes pursuant to this section, each handler shall, prior to making each shipment of potatoes, cause each shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Promptly thereafter, each handler shall submit to the committee a copy of the inspection certificate issued thereon.

EXEMPTIONS

§ 979.55 *Procedure.* The committee shall adopt and announce, subject to the approval of the Secretary, the procedural rules pursuant to which certificates of exemption will be issued to producers.

§ 979.56 *Granting exemptions.* The committee shall issue certificates of exemption to any producer who furnishes adequate evidence to the said committee that by reason of a regulation issued pursuant to § 979.42 he will be prevented from having as large a proportion of potatoes shipped during the remainder of the shipping season, as the average of all producers. Such certificates of exemption shall grant an opportunity for such producer to have as large a proportion of his potatoes shipped as the average of all producers.

§ 979.57 *Appeal.* If any producer is dissatisfied with the certificate of exemption granted or denied to him pursuant to an application, said producer may file an appeal with the committee. Such an appeal must be taken promptly after the issuance of the certificate of exemption or denial from which the appeal is taken. Any producer filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the certificate of exemption to be granted or the denial thereof. The committee shall notify the appellant of the final determination and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 979.58 *Review, records, and reports of exemptions.* (a) The Secretary shall have the right to modify, change, alter, or rescind any procedural rules and any exemptions granted or denied pursuant to §§ 979.55, 979.56, 979.57, or any combination thereof.

(b) Records shall be maintained by the committee and a weekly report furnished to the Secretary showing the applications for exemptions received, exemptions granted, exemptions denied, and shipments made under exemptions.

EFFECTIVE TIME AND TERMINATION

§ 979.60 *Effective time.* The provisions of this subpart shall become effective at such time as the Secretary may declare above his signature attached to this subpart, and shall continue in force

until terminated in one of the ways specified in this subpart.

§ 979.61 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operations of any or all the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal year, have been engaged in the production for market of potatoes: *Provided*, That such majority has during such year, produced for market more than fifty per-cent of the volume of such potatoes produced for market; but such termination shall be effected only if announced on or before June 30 of the then current fiscal year.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 979.62 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all funds and the property then in the possession of, or under control of the committee, including claims for any funds unpaid, or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred, or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 979.63 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart, or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart, or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart, or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary, or of any other persons with respect to any such violation.

MISCELLANEOUS PROVISIONS

§ 979.70 *Reports.* Upon the request of the committee, every handler shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties under this subpart. The Secretary shall have the right to modify, change, or rescind requests for any reports pursuant to this section.

§ 979.71 *Compliance.* Except as provided in this subpart, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall ship potatoes except in conformity to the provisions of this subpart.

§ 979.72 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 979.73 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 979.74 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 979.75 *Derogation.* Nothing contained in this subpart is, or shall be construed to be in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 979.76 *Personal liability.* No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 979.77 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any persons, circumstances, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 979.78 *Amendments.* Amendments to this subpart may be proposed from time to time, by the committee or by the Secretary.

SUBPART—RULES AND REGULATIONS

SOURCE: §§ 979.100 to 979.105 appear at 13 F. R. 7429.

EXEMPTION CERTIFICATES

§ 979.100 *Application.* Any producer applying for exemption from grade or size regulation issued under this subpart shall make application for such exemption on forms to be furnished by the South Dakota Potato Committee. Such application shall state:

(a) The location of his farm;

(b) The quantity of potatoes on said farm; and location thereon of such potato field or fields or storage;

(c) The total estimated production of potatoes for the current season, stated in terms of varieties, hundredweights, and grades and sizes, not including potatoes which will not meet grade requirements set forth in the U. S. Standards for Potatoes;

(d) An estimate of the percentage of such producers' crop which cannot be shipped because of grade, size and quality regulation then in effect, stated in terms of varieties, hundredweights, and grades and sizes, not including potatoes which will not meet grade requirements set forth in the U. S. Standards for Potatoes;

(e) A statement of the amount, if any, of potatoes (not including potatoes which will not meet grade requirements set forth in the U. S. Standards for Potatoes) which have already been sold from said farm, or by said applicant, during the current marketing season;

(f) Certification that the statement is true and correct;

(g) Signature and address of producer.

§ 979.101 *Federal-State Inspector's report.* (a) Each request filed by a producer with the South Dakota Potato Committee shall be accompanied by a report of a Federal-State Inspector, which shall contain the following:

(1) A statement by the inspector that he personally visited the field or fields or storage with respect to which exemption is requested, and that a representative sample of the potato crop in such field or fields or storage was taken by him.

(2) A statement of the percentage of such crop which meets the required grade, size, and quality regulation then in effect.

(3) A statement of the defects or damage causing such crop to fail to meet such grade, size, and quality requirements.

(b) In determining percentages, the Federal-State Inspector shall include only grades and sizes of potatoes as defined in the U. S. Standards for Potatoes. In the event that more than one variety of potatoes are involved in the regulation, the inspector shall determine the above percentages for each variety separately. The cost of the above inspection shall be borne by the applicant for exemption. The committee, or the manager thereof, or any specifically authorized representative thereof, may make such investigations as are deemed necessary to determine whether the exemption requested should be granted.

§ 979.102 *Issuance of certificate.* (a) Whenever the committee finds and determines from proof satisfactory to the committee that the applicant is entitled to an exemption certificate, the committee shall issue or authorize the issuance of an exemption certificate which shall permit the applicant to ship, or cause to be shipped, that quantity of the regulated grades, sizes, and qualities, or combinations thereof, of potatoes as will enable him to ship, or cause to be shipped, as large a percentage of his potatoes as the average percentage for all producers or, if regulation is by variety, the average percentage for all producers of the particular variety involved, as determined by the committee.

(b) The committee, or its duly authorized representative, may issue exemption certificates if the proof submitted by the applicant is satisfactory: *Provided*, That the committee, or its duly authorized representative, shall have first determined the grades, sizes, qualities, or combinations thereof, of potatoes grown in such area which would be available for shipment in the absence of any regulation, and shall have determined the percentage that the quantity of a particular variety or varieties of potatoes grown in such area, permitted to be shipped pursuant to regulation, is of the quantity which would have been shipped in the absence of regulation.

(c) If the committee, or its duly authorized representative determines that the applicant is not entitled to an exemption certificate he shall be so advised in writing and given the reasons therefor.

(d) Each certificate of exemption issued as provided in this section shall contain the producer's name and address; the location of his farm; the location of the field or storage with respect to which the exemption is granted; the particular grade, size, and quality regulations from which exempted; the amount of potatoes which may be shipped by virtue of such exemption; and such other information as may be necessary to evidence the rights of the producer to ship potatoes which do not meet the requirements of the particular grade, size, and quality regulations.

(e) Each certificate of exemption shall be transferable, in whole or in part, with the potatoes in accordance with the amount of the potatoes transferred.

§ 979.103 *Reports and records.* (a) For the purpose of enabling the South Dakota Potato Committee to perform its functions, pursuant to the provisions of this subpart, each handler shall report shipments under exemption certificates to the committee, in such form and at such times and substantiated in such manner as shall be prescribed by the committee. All forms, reports, correspondence and documents used, pursuant to these rules and regulations, shall be kept on file by the committee and records thereof shall be maintained by the manager of the committee.

(b) A record of all applications for exemption received, exemption certificates issued, applications denied, and shipments made under exemption shall be kept by the committee and a record of all such transactions, if any, shall be reported weekly by the South Dakota Potato Committee, to the Secretary.

§ 979.104 *Appeal procedure.* If any producer is dissatisfied with the determination of the South Dakota Potato Committee regarding any application for exemption ceritficate, or any duly issued exemption certificate, an appeal by said producer may be filed with the committee. Such appeal must be taken promptly after the issuance of the exemption certificate or the denial from which the appeal is taken. Any producer filing an appeal may furnish information with his appeal additional to that submitted with his original application. The committee may request such additional information as it deems necessary for a determination on the appeal. The committee shall act promptly upon any producer's appeal and it shall notify the appellant promptly of its determination. A copy of each appeal and a statement of consideration involved in making the final determination with respect thereto shall be furnished in each instance to the Secretary.

§ 979.105 *Terms.* The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 103 and Order No. 79, and in the U. S. Standards for Potatoes (§ 51.366 of this title).

[F. R. Doc. 52-8174; Filed, July 24, 1952; 8:58 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 21]

PART 61—SCHEDULED AIR CARRIER RULES

INSTRUMENT PROFICIENCY CHECKS OF STEEP TURNS

This supplement adds to § 61.112–5 (f) an example of conditions under which left turns undertaken as a part of instrument proficiency checks may be executed at an angle of less than forty-five degrees. No additional burden is imposed upon interested persons. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be unnecessary and therefore is not required.

Section 61.112–5 (f) is amended to read:

§ 61.112–5 *Proficiency requirements (CAA rules which apply to § 61.112).*

* * *

(f) *Steep turns.* Except as provided hereinafter, steep turns shall consist of at least forty-five degrees of bank. The turns shall be at least 180° of duration, but need not be more than 360°. Smooth control application, and ability to maneuver aircraft within prescribed limits, shall be the primary basis for judging performance. When information is available on the relation of increase of stall speeds vs. increase in angle of bank, such information shall be reviewed and discussed. As a guide, the tolerance of 100 feet plus or minus a given altitude shall be considered as acceptable deviation in the performance of steep turns. Consideration may be given to factors other than pilot proficiency which might make compliance with the above tolerances impractical. For example, where the range of vision from the safety observers' position is obstructed in certain types of aircraft while in a steep left turn, the degree of left bank in such instances may be reduced to not less than thirty degrees.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, 49 U. S. C. 551)

This supplement shall become effective August 15, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 72]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

Part 600 is amended as follows:

1. Section 600.109 is amended to read:

§ 600.109 *Amber civil airway No. 9 (Charleston, S. C., to New York, N. Y.).* From the intersection of the northeast course of the Charleston, S. C., radio range and the southwest course of the Myrtle Beach, S. C., VHF radio range via the Myrtle Beach, S. C., VHF radio range station; Wilmington, N. C., VHF radio range station; New Bern, N. C., VHF radio range station; Williamston, N. C., VHF radio range station (excluding the portions between 11,000 feet and 16,000 feet and between 21,000 feet and 45,000 feet above mean sea level, during the hours of darkness, which lie within the Cherry Point, N. C. night danger area); the intersection of the northeast course of the Williamston, N. C., VHF radio range and the southwest course of the Norfolk, Va., radio range; Norfolk, Va., radio range station; the intersection of a line bearing 18° True from the Nor-

folk, Va., radio range station and the southwest course of the Salisbury, Md., VHF radio range; Salisbury, Md., VHF radio range station; the intersection of the northeast course of the Salisbury, Md., VHF radio range and a line bearing 211° True from the Atlantic City, N. J. (Navy), radio range station; Atlantic City, N. J. (Navy), radio range station to the intersection of a line bearing 360° True from the Atlantic City, N. J. (Navy), radio range station and the northeast course of the Millville radio range, excluding the portion which overlaps danger areas. From the intersection of the south course of the Matawan, N. J., VHF radio range and the northeast course of the Millville, N. J., radio range via the Matawan, N. J., VHF radio range station, excluding that portion more than 2 miles either side of the south course of the Matawan, N. J., VHF radio range, to the intersection of the north course of the Matawan, N. J., VHF radio range and the east course of the Allentown, Pa., radio range.

2. Section 600.649 *Blue civil airway No. 49 (Atlantic City, N. J., to Philadelphia, Pa.)* is amended by changing the first portion to read: "From the intersection of the northeast course of Salisbury, Md., VHF radio range and the southeast course of the Philadelphia, Pa., radio range via the intersection of the southeast course of Philadelphia, Pa., radio range and the southeast course of Millville, N. J., radio range;"

3. Section 600.656 *Blue civil airway No. 56 (Elizabeth City, N. C., to Washington, D. C.)* is amended by changing the first portion to read: "From the Weeksville, N. C. (Coast Guard), radio range station via the intersection of a line bearing 192° True from the Norfolk, Va., radio range station and the northwest course of the Weeksville, N. C. (Coast Guard), radio range to the Norfolk, Va., radio range station."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001, e. s. t., July 23, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5793]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

DEJAY STORES, INC.

Subpart—*Misrepresenting oneself and goods—Business status, advantages or connections:* § 3.1490 *Nature, in general.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1995 *Job guarantee and employment:* § 3.2080 *Terms and conditions.* Subpart—*Using misleading name—Vendor:* § 3.2425 *Nature, in general.* In connection with the use in commerce of double reply postcards, letters or any other printed or written material of a substantially similar nature, (1) using the name "Personnel Management Bureau", or any other word or words of similar import, to designate, describe or refer to respondent's business, or otherwise representing, directly or by implication, that respondent is engaged in operating a personnel management bureau or employment or placement agency; (2) using the name "Dejay Service Company", or any other word or words of similar import, to designate, describe or refer to respondent's business, or otherwise representing, directly or by implication, that respondent is connected with or in the business of transporting or delivering goods or packages to the proper recipient thereof; (3) using postcards, form letters or other material which represents, directly or by implication, that respondent's business is other than that of retailing merchandise; (4) representing, directly or by implication, that persons concerning whom information is sought through respondent's post cards or other material are, or may be, consignees of goods or packages, c. o. d., prepaid or otherwise, in the hands of respondent or that the information sought through such means is for the purpose of enabling respondent to make delivery of goods or packages to such persons; or, (5) using letters, whether printed, typewritten or in simulated handwriting, for the purpose of obtaining the current addresses of delinquent customers, which represent that any person, firm or corporation other than respondent, or respondent's store from which the customer purchased the merchandise on which the debt is owing, has a letter for delivery to such delinquent customer when his current address is furnished; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Dejay Stores, Inc., New York, N. Y., Docket 5793, April 10, 1952]

In the Matter of Dejay Stores, Inc., a Corporation

This proceeding was first heard by Henry P. Alden, trial examiner, therefore duly designated by the Commission, prior to said examiner's retirement from the Government service on May 31, 1951, upon the Commission's complaint, respondent's answer, and a hearing at which testimony and other evidence in support of and in opposition to the allegations of said complaint were introduced, and following which the proceeding was formally closed by said examiner.

Thereafter, following the designation, on June 6, 1951, of Frank Hier as trial examiner in place and stead of said Henry P. Alden, the proceeding regularly came on for final consideration by said substituted trial examiner on the complaint, answer thereto, testimony and other evidence, and proposed findings as to the facts and conclusions presented by counsel and proposed order presented by counsel in support of the allegations of the complaint, and said substituted examiner, having duly considered the record in the matter, and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

Thereafter the matter was disposed of by the Commission's "order denying respondent's appeal from initial decision of the hearing examiner, decision of the Commission and order to file report of compliance", Docket 5793, April 10, 1952 as follows:

This matter came on to be heard by the Commission upon the respondent's appeal from the initial decision of the hearing examiner herein and upon briefs and oral argument of counsel in support of and in opposition to said appeal.

Respondent makes two contentions in its brief. First, that the form letter presently used by the respondent in its attempt to obtain information as to the current addresses of delinquent debtors does not constitute false, misleading, or deceptive statements or representations and that, therefore, the use of such form letter does not constitute unfair or deceptive acts or practices. Second, that because the respondent voluntarily ceased using certain forms it previously used, no order against their use is warranted. Specific exception is taken to paragraphs 8 and 9 of the findings as to the facts; to paragraphs 1 and 2 of the conclusions; and to the order in the initial decision.

The hearing examiner's findings to which specific exception is taken are to the effect that the form letter presently used by the respondent in its efforts to obtain information as to the addresses of delinquent debtors, and the circumstances surrounding its use, are misleading and deceptive to the recipient of such form letter, and that the respondent itself recognizes such letter as a subterfuge and a decoy. The form letter presently used by the respondent is in simulated handwriting and is signed by "J. King." The letter contains the statements, "I understand that you are a friend of ----------. I have an important letter for ---------- so please let me have the correct address." When the local manager of one of respondent's retail stores is unable to locate a delinquent customer, he sends to the respondent's New York office a "Decoy Request." Respondent then sends the above-described form letter to references furnished by the delinquent customer at the time credit was obtained. There is nothing in the letter to indicate its real purpose or that the sender is in any way connected with the respondent. The only letter the respondent has for the delinquent debtor is one which respondent has sent to the delinquent debtor and which has been returned. These and other facts in the record fully support the hearing examiner's findings that the letter and the circumstances surrounding its use are deceptive and misleading to the recipient and that the respondent recognizes said letter as a subterfuge and decoy.

[1] Filed as part of the original document.

Respondent does not except to the hearing examiner's findings to the effect that the forms previously used by the respondent contained false, deceptive, and misleading representations, but does except to his conclusion that respondent's voluntary cessation of the use of such forms "was neither permanent nor complete nor was it in good faith, since the same practice for the same purpose and with the same effect, although milder in form and reduced from sheer falsity to the level of 'misleading and deceptive', has been and is being carried on by it through its use of the letter described in paragraph 6 of the • • • Findings as to the Facts. The public interest requires that this continuing, although less vicious course of conduct, be stopped." The Commission agrees with this conclusion. The respondent did not cease the practice at which the complaint was directed, but merely changed the manner in which it engaged in the practice.

The Commission is of the opinion that all of the findings as to the facts contained in the initial decision are supported by reliable, probative, and substantial evidence in the record; that the conclusions contained therein are correct; and that the order to cease and desist is proper upon this record and is required to provide proper relief from respondent's unfair and deceptive acts and practices.

The Commission, therefore, being of the opinion that the respondent's appeal is without merit and that the initial decision of the hearing examiner is appropriate in all respects to dispose of this proceeding:

It is ordered, That the respondent's appeal from the initial decision of the hearing examiner be, and it hereby is, denied.

It is further ordered, That the initial decision of the hearing examiner, a copy of which is attached,[1] shall, on the 10th day of April 1952, become the decision of the Commission.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with the order to cease and desist.

The order in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That respondent Dejay Stores, Inc., a corporation, its officers, employees, agents and representatives, directly or through any corporate or other device, in connection with the use in commerce, as "commerce" is defined in the Federal Trade Commission Act, of double reply postal cards, letters, or any other printed or written material of a substantially similar nature, do forthwith cease and desist from:

1. Using the name "Personnel Management Bureau", or any other word or words of similar import, to designate, describe or refer to respondent's business, or otherwise representing, directly or by implication, that respondent is engaged in operating a personnel management bureau or employment or placement agency.

2. Using the name "Dejay Service Company", or any other word or words of similar import, to designate, describe or refer to respondent's business, or otherwise representing, directly or by implication, that respondent is connected with or in the business of transporting or delivering goods or packages to the proper recipient thereof.

3. Using post cards, form letters or other material which represents, directly or by implication, that respondent's business is other than that of retailing merchandise.

4. Representing, directly or by implication, that persons concerning whom information is sought through respondent's post cards or other material are, or may be, consignees of goods or packages, C. O. D., prepaid or otherwise, in the hands of respondent or that the information sought through such means is for the purpose of enabling respondent to make delivery of goods or packages to such person.

5. Using letters, whether printed, typewritten or in simulated handwriting, for the purpose of obtaining the current addresses of delinquent customers, which represent that any person, firm or corporation other than respondent, or respondent's store from which the customer purchased the merchandise on which the debt is owing, has a letter for delivery to such delinquent customer when his current address is furnished.

Issued: April 10, 1952.

By the Commission.

[SEAL] D. C. DANIEL,
Secretary.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

NATIONAL COACHING SERVICE INSTITUTE, INC., ET AL.

Subpart—*Misrepresenting oneself and goods—Business status, advantages or connections:* § 3.1425 *Government connection;* § 3.1450 *Individual or private business as educational, religious or research institution:* § 3.1520 *Personnel or staff: Goods:* § 3.1670 *Jobs and employment:* § 3.1740 *Scientific or other relevant facts.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1995 *Job guarantee and employment.* Subpart—*Using misleading name—Vendor:* § 3.2410 *Individual or private business being educational, religious or research institution or organization.* In connection with the offering for sale, sale and distribution in commerce, of respondents' courses of study and instruction (1) using the word "Institute" or any simulation thereof as a part of respondents' corporate or trade names; or otherwise representing, directly or by implication, that respondents' school is a resident institution of higher learning; or, (2) representing, directly or by implication, (a) that respondents' school has any connection with the United States Civil Service or any other agency of the United States Government; (b) that respondents' sales agents are representatives or employees of the United States Civil Service or have any connection therewith; (c) that the completion of respondents' courses of study assures students of positions in the United States Civil Service or makes them eligible for appointment to such positions; (d) that respondents have any power or authority to hold open for any person any position in the United States Civil Service; (e) that it is necessary that persons seeking Civil Service positions take respondents' courses of study in order to qualify for or obtain such positions; (f) that the examinations given by respondents are examinations for specific positions in the Civil Service; (g) that all persons completing respondents' courses and passing Civil Service examinations will obtain positions immediately or within a short time; (h) that positions obtained in the United States Civil Service will be at or near the place of residence of the employee; (i) that Civil Service positions requiring certain physical, mental or educational qualifications or veterans' status may be obtained by persons not meeting such requirement; or, (j) that the United States Civil Service Commission is looking to or relying upon respondents to locate persons to fill positions in the Civil Service; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, National Coaching Service Institute, Inc., et al., Denver, Colo., Docket 5876, April 21, 1952]

In the Matter of National Coaching Service Institute, Inc., a Corporation, and Archie K. Babson, Individually and as an Officer of National Coaching Service Institute, Inc., and Also Doing Business as National Service Institute and Career Institute

This proceeding was heard by William L. Pack, hearing examiner, theretofore duly designated by the Commission, upon the complaint of the Commission, respondents' answer and a hearing at which a stipulation of facts, duly filed in the office of the Commission, was entered into by counsel supporting the complaint and counsel for respondents and incorporated in the record.

Thereafter the proceeding regularly came on for final consideration by said examiner upon the complaint, answer, and stipulation (which had been approved by said examiner) counsel having elected not to submit proposed findings and conclusions for consideration by said examiner or to argue the matter orally, and said examiner, having duly considered the matter, and having found that the proceeding was in the interest of the public, made his initial decision, comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said trial examiner

as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on April 21, 1952.

The said order to cease and desist is as follows:

It is ordered, That the respondents, National Coaching Service Institute, Inc., a corporation, and its officers, and Archie K. Babson, individually and as an officer of said corporation and also doing business under the names National Service Institute and Career Institute, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of respondents' courses of study and instruction, do forthwith cease and desist from:

1. Using the word "Institute" or any simulation thereof as a part of respondents' corporate or trade names; or otherwise representing, directly or by implication, that respondents' school is a resident institution of higher learning.

2. Representing, directly or by implication:

(a) That respondents' school has any connection with the United States Civil Service or any other agency of the United States Government.

(b) That respondents' sales agents are representatives or employees of the United States Civil Service or have any connection therewith.

(c) That the completion of respondents' courses of study assures students of positions in the United States Civil Service or makes them eligible for appointment to such positions.

(d) That respondents have any power or authority to hold open for any person any position in the United States Civil Service.

(e) That it is necessary that persons seeking Civil Service positions take respondents' courses of study in order to qualify for or obtain such positions.

(f) That the examinations given by respondents are examinations for specific positions in the Civil Service.

(g) That all persons completing respondents' courses and passing Civil Service examinations will obtain positions immediately or within a short time.

(h) That positions obtained in the United States Civil Service will be at or near the place of residence of the employee.

(i) That Civil Service positions requiring certain physical, mental or educational qualifications or veterans' status may be obtained by persons not meeting such requirements.

(j) That the United States Civil Service Commission is looking to or relying upon respondents to locate persons to fill positions in the Civil Service.

By "Decision of the Commission and order to file report of compliance", Docket 5876, April 21, 1952, which announced and decreed fruition of said initial decision, report of compliance with the said order was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 21, 1952.

By the Commission.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 52-8170; Filed, July 24, 1952; 8:57 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

DRUGS AND DEVICES; DIRECTIONS FOR USE; EXEMPTION FROM PRESCRIPTION REQUIREMENTS; FINAL ORDER

By virtue of the authority vested in the Federal Security Administrator by the provisions of sections 502 (f), 503 (b), and 701 (a) of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1051, 1055; 65 Stat. 648; 21 U. S. C. 352 (f), 353 (b), 371 (a)), and after having considered all written comments filed with respect to the notice of proposed rule making published in the FEDERAL REGISTER on February 5, 1952 (17 F. R. 1130), the following regulations are promulgated.

1. Section 1.106 is revoked and a new § 1.106 is added to read as follows:

§ 1.106 *Drugs and devices; directions for use*—(a) *Adequate directions for use.* "Adequate directions for use" means directions under which the layman can use a drug or device safely and for the purposes for which it is intended. Directions for use may be inadequate because (among other reasons) of omission, in whole or in part, or incorrect specification of:

(1) Statements of all conditions, purposes, or uses for which such drug or device is intended, including conditions, purposes, or uses for which it is prescribed, recommended, or suggested in its oral, written, printed, or graphic advertising, and conditions, purposes, or uses for which the drug or device is commonly used; except that such statements shall not refer to conditions, uses, or purposes for which the drug or device can be safely used only under the supervision of a practitioner licensed by law and for which it is advertised solely to such practitioner.

(2) Quantity of dose (including usual quantities for each of the uses for which it is intended and usual quantities for persons of different ages and different physical conditions).

(3) Frequency of administration or application.

(4) Duration of administration or application.

(5) Time of administration or application (in relation to time of meals, time of onset of symptoms, or other time factors).

(6) Route or method of administration or application.

(7) Preparation for use (shaking, dilution, adjustment of temperature, or other manipulation or process).

(b) *Exemption for prescription drugs.* A drug subject to the requirements of section 503 (b) (1) of the act, as amended by 65 Stat. 648, shall be exempt from section 502 (f) (1) if all the following conditions are met:

(1) The drug is:

(i) In the possession of a person (or his agents or employees) regularly and lawfully engaged in the manufacture, transportation, storage, or wholesale distribution of prescription drugs; or

(ii) In the possession of a retail, hospital, or clinic pharmacy, or a public health agency, regularly and lawfully engaged in dispensing prescription drugs;

and is to be dispensed in accordance with section 503 (b), as amended.

(2) The label of the drug bears:

(i) The statement "Caution: Federal law prohibits dispensing without prescription"; and

(ii) The recommended or usual dosage; and

(iii) The route of administration, if it is not for oral use; and

(iv) If it is fabricated from two or more ingredients and is not designated conspicuously by a name recognized in an official compendium, the quantity or proportion of each active ingredient, and if it is not for oral use the names of all other ingredients.

Provided, however, That the information referred to in subdivisions (ii), (iii), and (iv) of this subparagraph may be contained in the labeling on or within the package from which it is to be dispensed, and, in the case of ampuls too small or otherwise unable to accommodate a label but which are packaged in a container from which they are withdrawn for dispensing or use, the information referred to in subdivision (i) of this subparagraph may be placed on the outside container only.

(3) The labeling of the drug (which may include brochures readily available to licensed practitioners) bears information as to the use of the drug by practitioners licensed by law to administer it: *Provided, however*, That such information may be omitted from the labeling if it is contained in scientific literature widely disseminated among practitioners licensed by law to administer the drug.

(c) *Exemption for veterinary drugs.* A drug intended solely for veterinary use which, because of toxicity or other potentiality for harmful effect, or the method of its use, is not safe for animal use except under the supervision of a licensed veterinarian, and hence for which "adequate directions for use" cannot be prepared, shall be exempt from section 502 (f) (1) of the act if all the following conditions are met:

(1) The drug is in the possession of a person (or his agents or employees) regularly and lawfully engaged in the manufacture, transportation, storage, or wholesale or retail distribution of veterinary drugs and is to be sold only to or on the prescription or other order of a licensed veterinarian for use in the course of his professional practice.

(2) The label of a drug bears:

(i) The statement "Caution: Federal law restricts this drug to sale by or on the order of a licensed veterinarian"; and

(ii) The recommended or usual dosage; and

(iii) The route of administration, if it is not for oral use; and

(iv) The quantity or proportion of each active ingredient if it is fabricated from two or more ingredients and is not designated conspicuously by a name recognized in an official compendium.

Provided, however, That the information referred to in subdivisions (ii), (iii), and (iv) of this subparagraph may be contained in the labeling on or within the package from which it is to be dispensed.

(3) The labeling of the drug (which may include brochures readily available to licensed veterinarians) bears information as to use of the drug by licensed veterinarians: *Provided, however*, That such information may be omitted from the labeling if it is contained in scientific literature widely disseminated among veterinarians licensed by law to administer such drug.

(d) *Exemption for prescription devices.* A device which, because of any potentiality for harmful effect, or the method of its use, or the collateral measures necessary to its use, is not safe except under the supervision of a practitioner licensed by law to direct the use of such device, and hence for which "adequate directions for use" cannot be prepared, shall be exempt from section 502 (f) (1) of the act if all the following conditions are met:

(1) The device is in the possession of a person (or his agents or employees) regularly and lawfully engaged in the manufacture, transportation, storage, or wholesale or retail distribution of such device and is to be sold only to or on the prescription or other order of such practitioner for use in the course of his professional practice.

(2) The label of the device (other than surgical instruments) bears:

(i) The statement "Caution: Federal law restricts this device to sale by or on the order of a _____," the blank to be filled with the word "physician," "dentist," "veterinarian," or with the descriptive designation of any other practitioner licensed by the law of the State in which he practices to use or order the use of the device; and

(ii) The method of its application or use.

(3) The labeling of the device (which may include brochures readily available to licensed practitioners) bears information as to the use of the device by practitioners licensed by law to use it or direct its use: *Provided, however*, That such information may be omitted from the labeling if it is contained in scientific literature widely disseminated among practitioners licensed by law to use or order the use of such device.

(e) *Exemptions for drugs and devices shipped directly to licensed practitioners, hospitals, clinics, or public-health agencies for professional use.* Except as provided in paragraph (g) of this section, a drug or device shipped directly to or in the possession of a practitioner licensed by law to administer the drug or to use or direct the use of the device, or shipped directly to or in the possession of a hospital, clinic, or public-health agency, for use in the course of the professional practice of such a licensed practitioner, shall be exempt from section 502 (f) (1) of the act if it meets the conditions of paragraphs (b) (2) and (3), (c) (2) and (3), or (d) (2) and (3) of this section.

(f) *Retail exemption for veterinary drugs and prescription devices.* A drug or device subject to paragraph (c) or (d) of this section shall be exempt at the time of delivery to the ultimate purchaser or user from section 502 (f) (1) of the act if it is delivered by a licensed practitioner in the course of his professional practice or upon a prescription or other order lawfully issued in the course of his professional practice, with labeling bearing the name and address of such licensed practitioner and the directions for use and cautionary statements, if any, contained in such order.

(g) *Exemption for new drugs.* A new drug shall be exempt from section 502 (f) (1) of the act:

(1) To the extent to which such exemption is claimed in an effective application with respect to such drug under section 505 of the act; or

(2) If no application under section 505 of the act is effective with respect to such drug but it complies with section 505 (i) and regulations thereunder.

No exemption shall apply to any other drug which would be a new drug if its labeling bore representations for its intended uses.

(h) *Exemption for drugs or devices when directions are commonly known.* A drug or device shall be exempt from section 502 (f) (1) of the act insofar as adequate directions for common uses thereof are known to the ordinary individual.

(i) *Exemptions for inactive ingredients.* A harmless drug that is ordinarily used as an inactive ingredient, such as a coloring, emulsifier, excipient, flavoring, lubricant, preservative, or solvent, in the preparation of other drugs shall be exempt from section 502 (f) (1) of the act. This exemption shall not apply to any substance intended for a use which results in the preparation of a new drug, unless an effective new-drug application provides for such use.

(j) *Exemption for diagnostic reagents.* A drug intended solely for use in the professional diagnosis of disease and which is generally recognized by qualified experts as useful for that purpose shall be exempt from section 502 (f) (1) of the act if its label bears the statement "Diagnostic reagent—For professional use only."

(k) *Exemption for prescription chemicals and other prescription components.* A drug prepared, packaged, and primarily sold as a prescription chemical or other component for use by registered pharmacists in compounding prescriptions or for dispensing in dosage unit form upon prescriptions shall be exempt from section 502 (f) (1) of the act if all the following conditions are met:

(1) The drug is an official liquid acid or official liquid alkali, or is not a liquid solution, emulsion, suspension, tablet, capsule, or other dosage unit form; and

(2) The label of the drug bears:

(i) The statement "For prescription compounding"; and

(ii) If in substantially all dosage forms in which it may be dispensed it is subject to section 503 (b) (1) of the act, the statement "Caution: Federal law prohibits its dispensing without prescription"; or

(iii) If it is not subject to section 503 (b) (1) of the act and is by custom among retail pharmacists sold in or from the interstate package for use by consumers, "adequate directions for use" in the conditions for which it is so sold.

Provided, however, That the information referred to in subdivision (iii) of this subparagraph may be contained in the labeling on or within the package from which it is to be dispensed.

(3) This exemption shall not apply to any substance intended for use in compounding which results in a new drug, unless an effective new-drug application covers such use of the drug in compounding prescriptions.

(l) *Exemption for processing, repacking, or manufacture.* A drug in a bulk package (except tablets, capsules, or other dosage unit forms) or a device intended for processing, repacking, or use in the manufacture of another drug or device shall be exempt from section 502 (f) (1) of the act if its label bears the statement "Caution: For manufacturing, processing, or repacking"; and, if in substantially all dosage forms in which it may be dispensed it is subject to section 503 (b) (1), the statement "Caution: Federal law prohibits dispensing without prescription." This exemption and the exemption under paragraph (k) of this section may be claimed for the same article. But the exemption shall not apply to a substance intended for a use in manufacture, processing, or repacking which causes the finished article to be a new drug, unless:

(1) An effective new-drug application held by the person preparing the dosage form or drug for dispensing covers the production and delivery to him of such substance; or

(2) If no application is effective with respect to such new drug, the label statement "Caution: For manufacturing, processing, or repacking" is immediately supplemented by the words "in the preparation of a new drug limited by Federal law to investigational use," and the delivery is made for use only in the manufacture of such new drug limited to investigational use as provided in § 1.114.

(m) *Exemption for drugs and devices for use in teaching, research, and analysis.* A drug or device subject to paragraph (b), (c), or (d) of this section shall be exempt from section 502 (f) (1) of the act if shipped or sold to, or in the

possession of, persons regularly and lawfully engaged in instruction in pharmacy, chemistry, or medicine not involving clinical use, or engaged in research not involving clinical use, or in chemical analysis, or physical testing, and is to be used only for such instruction, research, analysis, or testing.

(n) *Expiration of exemptions.* (1) If a shipment or delivery, or any part thereof, of a drug or device which is exempt under the regulations in this section is made to a person in whose possession the article is not exempt, or is made for any purpose other than those specified, such exemption shall expire, with respect to such shipment or delivery or part thereof, at the beginning of that shipment or delivery. The causing of an exemption to expire shall be considered an act which results in such drug or device being misbranded unless it is disposed of under circumstances in which it ceases to be a drug or device.

(2) The exemptions conferred by paragraphs (i), (j), (k), (l), and (m) of this section shall continue until the drugs or devices are used for the purposes for which they are exempted, or until they are relabeled to comply with section 502 (f) (1) of the act. If, however, the drug is converted, compounded, or manufactured into a dosage form limited to prescription dispensing, no exemption shall thereafter apply to the article unless the dosage form is labeled as required by section 503 (b) and paragraph (b), (c), or (d) of this section.

(o) *Intended uses.* The words "intended uses" or words of similar import in paragraphs (a), (g), (i), (j), (k), and (l) of this section refer to the objective intent of the persons legally responsible for the labeling of drugs and devices. The intent is determined by such persons' expressions or may be shown by the circumstances surrounding the distribution of the article. This objective intent may, for example, be shown by labeling claims, advertising matter, or oral or written statements by such persons or their representatives. It may be shown by the circumstances that the article is, with the knowledge of such persons or their representatives, offered and used for a purpose for which it is neither labeled nor advertised. The intended uses of an article may change after it has been introduced into interstate commerce by its manufacturer. If, for example, a packer, distributor, or seller intends an article for different uses than those intended by the person from whom he received the drug, such packer, distributor, or seller is required to supply adequate labeling in accordance with the new intended uses. But if a manufacturer knows, or has knowledge of facts that would give him notice, that a drug or device introduced into interstate commerce by him is to be used for conditions, purposes, or uses other than the ones for which he offers it, he is required to provide adequate labeling for such a drug which accords with such other uses to which the article is to be put.

2. A new § 1.108 is added, to read as follows:

§ 1.108 *Exemption from prescription requirements.* The prescription-dispensing requirements of section 503 (b) (1) (A) of the act are not necessary for the protection of the public health with respect to the following drugs subject to section 502 (d):

(a) Exempt narcotic preparations described in 26 CFR 151.2 and sold as required by 26 CFR 151.180 through 151.185a.

(b) Drugs containing chlorobutanol, intended for external use only.

(c) Epinephrine solution, 1 percent, preserved with chlorobutanol and intended for use solely as a spray.

(d) Drugs containing one or more of the derivatives of barbituric acid and in addition a sufficient quantity or proportion of another drug or drugs to prevent the ingestion of a sufficient amount of barbiturate derivative to cause a hypnotic or somnifacient effect.

Effective date. These regulations shall be effective upon the date of publication of this final order in the FEDERAL REGISTER except the requirements of § 1.106 (b) (2) (ii), (iii), and (iv), (c) (2), and (k) (2) (iii), which shall be effective on August 1, 1953. Action taken in reliance upon the tentative regulations after April 26, 1952, and before this final order issued will be regarded as in compliance with the law.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply secs. 502, 503, 52 Stat. 1050, 1051; 21 U. S. C. 352, 353)

Dated: July 22, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5921; Regs. 111]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

DEFINITION OF PERSONNEL HOLDING COMPANY; PERSONAL HOLDING COMPANY INCOME

On March 14, 1952, notice of proposed rule making with respect to amendments to conform Regulations 111 to Public Law 680 (81st Cong., 2d Sess.), approved August 9, 1950, relating to definition of personal holding company, and to section 223 of the Revenue Act of 1950 (81st Cong., 2d Sess.), approved September 23, 1950, relating to personal holding company income, was published in the FEDERAL REGISTER (17 F. R. 2231). No objection to the rules proposed having been received, the amendments of Regulations 111 set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 29.501–1 the following:

PUBLIC LAW 680 (EIGHTY-FIRST CONGRESS, SECOND SESSION), APPROVED AUGUST 9, 1950

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 501 (b) (6) of the Internal Revenue Code is amended to read as follows:

(6) (A) A licensed personal finance company under State supervision, 80 per centum or more of the gross income of which is lawful interest received from loans made to individuals in accordance with the provisions of applicable State law if at least 60 per centum of such gross income is lawful interest (i) received from individuals each of whose indebtedness to such company did not at any time during the taxable year exceed in principal amount the limit prescribed for small loans by such law (or, if there is no such limit, $500), and (ii) not payable in advance or compounded and computed only on unpaid balances, and if the loans to a person, who is a shareholder in such company during the taxable year by or for whom 10 per centum or more in value of its outstanding stock is owned directly or indirectly (including in the case of an individual, stock owned by the members of his family as defined in section 503 (a) (2)), outstanding at any time during such year do not exceed $5,000 in principal amount; and

(B) A lending company, not otherwise excepted by section 501 (b), authorized to engage in the small loan business under one or more State statutes providing for the direct regulation of such business, 80 per centum or more of the gross income of which is lawful interest, discount or other authorized charges (i) received from loans maturing in not more than thirty-six months made to individuals in accordance with the provisions of applicable State law, and (ii) which do not, in the case of any individual loan, exceed in the aggregate an amount equal to simple interest at the rate of 3 per centum per month not payable in advance and computed only on unpaid balances, if at least 60 per centum of the gross income is lawful interest, discount or other authorized charges received from individuals each of whose indebtedness to such company did not at any time during the taxable year exceed in principal amount the limit prescribed for small loans by such law (or, if there is no such limit, $500), and if the deductions allowed to such company under section 23 (a) (relating to expenses), other than for compensation for personal services rendered by shareholders (including members of the shareholder's family as described in section 503 (a) (2)) constitute 15 per centum or more of its gross income, and the loans to a person, who is a shareholder in such company during the taxable year by or for whom 10 per centum or more in value of its outstanding stock is owned directly or indirectly (including in the case of an individual, stock owned by the members of his family as defined in section 503 (a) (2)), outstanding at any time during such year do not exceed $5,000 in principal amount.

SEC. 2. That section 501 (b) of the Internal Revenue Code is amended by adding at the end thereof the following new paragraph:

(8) A finance company, actively and regularly engaged in the business of purchasing or discounting accounts or notes receivable or installment obligations, or making loans secured by any of the foregoing or by tangible personal property, at least 80 per centum of the gross income of which is derived from such business in accordance with the provisions of applicable State law or does not constitute personal holding company income as defined in section 502, if 60 per centum of the gross income is derived from one or more of the following classes of transactions:

(A) Purchasing or discounting accounts or notes receivable, or installment obligations evidenced or secured by contracts of conditional sale, chattel mortgages, or chattel lease agreements, arising out of the sale of goods or services in the course of the transferor's trade or business;

(B) Making loans, maturing in not more than thirty-six months, to, and for the business purposes of, persons engaged in trade or business, secured by—

(i) Accounts or notes receivable, or installment obligations, described in subparagraph (a) above;

(ii) Warehouse receipts, bills of lading, trust receipts, chattel mortgages, bailments, or factor's liens, covering or evidencing the borrower's inventories;

(iii) A chattel mortgage on property used in the borrower's trade or business;

except loans to any single borrower which for more than ninety days in the taxable year of the company exceed 15 per centum of the average funds employed by the company during such taxable year;

(C) Making loans, in accordance with the provisions of applicable State law, secured by chattel mortgages on tangible personal property, the original amount of each of which is not less than the limit referred to in, or prescribed by, subsection (b) (6) (A) (1), and the aggregate principal amount of which owing by any one borrower to the company at any time during the taxable year of the company does not exceed $5,000; and

(D) If 30 per centum or more of the gross income of the company is derived from one or more of the classes of transactions described in subparagraphs (A), (B) and (C) of this paragraph, purchasing, discounting, or lending upon the security of, installment obligations of individuals where the transferor or borrower acquired such obligations either in transactions of the classes described in subparagraphs (A) and (C) of this paragraph or as a result of loans made by such transferor or borrower in accordance with the provisions of clauses (i) and (ii) of paragraph 6 (A) or of clauses (i) and (ii) of paragraph 6 (B) of this subsection, if the funds so supplied at all times bear an agreed ratio to the unpaid balance of the assigned installment obligations, and documents evidencing such obligations are held by the company;

Provided, That the deductions allowable under subsection 23 (a) (relating to expenses), other than compensation for personal services rendered by shareholders (including members of the shareholder's family as described in section 503 (a) (2)), constitute 15 per centum or more of the gross income, and that loans to a person who is a shareholder in such company during such taxable year by or for whom 10 per centum or more in value of its outstanding stock is owned directly or indirectly (including in the case of an individual, stock owned by members of his family as defined in section 503 (a) (2)) outstanding at any time during such year do not exceed $5,000 in principal amount.

PAR. 2. Section 29.501–1 is amended as follows:

(A) By striking therefrom the first sentence of paragraph (b) and inserting in lieu thereof the following:

(b) Section 501 (b) provides that the term "personal holding company" does not include corporations exempt from taxation under section 101, a bank as defined in section 104, a life insurance company, a surety company, a foreign personal holding company as defined in section 331, and a loan or investment corporation as defined in section 501 (b) (7). For taxable years ending on or before August 9, 1950, such term also does not include a licensed personal finance company, as defined in section 501 (b) (6) prior to amendment by Public Law 680, 81st Congress, 2d Session, approved August 9, 1950. For taxable years ending after August 9, 1950, the term "personal holding company" does not include a licensed personal finance company as defined in section 501 (b) (6) (A), a lending company as defined in section 501 (b) (6) (B), or a finance company (whether or not previously classified as a personal holding company) as defined in section 501 (b) (8).

(B) By striking from paragraph (b) the words "such a corporation" (appearing in the sentence beginning "If, for any prior taxable year") and inserting in lieu thereof "a loan or investment corporation as defined in section 501 (b) (7)".

PAR. 3. There is inserted immediately preceding § 29.502–1 the following:

SEC. 223. PERSONAL HOLDING COMPANY INCOME (REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950)

Section 502 (f) of the Internal Revenue Code (relating to use of corporation property by a shareholder) shall not apply with respect to rents received during taxable years ending after December 31, 1945, and before January 1, 1950, if such rents were received for the use by the lessee, in the operation of a bona fide commercial, industrial, or mining enterprise, of property of the taxpayer.

PAR. 4. Section 29.502–1 (i) is hereby amended by adding at the end thereof the following new sentence: "See also section 223 of the Revenue Act of 1950, which provides that section 502 (f) shall not apply to rents received during taxable years ending after December 31, 1945, and before January 1, 1950, if such rents were received for the use by the lessee, in the operation of a bona fide commercial, industrial, or mining enterprise, of property of the corporation."

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JOHN B. DUNLAP,
Commissioner of Internal Revenue.

Approved: July 21, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order No. 12, Amdt. 1]

DMO 12—ESTABLISHING POSITION OF ASSISTANT TO DIRECTOR FOR HOUSING AND COMMUNITY FACILITIES

AMENDING RESPONSIBILITIES OF POSITION

(1) Defense Mobilization Order No. 12 issued by this office under date of November 27, 1951, establishing the position of Assistant to the Director for Housing and Community Facilities is hereby revised to provide that paragraph 3 read as follows:

3. Be responsible, on behalf of the Director, for the general supervision and coordination of actions to implement certification under the Defense Housing and Community Facilities and Services Act of 1951 (Public Law 139, 82d Congress) and the Housing and Rent Act of 1947, as amended by the Defense Production Act Amendments of 1951 (Public Law 96, 82d Congress).

(2) This amendment is in accordance with the provisions of Defense Mobilization Order No. 20 issued by this office under date of July 25, 1952.

(3) This amendment shall take effect on July 25, 1952.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

[F. R. Doc. 52-8268; Filed, July 24, 1952; 10:48 a. m.]

[Defense Mobilization Order No. 20]

DMO 20—ESTABLISHING REVISED PROCEDURES FOR THE DESIGNATION AND CERTIFICATION OF CRITICAL DEFENSE HOUSING AREAS

Pursuant to the authority vested in me by Executive Order No. 10193 of December 16, 1950, Executive Order No. 10296 of October 2, 1951, Section 203 of the Defense Production Amendments of 1952, and pursuant to the Housing and Rent Act of 1947, as amended, it is hereby ordered as follows:

A. *Establishment of Defense Areas Advisory Committee.* In accordance with the Defense Production Act Amendments of 1952 there is hereby created in the Office of Defense Mobilization a Defense Areas Advisory Committee which shall consist of representatives of the Department of Defense, the Housing and Home Finance Agency, and the Office of Rent Stabilization. The Administrator of the Economic Stabilization Agency, or his representative, shall serve as Chairman.

It shall be the responsibility of the Defense Areas Advisory Committee to review, for the Director of Defense Mobilization, the recommendations which are developed pursuant to this order for critical defense housing area certifications under the Housing and Rent Act of 1947, as amended, and the Defense Housing and Community Facilities and Services Act of 1951, as amended. The Committee shall also review compliance with the criteria in these laws to determine that the conditions for certification have been met.

The joint memorandum of the Secretary of Defense and the Director of Defense Mobilization of September 18, 1951, addressed to the Administrator of the Defense Production Administration, is hereby rescinded and the Advisory Committee on Defense Areas, which was authorized by that memorandum, is abolished.

Paragraph No. 3 of Defense Mobilization Order No. 12[1] is hereby amended to read:

3. Be responsible, on behalf of the Director, for the general supervision and coordination of actions to implement certifications under the Defense Housing and Community Facilities and Services Act of 1951, as amended, and the Housing and Rent Act of 1947, as amended.

[1] See DMO 12, Amdt. 1, *supra.*

B. *Procedure for recommendations under Defense Housing and Community Facilities and Services Act of 1951 (Pub. Law 139).* It shall be the responsibility of the Administrator of the Housing and Home Finance Agency to make recommendations to the Defense Areas Advisory Committee for the designation of critical defense housing areas under the provisions of section 101 of the Defense Housing and Community Facilities and Services Act of 1951, as amended. In carrying out this responsibility the Administrator of the Housing and Home Finance Agency, for each area under consideration, shall:

(1) Secure from the appropriate defense agencies information and recommendations necessary to determine whether the area does or does not contain defense-connected activities.

(2) Secure from the Bureau of Employment Security of the Department of Labor, or from the Department of Defense, or both, information and judgments necessary to a determination on in-migration of defense workers or military personnel.

(3) Make the necessary studies of the present and prospective housing supply in the area.

(4) Assemble and analyze the information provided by the several agencies and determine, in the light of all the facts and their interrelations, whether or not the conditions contained in Section 101 for designation of a critical defense housing area have been met.

(5) Prepare a written summary of findings, including a description of the area to be affected, for each case recommended.

It shall be the responsibility of the Defense Production Administration, the National Production Authority, the Defense Minerals Exploration Administration, the Department of Defense and other defense agencies to provide the Administrator of the Housing and Home Finance Agency, upon his request, with information and recommendations regarding the defense connection of installations or activities in the area under consideration.

It shall be the responsibility of the Bureau of Employment Security of the Department of Labor to provide the Administrator of the Housing and Home Finance Agency, upon his request, with information and judgments regarding the in-migration of industrial defense workers for each area under consideration.

It shall be the responsibility of the Department of Defense to provide the Administrator of the Housing and Home Finance Agency, upon his request, with information and judgments regarding the in-migration of military personnel for each area under consideration. The Department of Defense shall also provide the Administrator of the Housing and Home Finance Agency with such information as it possesses concerning housing conditions in and around military posts or installations.

It shall be the responsibility of the Federal Security Agency to make surveys of and to provide the Housing and Home Finance Agency with information and judgments regarding the need for community facilities under its jurisdiction in connection with areas under consideration and to initiate consideration of areas where a shortage of community facilities is the principal problem.

C. *Procedure for recommendations under the Housing and Rent Act of 1947, as amended (Pub. Law 96).* It shall be the responsibility of the Director of Rent Stabilization to make recommendations to the Defense Areas Advisory Committee for the certification of critical defense housing areas under the provisions of Section 204 (l) of the Housing and Rent Act of 1947, as amended, except that the Department of Defense may initiate certification of those relatively small or isolated communities where the military activity or an activity directly related to the military program is the sole or principal activity in the area. In carrying out this responsibility the Director of Rent Stabilization (or the Department of Defense in the case of small or isolated military areas) shall:

(1) Secure from the Administrator of the Housing and Home Finance Agency information and judgments with respect to defense installations or activities, inmigration and housing shortage.

(2) Notify the Administrator of the Housing and Home Finance Agency of any areas where the need for certification under Public Law 96 appears to be urgent. For all such areas, the Administrator of the Housing and Home Finance Agency shall give the highest priority to assembling the necessary information and judgments and shall transmit them at the earliest possible date to the Director of Rent Stabilization (or to the Department of Defense for small or isolated military areas).

(3) Make such studies of past, present, and prospective rent levels as are necessary to determine whether excessive rent increases have occurred or are threatened in the area.

(4) Organize and analyze the information and judgments regarding rent increases in the light of the information assembled by the Housing and Home Finance Agency on defense installations or activities, in-migration and housing supply, and determine whether the conditions for designation as a critical defense housing area under Public Law 96 have been met.

(5) Prepare a written summary of findings, including a description of the area to be affected, for each case recommended.

It shall be the responsibility of the Department of Defense to provide the Director of Rent Stabilization with such information as it may have regarding rent problems experienced by military personnel and civilian employees in and around military posts or installations in the area under consideration.

D. *Participation of Regional Defense Mobilization Committees.* In carrying out the purposes of this Order, the Administrator of the Housing and Home Finance Agency and the Director of Rent Stabilization may consult with and receive information, advice and views from the Regional Defense Mobilization Committees, through the Central Coordinating Committee, concerning problems arising in connection with critical defense housing area certifications.

This order shall take effect on July 25, 1952.

OFFICE OF DEFENSE MOBILIZATION,
JOHN R. STEELMAN,
Acting Director.

With respect to the procedure established by this order under the Housing and Rent Act of 1947, as amended, the Secretary of Defense hereby concurs.

ROBERT A. LOVETT,
Secretary of Defense.

[F. R. Doc. 52-8269; Filed, July 24, 1952; 10:48 a. m.]

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 135, Supplementary Regulation 2]

CPR 135—BAKERS, WHOLESALE AND RETAIL DISTRIBUTORS OF FROZEN AND PERISHABLE BAKERY ITEMS

SR 2—INTERIM RELIEF FOR MILWAUKEE BREAD BAKERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 2 to Ceiling Price Regulation 135 is hereby issued.

STATEMENT OF CONSIDERATIONS

Data presented to this office indicate that bread bakers in the Milwaukee area are now experiencing substantial hardship under their CPR 135 ceiling prices. Preliminary studies show that cost increases in this area have been such as to reduce earnings of bread bakers in this area below the minimum level to which such bakers would be entitled under an adaptation of the industry earnings standard for application on an area basis.

This office is considering the issuance of an area adjustment regulation which would set forth in detail the standards and procedures under which area relief would be granted to bread bakers in circumstances such as obtain in Milwaukee. On the basis of available data, however, the need for relief in Milwaukee is so urgent, that relief cannot be held in abeyance until such time as final decisions are reached with respect to the issuance of the area adjustment regulation. Accordingly, this supplementary regulation is being issued to grant an interim adjustment to these bread bakers of an amount which data now available clearly show to be required. It does so by increasing the CPR 135 ceiling price for the 1½ lb. loaf of white pan bread by one cent. The 1½ lb. loaf is by far the most important item sold by these bread bakers and accounts for about 80 percent of their sales. When additional data is received and further consideration has been given to procedures for such area adjustments, any further adjustments which may then appear appropriate will be made.

FINDINGS OF THE DIRECTOR

In the judgment of the Director of Price Stabilization, the provisions of this supplementary regulation are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable requirements of that Act.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

REGULATORY PROVISIONS

Sec.
1. What this supplementary regulation does.
2. Ceiling prices.
3. Applicability of CPR 135.

AUTHORITY: Sections 1 to 3 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* (a) This regulation establishes bakers' ceiling prices for sales in the "Milwaukee Area" of any item listed in this regulation.

(b) "Milwaukee Area" means the following counties in the state of Wisconsin: Fond du Lac, Sheboygan, Dodge, Washington, Ozaukee, Jefferson, Waukesha, Milwaukee, Racine, Kenosha, Walworth and Rock.

SEC. 2. *Ceiling prices.* If you are a baker selling an item listed in Table A in the Milwaukee Area you may adjust your CPR 135 ceiling prices for such sales by the amount listed in the same table.

TABLE A—ADJUSTMENT OF CPR 135 CEILING PRICES

Item	*Amount of Adjustment*
1½ lb. white pan loaf	Increase CPR 135 ceiling prices by $.01

SEC. 3. *Applicability of CPR 135.* All provisions of CPR 135 which are not inconsistent with the provisions of this supplementary regulation remain in full force and effect.

Effective date. This supplementary regulation becomes effective July 24, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 24, 1952.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1828]

Subchapter A—Alaska

PART 78—SURVEYS

Subchapter I—Mineral Lands

PART 185—GENERAL MINING REGULATIONS

Parts 78 and 185 are amended, as indicated below. The revised §§ 78.8 and 185.40 provide for additional copies of the plat and field notes which will be furnished to the patentee with his mineral patent. The revised § 185.51 requires the claimant to pay the cost of preparing the copies. The purpose of the new § 185.104 is to shorten land descriptions in patents hereafter issued for certain kinds of mining claims.

1. Section 78.8 is amended to read:

§ 78.8 *Plats and field notes of mineral surveys.* (a) The Office Cadastral Engineer, Public Survey Office, Juneau, Alaska, will make an estimate of the costs of the platting of the claim or claims and of the other office work, including the preparation of the copies of the plat and field notes to be furnished the claimant. The claimant will deposit the estimated amount with that office to be passed to the fund created by "deposits by individuals for surveying public lands".

(b) Upon approval of plats of Alaskan mineral surveys by the Office Cadastral Engineer, four copies thereof will be prepared in the public survey office by photostat, blueprint, or such other process as may be available. The original plat and field notes will be retained in the public survey office; one copy of the plat will be given the claimant for posting upon the claim and two copies of the plat and of the field notes will be given the claimant for filing with the proper manager, to be finally transmitted by that officer, with the other papers in the case, to the Office of the Director, Bureau of Land Management, Washington 25, D. C. One copy of the plat will be sent by the Office Cadastral Engineer to the manager of the proper land district to be retained in his files for future reference. When the patent is issued, one copy of the plat and field notes shall accompany the patent and be delivered to the patentee.

(R. S. 2478; 43 U. S. C. 1201)

2. Section 185.40 is amended to read:

§ 185.40 *Plats and field notes of mineral surveys.* As to plats of survey of mining claims outside of the Territory of Alaska, the regional cadastral engineer will have four copies made, which copies with the original plat, will be filed and disposed of as follows: The original plat and field notes to be retained in the public survey office; one copy of the plat to be given the claimant for posting upon the claim; two copies of the plat and two copies of the field notes to be given the claimant for filing with the proper manager, to be finally transmitted by that officer, with the other papers in the case, to the Office of the Director, Bureau of Land Management, Washington 25, D. C.; and one copy to be sent by the regional cadastral engineer to the manager of the proper land district, to be retained in his files for future reference. When the patent is issued, one copy of the plat and field notes shall accompany the patent and be delivered to the patentee.

(R. S. 2478; 43 U. S. C. 1201)

3. Section 185.51 is amended to read:

§ 185.51 *Payment of charges of the public survey office.* With regard to the platting of the claim and other office work in the public survey office, including the preparation of the copies of the plat and field notes to be furnished the claimant, that office will make an estimate of the cost thereof, which amount the claimant will deposit with it to be passed to the credit of the fund created by "Deposits by Individuals for Surveying Public Lands."

(R. S. 2478; 43 U. S. C. 1201)

4. The following new text is added:

PATENTS FOR MINING CLAIMS

§ 185.104 *Land descriptions in patents.* The land description in a patent for a lode mining claim, for a millsite, or for a placer claim not consisting of legal subdivisions, shall hereafter consist of the names and survey numbers of the claims being patented and those being excluded, or of the names of the excluded claims if they are unsurveyed, or of the legal subdivisions of excluded land covered by homestead or other nonmineral entry. The land description shall refer to the field notes of survey and the plat thereof for a more particular description and the patent shall expressly make them a part thereof. Where shown by the mineral entry the patent shall give the actual or approximate legal subdivision, section, township and range, the name of the county and of the mining district, if any, wherein the claims are situated. A copy of the plat and field notes of each mineral survey patented will be furnished to the patentee.

(R. S. 2478; 43 U. S. C. 1201)

OSCAR L. CHAPMAN,
Secretary of the Interior.

Appendix—Public Land Orders

[Public Land Order 856]

ARIZONA

WITHDRAWING PUBLIC LANDS FOR THE USE OF THE DEPARTMENT OF THE AIR FORCE IN CONNECTION WITH AN AIR FORCE BASE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Arizona are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws and reserved for the use of the Department of the Air Force in connection with an air force base:

GILA AND SALT RIVER MERIDIAN

T. 5 S., R. 6 E.,
Sec. 29, SW¼;
Sec. 32, N½.

The areas described aggregate 480 acres.

It is intended that the lands described shall be returned to the administration of the Department of the Interior when they are no longer needed for the purpose for which they are reserved.

MASTIN G. WHITE,
Acting Secretary of the Interior.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 211—SCOPE OF OPERATING AUTHORITY; ROUTES

USE OF CHESAPEAKE BAY BRIDGE BY COMMON AND CONTRACT MOTOR CARRIERS SUBJECT TO THE INTERSTATE COMMERCE ACT

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 10th day of July A. D. 1952.

The Commission has received inquiries regarding the use of the Chesapeake Bay Bridge by common and contract motor carriers subject to the Interstate Commerce Act.

The Chesapeake Bay Bridge is a recently built modern bridge crossing the Chesapeake Bay between Sandy Point, Md., and a point on the Eastern Shore of Maryland, north of Matapeake, Md., and will be accessible from newly constructed approaches to the bridge.

Upon the opening of the bridge to traffic, scheduled for the latter part of July 1952, the Sandy Point-Matapeake Ferry will discontinue its ferry service between Sandy Point and Matapeake, and there will be no other available crossing of the Chesapeake Bay in this vicinity other than by the Chesapeake Bay Bridge. In view of the discontinuance of the ferry service across the bay, it appears that the use of the Chesapeake Bay Bridge by common and contract motor carriers subject to the Interstate Commerce Act who are authorized to engage in operations across the Chesapeake Bay over presently located U. S. Highway 50 and the Sandy Point-Matapeake Ferry between Sandy Point and Matapeake, Md., will be required by public convenience and necessity in the case of common carriers, and will be consistent with the public interest and the national transportation policy declared in the Interstate Commerce Act in the case of contract carriers: *It is ordered*, That:

§ 211.3 *Use of Chesapeake Bay Bridge by motor carriers subject to the act.* (a) Common and contract motor carriers subject to the Interstate Commerce Act who are authorized to engage in operations across the Chesapeake Bay over presently located U. S. Highway 50 and the Sandy Point-Matapeake Ferry may, without obtaining prior authority therefor, use the Chesapeake Bay Bridge and such additional highways as may be required in traveling via the shortest practicable route between the authorized highways and the Bridge in performing their authorized operations.

(b) This permission to use the Chesapeake Bay Bridge by common and contract motor carriers does not authorize such carriers to serve new points or points they are not now authorized to serve and they will continue to furnish reasonable and adequate service at points on the old routes which they are authorized to serve.

(c) Motor carriers whose authority is limited to operations not requiring the crossing of the bay at the points above-named, but who desire to use the Bridge as an alternate or connecting route in performing their authorized service, must apply for such authority on Form BMC 78 (§ 7.78 of this title) and receive authority before using the Bridge.

(d) If a motor carrier is authorized to operate between points both west and east of the Chesapeake Bay, over irregular routes, no specific authority is required from this Commission to use the Chesapeake Bay Bridge in performing the authorized service.

Notice of this order shall be given to motor carriers and the general public by depositing a copy in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Division of Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 552, as amended, 553, as amended; 49 U. S. C. 308, 309)

By the Commission, Division 5.

[SEAL] W. P. BARTEL, *Secretary.*

[F. R. Doc. 52-8150; Filed, July 24, 1952; 8:50 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Internal Revenue

[26 CFR Part 405]

COLLECTION OF INCOME TAX AT SOURCE ON WAGES

RECEIPTS FOR TAX WITHHELD ON WAGES PAID AFTER DEC. 31, 1950

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form as set forth below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 1429 and 3791 (53 Stat. 178, 467; 26 U. S. C. 1429, 3791) and section 1627 of the Internal Revenue Code (57 Stat. 138; 26 U. S. C. 1627).

[SEAL] JOHN B. DUNLAP, *Commissioner of Internal Revenue.*

Regulations 116 are hereby amended as follows:

PARAGRAPH 1. Section 405.501 (b), as amended by Treasury Decision 5828, approved January 22, 1951, is further amended to read as follows:

(b) *Wages paid after December 31, 1950.* With respect to wages paid on or after January 1, 1951, every person required to deduct and withhold from an employee a tax under section 1622, or who would have been required to deduct and withhold a tax under section 1622 if the employee had claimed no more than one withholding exemption, shall furnish to each such employee, in respect of the remuneration paid by such person to such employee during the calendar year, the original and duplicate of a statement on Form W-2 showing the following: (1) The name and address of such person, (2) the name and address of the employee, and, if wages as defined in section 1426 (a) have been paid, his social security account number, (3) the total amount of wages as defined in section 1621 (a), (4) the total amount deducted and withheld as tax under section 1622, (5) the total amount of wages as defined in section 1426 (a), and (6) the total amount deducted and withheld as tax under section 1400 (increased by any adjustment in the calendar year for overcollection, or decreased by any adjustment in such year for undercollection, of such tax during any prior year).

For example, if the table method of withholding is used, a withholding statement must be furnished each employee whose wages during any payroll period are equal to or in excess of the smallest wage for which tax must be withheld from employees claiming one exemption. If the percentage computation method is used, a withholding statement must be furnished each employee whose wages during any payroll period are in excess of one withholding exemption for such payroll period as shown in the percentage method withholding table contained in section 1622 (b) (1).

If (i) the amount of tax deducted under section 1400 in the calendar year from the wages as defined in section 1426 (a) paid during such year was less or greater than the tax imposed by section 1400 on such wages by reason of the adjustment in such year of an overcollection or undercollection of the tax in any prior year, or (ii) regardless of the reason for the error or the method of its correction, the amount of wages as defined in section 1426 (a) or tax under section 1400 entered on a statement furnished to the employee for a prior year was incorrect, a corrected statement for such prior year reflecting the adjustment or the correct data shall be furnished to the employee.

Likewise, a corrected statement on Form W-2 shall be furnished the employee with respect to a prior calendar year (*a*) if the amount of wages as defined in section 1621 (a) entered on a statement furnished to the employee for such prior year is incorrect, or (*b*) if the amount deducted and withheld as tax under section 1622 is less or greater than the amount entered on the statement furnished the employee for such prior year.

The statement on Form W-2 for the calendar year and the corrected statement for any prior year shall be furnished to the employee on or before January 31 of the year succeeding such calendar year, or, if his employment is terminated before the close of such calendar year, on the day on which the last payment of wages is made.

See the applicable regulations under the Federal Insurance Contributions Act for the requirement as to the furnishing of a statement in cases where such statement is required solely by reason of the tax under section 1400 of such act. Also see such regulations with respect to adjustments of that tax.

PAR. 2. Section 405.601, as amended by Treasury Decision 5828, is further amended as follows:

(A) By changing the third sentence of the first paragraph to read as follows: "For the purpose of the preceding sentence, the timeliness of the deposit will be determined by the date of the endorsement by a designated commercial bank or by a Federal Reserve bank made on the reverse side of Form 450."

(B) By striking "or if the employer has no principal place of business in the United States" from the penultimate sentence of the first paragraph and inserting in lieu thereof the following: "or, if the employer has no principal place of business in a collection district of the United States,".

[F. R. Doc. 52-8157; Filed, July 24, 1952; 8:52 a. m.]

DEPARTMENT OF AGRICULTURE

Bureau of Entomology and Plant Quarantine

[7 CFR Part 319]

VIRGIN ISLANDS

FOREIGN QUARANTINE NOTICES

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to sections 5, 7, and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 159, 160, and 162), is considering amending the subpart Citrus Canker and Other Citrus Diseases; the subpart Citrus Fruit; the subpart Sweetpotatoes and Yams; the subpart Nursery Stock, Plants, and Seeds; the subpart Fruits and Vegetables; and the subpart Cut Flowers; in Part 319, Title 7, Code of Federal Regulations (7 CFR 319.19, 319.28, 319.29, 319.37, et seq., 319.56 et seq. and 319.74 et seq.) in the following respects:

It is proposed to:

1. Amend §§ 319.19 and 319.28 by deleting therefrom the phrase "the continental United States, Puerto Rico and Hawaii" wherever it appears and substituting therefor the phrase "the United States"; and by adding a new paragraph designated as (e) to § 319.19 and as a new undesignated paragraph at the end of § 319.28 to read as follows:

As used in this section unless the context otherwise requires, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

2. Amend § 319.29 by inserting, after the word "importation" the phrase "into the United States"; and by deleting the last sentence in the section and substituting therfor the following: "As used in this section unless the context otherwise requires, the term "United States means the continental United States only."

3. Amend § 319.37 by deleting therefrom the phrase "(including the District of Columbia) and its Territories," and the phrase "(including the District of Columbia) or its Territories," and by adding to the section a new paragraph (c) to read as follows:

(c) As used in this section unless the context otherwise requires, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

4. Amend § 319.37–24 by deleting therefrom the phrase "a State or Territory of the United States" and substituting therefor the phrase "a State, Territory, or District of the United States covered by § 319.37"; by adding the phrase "or District" after the word "Territory" the second and third times the latter appears in the section; and by deleting the word "State" from the phrase "State official".

5. Amend the subpart Nursery Stock, Plants, and Seeds by adding thereto a new § 319.37–28 to read as follows:

§ 319.37–28 *Territorial applicability.* The regulations in this subpart shall apply with respect to importations into the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

6. Amend § 319.56 by adding thereto a new undesignated paragraph to read as follows:

As used in this section unless the context otherwise requires, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

7. Amend § 319.56–2 by inserting after the third undesignated paragraph thereof a new undesignated paragraph to read as follows:

Fruits and vegetables grown in the British Virgin Islands may be imported into the Virgin Islands of the United States without further permit other than the authorization contained in this paragraph but subject to the requirements of the first paragraph of this section, and of §§ 319.56–5, 319.56–6 and 319.56–7, except that such fruits and vegetables are exempted from the notice of arrival requirements of § 319.56–5 when an inspector shall find that equivalent information is obtainable from the United States Collector of Customs.

8. Amend the subpart Fruits and Vegetables by adding thereto a new § 319.56–8 to read as follows:

§ 319.56–8 *Territorial applicability.* The regulations in this subpart shall apply with respect to importations into the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

9. Amend § 319.74 by deleting therefrom the phrase "the continental United States, Hawaii, and Puerto Rico" and substituting therefor the phrase "the United States"; and by adding a new undesignated paragraph to the section to read as follows:

As used in this section, the term "United States" means the continental United States, Alaska, Hawaii, Puerto Rico, and the Virgin Islands of the United States.

10. Amend § 319.74–2 (e) by deleting therefrom the phrase "a State or Territory of the United States" and substituting therefor the phrase "a State, Territory or District of the United States covered by § 319.74"; by adding the phrase "or District" after the word "Territory" the second and third times the latter appears in the section; and by deleting the word "State" from the phrase "State official".

11. Amend the subpart Cut Flowers by adding thereto a new § 319.74–7 to read as follows:

§ 319.74–7 *Territorial applicability.* The regulations in this subpart shall apply with respect to importations into the continental United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands of the United States.

12. Amend § 319.74–2a by deleting therefrom the phrase "the continental United States, Hawaii, and Puerto Rico" and substituting therefor the phrase "the United States."

The aforesaid proposed amendments would correlate the quarantines, regulations, and administrative instructions set forth in the above mentioned subparts with a current extension of plant quarantine operations to the Virgin Islands of the United States as authorized by the Plant Quarantine Act. A public hearing with respect to this matter was held in Washington, D. C., on March 29, 1951, pursuant to a notice published in the FEDERAL REGISTER on February 8, 1951 (16 F. R. 1205).

Any person who desires to submit written data, views, or arguments in connection with the proposed amendments, should file them with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 15 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Secs. 5, 7, and 9, 37 Stat. 316, 317, 319, as amended; 7 U. S. C. 159, 160, 162)

Done at Washington, D. C., this 22d day of July 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

[F. R. Doc. 52-8136; Filed, July 24, 1952; 8:45 a. m.]

[7 CFR Part 324]

MOLLUSKS

NOTICE OF PROPOSED REGULATIONS GOVERNING ENTRY

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to Public Law 152, 82d Congress (65 Stat. 335, 7 U. S. C. Sup. 441), approved September 22, 1951, is considering the adoption of regulations, to appear in Part 324 of Chapter III, Title 7 of the Code of Federal Regulations, as follows:

PART 324—MOLLUSKS

Sec.
324.1 Definitions.
324.2 Mollusk infestation in Guam.
324.3 Inspection.
324.4 Treatment.
324.5 Entry of mollusks; permits required.
324.6 Restrictions on issuance of permits.
324.7 Permit procedure.
324.8 Mollusks entered for scientific purposes.

AUTHORITY: §§ 324.1 to 324.8 issued under Pub. Law 152, 82d Cong.; 65 Stat. 335, 7 U. S. C. Sup. 441.

§ 324.1 *Definitions.* Words used in the singular form in the regulations in this part shall be deemed to import the plural and vice versa, as the case may demand. For the purposes of this part, the following words shall be construed, respectively, to mean:

(a) *Chief of Bureau.* The Chief of the Bureau of Entomology and Plant Quarantine, or any officer or employee of the Bureau to whom authority has heretofore been delegated or may hereafter be delegated to act in his stead.

(b) *Bureau.* The Bureau of Entomology and Plant Quarantine, United States Department of Agriculture.

(c) *Inspector.* Any person authorized by the Secretary of Agriculture of the United States to enforce the provisions of the Plant Quarantine Act (7 U. S. C. 151 et seq.).

(d) *Person.* Any individual, corporation, company, association, firm, partnership, society, joint stock company, or other organized group of any of the foregoing.

(e) *Owner.* The owner or the person having responsible custody of a carrier or other regulated article subject to the regulations in this part.

(f) *Mollusk.* All living stages, including eggs, of the giant African snail or other species of terrestrial or fresh-water forms of the phylum Mollusca.

(g) *United States.* The 48 States, the District of Columbia, the Canal Zone, and the United States possessions, including but not limited to the Territory of Hawaii and other Territories of the United States, but excluding Guam.

(h) *Carrier.* Any vessel, vehicle, aircraft, or other kind of conveyance entering any part of the United States.

(i) *Regulated article.* Any produce, baggage, salvaged war material or other goods entering any part of the United States.

(j) *Permit.* An authorization allowing the entry into the United States of certain mollusks in accordance with the regulations in this part.

(k) *Treatment.* Fumigation or any other process designed to eliminate infestation by the giant African snail or any other mollusk prohibited entry under the regulations in this part.

§ 324.2 *Mollusk infestation in Guam.* The Secretary of Agriculture finds that Guam is infested with the giant African snail. Therefore, the entry of mollusks, carriers, and other regulated articles from Guam into any part of the United States is subject to the same conditions as are applicable to the entry thereof from foreign countries.

§ 324.3 *Inspection.* As a condition of entry into any part of the United States, all carriers and other regulated articles from any foreign country or Guam shall be subject to examination by an inspector for the purpose of determining whether they are infested with the giant African snail or any other mollusk prohibited entry under the regulations in this part.

§ 324.4 *Treatment.* (a) A carrier or other regulated article found upon examination to be infested with the giant African snail or other species of mollusk prohibited entry under the regulations in this part shall be promptly removed from the United States or shall be promptly treated by the owner or his agent in a manner prescribed by the inspector and under his supervision. Pending such action, the carrier or other regulated article shall be immediately subject to such safeguards against escape of the mollusks as the inspector may prescribe.

(b) All costs or charges incident to the inspection, handling, cleaning, safeguarding, or treatment of an infested carrier or other regulated article, except for the services of the inspector during regularly assigned hours of duty and at the usual places of duty, shall be borne by the owner or his agent. Neither the Department of Agriculture nor the inspector will be responsible for any costs accruing for demurrage, shipping charges, wharfage, cartage, labor, chemicals, or the like incidental to such inspection, handling, cleaning, safeguarding, or treatment.

(c) If the treatment or safeguards prescribed by the inspector are not applied promptly by the owner or his agent, the inspector shall apply measures necessary to prevent the escape of the mollusks. The entire cost of such application shall be borne by the owner or his agent and shall constitute a debt payable to the Treasurer of the United States.

§ 324.5 *Entry of mollusks; permits required.* Entry into the United States of any species of mollusk from any foreign country or Guam is prohibited, except under permit issued by the Chief of Bureau or authorized official of the United States Public Health Service, and in compliance with such safeguards as may be prescribed in connection with the issuance of such permit.

§ 324.6 *Restrictions on issuance of permits.* Except as provided in § 324.8, permits will not be issued for the entry of the giant African snail, Achatina fulica (Bowdich), or any other species of Achatina; Theba pisana (Muller); any species of slug; or any other species of mollusk determined by the Chief of Bureau to be similar to the giant African snail in its destructiveness to plant life. Permits will also be refused for the entry of other species of mollusks unless it is determined by the Chief of Bureau that the particular shipment will be entered and subsequently handled under such safeguards as he deems necessary to prevent injury to the agriculture of the United States.

§ 324.7 *Permit procedure.* Any person desiring to enter any mollusks into the United States may submit to the Chief of Bureau an application for permit stating the name and address of the importer, the approximate quantity and species (scientific name) it is desired to enter, the country of origin, the port of entry, the purpose of the entry, and the place where and conditions under which the mollusks will be handled. If available, an empty shell of the species to be entered should accompany the application, for purposes of identification. In considering such applications, the Chief of Bureau will confer with other interested agencies, which may include the Division of Mollusks, United States National Museum; United States Public Health Service, Federal Security Agency; and state plant pest officials, in determining the eligibility for entry of the species covered by the applications. Upon determination that a particular species is eligible for entry under § 324.6 or § 324.8, a permit will be issued by the Chief of Bureau specifying the conditions of entry and the port of entry, except that if the species is subject to regulation by the United States Public Health Service, the application for permit will be referred to said agency for such action as it finds is warranted under its regulations.

§ 324.8 *Mollusks entered for scientific purposes.* Mollusks not otherwise eligible for entry under § 324.6 may be entered into the United States for scientific purposes under permit issued by either the Chief of Bureau or by an authorized official of the United States Public Health Service, under such safeguards and restrictions as may be prescribed in connection with the issuance of such permit after review of each individual application for such permit.

The purpose of the proposed regulations is to prevent importations into noninfested parts of the United States of terrestrial and fresh-water mollusks which would be injurious to agriculture. This objective would be accomplished under the proposed regulations by requiring permits for the entry of all terrestrial and fresh-water mollusks and providing for the inspection, treatment, and safeguarding of carriers and other regulated articles coming from a foreign country or from Guam to any other part of the United States. In administering the regulations recognition would be given to such interests as the United States Public Health Service may have in the entry of certain mollusks, particularly snails that are known to be carriers of human diseases. This Service has regulations (sec. 71.156 of Public Health Service Manual of Laws and Regulations; 42 CFR 71.156) governing the entry of etiological agents and vectors of human diseases that apply to mollusks affecting human health.

Any person who desires to submit written data, views, or arguments concerning the proposed regulations should file them with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 22d day of July 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

HANDLING OF MILK IN NEOSHO VALLEY, OKLAHOMA, MARKETING AREA

PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

EDITORIAL NOTE: In Federal Register Document 52-7952, appearing at page 6671 of the issue for Saturday, July 19, 1952, the following changes should be made:

1. "Part 906" should be deleted from the bracket headnote so that the headnote reads as set forth above.

2. In the second paragraph the words "and the Tulsa, Oklahoma, marketing area" should be deleted.

3. In proposal 2, references to §§ 906.22, 906.51 and 906.52 should appear as §§ 928.22, 928.51 and 928.52, respectively.

DEPARTMENT OF COMMERCE

Federal Maritime Board

TRANS-PACIFIC FREIGHT CONFERENCE AND JAPAN-ATLANTIC COAST FREIGHT CONFERENCE

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

Trans-Pacific Freight Conference: Agreement No. 150-5, between the member lines of the above named Conference, modifies the basic agreement of said Conference (No. 150)-(a) by revising the provision covering breach of the agreement; (b) by revising the withdrawal provision to require 60 days notice instead of the present 90 days notice; (c) to provide for the deposit of $25,000 U. S. Government bonds, or U. S. currency, or surety bond of like amount, instead of the present sum of ¥25,000 Japanese Government bonds, or cash, or other bonds, to guarantee faithful performance of the terms of the agreement; (d) to provide that Conference decisions shall be by two-thirds vote instead of three-fourths vote as presently provided; (e) by including a provision covering an admission fee of $1,000; (f) by clarifying and or rearranging various provisions of the basic Conference agreement; and (g) to include a number of other provisions relating to the internal functioning of the Conference.

Japan-Atlantic Coast Freight Conference: Agreement No. 3103-6, between the member lines of the above named Conference, modifies the basic agreement of said Conference (No. 3103); (a) by changing the name of the Conference to "Japan-Atlantic and Gulf Freight Conference"; (b) by clarifying and or rearranging the various provisions of the basic Conference agreement; (c) by including a provision covering an admission fee of $1,000; (d) to provide for the deposit, with the Conference, of the sum of $25,000 in U. S. Government bonds or U. S. currency, or surety bond of like amount, by each member, to guarantee faithful performance of the terms of the agreement, and (e) to include a number of other provisions relating to the internal functioning of the Conference.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: July 21, 1952.

By order of the Federal Maritime Board.

FILING OBJECTIONS TO THE ORDER WITHDRAWING PUBLIC LANDS FOR THE USE OF THE DEPARTMENT OF THE AIR FORCE IN CONNECTION WITH AN AIR FORCE BASE [1]

For a period of 30 days from the date of publication of the above entitled order, persons having cause to object to the terms thereof may present their objections to the Secretary of the Interior. Such objections should be in writing, should be addressed to the Secretary of the Interior, and should be filed in duplicate in the Department of the Interior, Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where the proponents of the order can explain its purpose, intent, and extent. Should any objection be filed, whether or not a hearing is held, notice of the determination by the Secretary as to whether the order should be rescinded, modified or let stand will be given to all interested parties of record and the general public.

DELTA AIR LINES, INC. AND CHICAGO & SOUTHERN AIRLINES, INC.; DELTA-CHICAGO & SOUTHERN MERGER CASE

NOTICE OF HEARING

In the matter of the joint application of Delta Air Lines, Inc. and Chicago & Southern Airlines, Inc., for approval, under sections 408, 401 (i) and any other applicable sections of the Civil Aeronautics Act of 1938, as amended, of an agreement of merger.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401 (i) and 408 thereof, the above-entitled proceeding is assigned for hearing on August 11, 1952, at 10:00 a. m., d. s. t., in Room 5859 of the Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner William F. Cusick.

Without limiting the scope of the issues presented by the pleadings in this proceeding, particular attention will be directed to whether the merger of the two companies and the transfer of the certificates of public convenience and necessity now held by Chicago & Southern Airlines, Inc., are consistent with the public interest.

[1] See Title 43, Chapter I, Appendix, PLO 856, *supra*.

tention to contract with Applicant for

For further details of the issues involved in this proceeding the parties are referred to the various orders entered in this proceeding and the Examiner's prehearing conference report which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties of record desiring to be heard in this proceeding shall file with the Board on or before August 11, 1952, a statement setting forth the issues of fact or law raised by this proceeding which he desires to controvert.

Dated at Washington, D. C., July 22, 1952.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[Serial No. E-6619; Docket No. 1705 et al., Consolidated]

AIR FREIGHT RATE INVESTIGATION; DIRECTIONAL RATES

ORDER TO SHOW CAUSE

In the matter of rates and charges for the transportation of freight by air established, demanded, and charged by certificated and non-certificated air carriers, known as air freight rate investigation; directional rates.

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 21st day of July 1952.

The Board having considered all of the information and data set forth, or specifically referred to, in the Statement of Tentative Findings and Conclusions, together with the Appendices attached thereto, dated July 21, 1952 (hereinafter referred to as the "Statement"), which Statement is attached hereto and made a part hereof,[1] and having on the basis thereof made the tentative findings and conclusions set forth in the Statement; *It is ordered*, That:

1. All interested parties show cause on or before August 5, 1952 why the Board should not make final the findings and conclusions set forth in the attached Statement and on the basis thereof indefinitely extend the directional rates authorized under Orders Serial Nos. E-4048, E-4890, and E-5648;

2. Unless objections to the attached Statement and this order with supporting reasons are filed within 15 days from the date of this order, all parties will be deemed to have waived all further procedural steps herein and the Board will without further notice enter an order making final the findings and conclusions in the Statement and extending said directional rates until further order of the Board;

3. Copies of this statement and order be served on all parties to this proceeding;

4. This order be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-1236]

LAKE SHORE PIPE LINE CO.

NOTICE OF PETITION

JULY 21, 1952.

Take notice that on July 11, 1952, Lake Shore Pipe Line Company (Petitioner), an Ohio corporation with its principal place of business at Cleveland, Ohio, filed a petition, pursuant to section 16 of the Natural Gas Act, for an amendment of Finding (9) and of paragraph (A) (vi) of the Commission's order issued February 15, 1951 (accompanying Opinion No. 205), granting a certificate of public convenience and necessity to Petitioner.

Finding (9) of said order provides:

> The public convenience and necessity require and it is reasonable that Lake Shore Pipe Line Company shall submit at least 60 days prior to the commencement of operations rate schedules and service agreements in a form satisfactory to the Commission for the transportation and sale of natural gas, which shall provide rates for firm service which will produce charges not in excess of those which would result from a demand charge of $3.00 per Mcf per month and a commodity charge of 19.4 cents per Mcf.

Paragraph (A) (vi) orders Petitioner to submit rate schedules and service agreements within the time and rates specified in said Finding (9).

Petitioner states that such rates were based upon a cost of service set forth on page 13 of the mimeographed edition of Opinion No. 205 and which included $716,400 as "Purchased Gas Cost," computed on the assumption that Tennessee Gas Transmission Company (Petitioner's sole supplier) would have rates on file for such service providing a demand charge of $2.40 per Mcf per month and a commodity charge of 15.2 cents per Mcf. Tennessee's presently effective rates as related to Lake Shore Pipe Line Company for firm service, Petitioner says, include a demand charge of $2.50 Mcf per month and a commodity charge of 17.6 cents per Mcf. Application of such rates would increase the cost of service during the first year of operation by $82,658. Petitioner avers.

Petitioner accordingly seeks to amend paragraph (A) (vi), as well as Finding (9), of said order in such a way as to provide at least $82,658 of additional revenues for the first year of operation.

Petitioner also seeks to amend the time limited prescribed in said finding and ordering paragraph so as to be permitted to file its rate schedules and service agreements not more than 30 days prior to the commencement of operations.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of August 1952. The petition to amend is on file with the Commission for public inspection.

[Docket No. G-1978]

NEWTON COUNTY GAS CO.

NOTICE OF APPLICATION

JULY 21, 1952.

Take notice that Newton County Gas Company (Applicant), a Georgia corporation, address Covington, Georgia, filed on June 20, 1952, an application, and on July 14, 1952, supplemental material to that application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Southern Natural Gas Company (1) to establish physical connection of its natural-gas transmission pipeline facilities near Jonesboro, Georgia, with existing pipeline facilities owned by the Army through which it is proposed that natural gas will be delivered to the Applicant, and (2) to deliver and sell to Applicant an adequate supply of natural gas for resale to the Army at the Atlanta General Depot near Conley, Georgia, and to residents of the Holland Park Housing Project located on the Army reservation.

Service to the Atlanta General Depot is presently rendered by Atlanta Gas Light Company which is in turn served with gas by Southern Natural Gas Company. Applicant states that the Army has attempted to reach agreement with the Atlanta Gas Light Company concerning service of gas to the housing project, but has been unable to do so, and that the Army has stated its intention to contract with Applicant for the use of the Army-owned pipeline to provide delivery of gas to the Atlanta General Depot and the housing project as soon as a supply of gas can be obtained by the Applicant.

The volume of gas which Applicant requests be withdrawn from service to Atlanta Gas Light Company and sold to it is 700 Mcf per day, in addition to which Applicant wishes service of an additional 500 Mcf of gas to meet its 1952–53 heating season.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of August 1952. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 52-8143; Filed, July 24, 1952; 8:47 a. m.]

[1] Filed as a part of the original document but not published. Copies of the Statement of Tentative Findings and Conclusions together with the Appendices may be obtained from the CAB.

INTERSTATE COMMERCE COMMISSION

ORGANIZATION OF DIVISIONS AND ASSIGNMENT OF WORK, BUSINESS, AND FUNCTIONS

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 21st day of July A. D. 1952.

The order of June 8, 1942, as amended, Organization of Divisions and Assignment of Work, Business, and Functions, being under consideration:

It is ordered, That the said order, effective this date, be further amended by adding the following:

When a Commissioner ceases to be a member of the Commission, all cases assigned to him as a member of a division, without further order, shall be transferred to his successor on the division.

By the Commission.

[SEAL] W. P. BARTEL,
Secretary.

[F. R. Doc. 52-8151; Filed, July 24, 1952; 8:50 a. m.]

[Rev. S. O. 562, Taylor's I. C. C. Order 4]

RAILROADS SERVING THE STATE OF CALIFORNIA

REROUTING OR DIVERSION OF TRAFFIC

In the opinion of Charles W. Taylor, Agent, the railroads serving the State of California are unable to transport traffic routed over their lines because of earthquakes: *It is ordered*, That:

(a) Rerouting traffic: Railroads serving the State of California unable to transport traffic in accordance with shippers' routing, because of earthquakes, are hereby authorized to divert such traffic over any available route to expedite the movement, regardless of the routing shown on the waybill. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 9:00 a. m., July 21, 1952.

(g) Expiration date: This order shall expire at 11:59 p. m., August 21, 1952, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement.

Issued at Washington, D. C., July 21, 1952.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

[4th Sec. Application 27239]

MINE RUN SALT FROM POINTS IN LOUISIANA TO ANNISTON, ALA.

APPLICATION FOR RELIEF

JULY 21, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff ICC No. 3903.

Commodities involved: Salt, mine run, carloads.

From: Anse La Butte, Avery Island, Carla, Jefferson Island, Weeks and Winnfield, La.

To: Anniston, Ala.

Grounds for relief: Competition with rail carriers, circuitous routes, operation through higher-rated territory.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, ICC No. 3903, supl. 23.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

[SEAL] W. P. BARTEL,
Secretary.

OFFICE OF DEFENSE MOBILIZATION

SHIPBUILDING INDUSTRY

NOTICE OF HEARING BEFORE SURPLUS MANPOWER COMMITTEE

Pursuant to section 8 of Defense Manpower Policy No. 4 (17 F. R. 1195), relating to placement of procurement in areas of current or imminent labor surplus, notice is hereby given of a public hearing to be held before a panel of the Surplus Manpower Committee in Room 159, Executive Office Building, Washington, D. C., beginning at 9:30 a. m., d. s. t., August 6, 1952.

The purpose of the hearing is to receive evidence with respect to:

1. The nature and extent of the labor surplus in the shipbuilding industry, including the availability of skills necessary to the fulfillment of Government contracts and purchases, and the need for preserving these skills in the public interest.

2. The nature and extent of the facilities in the shipbuilding industry, including their suitability and availability for the fulfillment of Government contracts and purchases, and the need for maintaining these facilities in the public interest.

3. Whether it is in the public interest that insofar as it affects the shipbuilding industry, Defense Manpower Policy No. 4 should be applied to the shipbuilding industry as a whole in order to achieve a greater utilization of the manpower skills and facilities of the entire industry than is currently the case.

4. Appropriate methods of applying the policy to the shipbuilding industry in the event an affirmative finding is made under paragraph three above.

Interested persons may submit statements in writing and may appear and present evidence and oral argument at the hearing, and at the close of the hearing may file briefs with the panel. Upon completion of the hearing the panel will make findings and conclusions and submit its recommendations to the Surplus Manpower Committee.

Persons wishing to be heard or to submit statements or briefs, must notify the Secretary of the Surplus Manpower Committee, Room 106, Executive Office Building, Washington 25, D. C., not later than August 4, 1952. Copies of Defense Manpower Policy No. 4 may be obtained from the Secretary of the Surplus Manpower Committee.

OFFICE OF DEFENSE MOBILIZATION,
SURPLUS MANPOWER COMMITTEE,
ARTHUR S. FLEMMING,
Chairman.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 83, Section 2, Special Order 18, Amdt. 1]

WILLYS-OVERLAND MOTORS, INC.

BASIC PRICES AND CHARGES FOR NEW PASSENGER AUTOMOBILES

Statement of considerations. Special Order 18 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles and factory installed extra equipment manufactured by the Willys-Overland Motors, Inc. Subsequent to the issuance of Special Order 18 the manufacturer introduced a 1952 model automobile which was not a counterpart of any previously produced. The ceiling price at which the manufacturer may sell this new automobile has been established under section 10 of Ceiling Price Regulation 1, Revision 1. This amendment is, accordingly, issued to establish sellers' prices which will reflect costs to dealers on the automobile and markup thereon.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 2 of Ceiling Price Regulation 83, this amendment to Special Order 18 is hereby issued.

1. The basic price as defined in Ceiling Price Regulation 83, section 2, which retail and wholesale sellers will use in determining the ceiling price of the 1952 model automobile manufactured by Willys-Overland Motors, Inc. is as follows:

PASSENGER AUTOMOBILES	
685 Hard Top Convertible Coupe	$2,040.00

Effective date. This amendment 1 to Special Order 18 shall become effective July 23, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 23, 1952.

[F. R. Doc. 52-8223; Filed, July 23, 1952; 11:47 a. m.]

[Ceiling Price Regulation 83, Section 2, Special Order 16, Amdt. 5]

KAISER-FRAZER CORP.

BASIC PRICES AND CHARGES FOR NEW PASSENGER AUTOMOBILES

Statement of considerations. Special Order 16 established a schedule of prices and charges pursuant to section 2 of Ceiling Price Regulation 83 for sellers of new passenger automobiles manufactured by the Kaiser-Frazer Corporation. Subsequent to the issuance of Special Order 16 the manufacturer's prices to dealers were increased following an increase in wholesale ceiling prices pursuant to Ceiling Price Regulation 1, Revision 1, Supplementary Regulation 1. This order is accordingly issued to establish sellers' prices and charges which will reflect increased costs to dealers and markup thereon, and is applicable to 1952 models of Kaiser passenger automobiles manufactured by Kaiser-Frazer Corporation.

Special provisions. For the reasons set forth in the statement of considerations and pursuant to section 2 of Ceiling Price Regulation 83 this amendment is hereby issued.

1. The charges for factory installed extra, special or optional equipment which wholesalers and retail sellers will use in determining the ceiling prices of 1952 Kaiser automobiles manufactured by the Kaiser-Frazer Corporation and sold at a price which reflects the increase granted in Letter Order L-5 is as follows:

KAISER AUTOMOBILES	
Hydramatic Transmission (all Kaisers)	$165.00

Effective date. This amendment to Special Order 16 shall become effective July 23, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 23, 1952.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-66, 59-61, 59-35]

FEDERAL WATER AND GAS CORP. ET AL.

ORDER RELEASING JURISDICTION OVER FEES

JULY 21, 1952.

The Commission on July 27, 1948 having issued its order approving a plan of liquidation of Federal Water and Gas Corporation ("Federal"), filed pursuant to section 11 (e) subject to conditions reserving jurisdiction to consider (1) claims asserted against Federal by New York Water Service Corporation, and (2) the reasonableness of all fees and expenses in connection with the Plan;

The Commission on September 18, 1951 having issued its order approving a plan to effect completion of the liquidation of Federal, said order specifically providing that jurisdiction be reserved with respect to the allowance of fees and expenses pertaining to Federal's liquidation;

Applications having been filed for the payment of fees and reimbursement of expenses by the following applicants:

	Fee	Expenses	Total
Hughes, Hubbard and Reed, counsel for Federal	$70,000	$2,408.00	[1] $72,408.00
Common stockholders committee:			
Percival E. Jackson, counsel	55,000		55,000.00
John Todd, Jr., and Norman L. Lyman, members	1,500		1,500.00
Expenses		4,042.20	4,042.20
	126,500	6,450.20	132,950.20

[1] $24,000 of the fee and $1,410 of expenses have already been paid by Federal.

It appearing to the Commission that the amounts requested for fees and expenses as specified above are not unreasonable and that they relate to necessary services.

It is ordered, That Federal be, and hereby is, directed to make such payments in respect of fees, and the reimbursement of expenses of said applicants in the amount set forth above which have not been previously paid.

It is further ordered, That the reservations of jurisdiction contained in our orders of July 27, 1948, and September 18, 1951, with respect to the reasonableness of all fees and expenses in connection with the plans of liquidation of Federal be, and the same hereby are, released, but only to the extent of the payments hereby ordered.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

PENNSYLVANIA GAS & ELECTRIC CORP. ET AL.

ORDER EXTENDING TIME TO MODIFY PLAN

JULY 21, 1952.

In the matter of Pennsylvania Gas & Electric Corporation, North Penn Gas Company, Allegany Gas Company, Dempseytown Gas Company, Alum Rock Gas Company, Penn-Western Service Corporation, Applicants, File No. 54-177; Pennsylvania Gas & Electric Corporation, and its subsidiary companies, Respondents, File No. 59-91.

Pennsylvania Gas & Electric Corporation ("Penn Corp"), a registered holding company, having filed a plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for the dissolution of Penn Corp;

The Commission having issued its findings and opinion dated June 5, 1952, concluding that the aforesaid plan may be approved if within 30 days or such additional time as may be granted upon a proper showing the aforesaid plan is modified in accordance with the views expressed in said findings and opinion;

Penn Corp, in a letter of July 10, 1952, having requested, in view of the nature of the issues presented, an extension of the period in which it may modify the plan;

The Commission having considered Penn Corp's request and having concluded that an extension of time may appropriately be granted;

It is ordered, That the time within which an amendment may be filed to modify the aforesaid plan in accordance with the views expressed in said findings and opinion dated June 5, 1952, be and hereby is extended to August 8, 1952.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

ORDER GRANTING APPLICATION FOR APPROVAL OF MAXIMUM INTERIM COMPENSATION TO OLIVER R. WAITE

JULY 21, 1952.

Oliver R. Waite of Brickley, Sears & Cole, 1 Federal Street, Boston, Massachusetts, having filed with this Commission an application pursuant to Rule U-63 promulgated under section 11 (f) of the Public Utility Holding Company Act of 1935 ("the act") for approval of $10,000 as the maximum amount for which application may be made to the United States District Court for the District of Massachusetts as interim compensation for his services rendered as counsel to Bartholomew A. Brickley, Trustee of International Hydro-Electric System ("IHES"), a registered holding company, for the period from January 28, 1950 to March 31, 1951 inclusive, under circumstances as follows:

The applicant has been employed since May 19, 1947 as counsel to assist the Trustee in connection with proceedings pursuant to section 11 (d) of the act for the liquidation and dissolution of IHES. Pursuant to prior orders of the Commission and the Court he has received compensation for his services to January 28, 1950. During the period covered by the instant application he rendered legal services in connection with Parts II and III of the Trustee's Second Plan and ancillary matters.

Such application having been duly filed, and notice thereof having been duly published stating that any interested person might, not later than July 17, 1952, request a hearing thereon; and no request for a hearing having been received, and the Commission not having ordered a hearing thereon; and

It appearing to the Commission that $10,000 is reasonable as the maximum amount for which application may be made to the Court as compensation for the aforesaid services:

It is ordered, That said application be and the same hereby is granted, effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2647]

ELECTRIC ENERGY, INC., ET AL.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

JULY 21, 1952.

In the matter of Electric Energy, Inc., Middle South Utilities, Inc., Union Electric Company of Missouri; File No. 70-2647.

Middle South Utilities, Inc. ("Middle South"), a registered holding company, Union Electric Company of Missouri ("Union Electric"), a registered holding company and a public utility company, and Electric Energy, Inc. ("Electric Energy"), a public utility subsidiary of Middle South and Union Electric, having filed a joint application-declaration and amendments thereto, pursuant to sections 6, 7 and 12 of the act regarding (i) the issuance and sale by Electric Energy to two insurance companies of a maximum of $100,000,000 principal amount of 3 percent First Mortgage Sinking Fund Bonds, due December 1, 1979, and (ii) the execution by all the applicants-declarants of certain contracts; and

The Commission having by order dated June 26, 1951, granted the amended application and permitted the amended declaration to become effective, subject to a reservation of jurisdiction over all fees and expenses to be incurred in connection with the proposed transactions; and

The record having been completed with respect to the fees and expenses which are estimated as follows:

Federal stamp taxes	$95,150.00
Fees charged by Illinois Commerce Commission	100,000.00
Recording and filing fees	500.00
Counsel for Electric Energy:	
Cahill, Gordon, Zachry & Reindel:	
Fees	50,000.00
Expenses	1,819.57
Mayer, Meyer, Austrian & Platt:	
Fees	8,000.00
Expenses	628.38
Orden, Galphin & Obell:	
Fees	3,000.00
Expenses	150.00
Legal fees and expenses of counsel for the purchasers to be paid by Electric Energy: Wilkie, Owen, Farr, Gallagher & Walton:	
Fees	40,000.00
Expenses	702.48
Fees of trustee under mortgage:	
St. Louis Union Trust Co	3,500.00
Printing of documents including mortgage, bond purchase agreements and bonds	8,000.00
Miscellaneous expenses	1,000.00
Total	312,450.43

The Commission having examined the record as so completed and it appearing to the Commission that the fees and expenses are not unreasonable provided they do not exceed the amounts estimated, and it appearing appropriate to the Commission that the jurisdiction heretofore reserved with respect to the fees and expenses be released;

It is ordered, That the jurisdiction heretofore reserved with respect to the fees and expenses herein be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-2856]

COLUMBIA GAS SYSTEM, INC., ET AL.

ORDER AUTHORIZING PROPOSED ISSUANCE OF SECURITIES BY SUBSIDIARIES AND ACQUISITION THEREOF BY PARENT HOLDING COMPANIES

JULY 21, 1952.

In the matter of The Columbia Gas System, Inc., Atlantic Seaboard Corporation, Amere Gas Utilities Company, Virginia Gas Distribution Corporation, Virginia Gas Transmission Corporation; File No. 70-2856.

The Columbia Gas System, Inc. ("Columbia"), a registered holding company, its subsidiary, Atlantic Seaboard Corporation ("Seaboard"), also a registered holding company, and Amere Gas Utilities Company ("Amere"), Virginia Gas Distribution Corporation ("Distribution"), and Virginia Gas Transmission Corporation ("Transmission"), subsidiaries of Seaboard, having filed a joint application-declaration, and amendments thereto, with the Commission pursuant to sections 6 (b), 7, 9 and 10 of the Public Utility Holding Company Act of 1935 with respect to the following proposed transactions:

Seaboard will amend its Certificate of Incorporation to increase its authorized capital from 800,000 shares of common stock, $25 par value, to 1,000,000 shares of common stock, $25 par value.

Seaboard proposes to issue and sell and Columbia proposes to purchase, at par, up to 160,000 shares of Seaboard's common stock, $25 par value, and $4,000,000 principal amount of 3⅝ percent Installment Promissory Notes. Of the $8,000,000 proceeds to be realized therefrom, Seaboard will use $6,350,000 in connection with its 1952 construction program, and will use the balance of $1,650,000 to purchase, at par, 18,000 shares of Amere's $25 par value common stock and $450,000 principal amount of Amere's 3⅝ percent Installment Promissory Notes; 10,000 shares of Distribution's $25 par value common stock and $250,000 principal amount of Distribution's 3⅝ percent Installment Promissory Notes; and 10,000 shares of Transmission's $25 par value common stock. The Notes to be issued by Seaboard, Amere and Distribution are to be paid in equal annual installments on February 15 of each of the years 1954 through 1978. The proceeds of $900,000 to be realized by Amere, of $500,000 by Distribution, and of $250,000 by Transmission, from the sales of said securities to Seaboard, will be used to finance their 1952 construction programs. None of the proposed transactions will be consummated after March 31, 1953.

Applicants-declarants state that if the dissolution of Transmission and the sale of Amere and Distribution to Columbia are carried out as proposed in the joint

application-declaration now pending before the Commission (File No. 70-2788) the new cash requirements of Seaboard will be $1,300,000 less and the amount borrowed on Installment Notes will be reduced to $2,700,000.

The State Corporation Commission of Virginia having expressly authorized the proposed issuance and sale of common stock and Notes by Distribution and the proposed issuance and sale of common stock by Transmission, and the Public Service Commission of West Virginia having expressly authorized the proposed issuance and sale of common stock and Notes by Amere; and

Due notice having been given of the filing of the joint application-declaration, as amended, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and the interest of investors and consumers that said joint application-declaration, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act that said joint application-declaration, as amended, be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL REGISTER

VOLUME 17 NUMBER 146

Washington, Saturday, July 26, 1952

TITLE 3—THE PRESIDENT

PROCLAMATION 2983

REVOCATION OF THE SUSPENSION OF DUTIES ON ZINC

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the import duties on zinc-bearing ores imposed under paragraph 393 of Title I of the Tariff Act of 1930, as amended, and on zinc in blocks, pigs, and slabs imposed under paragraph 394 of such title, have been suspended by Public Law 258, 82d Congress, approved February 11, 1952 (66 Stat. 7), with respect to imports entered, or withdrawn from warehouse, for consumption during the period beginning February 12, 1952, and ending with the close of March 31, 1953, or the termination of the national emergency proclaimed by me on December 16, 1950, whichever is earlier;

WHEREAS the said Public Law 258 contains the following proviso:

Provided, That when, for any one calendar month during such period, the average market price of slab zinc (Prime Western, f. o. b. East St. Louis) for that month has been below 18 cents per pound, the Tariff Commission, within fifteen days after the conclusion of such calendar month, shall so advise the President, and the President shall, by proclamation, not later than twenty days after he has been so advised by the Tariff Commission, revoke the suspension of duties made by this Act, such revocation to be effective with respect to articles entered for consumption or withdrawn from warehouse for consumption after the date of such proclamation;

AND WHEREAS on the third day of July 1952 the Tariff Commission reported to me that it has found that the average market price of slab zinc (Prime Western, f. o. b. East St. Louis) for the month of June 1952 was below 18 cents per pound;

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, pursuant to the said proviso of Public Law 258, 82d Congress, do hereby proclaim the revocation of the suspension of duties provided for in the said Public Law 258, such revocation to be effective with respect to articles entered for consumption or withdrawn from warehouse for consumption after the date of this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 23rd day of July in the year of our Lord nineteen hundred and fifty-two, and of the Independence of the United States of America the one hundred and seventy-seventh.

[SEAL]

HARRY S. TRUMAN

By the President:

DEAN ACHESON,
Secretary of State.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 27—EXCLUSION FROM PROVISIONS OF THE FEDERAL EMPLOYEES PAY ACT OF 1945, AS AMENDED, AND THE CLASSIFICATION ACT OF 1949, AS AMENDED, AND ESTABLISHMENT OF MAXIMUM STIPENDS FOR POSITIONS IN GOVERNMENT HOSPITALS FILLED BY STUDENT OR RESIDENT TRAINEES

FREEDMEN'S HOSPITAL

Effective July 1, 1952, the list of positions for which maximum stipends have been prescribed in § 27.2 is amended by revising the maximum stipend for student nurses at Freedmen's Hospital to read as follows:

§ 27.2 *Maximum stipends prescribed.*

• • •

Student nurses—Freedmen's Hospital:	
Total for 3-year training	$2,825

NOTE: This maximum stipend is effective only so long as student nurses at Freedmen's Hospital pay $200 or more for tuition and related expenses for which they would not be charged at other Federal hospitals.

(61 Stat. 727; 5 U. S. C. 1051-1058)

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] L. A. MOYER,
Executive Director.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

REVISED BOOKS

TITLE 32 of the Code of Federal Regulations

Title 32, containing the regulations of the Department of Defense and other related agencies, has been completely revised. Originally a single book, Title 32 is being reissued as two books as follows:

Parts 1–699 ($5.00)
Part 700 to end (to be announced)

These books contain the full text of regulations in effect on December 31, 1951

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

Subchapter B—Export and Diversion Programs

PART 517—FRUITS AND BERRIES, FRESH

SUBPART—LEMON EXPORT PAYMENT PROGRAM SMX 65a 2 (FISCAL YEAR 1952)

1. Section 517.301 *General statement* is hereby amended by deleting paragraph (a) and inserting in lieu thereof the following:

(a) In order to encourage the exportation of fresh and processed lemons produced in the United States, the Secretary of Agriculture, pursuant to the authority conferred by section 32 of Public Law 320, 74th Congress, as amended, offers to make payments to United States exporters of such products as defined in paragraph (b) of this section which are sold and exported to an approved country as designated in § 517.302, subject to the terms and conditions herein set forth (§§ 517.301 to 517.312): *Provided*, That no payment will be made to any exporter if the foreign purchaser pays any part of the purchase price from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953, and any payments made to any exporter shall be subject to recovery if the foreign purchaser has paid any part of the purchase price from such funds.

2. Section 517.305 *Claims supported by evidence of compliance* is hereby amended by adding a new paragraph (d) as follows:

(d) The exporter shall file with each claim for payment submitted hereunder the original and one copy of his warranty that none of the purchase price of the fruits or fruit products covered by such claim for payment was paid for from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953.

(Sec. 32, 49 Stat. 774, as amended, Pub. Law 547, 82d Cong.; 7 U. S. C. 612c)

Dated this 22d day of July 1952.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

PART 517—FRUITS AND BERRIES, FRESH

SUBPART—GRAPEFRUIT EXPORT PROGRAM SMX 23a (FISCAL YEAR 1952)

1. Section 517.320 *General statement* is hereby amended by deleting paragraph (a) and inserting in lieu thereof the following:

(a) In order to encourage the exportation of fresh and processed grapefruit produced in the United States, the Secretary of Agriculture, pursuant to the authority conferred by section 32 of Public Law 320, 74th Congress, as amended, offers to make payments to U. S. exporters of such products as defined in paragraph (b) of this section which are sold and exported to an approved country as designated in § 517.321 hereof, subject to the terms and conditions herein set forth (§§ 517.320 to 517.331): *Provided*, That no payment will be made to any exporter if the foreign purchaser pays any part of the purchase price from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953, and any payments made to any exporter shall be subject to recovery if the foreign purchaser has paid any part of the purchase price from such funds.

2. Section 517.324 *Claims supported by evidence of compliance* is hereby amended by adding a new paragraph (d) as follows:

(d) The exporter shall file with each claim for payment submitted hereunder the original and one copy of his warranty that none of the purchase price of the fruits or fruit products covered by such claim for payment was paid for from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953.

(Sec. 32, 49 Stat. 774, as amended, Pub. Law 547, 82d Cong.; 7 U. S. C. 612c)

Dated this 22d day of July 1952.

SUBPART—FRESH AND PROCESSED ORANGES EXPORT PROGRAM SMX 7a (FISCAL YEAR 1952)

1. Section 518.360 *General statement* is hereby amended by deleting paragraph (a) and inserting in lieu thereof the following:

(a) In order to encourage the exportation of fresh and processed oranges produced in the United States, the Secretary of Agriculture, pursuant to authority conferred by section 32 of Public Law 320, 74th Congress, as amended, offers to make payments to U. S. exporters of such products as defined in paragraph (b) of this section which are sold and exported to an approved country as designated in § 518.361, subject to the terms and conditions herein set forth (§§ 518.360 to 518.371): *Provided*, That no payment will be made to any exporter if the foreign purchaser pays any part of the purchase price from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953, and any payments made to any exporter shall be subject to recovery if the foreign purchaser has paid any part of the purchase price from such funds.

2. Section 518.364 *Claims supported by evidence of compliance* is hereby amended by adding a new paragraph (d) as follows:

(d) The exporter shall file with each claim for payment submitted hereunder the original and one copy of his warranty that none of the purchase price of the fruits or fruit products covered by such claim for payment was paid for from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953.

(Sec. 32, 49 Stat. 774, as amended; Pub. Law 547, 82d Cong.; 7 U. S. C. 612c)

Dated this 22d day of July 1952.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 52-8255; Filed, July 25, 1952; 8:59 a. m.]

[Amdt. 2]

PART 524—HONEY

SUBPART B—HONEY EXPORT PROGRAM (1952 MARKETING SEASON)

The "Honey Export Program (1952 Marketing Season)" 17 F. R. 3397, 5385, is hereby further amended in the manner provided below:

1. Section 524.251 *General statement* is hereby amended by deleting the entire section and inserting in lieu thereof the following:

§ 524.251 *General statement.* In order to encourage the exportation of honey produced in continental United States the Secretary of Agriculture, pursuant to the authority conferred by section 32 of Public Law 320, 74th Congress, as amended, offers to make payments to United States exporters of honey, upon the terms and conditions stated in this subpart: *Provided*, That no payment will be made to any exporter if the foreign purchaser pays any part of the purchase price from funds appropriated by the Congress, under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953, and any payments made to any exporter shall be subject to recovery if the foreign purchaser has paid any part of the purchase price from such funds.

2. Section 524.252 *Eligibility for payment* is hereby amended by deleting the entire section and inserting in lieu thereof the following:

§ 524.252 *Eligibility for payment.* Payments will be made to any individual, partnership, corporation or association located in the continental United States (except as provided in § 524.267), (a) who executes an application in quadruplicate, on the form attached hereto; (b) whose application has been approved by the Director; (c) who enters into a sales contract covering the sale and exportation of honey produced within the continental United States to an eligible destination (see § 524.255), who delivers honey pursuant to such contract, and who furnishes evidence of exportation of such honey as required by § 524.260; (d) who certifies that the producer of the honey exported has received not less than the applicable support price at the time of purchase of such honey; (e) who certifies that payment by the foreign buyer for the honey does not involve the use of funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953; and (f) who otherwise complies with all the terms and conditions of this program. Applications must be based on sales contracts and must be approved before exportation of the honey. Approval of applications will be in the order in which they are submitted (see § 524.253), and as long as funds are available. Applicants may make their sales contracts under this program subject to the condition that the Department of Agriculture will make an export payment on such sales.

3. Section 524.260 *Filing of claim* is hereby amended by adding a new paragraph (d) as follows:

§ 524.260 *Filing of claim.* • • •

(d) The exporter shall file with each claim for payment submitted hereunder, a certification in duplicate that none of the purchase price of the honey covered by such claim for payment was paid from funds appropriated under Chapter XI, entitled Mutual Security, of the Supplemental Appropriation Act, 1953.

Effective date. This amendment shall be effective at 12:01 a. m., e. s. t., July 26, 1952.

(Sec. 32, 49 Stat. 774, as amended, Pub. Law 547, 82d Cong.; 7 U. S. C. 612c)

Dated this 22d day of July 1952.

[SEAL] S. R. SMITH,
Authorized Representative of the Secretary of Agriculture.

[F. R. Doc. 52-8256; Filed, July 25, 1952; 8:59 a. m.]

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Regulation 445]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.552 *Lemon Regulation 445*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on July 23, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., July 27, 1952, and ending at 12:01 a. m., P. s. t., August 3, 1952, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 550 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 24th day of July 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

§ 958.311 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended, 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the administrative committee for Area No. 1, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this section, (iii) compliance with this regulation will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted under the circumstances, for such preparation, and (v) information regarding the committee's recommendation has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period from August 1, 1952 to May 31, 1953, both dates inclusive, no handler shall ship potatoes of any variety grown in Area No. 1, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not meet the requirements of Regulation No. 1, as modified (7 CFR 958.301; 14 F. R. 3979; 17 F. R. 6023), or U. S. No. 2 or better grade, 2 inch minimum diameter or 4 ounces in weight, or larger.

(2) During the period from September 1, 1952, to October 31, 1952, both dates inclusive, no handler shall ship potatoes grown in Area No. 1, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not comply with the aforesaid grade and size requirements and which are more than "moderately skinned" as such term is defined in the U. S. Standards for Potatoes (7 CFR 51.366), which means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or feathered.

(3) All terms used in this section shall have the same meaning as when used in Order No. 58 (7 CFR Part 958, et seq.), and the U. S. grades and sizes, including the tolerances therefor, shall have the same meanings assigned such terms in the U. S. Standards for Potatoes (7 CFR 51.366).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C. this 24th day of July 1952, to become effective August 1, 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 34, Amdt. 7 to Supplementary Regulation 3]

CPR 34—SERVICES

SR 3—APPROVAL OF CERTAIN AUTOMOTIVE AND FARM TRACTOR REPAIR SERVICE FLAT RATE MANUALS

ADDITIONAL FLAT RATE MANUALS AND LABOR SCHEDULES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order

10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 7 to Supplementary Regulation 3 (16 F. R. 8828) to Ceiling Price Regulation 34, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment adds various flat rate manuals and labor schedules and supplements thereof to the list of approved flat rate manuals and labor schedules in section 2 of Supplementary Regulation 3 to Ceiling Price Regulation 34.

The Statements of Consideration which accompanied Supplementary Regulation 3 to Ceiling Price Regulation 34, and Amendment 1 to that regulation are equally applicable to this amendment and are incorporated herein by this reference.

The character of the approval granted by this amendment made it impracticable and unnecessary to consult formally with representatives of the industry and trade associations although in each instance representatives of the publishers of the manuals were consulted and consideration was given to their recommendations. In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Supplementary Regulation 3 to Ceiling Price Regulation 34 is amended in the following respects:

1. Section 2 is amended by adding after paragraph (kk), paragraphs (ll) to (nn) inclusive as follows:

(ll) Consul and Zephyr Six (British built Ford cars)

(mm) Nash Flat Rate Schedule—1952

(nn) National Automobile Parts and Labor Manual, 1952 Supplement.

2. Section 2 (v) is amended to read as follows:

(v) Automotive Digest, First 1952 Edition and Second 1952 Edition, provided, however, that the Second 1952 Edition may contain Appendix V, as approved April 1, 1952.

3. Appendices LL to NN as set forth below are added after Appendix KK.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 7 to Supplementary Regulation 3 to Ceiling Price Regulation 34 shall be effective on July 30, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 25, 1952.

APPENDIX LL

This is the "Notice" for the Suggested Repair Time Schedule for Consul and Zephyr Six (British built Ford cars).

NOTICE

You are permitted by OPS to use this Manual to arrive at your ceiling price for a given job:

If—

(1) You compute the ceiling price for each job by multiplying the time allowance of each operation by your customers' hourly rate, which you charged in the base period, December 19, 1950, to January 25, 1951, inclusive; and

(2) Your present ceiling price for that job, as determined under section 5 of Ceiling Price Regulation 34, is not a "fixed charge" which is lower than the price you determined by the use of this Manual (a fixed charge is a charge not computed on the basis of the hourly rate. Examples: Minor Tune-up, all Blank Models, $____. Relining brakes on 1951 Blank Cars, $____); and

(3) You file with your District OPS Office in accordance with section 18 of Ceiling Price Regulation 34 a statement of your intention to use all or any part of this Manual for determining your ceiling price of any of your jobs.

(4) The notice which you post in your place of business, within ten days after you begin to use this Manual states that such job is included among the jobs for which you will hereafter determine your ceiling price by the use of this Manual.

IMPORTANT: In case you are in doubt about your ceiling prices, consult your OPS District Office.

This notice must be attached to your manual.

APPENDIX MM

This is the "Notice" for Nash Flat Rate Schedule, 1952.

NOTICE

You are permitted by OPS to use this schedule to arrive at your ceiling price for a given job:

If—

(1) You use the Labor Conversion Table at the back of the schedule to compute the ceiling price for each job by multiplying the time allowance of each operation by your customers' hourly rate, which you charged in the base period, December 19, 1950, to January 25, 1951, inclusive; and

(2) Your present ceiling price for that job, as determined under section 5 of Ceiling Price Regulation 34, is not a "fixed charge" which is lower than the price you determined by the use of this Manual (a fixed charge is a charge not computed on the basis of the hourly rate. Examples: Minor tune-up, all Blank Models, $____. Relining brakes on 1951 Blank Cars, $____; and

(3) Where you did not use a previous edition of this Manual for the job during the base period, the supplementary statement which you file shows that such job is included among those jobs for which you will hereafter determine your ceiling price by the use of this Manual. (You must file with your District OPS Office in accordance with section 18 of Ceiling Price Regulation 34 a statement of your intention to use all or any part of this Manual for determining your ceiling price of any of your jobs for which you did not use an earlier edition of this Manual during the base period December 19, 1950, to January 25, 1951, inclusive.)

(4) The notice which you post in your place of business, within ten days after you begin to use this Manual states that such job is included among the jobs for which you will hereafter determine your ceiling price by the use of this Manual.

IMPORTANT: In case you are in doubt about your ceiling prices, consult your OPS District Office.

This notice must be attached to your manual.

APPENDIX NN

This is the "Notice" for the National Automobile Parts and Labor Manual, 1952 Supplement.

NOTICE

You are permitted by OPS to use this Supplement to arrive at your ceiling price for a given job:

If—

(1) You use the Labor Conversion Table, pages in the back part of the Manual to compute the ceiling price of each job by multiplying the time allowance of each operation by your customers' hourly rate, which you charged in the base period, December 19, 1950, to January 25, 1951, inclusive; and

(2) Your present ceiling price for that job, as determined under section 5 of Ceiling Price Regulation 34, is not a "fixed charge" which is lower than the price you determined by the use of this Manual (a fixed charge is a charge not computed on the basis of the hourly rate. Examples: Minor tune-up, all Blank Models, $____. Relining brakes on 1951 Blank Cars, $____); and

(3) Where you did not use a previous edition of this Manual for the job during the base period, the supplementary statement which you file shows that such job is included among those jobs for which you will hereafter determine your ceiling price by the use of this Manual. (You must file with your District OPS Office in accordance with section 18 of Ceiling Price Regulation 34 a statement of your intention to use all or any part of this Manual for determining your ceiling price of any of your jobs for which you did not use an earlier edition of this Manual during the base period December 19, 1950, to January 25, 1951, inclusive.)

(4) The notice which you post in your place of business, within ten days after you begin to use this Manual states that such job is included among the jobs for which you will hereafter determine your ceiling price by the use of this Manual.

IMPORTANT: In case you are in doubt about your ceiling prices, consult your OPS District Office.

This notice must be attached to your Manual.

[F. R. Doc. 52-8314; Filed, July 25, 1952, 4:00 p. m.]

[Ceiling Price Regulation 134, Amdt. 5]

CPR 134—CEILING PRICES FOR EATING AND DRINKING ESTABLISHMENTS

SALES OF BOTTLED SOFT DRINKS

Pursuant to the Defense Production Act of 1950 (Pub. Law 774, 81st Cong.), as amended by Public Law 96 (82nd Cong.), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 5 to Ceiling Price Regulation 134 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment permits operators of eating and drinking establishments to increase their ceiling prices for bottled soft drinks for on-premise consumption from five cents to six cents if during the week of February 3 through 9, 1952, they were selling bottled soft drinks both for on-premise and off-premise consumption for five cents, and if, after February 9, 1952, their costs of bottled soft drinks have so increased as to entitle them under an applicable ceiling price regulation to increase the price of bottled soft drinks sold for off-premise consumption to six cents. Off-premise sales of bottled soft drinks are, in most situations, covered by the General Ceiling Price Regulation (GCPR) while those for on-premise consumption are covered by Ceiling Price Regulation 134.

Prior to the Korean outbreak many operators of drinking and eating establishments who sold bottled soft drinks charged a uniform price of five cents, whether or not the drinks were to be consumed on the premises. When the restaurant regulation was issued, on March 28, 1952, it froze that price for on-premise sales. Subsequently, in some areas, bottlers increased their prices, typically from 80 cents to 96 cents a case, as authorized under Supplementary Regulation 43 to the GCPR. Although SR 43 had been issued in mid-1951 some bottlers had not taken advantage of it until fairly recently. As a consequence of the pass-through provision of the GCPR, retailers generally and eating and drinking establishments operators as to their sales for off-premise consumption have been allowed to pass the increase on to consumers. In the usual case this meant increasing the ceiling price from five to six cents a bottle. This has placed some operators of eating and drinking establishments in the anomalous position of being able to charge six cents for bottled soft drinks sold for off-premise consumption while they can charge but five cents for the same drinks sold for on-premise consumption, the latter being the price which was fixed under the restaurant regulation (CPR 134). The position of these operators is especially inconsistent with the fact that their overall costs are higher for sales for on-premise consumption.

It is the judgment of the Director of Price Stabilization that continuation of these diverse ceiling prices for identical commodities in the same establishment is not required in order to carry out the purposes of the price stabilization program. This amendment, therefore, permits the eating and drinking establishment operators involved in this situation to charge six cents for bottled soft drinks sold for on-premise consumption. However, under the amendment, an operator will not be able to increase his ceiling prices for any bottled soft drinks listed on his OPS official poster until he has given notice to his OPS District Office.

Available data indicate that this amendment will in practice for the most part affect small operators. It appears further that any ceiling price increases resulting from the amendment will have only a limited geographical applicability.

In the formulation of this amendment, the Director of Price Stabilization has consulted, so far as practicable, with industry representatives, including trade association representatives, and has given full consideration to their recommendations. In his judgment, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that Act.

AMENDATORY PROVISIONS

Ceiling Price Regulation 134 is amended by inserting after section 11 a new section 11a to read as follows:

SEC. 11a. *Adjustment in ceiling prices of bottled soft drinks.* (a) If you sell a particular bottled soft drink both for on-premise and for off-premise consumption and your ceiling price for sales for off-premise consumption for a bottle of that drink was generally the same during the six month period prior to February 9, 1952 (or during the period of time the establishment you operate was open prior to February 9, 1952), as your selling price for sales for on-premise consumption for a bottle of that drink, you may increase your ceiling price to six cents per bottle for sales of that drink for on-premise consumption, providing that you meet the following conditions.

(1) The highest price charged by you for the bottled soft drink during the week of February 3 through 9, 1952, was five cents, whether the sale was for on-premise or off-premise consumption;

(2) After February 9, 1952, your supplier, as provided in SR 43 to the GCPR, so increased his price to you for a case of the bottled soft drink as to qualify you for an increase in your ceiling price to six cents for sales of a bottle of that drink for off-premise consumption; and

(3) You increased your selling price to six cents for sales of a bottle of that drink for off-premise consumption.

(b) If the soft drink for which you are adjusting your ceiling price under paragraph (a) of this section is one of the items which you are required to list on the OPS official poster as provided in Section 13, you may not charge your adjusted ceiling price until you have mailed to your OPS District Office a notice of any new ceiling prices to be placed on your poster as a result of the adjustment. You must obtain a new OPS official poster and list on the new poster the required items with your ceiling price for each item. The new poster must be displayed within 15 days from the date your notice is mailed to OPS. You are not required to mail a notice to OPS if the bottled soft drink for which you are adjusting your ceiling price is not one of the principal items which you are required to list on your poster.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment 5 to Ceiling Price Regulation 134 is effective July 30, 1952.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 25, 1952.

[F. R. Doc. 52-8315; Filed, July 25, 1952; 4:00 p. m.]

[General Ceiling Price Regulation, Amdt. 1 to Supplementary Regulation 59]

GCPR, SR 59—CEILING PRICES FOR MURIATE OF POTASH

NEW PRODUCERS OF MURIATE OF POTASH

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Supplementary Regulation 59 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment removes new producers from the scope of Supplementary Regulation 59. Supplementary Regulation 59 was issued in September 1951 to enable certain producers to increase their ceiling prices for muriate of potash where, because of peculiar circumstances, their then existing ceiling prices were below the prevailing level of ceiling prices in the industry generally. The regulation established dollars and cents ceiling prices, which represented the general level of such ceiling prices, and permitted producers whose ceiling prices were below these amounts to increase their ceiling prices to these amounts. Since the ceiling prices established by Supplementary Regulation 59 represented the ceiling prices of producers of 97 per cent of the total production of muriate of potash, those prices would have been the prices to which new producers would have been entitled had they established ceiling prices under section 6 of the General Ceiling Price Regulation or applied for ceiling prices under section 7 of the General Ceiling Price Regulation. To obviate the need for new producers reporting under section 6 or applying under section 7, those prices were made applicable to new producers by Supplementary Regulation 59.

Since the issuance of Supplementary Regulation 59, regulations have been issued to give effect to section 402 (d) (4) of the Defense Production Act of 1950 as amended. A number of producers of muriate of potash have applied under these regulations for increases in their ceiling prices and some have received such increases. It appears, therefore that, as a result of the Capehart adjustments the general level of ceiling prices for muriate of potash will be raised. The regulations providing for such increases also provide that a new producer, who establishes his ceiling prices after ceiling prices are adjusted under those regulations, may be "in-lined" with the adjusted ceiling prices. Therefore, but for Supplementary Regulation 59, new producers would be entitled to establish their ceiling prices on the basis of a higher level which may result from the regulations issued pursuant to section 402 (d) (4) of the Defense Production Act. Supplementary Regulation 59, however, does not permit new producers of muriate of potash to establish ceiling prices higher than those set forth in that supplementary regulation, and in that sense denies to new producers of muriate of potash a privilege which producers of other commodities have under the adjustment regulations. In the opinion of the Director this difference in treatment should

be eliminated. This amendment, therefore, removes new producers of muriate of potash from the scope of Supplementary Regulation 59 and permits such producers to establish their ceiling prices in the same manner as producers of other commodities subject to the General Ceiling Price Regulation.

In view of the corrective nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISION

Supplementary Regulation 59 is amended by deleting therefrom the second sentence of section 1 and the second sentence of section 2.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Supplementary Regulation 59 to the General Ceiling Price Regulation is effective July 30, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 25, 1952.

[F. R. Doc. 52-8316; Filed, July 25, 1952; 4:00 p. m.]

[Ceiling Price Regulation 161]

CPR 161—CONSUMER DURABLE GOODS REGULATION

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 161 is hereby issued.

STATEMENT OF CONSIDERATIONS

This is a regulation for consumer durable goods.

After September 24, 1952, the ceiling prices of all new commodities listed in Appendix A must be determined under this regulation. For such commodities this regulation replaces the new-commodity sections of Ceiling Price Regulation 22 and of the General Ceiling Price Regulation. The ceiling prices of base-period commodities are not affected by this regulation. Unaffected also are the ceiling prices of new commodities determined before the effective date of this regulation.

This regulation is issued to make price control simpler for manufacturers, and particularly for small manufacturers.

A year's experience has revealed a considerable number of deficiencies in the new-commodity sections of CPR 22 when applied to the consumer durable goods field. Dissatisfaction has been expressed on numerous occasions by individual manufacturers as well as by industry advisory committees. Prompted by these criticisms the businessmen, economists and lawyers of the Consumer Goods Division have made a thorough study of the problems involved in determining ceiling prices for new commodities. A large number of changes in the existing new-commodity sections were suggested by this study. Rather than make a revision within the framework of CPR 22, it was decided to issue an independent new-commodity regulation for consumer durable goods, since many of the problems which the revision aims to solve are peculiar to the consumer durable goods field.

The basic technique used by this regulation is comparison pricing. The ceiling prices of new commodities are established by reference to the ceiling prices of "comparison commodities." The regulation is organized in terms of the degree of similarity between the new commodity and the comparison commodity. Section 3 applies where a new commodity differs only in minor respects from a commodity currently in the manufacturer's line. A new commodity which represents more than a minor change, but which is still comparable to other commodities made by the same manufacturer, falls under section 4. Section 5 covers a commodity so different from anything currently made by the same manufacturer that a competitor's commodity should be chosen for comparison purposes. Where the new commodity is so different from anything else on the market that no comparison commodity can be found, section 6, or section 7 must be used—section 6 where the net sales of the new commodity are likely to exceed $5,000 per month, section 7 where the net sales are unlikely to reach that figure. Special provision for custom-made commodities is made in section 8.

The difference between this regulation and the new-commodity sections of CPR 22 can best be brought out in a section-by-section discussion of this regulation. It is deemed advisable to highlight these differences in considerable detail because of the familiarity with CPR 22 of the manufacturers of consumer durable goods. The easiest way for them to become familiar with this regulation is to see it against the background of CPR 22.

SECTION 3—MINOR CHANGES

Section 3 represents a revision of section 30, the minor-change section of CPR 22. Section 30 was a very limited section. It provided, merely, that the ceiling price of a new commodity which differed only in minor respects from a commodity for which a ceiling price had already been established, should be the same as the ceiling price of the previous commodity. The section was not supposed to be used where the minor change reduced unit manufacturing costs. No report was required.

For consumer durable goods, section 30 operated very unsatisfactorily. One of the difficulties was that "minor change" was not defined. Therefore, the coverage of section 30—where it ended and where section 32 began—was often impossible to determine. Since section 30 ceiling prices went unreported, the dangers of abuse were considerable. The checks on the operation of section 30 which have been made, indicate that abuse has, in fact, been frequent. For example, the prohibition against the use of section 30 where the cost of the new commodity was lower seems often to have been ignored. As a result the section has become a loophole for deterioration in quality.

The new section 3 sets precise limits to what may be considered a minor change. Within these limits section 3 can be used where the "minor change" results in a cost reduction as well as where it produces an increase. Furthermore, the manufacturer is no longer limited to the same ceiling price. The ceiling price of the new commodity is calculated by adding to or subtracting from the ceiling price of the comparison commodity the difference in current unit direct cost resulting from the minor change.

A commodity whose ceiling price has been calculated under this section may not be used as a comparison commodity in making subsequent calculations under this section. The reason for this is that the ceiling price calculation reflects only labor and materials cost changes. It does not take markup into account. Therefore, a certain element of distortion is involved. If repeated minor changes could all be priced under this section, the element of distortion would be multiplied to a point where the ceiling price level would be completely unsatisfactory.

SECTION 4—ADDITIONS TO AN ESTABLISHED LINE

Section 4 of this regulation takes the place of section 32 of Ceiling Price Regulation 22. It is likely to be the most widely used section of this regulation since it applies to all new commodities which are similar to commodities currently made by the same manufacturer, excepting only minor changes.

The method of determining ceiling prices under this section is the same as that of section 32 in that the markup over current unit direct cost of comparison commodities is applied to the current unit direct cost of the new commodity. However, a very basic change has been made by eliminating a limitation on the choice of comparison commodities upon which section 32 insisted. Under section 32 the comparison commodity must have been produced and sold during the base period. The new section 4 permits the use of comparison commodities which were introduced after the base period—commodities whose ceiling prices were determined under the new commodity sections of CPR 22, of the GCPR, or under this regulation. The need for this change has become steadily more obvious as the time interval since the base period has lengthened. Base-period commodities are becoming scarcer. Information about them is ever more difficult to obtain, and therefore of diminishing reliability. In industries where new lines are brought out two or more times a year, the requirement that ceiling prices for new commodities be determined by reference to ceilings for commodities that have been changed three, four and even five times has produced very great difficulties. Of all the changes made by this regulation, permission to use commodities introduced after the base period for comparison purposes was the one most warmly endorsed by a specially convened advisory group of manufacturers of consumer durable goods.

This change will not only make comparison pricing simpler, it will also materially increase the scope of this section and correspondingly restrict the need for the sections requiring the use of competitor's prices or of letter orders. Under CPR 22, the ceiling prices for new commodities in a category not dealt in during the base period had to be established by reference to competitors' prices or by letter order. Resort to competitors' prices or to letter orders was required not merely for the first commodity in the new line, but for every additional commodity brought out subsequently, since a commodity brought out after the base period could never be used for comparison purposes. Under this regulation, as soon as the manufacturer has a ceiling price for one commodity, the ceiling price for all similar commodities can be established under this section.

Because a ceiling price calculated under this section becomes the basis for future ceiling price calculations it is obviously very important that it be calculated accurately. To provide the greater accuracy which is now required, the new section 4 uses a method of calculation slightly different from that of section 32. Under that section the manufacturer applied to the cost of the new commodity the markup over cost of the commodity "most nearly like" the new commodity. Under the new section 4 the average markup over cost of two comparison commodities is added to the cost of the new commodity. As his comparison commodities the manufacturer must choose the commodity whose cost is immediately higher and the commodity whose cost is immediately lower than that of the new commodity. The new method of calculation is an improvement over the section 32 method in two essential respects. First, averaging the markup of a higher-cost and a lower-cost commodity will produce a more accurate ceiling price than can be obtained by the use of only a single comparison commodity. Second, the method of selecting comparison commodities is more objective, and therefore, more precise and less open to abuse.

The coverage of section 4 is slightly different from that of section 32. Under the latter section the test was whether a comparison commodity could be found in the same category. This produced some difficulties since a category frequently included so diverse a range of commodities that it was impossible to make meaningful comparisons. Freak situations turned up such as the comparison of an eggbeater with a mop—both belonging in the category "housewares." Under section 4 the comparison commodities must, wherever possible, be selected from the same product line. Only if there are no other commodities in the same product line may a comparison commodity be chosen from another product line. Strict standards are set up for selecting comparison commodities which are not in the same product line as the new commodity. The comparison commodities must be sufficiently similar to the new commodity in terms of the materials used, the methods of production and of distribution so that a meaningful comparison can be made.

SECTION 5—CEILING PRICES ESTABLISHED BY REFERENCE TO COMPETITORS' COMMODITIES

Section 5 of this regulation represents a revision of section 33 of CPR 22. Both sections cover the situation where a ceiling price for a new commodity must be established by reference to a competitor's ceiling price. Section 33 required that the competitor's commodity be substantially similar to the new commodity; the new commodity had to take the same ceiling price as the competitor's commodity.

The new section 5 represents a considerable amplification of section 33. A great many problems were left unresolved by section 33 in the consumer durable goods field. This resulted in considerable uncertainty. Section 5 clears up these uncertainties. Spelled out in considerable detail is the method of choosing a comparison commodity. Standards of similarity are set up which will insure the choice of a commodity whose price level will be appropriate for comparison purposes. Such problems as differentials between classes of purchasers and terms and conditions of sale are also resolved explicitly.

Two substantive changes have been made. The new commodity is no longer required to take the identical ceiling price as the competitor's commodity. Where the new commodity does not meet the same quality standards as the competitor's commodity, a ceiling price will be established under this section sufficiently below the competitor's to reflect the difference between the two commodities. This change is designed to provide greater flexibility in the use of this section, and by that means to reduce the need for issuing letter orders. It was possible to use section 33 only where the new commodity was so similar to the competitor's as to be fairly entitled to the identical ceiling price. Several cases arose where manufacturers were willing to take lower ceiling prices. However, Section 33 did not permit this. As a result, in cases where a new commodity was not entitled to the same ceiling price as the competitor's commodity, a letter order had to be issued.

The second substantive change provides for the situation where a manufacturer does not know his competitor's ceiling price. Very frequently he may know the competitor's *selling* price. If he does, he may establish a ceiling price for his new commodity by reference to that selling price. Provision is made for raising such a ceiling price if it turns out that the competitor was selling below his ceiling.

SECTION 6—LETTER ORDERS

Sections 6 and 7 of this regulation cover new commodities which are so different from anything else on the market that none of the preceding sections can be used. Under CPR 22 such commodities came under section 34. That section provided that OPS would, upon application by the manufacturer, establish a ceiling price by letter order. Section 6 of this regulation makes similar provision for the establishment of ceiling prices by letter order.

There are a number of innovations. In addition to the standard letter order, section 6 gives OPS authority to grant interim letter orders. Such orders will be limited as to time: ninety days, and as to sales volume: $10,000. Interim orders will be issued where a manufacturer is unable to supply cost estimates based on production experience. They are necessary in order to permit a manufacturer to test his market with experimental models, or the production of a trial run, before regular production commences.

Another innovation in section 6 is the authority to establish formula methods for calculating ceiling prices. It is expected that this authority will be used only in very rare instances, where a manufacturer can prove conclusively that the other methods of this regulation are unworkable in his case.

SECTION 7—SUSPENDED CONTROLS FOR UNIMPORTANT COMMODITIES

The aim of section 7 is to suspend controls from commodities whose effect on the cost of living is certain to be negligible. The section applies to commodities whose net sales are not likely to exceed $5,000 per month and which would otherwise be under section 6. The purpose behind this suspension is to make it easier for manufacturers to experiment with new ideas and to remove from OPS a burden which has been totally out of proportion to its economic significance. A survey of the letter orders issued for consumer durable goods revealed that over half were concerned with gadgets and devices of the "Rube Goldberg" variety. Under section 7 the manufacturer merely sends OPS a description of his new commodity. Nothing further is required if OPS agrees that the commodity is different from anything else on the market and that its net sales are not likely to exceed $5,000 per month. If, in the opinion of OPS, the new commodity is likely to affect the cost of living, a ceiling price will be established under section 6. Similarly, if monthly sales ever exceed $5,000 per month, the manufacturer must apply for a ceiling price under section 6.

SECTION 8—CUSTOM-MADE COMMODITIES

Section 8 of this regulation applies to custom-made commodities. Where these were priced by formula in the base period the manufacturer may apply under this section for authorization to calculate his ceiling prices by formula. The section applies only to commodities specially designed for a single purchaser who is the ultimate user of that commodity. It does not apply to commodities purchased for resale, either in the same form, or incorporated in another commodity.

The need for special treatment for custom manufacturers has long been evident. In custom manufacture each item produced, generally, is a new com-

modity for which a new ceiling price has to be calculated. Custom manufacturers are mostly small enterprises and have traditionally established their prices by individual formulas. They have had considerable difficulty using the new-commodity sections of the GCPR and of CPR 22, and would not be very much better off under sections 3 to 7 of this regulation. It is clearly desirable to provide them with methods for calculating ceiling prices suited to their individual circumstances.

The limitations placed on a formula method of determining ceiling prices are designed to restrict it to a group that has genuine difficulty complying with any other price control techniques.

No specific directions are set out in section 8. The diversity in the types of custom commodities covered by this section is too great to make generalizations meaningful. Each application for a formula will have to be handled on an individual basis. The only rule laid down is that the level of ceiling prices produced by the formula may be no higher than that produced by the sections of this regulation which the manufacturer would be obliged to use if he did not have an individual formula.

REPORTING REQUIREMENTS

One of the most pervasive and difficult problems regarding new commodities is that of reporting requirements. The policy underlying this regulation has been to reduce the reporting burden imposed on manufacturers to a minimum. However, the need for accuracy in the calculation of ceiling prices is far greater under this regulation than it was in the new-commodity sections of CPR 22, since a ceiling price calculated under this regulation may be used for comparison purposes in later ceiling price calculations. Thus, undetected errors would propagate themselves. Nevertheless, the reporting burden has been reduced materially. Where it has not been possible to eliminate reports, the method of reporting has been simplified and streamlined. A printed form, with clear instructions, has been prepared for every report and application required by this regulation. These forms should make it easier for a manufacturer to supply OPS with the required information, since they make it far clearer what OPS wants to know. Forms can be processed far more rapidly than information submitted in any other manner. The number of cases where approval of ceiling prices has to be delayed by supplemental correspondence required to correct incomplete filings should be reduced materially.

For the three sections where the manufacturer calculates ceiling prices himself, sections 3, 4, and 5, no report is reqired except on commodities whose net sales are expected to exceed $25,000. This limitation will materially lighten the reporting burdens, particularly for small manufacturers. Under CPR 22 there was only a $10,000 limitation and it applied merely to section 32 calculations.

For the letter-order section, section 6, an application is required since that is the only way OPS can obtain the information needed to establish a ceiling price. However, the suspension of controls on unimportant commodities, provided by section 7, does away with applications and letter orders in over half of the cases for which they would have been required under CPR 22. Section 8 makes the calculating and reporting of ceiling prices far less burdensome for manufacturers of custom-made commodities. After their application for a formula is approved, they are freed from all further reporting obligations.

In one place the reporting requirements have been increased. Section 30 of CPR 22 did not require a report; the minor-change section of this regulation, section 3, requires one. There are two reasons for this. First, a number of substantive changes have been made which make the new section a much more important section than section 30. These changes have been described previously. Secondly, the absence of a report for section 30 was one of the major flaws of CPR 22 in the consumer durable goods field. Practically speaking, it is impossible to draft new-commodity sections which will not, to some extent, overlap. While the boundary line between sections 3 and 4 of this regulation is considerably clearer than that between sections 30 and 32 of CPR 22, some degree of overlapping is still unavoidable. Manifestly, the control provided by the reporting provisions of one section will be under-cut if another section can be used instead, and its use remains unreported.

For all commodities where a report is required no ceiling price is legally established until after the provisions relating to the report have been observed. Section 411 of the Defense Production Act—which provides that no person shall be required to furnish a report respecting sales at prices which are below ceiling if he certifies that he is selling at such prices—does not apply to reports which are needed in order to establish a ceiling price. Clearly a person cannot certify that he is selling below his ceiling price until a ceiling price is legally established.

SMALL MANUFACTURERS

Before the issuance of this regulation, certain small manufacturers of consumer durable goods had the option to remain under the GCPR. If they so elected, they established the ceiling prices for their new commodities under sections 4, 6 and 7 of the GCPR, which correspond to sections 32, 33 and 34 of CPR 22. From September 24, 1952, on, such manufacturers, too, are required to determine the ceiling prices of their new commodities under this regulation.

Placing these small manufacturers under this regulation will not increase their reporting burden. The $25,000 limitation should serve to excuse reports on practically all new commodities introduced by them, while the $5,000 per month limitation on letter order applications should materially lessen their paper work.

All manufacturers whose net sales in the preceding fiscal year did not exceed $250,000 must file their reports in the nearest district office, rather than in Washington. This applies regardless of whether their base-period ceiling prices were determined under the GCPR or under CPR 22. One reason for having the reports of small manufacturers processed in the district offices is to conform with the Congressional mandate to make price control easier for them. The district offices, located in or near virtually all manufacturing centers, can offer small manufacturers more direct help than the national office. Any difficulties can be more quickly straightened out by personal interviews and by telephone and will not require correspondence with Washington. Furthermore, the work load will be more evenly distributed within OPS with speedier action resulting.

FURTHER ACTION AFFECTING CONSUMER DURABLE GOODS

This is the first OPS regulation which applies specifically to consumer durable goods. It is expected that other problems may arise in the future affecting these commodities. Such problems may be solved by means of supplementary regulations or amendments to this regulation, even though there is no direct relation to new-commodity problems. The reason for this is that manufacturers of consumer durable goods will become familiar with this regulation as an instrument directly affecting them. Therefore, an addition to this regulation will come to their attention far more quickly than an independent regulation.

INDUSTRY CONSULTATION

In the formulation of this regulation there have been extensive consultations with the manufacturers who will have to use this regulation and with trade association representatives. Comments and criticisms from industry representatives were one of the major influences which caused this regulation to be written. As soon as the drafting was under way a special advisory group of consumer durable goods manufacturers was set up. This special group was selected from the membership of various industry advisory committees in the consumer durable goods field. A copy of the first draft of this regulation was sent to each member of the advisory group. A meeting was then held in Washington where the members of the group and officials of the Consumer Goods Division threshed through the regulation section-by-section. After this meeting, the regulation was completely rewritten. The rewritten regulation as well as copies of the five forms which will be used with the regulation, were sent to every member of the special advisory group. The regulation, as well as the reporting forms, have benefited immensely from the criticisms and suggestions of the members of the advisory group. Every section in approximately its final form was endorsed by a majority of the members.

FINDINGS OF THE DIRECTOR

So far as practicable, the Director has given due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant facts of general applicability. In the judgment of the Director, the provisions of this regulation comply with all the applicable requirements with respect to the establishment of ceiling prices set forth in the Defense Production Act of 1950, as amended.

Every effort has been made to conform this regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this regulation may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

Sec
1. What this regulation does.
2. Ceiling prices determined before the effective date of this regulation.
3. Ceiling prices for new commodities which differ only in minor respects from commodities currently in your line.
4. Ceiling prices for new commodities which are similar to commodities currently in your line.
5. Ceiling prices for new commodities which are similar to commodities sold by a competitor.
6. Ceiling prices for new commodities not covered by the preceding sections.
7. New commodities whose net sales are unlikely to exceed $5,000 per month.
8. Custom-made commodities.
9. Modification of proposed ceiling prices by Director of Price Stabilization.
10. Petitions for amendment.
11. Adjustable pricing.
12. Excise, sales or similar taxes.
13. Transfers of business or stock in trade.
14. Record-keeping requirements.
15. Requests for additional information.
16. Interpretations.
17. Prohibitions.
18. Evasions.
19. Definitions.

AUTHORITY: Sections 1 to 19 issued under sec. 704, 64 Stat. as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup., 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This is a regulation for consumer durable goods. On and after September 24, 1952, the ceiling prices for all new commodities listed in Appendix A will be established under this regulation. For such commodities this regulation replaces the new-commodity sections of Ceiling Price Regulation 22 and of the General Ceiling Price Regulation. This regulation does not affect the ceiling prices of commodities sold in the manufacturer's base period, nor the ceiling prices of new commodities which were determined before the effective date of this regulation.

The basic technique used by this regulation is comparison pricing. The ceiling prices for new commodities are established by reference to the ceiling prices of "comparison commodities." The regulation is organized in terms of the degree of similarity between the new commodity and the comparison commodity. Section 3 applies where a new commodity differs only in minor respects from a commodity currently in the manufacturer's line. A new commodity which represents more than a minor change, but which is still comparable to other commodities made by the same manufacturer falls under section 4. Section 5 covers a commodity so different from anything currently made by the same manufacturer that a competitor's commodity must be chosen for comparison purposes. Where the new commodity is so different from anything else on the market that no comparison commodity can be found, section 6 or section 7 must be used—section 6 where the net sales of the new commodity are likely to exceed $5,000 per month, section 7 where the net sales are unlikely to reach that figure. Special provision for custom-made commodities is made in section 8.

For certain commodities a report is required in order to establish a ceiling price. Whenever such a requirement is in effect no ceiling price is legally established until after the provisions relating to the report have been observed.

This regulation covers manufacturers located in the United States or in the District of Columbia. It does not cover manufacturers located in the territories and possessions of the United States.

SEC. 2. *Ceiling prices determined before the effective date of this regulation.* All ceiling prices which were determined before the effective date of this regulation, remain in effect. This includes the ceiling prices of all commodities manufactured in the base period as well as the ceiling prices of commodities introduced between the end of the manfacturer's base period and the effective date of this regulation.

SEC. 3. *Ceiling prices for new commodities which differ only in minor respects from commodities currently in your line.* (a) You must use this section to establish a ceiling price for a new commodity which differs only in minor respects from a commodity currently in your line which has a ceiling price. The latter commodity is hereafter referred to as the "comparison commodity." The new commodity may be either a replacement, being substituted for the comparison commodity, or an addition to your line. It may differ from the comparison commodity only because of minor changes in materials, design or construction which do not reduce serviceability. These minor changes may not result in a difference in current unit direct cost exceeding the following limits: ten per cent of the current unit direct cost of the comparison commodity where that cost is less than $5.00; $.50 where the current unit direct cost of the comparison commodity is between $5 and $10; five per cent of the current unit direct cost of the comparison commodity where that cost is more than $10. In case the cost difference between the new commodity and comparison commodity exceeds these limits, you must use section 4. Even though the difference in current unit direct cost is within the prescribed limits, you must use section 4 if the change in materials, design or construction is not a minor one.

(b) You determine your ceiling price for the new commodity by adding to, or subtracting from, the ceiling price of the comparison commodity to its largest buying class of purchaser the dollar-and-cent difference in current unit direct cost between the two commodities. With your ceiling price for the new commodity you must use the same terms and conditions of sale which you use with your comparison commodity. For sales of the new commodity to different classes of purchasers, you must apply the same percentage differentials between classes of purchasers which you apply on your comparison commodity.

(c) Your comparison commodity need not have been dealt in during your base period. It may be a commodity whose ceiling price was determined under this regulation or under the regulation whose new-commodity provisions you used prior to the issuance of this regulation. However, you may not use a commodity whose ceiling price was determined under this section.

(d) *Reports.* For a commodity whose total sales are expected to exceed $25,000 you must file a report in order to establish a ceiling price. You must use OPS Public Form No. 142, following the instructions which are a part of that form. Your report must be sent by registered mail, return receipt requested, to Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C. However, if the gross sales for your last complete fiscal year of commodities manufactured by you were less than $250,000 you send your report to the OPS District Office for the district in which your principal place of business is located. You may not sell the new commodity until 15 days after receipt of your report by OPS, as shown on the return receipt. Thereafter, you may sell at the reported ceiling price unless and until notified by OPS that your ceiling price has been disapproved.

You need not file a report if total sales of the new commodity are not expected to exceed $25,000. However, you may make no sales of the new commodity which would result in its net sales exceeding $25,000 until after a report has been filed. Even though you need not file a report, you must keep for inspection by OPS the records and worksheets relating to the computation of your ceiling price and to your sales of the new commodity.

SEC. 4. *Ceiling prices for new commodities which are similar to commodities currently in your line.*—(a) *Scope.* You must use the comparison technique of this section to determine the ceiling price of a new commodity for which a ceiling price cannot be determined under section 3, but which is similar to commodities currently in your line which have ceiling prices. You determine the ceiling price of the new commodity by applying to its current unit direct cost the average markup over current unit direct cost of two comparison commodities. The way in which you do this is described in the next paragraph.

(b) *Method of calculation.* (1) Find the current unit direct cost of the new commodity.

(2) Select two comparison commodities from the product line in which the new commodity falls. You must choose the commodity whose current unit direct

cost is immediately higher, and the commodity whose current unit direct cost is immediately lower than that of the new commodity. The comparison commodities need not have been dealt in during your base period. They may be commodities whose ceiling prices were determined under this regulation or under the regulation whose new-commodity provisions you used prior to the effective date of this regulation. However, both comparison commodities must have been in regular production and must have been sold in substantial quantities during the preceding twelve months.

If the new commodity falls in a product line in which you are not currently dealing, you may select two comparison commodities from a different product line. To be acceptable these comparison commodities must be similar to the new commodity in the following three respects:

(i) They must not differ appreciably in the type, quantity and quality of the materials used.

(ii) They must be made by substantially the same method of production.

(iii) They must be sold through the same channels of distribution to the same classes of purchasers.

(If you are unable to find two comparison commodities see the note at the end of this paragraph.)

(3) Add the ceiling prices of the two comparison commodities. You must use the ceiling price to the largest buying class of purchaser to which both comparison commodities are sold.

(4) Add the current unit direct cost of the two comparison commodities.

(5) Divide the result in (3) by the result in (4). This is your markup factor for the new commodity.

(6) Multiply the current unit direct cost of the new commodity as found in (1), by the markup factor found in (5). This gives you the ceiling price for the new commodity.

This is your ceiling price to the same class of purchaser to which the comparison commodities' ceiling prices, used in (3), are applicable. For sales of the new commodity to different classes of purchasers you must apply the same differentials between classes of purchasers which you apply on your comparison commodities. With your ceiling price for the new commodity you must use the same terms and conditions of sale which you use with your comparison commodities.

Example: Calculation of Ceiling Price for a New Commodity with a Current Unit Direct Cost of $10.00.

COMPARISON COMMODITIES

	Ceiling Price	Current Unit Direct Cost
Lower-cost commodity	12.00	8.00
Higher-cost commodity	21.00	12.00
	33.00	20.00

MARKUP FACTOR

$$\frac{33.00}{20.00}=165\%$$

CEILING PRICE FOR NEW COMMODITY

Current unit direct cost	$10.00
Markup Factor	×165%
Ceiling Price	$16.50

NOTE: If you are unable to find two comparison commodities either within or outside the same product line, you must calculate the ceiling price for the new commodity using only a single comparison commodity. The following changes in the method of calculation will be required: You omit steps (3) and (4). The markup factor, step (5), is obtained by dividing the ceiling price of the single comparison commodity by its current unit direct cost. Step (6) can be performed as indicated.

(c) *Reports.* For a commodity whose total sales are expected to exceed $25,000 you must file a report in order to establish a ceiling price. You must use OPS Public Form No. 143, following the instructions which are a part of that form. Your report must be sent by registered mail, return receipt requested, to Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C. However, if the gross sales for your last complete fiscal year of commodities manufactured by you were less than $250,000, you send your report to the OPS District Office for the district in which your principal place of business is located. You may not sell the new commodity until 15 days after receipt of your report by OPS, as shown on the return receipt. Thereafter, you may sell at the reported ceiling price unless and until notified by OPS that your ceiling price has been disapproved.

You need not file a report if total sales of the new commodity are not expected to exceed $25,000. However, you may make no sales of the new commodity which would result in its net sales exceeding $25,000 until after a report has been filed. Even though you need not file a report, you must keep for inspection by OPS the records and worksheets relating to the computation of your ceiling price and to your sales of the new commodity.

SEC. 5. *Ceiling prices for new commodities which are similar to commodities sold by a competitor*—(a) *Scope.* You must use this section to establish a ceiling price for a new commodity for which you cannot determine a ceiling price under sections 3 or 4, because it is unlike any commodity currently sold by you, but which is similar to a commodity sold by a competitor. You use the competitor's commodity as a comparison commodity and establish a ceiling price for your commodity by reference to the competitor's price. To be able to use this section you must know your competitor's ceiling or selling prices to the classes of purchaser to which you intend to sell and the differences between his commodity and yours. If no competitor sells a similar commodity or if you do not have the necessary information regarding your competitor's commodity, you cannot use this section. You must then apply under section 6 and OPS will establish a ceiling price for your new commodity by letter order.

(b) *Comparison commodities.* You must choose as your comparison commodity the most similar commodity currently sold by a competitor. If several competitors sell substantially similar commodities, you must select as your comparison commodity the one sold by your most direct competitor. (The competitor who covers most completely the territory in which you intend to sell is your most direct competitor.)

To be acceptable as a comparison commodity the competitor's commodity must be similar to your new commodity in the following four respects:

(1) It must not differ appreciably in the type, quantity and quality of the materials used.

(2) It must be made by substantially the same method of production.

(3) It must be sold to the same classes of purchasers.

(4) It must serve the same function.

(c) *Ceiling prices.* (1) You establish the ceiling price for your new commodity by reference to your competitor's ceiling price for the comparison commodity. The ceiling price for your new commodity may be no higher than your competitor's ceiling price for the comparison commodity. If your commodity does not meet the same standards of quality and serviceability as the comparison commodity, you must establish a ceiling price for your commodity sufficiently lower than the ceiling price of the comparison commodity to reflect the differences between the two.

(2) If you do not know your competitor's *ceiling* price for the comparison commodity, but you do know his *selling* price, you may establish your ceiling price by reference to that selling price. If subsequent to the date when you established your ceiling price, you learn that your competitor's ceiling price is higher than the selling price on the basis of which you established your ceiling price, you may increase your ceiling price proportionately. Before selling at a price higher than the ceiling price you initially calculated, you must file the supplementary report described in paragraph (d) (2), unless net sales of the new commodity are not expected to exceed $25,000.

The ceiling price which you establish under this section applies to the same class of purchaser to which the ceiling price of the comparison commodity applies. For sales to different classes of purchasers you must use the same differentials between classes which your competitor uses for sales of the comparison commodity. If you do not know your competitor's price for a class to which you intend to sell, you must apply under section 6 and OPS will establish a ceiling price for you by letter order.

You may use either your competitor's terms and conditions of sale or the terms and conditions which you customarily use for sales of the most similar commodities currently in your line. However, the use of terms and conditions of sale differing from those used by your competitor may not result in a cost to the purchaser higher than what he would be required to pay if you used your competitor's terms and conditions; i. e., you may use terms and conditions more favorable to the purchaser than those used by your competitor, but you may not use terms and conditions less favorable to the purchaser.

(d) *Reports*—(1) *Regular report.* For a commodity whose total sales are expected to exceed $25,000 you must file a report in order to establish a ceiling price. You must use OPS Public Form No. 144, following the instructions which are a part of that form. Your report must be sent by registered mail, return receipt requested, to Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C. However, if the gross sales for your last complete fiscal year of commodities manufactured by you were less than $250,000, you send your report to the OPS District Office for the district in which your principal place of business is located. (If you are a new seller who has not yet completed a fiscal year, you must file in the district office if you do not expect the gross sales of commodities manufactured by you to reach $250,000 during your first complete fiscal year.) You may not sell the new commodity until 15 days after receipt of your report by OPS, as shown on the return receipt. Thereafter, you may sell at the reported ceiling price unless and until notified by OPS that your ceiling price has been disapproved.

You need not file a report if total sales of the new commodity are not expected to exceed $25,000. However, you may make no sales of the new commodity which would result in its net sales exceeding $25,000 until after a report has been filed. Even though you need not file a report, you must keep for inspection by OPS the records and worksheets relating to the computation of your ceiling price and to your sales of the new commodity.

(2) *Supplementary Report.* If you established your ceiling price upon the basis of your competitor's *selling* price and you want to increase your ceiling price as provided in paragraph (c) (2), you must file a supplementary report. The supplementary report must be sent by registered mail to the OPS office to which your regular report was sent. Your report must include the following information: the trade designation of the commodity; the date on which you filed your original report; the ceiling price originally established; the new ceiling price; the name and address of your competitor; the competitor's selling price on the basis of which you calculated your ceiling price; the competitor's price, selling or ceiling, on the basis of which your new ceiling price is calculated. If you did not file a report on your initial calculation because you did not expect sales to exceed $25,000, you need not file a supplementary report, unless you now expect sales to exceed $25,000.

SEC. 6. *Ceiling prices for new commodities not covered by the preceding sections*—(a) *Generally.* You cannot use the preceding section for a new commodity which is entirely unlike any commodity sold by you or by any of your competitors. If the net sales of the new commodity are likely to exceed $5,000 per calendar month, you must apply under this section and OPS will issue a letter order establishing a ceiling price. If the net sales of the new commodity are not likely to exceed $5,000 per calendar month, you use section 7 which provides for suspension of controls on such commodities.

(b) *Letter orders.* If you are unable to calculate a ceiling price under section 3, 4 or 5 for a new commodity whose net sales are likely to exceed $5,000 per month, you must apply to OPS for the establishment of a ceiling price. The ceiling price established under this section must be in line with the general level of ceiling prices established under this regulation.

Your application must be filed on OPS Public Form No. 145, following the instructions which are a part of that form. Your report must be sent to Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C. However, if the gross sales for your last complete fiscal year of commodities manufactured by you were less than $250,000, you send your report to the OPS District Office for the district in which your principal place of business is located. (If you are a new seller who has not yet completed a fiscal year, you must file in the district office if you do not expect the gross sales of commodities manufactured by you to reach $250,000 during your first complete fiscal year.) You may not sell the new commodity until OPS issues an order establishing a ceiling price, or a formula for calculating ceiling prices.

In appropriate instances OPS may establish a formula for calculating ceiling prices, rather than an individual ceiling price. This will be done only where there was an industry-wide practice of pricing by formula between July 1, 1949, and June 30, 1950, and where, in the judgment of the Director of Price Stabilization, use of any other method produces a severe hardship.

(c) *Temporary ceiling prices.* If, at the time you file your application for a ceiling price for a new commodity, you are unable to provide cost estimates based on production experience, OPS may issue a letter order establishing a temporary ceiling price for you. Such an order will be subject to the following two limitations: It will terminate 90 days after issuance; total net sales while it is in effect may not exceed $10,000. If either of these limitations is unduly restrictive in your case, you may propose different limitations. Your application must include an explanation why the limitations established by the regulation are too restrictive for you, as well as a justification for the limitations which you propose.

When selling the commodity at a temporary ceiling price, you must inform the purchaser that the ceiling price is a temporary one. Provided this notice is given a sale made at the temporary ceiling price is final, unless the contract of sale specifically provides otherwise.

OPS will issue a letter order without time or sales volume limitation as soon as you are able to provide cost estimates based on production experience.

(d) *Sales to a new class of purchaser.* Where you are planning to sell a commodity to a class of purchaser for which you do not have an established price differential, you must apply under this section. Your application must include the price differentials you propose to use and your reasons for proposing them.

The application must be sent to the Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C. OPS will then issue an order establishing appropriate differentials.

SEC. 7. *New commodities whose net sales are unlikely to exceed $5,000 per month.* (a) This section applies to a new commodity whose net sales are *not* likely to exceed $5,000 per calendar month and which is not covered under section 3, 4 or 5 because it is entirely unlike any commodity sold by you or by any of your competitors. You need not calculate a ceiling price for such a commodity until its net sales volume exceeds $5,000 during any calendar month, unless OPS specifically requires you to do so.

(b) Before selling the commodity you must send a report by registered mail, return receipt requested, to Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C. Your report must contain the following information: the trade name of the commodity; a picture, diagram or sample and any additional information which may be necessary for adequate identification and description; the price at which you propose to sell the commodity to each of the classes of purchasers to which you propose to sell it. You may sell the commodity fifteen days after receipt of your report by OPS, as shown on the return receipt. However, if, in the opinion of OPS, the commodity is likely to affect the cost of living, you will be required to file an application for a ceiling price under section 6.

(c) If, during any calendar month, the net sales of the commodity exceed $5,000 you must file an application for a ceiling price under section 6 not more than ten days following the end of the month.

(d) Adequate records must be kept of all sales of the new commodity for inspection by OPS.

SEC. 8. *Custom-made commodities.* (a) Under this section you may apply to OPS for the establishment of a formula for calculating the ceiling price of a custom-made commodity which by customary industry practice was priced by formula between July 1, 1949 and June 30, 1950. A custom-made commodity is one specially designed for a single purchaser who is the ultimate user of that commodity and is not purchasing it for resale either in the same form or incorporated in another commodity. The custom-made commodity must differ in more than minor respects from a stock commodity.

(b) Your application must be filed on OPS Public Form No. 146, following the instructions which are a part of that form. Your report must be sent by registered mail to Consumer Goods Division, Office of Price Stabilization, Washington 25, D. C.

(c) Your proposed formula will be approved only if you can prove to the satisfaction of OPS that the level of ceiling prices calculated under it will be no higher than the level of ceiling prices produced by the section of this regulation which would otherwise be applicable, i. e.,

section 3, 4 or 5. You may not use the proposed formula until OPS issues an order authorizing you to do so. The order will specify the commodities or product lines for which the formula is to be used. For these commodities you must use that formula instead of the preceding sections of this regulation.

(d) There are two limitations on the use of the formula: (1) The formula may be used only where you sell one or two individual units of the commodity, or a group or set of individual commodities which are so closely related as to be considered a single unit or installation. It may not be used where you sell three or more separate units even though they are all sold to the same purchaser. Ceiling prices for such multi-unit sales must be calculated under the methods of the preceding sections of this regulation. (2) You may not use the formula for more than one repeat order. The ceiling price for all additional repeat orders must be calculated under the preceding sections of this regulation. In making that calculation you may not use the ceiling price calculated under your formula as a comparison commodity ceiling price under section 3 or 4.

(e) If either of these limitations is unduly restrictive in your case, you may propose different limitations. Your application must include an explanation why the limitations established by the regulation are too restrictive for you, as well as a justification for the limitations which you propose.

SEC. 9. *Modification of proposed ceiling prices by Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices reported or proposed under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 10. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1, Rev. 2.

SEC. 11. *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 12. *Excise, sales or similar taxes.* (a) Where the tax is included in your selling price.

(1) If the ceiling price for a comparison commodity used under any section of this regulation includes an excise, sales or similar tax, you must exclude the appropriate amount of such tax before making the computations necessary to establish a ceiling price for the new commodity. After completing your computations you may then add the appropriate amount of such tax for inclusion in your ceiling price for the new commodity.

(2) If subsequent to the establishment of ceiling prices which include an excise, sales or similar tax, the amount of such tax is reduced or eliminated, you must recompute and reduce your ceiling prices to reflect the appropriate reduction or elimination of such a tax. Where subsequent to the establishment of ceiling prices such a tax is increased or a similar tax is first imposed, you may recompute and adjust your ceiling prices to reflect the appropriate addition of the new tax.

(b) *Where the tax is separately stated and collected.* If your base-period practice was to state and collect any excise, sales or similar tax separately from your selling price, you may, in addition to the ceiling price determined under this regulation, collect the amount of any such tax paid by you. Where subsequent to the establishment of your ceiling price such a tax is increased or a similar tax first imposed, you may, in addition to your ceiling price, if not prohibited by the tax law, collect the amount of such increase or new tax as is actually paid by you. In all such cases the amount of the tax must be separately stated. A tax once stated separately from your ceiling price may not thereafter be included in your ceiling price under this regulation.

SEC. 13. *Transfers of business or stock in trade.* If any business, or the assets, or stock in trade of any business, are sold, or otherwise transferred, after the issue date of this regulation, and the transferee carries on the business, or continues to deal in the same type of commodity, in an establishment separate from any other establishment previously owned or operated by him, the ceiling prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over, to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation.

SEC. 14. *Record-keeping requirements.* With respect to any commodity covered by this regulation, you must prepare and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, all records necessary to determine whether you have computed your ceiling prices correctly. You must also preserve for a period of two years all records showing the prices at which sales of the commodities covered by this regulation have been made. Such records shall be available for inspection by OPS.

SEC. 15. *Requests for additional information.* Sections 3 through 8 specify the reports which must be filed in order to obtain ceiling prices. In the event that your report is incomplete or is otherwise inadequate, you may be requested to submit additional information. Such a request for additional information does not operate to prohibit you from selling the commodity, with respect to which the request is made unless such a prohibition is included with the letter of request. However, you must comply with the request for additional information within fifteen days from the date of the request. If you fail to comply within fifteen days you are prohibited from selling the commodity. However, if for any reason, the fifteen-day period is inadequate, you may request OPS to grant you additional time. Unless OPS notifies you that your time has been extended, you must provide the requested information within fifteen days.

SEC. 16. *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your nearest OPS District Office. Any action taken by you in reliance upon and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation No. 1, Rev. 2.

SEC. 17. *Prohibitions.* You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically (but not in limitation of the above), you shall not, regardless of any contract or other obligation, sell, and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling price established by this regulation, and you shall make and preserve true and accurate records and reports, required by this regulation. If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement action, and action for damages.

SEC. 18. *Evasions.* Any device which results in obtaining indirectly a higher price than is permitted by this regulation or in concealing or falsely representing information as to which this regulation requires records to be kept is a violation of this regulation. This prohibition includes, but is not limited to, devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading, tie-in agreements and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 19. *Definitions.* Unless the context otherwise requires, the definitions and explanations in this section shall be controlling.

Base period. Your base period is determined by the regulation which covers the commodities sold by you prior to the effective date of this regulation. For example, if that regulation is CPR 22, then your base period is the period from April 1 through June 24, 1950, or any previous calendar quarter ended not earlier than September 30, 1949, depending upon which period you used in making your CPR 22 calculations. If that regulation is the General Ceiling Price Regulation, then your base period is the period, from December 19, 1950, through January 25, 1951.

Class of purchaser. Class of purchaser is determined in the first instance by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may (but need not) be based on the characteristics or distributive level of the buyer (for instance, manufacturer, wholesaler, individual retail store, retail chain, mail order house, government agency, public institution). It may (but need not) be based on the location of the purchaser, or the quantity purchased by him. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

If in your industry a practice prevails of charging different prices for sales to groups of buyers based on their characteristics or distributive level, any such group to which you did not make sales during your base period and for whom you did not have a customary differential in effect during or before your base period, is a separate class of purchaser as to you.

Commodity. This term includes any item, object, material, article, product or supply.

Current unit direct cost. This is the sum of the direct labor cost and the direct materials cost applicable to a single unit of the commodity. The direct materials cost shall be computed upon the basis of current replacement prices. The direct labor cost shall be computed upon the basis of current wage rates. The method used for computing the current unit direct cost for the new commodity and for the comparison commodity shall be the same in every respect.

Delivered. A commodity shall be deemed to have been delivered if it was received by the purchaser or by any carrier, including a carrier owned or controlled by the seller, for shipment to the purchaser.

Largest buying class of purchaser. This term refers to the class of purchaser of a particular commodity which, during your base period, bought the largest dollar amount of that particular commodity. If the commodity was not sold during the base period, you determine the largest buying class of purchaser on the basis of sales during your most recently completed accounting period. You may have a different "largest buying class of purchaser" for different commodities. Only if no sales of the particular commodity were made to any other class of purchaser can one of the following be the largest buying class of purchaser: the United States or an agency thereof; a foreign purchaser; or a person to whom the only sales made during the period were under a written contract of at least six months' duration entered into prior to January 1, 1950.

Manufacturer. This term applies to you if you:

(1) Sell a commodity on which you have performed one or more operations in its fabrication, processing, finishing or assembling;

(2) Sell a commodity which has been produced to your order from materials or parts owned by you;

(3) Sell a commodity under your own brand or trade name where you own and control tools and dies which are specially designed for that commodity and which require a substantial investment.

You are *not* a manufacturer if you:

(1) Merely package, label, market, promote or sell a commodity without changing its form;

(2) Merely rebuild, recondition, renew or otherwise restore a used commodity;

(3) Merely perform an industrial service on a commodity for the account of others;

(4) Merely assemble a "knocked-down" commodity, all parts of which are obtained from the same source.

Net sales. This term refers to gross sales after trade discounts, less returns and allowances. In the case of sales where the selling price is a delivered price, transportation charges should not be deducted. This term does not include sales of commodities of which you are not the manufacturer.

Product line. This term refers to a group of related commodities which serve the same function, and are made by the same manufacturing process from substantially the same materials.

Records. This term means books or accounts, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

Sell. This term includes sell, supply (with respect to either commodities or services), dispose, barter, exchange, transfer and deliver, and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed accordingly.

You. "You" means the person subject to this regulation. "Your" and "yours" are construed accordingly.

Effective date. The mandatory effective date of this regulation is September 24, 1952. You may, however, elect to make this regulation effective as to you on any date between July 24, 1952, and September 24, 1952. If you elect an earlier effective date, this regulation becomes effective on that date for all your commodities covered by this regulation.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 24, 1952.

APPENDIX A

The following commodities are covered by this regulation as well as all repair parts for these commodities when made by the manufacturer of the finished product:

1. *Appliances, household, electrical and other,* such as but not limited to:
   - Air conditioners, window and console (self-contained).
   - Dehumidifiers.
   - Dishwashers.
   - Floor cleaning and polishing machines.
   - Freezers.
   - Household appliance parts (except when sold by the parts manufacturer to the manufacturer of the completed item).
   - Humidifiers, portable.
   - Laundry washers and driers.
   - Ranges.
   - Refrigerators.
   - Sewing machines and attachments.
   - Vacuum cleaners and attachments.
2. *Automobile seat covers.*
3. *Business equipment and accessories,* such as but not limited to:
   - Accounting machines.
   - Adding machines.
   - Addressing machines, plates and stencils.
   - Artists' supplies (except colors and oils).
   - Bookkeeping machines.
   - Bulletin boards.
   - Calculating machines including electronic computers.
   - Cash registers and devices in which a cash register or a basic mechanism is a component part.
   - Chalk, manufactured: (billiard, bowling, carpenter, etc.).
   - Commercial furniture and equipment: office, store or institutional of the following types:
     - Baskets and carts.
     - Cabinets.
     - Chairs and public seating equipment designed to be permanently attached to floor.
     - Counters, partitions and shelving.
     - Desks.
     - Files.
     - Lockers.
     - Show and display cases (except refrigerated).
     - Tables.
   - Dictating machines.
   - Dispensers: store, office, and restaurant (soap, towel, milk, cream, etc.).
   - Duplicating machines (includes Mimeograph and Multigraph).
   - Fare-registering machines and turnstiles.
   - Fountain pens and desk sets.
   - Measuring devices for yard goods, screens, linoleum, etc.
   - Name plates.
   - Office machines, fixtures, and equipment.
   - Pencils.
   - Restaurant fixtures and equipment.
   - Safes, vault doors, and cash boxes.
   - Scales and balances, store and office.
   - School and office supplies (including carbon paper but no other paper products).
   - Signs (except car, lithographed and printed).
   - Soda fountain and beer dispensing equipment.
   - Stenographic machines.
   - Store machines, fixtures and equipment including store displays and display fixtures.
   - Time clocks.
   - Tool cases, boxes and benches.
   - Typewriters.
   - Vending, amusement, and other coin-operated machines.
   - Water coolers, non-electric.
4. *Cabinets, metal, wood: portable* (radio, television, phonograph, sewing machine, utility and kitchen).
5. *Clocks and watches* (except time clocks and industrial timing devices).
   - Clock cases, containers and guards.
   - Clock type watches.
   - Crystals, watch.
   - Electric clocks.
   - Spring clocks, including alarm, decorative, etc.
   - Timers, clock.
   - Watchcases, containers and guards.
   - Watch and clock parts except jewels, springs and printed dials.
6. *Compasses* (except marine and aircraft).
7. *Ecclesiastical ware* including statuary and church goods (excluding vestments and shoes).
8. *Electric lamp bulbs and tubes:* arc, carbon, fluorescent, gaseous, incandescent, miniature (except auto), therapeutic.
9. *Floor coverings,* except soft surface floor coverings woven from cotton, wool, and rayon.
   - Asphalt tile.
   - Cotton rugs and carpets, tufted.
   - Felt base rugs and yard goods.

Linoleum.
Plastic.
Rug cushions and carpet linings.

10. *Funeral supplies and appurtenances* (except embalming fluids).

11. *Garden and agricultural hand tools and equipment*, such as but not limited to:
Corn and cane knives.
Forks.
Garden hose (except rubber) and attachments (couplings, clamps, and nozzles).
Grass hooks.
Hoes.
Huskers.
Lawnmowers, power and hand.
Lawn rollers.
Lawn sprinklers.
Machetes.
Pruning equipment.
Pushcarts (garden type).
Rakes, garden, hay, and lawn.
Shears, hedge, grass and pruning.
Shovels and spades.
Sickles
Sprayers and dusters of the simple pump type which are hand held and hand operated.

12. *Glassware*, such as but not limited to:
Artware, specialties, and novelties.
Heat resisting kitchen and table glassware.
Hotel, restaurant, bar, and institutional glassware.
Household glassware.
Lamp chimneys and lantern globes except those covered by CPR 30.
Lighting fixture glassware (blown and pressed only).

13. *Hardware items, miscellaneous.*
Batteries, dry cell.
Carbide lamps.
Curry combs.
Flashlights and other portable battery lights and hand lanterns.
Game traps.
Handles (except wood handles).
Hog scrapers.
Hog and bull rings.
Horseshoes and horseshoe nails.
Ladders.
Oilers, hand.
Pumps, tire, manually operated.
Rulers and tapes, non-mechanical.
Saddlery and parachute hardware, including buckles, loops, rings, etc.
Wheelbarrows.

14. *Housewares, miscellaneous*, such as but not limited to:
Asbestos mats.
Ash sifters.
Awnings, textile and metal.
Bath sprays.
Bathroom equipment.
Bathroom fixtures.
Baskets, clothes, picnic, fiber sidings, wood bottom.
Baskets, wastepaper.
Brushes.
Butcher saws.
Can sealers and canning equipment.
Candles (except handmade).
Candlesticks and candelabra.
Carpet sweepers.
Casseroles.
Churns, household.
Cleaning supplies (mops, brooms, etc.) except soaps, detergents, and chemicals.
Closet fixtures.
Clothesline reels.
Clothespins (except wooden).
Clothes wringers, hand operated.
Coasters.
Coffee makers and accessories.
Cooking utensils.
Cutlery.
Dish drainers.
Dishpans and wash basins.
Dust pans.
Drapery hardware.
Egg beaters.
Filters and sprayers, water faucet.
Fireplace equipment.
Fly swatters.
Food choppers and extractors.
Galvanized ware.
Garbage and ash cans.
Garment bags (except paper).
Garment hangers (except paper).
Hampers, bathroom.
Ironing boards.
Juice extractors.
Kitchen stools.
Kitchen tools and gadgets.
Medicine cabinets.
Pails and tubs.
Pantryware.
Pewterware.
Picnic supplies such as jugs and ice chests.
Plastic housewares.
Racks.
Radiator covers and brackets.
Ricers.
Scales: bath, baby.
Scissors and shears.
Scourers, pot.
Screens, decorative, household.
Shelves: window, canister, etc.
Sponges (except rubber and natural).
Steel wool.
Stretchers, curtain, glove, sweater, and trouser.
Telephone accessories.
Thermostats for use on gas and electric cooking ranges.
Tinware.
Tongs.
Trays.
Vacuum bottles and specialties.
Venetian blinds.
Washboards.
Window shades and wind shade rollers.
Window ventilators.
Wire goods.
Wood slat shades.
Woodenware and baskets (except shipping baskets).

15. *Housewares, small electrical*, such as but not limited to:
Bakers.
Blankets, electric.
Broilers.
Buffet servers.
Casseroles.
Chafing dishes.
Coffee makers.
Cookers.
Curling irons.
Deodorizers.
Door chimes.
Fans: portable, pedestal, ceiling, wall mounted and window fans sets, 24 inches dia. and under.
Freezers, ice cream.
Hair driers.
Heaters: space and immersion, portable.
Heating pads.
Hot plates, grills and table stoves (except those using gas as fuel).
Irons, flat.
Kettles.
Mixers and juice extractors.
Ovens, portable.
Percolators.
Pressers, trouser and tie.
Roasters.
Shavers, electric.
Sterilizers.
Toasters.
Vaporizers.
Vibrators.
Waffle irons.
Warmers, bottle and plate.
Washers, portable: apartment size.

16. *Industrial safety equipment*, excepting shoes and scientific instruments covered by CPR 30. This category includes items such as but not limited to:
Canisters, industrial gas mask.
Clothing designed for protection against specific industrial hazards: coats, pants, suits, aprons, sleeves, gloves, and like articles containing (1) metal or mineral insulation or reinforcement (such as asbestos); or (2) fabric or leather specially treated to resist extreme heat, extreme cold or chemical reagents.
Fire extinguishers, hand (except feldspar).
Fire hose, except rubber.
Gloves, sleeves, aprons and like articles made of natural synthetic and substitute rubber which are not covered by or under the jurisdiction of CPR 22, S. R. 8. Work clothes above and work gloves (whether of fabric or leather) without the features enumerated above are excluded.
Goggles, face shield, goggle cases, etc.
Handcuffs, billies, etc.
Helmets, safety hats, etc.
Industrial gas masks.
Protective shields, toe guards, etc.
Respirators.
Safety belts.
Safety lamps.
Tear gas guns and equipment.
Torches, roadside.
Welders' masks.

17. *Jewelry* (gold, platinum, silver, goldplate, goldfilled, silverplate, etc.).

18. *Jewelry, novelty*, such as but not limited to:
Badges.
Belt buckles.
Bracelets.
Collar pins and buttons.
Costume jewelry.
Cuff links.
Earrings.
Fraternal and school jewelry.
Jewelry findings.
Key chains.
Lockets.
Medals.
Necklaces.
Rings.
Tie clasps and chains.
Watch bands, metal.

19. *Kitchen equipment, commercial:* Commercial and institutional kitchen equipment irrespective of the type of fuel used for use in hotels, restaurants, schools, hospitals, industrial and public cafeterias and similar establishments, such as but not limited to:
Bain-maries.
Baker stoves.
Broilers, including salamanders and combination types.
Canopies.
Choppers.
Coffee grinders, coffee urns, and coffee making systems.
Deep fat fryers.
Dishwashers.
Egg boilers.
Glass washers.
Griddles.
Hot plates.
Mixers, mashers, strainers, juice extractors.
Ovens.
Plate warmers.
Potato peelers.
Pot racks.
Pot sinks and vegetable sinks.
Ranges.
Silver burnishers.
Slicing machines.
Steam jacketed kettles.
Steam tables.
Stock kettles, electric.
Toasters.
Vegetable steamers.
Wire baskets.

20. *Luggage*, such as but not limited to:
Brief cases.
Instrument cases.
Sample cases.
Suitcases.
Trunks.

21. *Marine articles* as follows:
All boats and canoes under 25' except those with inboard motors.
Oars and paddles.
Outboard motors, portable.

22. *Meteorological instruments* (for household, office, and advertising use only).
Barometers.
Hygrometers.
Thermometers.

23. *Mirrors and mirror frames.*

24. *Musical instruments, parts and accessories* except piano sounding boards and plates.

25. *Notions and personal accessories* (except cosmetics), such as but not limited to:
Barrettes.
Beads.
Bookends.
Braids, metallic.
Brushes, shoe.
Brushes, toilet.
Buckles.
Button hooks.
Buttons.
Christmas home decorations (except those made of natural vegetable products).
Clasps.
Combs.
Curlers, hair (except wood).
Fasteners, slide and snap.
Files, nail.
Hair goods, including braids, etc. (except hair rolls).
Hair nets.
Hooks and eyes.
Knitting needles and sets.
Manicure sets.
Measuring tapes.
Military buttons.
Military insignia, except fabric.
Music boxes, novelty.
Needles; hand, knitting and crochet.
Pins; safety, straight, hat, bobby, hair.
Razors and razor blades.
Sewing boxes.
Sewing kits.
Sharpeners: scissors, razor blade, etc.
Shoe trees, except wooden.
Specialty display boxes (other than paper) in which individual items of consumer durable goods (such as fountain pens, watches, razors, jewelry, etc.) are customarily packaged and sold.
Thimbles.
Tie racks.
Toilet sets.
Trays, household and decorative.
Vanity cases.

26. *Optical and ophthalmic goods*, such as but not limited to:
Artificial eyes.
Binoculars.
Cases, frames and mounting for eyeglasses, spectacles, sunglasses and goggles.
Contact lenses.
Eyeglasses and spectacle frames and mountings.
Eyeglasses and spectacles.
Field glasses.
Goggles and goggle lenses (except those classified as industrial safety equipment).
Lenses, finished and semi-finished for optical, ophthalmic and scientific use.
Lenses for eyeglasses and spectacles, white and colored.
Loupes.
Magnifying glasses.
Opera glasses.
Ophthalmic chairs, stools, tables, etc.
Ophthalmic diagnostic units.
Optical measuring instruments.
Prisms.
Readers.
Retracting units.
Scientific optical instruments including microscopes and accessories.
Scientific refracting instruments for oculists and optometrists.
Shooting glasses.
Sunglasses and goggles.
Telescopes.

27. *Photographing and photocopying equipment and allied supplies*, such as but not limited to:
Cameras and photographic films, equipment, accessories and materials.
Photocopying (including photostating and micro-filming) machines, apparatus and supplies.
Photoflash bulbs and photoflood lamps.
Photographic equipment carrying cases.
Motion picture cameras, projectors and apparatus, including sound equipment and parts for recording, reproducing, and projecting (for studio, theatre, commercial, and industrial use).

28. *Pictures and picture mounts and frames.*

29. *Plated ware*, miscellaneous.
Chrome plate.
Nickel plate.
Plastic handle flatware.
Stainless steel flatware and chrome plated flatware.
Trophies.

30. *Portable lamps and shades* other than industrial lighting fixtures.

31. *Pottery and chinaware*, such as but not limited to:
Art pottery.
Casseroles.
Dinnerware.
Dishes.
Flower pots.
Garden pottery and stoneware.
Miscellaneous tableware.
Ovenware.
Stoneware.

32. *Professional goods and health supplies equipment and subassemblies* thereof, not including drugs, chemicals and medicines except when packed in and sold as a part of first aid kits; and not including rubber drug sundries covered by CPR 22, S. R. 8. This includes items such as but not limited to:
Anesthesia, oxygen, and respiratory equipment.
Beauty parlor and barber shop furniture, fixtures and equipment.
Chiropody instruments, equipment, and supplies.
Clinical thermometers.
Corrective equipment, including knitted elastic corrective garments, trusses, stump socks, prosthetic devices, foot appliances, supplies and orthopedic braces, abdominal belts, etc.
Crutches.
Dental instruments, equipment, and supplies.
Electro-medical equipment and supplies.
Exercise machines and devices, etc.
First aid kits.
Fracture equipment and supplies.
Hospital and physician examining room and diagnostic equipment and supplies.
Laboratory fixtures and equipment (except those covered by CPR 30).
Parts and sub-assemblies designed especially for the foregoing items, except those covered by CPR 30.
Surgical dressings and surgical dressing materials.
Surgical instruments, equipment, and supplies.
Sutures and suture needles.
Veterinarian instruments, equipment, and supplies.

33. *Radio, television, phonographic, and other electronic equipment and accessories*, such as but not limited to:
Antennas: household radio and television, automobile radio.
Automobile radios.
Batteries, radio and hearing aid.
Hearing aids and accessories.
Phonograph records and record blanks.
Phonographs, including coin-operated.
Radio and television sets, including amateur and marine.
Radio, television and phonograph combinations.
Record changers.
Signaling systems and parts, electronic (not covered by CPR 30).
Sound recording and reproducing equipment for home use.
Tubes, radio and television.

34. *Silverware* such as but not limited to:
Silver chests.
Silverplated flatware.
Silverplated hollow ware.
Sterling silver flatware.
Sterling silver hollow ware.

35. *Smokers' articles and accessories* (except tobacco, cigars, and cigarettes), such as but not limited to:
Ash trays.
Cigarette cases.
Cigarette and cigar holders.
Cigarette, cigar and pipe lighters.
Humidors.
Lighters, cigarette, cigar, and pipe.
Pipe cleaners.
Pipes.

36. *Sporting goods* (except apparel and shoes).

37. *Toys, dolls, and games.*

38. *Umbrellas, parasols, canes, and cane trimmings.*

39. *Wall coverings: felt-base, plastic, linoleum, asphalt tile.*

40. *Wheel goods* such as but not limited to:
Baby carriages, strollers, and walkers.
Beach carts.
Bicycle accessories and parts except tires and tubes.
Bicycles.
Go carts.
Motor bicycles, motor scooters and power cycles.
Scooters.
Tricycles.
Wheel chairs.
Wheeled play cars.

[F. R. Doc. 52-8281; Filed, July 24, 1952; 3:44 p. m.]

[General Overriding Regulation 5, Amdt. 5]

GOR 5—EXEMPTIONS OF CERTAIN CONSUMER DURABLE GOODS

ADDITIONAL EXEMPTIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment to General Overriding Regulation 5 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 5 extends the coverage of that regulation so as to exempt the additional commodities listed in this amendment from any ceiling price regulation issued by the Office of Price Stabilization.

The commodities exempted by the amendment are of minor significance to the economy and have but a trifling effect on the cost of living, the cost of the defense effort and general current industrial costs. These commodities are not so related to any commodities which are important to the cost of living, the cost

of the defense effort or to general current industrial costs, as to have any effect on the controls of commodities remaining under ceiling price restrictions. Furthermore, any ceiling price restrictions imposed on these commodities would involve an administrative and enforcement burden out of all proportion to the importance of keeping them under price control. Considering the types of commodities exempted, the amendment will not have any material effect on the general level of prices.

In view of the nature of this amendment, the Director has not found it necessary or practicable to consult formally with industry representatives. The actions taken, however, follow in general the recommendations of individual industry and trade association representatives.

AMENDATORY PROVISIONS

General Overriding Regulation 5 is hereby amended as follows:

1. The following paragraph is added at the end of section 6:

Non-metallic buttons for apparel.

2. The following paragraph is added at the end of section 8:

Hand-made candles.

3. The following paragraph is added at the end of section 10:

Cork stoppers.

4. The following paragraphs are added at the end of section 14:

Finished film strips and finished projection slides.

Figure balloons for advertising, display, publicity and similar purposes.

Non-electronic devices sold for the aid of hearing.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective July 25, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 25, 1952.

[General Overriding Regulation 17, Revision 1]

GOR 17—SALES BY CONCESSIONERS OF THE NATIONAL PARK SERVICE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this General Overriding Regulation 17, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This General Overriding Regulation 17, Revision 1, suspends from ceiling price regulation all sales by concessioners of the National Park Service of commodities and services for which prices or markups are specified in a contract with, or rate schedule approved by, the National Park Service.

Under existing law, the National Park Service of the Department of the Interior is responsible for the administration of the national parks, monuments, and other areas, and for the conservation and enjoyment thereof. In carrying out its responsibilities, the National Park Service enters into contracts with concessioners for the purpose of providing necessary accommodations, commodities, facilities, and services for visitors to such areas. These contracts provide that all rates and prices charged to the visiting public by the concessioners shall be subject to regulation and control by the National Park Service.

During the many years that the National Park Service has exercised control over such concession operations, it has developed a system of review prior to approval and of policing after approval which utilizes the superintendent of the area concerned and his staff, technical concession management personnel in the regional offices of the National Park Service, and personnel of the Concessions Management Division in the National office. This control is designed to provide reasonable rates to the visiting public, taking into consideration the many factors involved in furnishing commodities and services in the areas, such as the seasonal nature of the operations, accessibility, availability and cost of labor and materials, prices charged for comparable items and services outside such areas, and the necessity of permitting the concessioners to earn a fair profit on their operations as a whole.

As originally issued under date of August 22, 1951, General Overriding Regulation 17 established ceiling prices for sales by concessioners of the National Park Service by approving contracts and rate schedules which were submitted to and approved by the National Park Service for the calendar year 1951. It also made provision for the adjustment of such ceiling prices by requiring the National Park Service to file a copy of any proposed increase with the Office of Price Stabilization, which proposed price would then become the adjusted ceiling price if not objected to by the Office of Price Stabilization within 30 days.

Under the regulation, as revised, sales by concessioners of the National Park Service are suspended from ceiling price regulation if the price or markup of the commodity or service being sold is currently being controlled by the National Park Service and as such is specified in a contract with or rate schedule approved by the National Park Service. Thus, it will no longer be necessary for the National Park Service or the concessioners to obtain OPS approval of a proposed increase in the price or markup of any such commodity or service or to wait any period of time before putting the proposed increase into effect. However, the requirement that the National Park Service submit a copy of the proposed increase to the Office of Price Stabilization, together with justification for such increase, is being continued in order to maintain a general review of all such actions.

In the statement of considerations which accompanied GOR 17 as originally issued, it was stated that the Office of Price Stabilization has compared many of the prices being charged by concessioners of the National Park Service and has found them to be generally in line with those prevailing for comparable items in areas outside the jurisdiction of the National Park Service. It was also stated that the regulation was deemed necessary to eliminate the filing of numerous applications with the District and National offices of the Office of Price Stabilization and to permit the National Park Service to give force and effect to its contracts, of which rate control over concession operations is an integral part. Almost a year's experience in handling the applications for price adjustment which have been filed with the Office of Price Stabilization under this regulation, supports these statements. Within that period of time, the National Park Service has developed general criteria for the processing of applications for price increases by its concessioners, which criteria were submitted to the Office of Price Stabilization under date of June 3, 1952. In its letter, the National Park Service advised the OPS that it would faithfully observe such criteria as the basis of rate approval and would welcome any periodic checks OPS would care to make to insure that the stabilization objectives are being accomplished. These criteria have been carefully reviewed by the Office of Price Stabilization and it is believed that adherence to them by the National Park Service will substantially achieve such objectives with respect to the National Park concessioners. As a further guarantee, the revised regulation provides for the filing with OPS of a copy of the proposed price together with justification for such price under the general criteria submitted to the Office of Price Stabilization.

In the judgment of the Director of Price Stabilization, the provisions of this regulation are generally fair and equitable and are consistent with the purpose of Title IV of the Defense Production Act of 1950, as amended.

In the formulation of this revised regulation, and in view of its nature, the Director has found that consultation with industry representatives is not necessary or practicable. However, prior to its issuance, the Director consulted with the National Park Service and has given consideration to its recommendation.

REGULATORY PROVISIONS

Sec.
1. Suspension of certain sales by concessioners of the National Park Service.
2. Reports.
3. Records.

AUTHORITY: Sections 1 to 3 issued under Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SEC. 1. *Suspension of certain sales by concessioners of the National Park Service.* No ceiling price regulation heretofore or hereafter issued by the Office of Price Stabilization shall apply to the sale by a concessioner of the National Park Service of any commodity or service for which a price or markup is specified in any contract with or rate schedule approved by the National Park Service.

SEC. 2. *Reports.* Any such price or markup hereafter approved by the National Park Service, shall, within 15 days after such approval, be filed by the National Park Service with the Coordinator for Government Purchases and Sales, Office of Price Stabilization, Washington 25, D. C., together with justification for such price under the general criteria submitted to the Office of Price Stabilization by the National Park Service on June 3, 1952.

SEC. 3. *Records.* A seller of commodities and services, the sale of which is suspended from ceiling price regulation by this General Overriding Regulation 17, Revision 1, shall not be required to comply with the reporting or record keeping provisions of any other price regulation but must preserve and keep available for examination by the Director of Price Stabilization, for the length of the Defense Production Act and two years thereafter, records in his possession showing the prices charged by him for the commodities and services which he delivered or offered to deliver during the base period December 19, 1950 to January 25, 1951.

Effective Date. This General Overriding Regulation 17, Revision 1, is effective July 25, 1952.

NOTE: The record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 25, 1952.

[General Overriding Regulation 27, Amdt. 1]

GOR 27—APPROVAL OF PRICES IN LONG TERM CONTRACTS FOR SALES OF CERTAIN CHEMICALS SELLERS OF RARE EARTH FLUORIDE AND RARE EARTH OXIDE

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to General Overriding Regulation 27 is hereby issued.

STATEMENT OF CONSIDERATIONS

On April 2, 1952, General Overriding Regulation 27 (GOR 27) was issued to permit a seller of certain chemicals under a long term contract made prior to price control to apply for permission to put into effect the pricing provisions of the contract in lieu of his present ceiling prices. It was pointed out in the Statement of Considerations made in connection with the issuance of that regulation that it applies only to certain limited situations where sellers entered into long term contracts in good faith prior to price control and then found themselves unable, because of price control, to put into effect certain pricing provisions of the contract. The terms of the regulation are limited also to certain specified commodities.

The Director of Price Stabilization has found a similar situation affecting a manufacturer of rare earth fluoride and rare earth oxide. This amendment therefore extends the scope of GOR 27 to sellers of these commodities. The Statement of Considerations in GOR 27 applies equally to the commodities covered by this amendment and therefore is incorporated herein.

In the formulation of this regulation, special circumstances have rendered consultation with industry representatives, including trade association representatives, impractical.

AMENDATORY PROVISION

Section 2 of General Overriding Regulation 27 is amended by substituting a comma for the period at the end of section 2, and adding the following:

(e) rare earth fluoride, (f) rare earth oxide.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective July 25, 1952.

ELLIS ARNALL,
Director of Price Stabilization.

JULY 25, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-41, as Amended July 25, 1952]

M-41—METALWORKING MACHINES—DELIVERY

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

This amended order revises NPA Order M-41, as amended April 18, 1952, by making certain changes, among which are the following:

1. Paragraphs (i) and (j) of section 2 are eliminated, and paragraph (k) is relettered paragraph (i).
2. Section 3 is completely revised.
3. Minor changes are made in sections 4 (b), 7 (c), 10, and 13.

REGULATORY PROVISIONS

Sec.
1. What this order does.
2. Definitions.
3. Limitations on deliveries and acceptance of orders.
4. Allocation of deliveries to service and other purchasers.
5. Distribution of production among service groups.
6. Treatment of fractions.
7. Operation of Numerical Preference List.
8. Additional information to be furnished with rated purchase orders.
9. Changes and amendments.
10. Frozen period.
11. Effect of this order on NPA Reg. 2.
12. Replacement parts.
13. Pool orders.
14. Request for adjustment or exception.
15. Records and reports.
16. Communications.
17. Violations.

AUTHORITY: Sections 1 to 17 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* (a) This order regulates the delivery of metalworking machines. It requires all producers to schedule their deliveries in accordance with the provisions of this order.

(b) Persons seeking ratings for metalworking machines are referred to NPA Order M-41A, which sets forth certain eligibility standards for ratings.

SEC. 2. *Definitions.* As used in this order:

(a) "Metalworking machine" means any new, nonportable, power-driven item of plant equipment which is listed on Exhibit A, appearing at the end of this order, and has a producer's list price for the basic machine itself of $1,000 or more. The producer's list price for the basic machine itself means the sale price at which the producer's catalog or other price publication lists the basic machine, exclusive of the motor, motor drive, or any attachments therefor, unless the motor, motor drive, or attachments are initially built into the basic machine itself, as an integral part thereof, in which case the producer's list price for the basic machine shall be the sale price at which the producer lists the machine as an assembled unit. The term "metalworking machine" includes all fixtures, equipment, and tooling covered by the original purchase order which are required to be delivered with the basic machine to make it usable in production for the purposes intended. It does not include replacements, spare parts or equipment, or extra tooling.

(b) "Producer" means any person engaged in the manufacture and production of metalworking machines.

(c) "Service group" means a subdivision of the Department of Defense. For the purposes of this order, there are deemed to be seven such subdivisions, consisting of the following: Ordnance, Army less Ordnance, Bureau of Ordnance (Navy), Bureau of Ships (Navy), Miscellaneous Bureaus and Offices (Navy), Bureau of Aeronautics (Navy), and Air Force.

(d) "Service purchasers" means those persons whose purchase orders for metalworking machines call for delivery to a service group, or to one of such group's prime contractors, or to a subcontractor of such a prime contractor. However, no such purchaser shall be considered a service purchaser unless his order is accompanied by a DO rating in accordance with existing regulations.

(e) "Other purchasers" means all purchasers other than service purchasers, whether or not a DO rating has been assigned to their purchase orders.

(f) "Size" includes all of those dimensions or variations of a particular type of metalworking machine which can be used interchangeably for production purposes. Size classification shall be that used by each producer on the effec-

tive date of this order, unless he is hereinafter authorized to use a different classification. Producers may apply for such permission by letter to the National Production Authority (hereinafter called "NPA").

(g) "Firm order" means an order which is accompanied by specification or other description of a metalworking machine in sufficient detail to enable a producer to place such machine in his production schedule.

(h) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States Government or of any other government.

(i) "GSA" means the United States Government agency known as the General Services Administration, created under the Federal Property and Administrative Services Act of 1949 (63 Stat. 377); or such other Federal agency to which the Defense Materials Procurement Agency may hereafter redelegate the functions specified or described in section 13 of this order under E. O. 10281 (16 F. R. 8789), and the Defense Production Act of 1950, as amended (64 Stat. 798, as amended; 50 U. S. C. App. Sup. 2061–2166); or the Defense Materials Procurement Agency if said agency does not redelegate such functions. .

SEC. 3 *Limitations on deliveries and acceptance of orders.* (a) The provisions of this paragraph (a) apply only to metalworking machines of the classifications not listed in Exhibit D of this order. A producer may schedule for production and deliver any metalworking machine against a purchase order that is not rated when such action will not postpone the required delivery of any metalworking machine against a purchase order that is rated. Notwithstanding the fact that a producer may have properly scheduled the production and delivery of a metalworking machine against a purchase order that is not rated, he shall not continue work on such unrated order when such action will postpone the required delivery of any metalworking machine against a purchase order that is rated. If a producer receives a rated order for a metalworking machine with specifications which match a machine in production to fill an unrated order, he shall divert such machine to fill the rated order instead of the unrated order. The provisions of section 10 of this order do not apply to purchase orders that are not rated.

(b) No producer shall accept a purchase order that is not rated for any metalworking machine of the classifications listed in Exhibit D of this order unless specifically authorized by NPA pursuant to a request filed in accordance with section 14 of this order. No producer shall deliver against a purchase order that is not rated any metalworking machine of the classifications listed in Exhibit D of this order unless specifically authorized by NPA pursuant to a request filed in accordance with section 14 of this order.

SEC. 4. *Allocation of deliveries to service and other purchasers.* (a) Starting April 1, 1951, and on the first of each succeeding month, each producer shall schedule his deliveries of each size of metalworking machines in accordance with the provisions of this section for the fourth ensuing month (hereinafter in section 10 of this order being referred to for convenience as the "delivery month"—for example, deliveries for the month of July would be scheduled on April 1st, and July would be the "delivery month").

(b) If a producer can, under the provisions of section 3 of this order, schedule a metalworking machine for delivery against a purchase order that is not rated, he shall arrange his schedule so as to fill all rated orders requiring deliveries in the month being scheduled in preference to any unrated order.

(c) If a producer can fill from his production all rated orders requiring delivery in the month being scheduled, then he shall arrange his schedule so as to fill all such rated orders.

(d) If a producer cannot fill from his production all rated orders requiring delivery in the month being scheduled, then he shall arrange his schedule of deliveries as follows:

(1) To the extent that a producer has rated orders on hand from service purchasers requiring delivery in the month being scheduled of less than 70 percent of his production of any size in that month, he shall arrange his schedule so as to fill all rated orders for that size requiring delivery to service purchasers in that month, and schedule the balance so as to fill rated orders from other purchasers.

(2) To the extent that a producer has rated orders on hand from service purchasers requiring delivery in the month being scheduled of more than 70 percent of his production of any size in that month, he shall arrange his schedule so as to fill rated orders for that size to service purchasers equivalent to 70 percent of his production of that size, and shall schedule so much of the balance as may be necessary to fill rated orders on hand from other purchasers requiring delivery in the month being scheduled and thereafter, if any balance still remains, he shall schedule additional rated orders from service purchasers.

SEC. 5. *Distribution of production among service groups.* In connection with scheduling deliveries for each month pursuant to section 4 of this order, each producer shall schedule deliveries among the several service groups as follows:

(a) Subject to the provisions of this paragraph, each producer shall determine the number of orders on his books for each size of metalworking machine for each of the seven service groups as of 90 days prior to the first day of the month being scheduled, or, at the producer's option, the nearest date within 10 days thereof on which he may have compiled his records of orders. Only those orders which by their terms require delivery in the month being scheduled or in a month previous thereto shall be counted. The number of orders so determined for each such size and service group shall be termed the "net backlog" of each service group for that size of metalworking machine.

(b) Each producer shall then determine the "total net backlog" of all service groups by adding together the orders for each particular size of metalworking machine as determined for each service group in accordance with the provisions of paragraph (a) of this section.

(c) Each producer shall then determine, in accordance with the provisions of section 4, the total number of metalworking machines of a particular size being scheduled for all service groups for that month and such total shall be termed the "total service group quota." The quota of each size of metalworking machine for any particular service group shall be that proportion of the total service group quota which the net backlog of such particular service group bears to the total net backlog. Each producer shall then schedule deliveries for the month being scheduled so that each service group shall be scheduled for its service quota for that month, determined as provided in this section. An example of the calculation required by this paragraph appears at the end of this order as Exhibit C.

(d) During each month each producer shall deliver for each service group the number of metalworking machines of each size equal to its quota of that size for that month. However, no producer shall schedule delivery of any metalworking machine for any service group earlier than the date on which the purchaser requires delivery unless all required delivery dates on other orders for the same size of metalworking machine are being met.

SEC. 6. *Treatment of fractions.* Where the number of metalworking machines which results from any computation required by this order contains a fraction of more than one-half, the fraction shall be counted as a whole metalworking machine. A fraction under one-half shall be disregarded, except that where the computation results in a fraction only (less than one whole metalworking machine) for any one month and such fraction is less than one-half, it shall be counted in computing the next month's service quota. Where each of the computations of two or more different service quotas for the same month shows a fraction of one-half, and there is only one remaining metalworking machine to which such fraction can apply, such metalworking machine shall be allotted to the service group having the largest service quota, and the other fractions of one-half shall be disregarded for that month, but shall be counted in computing the other service quota or quotas for the next month.

SEC. 7. *Operation of Numerical Preference List.* A Numerical Preference List will be supplied to producers. This list will be designated "Restricted." In connection with scheduling deliveries for each month pursuant to sections 4 and 5 of this order, this list shall determine the sequence of scheduling of purchase orders for delivery as between service purchasers within each service group as follows:

(a) In scheduling purchase orders for delivery, service purchasers who are on the list shall take precedence over service purchasers who are not on the list.

(b) As between purchase orders having conflicting required delivery dates, delivery of which is to be made to service purchasers on the list within the particular service group, the purchase order of the service purchaser with the higher urgency standing shall be scheduled for delivery ahead of the service purchaser with the lower urgency standing. The highest urgency standing is No. 1.

(c) Delivery to a sub-contractor, not specifically named on the list, shall take the urgency standing of his prime contractor. However, no sub-contractor may use the urgency standing of his prime contractor unless such use is approved by the prime contractor and endorsed by the service department, supply arm, or bureau concerned.

(d) If the urgency standing certified by the purchaser differs from the urgency standing shown for the particular defense contractor for the particular defense contract in question on the Numerical Preference List, the latter shall govern.

(e) Regardless of the urgency standing certified with the purchase order, no delivery of metalworking machines shall be made prior to the required delivery dates, unless all required delivery dates on other orders for the same size of metalworking machines are being met.

(f) Changes may be made in the Numerical Preference List from time to time by NPA. Where an urgency standing is assigned, the new urgency standing will consist of a number including a decimal. Such an urgency standing will take a position in the sequence of deliveries as indicated by the following example: Urgency standing 92.1 will be delivered after 92 and before 93.

(g) The sequence of conflicting deliveries to service purchasers who are not listed on the Numerical Preference List within each service group shall be determined in accordance with the provisions of NPA Reg. 2.

SEC. 8. *Additional information to be furnished with rated purchase orders.* In applying or extending a rating to an order for a metalworking machine, any service purchaser must indicate the service group which placed or sponsored the prime contract or subcontract for which the metalworking machine being purchased is to be used, the required delivery date thereof, and the urgency standing assigned to the delivery of the metalworking machine, if any, with the number of the specific contract on which the metalworking machine will be used. Any other purchaser must indicate the claimant agency, if any, which placed or sponsored the prime contract or subcontract for which the metalworking machine being purchased is to be used and the required delivery date thereof. All purchasers must indicate specifications or other descriptions of the metalworking machine being ordered in sufficient detail to enable the producer to place the same on his production schedule.

SEC. 9. *Changes and amendments.* Notwithstanding any other provision of this order, NPA may amend this order and any of its exhibits, may direct or change any schedule of production or delivery of metalworking machines, allocate any order for metalworking machines from one producer to another producer, and divert or otherwise direct the delivery of any metalworking machine from one person to another person.

SEC. 10. *Frozen period.* No rated order, which may be received by a producer within the 3-month period immediately preceding any delivery month as defined in section 4 of this order, shall operate to postpone, advance, or in any way affect or change the delivery of any metalworking machine which has been scheduled for delivery during such delivery month pursuant to another rated order.

SEC. 11. *Effect of this order on NPA Reg. 2.* To the extent that this order is in conflict with NPA Reg. 2, the provisions of this order shall control. In all other respects, NPA Reg. 2 shall continue in full force and effect.

SEC. 12. *Replacement parts.* CMP Regulation No. 5 as now effective or as hereafter amended, or any other NPA order or regulation concerning maintenance, repair, and replacement items, shall control with respect to the delivery by a producer of repair and replacement parts, irrespective of any provisions contained in this order.

SEC. 13. *Pool orders.* NPA will from time to time furnish GSA with recommendations for ordering metalworking machines. Under a working arrangement between GSA and NPA, GSA will place firm orders (herein sometimes called "pool orders") with producers of metalworking machines in accordance with such recommendations. The pool orders so placed by GSA will contain, among other provisions, a provision requiring any producer, on or after the date therein specified, to eliminate items from any such order to the extent that equivalent items manufactured by such producer are invoiced or shipped (whichever is earlier) by such producer to others pursuant to purchase orders from others or to orders and directions of NPA. Notwithstanding the provisions of section 3 (b) of this order, a producer may accept a pool order from GSA and if he has entered into a pool order with GSA, may, as to metalworking machines of the classifications listed in Exhibit D, which such producer is unable to ship on rated orders, store such metalworking machines and invoice them to GSA, in accordance with the provisions of such pool order.

SEC. 14. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 15. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 16. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M–41.

SEC. 17. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect on July 25, 1952.

NATIONAL PRODUCTION AUTHORITY,
By JOHN B. OLVERSON,
Recording Secretary.

EXHIBIT A OF NPA ORDER M-41

All types of the following classifications are included herewith for regulation under this order based on past procurement experience. Additions shall be made as new and changed requirements are developed:

Ammunition machinery.
Balancing machines.
Beading machines.
Boring machines.
Brakes.
Broaching machines.
Buffing machines.
Centering machines.
Chamfering machines.
Cut-off machines.
Die-sinking machines.
Drilling machines.
Duplicating machines.
Extruding machines.
Filing machines.
Forging machines.
Forging rolls.
Gear-cutting machines.
Gear-finishing machines.
Grinding machines.
Hammers.
Headers.
Key-seating machines.
Lapping machines.
Lathes.
Levelers.
Marking machines.
Measuring and testing machines.
Milling machines.
Nibbling machines.
Oil-grooving machines.
Pipe flanging-expanding machines.
Planers.
Polishing and buffing machines.
Presses.
Profiling machines.
Punching machines.
Reaming machines.
Rifle and gun working machines.
Riveting machines.
Rolling machines.
Sawing machines.
Screw and bar machines.
Shapers.
Swagers.
Tapping machines.
Threading machines.
Shearing machines.
Slotters.
Upsetters.

EXHIBIT B OF NPA ORDER M-41

(Discontinued)

EXHIBIT C OF NPA ORDER M-41

ILLUSTRATION OF PARAGRAPH (c) OF SECTION 5 OF M-41 FOR AUGUST 1952

Producer's total scheduled production of a particular size for August	40
"Total service group quota" determined pursuant to section 4 (70 percent of total if that many service group orders)	28
"Total net backlog" of all service groups	50

Item	Ordnance	Army, less Ordnance	Bureau of Ordnance	Bureau of Ships	Miscellaneous bureaus and offices	Bureau of Aeronautics	Air Force	Total
Net backlog by service group (orders on hand May 1 requiring delivery in August or prior to August)	10	2	20	0	3	3	12	50
Proportion of "net backlog" of each service group to "total net backlog"	10:50	2:50	20:50	0	3:50	3:50	12:50	------
Multiplied by "total service group quota"	28	28	28	------	28	28	28	------
Equals quota for each service group	6	1	11	0	2	2	6	28

EXHIBIT D TO NPA ORDER M-41

I. Boring machines:
(a) Vertical boring and turning machines, 54 inches and larger.
(b) Vertical boring and turning machines, all automatic cycle.
(c) Horizontal boring, drilling, and milling machines—table, floor, and planer type—4-inch spindle and larger.
(d) Jig-boring machines.
II. Die-sinking machines:
(a) Manual type.
(b) Automatic type.
III. Drilling machines:
(a) Radial drilling machines.
IV. Gear-cutting machines:
(a) Gear-hobbing machines—6-inch pitch diameter by 10-inch face and smaller.
V. Grinding machines:
(a) Long bed surface grinders—60 inches travel and larger.
(b) Table-type rotary surface grinders—30 inches capacity and larger.
(c) Jig-grinding machines.
(d) Face-coupling grinders.
VI. Lathes:
(a) Duplicating and tracer type.
(b) Turret lathes, saddle type, 3½ inches bar capacity and larger.
VII. Milling machines:
(a) No. 4 and larger—knee and column type and bed type.
(b) Planer or rail type mill.
(c) Duplicating or copying type.
(d) Skin-milling machines.
(e) Spar-milling machines.
(f) Jig-milling machines.
VIII. Planers:
(a) 60 inches by 60 inches double housing and larger.
(b) 48 inches open side and larger.
IX. Shapers:
(a) Draw-cut shapers.

Chapter XVII—Housing and Home Finance Agency

[Appendix to CR 3, Amdt. 1]

CR 3—RELAXATION OF RESIDENTIAL CREDIT CONTROLS: REGULATION GOVERNING PROCESSING AND APPROVAL OF EXCEPTIONS AND TERMS FOR CRITICAL DEFENSE HOUSING AREAS

MISCELLANEOUS AMENDMENTS

Statement. On July 18, 1952, there was published in the FEDERAL REGISTER (17 F. R. 6585), Housing and Home Finance Agency Regulation CR 3 with an appendix (17 F. R. 6590) which listed and described critical defense housing areas designated under CR 3, and the dates such areas were so designated. This list contained 186 critical defense housing areas.

Under the provisions of said regulation CR 3 (see sec. 3 thereof) additional critical defense housing areas will be designated by this Agency from time to time, for the purposes of this regulation where such areas have been determined by proper authority to be critical defense housing areas within the meaning of the Defense Housing and Community Facilities and Services Act of 1951 or the Housing and Rent Act of 1947, as amended. As such additional critical defense housing areas are designated, the appendix to CR 3 published at 17 F. R. 6590, July 18, 1952, will be amended to include such additional areas. The amendments will be numbered consecutively for each succeeding publication. As circumstances warrant, there may be publication of a revised appendix to CR 3 to include all areas contained in such appendix from time to time. Amendment Number 1 to the appendix to CR 3 appears below.

The appendix to CR 3 is amended by adding to the list of designated critical defense housing areas published in the appendix to CR 3 on July 18, 1952 (17 F. R. 6590) the following additional critical defense housing areas:

Area, Including Geographical Description and Date Designated

187. Hibbing-Grand Rapids, Minnesota, Area. (That portion of the State of Minnesota bounded as follows: Beginning at the northeast corner of Great Scott Township and the eastern boundary of range 19 in St. Louis County, and thence directly west along the northern boundary line of township line 59 to the northwest corner of Marcell township in Itasca County; thence directly south along the western boundary line of range 27 to the southwest corner of township 52, range 27 in Aitkin County; thence east along the southern boundary line of township 52 to the southeast corner of Ness Township in St. Louis County; thence north along the eastern boundary line of range line 19 to the northeast corner of Great Scott Township in St. Louis County including Buhl Village, Chisholm City, Fraser City, Hibbing Village, Kinney Village, Meadowlands Village, Orr Village, Hill City, Grand Rapids Village, La Prairie Village, Calumet Village, Marble Village, Taconite Village, Keewatin Village, Nashwauk Village, Warba Village, Zemple Village, Cooley Village, Coleraine Village, Cohasset Village, Bovey Village and Big Fork Village except lands in State and National Forests, all in Aitkin, Itasca and St. Louis Counties, Minnesota), July 26, 1952.

188. Virginia, Minnesota, Area. (The Townships of Biwabik, Owens, T-62-R-17, T-62-R-16, Breitung, Angora, T-61-R-17, Vermillion Lake, Kugler, T-61-R-14, T-60-R-18, Sandy, Pike, Embarrass, Wassa, T-59-R-18 (PT), Wouri, T-59-R-16 (PT), White Mesaba, T-58½-R-17, Missabe Mountain, T-58-R-14, Clinton, Fayal, T-57-R-16, T-57-R-14, McDavitt, T-56-R-17, T-56-R-16, Colvin, T-56-R-14, T-55-R-18, Ellsburg, T-55-R-15, T-55-R-14, Kelsey, Cotton, T-54-R-15, T-54-R-14, Payne, Northland, T-53-R-16, T-53-R-15, Nichols, including Aurora Village, Biwabik City, Iron Junction Village, Eveleth City, Franklin Village, Gilbert City, McKinley Village, Leonidas Village, Virginia City, and Mountain Iron Village, except lands in State and National Forests; all in St. Louis County, Minnesota), July 26, 1952.

189. Las Vegas, Nevada, Area. (The Townships of Las Vegas, Henderson and Nelson, including the City of Las Vegas, the City of Henderson and Boulder City, all in Clark County, Nevada), July 26, 1952.

(Sec. 704, 64 Stat. 816, as amended, Pub. Law 139, 82d Cong.; 50 U. S. C. App. Sup. 2154)

RAYMOND M. FOLEY,
Housing and Home Finance Administrator.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 8—POSTAGE STAMPS AND OTHER STAMPED PAPER AND SECURITIES

SPECIAL-REQUEST ENVELOPES

In § 8.13 *Special-request envelopes*, amend paragraph (b) (1) to read as follows:

(1) *Requirement.* Postmasters at delivery offices shall require the purchaser to pay the entire cost of the envelopes in advance and the envelopes will be delivered to the patron by parcel-post truck promptly upon arrival. At non-delivery offices the payment of the entire amount in advance is optional with the patron. However, the requirement of a minimum deposit sufficient to cover the cost exclusive of the postage value must be paid in advance by the purchaser.

(R. S. 161, 396, 3915; sec. 1, 18 Stat. 231, sec. 1, 27 Stat. 783, 34 Stat. 476, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 354)

[SEAL] V. C. BURKE,
Acting Postmaster General.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 1—PRACTICE AND PROCEDURE

APPLICATION FOR AUTHORITY TO OPERATE STATION IN RADIO AMATEUR CIVIL EMERGENCY SERVICE; CERTIFICATION OF CIVIL DEFENSE RADIO OFFICER

In the matter of adoption of FCC Forms 481-1-2-3 and 482,[1] and amendment of Part 1 of the Commission's rules.

At a session of the Federal Communications Commission held at its offices in Washington 25, D.C., on the 10th day of July 1952;

The Commission having under consideration the adoption of FCC Forms 481-1-2-3, Application, Authorization, and Record Card, respectively, for Radio Amateur Civil Emergency Service; Form 482, Certification of Civil Defense Radio Officer; and appropriate amendments to Part 1 of the Commission's rules; and

It appearing, that the Forms and associated rule amendments herein proposed are in accordance with the recently adopted Subpart B of Part 12 of the Commission's rules and, as such, involve no substantive change requiring general notice of proposed rule making under section 4 (a) of the Administrative Procedure Act; and

[1] Filed as part of the original document.

It further appearing, that authority for adoption of the subject forms and rules amendments is contained in sections 4 (i), 303 (r), and 308 (b) of the Communications Act of 1934, as amended;

It is ordered, That FCC Form 481-1-2-3, Application, Authorization, and Record Card, respectively, for use by licensed amateurs requesting authority to operate in the Radio Amateur Civil Emergency Service, and FCC Form 482, Certification of Civil Defense Radio Officer, be adopted as set forth in the attachments hereto; and

It is further ordered, That Part 1 of the Commission's rules be amended in accordance with the amendments set forth below; and

It is further ordered, That this order shall become effective August 15, 1952.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 303, 308, 48 Stat. 1082, 1085; 47 U. S. C. 303, 308)

Released: July 16, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Recapitulation page: The "Table showing forms in effect and where they are referred to in Part 1 of the rules and regulations" is amended as follows:

Insert in the appropriate place in the table the following new forms:

481 ---------- 1.318 (b)
482 ---------- 1.335

2. Under "Rules Relating to Filing of Applications and Descriptions of Application Forms":

a. Add new subparagraph to 1.318 (b) as follows:

§ 1.318 *Application for station license where no construction permit is required.*
• • •

(b) • • •

(13) FCC Form 481, "Application for Authority to Operate a Station in the Radio Amateur Civil Emergency Service."

b. Add the following new section:

§ 1.335 *FCC Form 482, "Certification of Civil Defense Radio Officer."* To be used by the local Civil Defense Official when certifying as to the loyalty, integrity, and the technical and administrative qualifications of the Radio Officer.

[F. R. Doc. 52-8215; Filed, July 25, 1952; 8:57 a. m.]

[Docket No. 10203]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

REVISED TENTATIVE ALLOCATION PLAN FOR CLASS B FM BROADCAST STATIONS

At a session of the Federal Communications Commission held in its offices in Washington, D. C., on the 16th day of July 1952;

The Commission having under consideration a proposal to amend its Revised Tentative Allocation Plan for Class B FM Broadcast Stations; and

It appearing, that notice of proposed rule-making (FCC 52-502) setting forth the above amendment was issued by the Commission on May 22, 1952, and was duly published in the FEDERAL REGISTER (17 F. R. 5044), which notice provided that interested parties might file statements or briefs with respect to the said amendment on or before July 1, 1952; and

It further appearing, that no comments were received either favoring or opposing the adoption of the proposed reallocation;

It further appearing, that the immediate adoption of the proposed reallocations would facilitate consideration of pending applications requesting Class B assignments in Berlin, New Hampshire, and Jasper, Alabama;

It is ordered, That effective August 25, 1952, the Revised Tentative Allocation Plan for Class B FM Broadcast Stations is amended as follows:

General area	Channels	
	Delete	Add
1. Berlin, N. H.	------	279
2. Jasper, Ala.	------	273
Birmingham, Ala.	273	------

Released: July 17, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-8178; Filed, July 25, 1952; 8:46 a. m.]

[Docket Nos. 8736, 8975, 8976, 9175]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and engineering standards concerning the television broadcast service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

The Commission has before it for consideration the following pleadings: Petition for reconsideration filed June 19, 1952 by Chesapeake Television Broadcasting, Inc.; petition for reconsideration or rehearing, filed June 20, 1952, by Lebanon Broadcasting Company; answer to petition for reconsideration filed June 27, 1952, by Lebanon Broadcasting Company;[1] and a response filed July 17, 1952, by Eastern Radio Corporation (WHUM), applicant for Channel 61 in Reading, Pennsylvania; Hawley Broadcasting Company, applicant for Channel 61 in Reading, Pennsylvania; WHP, Inc.,

[1] On July 8, 1952, Eastern Radio Corporation filed a memorandum in this matter. This memorandum was, however, withdrawn on July 17, 1952.

applicant for Channel 33 in Harrisburg, Pennsylvania; Baltimore Radio Show, Inc., applicant for Channel 30 in Baltimore, Maryland; and WITH-TV, Inc., which states that it intends to file an application for Channel 18 in Baltimore, Maryland; and a pleading entitled partial withdrawal of petition of reconsideration filed by Chesapeake Television Broadcasting, Inc., on July 17, 1952.

In the third notice of further proposed rule making (FCC 49-948) issued on March 22, 1951, in these proceedings the Commission proposed assignments, among others, of Channels 15 and 30 to Lebanon, Pennsylvania, and Baltimore, Maryland, respectively, and Channels 18 and 33 to Baltimore, Maryland, and Harrisburg, Pennsylvania, respectively. In the sixth report and order in these proceedings the Commission finalized the assignments of these channels. In the third notice of further proposed rule making the Commission proposed minimum transmitter separations of 75 miles for UHF channels separated in frequency by 15 channels as are Channels 15 and 30 and Channels 18 and 33 in order to avoid picture image interference and in the sixth report and order this distance was finalized for assignment separations and station separations on such channels.

Chesapeake Television Broadcasting, Inc., in its petition for reconsideration requested that the Commission reconsider its sixth report and order and enter an order modifying the table of assignments contained in § 3.606 of the rules to delete Channel 33 from Harrisburg, Pennsylvania, and substitute Channel 55 therefor, delete Channel 55 from Reading, Pennsylvania, and substitute Channel 33 therefor, and substitute Channel 60 for Channel 30 in Baltimore, Maryland, or add Channel 60 thereto. In support of its request, the petition stated that Baltimore and Harrisburg assigned Channels 18 and 33, respectively, are separated by a distance of only 68 miles and that Baltimore and Lebanon, assigned Channels 30 and 15, respectively, are separated by a distance of only 72 miles, whereas under § 3.610 (c) of the rules, separations of 75 miles are necessary to avoid picture image interference. In its pleading filed July 17, 1952, Chesapeake Television Broadcasting, Inc., withdrew its request that Channel 30 be deleted from Baltimore and 60 substituted in its place.

Lebanon Broadcasting Company in its petition for reconsideration or rehearing requests that the Commission reconsider its sixth report and order in the proceedings and modify § 3.611 (b) of its rules (reference points and distance computations) by adding the following subparagraph:

(5) Where the allocation tables provide a separation less than otherwise required by the rules, the difference between the resulting separation and the required separation may be divided by the applicants in each city so as to assure the required separation.

or reopen the record for further hearing with respect to the assignment of Channels 15 and 30 to Lebanon, Pennsylvania, and Baltimore, Maryland, respectively. In support of its request, petitioner points out that there is insufficient spacing between the assignment of Channels 15 and 30 at Lebanon and Baltimore to meet the standards adopted in the proceeding. In its answer to petition for reconsideration filed by Chesapeake Television Broadcasting, Inc., Lebanon Broadcasting Company requests that the Commission take no action leading to the removal of Channel 15 from Lebanon, or in any way further restricting the use of such channel, other than presently contemplated by the rules or as proposed in its petition for reconsideration or rehearing and, if action is taken to the contrary, that an opportunity be afforded to be heard.

The assignment of Channels 18 and 33 to Baltimore and Harrisburg, respectively, with a separation of 68 miles and the assignment of Channels 30 and 15 to Baltimore and Lebanon, respectively, with a separation of 72 miles do not meet the prescribed standards for an assignment separation of 75 miles for UHF channels 15 channels apart adopted in the sixth report in this proceeding. Such assignments, therefore, appear in the table of assignments by error and must be corrected. We have examined the proposals for making such corrections contained in the petition for reconsideration filed by Chesapeake Television Broadcasting, Inc., and believe that the proposal contained therein to correct the errors by substituting Channel 60 for Channel 30 in Baltimore,[1] and by substituting Channel 55 for Channel 33 in Harrisburg and Channel 33 for Channel 55 in Reading will achieve these objectives in the best possible manner. In view of the fact that these proposals were contained in the petition for reconsideration properly filed in this proceeding and in view of the further fact that interested parties have had a full opportunity to submit any comments or counterproposals with respect to such proposals as they may have wished, we believe that it would be unnecessary at this time to go through the notice procedures set forth in section 4 of the Administrative Procedure Act. We shall, therefore, adopt without further proceedings the following changes in the table of assignments adopted in the sixth report and order:

City	Channel No.	
	Delete	Add
Baltimore, Md.	30	60
Harrisburg, Pa.	33	55
Reading, Pa.	55	33

The assignment of channels in the manner requested would be in accordance with the standards adopted in this proceeding.

In view of our disposition of the matters presented we deem it unnecessary to give further consideration to the requests made by Lebanon in its pleadings as the matters raised therein are rendered moot by the assignment changes adopted herein.

Chesapeake Television Broadcasting, Inc., in its petition for reconsideration has also suggested the assignment of an additional channel to Batlimore. We believe, however, it is inappropriate in connection with petitions for reconsideration to consider requests for the assignment of additional channels to a community where such proposals have not heretofore been properly made in these proceedings.

Eastern Radio Corporation together with the other parties to the "Response" filed July 17, 1952 urged the Commission to make the assignment changes in Reading and Harrisburg effective immediately. They argue that good cause exists for making such changes effective immediately for the following reasons:

(a) The proposal does not add to or subtract from the number of channels in any community.

(b) Channel assignments are not changed in any community except Reading and Harrisburg. In these two communities, one UHF channel is substituted for another.

(c) By making the change effective immediately, the Commission can act expeditiously on applications on file from communities which are at the top of the processing line and thus make possible UHF television service at an early date to areas which have no television service. Such action will be of advantage not only to viewers in the area served by such stations but will also strengthen the cause of UHF television throughout the country.

(d) No person can be prejudiced by action of the Commission making the changes effective immediately. Persons desiring to file applications in the communities in question have been on notice since April 14, 1952—the date of the sixth report—concerning the number of channels available in the various communities. No change in this respect is made by the Chesapeake proposal. The substitution of one UHF channel for another in Reading and Harrisburg is of no significance to potential applicants since the Commission has held in its sixth report that "The record contains no basis for distinguishing between channels in the UHF band for the purpose of establishing a table of assignments."

[1] We are aware that Chesapeake Television Broadcasting, Inc., has filed a pleading entitled partial withdrawal of petition for reconsideration relating to the separation between Baltimore and Lebanon. This withdrawal was apparently based on the belief of petitioner that because applicants for Channels 15 and 30 in Lebanon and Baltimore have secured antenna sites which would be more than 75 miles from one another, that the defect in the table of assignments had been cured and grants could be made to both cities consistent with the standards prescribed in the sixth report. This is not the case. The sixth report makes it completely clear that in order for an assignment to appear in the table a minimum separation must be met on a city-to-city basis as well as on a transmitter-site basis. And the fact that proposed tranamitter sites were available which would be separated by more than the minimum distance from cities in which other assignments were being made was expressly rejected in the sixth report as a basis for making assignments in the table of assignments.

Section 4 (c) of the Administrative Procedure Act provides that rule changes shall be effective not earlier than 30 days after publication in the FEDERAL REGISTER "• • • except as otherwise provided by the agency upon good cause found • • •." We cannot find in the circumstances here presented such "good cause." If, as alleged by these parties, no person could be prejudiced by making the changes effective immediately, the request that the Commission do so might be meritorious. This is, however, not the case. It is not sufficient to say that all parties had notice in the sixth report of the total number of channels available to each community and this will remain the same. For they also had notice of the specific channel assigned, and this fact is of critical import to prospective applicants in determining upon transmitter sites. Sites which might work for one channel might not for another. This fact may have prevented some persons from filing for the particular channel; others planning to file on a channel now in the table and in process of completing their engineering work for the application might find the proposed channel shift makes all such plans impossible.

Just what these complications may be cannot be foretold in advance, especially since the changes affect prospective applicants as well as those who have already filed. The only way in which it can be insured that all persons are treated fairly by the change is to give an adequate period of time between the date upon which the Commission publicly takes action to change the table and the date on which the change becomes effective, to permit interested persons to adjust themselves accordingly. For these reasons, we do not believe that making channels available for use in the communities involved 30 days earlier than they would normally be available outweighs benefits to be derived from compliance with normal procedure.

In view of the foregoing, the above named petitions are hereby granted insofar as they request reconsideration of channel assignments and in all other respects are denied. *It is ordered*, That effective 30 days after publication in the FEDERAL REGISTER, the table of assignments contained in § 3.606 of the Commission's rules and regulations is amended to read as follows:

	Channel No.
Maryland:	
Baltimore	2+, 11−, 13+, 18, *24+, 60−
Pennsylvania:	
Harrisburg	27−, 55+, 71+
Reading	33+, 61−

Adopted: July 23, 1952.

Released: July 24, 1952.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1084; 47 U. S. C. 301, 303, 307)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-8283; Filed, July 25, 1952; 8:59 a. m.]

No. 146——4

[Docket Nos. 8736, 8975, 8976, 9175]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and engineering standards concerning the television broadcast service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

On June 23, 1952, Polan Industries filed a petition with the Commission requesting that the Commission reconsider its sixth report and order in the above entitled proceedings and assign an additional UHF channel, Channel 21, to Youngstown, Ohio, by substituting Channel 67 for Channel 21 at Warren, Ohio, or in the alternative that Channel 82 be assigned as an additional channel to Youngstown without making changes in the channel assignments to any other city. The petition also requested in the event the above not be granted that Channel 21 or Channel 82 be assigned to Youngstown in the manner described above in substitution for Channel 33 which is now assigned there. On July 15, 1952, Polan Industries withdrew this petition.

In the third notice of further proposed rule making (FCC 49-948), issued on March 22, 1951 in these proceedings, the Commission proposed the assignment of two channels, UHF Channels 27 and 33 to Youngstown, Ohio, and the assignment of UHF Channels 19, 21 and 47 to Cleveland, Ohio, Warren, Ohio, and Pittsburgh, Pennsylvania, respectively. In the sixth report and order the Commission finalized the assignment of these channels and assigned one additional UHF channel, Channel 73 to Youngstown.

The assignment of Channels 33 and 47 to Youngstown and Pittsburgh, respectively, is not in accordance with the Commission's mileage separation requirements adopted in these proceedings in that Youngstown and Pittsburgh are separated only 57 miles whereas § 3.610 of the Commission rules requires an assignment spacing of 60 miles between Channels 33 and 47 to avoid sound image interference. These assignments, therefore, appear in the table of assignments by error and must be corrected.

We are aware that Polan has filed a letter requesting the withdrawal of its petition for reconsideration. This withdrawal is apparently based on the belief that because petitioner has secured a transmitter site which would be more than 60 miles from Pittsburgh that the defect in the table of assignments referred to above has been cured and grants may be made in both Youngstown and Pittsburgh consistent with the standards prescribed in the sixth report. This is not the case. The sixth report makes it completely clear that an order for an assignment to appear in the Table a minimum separation must be met on a city-to-city basis as well as on a transmitter site basis. And the fact that proposed transmitter sites were available which would be separated by more than the minimum distance from cities in which other assignments were being made was expressly rejected in the sixth report as a basis for making assignments in the table of assignments.

We have examined the proposals for making the necessary corrections which were contained in the original petition for reconsideration filed by Polan and we believe that the alternative proposal contained therein which would eliminate the substandard separation by assigning Channel 21 to Youngstown in place of Channel 33 and by substituting Channel 67 for Channel 21 in Warren, Ohio, will best achieve these objectives in the best possible manner. These assignment changes are to be preferred to the assignment of Channel 82 in Youngstown in lieu of Channel 33 in view of the fact that the assignment changes we are making herein create a more efficient use of available channels in the Ohio area. This is so because in view of the assignments that have already been made in the UHF there is only a limited area in Ohio in which Channel 67 may be used. For example, Channel 67 cannot be used under our rules and standards in Youngstown. On the other hand, Channel 82 may be used throughout a much wider area in Ohio and in view of this fact we think it is clear that the Commission should maintain Channel 82 not assigned at this time so as to be in a position to take advantage of the greater flexibility in assignment which is permitted in connection with that channel.[1]

In view of the fact that the changes being adopted herein were contained in a petition for reconsideration properly filed in this proceeding and in view of the further fact that interested parties have had a full opportunity to submit any comments or counterproposals with respect to such proposals as they may and wished to make, we believe that it would be unnecessary at this time to go through the notice procedures set forth in section 4 of the Administrative Procedure Act. We shall, therefore, adopt without further proceedings the follow-

[1] On July 16, 1952 after the expiration of the 10 day period specified in § 1.730 of the Commission's rules for filing any opposition to a petition for reconsideration an opposition to this request was filed by the Warren Tribune Radio Station, Inc., an applicant for a television station on Channel 21 at Warren, Ohio. The basis for this opposition appears to be that making the changes adopted herein will require the Warren Tribune Radio Station, Inc., to amend its present application to specify Channel 67 in place of Channel 21. We have considered this opposition on its merits in spite of its late filing but in view of the fact that Channel 67 will work in Warren equally as well as Channel 21 and that the transmitter site specified in the Warren Tribune application will work equally as well on Channel 67 as on Channel 21, we believe that the opposition filed by Warren does not state any valid grounds of objection to the changes herein being made.

ing changes in the Table of Assignments adopted in the sixth report and order:

City	Channel No.	
	Delete	Add
Youngstown, Ohio	33	21
Warren, Ohio	21	67

The assignment of the channels in the manner prescribed will be in accordance with the standards adopted in this proceeding.

In view of the foregoing, *It is ordered*, That effective 30 days after publication in the FEDERAL REGISTER, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended to read as follows:

Ohio:	*Channel No.*
Warren	67+
Youngstown	21—, 27, 73—

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, as amended, 1084; 47 U. S. C. 301, 303, 307)

Adopted: July 23, 1952.

Released: July 24, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-8284; Filed, July 25, 1952; 8:59 a. m.]

[Docket Nos. 8736, 8975, 8976, 9175]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS

In the matters of amendment of § 3.606 of the Commission's rules and regulations, Docket Nos. 8736 and 8975; amendment of the Commission's rules, regulations and engineering standards concerning the television broadcast service, Docket No. 9175; utilization of frequencies in the Band 470 to 890 Mcs. for television broadcasting, Docket No. 8976.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of July 1952;

It appearing, that the Commission on April 14, 1952, issued its Sixth Report and Order in the above entitled proceedings which, among other things, adopted and revised the Table of Assignments of television channels in § 3.606 of its rules and regulations and provided by footnote 1 of this section for offset carrier identifications then in the course of preparation to be included in such Table of Assignments as soon as practicable to do so; and

It further appearing, that the Commission has now completed such preparation of and is in a position to announce the offset carrier identifications; and

It further appearing, that television broadcast stations now licensed should be afforded sufficient time in which to adjust carrier frequencies to conform with the offset carrier identifications adopted herein; and

It further appearing, that authority for the amendments adopted herein is contained in sections 4 (i), 301 and 303 of the Communications Act of 1934, as amended;

It is ordered, That § 3.606 of Part 3 of the Commission's Rules and Regulations is amended, without change in the channel assignment numbers listed therein, by the deletion of the present wording of footnote 1 and the substitution of the following:

[1] Television broadcast stations authorized as of July 10, 1952, are permitted to operate with carrier frequencies not offset in the manner required by this section until April 1, 1953. Offset carrier frequencies of such television stations operating on channels so affected will be listed in all construction permits, licenses, or renewal of licenses, upon issuance thereof. Permitees and licensees who wish to so operate prior to the time offset carrier frequencies are specified in their authorizations may request authority for such operation by filing informal requests therefor.

and by the addition of the offset carrier identifications for channel assignment numbers as set forth below.

It is further ordered, That to facilitate the processing of applications for authority to construct new television stations this order shall be effective immediately.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 48 Stat. 1081, 1082; 47 U. S. C. 301, 303)

Released: July 11, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

PART 12—AMATEUR RADIO SERVICE

ELIGIBILITY FOR LICENSE; ADVANCED CLASS

In the matter of amendment of § 12.21 (b) of the Commission's rules governing Amateur Radio Service.

At a session of the Federal Communications Commission held in its offices in Washington, D. C., on the 16th day of July 1952.

The Commission having under consideration the matter of amendment of § 12.21 (b) of Part 12—Amateur Radio Service to enable, under certain conditions, otherwise eligible members of the Armed Forces of the United States to qualify for the Advanced Class amateur operator license without regard to the one-year waiting period now required by that section; and

It appearing, that this amendment is minor in nature and that it relieves and existing restriction, and, therefore, the proposed rule-making procedure prescribed by section 4 of the Administrative Procedure Act is unnecessary and the rule can be made effective immediately.

It is ordered, Under authority contained in sections 4 (i) 303 (l), and (r) of the Communications Act of 1934, as amended, that § 12.21 (b) of Part 12 be, and it hereby is, amended, effective immediately, to read as follows:

§ 12.21 *Eligibility for license.* • • •

(b) *Advanced class.* Any citizen of the United States who at any time prior to the receipt of his application by the Commission has held, for a period of one year or more, an amateur operator license issued by the Federal Communications Commission, excluding licenses of the Novice and Technician Classes: *Provided, however*, That persons serving

in the Armed Forces of the United States may take the examination for Advanced Class Amateur Operator License without regard to the one-year waiting period when any such person would become eligible to qualify for such license prior to December 31, 1952, but because of the nature of his military assignment would be unable to report for examination at the time he would become eligible to do so. Results of such examinations would be held by the Commission and considered upon the expiration of the one-year period. New Advanced Class amateur operator licenses will not be issued after December 31, 1952. However, Advanced Class (or Class A) licenses may continue to be renewed as set forth in § 12.27.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082; 47 U. S. C. 303)

Released: July 17, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-8217; Filed, July 25, 1952; 8:58 a. m.]

[Docket No. 10113]

PART 18—INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICE

STATEMENT OF BASIS AND PURPOSE

In the matter of amendment of Part 18 of the Commission's rules and regulations.

On January 31, 1952, the Commission issued a notice of proposed rule making in the above-entitled matter. Interested persons were given until March 21, 1952, to file comments. Comments were received from one interested party. These comments appear to be in general agreement with the proposed amendment; however, certain specific recommendations were made and the Commission has incorporated these recommendations in the final amendment.

The proposed amendment has been modified to delete the requirement that arc welding equipment be operated in a shielded room or space and has substituted therefor the requirement that sufficient shielding be provided to reduce the radiation to the value permitted by the rules. Other changes were made to permit the use of measuring equipment other than that similar to the proposed standards provided suitable adjustment is made in the readings obtained. Provision has also been made to permit the certification of equipment on the basis of test data obtained at sites other than those at which the equipment is in actual operation.

All comments received have been given careful consideration and it appears that no new issues or facts which would require oral argument or hearing are raised by said comments, and it is not believed oral argument or hearing would contribute to a decision in this matter.

Accordingly, it is ordered, That effective August 15, 1952, the footnote to § 18.1 (a) be and the same is hereby amended as follows:

[1] The effective date of Part 18 with respect to electric arc welding devices using radio frequency energy is suspended from January 31, 1952, until January 31, 1954: *Provided, however*, That equipment manufactured after September 1, 1952, shall be subject to the same technical limitations and standards as are set forth for industrial heating equipment in §§ 18.21 to 18.24, inclusive, except that such equipment need not be operated within a shielded room or space but in lieu thereof shall be operated with sufficient shielding to limit the radiation to the value prescribed in § 18.22: *And further provided*, That broad band types of emissions from arc welding equipment shall be measured by an instrument having performance characteristics similar to the "Proposed American Standard Specification for a Radio Noise Meter—0.15 to 25 Megacycles/Second" dated March 1950, published by the American Standards Association Committee on Radio Electrical Coordination C63. Quasi-peak values of field intensity shall be measured and used in determining compliance with §§ 18.21 (b) and 18.22 (a). Instruments not having characteristics similar to the above-mentioned standards may be used provided suitable correlation factors are used to adjust the field intensity readings to values which would be obtained with an instrument having the desired characteristics.

(Sec. 4, 48 Stat. 1086, as amended; 47 U. S. C. 154)

The certification required by § 18.22 may be used upon field intensity measurements made by the manufacturer of the equipment at locations other than the one where the equipment is in use provided such certification includes a statement by the operator of the equipment that the equipment covered thereby has been installed and is being operated in conformity to the instructions issued by the manufacturer.

Adopted: July 10, 1952.

Released: July 14, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-8214; Filed, July 25, 1952; 8:56 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

MORRIS COMMISSION CO.

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Morris Commission Company, Durant, Oklahoma, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 22d day of July 1952.

[SEAL] H. E. REED,
Director, Livestock Branch, Production and Marketing Administration.

[F. R. Doc. 52-8260; Filed, July 25, 1952; 8:59 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 1, 31]

[Docket No. 10229]

UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND CLASS B TELEPHONE COMPANIES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend Part 31, including Appendix B thereof, of the Commission's rules and regulations and related references in Part 1 as set forth below to become effective 6 months after the adoption of the final order herein, with the provision, however, if the order is adopted, that any carrier may follow the new requirements prescribed thereby as of January 1, 1953.

3. The proposed amendment is intended to clarify certain portions of the requirements and to improve, generally, upon the information provided by the continuing property record, particularly as maintained by those telephone companies having investment in account 100:1, "Telephone plant in service," in excess of $8,000,000, while at the same time relieving the carriers of maintaining certain property details that do not appear to be necessary.

4. The proposed amendment is issued under authority of sections 4 (i) and 220 of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the manner proposed herein, may file with the Commission on or before August 11, 1952, a statement or brief setting forth his comments. At the same time persons favoring the amendment as proposed may file statements in support thereof. Comments or briefs in reply to the original comments or briefs may be filed on or before September 2, 1952. The Commission will consider all such comments that are presented before taking action in the matter and, if any comments are submitted which appear to warrant the holding of oral argument, notice of the time and place of such oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and fourteen copies of all statements or briefs filed, plus one extra copy for each party to the proceeding in the case of comments in reply to the original statements or briefs, shall be furnished to the Commission.

Adopted: July 10, 1952.

Released: July 11, 1952.

FEDERAL COMMUNICATIONS COMMISSION
[SEAL] T. J. SLOWIE,
Secretary.

1. Proposed amendment of Part 31, Uniform System of Accounts for Class A and Class B Telephone Companies, of the Commission's rules and regulations.

a. Delete §§ 31.2-24, 31.2-25 and 31.2-26 and substitute the following:

§ 31.2-24 *Retirement units.* The "retirement units" (note also § 31.2-25 (b) (1)) are listed in § 31.8. Additions to or revisions of that list will be issued, when necessary, by the Commission, to which any applications for such additions or revisions shall be presented by the company. (See also paragraph 2 of Appendix B of this part.)

§ 31.2-25 *Telephone plant retired.* (a) To the end that the telephone plant accounts (note §§ 31.2-20, 31.2-21) shall at all times disclose the original cost (note § 31.01-3 (x)) of all property in service, the original cost of retired property, whether replaced or not (except as provided in paragraph (b) (2) of this section), shall be credited to the account or accounts in this classification to which such cost was charged. Every company shall, therefore, take such measures and establish such procedure as will insure strict compliance with these requirements. When any item of property subject to plant retirement accounting is worn out, lost, sold, destroyed, abandoned, surrendered upon lapse of title, becomes permanently unserviceable, is withdrawn or for any other reason, is retired from service, the amount in the plant accounts applicable to that item shall be credited to the appropriate plant accounts, and the retirement entry shall refer to the source (or to the supporting records showing the source) in the continuing property record from which the cost was obtained. (Note also paragraph (e) of this section.)

(b) Depreciable telephone plant: For the purpose of avoiding undue refinement in accounting for the replacement of small items of property, the accounting for retirements and replacements of depreciable telephone plant shall be as follows:

(1) Retirement units: This group includes major items of property, a list of which is shown in § 31.8. The original cost of any such item retired shall be credited to the plant account and charged to account 171, "Depreciation reserve," whether or not replaced. (Note also paragraph (b) of account 171.) The original cost of property installed in place of the property retired shall be charged to the appropriate telephone plant account.

(2) Minor items: This group includes any part or element which is not designated as a retirement unit. The original cost of any minor item of property retired and not replaced shall be credited to the plant account and charged to account 171 (note also paragraph (b) of the text of that account), except that if the original cost of a minor item of property is included in the specific or average cost for a retirement unit of which the minor item is a part, no separate credit to the telephone plant account is required when such a minor item is retired. Except as provided in the note under account 231, "Station apparatus," in § 31.8, if minor items of property are replaced (apart from the retirement unit of which they form a part or with which they are associated) no adjustment shall be made in account 171. The cost of the replacement shall be charged to the account appropriate for the cost of repairs of the property, except that if the replacement effects a substantial betterment (the primary aim of which is to make the property affected more useful, of greater durability, of greater capacity, or more economical in operation) the excess cost of (i) such a replacement over (ii) the estimated cost at the then current prices of replacing without betterment the minor items being retired, shall be charged to the appropriate telephone plant account.

(c) Station installations, drop and block wires: When stations are removed from customers' premises, the original cost of the station installations carried in account 232, "Station installations," and of any drop and block wires carried in account 233, "Drop and block wires," thereby retired from service shall be credited to the plant accounts and charged to account 607, "Station removals and changes." The latter account shall be credited with the salvage value (note § 31.01-3 (bb)) of such property recovered. The cost of the removal of the station apparatus, inside, drop and block wires shall be charged to account 607.

(d) Land: The original cost of land retired shall be credited to account 211, "Land." If the land is sold, the difference between such original cost and the sale price (less commissions and other expenses of making the sale) of the land shall be credited to account 401, "Credits for telephone plant sold," or debited to account 410, "Debits for telephone plant sold," as may be appropriate. If the land is retained by the company and held for sale, its cost shall be charged to account 103, "Miscellaneous physical property." The accounting for leaseholds retired shall be as provided for in the texts of account 172, "Amortization reserve," and account 613, "Amortization of intangible property."

(e) Determination of the cost of property to be retired: The cost of telephone plant retired shall be the amount at which such property is included in the telephone plant accounts. When it is impracticable to determine the cost of each item due to the relatively large number or small cost of such items, the average cost of all the items covered by an appropriate subdivision of the account shall be used in determining the cost to be assigned to such items when retired: *Provided*, That the method used in determining average cost gives due regard to the quantity, size, and kind of items, the area in which they were installed and their classification in other respects, as called for by the rules of the Commission regarding continuing property records and by the system of continuing property records accepted by the Commission specifically for use of the accounting company. This method of average cost may be applied in retirement of such items as telephones, bell boxes, station installations, poles, crossarms, wire, cable, cable terminals, conduit, and nonmultiple private branch exchange switchboards. Any company may use average cost of property installed in a year or band of years. It should be understood, however, that the use of average costs shall not relieve the company of the requirement for maintaining its continuing property records in such manner as to show, where practicable, dates of installation and removal so as to provide these data for purposes of mortality studies.

(f) The accounting for the retirement of organization, franchises, patent rights, and other intangible property, shall be as provided for in the texts of account 172, "Amortization reserve," account 413, "Miscellaneous debits to earned surplus," account 613, "Amortization of intangible property," and account 100:4, "Telephone plant acquisition adjustment."

(g) When telephone plant is sold together with the telephone traffic associated therewith, the original cost of the property shall be credited to the appropriate plant accounts and the estimated amounts carried with respect thereto in the depreciation and amortization reserve accounts shall be charged to such reserve accounts. The difference, if any, between (1) the net amount of such debit and credit items and (2) the consideration received (less commissions and other expenses of making the sale) for the property shall be included, if a debit, in account 410, "Debits for telephone plant sold," and if a credit, in account 401, "Credits for telephone plant sold." The accounting for depreciable telephone plant sold without the traffic associated therewith shall be in accordance with the accounting provided in paragraph (b) of account 171, "Depreciation reserve."

§ 31.2-26 *Continuing property record required.* (a) Not later than June 30 of the year following that in which a company becomes subject (note § 31.-01-1) to these accounts (note § 31.01-3 (a)) each company shall file with the

Commission three copies of a complete plan of the method to be used in the compilation of a continuing property record with respect to each class of property for which such records are hereinafter prescribed. The plan shall include a list of the property-record units proposed for use under each plant account. A narrative statement shall accompany the list of proposed property-record units, describing in detail the content and method of maintenance of all forms and other records which are designed for use in compiling the continuing property record, to the end that a ready analysis with respect to the sufficiency thereof may be made. In preparing this narrative statement, the company shall include typical examples indicating the use of, and relationship between, the various forms and records.

NOTE: Companies subject to these accounts on June 30, 1943, were required by the then effective rules to compile a continuing property record with respect to property as at December 31, 1936, and to reflect therein all subsequent additions and retirements.

(b) Any company may, in lieu of submitting the plan provided for in paragraph (a) of this section, submit to the Commission not later than June 30 of the year following that in which the company becomes subject to these accounts, a statement in triplicate that it concurs in and proposes to pursue in all particulars a plan filed with the Commission by another company which it is believed conforms fully to the requirements of paragraph (a) of this section.

(c) Not later than June 30 of the year following that in which a company becomes subject to these accounts each company shall begin the preparation of a continuing property record with respect to property of each class represented in the several plant accounts comprised by balance-sheet accounts 100:1, "Telephone plant in service," and 100:3, "Property held for future telephone use," and with respect to property represented in account 103, "Miscellaneous physical property." These records shall be completed not later than 2 years after the prescribed date of beginning with respect to property as at the date the company becomes subject to these accounts and with respect to the changes effected therein between such date and the end of the calendar year preceding the date that these records are required to be completed. Property changes (whether made by companies already subject to these rules or those becoming subject hereafter) affecting the period subsequent to the end of that year for which the records are required to be completed shall be promptly processed in the continuing property record to the end that the record shall provide reasonably current data at all times.

(d) The continuing property record shall be arranged in conformity with the plant accounts prescribed in this system of accounts. It shall be compiled on basis of original cost (or other book cost consistent with the provisions of this system of accounts). The record or records supplemental thereto shall contain such detailed description and classification of property-record units as will permit their ready identification and verification. They shall be maintained in such manner as will meet the following basic objectives:

(1) An inventory of property-record units which may be readily spot-checked for proof of physical existence.

(2) The association of costs with such property-record units to assure accurate accounting for retirements.

(3) The determination of dates of installation and removal of plant retired to provide data for use in connection with depreciation studies.

The record or records supplemental thereto shall accordingly reveal clearly, in relation to designated accounting areas, detailed and systematically summarized information as to the kind, character, size, quantity, location, year of placement and retirement where practicable, ownership, and actual or apportioned original cost (or other appropriate book cost) of the telephone plant and other property-record units aggregately represented by the concurrent balances in accounts 100:1, "Telephone plant in service," 100:3, "Property held for future telephone use," and 103, "Miscellaneous physical property." In order that there may be on hand at the time of retirement a maximum of pertinent cost data, every effort shall be made at the time plant is constructed and/or installed to obtain all such available cost data by subcontracts, trades, and if practicable, by retirement units.

NOTE: See Appendix B, Standard Practices for the Establishment and Maintenance of Continuing Property Records by Telephone Companies Having Investment in Account 100:1, "Telephone Plant in Service," in Excess of $8,000,000, of this part.

b. Delete Appendix B in its entirety and substitute the following:

APPENDIX B

STANDARD PRACTICES FOR THE ESTABLISHMENT AND MAINTENANCE OF CONTINUING PROPERTY RECORDS BY TELEPHONE COMPANIES HAVING INVESTMENT IN ACCOUNT 100:1, "TELEPHONE PLANT IN SERVICE," IN EXCESS OF $8,000,000

Accounting areas. (a) The continuing property record, as related to each primary plant account, shall be established and maintained by subaccounts for each accounting area. An accounting area is the smallest territory of the company for which accounting records of investment are maintained for all plant accounts within the area. Areas already established for administrative, accounting, valuation, or other purposes may be adopted for this purpose when appropriate. In no case shall the boundaries of accounting areas cross State lines. In determining the limit of each area, consideration shall be given to the quantities of property, construction conditions, operating districts, county and township lines, taxing district boundaries, city limits, and other political or geographical limits, in order that the areas adopted may have a maximum adaptability, within the confines of practicability, for both the company's purposes and those of Federal, State, and municipal authorities.

(b) Not later than June 30, following the year in which a company's investment in account 100:1, "Telephone plant in service," exceeded $8,000,000, there shall be filed with the Commission three copies of a list of accounting areas, to be accompanied by descriptions of the boundaries of each area. Description of proposed major changes in accounting areas, such as consolidation, subdivision, addition or elimination of areas shall be submitted in triplicate to the Commission thirty days in advance of the proposed effective dates of such changes.

2. Property-record units. (a) In each of the established accounting areas, the "property-record units" (in terms of which the continuing property record is to be maintained) shall be set forth separately, classified by size and type and with the amount of original cost (or other appropriate book cost) associated with such units. When a list of property-record units has been accepted by the Commission, the property-record units set forth therein shall become the property-record units referred to in this statement of standard practices. When it is found necessary to revise this list because of the addition of units used in providing new types of service, or new units resulting from improvements in the art, or because of the grouping or elimination of units which no longer merit separate recognition as property-record units, three copies of the proposed revisions shall be submitted to the Commission.

(b) With respect to land in fee classifiable in account 207, "Right of way," and land classifiable in account 211, "Land," the property-record unit to be set forth in the continuing property record shall be a parcel of land. A land parcel means one continuous parcel shall be identified as to functions and location. In the continuing property record or in records supplemental thereto there shall be shown with respect to each land parcel the area, identity of vendors, grantors, or other conveyors of title, identification of deeds, or other instruments, and original cost.

(c) The continuing property record shall reveal the location, the essential details of construction, and the cost of each building. In cases where the underlying records of construction costs of buildings are available, such costs shall be so analyzed and the analyses so maintained that, upon any retirement of one or more retirement units or of minor items (without replacement), a reasonably accurate estimate of the cost of the plant retired can be made. In cases where no construction cost details are available and a retirement of a portion of such a building is made, the cost of the plant retired shall be determined on an estimated basis by allocating to such plant retired an equitable portion of the estimated cost of the contract or trade (e. g., masonry, plumbing, etc.) in which the specific retirement is being made. Allocations shall be made in such a manner as to insure that the unit being retired will carry its ratable share of architectural and engineering fees and other similar indirect costs.

(d) The continuing property record shall reveal the location, the essential details of construction, and the cost of each type of central office (manual, step-by-step, etc.) in each building, and of each large private branch exchange. Because of the small number of interim retirements and the comparatively small amounts involved therein, unless such annual retirements become at least 25% of the balance at the beginning of the year with respect to any central office, the cost of each central office need not be broken down into the individual retirement units of which it is composed. The underlying records of construction cost shall be so maintained that, upon any retirement of one or more retirement units or of minor items (without replacement), a reasonably accurate estimate of the cost of the plant retired can be made.

(e) The continuing property record shall show the number and nature of items included in account 261, "Furniture and office equipment," and account 264, "Vehicles and other work equipment," whether such items are retired on an average cost basis or otherwise.

3. Method of determining original cost (note § 31.01–3 (x)) of property-record units. Original cost of the property-record units shall be determined by analyses of the construction costs incurred as shown by completion reports, or other data, covering the respective construction work orders or authorizations, provided that in those cases where the actual original cost of property cannot be ascertained, such original cost shall be estimated. Such estimated original cost shall be consistent with the accounting practices in effect at the time of construction of the property. Costs shall be allocated to and associated with the property-record units in such manner as to assure accurate accounting for retirements.

4. Average costs. (a) In the development of average costs for plant consisting of a large number of similar units, such as telephones, bell boxes, station installations, poles, crossarms, wire, cable, cable terminals, conduit, and nonmultiple private branch exchange switchboards, units of similar size and type within each specified accounting area and plant account may be grouped without regard to year of construction. Each such average cost shall be set forth in the continuing property record or in records supplemental thereto and in support thereof.

(b) The averaging of costs permitted under the provisions of the foregoing paragraph is restricted to the averaging of costs incurred within an accounting area as defined in paragraph 1 (a). The provisions of paragraph 4 (a) shall not be interpreted as permitting the inclusion within such average cost of the cost of units involved in any unusual or special types of construction. The units involved in such unusual or special types of construction shall be recorded at actual cost by locations.

(c) When classes of plant are subdivided between exchange and toll, the bases of the average costs shall be confined to items priced in the respective subdivisions.

5. Identification of property-record units. There shall be shown in the continuing property record, or in records supplemental thereto and in support thereof, a complete description of the property-record units in such detail as to identify plainly such units. The description (except for classes of plant for which it is impracticable, such as station apparatus, station installations, and drop and block wires) shall include the identification of the work order under which constructed the year of installation (unless not determinable at reasonable expense with respect to past acquisitions or installations), the specific location of the property within each accounting area in such manner that it can be readily spot-checked for proof of physical existence, the accounting company's number or designation, and any other description used in connection with the determination of the original cost. Descriptions of units of similar size and type shall follow prescribed groupings.

6. Reinstalled units. When units with respect to which average costs are not applied under the practices herein prescribed are removed or retired and subsequently reinstalled, the date when the unit was first charged to the appropriate plant account shall, when required for adequate service life studies and reasonably accurate retirement accounting, be shown in addition to the date of reinstallation.

7. Age of property. The continuing property record or records supplemental thereto and in support thereof shall be so maintained as to disclose the age of existing property and the service life of property retired. Exceptions from this requirement for any property-record units shall be submitted as part of the company's plan of continuing property records.

8. Reference to sources of information. There shall be shown by appropriate reference the source of all entries. All drawings, computations, and other detailed records which support either the quantities or the costs included in the continuing property record shall be retained as a part of or in support of the continuing property record.

9. Jointly owned property. (a) With respect to jointly owned property, there shall be shown in the continuing property record or records supplemental thereto:

(1) The identity of all joint owners.

(2) The percentage of ownership of the physical units vested in the accounting company.

NOTE: When plant is constructed under arrangements for joint ownership, the amount received by the constructing company from the other joint owner or owners shall be credited as a reduction of the gross cost of the plant in place. When a sale of a part interest in plant is made, the fractional interest sold shall be treated as a retirement and the amount received shall be treated as salvage. The continuing property record or records supplemental thereto shall be so maintained as to identify retirements of this nature separately from physical retirements of jointly owned plant.

(b) If jointly owned property is substantial in relation to the total of the same kind of property owned wholly by the company, such jointly owned property shall be appropriately segregated in the continuing property record.

2. Amend section 1.547 *Reports to be filed under Part 31 of this chapter* of Part 1, Practice and Procedure, as follows:

(a) Delete from paragraph (r) the reference to paragraph (c) of § 31.2–26.

(b) Delete paragraphs (u), (v), (w), and (x) and substitute the following:

(u) Appendix B—Standard Practices, CPR: Section 1 (b). Continuing property record; (1) list of accounting areas (with descriptions) and (2) descriptions of subsequent proposed changes in the list.

(v) CPR: Section 2 (a). Continuing property record; proposed revisions in list of property-record units.

ASSIGNMENT OF FREQUENCIES

NOTICE OF PROPOSED RULE MAKING

In the matter of Amendment of Parts 7, 8, and 14 of the Commission's rules concerning assignment of frequencies in the bands 14–150 kc, 150–200 kc, and 200–535 kc, and amendment of Part 7 of the rules concerning assignment of frequencies between 10 kc and 25,000 kc to coast stations using telegraphy; Docket No. 10231.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The agreement concluded at the Extraordinary Administrative Radio Conference (Geneva, 1951) necessitates implementation of the new international list as to frequencies in the band 14–150 kc by August 15, 1952, as to frequencies in the band 150–200 kc by December 1, 1952, and as to frequencies in the band 200–535 kc by November 1, 1952. Such implementation will involve termination of the availability of certain frequencies for use by coast and ship station licensees while making available new frequencies in accordance with the agreement. In anticipation of, and in order to facilitate this implementation, it is proposed to modify Parts 7, 8 and 14 of the Commission's rules at this time to show these changes. The proposed amendments are set forth below.

3. Additionally it is proposed to amend Part 7 of the Commission's rules so as to provide that in addition to the frequencies listed in the rules, other frequencies in the bands allocated for coast stations using telegraphy may be available for assignment to such stations. Although similar provision is now made in the rules, that provision is limited to the "purpose of facilitating the implementation" of the Geneva Agreement. Because it appears to be desirable to provide such a procedure for purposes other than "implementation", the rule amendment herein proposed, in effect, removes the foregoing limitation subject to a provision that initial authorizations for use of such unlisted frequencies would be restricted to a six months' period.

4. The proposed amendments are issued under the authority of sections 303 (c), and (f) and (r) of the Communications Act of 1934, as amended.

5. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth, may file with the Commission on or before July 21, 1952, a written statement or brief setting forth his comments. At the same time any person who favors the amendments as set forth may file a statement in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within five days from the last day for filing the said original comments or briefs. The Commission will consider all such comments, briefs and statements before taking final action.

6. In accordane with the provisions of § 1.784 of the Commission's rules, an original and 14 copies of all statements, briefs or comments shall be furnished the Commission.

Adopted: July 10, 1952.

Released: July 14, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

Proposed amendments of the rules of the Commission by parts and related sections:

1. Section 7.104 (a) is amended as follows:

a. Subparagraph (1), change the phrase "365 to 515 kc" to read "405 to 535 kc."

b. Subparagraph (1) (i) change the phrase "365 to 515 kc" to read "405 to 535 kc."

c. Subparagraph (1) (ii) change the band "365 to 515 kc" to read "405 to 535 kc."

2. Section 7.188 is amended as follows:

a. In each paragraph (a) and (b) change the phrase "365 to 515 kc" to read "405 to 535 kc."

b. Paragraph (c) change the phrase "100 to 160 kc" to read "90 to 160 kc."

3. Section 7.206 (a) is amended by deleting the following frequencies in kilocycles together with footnotes 4 and 5 from the assignable frequencies listed therein immediately following the sentence beginning "Each of the specific frequencies in kilocycles hereinafter designated in this paragraph may be licensed as an assigned frequency * * *":

[4]105	135	171	418
[4]107	136	173	420
[4]109	137	174	422
[4]110	138	176	425
111	139	177	430
112	140	178	432
114	141	179	436
116	145	180	438
117	146	181	442
118	147	182	448
119	148	183	452
120	149	184	454
121	150	186	[5]460
123	161	187	462
124	162	188	466
125	163	189	472
126	164	191	474
127	165	193	476
129	166	392	478
130	167	394	482
131	168	406	484
133	169	408	
134	170	410	

and by revising the table following the sentence "Each of the following frequencies is available for assignment to coast stations located within the general portion of the seacoast area of the continental United States as indicated below" to read as follows:

North Atlantic: 112.85, 124.05, 146.80, 130.35, 147.50, 132.10, 22407, 134.55, 22485, 137.00, 22503, 418, 22521, 436, 22599, 442, 22617, 460,[3] 472, 476, 482.
South Atlantic: 137.70, 434, 464, 472, 488, 22431, 22503, 22569.
Central Atlantic: 482.
North Pacific: 482, 22539.
South Pacific: 418, 464, 22413, 22467.
Central Pacific: 126.15, 147.85, 436, 460,[3] 476, 488, 22425, 22479, 22515, 22557, 22635.
Great Lakes: 482.
Gulf of Mexico: 139.80, 416, 420, 434, 438, 478, 484, 22431, 22467, 22569.

and by revising the sentence immediately following the foregoing table now reading "The following frequency is available for assignment to coast stations located within the Territory of Hawaii: 22509 kc." to read as follows:

The following frequencies are available for assignment to coast stations located in Puerto Rico and within the Territory of Hawaii:

Territory of Hawaii: 472 kc—Kahuku, T. H.; 22,509 kc—any location within T. H.
Puerto Rico: 486 kc—Ensenada; 128.95 kc—Ensenada.

4. Section 7.206 (b) (7) is amended to read as follows:

(7) In addition to the specific frequencies listed in paragraph (a) of this section, other frequencies within bands between 10 kc and 25,000 kc shown in the Commission's Table of Frequency Allocations contained in § 2.104 (a) of the rules as being allocated for use by coast stations using telegraphy may be assigned to such coast stations: *Provided, however,* That initial authorizations for such frequencies shall be limited to six months duration.

5. Section 7.206 (b) is amended as follows:

a. Delete subparagraphs (1) and (6).

b. Modify subparagraph (2) by deleting the reference therein to 448 kc, 452 kc, 454 kc and 462 kc.

6. Section 7.207 (a) is amended by modifying the reference therein to "365 to 515 kc" to read "405 to 535 kc."

7. Section 7.207 (b) is amended by modifying each reference to the phrase "100 to 160 kc" to read "90 to 160 kc."

8. Section 7.208 (d) is amended as follows:

a. In subparagraph (1) change the phrase "110 to 194 kc" to "110 to 150 kc."

b. In subparagraph (2) change the phrase "385 to 485 kc" to "415 to 490 kc."

9. Section 7.211 (a) (2) is amended by changing the phrase "365 to 515 kc" to read "405 to 535 kc."

10. Section 8.105 is amended as follows:

a. In paragraph (a) change the phrase "365 kc to 515 kc" to read "405 kc to 535 kc."

b. In paragraph (b) change the phrase "100 kc to 160 kc" to read "90 kc to 160 kc."

11. Section 8.201 is amended by changing the phrase "365 and 515 kc" to read "405 and 535 kc."

12. Section 8.221 is amended by changing the phrase "365 and 515 kc" to read "405 and 535 kc."

13. Section 8.222 is amended by changing the phrase "100 to 160 kc" to read "90 to 160 kc."

14. Section 8.321 (a) is amended as follows:

a. Delete the following frequencies from those set forth therein:

160 355 375 394 400

b. Insert in proper numerical order the following frequency and phrase:

448 (Region 2 only)

c. Delete footnote designator 1 following frequency 480.

15. Section 8.321 (b) is amended as follows:

a. Subparagraph (1) is modified by changing the last sentence to read: "Effective November 1, 1952, the use by ship stations of the radio channel of which 355 kc is the assigned frequency shall be discontinued."

b. Subparagraph (2) is amended to read as follows: "In addition to the transmission of specific signals for purposes of radiolocation, the radio-channel of which 410 kc is the assigned frequency may be used for communication by radiotelegraphy with direction finding stations in connection with established international operating procedure, relative to radiolocation by means of direction finding. The radio channel of which 375 kc is the assigned frequency, however, may be used for this purpose in lieu of 410 kc until not later than 3 A. M., E. S. T., November 1, 1952."
